Sec. 10-22.3f. Required health benefits. Insurance protection and benefits for employees shall provide the post-mastectomy care benefits required to be covered by a policy of accident and health insurance under Section 356t and the coverage required under Sections 356g, 356g.5, 356g.5-1, 356u, 356w, 356x, 356z.6, 356z.8, 356z.9, 356z.11, 356z.12, 356z.13, 356z.14, 356z.15, 356z.22, 356z.25, and 356z.26, and 356z.29, 356z.32, and 356z.33 of the Illinois Insurance Code. Insurance policies shall comply with Section 356z.19 of the Illinois Insurance Code. The Department of Insurance shall enforce the requirements of this Section.

Rulemaking authority to implement Public Act 95-1045, if any, is conditioned on the rules being adopted in accordance with all provisions of the Illinois Administrative Procedure Act and all rules and procedures of the Joint Committee on Administrative Rules; any purported rule not so adopted, for whatever reason, is unauthorized.

Section 30. The Illinois Insurance Code is amended by adding Section 356z.33 as follows:

(215 ILCS 5/356z.33 new)

Sec. 356z.33. Coverage of treatment models for early treatment of serious mental illnesses.

(a) For purposes of early treatment of a serious mental illness in a child or young adult under age 26, a group or individual policy of accident and health insurance, or managed care plan, that is amended, delivered, issued, or renewed after December 31, 2020 shall provide coverage of the following bundled, evidence-based treatment:

(1) Coordinated specialty care for first episode psychosis treatment, covering the elements of the treatment model included in the most recent national research trials conducted by the National Institute of Mental Health in the Recovery After an Initial Schizophrenia Episode (RAISE) trials for psychosis resulting from a serious mental illness, but excluding the components of the treatment model related to education and employment support.

(2) Assertive community treatment (ACT) and community support team (CST) treatment. The elements of ACT and CST to be covered shall include those covered under Article V of the Illinois Public Aid Code, through 89 Ill. Adm. Code 140.453(d)(4).

(b) Adherence to the clinical models. For purposes of ensuring adherence to the coordinated specialty care for first episode psychosis treatment model, only providers contracted with the Department of Human Services’ Division of Mental Health to be FIRST.IL providers to deliver coordinated specialty care for first episode psychosis treatment shall be permitted to provide such treatment in accordance with this Section and such providers must adhere to the fidelity of the treatment model. For purposes of ensuring fidelity to ACT and CST, only providers certified to provide ACT and CST by the Department of Human Services’ Division of Mental Health and approved to provide ACT and CST by the Department of Healthcare and Family Services, or its designee, in accordance with 89 Ill. Adm. Code 140, shall be permitted to provide such services under this Section and such providers shall be required to adhere to the fidelity of the models.

(c) Development of medical necessity criteria for coverage. Within 6 months after the effective date of this amendatory Act of the 101st General Assembly, the Department of Insurance shall lead and convene a workgroup that includes the Department of Human Services’ Division of Mental Health, the Department of Healthcare and Family Services, providers of the treatment models listed in this Section, and insurers operating in Illinois to develop medical necessity criteria for such treatment models for purposes of coverage under this Section. The workgroup shall use the medical necessity criteria the State and other states use as guidance for establishing medical necessity for insurance coverage. The Department of Insurance shall adopt a rule that defines medical necessity for each of the 3 treatment models listed in this Section by no later than June 30, 2020 based on the workgroup’s recommendations.

(d) For purposes of credentialing the mental health professionals and other medical professionals that are part of a coordinated specialty care for first episode psychosis treatment team, an ACT team, or a CST team, the credentialing of the psychiatrist or the licensed clinical leader of the treatment team shall qualify all members of the treatment team to be credentialed with the insurer.

(e) Payment for the services performed under the treatment models listed in this Section shall be based on a bundled treatment model or payment, rather than payment for each separate service delivered by a treatment team member. By no later than 6 months after the effective date of this amendatory Act of the 101st General Assembly, the Department of Insurance shall convene a workgroup of Illinois insurance companies and Illinois mental health treatment providers that deliver the bundled treatment approaches listed in this Section to determine a coding solution that allows for these bundled treatment models to be coded and paid for as a bundle of services, similar to intensive outpatient treatment where multiple services are covered under one billing code or a bundled set of billing codes. The coding solution shall ensure that services delivered using coordinated specialty care for first episode psychosis treatment, ACT, or CST are provided and billed as a bundled service, rather than for each individual service provided by a treatment team member, which would deconstruct the evidence-based practice. The coding solution shall be reached prior to coverage, which shall begin for plans amended, delivered, issued, or renewed after December 31, 2020, to ensure coverage of the treatment team approaches as intended by this Section.

(f) If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, adopts rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, under any provision of the Patient Protection and Affordable Care Act (P.L. 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(b), or any successor provision, to defray the cost of any coverage for serious mental illnesses or serious emotional disturbances outlined in this Section, then the requirement that a group or individual policy of accident and health insurance or managed care plan cover the bundled treatment approaches listed in this Section is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of the coverage.

(g) After 5 years following full implementation of this Section, if requested by an insurer, the Department of Insurance shall contract with an independent third party with expertise in analyzing health insurance premiums and costs to perform an independent analysis of the impact coverage of the team-based treatment models listed in this Section has had on insurance premiums in Illinois. If premiums increased by more than 1% annually solely due to coverage of these treatment models, coverage of these models shall no longer be required.

(h) The Department of Insurance shall adopt any rules necessary to implement the provisions of this Section by no later than June 30, 2020.

(1) a corporation authorized under the Dental Service Plan Act or the Voluntary Health Services Plans Act;
(2) a corporation organized under the laws of this State; or
(3) a corporation organized under the laws of another state, 30% or more of the enrollees of which are residents of this State, except a corporation subject to substantially the same requirements in its state of organization as is a "domestic company" under Article VIII 1/2 of the Illinois Insurance Code.

(c) In considering the merger, consolidation, or other acquisition of control of a Health Maintenance Organization pursuant to Article VIII 1/2 of the Illinois Insurance Code,

(1) the Director shall give primary consideration to the continuation of benefits to enrollees and the financial conditions of the acquired Health Maintenance Organization after the merger, consolidation, or other acquisition of control takes effect;
(2) the criteria specified in subsection (1)(b) of Section 131.8 of the Illinois Insurance Code shall not apply and (ii) the Director, in making his determination with respect to the merger, consolidation, or other acquisition of control, need not take into account the effect on competition of the merger, consolidation, or other acquisition of control;
(3) the Director shall have the power to require the following information:

(A) certification by an independent actuary of the adequacy of the reserves of the Health Maintenance Organization sought to be acquired;

(C) a pro forma business plan detailing an acquiring party's plans with respect to the operation of the Health Maintenance Organization sought to be acquired for a period of not less than 3 years; and

(d) The provisions of Article VIII 1/2 of the Illinois Insurance Code and this Section 5-3 shall apply to the sale by any health maintenance organization of greater than 10% of its enrollee population (including without limitation the health maintenance organization's right, title, and interest in and to its health care certificates).

(e) In considering any management contract or service agreement subject to Section 141.1 of the Illinois Insurance Code, the Director (i) shall, in addition to the criteria specified in Section 141.2 of the Illinois Insurance Code, take into account the effect of the management contract or service agreement on the continuation of benefits to enrollees and the financial condition of the health maintenance organization to be managed or serviced, and (ii) need not take into account the effect of the management contract or service agreement on competition.

(f) Except for small employer groups as defined in the Small Employer Rating, Renewability and Portability Health Insurance Act and except for medicare supplement policies as defined in Section 363 of the Illinois Insurance Code, a Health Maintenance Organization may by contract agree with a group or other enrollment unit to effect refunds or charge additional premiums under the following terms and conditions:

The Health Maintenance Organization shall include a statement in the evidence of coverage issued to each enrollee describing the possibility of a refund or additional premium, and upon request of any group or enrollment unit, provide to the group or enrollment unit a description of the method used to calculate (1) the Health Maintenance Organization's profitable experience with respect to the group or enrollment unit and the resulting refund to the group or enrollment unit or (2) the Health Maintenance Organization's unprofitable experience with respect to the group or enrollment unit and the resulting additional premium to be paid by the group or enrollment unit.

In no event shall the Illinois Health Maintenance Organization Guaranty Association be liable to pay any contractual obligation of an insolvent organization to pay any refund authorized under this Section.

participation for Individual Care Grant expenditures made by the Department of Healthcare and Family Services for the Medicaid optional service authorized under Section 1905(h) of the federal Social Security Act, pursuant to the provisions of Section 7.1 of the Mental Health and Developmental Disabilities Administrative Act. The Department of Healthcare and Family Services may exercise the authority under this Section as is necessary to administer Individual Care Grants as authorized under Section 7.1 of the Mental Health and Developmental Disabilities Administrative Act.

(c) The Department of Healthcare and Family Services shall work collaboratively with the Department of Children and Family Services and the Division of Mental Health of the Department of Human Services to implement subsections (a) and (b).

(d) On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

(e) All rights, powers, duties, and responsibilities currently exercised by the Department of Human Services related to the Individual Care Grant program are transferred to the Department of Healthcare and Family Services with the transfer and transition of the Individual Care Grant program to the Department of Healthcare and Family Services to be completed and implemented within 6 months after the effective date of this amendatory Act of the 99th General Assembly. For the purposes of the Successor Agency Act, the Department of Healthcare and Family Services is declared to be the successor agency of the Department of Human Services, but only with respect to the functions of the Department of Human Services that are transferred to the Department of Healthcare and Family Services under this amendatory Act of the 99th General Assembly.

(1) Each act done by the Department of Healthcare and Family Services in exercise of the transferred powers, duties, rights, and responsibilities shall have the same legal effect as if done by the Department of Human Services or its offices.

(2) Any rules of the Department of Human Services that relate to the functions and programs transferred by this amendatory Act of the 99th General Assembly that are in full force on the effective date of this amendatory Act of the 99th General Assembly shall become the rules of the Department of Healthcare and Family Services.

Services. All rules transferred under this amendatory Act of the 99th General Assembly are hereby amended such that the term "Department" shall be defined as the Department of Healthcare and Family Services and all references to the "Secretary" shall be changed to the "Director of Healthcare and Family Services or his or her designee". As soon as practicable hereafter, the Department of Healthcare and Family Services shall revise and clarify the rules to reflect the transfer of rights, powers, duties, and responsibilities affected by this amendatory Act of the 99th General Assembly, using the procedures for recodification of rules available under the Illinois Administrative Procedure Act, except that existing title, part, and section numbering for the affected rules may be retained. The Department of Healthcare and Family Services, consistent with its authority to do so as granted by this amendatory Act of the 99th General Assembly, shall propose and adopt any other rules under the Illinois Administrative Procedure Act as necessary to administer the Individual Care Grant program. These rules may include, but are not limited to, the application process and eligibility requirements for recipients.

(3) All unexpended appropriations and balances and other funds available for use in connection with any functions of the Individual Care Grant program shall be transferred for the use of the Department of Healthcare and Family Services to operate the Individual Care Grant program. Unexpended balances shall be expended only for the purpose for which the appropriation was originally made. (5) All books, records, papers, documents, property (real and personal), contracts, and pending business pertaining to the powers, duties, rights, and responsibilities related to the functions of the Individual Care Grant program, including, but not limited to, material in electronic or magnetic format and necessary computer hardware and software, shall be delivered to the Department of Healthcare and Family Services; provided, however, that the delivery of this information shall not violate any applicable confidentiality constraints.

(6) Whenever reports or notices are now required to be made or given or papers or documents furnished or served by any person to or upon the Department of Human Services in connection with any of the functions transferred by this amendatory Act of the 99th General Assembly, the same shall be made, given, furnished, or served in the same manner to or upon the Department of Healthcare and Family Services.

(7) This amendatory Act of the 99th General Assembly shall not affect any act done, ratified, or canceled or any right occurring or established or any action or proceeding had or commenced in an administrative, civil, or criminal cause regarding the Department of Human Services before the effective date of this amendatory Act of the 99th General Assembly; and those actions or proceedings may be defended, prosecuted, and continued by the Department of Human Services.

(f) (Blank). The Individual Care Grant program shall be inoperative during the calendar year in which implementation begins of any remedies in response to litigation against the Department of Healthcare and Family Services related to children’s behavioral health and the general status of children’s behavioral health in this State. Individual Care Grant recipients in the program the year it becomes inoperative shall continue to remain in the program until it is clinically appropriate for them to step down in level of care.

(g) Family Support Program. The Department of Healthcare and Family Services shall restructure the Family Support Program, formerly
known as the Individual Care Grant program, to enable early treatment of youth, emerging adults, and transition-age adults with a serious mental illness or serious emotional disturbance.

1. As used in this subsection and in subsections (h) through (s):

   (A) "Youth" means a person under the age of 18.
   (B) "Emerging adult" means a person who is 18 through 20 years of age.
   (C) "Transition-age adult" means a person who is 21 through 25 years of age.

2. The Department shall amend 89 Ill. Adm. Code 139 in accordance with this Section and consistent with the timelines outlined in this Section.

3. Implementation of any amended requirements shall be completed within 8 months of the adoption of any amendment to 89 Ill. Adm. Code 139 that is consistent with the provisions of this Section.

4. To align the Family Support Program with the Medicaid system of care, the services available to a youth, emerging adult, or transition-age adult through the Family Support Program shall include all Medicaid community-based mental health treatment services and all Family Support Program services included under 89 Ill. Adm. Code 139. No person receiving services through the Family Support Program or the Specialized Family Support Program shall become a Medicaid enrollee unless Medicaid eligibility criteria are met and the person is enrolled in Medicaid. No part of this Section creates an entitlement to services through the Family Support Program, the Specialized Family Support Program, or the Medicaid program.

5. The Family Support Program shall align with the following system of care principles:

   (A) Treatment and support services shall be based on the results of an integrated behavioral health assessment and treatment plan using an instrument approved by the Department of Healthcare and Family Services.

   (B) Strong interagency collaboration between all State agencies the parent or legal guardian is involved with for services, including the Department of Healthcare and

Family Services, the Department of Human Services, the Department of Children and Family Services, the Department of Juvenile Justice, and the Illinois State Board of Education.

(C) Individualized, strengths-based practices and trauma-informed treatment approaches.

(D) For a youth, full participation of the parent or legal guardian at all levels of treatment through a process that is family-centered and youth-focused. The process shall include consideration of the services and supports the parent, legal guardian, or caregiver requires for family stabilization, and shall connect such person or persons to services based on available insurance coverage.

(h) Eligibility for the Family Support Program. Eligibility criteria established under 89 Ill. Adm. Code 139 for the Family Support Program shall include the following:

1. Individuals applying to the program must be under the age of 26.
2. Requirements for parental or legal guardian involvement are applicable to youth and to emerging adults or transition-age adults who have a guardian appointed under Article XIa of the Probate Act.
3. Youth, emerging adults, and transition-age adults are eligible for services under the Family Support Program upon their third inpatient admission to a hospital or similar treatment facility for the primary purpose of psychiatric treatment within the most recent 12 months and are hospitalized for the purpose of psychiatric treatment.
4. School participation for emerging adults applying for services under the Family Support Program may be waived by request of the individual at the sole discretion of the Department of Healthcare and Family Services.
5. School participation is not applicable to transition-age adults.

1. Within 12 months after the effective date of this amendatory Act of the 101st General Assembly, the Department of Healthcare and Family Services, with meaningful stakeholder involvement
input through a working group of psychiatric hospitals, Family Support Program providers, family support organizations, the Community and Residential Services Authority, a statewide association representing a majority of hospitals, and foster care alumni advocates, shall establish a clear process by which a youth's or emerging adult's parents, guardian, or caregiver, or the emerging adult or transition-age adult, is identified, notified, and educated about the Family Support Program and the Specialized Family Support Program upon a first psychiatric inpatient hospital admission, and any following psychiatric inpatient admissions. Notification and education may take place through a Family Support Program coordinator, a mobile crisis response provider, a Comprehensive Community Based Youth Services provider, the Community and Residential Services Authority, or any other designated provider or coordinator identified by the Department of Healthcare and Family Services. In developing this process, the Department of Healthcare and Family Services and the working group shall take into account the unique needs of emerging adults and transition-age adults without parental involvement who are eligible for services under the Family Support Program. The Department of Healthcare and Family Services and the working group shall ensure the appropriate provider or coordinator is required to assist individuals and their parents, guardians, or caregivers, as applicable, in the completion of the application or referral process for the Family Support Program or the Specialized Family Support Program.

(2) Upon a youth's, emerging adult's or transition-age adult's second psychiatric inpatient hospital admission, the hospital must ensure that the youth's parents, guardian, or caregiver, or the emerging adult or transition-age adult, have been notified of the Family Support Program and the Specialized Family Support Program prior to hospital discharge.

(3) Psychiatric lockout as last resort.

(A) Prior to referring any youth to the Department of Children and Family Services for the filing of a petition in accordance with subparagraph (c) of paragraph (1) of Section 2-4 of the Juvenile Court Act of 1987 alleging that the youth is dependent because the youth was left in a psychiatric hospital beyond medical necessity, the hospital
shall educate the youth and the youth's parents, guardian, or caregiver about the Family Support Program and the Specialized Family Support Program and shall assist with connections to the designated Family Support Program coordinator in the service area. Once this process has begun, any such youth shall be considered a youth for whom an application for the Family Support Program is pending with the Department of Healthcare and Family Services or an active application for the Family Support Program was being reviewed by the Department for the purposes of subparagraph (b) of paragraph (1) of Section 2-4 of the Juvenile Court Act of 1987.

(B) No state agency or hospital shall coach a parent or guardian of a youth in a psychiatric hospital inpatient unit to lock out or otherwise relinquish custody of a youth to the Department of Children and Family Services for the sole purpose of obtaining necessary mental health treatment for the youth. In the absence of abuse or neglect, a psychiatric lockout or custody relinquishment to the Department of Children and Family Services shall only be considered as the option of last resort.

(A) Development of specialized therapeutic residential treatment for youth and emerging adults with high-acuity mental health conditions. Through a working group led by the Department of Healthcare and Family Services that includes the Department of Children and Family Services and residential treatment providers for youth and emerging adults, the Department of Healthcare and Family Services, within 12 months after the effective date of this amendatory Act of the 101st General Assembly, shall develop a plan for the development of specialized therapeutic residential treatment beds similar to a qualified residential treatment program, as defined in the federal Family First Prevention Services Act, for youth in the Family Support Program with high-acuity mental health needs. The Department of Healthcare and Family Services and the Department of Children and Family Services shall work together to maximize federal funding through
Medicaid and Title IV-E of the Social Security Act in the development and implementation of this plan.

(B) Using the Department of Children and Family Services' beyond medical necessity data over the last 5 years and any other relevant, available data, the Department of Healthcare and Family Services shall assess the estimated number of these specialized high-acuity residential treatment beds that are needed in each region of the State based on the number of youth remaining in psychiatric hospitals beyond medical necessity and the number of youth placed out-of-state who need this level of care. The Department of Healthcare and Family Services shall report the results of this assessment to the General Assembly by no later than December 31, 2020.

(C) Development of an age-appropriate therapeutic residential treatment model for emerging adults and transition-age adults. Within 30 months after the effective date of this amendatory Act of the 101st General Assembly, the Department of Healthcare and Family Services, in partnership with the Department of Human Services' Division of Mental Health and with significant and meaningful stakeholder input through a working group of providers and other stakeholders, shall develop a supportive housing model for emerging adults and transition-age adults receiving services through the Family Support Program who need residential treatment and support to enable recovery. Such a model shall be age-appropriate and shall allow the residential component of the model to be in a community-based setting combined with intensive community-based mental health services.

(j) Workgroup to develop a plan for improving access to substance use treatment. The Department of Healthcare and Family Services and the Department of Human Services' Division of Substance Use Prevention and Recovery shall co-lead a working group that includes Family Support Program providers, family support organizations, and other stakeholders over a 12-month period beginning in the first quarter of calendar year 2020 to develop a plan for increasing access to substance use treatment services for youth, emerging adults, and transition-age adults who are eligible for Family Support Program services.
(k) Appropriation. Implementation of this Section shall be limited by the State's annual appropriation to the Family Support Program. Spending within the Family Support Program appropriation shall be further limited for the new Family Support Program services to be developed accordingly:

(1) Targeted use of specialized therapeutic residential treatment for youth and emerging adults with high-acuity mental health conditions through appropriation limitation. No more than 12% of all annual Family Support Program funds shall be spent on this level of care in any given state fiscal year.

(2) Targeted use of residential treatment model established for emerging adults and transition-age adults through appropriation limitation. No more than one-quarter of all annual Family Support Program funds shall be spent on this level of care in any given state fiscal year.

(l) Exhausting third party insurance coverage first.

(A) A parent, legal guardian, emerging adult, or transition-age adult with private insurance coverage shall work with the Department of Healthcare and Family Services, or its designee, to identify insurance coverage for any and all benefits covered by their plan. If insurance cost-sharing by any method for treatment is cost-prohibitive for the parent, legal guardian, emerging adult, or transition-age adult, Family Support Program funds may be applied as a payer of last resort toward insurance cost-sharing for purposes of using private insurance coverage to the fullest extent for the recommended treatment. If the Department, or its agent, has a concern relating to the parent's, legal guardian's, emerging adult's, or transition-age adult's insurer's compliance with Illinois or federal insurance requirements relating to the coverage of mental health or substance use disorders, it shall refer all relevant information to the applicable regulatory authority.

(B) The Department of Healthcare and Family Services shall use Medicaid funds first for an individual who has Medicaid coverage if the treatment or service recommended using an integrated behavioral health assessment and treatment plan (using the instrument approved by the Department of Healthcare and Family Services) is covered by Medicaid.

(C) If private or public insurance coverage does not cover the needed treatment or service, Family Support Program funds

shall be used to cover the services offered through the Family Support Program.

(m) Service authorization. A youth, emerging adult, or transition-age adult enrolled in the Family Support Program or the Specialized Family Support Program shall be eligible to receive a mental health treatment service covered by the applicable program if the medical necessity criteria established by the Department of Healthcare and Family Services are met.

(n) Streamlined application. The Department of Healthcare and Family Services shall revise the Family Support Program applications and the application process to reflect the changes made to this Section by this amendatory Act of the 101st General Assembly within 8 months after the adoption of any amendments to 89 Ill. Adm. Code 139.

(o) Study of reimbursement policies during planned and unplanned absences of youth and emerging adults in Family Support Program residential treatment settings. The Department of Healthcare and Family Services shall undertake a study of those standards of the Department of Children and Family Services and other states for reimbursement of residential treatment during planned and unplanned absences to determine if reimbursing residential providers for such unplanned absences positively impacts the availability of residential treatment for youth and emerging adults. The Department of Healthcare and Family Services shall begin the study on July 1, 2019 and shall report its findings and the results of the study to the General Assembly, along with any recommendations for or against adopting a similar policy, by December 31, 2020.

(p) Public awareness and educational campaign for all relevant providers. The Department of Healthcare and Family Services shall engage in a public awareness campaign to educate hospitals with psychiatric units, crisis response providers such as Screening, Assessment and Support Services providers and Comprehensive Community Based Youth Services agencies, schools, and other community institutions and providers across Illinois on the changes made by this amendatory Act of the 101st General Assembly to the Family Support Program. The Department of Healthcare and Family Services shall produce written materials geared for the appropriate target audience, develop webinars, and conduct outreach visits over a 12-month period beginning after implementation of the changes made to this Section by this amendatory Act of the 101st General Assembly.

The Department of Children and Family Services, as the State agency responsible for administering federal funds pursuant to Title IV-E of the Social Security Act, shall submit a State Plan to the federal government within 12 months after the effective date of this amendatory Act of the 101st General Assembly to maximize the use of federal Title IV-E prevention funds through the federal Family First Prevention Services Act, to provide mental health and substance use disorder treatment services and supports, including, but not limited to, the provision of short-term crisis and transition beds post-hospitalization for youth who are at imminent risk of entering Illinois' youth welfare system solely due to the inability to access mental health or substance use treatment services.

Sec. 5-36. Education on mental health and substance use treatment services for children and young adults. The Department of Healthcare and Family Services shall develop a layman's guide to the mental health and substance use treatment services available in Illinois through the Medical Assistance Program and through the Family Support Program, or other publicly funded programs, similar to what Massachusetts developed, to help families understand what services are available to them when they have a child in need of treatment or support. The guide shall be in easy-to-understand language, be prominently available on the Department of Healthcare and Family Services' website, and be part of a statewide communications campaign to ensure families are aware of Family Support Program services. It shall briefly explain the service and whether it is covered by the Medical Assistance Program, the Family Support Program, or any other public funding source. Within one year after the effective date of this amendatory Act of the 101st General Assembly, the Department of Healthcare and Family Services shall complete this guide, have it available on its website, and launch the communications campaign.

(305 ILCS 5/5-37 new)

Sec. 5-37. Billing mechanism for preventive mental health services delivered to children.

(a) The General Assembly finds:

(1) It is common for children to have mental health needs but not have a full-blown diagnosis of a mental illness. Examples include, but are not limited to, children who have mild or emerging symptoms of a mental health condition (such as meeting some but not all the criteria for a diagnosis, including, but not limited to, symptoms of depression, attentional deficits, anxiety or prodromal symptoms of bipolar disorder or schizophrenia); cutting or engaging in other forms of self-harm; or experiencing violence or trauma).

(2) The federal requirement that Medicaid-covered children have access to Early and Periodic Screening, Diagnostic and Treatment services includes ensuring that Medicaid-covered

New matter indicated by italics- deletions by strikeout
children who have a mental health need but do not have a mental health diagnosis have access to treatment.

(3) The Department of Healthcare and Family Services' existing policy acknowledges this federal requirement by allowing for Medicaid billing for mental health services for children who have a need for services but who do not have a mental health diagnosis in Section 207.3.3 of the Community-Based Behavioral Services Provider Handbook. However, the current policy of the Department of Healthcare and Family Services requires clinicians to specify a diagnosis code and make a notation in the child's medical record that the service is preventive. This effectively requires the clinician to associate a diagnosis with the child and is a major barrier for services because many clinicians rightly are unwilling to document a mental health diagnosis in the medical record when a diagnosis is not medically appropriate.

(b) Consistent with the existing policy of the Department of Healthcare and Family Services and the federal Early and Periodic Screening, Diagnostic and Treatment requirement, within 3 months after the effective date of this amendatory Act of the 101st General Assembly, the Department of Healthcare and Family Services shall convene a working group that includes children's mental health providers to receive input on recommendations to develop a medically appropriate and practical solution that enables mental health providers and professionals to deliver and receive reimbursement for medically necessary mental health services provided to a Medicaid-eligible child under age 21 that has a mental health need but does not have a mental health diagnosis in order to prevent the development of a serious mental health condition. The working group shall ensure that the recommended solution works in practice and does not deter clinicians from delivering prevention and early treatment to children with mental health needs but who do not have a diagnosed mental illness. The Department of Healthcare and Family Services shall meet with this working group at least 4 times prior to finalizing the solution to enable and allow for mental health services for a child without a mental health diagnosis for purposes of prevention and early treatment when recommended by a licensed practitioner of the healing arts. If the Department of Healthcare and Family Services determines that an Illinois Title XIX State Plan amendment is necessary to implement this Section, the State Plan amendment shall be filed with the federal Centers for Medicare and Medicaid Services by no later than 12

months after the effective date of this amendatory Act of the 101st General Assembly. If rulemaking is required to implement this Section, the rule shall be filed by the Department of Healthcare and Family Services with the Joint Committee on Administrative Rules by no later than 12 months after the effective date of this amendatory Act of the 101st General Assembly, or if federal approval is required, within 6 months after federal approval. If federal approval is required but not granted, this Section shall become inoperative.

(305 ILCS 5/5-38 new)

Sec. 5-38. Alignment of children's mental health treatment systems. The Governor's Office shall establish, convene, and lead a working group that includes the Director of Healthcare and Family Services, the Secretary of Human Services, the Director of Public Health, the Director of Children and Family Services, the Director of Juvenile Justice, the State Superintendent of Education, and the appropriate agency staff who will be responsible for implementation or oversight of reforms to children's behavioral health services. The working group shall meet at least quarterly to foster interagency collaboration and work toward the goal of aligning services and programs to begin to create a coordinated children's behavioral health system consistent with system of care principles that spans across State agencies, rather than separate siloed systems with different requirements, rates, and administrative processes and standards.

Section 95. No acceleration or delay. Where this Act makes changes in a statute that is represented in this Act by text that is not yet or no longer in effect (for example, a Section represented by multiple versions), the use of that text does not accelerate or delay the taking effect of (i) the changes made by this Act or (ii) provisions derived from any other Public Act.

Any person who falsely states any fact in the affidavit required herein shall be guilty of perjury under Section 6-302 and upon conviction thereof shall have all driving privileges revoked without further rights.

3. At the conclusion of a hearing under Section 2-118 of this Code, the Secretary of State shall either rescind or continue an order of revocation or shall substitute an order of suspension; or, good cause appearing therefor, rescind, continue, change, or extend the order of suspension. If the Secretary of State does not rescind the order, the Secretary may upon application, to relieve undue hardship (as defined by the rules of the Secretary of State), issue a restricted driving permit granting the privilege of driving a motor vehicle between the petitioner's residence and petitioner's place of employment or within the scope of the petitioner's employment related duties, or to allow the petitioner to transport himself or herself, or a family member of the petitioner's household to a medical facility, to receive necessary medical care, to allow the petitioner to transport himself or herself to and from alcohol or drug remedial or rehabilitative activity recommended by a licensed service provider, or to allow the petitioner to transport himself or herself or a family member of the petitioner's household to classes, as a student, at an accredited educational institution, or to allow the petitioner to transport children, elderly persons, or persons with disabilities who do not hold driving privileges and are living in the petitioner's household to and from daycare. The petitioner must demonstrate that no alternative means of transportation is reasonably available and that the petitioner will not endanger the public safety or welfare.

(A) If a person's license or permit is revoked or suspended due to 2 or more convictions of violating Section 11-501 of this Code or a similar provision of a local ordinance or a similar out-of-state offense, or Section 9-3 of the Criminal Code of 1961 or the Criminal Code of 2012, where the use of alcohol or other drugs is recited as an element of the offense, or a similar out-of-state offense, or a combination of these offenses, arising out of separate occurrences, that person, if issued a restricted driving permit, may not operate a vehicle unless it has been equipped with an ignition interlock device as defined in Section 1-129.1.

(B) If a person's license or permit is revoked or suspended 2 or more times due to any combination of:

(i) a single conviction of violating Section 11-501 of this Code or a similar provision of a local ordinance or a
similar out-of-state offense or Section 9-3 of the Criminal Code of 1961 or the Criminal Code of 2012, where the use of alcohol or other drugs is recited as an element of the offense, or a similar out-of-state offense; or

(ii) a statutory summary suspension or revocation under Section 11-501.1; or

(iii) a suspension under Section 6-203.1;

arising out of separate occurrences; that person, if issued a restricted driving permit, may not operate a vehicle unless it has been equipped with an ignition interlock device as defined in Section 1-129.1.

(B-5) If a person's license or permit is revoked or suspended due to a conviction for a violation of subparagraph (C) or (F) of paragraph (1) of subsection (d) of Section 11-501 of this Code, or a similar provision of a local ordinance or similar out-of-state offense, that person, if issued a restricted driving permit, may not operate a vehicle unless it has been equipped with an ignition interlock device as defined in Section 1-129.1.

(C) The person issued a permit conditioned upon the use of an ignition interlock device must pay to the Secretary of State DUI Administration Fund an amount not to exceed $30 per month. The Secretary shall establish by rule the amount and the procedures, terms, and conditions relating to these fees.

(D) If the restricted driving permit is issued for employment purposes, then the prohibition against operating a motor vehicle that is not equipped with an ignition interlock device does not apply to the operation of an occupational vehicle owned or leased by that person's employer when used solely for employment purposes. For any person who, within a 5-year period, is convicted of a second or subsequent offense under Section 11-501 of this Code, or a similar provision of a local ordinance or similar out-of-state offense, this employment exemption does not apply until either a one-year period has elapsed during which that person had his or her driving privileges revoked or a one-year period has elapsed during which that person had a restricted driving permit which required the use of an ignition interlock device on every motor vehicle owned or operated by that person.

(E) In each case the Secretary may issue a restricted driving permit for a period deemed appropriate, except that all permits

shall expire no later than 2 years from the date of issuance. A restricted driving permit issued under this Section shall be subject to cancellation, revocation, and suspension by the Secretary of State in like manner and for like cause as a driver's license issued under this Code may be cancelled, revoked, or suspended; except that a conviction upon one or more offenses against laws or ordinances regulating the movement of traffic shall be deemed sufficient cause for the revocation, suspension, or cancellation of a restricted driving permit. The Secretary of State may, as a condition to the issuance of a restricted driving permit, require the applicant to participate in a designated driver remedial or rehabilitative program. The Secretary of State is authorized to cancel a restricted driving permit if the permit holder does not successfully complete the program.

(F) A person subject to the provisions of paragraph 4 of subsection (b) of Section 6-208 of this Code may make application for a restricted driving permit at a hearing conducted under Section 2-118 of this Code after the expiration of 5 years from the effective date of the most recent revocation or after 5 years from the date of release from a period of imprisonment resulting from a conviction of the most recent offense, whichever is later, provided the person, in addition to all other requirements of the Secretary, shows by clear and convincing evidence:

(i) a minimum of 3 years of uninterrupted abstinence from alcohol and the unlawful use or consumption of cannabis under the Cannabis Control Act, a controlled substance under the Illinois Controlled Substances Act, an intoxicating compound under the Use of Intoxicating Compounds Act, or methamphetamine under the Methamphetamine Control and Community Protection Act; and

(ii) the successful completion of any rehabilitative treatment and involvement in any ongoing rehabilitative activity that may be recommended by a properly licensed service provider according to an assessment of the person's alcohol or drug use under Section 11-501.01 of this Code.

In determining whether an applicant is eligible for a restricted driving permit under this subparagraph (F), the Secretary may consider any relevant evidence, including, but not limited to,

testimony, affidavits, records, and the results of regular alcohol or drug tests. Persons subject to the provisions of paragraph 4 of subsection (b) of Section 6-208 of this Code and who have been convicted of more than one violation of paragraph (3), paragraph (4), or paragraph (5) of subsection (a) of Section 11-501 of this Code shall not be eligible to apply for a restricted driving permit under this subparagraph (F).

A restricted driving permit issued under this subparagraph (F) shall provide that the holder may only operate motor vehicles equipped with an ignition interlock device as required under paragraph (2) of subsection (c) of Section 6-205 of this Code and subparagraph (A) of paragraph 3 of subsection (c) of this Section. The Secretary may revoke a restricted driving permit or amend the conditions of a restricted driving permit issued under this subparagraph (F) if the holder operates a vehicle that is not equipped with an ignition interlock device, or for any other reason authorized under this Code.

A restricted driving permit issued under this subparagraph (F) shall be revoked, and the holder barred from applying for or being issued a restricted driving permit in the future, if the holder is convicted of a violation of Section 11-501 of this Code, a similar provision of a local ordinance, or a similar offense in another state.

(c-3) In the case of a suspension under paragraph 43 of subsection (a), reports received by the Secretary of State under this Section shall, except during the actual time the suspension is in effect, be privileged information and for use only by the courts, police officers, prosecuting authorities, the driver licensing administrator of any other state, the Secretary of State, or the parent or legal guardian of a driver under the age of 18. However, beginning January 1, 2008, if the person is a CDL holder, the suspension shall also be made available to the driver licensing administrator of any other state, the U.S. Department of Transportation, and the affected driver or motor carrier or prospective motor carrier upon request.

(c-4) In the case of a suspension under paragraph 43 of subsection (a), the Secretary of State shall notify the person by mail that his or her driving privileges and driver's license will be suspended one month after the date of the mailing of the notice.

(c-5) The Secretary of State may, as a condition of the reissuance of a driver's license or permit to an applicant whose driver's license or

permit has been suspended before he or she reached the age of 21 years pursuant to any of the provisions of this Section, require the applicant to participate in a driver remedial education course and be retested under Section 6-109 of this Code.

(d) This Section is subject to the provisions of the Drivers License Compact.

(e) The Secretary of State shall not issue a restricted driving permit to a person under the age of 16 years whose driving privileges have been suspended or revoked under any provisions of this Code.

(f) In accordance with 49 C.F.R. 384, the Secretary of State may not issue a restricted driving permit for the operation of a commercial motor vehicle to a person holding a CDL whose driving privileges have been suspended, revoked, cancelled, or disqualified under any provisions of this Code.

PUBLIC ACT 101-0471
(House Bill No. 2444)

AN ACT concerning criminal law.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. This Act may be referred to as the Children's Best Interest Act.

Section 3. Purpose. The purpose of this Act is to:
(1) prevent unnecessary harm to children caused by separation from parents during pre-trial detention or incarceration; and
(2) ensure the fair and compassionate treatment of children whose parents are involved in the criminal justice system by affording certain basic considerations to these children when decisions are made that affect them. Sentences that are based on evidence-based practices serve families and communities, as well as defendants. Parental incarceration is classified as an Adverse Childhood Experience. Multiple peer-reviewed studies

connect Adverse Childhood Experiences, a set of specific traumatic events that occur during childhood, to poor mental and physical health outcomes such as chronic diseases, certain cancers, sexually transmitted infections, depression, and other mental health conditions. Allowing incarcerated mothers and babies to co-habitate during the baby's first year of life leads to babies having more secure attachments when compared to those who have not co-habitated for a full year which improves long-term outcomes for both mothers and babies. Community-based residential parenting programs and day programs where parents can serve their sentences with their infants and children in a non-prison setting that offers housing and social services serve to enhance parent-child bonding and foster healthy child development. Family-based drug treatment programs that offer parenting skills training and home-based case management services are successful in reducing parental drug abuse and improving parenting skills. Parenting classes for fathers and mothers improve parent-child relationships and attachment, children's self-concept and behaviors, and feelings of competence among parents. Among parents who participate in residential drug treatment, those who have their children with them are far more likely to complete the program when compared to those who are separated from their children. Children of parents who participate in family-based drug treatment are less likely to develop substance abuse disorders.

Section 5. The Unified Code of Corrections is amended by changing Section 5-5-3.1 as follows:

(730 ILCS 5/5-5-3.1) (from Ch. 38, par. 1005-5-3.1)
Sec. 5-5-3.1. Factors in mitigation.
(a) The following grounds shall be accorded weight in favor of withholding or minimizing a sentence of imprisonment:

(1) The defendant's criminal conduct neither caused nor threatened serious physical harm to another.

(2) The defendant did not contemplate that his criminal conduct would cause or threaten serious physical harm to another.

(3) The defendant acted under a strong provocation.

(4) There were substantial grounds tending to excuse or justify the defendant's criminal conduct, though failing to establish a defense.

(5) The defendant's criminal conduct was induced or facilitated by someone other than the defendant.

New matter indicated by italics- deletions by strikeout
(6) The defendant has compensated or will compensate the victim of his criminal conduct for the damage or injury that he sustained.

(7) The defendant has no history of prior delinquency or criminal activity or has led a law-abiding life for a substantial period of time before the commission of the present crime.

(8) The defendant's criminal conduct was the result of circumstances unlikely to recur.

(9) The character and attitudes of the defendant indicate that he is unlikely to commit another crime.

(10) The defendant is particularly likely to comply with the terms of a period of probation.

(11) (Blank). The imprisonment of the defendant would entail excessive hardship to his dependents.

(12) The imprisonment of the defendant would endanger his or her medical condition.

(13) The defendant was a person with an intellectual disability as defined in Section 5-1-13 of this Code.

(14) The defendant sought or obtained emergency medical assistance for an overdose and was convicted of a Class 3 felony or higher possession, manufacture, or delivery of a controlled, counterfeit, or look-alike substance or a controlled substance analog under the Illinois Controlled Substances Act or a Class 2 felony or higher possession, manufacture or delivery of methamphetamine under the Methamphetamine Control and Community Protection Act.

(15) At the time of the offense, the defendant is or had been the victim of domestic violence and the effects of the domestic violence tended to excuse or justify the defendant's criminal conduct. As used in this paragraph (15), "domestic violence" means abuse as defined in Section 103 of the Illinois Domestic Violence Act of 1986.

(16) At the time of the offense, the defendant was suffering from a serious mental illness which, though insufficient to establish the defense of insanity, substantially affected his or her ability to understand the nature of his or her acts or to conform his or her conduct to the requirements of the law.

(17) At the time of the offense, the defendant was suffering from post-partum depression or post-partum psychosis which was
either undiagnosed or untreated, or both, and this temporary mental illness tended to excuse or justify the defendant's criminal conduct and the defendant has been diagnosed as suffering from post-partum depression or post-partum psychosis, or both, by a qualified medical person and the diagnoses or testimony, or both, was not used at trial. In this paragraph (17):

"Post-partum depression" means a mood disorder which strikes many women during and after pregnancy which usually occurs during pregnancy and up to 12 months after delivery. This depression can include anxiety disorders.

"Post-partum psychosis" means an extreme form of post-partum depression which can occur during pregnancy and up to 12 months after delivery. This can include losing touch with reality, distorted thinking, delusions, auditory and visual hallucinations, paranoia, hyperactivity and rapid speech, or mania.

(18) The defendant is the parent of a child or infant whose well-being will be negatively affected by the parent's absence. Circumstances to be considered in assessing this factor in mitigation include:

(A) that the parent is breastfeeding the child;
(B) the age of the child, with strong consideration given to avoid disruption of the caregiving of an infant, pre-school or school-age child by a parent;
(C) the role of the parent in the day-to-day educational and medical needs of the child;
(D) the relationship of the parent and the child;
(E) any special medical, educational, or psychological needs of the child;
(F) the role of the parent in the financial support of the child.

Under this Section, the defendant shall have the right to present a Family Impact Statement at sentencing, which the court shall consider prior to imposing any sentence and may include testimony from family and community members, written statements, video, and documentation. Unless the court finds that the parent poses a significant risk to the community that outweighs the risk of harm from the parent's removal from the family, the court shall impose a sentence in accordance with
subsection (b) that allows the parent to continue to care for the child or children.

(19) The defendant serves as the caregiver for a relative who is ill, disabled, or elderly.

(b) If the court, having due regard for the character of the offender, the nature and circumstances of the offense and the public interest finds that a sentence of imprisonment is the most appropriate disposition of the offender, or where other provisions of this Code mandate the imprisonment of the offender, the grounds listed in paragraph (a) of this subsection shall be considered as factors in mitigation of the term imposed.

Section 15. Development of sustainable investment policies.

(a) Any public agency or governmental unit should develop, publish, and implement sustainable investment policies applicable to the management of all public funds under its control. The sustainable investment policy may be incorporated in existing investment policies developed, published, and implemented by a public agency or governmental unit.

Section 20. Consideration of sustainable investment factors in decision-making.

(a) A public agency shall prudently integrate sustainability factors into its investment decision-making, investment analysis, portfolio construction, due diligence, and investment ownership in order to maximize anticipated financial returns, minimize projected risk, and more effectively execute its fiduciary duty.

(b) Sustainability factors may include, but are not limited to, the following:

(1) Corporate governance and leadership factors, such as the independence of boards and auditors, the expertise and competence of corporate boards and executives, systemic risk management practices, executive compensation structures, transparency and reporting, leadership diversity, regulatory and legal compliance, shareholder rights, and ethical conduct.

(5) Business model and innovation factors that reflect an ability to plan and forecast opportunities and risks, and whether a company can create long-term shareholder value, including factors such as supply chain management, materials sourcing and efficiency, business model resilience, product design and life cycle management, and physical impacts of climate change.

(c) Sustainability factors may be analyzed in a variety of ways, including, but not limited to: (1) direct financial impacts and risks; (2) legal, regulatory, and policy impacts and risks; (3) against industry norms, best practices, and competitive drivers; and (4) stakeholder engagement.

(d) Nothing in this Act prohibits a public agency or governmental unit from integrating additional factors into its investment decision-making, investment analysis, portfolio construction, due diligence, and investment ownership of public funds. (40 ILCS 5/4-108.7 new)

Sec. 4-108.7. Transfer of creditable service from the Firemen's Annuity and Benefit Fund of Chicago. Until 6 months after the effective date of this amendatory Act of the 101st General Assembly, any active participant in a fund established under this Article may transfer to that fund creditable service accumulated under Article 6 of this Code upon payment to the Article 4 fund, within 5 years after the date of application, of an amount equal to the difference between the amount of employee and employer contributions transferred to the Article 4 fund under Section 6-227.1 and the amounts determined by the Article 4 fund in accordance with this Section, plus interest on that difference at the actuarially assumed rate, compounded annually, from the date of service to the date of payment.

The Article 4 fund must determine the firefighter's payment required to establish creditable service under this Section by taking into account the appropriate actuarial assumptions, including without limitation the firefighter's service, age, and salary history; the level of funding of the Article 4 fund; and any other factors that the Article 4 fund determines to be relevant. For this purpose, the firefighter's required payment should result in no significant increase to the Article 4 fund's unfunded actuarial accrued liability determined as of the most recent actuarial valuation, based on the same assumptions and methods used to develop and report the Article 4 fund's actuarial accrued liability and actuarial value of assets under Statement No. 25 of Governmental Accounting Standards Board or any subsequent applicable Statement.

(70 ILCS 2105/3) (from Ch. 42, par. 385)
Sec. 3. Additional territory may be added to any conservancy district as provided for in this Act in the manner following:

One per cent or more of the legal voters resident within the limits of such proposed addition to such conservancy district, in each county in which the proposed addition is situated, may petition the circuit court for the county in which the original petition for the formation of said conservancy district was filed, to cause the question to be submitted to the legal voters of such proposed additional territory whether such proposed additional territory shall become a part of any conservancy district organized under this Act and whether such additional territory shall assume a proportionate share of the bonded indebtedness, if any, of such conservancy district. Such petition shall be addressed to the court of the county in which the original petition for organization was filed, and shall contain a generally accurate description of the boundaries of the territory to be embraced in the proposed addition, and, if desired, a new name of the expanded district.

Upon filing such petition in the office of the circuit clerk of the county in which the original petition for the formation of such conservancy district was filed it shall be the duty of the court to consider, fix and determine the boundaries of any such proposed additional territory, whether the same shall be those stated in the petition or otherwise and a decision of the court shall be reviewable as in other civil cases.

A date shall be fixed and notice shall be given by the court of the county in which such petition is filed of the time and place where such hearing shall be held in the manner described in Section 1 of this Act. The conduct of the meeting, and the power of the court to fix and alter the boundaries of the proposed addition shall be carried out in the manner described in Section 1 of this Act, as nearly as may be. The court shall certify the question to the proper election officials who shall submit the question at an election in accordance with the general election law. The question shall be in substantially the following form:

For joining the Conservancy District and assuming a proportionate share of bonded indebtedness.

If a majority of the votes cast upon the question of becoming a part of any conservancy district shall be in favor of becoming a part of such conservancy district and if the board of trustees of said conservancy district accept the proposed additional territory by ordinance annexing the same, the court shall enter an appropriate order of record in the court and such additional territory shall thenceforth be deemed an integral part of such conservancy district and shall be subject to all the benefits, responsibilities and obligations of said conservancy district as herein set forth.

Any such additional territory may also be annexed to such conservancy district upon petition addressed to the court for the county in which the original petition for organization of the district was filed, signed by a majority of the owners of lands constituting such territory sought to be annexed, who shall have arrived at lawful age and who represent a majority in area of such territory, which said petition shall contain a generally accurate description of the boundaries of such territory sought to be annexed, and shall set forth the willingness of the petitioners of such territory to assume a proportionate share of the bonded indebtedness, if any, of such conservancy district.

Upon the filing of such petition and notice of and hearing the decision upon the same by the court, all as herein before provided in Section 1 of this Act with reference to notice, hearing and decision upon the petition for the original organization of such district, such court shall enter an order containing its findings and decision as to the boundaries of the territory to be annexed; and thereupon if the board of trustees of such conservancy district shall pass an ordinance annexing the territory described in such order to said conservancy district, the court shall enter an appropriate order finding that the territory is so annexed and such additional territory shall thenceforth be deemed an integral part of such conservancy district and shall be subject to all the benefits, responsibilities and obligations of said conservancy district as herein set forth.

(705 ILCS 35/2f) (from Ch. 37, par. 72.2f)
Sec. 2f. (a) The Circuit of Cook County shall be divided into 15 units to be known as subcircuits. The subcircuits shall be compact, contiguous, and substantially equal in population. The General Assembly shall create the subcircuits by law on or before July 1, 1991, using population data as determined by the 1990 Federal census.

(a-5) In 2021, the General Assembly shall redraw the boundaries of the subcircuits to reflect the results of the 2020 federal decennial census. The General Assembly shall redraw the subcircuit boundaries after every federal decennial census. The subcircuits shall be compact, contiguous, and substantially equal in population. In accordance with subsection (d), a resident judgeship assigned to a subcircuit shall continue to be assigned to that subcircuit. Any vacancy in a resident judgeship existing on or occurring on or after the effective date of a law redrawing the boundaries of the subcircuits shall be filled by a resident of the redrawn subcircuit.

(b) The 165 resident judges to be elected from the Circuit of Cook County shall be determined under paragraph (4) of subsection (a) of Section 2 of the Judicial Vacancies Act.

(c) The Supreme Court shall allot (i) the additional resident judgeships provided by paragraph (4) of subsection (a) of Section 2 of the Judicial Vacancies Act and (ii) all vacancies in resident judgeships existing on or occurring on or after the effective date of this amendatory Act of 1990, with respect to the other resident judgeships of the Circuit of Cook County, for election from the various subcircuits until there are 11

A resident judgeship authorized before the effective date of this amendatory Act of 1990 that became vacant and was filled by appointment by the Supreme Court before that effective date shall be filled by election at the general election in November of 1992 from the unit of the Circuit of Cook County within Chicago or the unit of that Circuit outside Chicago, as the case may be, in which the vacancy occurred.

(d) As soon as practicable after the subcircuits are created by law, the Supreme Court shall determine by lot a numerical order for the 15 subcircuits. That numerical order shall be the basis for the order in which resident judgeships are assigned to the subcircuits. After the first round of assignments, the second and all later rounds shall be based on the same numerical order. Once a resident judgeship is assigned to a subcircuit, it shall continue to be assigned to that subcircuit for all purposes.

(e) A resident judge elected from a subcircuit shall continue to reside in that subcircuit as long as he or she holds that office. A resident judge elected from a subcircuit after January 1, 2008, must retain residency as a registered voter in the subcircuit to run for retention from the circuit at large thereafter.

(a-5) Of the at large judgeships of the 19th judicial circuit, the first 3 that are or become vacant on or after the effective date of this amendatory Act of the 96th General Assembly shall become resident judgeships of the 19th judicial circuit to be allotted by the Supreme Court under subsection (c) and filled by election, except that the Supreme Court may fill those judgeships by appointment for any remainder of a vacated term until the resident judgeships are filled initially by election. As used in this subsection, a vacancy does not include the expiration of a term of an at large judge who seeks retention in that office at the next term.

One of the additional resident judgeships shall be filled by election beginning at the 2010 general election. subcircuits shall be compact, contiguous, and substantially equal in
population. The General Assembly by law shall create the subcircuits,
using population data as determined by the 2000 federal census, and shall
determine a numerical order for the 5 subcircuits. That numerical order
shall be the basis for the order in which resident judgeships are assigned to
the subcircuits. The 5 resident judgeships to be assigned after the effective
date of this amendatory Act of the 96th General Assembly shall be
assigned to the 3rd, 4th, 5th, 1st, and 2nd subcircuits, in that order. Once a
resident judgeship is assigned to a subcircuit, it shall continue to be
assigned to that subcircuit for all purposes.

(a-5) In 2021, the General Assembly shall redraw the boundaries
of the subcircuits to reflect the results of the 2020 federal decennial
census. The General Assembly shall redraw the subcircuit boundaries
after every federal decennial census. The subcircuits shall be compact,

subcircuit.

(a-10) The first vacancy in the 12th judicial circuit's 10 existing

Of the 12th judicial circuit's 10 existing circuit judgeships (8 at large and 2 resident), but not the additional judgeships described in subsections (b) and (b-5), the second to be vacant or become vacant on or after the effective date of this amendatory Act of the 94th General Assembly shall be allotted as a 12th circuit resident judgeship under subsection (c).

(a-15) Of the at large judgeships of the 12th judicial circuit not affected by subsection (a-10), the first 2 that are or become vacant on or after the effective date of this amendatory Act of the 96th General Assembly shall become resident judgeships of the 12th judicial circuit to be allotted by the Supreme Court under subsection (c) and filled by election, except that the Supreme Court may fill those judgeships by appointment for any remainder of a vacated term until the resident judgeships are filled initially by election.

(a-20) As used in subsections (a-10) and (a-15), a vacancy does not include the expiration of a term of an at large or resident judge who seeks retention in that office at the next term.

(b) The 12th circuit shall have 6 additional resident judgeships, as well as its existing resident judgeship as established in subsection (a-10), and existing at large judgeships, for a total of 15 judgeships available to be allotted under subsection (c) to the 10 subcircuit resident judgeships. The additional resident judgeship created by Public Act 93-541 shall be filled by election beginning at the general election in 2006. The additional resident judgeships created by this amendatory Act of the 96th General Assembly shall be filled by election beginning at the general election in 2010. After the subcircuits are created by law, the Supreme Court may fill by appointment the additional resident judgeships created by Public Act 93-541, this amendatory Act of 2004, and this amendatory Act of the 96th General Assembly until the 2006, 2008, or 2010 general election, as the case may be.

(b-5) In addition to the number of circuit judges and resident judges otherwise authorized by law, and notwithstanding any other provision of law, beginning on April 1, 2006 there shall be one additional resident judge who is a resident of and elected from the fourth judicial subcircuit of the 12th judicial circuit. That additional resident judgeship may be filled by appointment by the Supreme Court until filled by election.

(c) The Supreme Court shall allot (i) the additional resident judgeships of the 12th circuit created by Public Act 93-541, this amendatory Act of 2004, and this amendatory Act of the 96th General Assembly, (ii) the second vacancy in the at large and resident judgeships of the 12th circuit as provided in subsection (a-10), and (iii) the 2 formerly at large judgeships described in subsection (a-15) as they become available, for election from the various subcircuits until, with the additional judge of the fourth subcircuit described in subsection (b-5), there are 2 resident judges to be elected from each subcircuit. No at large or resident judge of the 12th circuit serving on August 18, 2003 shall be required to change his or her residency in order to continue serving in office or to seek retention in office as at large or resident judgeships are allotted by the Supreme Court in accordance with this Section.

Sec. 2f-6. 17th judicial circuit; subcircuits.

New matter indicated by italics- deletions by strikeout
(a) The 17th circuit shall be divided into 4 subcircuits. The subcircuits shall be compact, contiguous, and substantially equal in population. The General Assembly by law shall create the subcircuits, using population data as determined by the 2000 federal census, and shall determine a numerical order for the 4 subcircuits. That numerical order shall be the basis for the order in which resident judgeships are assigned to the subcircuits. Once a resident judgeship is assigned to a subcircuit, it shall continue to be assigned to that subcircuit for all purposes.

(a-5) In 2021, the General Assembly shall redraw the boundaries of the subcircuits to reflect the results of the 2020 federal decennial census. The General Assembly shall redraw the subcircuit boundaries after every federal decennial census. The subcircuits shall be compact, contiguous, and substantially equal in population. In accordance with subsection (a), a resident judgeship assigned to a subcircuit shall continue to be assigned to that subcircuit. Any vacancy in a resident judgeship existing on or occurring after the effective date of a law redrawing the boundaries of the subcircuits shall be filled by a resident of the redrawn subcircuit.

(a-10) Of the 17th circuit's 9 circuit judgeships existing on April 7, 2005 (6 at large and 3 resident), but not including the one resident judgeship added by this amendatory Act of the 96th General Assembly, the 3 resident judgeships shall be allotted as 17th circuit resident judgeships under subsection (c) as those resident judgeships are or become vacant on or after the effective date of this amendatory Act of the 93rd General Assembly. Of the 17th circuit's associate judgeships, the first associate judgeship that is or becomes vacant on or after the effective date of this amendatory Act of the 93rd General Assembly shall become a resident judgeship of the 17th circuit to be allotted by the Supreme Court under subsection (c) as a resident subcircuit judgeship. These resident judgeships, and the one resident judgeship added by this amendatory Act of the 96th General Assembly, shall constitute all of the resident judgeships of the 17th circuit. As used in this subsection, a vacancy does not include the expiration of a term of a resident judge who seeks retention in that office at the next term. A vacancy does not exist or occur at the expiration of an associate judge's term if the associate judge is reappointed.

(b) The 17th circuit shall have a total of 4 judgeships (3 resident judgeships existing on April 7, 2005 and one associate judgeship), but not including the one resident judgeship added by this amendatory Act of the
96th General Assembly, available to be allotted to the 4 subcircuit resident judgeships.

(c) The Supreme Court shall allot (i) the 3 resident judgeships of the 17th circuit existing on April 7, 2005 as they are or become vacant as provided in subsection (a-10) and (ii) the one associate judgeship converted into a resident judgeship of the 17th circuit as it is or becomes vacant as provided in subsection (a-10), for election from the various subcircuits until there is one resident judge to be elected from each subcircuit. No resident or associate judge of the 17th circuit serving on the effective date of this amendatory Act of the 93rd General Assembly shall be required to change his or her residency in order to continue serving in office or to seek retention or reappointment in office as resident judgeships are allotted by the Supreme Court in accordance with this Section.

(d) A resident judge elected from a subcircuit shall continue to reside in that subcircuit as long as he or she holds that office. A resident judge elected from a subcircuit after January 1, 2008, must retain residency as a registered voter in the subcircuit to run for retention from the circuit at large thereafter.

(e) Vacancies in resident judgeships of the 17th circuit shall be filled in the manner provided in Article VI of the Illinois Constitution.

Sec. 2f-9. 16th judicial circuit; subcircuits.

(a) The 16th circuit shall be divided into 4 subcircuits. Subcircuits 1, 2, and 4 of the 16th circuit in existence on April 15, 2011 shall continue to use their established boundaries in the new 16th circuit as of December 3, 2012. Subcircuit 3 in existence on April 15, 2011 shall continue to use its established boundary until December 3, 2012. For a judge elected to subcircuit 3 as of April 15, 2011, the current boundaries in existence as of April 15, 2011 shall continue until the conclusion of the existing term of office, following the 2012 general election, and upon the conclusion of the existing term of office, the new boundary shall go into effect. The new boundary for subcircuit 3 shall contain and be made up of the following townships in the County of Kane, excluding the portions of the townships currently served by subcircuit 1, 2, or 4: Aurora, Blackberry, Big Rock, Burlington, Campton, Dundee, Elgin, Hampshire, Kaneville, Plato, Rutland, Sugar Grove, and Virgil. The subcircuits shall be compact, contiguous, and substantially equal in population. The General Assembly by law shall create the subcircuits, using population data as determined by

the 2000 federal census, and shall determine a numerical order for the 4 subcircuits. That numerical order shall be the basis for the order in which resident judgeships are assigned to the subcircuits. Once a resident judgeship is assigned to a subcircuit, it shall continue to be assigned to that subcircuit for all purposes.

(a-5) In 2021, the General Assembly shall redraw the boundaries of the subcircuits to reflect the results of the 2020 federal decennial census. The General Assembly shall redraw the subcircuit boundaries after every federal decennial census. The subcircuits shall be compact, contiguous, and substantially equal in population. In accordance with subsection (a), a resident judgeship assigned to a subcircuit shall continue to be assigned to that subcircuit. Any vacancy in a resident judgeship existing on or occurring after the effective date of a law redrawing the boundaries of the subcircuits shall be filled by a resident of the redrawn subcircuit.

(b) (Blank).

(c) No resident judge of the 16th circuit serving on the effective date of this amendatory Act of the 93rd General Assembly shall be required to change his or her residency in order to continue serving in office or to seek retention in office as judgeships are allotted by the Supreme Court in accordance with this Section. No resident judge elected from a subcircuit serving on the effective date of this amendatory Act of the 97th General Assembly shall be required to change his or her residency in order to continue serving in or to seek retention in office until the 2012 general election, or until the conclusion of the existing term.

(d) A resident judge elected from a subcircuit shall continue to reside in that subcircuit as long as he or she holds that office. A resident judge elected from a subcircuit after January 1, 2008, must retain residency as a registered voter in the subcircuit to run for retention from the circuit at large thereafter. A resident judge elected from a subcircuit after January 1, 2011, must retain residency as a registered voter in the subcircuit to run for retention from the circuit at large thereafter.

(e) Vacancies in resident judgeships of the 16th circuit shall be filled in the manner provided in Article VI of the Illinois Constitution.

(105 ILCS 5/22-85 new)

Sec. 22-85. Parental notification of law enforcement detainment and questioning on school grounds.

(a) In this Section, "school grounds" means the real property comprising an active and operational elementary or secondary school during the regular hours in which school is in session and when students are present.

(b) Before detaining and questioning a student on school grounds who is under 18 years of age and who is suspected of committing a criminal act, a law enforcement officer, school resource officer, or other school security personnel must do all of the following:

(1) Ensure that notification or attempted notification of the student's parent or guardian is made.

(2) Document the time and manner in which the notification or attempted notification under paragraph (1) occurred.

PUBLIC ACT 101-0479
(House Bill No. 2639)

AN ACT concerning local government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Public Building Commission Act is amended by reenacting and changing Sections 2.5, 20.3, 20.4, 20.5, 20.10, 20.15, 20.20, and 20.25 and adding Section 23.6 as follows:

(50 ILCS 20/2.5)

Sec. 2.5. Legislative policy; conditions for use of design-build. It is the intent of the General Assembly that a commission be allowed to use the design-build delivery method for public projects if it is shown to be in the commission's best interest for that particular project.

It shall be the policy of the commission in the procurement of design-build services to publicly announce all requirements for design-build services and to procure these services on the basis of demonstrated competence and qualifications and with due regard for the principles of competitive selection.

The commission shall, prior to issuing requests for proposals, promulgate and publish procedures for the solicitation and award of contracts pursuant to this Act.

The commission shall, for each public project or projects permitted under this Act, make a written determination, including a description as to

the particular advantages of the design-build procurement method, that it is in the best interests of the commission to enter into a design-build contract for the project or projects.

In making that determination, the following factors shall be considered:

1. The probability that the design-build procurement method will be in the best interests of the commission by providing a material savings of time or cost over the design-bid-build or other delivery system.

2. The type and size of the project and its suitability to the design-build procurement method.

3. The ability of the design-build entity to define and provide comprehensive scope and performance criteria for the project.

The commission shall require the design-build entity to comply with the utilization goals established by the corporate authorities of the commission for minority and women business enterprises and to comply with Section 2-105 of the Illinois Human Rights Act.

This Section is repealed on June 1, 2023; provided that any design-build contracts entered into before such date or any procurement of a project under this Act commenced before such date, and the contracts resulting from those procurements, shall remain effective.

(50 ILCS 20/20.3)
Sec. 20.3. Solicitation of design-build proposals.
(a) When the Commission elects to use the design-build delivery method, it must issue a notice of intent to receive proposals for the project at least 14 days before issuing the request for the proposal. The Commission must publish the advance notice in a daily newspaper of general circulation in the county where the Commission is located. The Commission is encouraged to use publication of the notice in related construction industry service publications. A brief description of the proposed procurement must be included in the notice. The Commission must provide a copy of the request for proposal to any party requesting a copy.

(b) The request for proposal shall be prepared for each project and must contain, without limitation, the following information:

1. The name of the Commission.
(2) A preliminary schedule for the completion of the contract.

(3) The proposed budget for the project, the source of funds, and the currently available funds at the time the request for proposal is submitted.

(4) Prequalification criteria for design-build entities wishing to submit proposals. The Commission shall include, at a minimum, its normal prequalification, licensing, registration, and other requirements, but nothing contained herein precludes the use of additional prequalification criteria by the Commission.

(5) Material requirements of the contract, including but not limited to, the proposed terms and conditions, required performance and payment bonds, insurance, and the entity's plan to comply with the utilization goals established by the corporate authorities of the Commission for minority and women business enterprises and to comply with Section 2-105 of the Illinois Human Rights Act.

(6) The performance criteria.

(7) The evaluation criteria for each phase of the solicitation.

(8) The number of entities that will be considered for the technical and cost evaluation phase.

(c) The Commission may include any other relevant information that it chooses to supply. The design-build entity shall be entitled to rely upon the accuracy of this documentation in the development of its proposal.

(d) The date that proposals are due must be at least 21 calendar days after the date of the issuance of the request for proposal. In the event the cost of the project is estimated to exceed $12,000,000, then the proposal due date must be at least 28 calendar days after the date of the issuance of the request for proposal. The Commission shall include in the request for proposal a minimum of 30 days to develop the Phase II submissions after the selection of entities from the Phase I evaluation is completed.

(e) This Section is repealed on June 1, 2023; provided that any design-build contracts entered into before such date or any procurement of a project under this Act commenced before such date, and the contracts resulting from those procurements, shall remain effective.

Sec. 20.4. Development of design-build scope and performance criteria.

(a) The Commission shall develop, with the assistance of a licensed design professional, a request for proposal, which shall include scope and performance criteria. The scope and performance criteria must be in sufficient detail and contain adequate information to reasonably apprise the qualified design-build entities of the Commission's overall programmatic needs and goals, including criteria and preliminary design plans, general budget parameters, schedule, and delivery requirements.

(b) Each request for proposal shall also include a description of the level of design to be provided in the proposals. This description must include the scope and type of renderings, drawings, and specifications that, at a minimum, will be required by the Commission to be produced by the design-build entities.

(c) The scope and performance criteria shall be prepared by a design professional who is an employee of the Commission, or the Commission may contract with an independent design professional selected under the Local Government Professional Services Selection Act (50 ILCS 510/) to provide these services.

(d) The design professional that prepares the scope and performance criteria is prohibited from participating in any design-build entity proposal for the project.

(e) This Section is repealed on June 1, 2023; provided that any design-build contracts entered into before such date or any procurement of a project under this Act commenced before such date, and the contracts resulting from those procurements, shall remain effective.

Sec. 20.5. Procedures for design-build selection.

(a) The Commission must use a two-phase procedure for the selection of the successful design-build entity. Phase I of the procedure will evaluate and shortlist the design-build entities based on qualifications, and Phase II will evaluate the technical and cost proposals.

(b) The Commission shall include in the request for proposal the evaluating factors to be used in Phase I. These factors are in addition to any prequalification requirements of design-build entities that the Commission has set forth. Each request for proposal shall establish the relative importance assigned to each evaluation factor and subfactor, including any weighting of criteria to be employed by the Commission.

New matter indicated by italics- deletions by strikeout
The Commission must maintain a record of the evaluation scoring to be disclosed in event of a protest regarding the solicitation.

The Commission shall include the following criteria in every Phase I evaluation of design-build entities: (1) experience of personnel; (2) successful experience with similar project types; (3) financial capability; (4) timeliness of past performance; (5) experience with similarly sized projects; (6) successful reference checks of the firm; (7) commitment to assign personnel for the duration of the project and qualifications of the entity's consultants; and (8) ability or past performance in meeting or exhausting good faith efforts to meet the utilization goals for minority and women business enterprises established by the corporate authorities of the Commission and in complying with Section 2-105 of the Illinois Human Rights Act. The Commission may include any additional relevant criteria in Phase I that it deems necessary for a proper qualification review.

The Commission may not consider any design-build entity for evaluation or award if the entity has any pecuniary interest in the project or has other relationships or circumstances, including but not limited to, long-term leasehold, mutual performance, or development contracts with the Commission, that may give the design-build entity a financial or tangible advantage over other design-build entities in the preparation, evaluation, or performance of the design-build contract or that create the appearance of impropriety. No design-build proposal shall be considered that does not include an entity's plan to comply with the requirements established in the minority and women business enterprises and economically disadvantaged firms established by the corporate authorities of the Commission and with Section 2-105 of the Illinois Human Rights Act.

Upon completion of the qualifications evaluation, the Commission shall create a shortlist of the most highly qualified design-build entities. The Commission, in its discretion, is not required to shortlist the maximum number of entities as identified for Phase II evaluation, provided however, no less than 2 design-build entities nor more than 6 are selected to submit Phase II proposals.

The Commission shall notify the entities selected for the shortlist in writing. This notification shall commence the period for the preparation of the Phase II technical and cost evaluations. The Commission must allow sufficient time for the shortlist entities to prepare their Phase II submittals considering the scope and detail requested by the Commission.

New matter indicated by italics- deletions by strikeout
(c) The Commission shall include in the request for proposal the evaluating factors to be used in the technical and cost submission components of Phase II. Each request for proposal shall establish, for both the technical and cost submission components of Phase II, the relative importance assigned to each evaluation factor and subfactor, including any weighting of criteria to be employed by the Commission. The Commission must maintain a record of the evaluation scoring to be disclosed in event of a protest regarding the solicitation.

The Commission shall include the following criteria in every Phase II technical evaluation of design-build entities: (1) compliance with objectives of the project; (2) compliance of proposed services to the request for proposal requirements; (3) quality of products or materials proposed; (4) quality of design parameters; (5) design concepts; (6) innovation in meeting the scope and performance criteria; and (7) constructability of the proposed project. The Commission may include any additional relevant technical evaluation factors it deems necessary for proper selection.

The Commission shall include the following criteria in every Phase II cost evaluation: the guaranteed maximum project cost and the time of completion. The Commission may include any additional relevant technical evaluation factors it deems necessary for proper selection. The guaranteed maximum project cost criteria weighing factor shall not exceed 30%.

The Commission shall directly employ or retain a licensed design professional to evaluate the technical and cost submissions to determine if the technical submissions are in accordance with generally accepted industry standards.

Upon completion of the technical submissions and cost submissions evaluation, the Commission may award the design-build contract to the highest overall ranked entity.

(d) This Section is repealed on June 1, 2023; provided that any design-build contracts entered into before such date or any procurement of a project under this Act commenced before such date, and the contracts resulting from those procurements, shall remain effective.

Sec. 20.15. Submission of design-build proposals. Design-build proposals must be properly identified and sealed. Proposals may not be reviewed until after the deadline for submission has passed as set forth in the request for proposals. All design-build entities submitting proposals shall be disclosed after the deadline for submission, and all design-build entities who are selected for Phase II evaluation shall also be disclosed at the time of that determination.

Phase II design-build proposals shall include a bid bond in the form and security as designated in the request for proposals. Proposals shall also contain a separate sealed envelope with the cost information within the overall proposal submission. Proposals shall include a list of all design professionals and other entities to which any work identified in Section 30-30 of the Illinois Procurement Code as a subdivision of construction work may be subcontracted during the performance of the contract.

Proposals must meet all material requirements of the request for proposal or they may be rejected as non-responsive. The Commission shall have the right to reject any and all proposals.

The drawings and specifications of any unsuccessful design-build proposal shall remain the property of the design-build entity.

The Commission shall review the proposals for compliance with the performance criteria and evaluation factors.

Proposals may be withdrawn prior to the due date and time for submissions for any cause. After evaluation begins by the Commission, clear and convincing evidence of error is required for withdrawal.

(a) Each year, within 60 days following the end of a commission's fiscal year, the commission shall provide a report to the General Assembly addressing the utilization of minority and female owned business enterprises on design-build projects.

(b) The payments for design-build projects by any commission in one fiscal year shall not exceed 50% of the moneys spent on construction projects during the same fiscal year.

(a) The General Assembly finds and declares all of the following:

(1) Public Act 100-736, which took effect on January 1, 2019, changed the repeal dates of Sections 2.5, 20.3, 20.4, 20.5, 20.10, 20.15, 20.20, and 20.25 of this Act from June 1, 2018 to June 1, 2023.

(2) The Statute on Statutes sets forth general rules on the repeal of statutes and the construction of multiple amendments, but Section 1 of that Act also states that these rules will not be observed when the result would be "inconsistent with the manifest intent of the General Assembly or repugnant to the context of the statute".

(3) This amendatory Act of the 101st General Assembly manifests the intention of the General Assembly to extend the repeal of Sections 2.5, 20.3, 20.4, 20.5, 20.10, 20.15, 20.20, and 20.25 of this Act and have those Sections continue in effect until they are otherwise lawfully repealed.

(4) Sections 2.5, 20.3, 20.4, 20.5, 20.10, 20.15, 20.20, and 20.25 of this Act were originally enacted to protect, promote, and preserve the general welfare. Any construction of this Act that results in the repeal of those Sections on June 1, 2018 would be inconsistent with the manifest intent of the General Assembly and repugnant to the context of this Act.

(b) It is declared to have been the intent of the General Assembly that Sections 2.5, 20.3, 20.4, 20.5, 20.10, 20.15, 20.20, and 20.25 of this Act not be subject to repeal on June 1, 2018.

(c) Sections 2.5, 20.3, 20.4, 20.5, 20.10, 20.15, 20.20, and 20.25 of this Act shall be deemed to have been in continuous effect since June 1, 2018, and they shall continue to be in effect until they are otherwise lawfully repealed. All previously enacted amendments to those Sections taking effect on or after June 1, 2018 are validated. All actions taken in reliance on or under those Sections by any person or entity are validated.

(d) In order to ensure the continuing effectiveness of Sections 2.5, 20.3, 20.4, 20.5, 20.10, 20.15, 20.20, and 20.25 of this Act, those Sections are set forth in full and reenacted by this amendatory Act of the 101st General Assembly. Striking and underscoring are used only to show changes being made to the base text. This reenactment is intended as a continuation of those Sections. It is not intended to supersede any amendment to those Sections that is enacted by the 101st General Assembly. This reenactment applies to all claims, civil actions, and proceedings pending on or filed on or before the effective date of this amendatory Act of the 101st General Assembly.

Section 99. Effective date. This Act takes effect upon becoming law.

AN ACT concerning criminal law.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 3. Purpose. The purpose of this Act is to ensure the fair and compassionate treatment for children of incarcerated parents. This Act does not create any new individual right of action.

Section 5. Legislative findings. Based upon a study by Lurie Children's Hospital's researchers, a report by the Annie E. Casey Foundation titled "A Shared Sentence", the work of the San Francisco Children of Incarcerated Parents Partnership, and the findings of the Women's Justice Institute's Gender Informed Practice Assessment, the General Assembly finds the following:

(1) Seven million, or one in 10 of the nation's children, have a parent under criminal justice supervision, in jail or prison, on probation, or on parole.

(2) From 2011 to 2012, there were approximately 186,000 children in Illinois who had experienced parental incarceration.

(3) Approximately 6% of children in Illinois have experienced parental incarceration.

(4) In a snapshot of mothers incarcerated at Logan Correctional Center in 2015, they reported having 3,700 children.

(5) Children with incarcerated parents have a daunting array of needs. They need a safe place to live and people to care for them in their parents' absence, as well as everything else a parent might be expected to provide: food, clothing, and medical care.

(6) Parental incarceration is classified as an Adverse Childhood Experience. Multiple peer-reviewed studies connect Adverse Childhood Experiences, a set of specific traumatic events that occur during childhood, to poor mental and physical health outcomes such as chronic diseases, certain cancers, sexually transmitted infections, depression, and other mental health conditions.

New matter indicated by italics- deletions by strikeout
(7) Young adults who have experienced parental incarceration are more likely to skip medical care, misuse or abuse prescription drugs, and were more likely to use the emergency room for medical needs.

(8) The trauma of being separated from a parent, along with a lack of sympathy or support from others, can increase children's mental health issues, such as depression and anxiety, and hamper educational achievement. Children of incarcerated mothers in particular, are at greater risk of dropping out of school. Research shows preserving a child's relationship with a parent during incarceration benefits both parties. It also benefits society, reducing children's mental health issues and anxiety, while lowering recidivism and facilitating parents' successful return to their communities.

Section 30. The Code of Criminal Procedure of 1963 is amended by adding Article 106F as follows:

(725 ILCS 5/Art. 106F heading new)

ARTICLE 106F. CHILDREN OF INCARCERATED PARENTS TASK FORCE

(725 ILCS 5/106F-10 new)

Sec. 106F-10. Task Force; creation. The Task Force on Children of Incarcerated Parents is created. The purpose of the Children of Incarcerated Parents Task Force is to develop and propose policies and procedures that encourage the following guiding principles to the extent possible:

(1) Children should be protected from additional trauma at the time of parental arrest.

(2) Children should be heard, respected, and considered by decision makers when decisions are made about them.

(235 ILCS 5/3-12)
Sec. 3-12. Powers and duties of State Commission.
(a) The State Commission shall have the following powers,
functions, and duties:
(1) To receive applications and to issue licenses to
manufacturers, foreign importers, importing distributors,
distributors, non-resident dealers, on premise consumption
retailers, off premise sale retailers, special event retailer licensees,
special use permit licenses, auction liquor licenses, brew pubs,
caterer retailers, non-beverage users, railroads, including owners
and lessees of sleeping, dining and cafe cars, airplanes, boats,
brokers, and wine maker's premises licensees in accordance with
the provisions of this Act, and to suspend or revoke such licenses
upon the State Commission's determination, upon notice after
hearing, that a licensee has violated any provision of this Act or
any rule or regulation issued pursuant thereto and in effect for 30
days prior to such violation. Except in the case of an action taken

pursuant to a violation of Section 6-3, 6-5, or 6-9, any action by the State Commission to suspend or revoke a licensee's license may be limited to the license for the specific premises where the violation occurred. An action for a violation of this Act shall be commenced by the State Commission within 2 years after the date the State Commission becomes aware of the violation.

In lieu of suspending or revoking a license, the commission may impose a fine, upon the State Commission's determination and notice after hearing, that a licensee has violated any provision of this Act or any rule or regulation issued pursuant thereto and in effect for 30 days prior to such violation.

For the purpose of this paragraph (1), when determining multiple violations for the sale of alcohol to a person under the age of 21, a second or subsequent violation for the sale of alcohol to a person under the age of 21 shall only be considered if it was committed within 5 years after the date when a prior violation for the sale of alcohol to a person under the age of 21 was committed.

The fine imposed under this paragraph may not exceed $500 for each violation. Each day that the activity, which gave rise to the original fine, continues is a separate violation. The maximum fine that may be levied against any licensee, for the period of the license, shall not exceed $20,000. The maximum penalty that may be imposed on a licensee for selling a bottle of alcoholic liquor with a foreign object in it or serving from a bottle of alcoholic liquor with a foreign object in it shall be the destruction of that bottle of alcoholic liquor for the first 10 bottles so sold or served from by the licensee. For the eleventh bottle of alcoholic liquor and for each third bottle thereafter sold or served from by the licensee with a foreign object in it, the maximum penalty that may be imposed on the licensee is the destruction of the bottle of alcoholic liquor and a fine of up to $50.

Any notice issued by the State Commission to a licensee for a violation of this Act or any notice with respect to settlement or offer in compromise shall include the field report, photographs, and any other supporting documentation necessary to reasonably inform the licensee of the nature and extent of the violation or the conduct alleged to have occurred. The failure to include such required documentation shall result in the dismissal of the action.

(2) To adopt such rules and regulations consistent with the provisions of this Act which shall be necessary to carry on its functions and duties to the end that the health, safety and welfare of the People of the State of Illinois shall be protected and temperance in the consumption of alcoholic liquors shall be fostered and promoted and to distribute copies of such rules and regulations to all licensees affected thereby.

(3) To call upon other administrative departments of the State, county and municipal governments, county and city police departments and upon prosecuting officers for such information and assistance as it deems necessary in the performance of its duties.

(4) To recommend to local commissioners rules and regulations, not inconsistent with the law, for the distribution and sale of alcoholic liquors throughout the State.

(5) To inspect, or cause to be inspected, any premises in this State where alcoholic liquors are manufactured, distributed, warehoused, or sold. Nothing in this Act authorizes an agent of the Commission to inspect private areas within the premises without reasonable suspicion or a warrant during an inspection. "Private areas" include, but are not limited to, safes, personal property, and closed desks.

(5.1) Upon receipt of a complaint or upon having knowledge that any person is engaged in business as a manufacturer, importing distributor, distributor, or retailer without a license or valid license, to notify the local liquor authority, file a complaint with the State's Attorney's Office of the county where the incident occurred, or initiate an investigation with the appropriate law enforcement officials.

(5.2) To issue a cease and desist notice to persons shipping alcoholic liquor into this State from a point outside of this State if the shipment is in violation of this Act.

(5.3) To receive complaints from licensees, local officials, law enforcement agencies, organizations, and persons stating that any licensee has been or is violating any provision of this Act or the rules and regulations issued pursuant to this Act. Such complaints shall be in writing, signed and sworn to by the person making the complaint, and shall state with specificity the facts in relation to the alleged violation. If the Commission has reasonable

grounds to believe that the complaint substantially alleges a violation of this Act or rules and regulations adopted pursuant to this Act, it shall conduct an investigation. If, after conducting an investigation, the Commission is satisfied that the alleged violation did occur, it shall proceed with disciplinary action against the licensee as provided in this Act.

(6) To hear and determine appeals from orders of a local commission in accordance with the provisions of this Act, as hereinafter set forth. Hearings under this subsection shall be held in Springfield or Chicago, at whichever location is the more convenient for the majority of persons who are parties to the hearing.

(7) The commission shall establish uniform systems of accounts to be kept by all retail licensees having more than 4 employees, and for this purpose the commission may classify all retail licensees having more than 4 employees and establish a uniform system of accounts for each class and prescribe the manner in which such accounts shall be kept. The commission may also prescribe the forms of accounts to be kept by all retail licensees having more than 4 employees, including but not limited to accounts of earnings and expenses and any distribution, payment, or other distribution of earnings or assets, and any other forms, records and memoranda which in the judgment of the commission may be necessary or appropriate to carry out any of the provisions of this Act, including but not limited to such forms, records and memoranda as will readily and accurately disclose at all times the beneficial ownership of such retail licensed business. The accounts, forms, records and memoranda shall be available at all reasonable times for inspection by authorized representatives of the State Commission or by any local liquor control commissioner or his or her authorized representative. The commission, may, from time to time, alter, amend or repeal, in whole or in part, any uniform system of accounts, or the form and manner of keeping accounts.

(8) In the conduct of any hearing authorized to be held by the commission, to appoint, at the commission's discretion, hearing officers to conduct hearings involving complex issues or issues that will require a protracted period of time to resolve, to examine, or cause to be examined, under oath, any licensee, and to examine or

cause to be examined the books and records of such licensee; to
hear testimony and take proof material for its information in the
discharge of its duties hereunder; to administer or cause to be
administered oaths; for any such purpose to issue subpoena or
subpoenas to require the attendance of witnesses and the
production of books, which shall be effective in any part of this
State, and to adopt rules to implement its powers under this
paragraph (8).

Any circuit court may by order duly entered, require the
attendance of witnesses and the production of relevant books
subpoenaed by the State Commission and the court may compel
obedience to its order by proceedings for contempt.

(9) To investigate the administration of laws in relation to
alcoholic liquors in this and other states and any foreign countries,
and to recommend from time to time to the Governor and through
him or her to the legislature of this State, such amendments to this
Act, if any, as it may think desirable and as will serve to further the
general broad purposes contained in Section 1-2 hereof.

(10) To adopt such rules and regulations consistent with the
provisions of this Act which shall be necessary for the control, sale
or disposition of alcoholic liquor damaged as a result of an
accident, wreck, flood, fire or other similar occurrence.

(11) To develop industry educational programs related to
responsible serving and selling, particularly in the areas of
overserving consumers and illegal underage purchasing and
consumption of alcoholic beverages.

(11.1) To license persons providing education and training
to alcohol beverage sellers and servers for mandatory and non-
mandatory training under the Beverage Alcohol Sellers and Servers
Education and Training (BASSET) programs and to develop and
administer a public awareness program in Illinois to reduce or
eliminate the illegal purchase and consumption of alcoholic
beverage products by persons under the age of 21. Application for
a license shall be made on forms provided by the State
Commission.

(12) To develop and maintain a repository of license and
regulatory information.

(14) On or before April 30, 2008 and every 2 years thereafter, the Commission shall present a written report to the Governor and the General Assembly that shall be based on a study of the impact of Public Act 95-634 on the business of soliciting, selling, and shipping wine from inside and outside of this State directly to residents of this State. As part of its report, the Commission shall provide all of the following information:

(A) The amount of State excise and sales tax revenues generated.
(B) The amount of licensing fees received.
(C) The number of cases of wine shipped from inside and outside of this State directly to residents of this State.
(D) The number of alcohol compliance operations conducted.
(E) The number of winery shipper's licenses issued.
(F) The number of each of the following: reported violations; cease and desist notices issued by the Commission; notices of violations issued by the Commission and to the Department of Revenue; and notices and complaints of violations to law enforcement officials, including, without limitation, the Illinois Attorney General and the U.S. Department of Treasury's Alcohol and Tobacco Tax and Trade Bureau.

(15) As a means to reduce the underage consumption of alcoholic liquors, the Commission shall conduct alcohol compliance operations to investigate whether businesses that are soliciting, selling, and shipping wine from inside or outside of this State directly to residents of this State are licensed by this State or are selling or attempting to sell wine to persons under 21 years of age in violation of this Act.

(16) The Commission shall, in addition to notifying any appropriate law enforcement agency, submit notices of complaints or violations of Sections 6-29 and 6-29.1 by persons who do not hold a winery shipper's license under this Act to the Illinois Attorney General and to the U.S. Department of Treasury's Alcohol and Tobacco Tax and Trade Bureau.

(17)(A) A person licensed to make wine under the laws of another state who has a winery shipper's license under this Act and

annually produces less than 25,000 gallons of wine or a person who has a first-class or second-class wine manufacturer's license, a first-class or second-class wine-maker's license, or a limited wine manufacturer's license under this Act and annually produces less than 25,000 gallons of wine may make application to the Commission for a self-distribution exemption to allow the sale of not more than 5,000 gallons of the exemption holder's wine to retail licensees per year.

(B) In the application, which shall be sworn under penalty of perjury, such person shall state (1) the date it was established; (2) its volume of production and sales for each year since its establishment; (3) its efforts to establish distributor relationships; (4) that a self-distribution exemption is necessary to facilitate the marketing of its wine; and (5) that it will comply with the liquor and revenue laws of the United States, this State, and any other state where it is licensed.

(C) The Commission shall approve the application for a self-distribution exemption if such person: (1) is in compliance with State revenue and liquor laws; (2) is not a member of any affiliated group that produces more than 25,000 gallons of wine per annum or produces any other alcoholic liquor; (3) will not annually produce for sale more than 25,000 gallons of wine; and (4) will not annually sell more than 5,000 gallons of its wine to retail licensees.

(D) A self-distribution exemption holder shall annually certify to the Commission its production of wine in the previous 12 months and its anticipated production and sales for the next 12 months. The Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or liquor law of Illinois, exceeded production of 25,000 gallons of wine in any calendar year, or become part of an affiliated group producing more than 25,000 gallons of wine or any other alcoholic liquor.

(E) Except in hearings for violations of this Act or Public Act 95-634 or a bona fide investigation by duly sworn law enforcement officials, the Commission, or its agents, the Commission shall maintain the production and sales information of a self-distribution exemption holder as confidential and shall not release such information to any person.

New matter indicated by italics- deletions by strikeout
(F) The Commission shall issue regulations governing self-distribution exemptions consistent with this Section and this Act.

(G) Nothing in this paragraph subsection (17) shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois distributor.

(H) It is the intent of this paragraph subsection (17) to promote and continue orderly markets. The General Assembly finds that in order to preserve Illinois' regulatory distribution system it is necessary to create an exception for smaller makers of wine as their wines are frequently adjusted in varietals, mixes, vintages, and taste to find and create market niches sometimes too small for distributor or importing distributor business strategies. Limited self-distribution rights will afford and allow smaller makers of wine access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system.

(18)(A) A class 1 brewer licensee, who must also be either a licensed brewer or licensed non-resident dealer and annually manufacture less than 930,000 gallons of beer, may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 232,500 gallons of the exemption holder's beer per year to retail licensees and to brewers, class 1 brewers, and class 2 brewers that, pursuant to subsection (e) of Section 6-4 of this Act, sell beer, cider, or both beer and cider to non-licensees at their breweries.

(B) In the application, which shall be sworn under penalty of perjury, the class 1 brewer licensee shall state (1) the date it was established; (2) its volume of beer manufactured and sold for each year since its establishment; (3) its efforts to establish distributor relationships; (4) that a self-distribution exemption is necessary to facilitate the marketing of its beer; and (5) that it will comply with the alcoholic beverage and revenue laws of the United States, this State, and any other state where it is licensed.

(C) Any application submitted shall be posted on the State Commission's website at least 45 days prior to action by the State Commission. The State Commission shall approve the application for a self-distribution exemption if the class 1 brewer licensee: (1) is in compliance with the State, revenue, and alcoholic beverage laws; (2) is not a member of any affiliated group that manufactures

more than 930,000 gallons of beer per annum or produces any other alcoholic beverages; (3) shall not annually manufacture for sale more than 930,000 gallons of beer; (4) shall not annually sell more than 232,500 gallons of its beer to retail licensees or to brewers, class 1 brewers, and class 2 brewers that, pursuant to subsection (e) of Section 6-4 of this Act, sell beer, cider, or both beer and cider to non-licensees at their breweries; and (5) has relinquished any brew pub license held by the licensee, including any ownership interest it held in the licensed brew pub.

(D) A self-distribution exemption holder shall annually certify to the State Commission its manufacture of beer during the previous 12 months and its anticipated manufacture and sales of beer for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or alcoholic beverage law of Illinois, exceeded the manufacture of 930,000 gallons of beer in any calendar year or became part of an affiliated group manufacturing more than 930,000 gallons of beer or any other alcoholic beverage.

(E) The State Commission shall issue rules and regulations governing self-distribution exemptions consistent with this Act.

(F) Nothing in this paragraph (18) shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois importing distributor or a distributor. If a self-distribution exemption holder enters into a distribution agreement and has assigned distribution rights to an importing distributor or distributor, then the self-distribution exemption holder's distribution rights in the assigned territories shall cease in a reasonable time not to exceed 60 days.

(G) It is the intent of this paragraph (18) to promote and continue orderly markets. The General Assembly finds that in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller manufacturers in order to afford and allow such smaller manufacturers of beer access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system.

(19)(A) A class 1 craft distiller licensee or a non-resident dealer who manufactures less than 50,000 gallons of distilled
spirits per year may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 5,000 gallons of the exemption holder's spirits to retail licensees per year.

(B) In the application, which shall be sworn under penalty of perjury, the class 1 craft distiller licensee or non-resident dealer shall state (1) the date it was established; (2) its volume of spirits manufactured and sold for each year since its establishment; (3) its efforts to establish distributor relationships; (4) that a self-distribution exemption is necessary to facilitate the marketing of its spirits; and (5) that it will comply with the alcoholic beverage and revenue laws of the United States, this State, and any other state where it is licensed.

(C) Any application submitted shall be posted on the State Commission's website at least 45 days prior to action by the State Commission. The State Commission shall approve the application for a self-distribution exemption if the applicant: (1) is in compliance with State revenue and alcoholic beverage laws; (2) is not a member of any affiliated group that produces more than 50,000 gallons of spirits per annum or produces any other alcoholic liquor; (3) does not annually manufacture for sale more than 50,000 gallons of spirits; and (4) does not annually sell more than 5,000 gallons of its spirits to retail licensees.

(D) A self-distribution exemption holder shall annually certify to the State Commission its manufacture of spirits during the previous 12 months and its anticipated manufacture and sales of spirits for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or alcoholic beverage law of Illinois, exceeded the manufacture of 50,000 gallons of spirits in any calendar year, or has become part of an affiliated group manufacturing more than 50,000 gallons of spirits or any other alcoholic beverage.

(E) The State Commission shall adopt rules governing self-distribution exemptions consistent with this Act.

having a distribution agreement with a licensed Illinois importing distributor or a distributor.

As part of its report, the Commission shall provide the following information:

Fees collected under this Section shall be paid into the Dram Shop Fund. On and after July 1, 2003 and until June 30, 2016, of the funds received for a retailer's license, in addition to the first $175, an additional $75 shall be paid into the Dram Shop Fund, and $250 shall be paid into the General Revenue Fund. Sec. 6-4. (a) No person licensed by any licensing authority as a distiller, or a wine manufacturer, or any subsidiary or affiliate thereof, or any officer, associate, member, partner, representative, employee, agent or shareholder owning more than 5% of the outstanding shares of such person shall be issued an importing distributor's or distributor's license, nor shall any person licensed by any licensing authority as an importing distributor, distributor or retailer, or any subsidiary or affiliate thereof, or any officer or associate, member, partner, representative, employee, agent or shareholder owning more than 5% of the outstanding shares of such person be issued a distiller's license, a craft distiller's license, or a wine manufacturer's license; and no person or persons licensed as a distiller,

class 1 craft distiller, or class 2 craft distiller by any licensing authority shall have any interest, directly or indirectly, with such distributor or importing distributor.

However, an importing distributor or distributor, which on January 1, 1985 is owned by a brewer, or any subsidiary or affiliate thereof or any officer, associate, member, partner, representative, employee, agent or shareholder owning more than 5% of the outstanding shares of the importing distributor or distributor referred to in this paragraph, may own or acquire an ownership interest of more than 5% of the outstanding shares of a wine manufacturer and be issued a wine manufacturer's license by any licensing authority.

(b) The foregoing provisions shall not apply to any person licensed by any licensing authority as a distiller or wine manufacturer, or to any subsidiary or affiliate of any distiller or wine manufacturer who shall have been heretofore licensed by the State Commission as either an importing distributor or distributor during the annual licensing period expiring June 30, 1947, and shall actually have made sales regularly to retailers.

(c) Provided, however, that in such instances where a distributor's or importing distributor's license has been issued to any distiller or wine manufacturer or to any subsidiary or affiliate of any distiller or wine manufacturer who has, during the licensing period ending June 30, 1947, sold or distributed as such licensed distributor or importing distributor alcoholic liquors and wines to retailers, such distiller or wine manufacturer or any subsidiary or affiliate of any distiller or wine manufacturer holding such distributor's or importing distributor's license may continue to sell or distribute to retailers such alcoholic liquors and wines which are manufactured, distilled, processed or marketed by distillers and wine manufacturers whose products it sold or distributed to retailers during the whole or any part of its licensing periods; and such additional brands and additional products may be added to the line of such distributor or importing distributor, provided, that such brands and such products were not sold or distributed by any distributor or importing distributor licensed by the State Commission during the licensing period ending June 30, 1947, but can not sell or distribute to retailers any other alcoholic liquors or wines.

(d) It shall be unlawful for any distiller licensed anywhere to have any stock ownership or interest in any distributor's or importing distributor's license wherein any other person has an interest therein who is not a distiller and does not own more than 5% of any stock in any

distillery. Nothing herein contained shall apply to such distillers or their subsidiaries or affiliates, who had a distributor's or importing distributor's license during the licensing period ending June 30, 1947, which license was owned in whole by such distiller, or subsidiaries or affiliates of such distiller.

(e) Any person licensed as a brewer, class 1 brewer, or class 2 brewer shall be permitted to sell on the licensed premises to non-licensees for on or off-premises consumption for the premises in which he or she actually conducts such business: (i) beer manufactured by the brewer, class 1 brewer, or class 2 brewer; (ii) beer manufactured by any other brewer, class 1 brewer, or class 2 brewer; and (iii) cider. Such sales shall be limited to on-premises, in-person sales only, for lawful consumption on or off premises. Such authorization shall be considered a privilege granted by the brewer license and, other than a manufacturer of beer as stated above, no manufacturer or distributor or importing distributor, excluding airplane licensees exercising powers provided in paragraph (i) of Section 5-1 of this Act, or any subsidiary or affiliate thereof, or any officer, associate, member, partner, representative, employee or agent, or shareholder shall be issued a retailer's license, nor shall any person having a retailer's license, excluding airplane licensees exercising powers provided in paragraph (i) of Section 5-1 of this Act, or any subsidiary or affiliate thereof, or any officer, associate, member, partner, representative or agent, or shareholder be issued a manufacturer's license or importing distributor's license.

A manufacturer of beer that imports or transfers beer into this State must comply with Sections 6-8 and 8-1 of this Act.

A person who holds a class 1 or class 2 brewer license and is authorized by this Section to sell beer to non-licensees shall not sell beer to non-licensees from more than 3 total brewer or commonly owned brew pub licensed locations in this State. The class 1 or class 2 brewer shall designate to the State Commission the brewer or brew pub locations from which it will sell beer to non-licensees.

A person licensed as a class 1 craft distiller or a class 2 craft distiller, including a person who holds more than one class 1 craft distiller or class 2 craft distiller license, not affiliated with any other person manufacturing spirits may be authorized by the State Commission to sell (1) up to 5,000 gallons of spirits produced by the person to non-licensees for on or off-premises consumption for the premises in which he or she actually conducts business permitting only the retail sale of spirits

Such sales shall be limited to on-premises, in-person sales only, for lawful consumption on or off premises, and such authorization shall be considered a privilege granted by the class 1 craft distiller or class 2 craft distiller license. A class 1 craft distiller or class 2 craft distiller licensed for retail sale shall secure liquor liability insurance coverage in an amount at least equal to the maximum liability amounts set forth in subsection (a) of Section 6-21 of this Act.

A class 1 craft distiller or class 2 craft distiller license holder shall not deliver any alcoholic liquor to any non-licensee off the licensed premises. A class 1 craft distiller or class 2 craft distiller shall affirm in its annual craft distiller's license application that it does not produce more than 50,000 or 100,000 gallons of distilled spirits annually, whichever is applicable, and that the craft distiller does not sell more than 5,000 or 2,500 gallons of spirits to non-licensees for on or off-premises consumption. In the application, which shall be sworn under penalty of perjury, the class 1 craft distiller or class 2 craft distiller shall state the volume of production and sales for each year since the class 1 craft distiller's or class 2 craft distiller's establishment.

A person who holds a class 1 craft distiller or class 2 craft distiller license and is authorized by this Section to sell spirits to non-licensees shall not sell spirits to non-licensees from more than 3 total distillery or commonly owned distilling pub licensed locations in this State. The class 1 craft distiller or class 2 craft distiller shall designate to the State Commission the distillery or distilling pub locations from which it will sell spirits to non-licensees.

(f) (Blank).

(g) Notwithstanding any of the foregoing prohibitions, a limited wine manufacturer may sell at retail at its manufacturing site for on or off premises consumption and may sell to distributors. A limited wine manufacturer licensee shall secure liquor liability insurance coverage in an amount at least equal to the maximum liability amounts set forth in subsection (a) of Section 6-21 of this Act.

(h) The changes made to this Section by Public Act 99-47 shall not diminish or impair the rights of any person, whether a distiller, wine manufacturer, agent, or affiliate thereof, who requested in writing and submitted documentation to the State Commission on or before February 18, 2015 to be approved for a retail license pursuant to what has heretofore

It is further provided that the State Commission may approve the person's application for a retail license or renewals of such license if such person continues to diligently adhere to all representations made in writing to the State Commission on or before February 18, 2015, or thereafter, or in the affidavit filed by that person with the State Commission to support the issuance of a retail license and to abide by all applicable laws and duly adopted rules.

Section 5. The State Employees Group Insurance Act of 1971 is amended by changing Section 6.5 as follows:

(5 ILCS 375/6.5)

(a) Purpose. It is the purpose of this amendatory Act of 1995 to transfer the administration of the program of health benefits established for

New matter indicated by italics- deletions by strikeout
benefit recipients and their dependent beneficiaries under Article 16 of the Illinois Pension Code to the Department of Central Management Services.

(b) Transition provisions. The Board of Trustees of the Teachers' Retirement System shall continue to administer the health benefit program established under Article 16 of the Illinois Pension Code through December 31, 1995. Beginning January 1, 1996, the Department of Central Management Services shall be responsible for administering a program of health benefits for TRS benefit recipients and TRS dependent beneficiaries under this Section. The Department of Central Management Services and the Teachers' Retirement System shall cooperate in this endeavor and shall coordinate their activities so as to ensure a smooth transition and uninterrupted health benefit coverage.

(c) Eligibility. All persons who were enrolled in the Article 16 program at the time of the transfer shall be eligible to participate in the program established under this Section without any interruption or delay in coverage or limitation as to pre-existing medical conditions. Eligibility to participate shall be determined by the Teachers' Retirement System. Eligibility information shall be communicated to the Department of Central Management Services in a format acceptable to the Department.

Eligible TRS benefit recipients may enroll or re-enroll in the program of health benefits established under this Section during any applicable annual open enrollment period and as otherwise permitted by the Department of Central Management Services. A TRS benefit recipient shall not be deemed ineligible to participate solely by reason of the TRS benefit recipient having made a previous election to disenroll or otherwise not participate in the program of health benefits.

A TRS dependent beneficiary who is a child age 19 or over and mentally or physically disabled does not become ineligible to participate by reason of (i) becoming ineligible to be claimed as a dependent for Illinois or federal income tax purposes or (ii) receiving earned income, so long as those earnings are insufficient for the child to be fully self-sufficient.

(d) Coverage. The level of health benefits provided under this Section shall be similar to the level of benefits provided by the program previously established under Article 16 of the Illinois Pension Code.

Group life insurance benefits are not included in the benefits to be provided to TRS benefit recipients and TRS dependent beneficiaries under this Act.
The program of health benefits under this Section may include any or all of the benefit limitations, including but not limited to a reduction in benefits based on eligibility for federal Medicare benefits, that are provided under subsection (a) of Section 6 of this Act for other health benefit programs under this Act.

(e) Insurance rates and premiums. The Director shall determine the insurance rates and premiums for TRS benefit recipients and TRS dependent beneficiaries, and shall present to the Teachers' Retirement System of the State of Illinois, by April 15 of each calendar year, the rate-setting methodology (including but not limited to utilization levels and costs) used to determine the amount of the health care premiums.

For Fiscal Year 1996, the premium shall be equal to the premium actually charged in Fiscal Year 1995; in subsequent years, the premium shall never be lower than the premium charged in Fiscal Year 1995.

For Fiscal Year 2003, the premium shall not exceed 110% of the premium actually charged in Fiscal Year 2002.

For Fiscal Year 2004, the premium shall not exceed 112% of the premium actually charged in Fiscal Year 2003.

For Fiscal Year 2005, the premium shall not exceed a weighted average of 106.6% of the premium actually charged in Fiscal Year 2004.

For Fiscal Year 2006, the premium shall not exceed a weighted average of 109.1% of the premium actually charged in Fiscal Year 2005.

For Fiscal Year 2007, the premium shall not exceed a weighted average of 103.9% of the premium actually charged in Fiscal Year 2006.

For Fiscal Year 2008 and thereafter, the premium in each fiscal year shall not exceed 105% of the premium actually charged in the previous fiscal year.

Rates and premiums may be based in part on age and eligibility for federal medicare coverage. However, the cost of participation for a TRS dependent beneficiary who is an unmarried child age 19 or over and mentally or physically disabled shall not exceed the cost for a TRS dependent beneficiary who is an unmarried child under age 19 and participates in the same major medical or managed care program.

The cost of health benefits under the program shall be paid as follows:

New matter indicated by italics- deletions by strikeout
(1) For a TRS benefit recipient selecting a managed care program, up to 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund. Effective with Fiscal Year 2007 and thereafter, for a TRS benefit recipient selecting a managed care program, 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund.

(2) For a TRS benefit recipient selecting the major medical coverage program, up to 50% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a managed care program is accessible, as determined by the Teachers’ Retirement System. Effective with Fiscal Year 2007 and thereafter, for a TRS benefit recipient selecting the major medical coverage program, 50% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a managed care program is accessible, as determined by the Department of Central Management Services.

(3) For a TRS benefit recipient selecting the major medical coverage program, up to 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a managed care program is not accessible, as determined by the Teachers’ Retirement System. Effective with Fiscal Year 2007 and thereafter, for a TRS benefit recipient selecting the major medical coverage program, 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a managed care program is not accessible, as determined by the Department of Central Management Services.

(3.1) For a TRS dependent beneficiary who is Medicare primary and enrolled in a managed care plan, or the major medical coverage program if a managed care plan is not available, 25% of the total insurance rate shall be paid from the Teacher Health Security Fund as determined by the Department of Central Management Services. For the purpose of this item (3.1), the term "TRS dependent beneficiary who is Medicare primary" means a TRS dependent beneficiary who is participating in Medicare Parts A and B.

(4) Except as otherwise provided in item (3.1), the balance of the rate of insurance, including the entire premium of any coverage for TRS dependent beneficiaries that has been elected, shall be paid by deductions authorized by the TRS benefit recipient.

to be withheld from his or her monthly annuity or benefit payment from the Teachers' Retirement System; except that (i) if the balance of the cost of coverage exceeds the amount of the monthly annuity or benefit payment, the difference shall be paid directly to the Teachers' Retirement System by the TRS benefit recipient, and (ii) all or part of the balance of the cost of coverage may, at the school board's option, be paid to the Teachers' Retirement System by the school board of the school district from which the TRS benefit recipient retired, in accordance with Section 10-22.3b of the School Code. The Teachers' Retirement System shall promptly deposit all moneys withheld by or paid to it under this subdivision (e)(4) into the Teacher Health Insurance Security Fund. These moneys shall not be considered assets of the Retirement System.

(5) If in any case an error is made in billing a TRS benefit recipient under this Section, the Department shall identify the error and refund the overpaid amount as soon as practicable. A TRS benefit recipient who has overpaid under this Section shall be entitled to a refund of overpayments for up to 7 years of past payments.

(f) Financing. Beginning July 1, 1995, all revenues arising from the administration of the health benefit programs established under Article 16 of the Illinois Pension Code or this Section shall be deposited into the Teacher Health Insurance Security Fund, which is hereby created as a nonappropriated trust fund to be held outside the State Treasury, with the State Treasurer as custodian. Any interest earned on moneys in the Teacher Health Insurance Security Fund shall be deposited into the Fund.

Moneys in the Teacher Health Insurance Security Fund shall be used only to pay the costs of the health benefit program established under this Section, including associated administrative costs, and the costs associated with the health benefit program established under Article 16 of the Illinois Pension Code, as authorized in this Section. Beginning July 1, 1995, the Department of Central Management Services may make expenditures from the Teacher Health Insurance Security Fund for those costs.

The Department may promulgate rules further defining the methodology for the transfers. Any interest earned by moneys in the funds or accounts shall inure to the Teacher Health Insurance Security Fund. The transferred moneys, and interest accrued thereon, shall be used exclusively for transfers to administrative service organizations or their financial institutions for payments of claims to claimants and providers under the self-insurance health plan. The contract or other arrangement for the provision of these health benefits shall be on terms deemed by the Director to be in the best interest of the State of Illinois and the TRS benefit recipients based on, but not limited to, such criteria as administrative cost, service capabilities of the carrier or other contractor, and the costs of the benefits.

(g-5) Committee. A Teacher Retirement Insurance Program Committee shall be established, to consist of 10 persons appointed by the Governor.

If the Teacher Health Insurance Security Fund experiences a deficit balance based upon the contribution and subsidy rates established in this Section and Section 6.6 for Fiscal Year 2008 or thereafter, the Committee shall make recommendations for adjustments to the funding sources established under these Sections.

In addition, the Committee shall identify proposed solutions to the funding shortfalls that are affecting the Teacher Health Insurance Security Fund, and it shall report those solutions to the Governor and the General Assembly within 6 months after August 15, 2011 (the effective date of Public Act 97-386).

(h) Continuation of program. It is the intention of the General Assembly that the program of health benefits provided under this Section be maintained on an ongoing, affordable basis.

The program of health benefits provided under this Section may be amended by the State and is not intended to be a pension or retirement benefit subject to protection under Article XIII, Section 5 of the Illinois Constitution.

PUBLIC ACT 101-0484
(House Bill No. 2737)

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Soil and Water Conservation Districts Act is amended by changing Sections 2, 10, 22.01, 22.03, 22.05, and 22.07a and by adding Section 3.23 as follows:

(70 ILCS 405/2) (from Ch. 5, par. 107)
Sec. 2. Declaration of policy. The General Assembly declares it to be in the public interest to provide (a) for the conservation of the soil, soil health, soil resources, organic matter in soil and plants, water quality and

water resources of this State, (b) for the control and prevention of soil erosion, (c) for the prevention of air and water pollution and the improvement of resilience to droughts, floods, and other extreme weather, and (d) for the prevention of erosion, floodwater and sediment damages, and thereby to conserve natural resources, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, conserve wild life and forests, protect the tax base, protect public lands, and protect and promote the health, safety and general welfare of the people of this State.

The General Assembly finds that erosion continues to be a serious problem throughout the State, and that rapid shifts in land use from agricultural to nonagricultural uses, changes in farm enterprises, operations, ownership, construction of housing, industrial and commercial developments, streets, highways, recreation areas, schools, colleges and universities, and other land disturbing activities have accelerated the process of soil erosion and sediment deposition resulting in reduced resilience to floods, droughts, and other extreme weather, pollution of the waters of the State and damage to domestic, agricultural, industrial, recreational, fish and wildlife, and other resource uses. It is, therefore, declared to be the policy of this State to strengthen and extend the present erosion and sediment control activities and programs for both rural and urban lands, and to establish and implement, through the Department and soil and water conservation districts in cooperation with units of local government, school districts, other political subdivisions of this State, agencies of this State and other public agencies and private entities, a statewide comprehensive and coordinated erosion and sediment control program to conserve and protect land, water, air and other resources.

The provisions of the "Local Governmental and Governmental Employees Tort Immunity Act" shall apply to all districts created pursuant to this Act.

hearing and upon such other relevant facts and information as may be available that there is need in the interest of the public health, safety, and welfare, for a soil and water conservation district to function in the territory considered at the hearing, it shall make and record such determination and shall define by metes and bounds, or by legal subdivisions, the boundaries of such district. In making such determination and in defining such boundaries, the Department shall give due weight and consideration to the following matters which are hereby stated to be the standards which shall guide the considerations of the Department: The topography of the area considered and of the State; the composition of soils therein; the distribution of erosion; the prevailing land use practices; the desirability and necessity of including within the boundaries the particular lands under consideration and the benefits such lands may receive from being included within such boundaries; the relation of the proposed area to existing watersheds and agricultural regions and to other soil conservation districts already organized or proposed for organization under the provisions of this Act, and such other physical, geographical, and economic factors as are relevant. The territory to be included within such boundaries need not be contiguous. No territory shall be included within the boundaries of more than one district. In cases where territory is proposed to be added to an existing district, the Department shall also consider the attitude of the district directors as expressed at the hearing, by resolution or otherwise.

If the Department determines after such hearing, and after due consideration of the above-mentioned facts and standards that there is no need for a soil and water conservation district for the territory considered at the hearing, it shall record such determination and deny the petition. No subsequent petitions covering the same or substantially the same territory shall be filed as aforesaid until after the expiration of one year from the date of such denial.

Section 5. The Metropolitan Transit Authority Act is amended by changing Section 12a as follows:

(70 ILCS 3605/12a) (from Ch. 111 2/3, par. 312a)

Sec. 12a. (a) In addition to other powers provided in Section 12b, the Authority may issue its notes from time to time, in anticipation of tax receipts of the Regional Transportation Authority allocated to the Authority or of other revenues or receipts of the Authority, in order to provide money for the Authority to cover any cash flow deficit which the Authority anticipates incurring. Provided, however, that no such notes may be issued unless the annual cost thereof is incorporated in a budget or revised budget of the Authority which has been approved by the Regional Transportation Authority. Any such notes are referred to as "Working Cash Notes". Provided further that, the board shall not issue and have outstanding or demand and direct that the Board of the Regional Transportation Authority issue and have outstanding more than an aggregate of $40,000,000 in Working Cash Notes. No Working Cash Notes shall be issued for a term of longer than 18 months. Proceeds of Working Cash Notes may be used to pay day to day operating expenses of the Authority, consisting of wages, salaries and fringe benefits,

professional and technical services (including legal, audit, engineering and other consulting services), office rental, furniture, fixtures and equipment, insurance premiums, claims for self-insured amounts under insurance policies, public utility obligations for telephone, light, heat and similar items, travel expenses, office supplies, postage, dues, subscriptions, public hearings and information expenses, fuel purchases, and payments of grants and payments under purchase of service agreements for operations of transportation agencies, prior to the receipt by the Authority from time to time of funds for paying such expenses. Proceeds of the Working Cash Notes shall not be used (i) to increase or provide a debt service reserve fund for any bonds or notes other than Working Cash Notes of the same Series, or (ii) to pay principal of or interest or redemption premium on any capital bonds or notes, whether as such amounts become due or by earlier redemption, issued by the Authority or a transportation agency to construct or acquire public transportation facilities, or to provide funds to purchase such capital bonds or notes.

(b) The ordinance providing for the issuance of any such notes shall fix the date or dates of maturity, the dates on which interest is payable, any sinking fund account or reserve fund account provisions and all other details of such notes and may provide for such covenants or agreements necessary or desirable with regard to the issue, sale and security of such notes. The Authority shall determine and fix the rate or rates of interest of its notes issued under this Act in an ordinance adopted by the Board prior to the issuance thereof, none of which rates of interest shall exceed that permitted in the Bond Authorization Act. Interest may be payable annually or semi-annually, or at such other times as determined by the Board. Notes issued under this Section may be issued as serial or term obligations, shall be of such denomination or denominations and form, including interest coupons to be attached thereto, be executed in such manner, shall be payable at such place or places and bear such date as the Board shall fix by the ordinance authorizing such note and shall mature at such time or times, within a period not to exceed 18 months from the date of issue, and may be redeemable prior to maturity with or without premium, at the option of the Board, upon such terms and conditions as the Board shall fix by the ordinance authorizing the issuance of such notes. The Board may provide for the registration of notes in the name of the owner as to the principal alone or as to both principal and interest, upon such terms and conditions as the Board may determine. The ordinance authorizing notes may provide for the exchange of such notes which are

fully registered, as to both principal and interest, with notes which are registerable as to principal only. All notes issued under this Section by the Board shall be sold at a price which may be at a premium or discount but such that the interest cost (excluding any redemption premium) to the Board of the proceeds of an issue of such notes, computed to stated maturity according to standard tables of bond values, shall not exceed that permitted in the Bond Authorization Act. Such notes shall be sold at such time or times as the Board shall determine. The notes may be sold either upon competitive bidding or by negotiated sale (without any requirement of publication of intention to negotiate the sale of such notes), as the Board shall determine by ordinance adopted with the affirmative votes of at least 4 Directors. In case any officer whose signature appears on any notes or coupons authorized pursuant to this Section shall cease to be such officer before delivery of such notes, such signature shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until such delivery. Neither the Directors of the Regional Transportation Authority, the Directors of the Authority nor any person executing any bonds or notes thereof shall be liable personally on any such bonds or notes or coupons by reason of the issuance thereof.

(c) All notes of the Authority issued pursuant to this Section shall be general obligations of the Authority to which shall be pledged the full faith and credit of the Authority, as provided in this Section. Such notes shall be secured as provided in the authorizing ordinance, which may, notwithstanding any other provision of this Act, include in addition to any other security, a specific pledge or assignment of and lien on or security interest in any or all tax receipts of the Regional Transportation Authority allocated to the Authority and on any or all other revenues or moneys of the Authority from whatever source which may by law be utilized for debt service purposes and a specific pledge or assignment of and lien on or security interest in any funds or accounts established or provided for by the ordinance of the Board authorizing the issuance of such notes. Any such pledge, assignment, lien or security interest for the benefit of holders of notes of the Authority shall be valid and binding from the time the notes are issued without any physical delivery or further act, and shall be valid and binding as against and prior to the claims of all other parties having claims of any kind against the Authority or any other person irrespective of whether such other parties have notice of such pledge, assignment, lien or security interest. The obligations of the Authority incurred pursuant to this Section shall be superior to and have priority over any other obligations of

New matter indicated by italics- deletions by strikeout
the Authority except for obligations under Section 12. The Board may provide in the ordinance authorizing the issuance of any notes issued pursuant to this Section for the creation of, deposits in, and regulation and disposition of sinking fund or reserve accounts relating to such notes. The ordinance authorizing the issuance of any notes pursuant to this Section may contain provisions as part of the contract with the holders of the notes, for the creation of a separate fund to provide for the payment of principal and interest on such notes and for the deposit in such fund from any or all the tax receipts of the Regional Transportation Authority allocated to the Authority and from any or all such other moneys or revenues of the Authority from whatever source which may by law be utilized for debt service purposes, all as provided in such ordinance, of amounts to meet the debt service requirements on such notes, including principal and interest, and any sinking fund or reserve fund account requirements as may be provided by such ordinance, and all expenses incident to or in connection with such fund and accounts or the payment of such notes. Such ordinance may also provide limitations on the issuance of additional notes of the Authority. No such notes of the Authority shall constitute a debt of the State of Illinois.

(d) The ordinance of the Board authorizing the issuance of any notes may provide additional security for such notes by providing for appointment of a corporate trustee (which may be any trust company or bank having the powers of a trust company within the State) with respect to such notes. The ordinance shall prescribe the rights, duties and powers of the trustee to be exercised for the benefit of the Authority and the protection of the holders of such notes. The ordinance may provide for the trustee to hold in trust, invest and use amounts in funds and accounts created as provided by the ordinance with respect to the notes. The ordinance shall provide that amounts so paid to the trustee which are not required to be deposited, held or invested in funds and accounts created by the ordinance with respect to notes or used for paying notes to be paid by the trustee to the Authority.

(e) Any notes of the Authority issued pursuant to this Section shall constitute a contract between the Authority and the holders from time to time of such notes. In issuing any note, the Board may include in the ordinance authorizing such issue a covenant as part of the contract with the holders of the notes, that as long as such obligations are outstanding, it shall make such deposits, as provided in paragraph (c) of this Section. A certified copy of the ordinance authorizing the issuance of any such notes...
obligations shall be filed at or prior to the issuance of such obligations with the Regional Transportation Authority, Comptroller of the State of Illinois and the Illinois Department of Revenue.

(f) The State of Illinois pledges to and agrees with the holders of the notes of the Authority issued pursuant to this Section that the State will not limit or alter the rights and powers vested in the Authority by this Act or in the Regional Transportation Authority by the Regional Transportation Authority Act so as to impair the terms of any contract made by the Authority with such holders or in any way impair the rights and remedies of such holders until such notes, together with interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of such holders, are fully met and discharged. In addition, the State pledges to and agrees with the holders of the notes of the Authority issued pursuant to this Section that the State will not limit or alter the basis on which State funds are to be paid to the Authority as provided in the Regional Transportation Authority Act, or the use of such funds, so as to impair the terms of any such contract. The Board is authorized to include these pledges and agreements of the State in any contract with the holders of bonds or notes issued pursuant to this Section.

(g) The Board shall not at any time issue, sell or deliver any Interim Financing Notes pursuant to this Section which will cause it to have issued and outstanding at any time in excess of $40,000,000 of Working Cash Notes. Notes which are being paid or retired by such issuance, sale or delivery of notes, and notes for which sufficient funds have been deposited with the paying agency of such notes to provide for payment of principal and interest thereon or to provide for the redemption thereof, all pursuant to the ordinance authorizing the issuance of such notes, shall not be considered to be outstanding for the purposes of this paragraph.

(h) The Board, subject to the terms of any agreements with noteholders as may then exist, shall have power, out of any funds available therefor, to purchase notes of the Authority which shall thereupon be cancelled.

(i) In addition to any other authority granted by law, the State Treasurer may, with the approval of the Governor, invest or reinvest, at a price not to exceed par, any State money in the State Treasury which is not needed for current expenditures due or about to become due in Interim Financing Notes. In the event of a default on an interim financing note

issued by the Chicago Transit Authority in which State money in the State treasury was invested, the Treasurer may, after giving notice to the Authority, certify to the Comptroller the amounts of the defaulted interim financing note, in accordance with any applicable rules of the Comptroller, and the Comptroller must deduct and remit to the State treasury the certified amounts or a portion of those amounts from the following proportions of payments of State funds to the Authority:

1. in the first year after default, one-third of the total amount of any payments of State funds to the Authority;
2. in the second year after default, two-thirds of the total amount of any payments of State funds to the Authority; and
3. in the third year after default and for each year thereafter until the total invested amount is repaid, the total amount of any payments of State funds to the Authority.

Section 10. The Regional Transportation Authority Act is amended by changing Section 4.04 as follows:

Sec. 4.04. Issuance and Pledge of Bonds and Notes.

(a) The Authority shall have the continuing power to borrow money and to issue its negotiable bonds or notes as provided in this Section. Unless otherwise indicated in this Section, the term "notes" also includes bond anticipation notes, which are notes which by their terms provide for their payment from the proceeds of bonds thereafter to be issued. Bonds or notes of the Authority may be issued for any or all of the following purposes: to pay costs to the Authority or a Service Board of constructing or acquiring any public transportation facilities (including funds and rights relating thereto, as provided in Section 2.05 of this Act); to repay advances to the Authority or a Service Board made for such purposes; to pay other expenses of the Authority or a Service Board incident to or incurred in connection with such construction or acquisition; to provide funds for any transportation agency to pay principal of or interest or redemption premium on any bonds or notes, whether as such amounts become due or by earlier redemption, issued prior to the date of this amendatory Act by such transportation agency to construct or acquire public transportation facilities or to provide funds to purchase such bonds or notes; and to provide funds for any transportation agency to construct or acquire any public transportation facilities, to repay advances made for such purposes, and to pay other expenses incident to or incurred in

connection with such construction or acquisition; and to provide funds for payment of obligations, including the funding of reserves, under any self-insurance plan or joint self-insurance pool or entity.

In addition to any other borrowing as may be authorized by this Section, the Authority may issue its notes, from time to time, in anticipation of tax receipts of the Authority or of other revenues or receipts of the Authority, in order to provide money for the Authority or the Service Boards to cover any cash flow deficit which the Authority or a Service Board anticipates incurring. Any such notes are referred to in this Section as "Working Cash Notes". No Working Cash Notes shall be issued for a term of longer than 24 months. Proceeds of Working Cash Notes may be used to pay day to day operating expenses of the Authority or the Service Boards, consisting of wages, salaries and fringe benefits, professional and technical services (including legal, audit, engineering and other consulting services), office rental, furniture, fixtures and equipment, insurance premiums, claims for self-insured amounts under insurance policies, public utility obligations for telephone, light, heat and similar items, travel expenses, office supplies, postage, dues, subscriptions, public hearings and information expenses, fuel purchases, and payments of grants and payments under purchase of service agreements for operations of transportation agencies, prior to the receipt by the Authority or a Service Board from time to time of funds for paying such expenses. In addition to any Working Cash Notes that the Board of the Authority may determine to issue, the Suburban Bus Board, the Commuter Rail Board or the Board of the Chicago Transit Authority may demand and direct that the Authority issue its Working Cash Notes in such amounts and having such maturities as the Service Board may determine.

Notwithstanding any other provision of this Act, any amounts necessary to pay principal of and interest on any Working Cash Notes issued at the demand and direction of a Service Board or any Working Cash Notes the proceeds of which were used for the direct benefit of a Service Board or any other Bonds or Notes of the Authority the proceeds of which were used for the direct benefit of a Service Board shall constitute a reduction of the amount of any other funds provided by the Authority to that Service Board. The Authority shall, after deducting any costs of issuance, tender the net proceeds of any Working Cash Notes issued at the demand and direction of a Service Board to such Service Board as soon as may be practicable after the proceeds are received. The Authority may also issue notes or bonds to pay, refund or redeem any of its

notes and bonds, including to pay redemption premiums or accrued interest on such bonds or notes being renewed, paid or refunded, and other costs in connection therewith. The Authority may also utilize the proceeds of any such bonds or notes to pay the legal, financial, administrative and other expenses of such authorization, issuance, sale or delivery of bonds or notes or to provide or increase a debt service reserve fund with respect to any or all of its bonds or notes. The Authority may also issue and deliver its bonds or notes in exchange for any public transportation facilities, (including funds and rights relating thereto, as provided in Section 2.05 of this Act) or in exchange for outstanding bonds or notes of the Authority, including any accrued interest or redemption premium thereon, without advertising or submitting such notes or bonds for public bidding.

(b) The ordinance providing for the issuance of any such bonds or notes shall fix the date or dates of maturity, the dates on which interest is payable, any sinking fund account or reserve fund account provisions and all other details of such bonds or notes and may provide for such covenants or agreements necessary or desirable with regard to the issue, sale and security of such bonds or notes. The rate or rates of interest on its bonds or notes may be fixed or variable and the Authority shall determine or provide for the determination of the rate or rates of interest of its bonds or notes issued under this Act in an ordinance adopted by the Authority prior to the issuance thereof, none of which rates of interest shall exceed that permitted in the Bond Authorization Act. Interest may be payable at such times as are provided for by the Board. Bonds and notes issued under this Section may be issued as serial or term obligations, shall be of such denomination or denominations and form, including interest coupons to be attached thereto, be executed in such manner, shall be payable at such place or places and bear such date as the Authority shall fix by the ordinance authorizing such bond or note and shall mature at such time or times, within a period not to exceed forty years from the date of issue, and may be redeemable prior to maturity with or without premium, at the option of the Authority, upon such terms and conditions as the Authority shall fix by the ordinance authorizing the issuance of such bonds or notes. No bond anticipation note or any renewal thereof shall mature at any time or times exceeding 5 years from the date of the first issuance of such note. The Authority may provide for the registration of bonds or notes in the name of the owner as to the principal alone or as to both principal and interest, upon such terms and conditions as the Authority may determine. The ordinance authorizing bonds or notes may provide for the exchange of

such bonds or notes which are fully registered, as to both principal and interest, with bonds or notes which are registerable as to principal only. All bonds or notes issued under this Section by the Authority other than those issued in exchange for property or for bonds or notes of the Authority shall be sold at a price which may be at a premium or discount but such that the interest cost (excluding any redemption premium) to the Authority of the proceeds of an issue of such bonds or notes, computed to stated maturity according to standard tables of bond values, shall not exceed that permitted in the Bond Authorization Act. The Authority shall notify the Governor's Office of Management and Budget and the State Comptroller at least 30 days before any bond sale and shall file with the Governor's Office of Management and Budget and the State Comptroller a certified copy of any ordinance authorizing the issuance of bonds at or before the issuance of the bonds. After December 31, 1994, any such bonds or notes shall be sold to the highest and best bidder on sealed bids as the Authority shall deem. As such bonds or notes are to be sold the Authority shall advertise for proposals to purchase the bonds or notes which advertisement shall be published at least once in a daily newspaper of general circulation published in the metropolitan region at least 10 days before the time set for the submission of bids. The Authority shall have the right to reject any or all bids. Notwithstanding any other provisions of this Section, Working Cash Notes or bonds or notes to provide funds for self-insurance or a joint self-insurance pool or entity may be sold either upon competitive bidding or by negotiated sale (without any requirement of publication of intention to negotiate the sale of such Notes), as the Board shall determine by ordinance adopted with the affirmative votes of at least 9 Directors. In case any officer whose signature appears on any bonds, notes or coupons authorized pursuant to this Section shall cease to be such officer before delivery of such bonds or notes, such signature shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until such delivery. Neither the Directors of the Authority nor any person executing any bonds or notes thereof shall be liable personally on any such bonds or notes or coupons by reason of the issuance thereof.

(c) All bonds or notes of the Authority issued pursuant to this Section shall be general obligations of the Authority to which shall be pledged the full faith and credit of the Authority, as provided in this Section. Such bonds or notes shall be secured as provided in the authorizing ordinance, which may, notwithstanding any other provision of

this Act, include in addition to any other security, a specific pledge or assignment of and lien on or security interest in any or all tax receipts of the Authority and on any or all other revenues or moneys of the Authority from whatever source, which may by law be utilized for debt service purposes and a specific pledge or assignment of and lien on or security interest in any funds or accounts established or provided for by the ordinance of the Authority authorizing the issuance of such bonds or notes. Any such pledge, assignment, lien or security interest for the benefit of holders of bonds or notes of the Authority shall be valid and binding from the time the bonds or notes are issued without any physical delivery or further act and shall be valid and binding as against and prior to the claims of all other parties having claims of any kind against the Authority or any other person irrespective of whether such other parties have notice of such pledge, assignment, lien or security interest. The obligations of the Authority incurred pursuant to this Section shall be superior to and have priority over any other obligations of the Authority.

The Authority may provide in the ordinance authorizing the issuance of any bonds or notes issued pursuant to this Section for the creation of, deposits in, and regulation and disposition of sinking fund or reserve accounts relating to such bonds or notes. The ordinance authorizing the issuance of any bonds or notes pursuant to this Section may contain provisions as part of the contract with the holders of the bonds or notes, for the creation of a separate fund to provide for the payment of principal and interest on such bonds or notes and for the deposit in such fund from any or all the tax receipts of the Authority and from any or all such other moneys or revenues of the Authority from whatever source which may by law be utilized for debt service purposes, all as provided in such ordinance, of amounts to meet the debt service requirements on such bonds or notes, including principal and interest, and any sinking fund or reserve fund account requirements as may be provided by such ordinance, and all expenses incident to or in connection with such fund and accounts or the payment of such bonds or notes. Such ordinance may also provide limitations on the issuance of additional bonds or notes of the Authority. No such bonds or notes of the Authority shall constitute a debt of the State of Illinois. Nothing in this Act shall be construed to enable the Authority to impose any ad valorem tax on property.

(d) The ordinance of the Authority authorizing the issuance of any bonds or notes may provide additional security for such bonds or notes by providing for appointment of a corporate trustee (which may be any trust

company or bank having the powers of a trust company within the state) with respect to such bonds or notes. The ordinance shall prescribe the rights, duties and powers of the trustee to be exercised for the benefit of the Authority and the protection of the holders of such bonds or notes. The ordinance may provide for the trustee to hold in trust, invest and use amounts in funds and accounts created as provided by the ordinance with respect to the bonds or notes. The ordinance may provide for the assignment and direct payment to the trustee of any or all amounts produced from the sources provided in Section 4.03 and Section 4.09 of this Act and provided in Section 6z-17 of "An Act in relation to State finance", approved June 10, 1919, as amended. Upon receipt of notice of any such assignment, the Department of Revenue and the Comptroller of the State of Illinois shall thereafter, notwithstanding the provisions of Section 4.03 and Section 4.09 of this Act and Section 6z-17 of "An Act in relation to State finance", approved June 10, 1919, as amended, provide for such assigned amounts to be paid directly to the trustee instead of the Authority, all in accordance with the terms of the ordinance making the assignment. The ordinance shall provide that amounts so paid to the trustee which are not required to be deposited, held or invested in funds and accounts created by the ordinance with respect to bonds or notes or used for paying bonds or notes to be paid by the trustee to the Authority.

(e) Any bonds or notes of the Authority issued pursuant to this Section shall constitute a contract between the Authority and the holders from time to time of such bonds or notes. In issuing any bond or note, the Authority may include in the ordinance authorizing such issue a covenant as part of the contract with the holders of the bonds or notes, that as long as such obligations are outstanding, it shall make such deposits, as provided in paragraph (c) of this Section. It may also so covenant that it shall impose and continue to impose taxes, as provided in Section 4.03 of this Act and in addition thereto as subsequently authorized by law, sufficient to make such deposits and pay the principal and interest and to meet other debt service requirements of such bonds or notes as they become due. A certified copy of the ordinance authorizing the issuance of any such obligations shall be filed at or prior to the issuance of such obligations with the Comptroller of the State of Illinois and the Illinois Department of Revenue.

(f) The State of Illinois pledges to and agrees with the holders of the bonds and notes of the Authority issued pursuant to this Section that the State will not limit or alter the rights and powers vested in the

Authority by this Act so as to impair the terms of any contract made by the Authority with such holders or in any way impair the rights and remedies of such holders until such bonds and notes, together with interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of such holders, are fully met and discharged. In addition, the State pledges to and agrees with the holders of the bonds and notes of the Authority issued pursuant to this Section that the State will not limit or alter the basis on which State funds are to be paid to the Authority as provided in this Act, or the use of such funds, so as to impair the terms of any such contract. The Authority is authorized to include these pledges and agreements of the State in any contract with the holders of bonds or notes issued pursuant to this Section.

(g)(1) Except as provided in subdivisions (g)(2) and (g)(3) of Section 4.04 of this Act, the Authority shall not at any time issue, sell or deliver any bonds or notes (other than Working Cash Notes and lines of credit) pursuant to this Section 4.04 which will cause it to have issued and outstanding at any time in excess of $800,000,000 of such bonds and notes (other than Working Cash Notes and lines of credit). The Authority shall not issue, sell, or deliver any Working Cash Notes or establish a line of credit pursuant to this Section that will cause it to have issued and outstanding at any time in excess of $100,000,000. However, the Authority may issue, sell, and deliver additional Working Cash Notes or establish a line of credit before July 1, 2022 that are over and above and in addition to the $100,000,000 authorization such that the outstanding amount of these additional Working Cash Notes and lines of credit does not exceed at any time $300,000,000. Bonds or notes which are being paid or retired by such issuance, sale or delivery of bonds or notes, and bonds or notes for which sufficient funds have been deposited with the paying agency of such bonds or notes to provide for payment of principal and interest thereon or to provide for the redemption thereof, all pursuant to the ordinance authorizing the issuance of such bonds or notes, shall not be considered to be outstanding for the purposes of this subsection.

(2) In addition to the authority provided by paragraphs (1) and (3), the Authority is authorized to issue, sell and deliver bonds or notes for Strategic Capital Improvement Projects approved pursuant to Section 4.13 as follows:

$100,000,000 is authorized to be issued on or after January 1, 1990;

the aggregate total authorization of bonds and notes for Strategic Capital Improvement Projects as of January 1, 1994, shall be $500,000,000.

The Authority is also authorized to issue, sell, and deliver bonds or notes in such amounts as are necessary to provide for the refunding or advance refunding of bonds or notes issued for Strategic Capital Improvement Projects under this subdivision (g)(2), provided that no such refunding bond or note shall mature later than the final maturity date of the series of bonds or notes being refunded, and provided further that the debt service requirements for such refunding bonds or notes in the current or any future fiscal year shall not exceed the debt service requirements for that year on the refunded bonds or notes.

(3) In addition to the authority provided by paragraphs (1) and (2), the Authority is authorized to issue, sell, and deliver bonds or notes for Strategic Capital Improvement Projects approved pursuant to Section 4.13 as follows:

an additional $260,000,000 is authorized to be issued on or after January 1, 2004; and
the aggregate total authorization of bonds and notes for Strategic Capital Improvement Projects pursuant to this paragraph (3) as of January 1, 2004 shall be $1,300,000,000.

The Authority is also authorized to issue, sell, and deliver bonds or notes in such amounts as are necessary to provide for the refunding or
advance refunding of bonds or notes issued for Strategic Capital Improvement projects under this subdivision (g)(3), provided that no such refunding bond or note shall mature later than the final maturity date of the series of bonds or notes being refunded, and provided further that the debt service requirements for such refunding bonds or notes in the current or any future fiscal year shall not exceed the debt service requirements for that year on the refunded bonds or notes.

(h) The Authority, subject to the terms of any agreements with noteholders or bond holders as may then exist, shall have power, out of any funds available therefor, to purchase notes or bonds of the Authority, which shall thereupon be cancelled.

(i) In addition to any other authority granted by law, the State Treasurer may, with the approval of the Governor, invest or reinvest, at a price not to exceed par, any State money in the State Treasury which is not needed for current expenditures due or about to become due in Working Cash Notes. In the event of a default on a Working Cash Note issued by the Regional Transportation Authority in which State money in the State treasury was invested, the Treasurer may, after giving notice to the Authority, certify to the Comptroller the amounts of the defaulted Working Cash Note, in accordance with any applicable rules of the Comptroller, and the Comptroller must deduct and remit to the State treasury the certified amounts or a portion of those amounts from the following proportions of payments of State funds to the Authority:

(1) in the first year after default, one-third of the total amount of any payments of State funds to the Authority;

(2) in the second year after default, two-thirds of the total amount of any payments of State funds to the Authority; and

(3) in the third year after default and for each year thereafter until the total invested amount is repaid, the total amount of any payments of State funds to the Authority.

(j) The Authority may establish a line of credit with a bank or other financial institution as may be evidenced by the issuance of notes or other obligations, secured by and payable from all tax receipts of the Authority and any or all other revenues or moneys of the Authority, in an amount not to exceed the limitations set forth in paragraph (1) of subsection (g). Money borrowed under this subsection (j) shall be used to provide money for the Authority or the Service Boards to cover any cash flow deficit that the Authority or a Service Board anticipates incurring and shall be repaid within 24 months.

New matter indicated by italics- deletions by strikeout
Before establishing a line of credit under this subsection (j), the Authority shall authorize the line of credit by ordinance. The ordinance shall set forth facts demonstrating the need for the line of credit, state the amount to be borrowed, establish a maximum interest rate limit not to exceed the maximum rate authorized by the Bond Authorization Act, and provide a date by which the borrowed funds shall be repaid. The ordinance shall authorize and direct the relevant officials to make arrangements to set apart and hold, as applicable, the moneys that will be used to repay the borrowing. In addition, the ordinance may authorize the relevant officials to make partial repayments on the line of credit as the moneys become available and may contain any other terms, restrictions, or limitations desirable or necessary to give effect to this subsection (j).

The Authority shall notify the Governor's Office of Management and Budget and the State Comptroller at least 30 days before establishing a line of credit and shall file with the Governor's Office of Management and Budget and the State Comptroller a certified copy of any ordinance authorizing the establishment of a line of credit upon or before establishing the line of credit.

Section 10. The State Finance Act is amended by changing Section 8.12 as follows:

(30 ILCS 105/8.12) (from Ch. 127, par. 144.12)

(a) The moneys in the State Pensions Fund shall be used exclusively for the administration of the Revised Uniform Unclaimed Property Act and for the expenses incurred by the Auditor General for administering the provisions of Section 2-8.1 of the Illinois State Auditing Act and for operational expenses of the Office of the State Treasurer and for the funding of the unfunded liabilities of the designated retirement systems. For the purposes of this Section, "operational expenses of the Office of the State Treasurer" includes the acquisition of land and buildings in State fiscal years 2019 and 2020 for use by the Office of the State Treasurer, as well as construction, reconstruction, improvement, repair, and maintenance, in accordance with the provisions of laws relating thereto, of such lands and buildings beginning in State fiscal year 2019 and thereafter. Beginning in State fiscal year 2020, payments to the designated retirement systems under this Section shall be in addition to, and not in lieu of, any State contributions required under the Illinois Pension Code.

"Designated retirement systems" means:

(1) the State Employees' Retirement System of Illinois;
(2) the Teachers' Retirement System of the State of Illinois;
(3) the State Universities Retirement System;
(4) the Judges Retirement System of Illinois; and
(5) the General Assembly Retirement System.

(b) Each year the General Assembly may make appropriations from the State Pensions Fund for the administration of the Revised Uniform Unclaimed Property Act.

(c) As soon as possible after July 30, 2004 (the effective date of Public Act 93-839), the General Assembly shall appropriate from the State Pensions Fund (1) to the State Universities Retirement System the amount certified under Section 15-165 during the prior year, (2) to the Judges Retirement System of Illinois the amount certified under Section 18-140 during the prior year, and (3) to the General Assembly Retirement System the amount certified under Section 2-134 during the prior year as part of the required State contributions to each of those designated retirement systems; except that amounts appropriated under this subsection (c) in State fiscal year 2005 shall not reduce the amount in the State Pensions

If the amount in the State Pensions Fund does not exceed the sum of the amounts certified in Sections 15-165, 18-140, and 2-134 by at least $5,000,000, the amount paid to each designated retirement system under this subsection shall be reduced in proportion to the amount certified by each of those designated retirement systems.

(c-5) For fiscal years 2006 through 2019, the General Assembly shall appropriate from the State Pensions Fund to the State Universities Retirement System the amount estimated to be available during the fiscal year in the State Pensions Fund; provided, however, that the amounts appropriated under this subsection (c-5) shall not reduce the amount in the State Pensions Fund below $5,000,000.

(c-6) For fiscal year 2020 and each fiscal year thereafter, as soon as may be practical after any money is deposited into the State Pensions Fund from the Unclaimed Property Trust Fund, the State Treasurer shall apportion the deposited amount among the designated retirement systems as defined in subsection (a) to reduce their actuarial reserve deficiencies. The State Comptroller and State Treasurer shall pay the apportioned amounts to the designated retirement systems to fund the unfunded liabilities of the designated retirement systems. The amount apportioned to each designated retirement system shall constitute a portion of the amount estimated to be available for appropriation from the State Pensions Fund that is the same as that retirement system's portion of the total actual reserve deficiency of the systems, as determined annually by the Governor's Office of Management and Budget at the request of the State Treasurer. The amounts apportioned under this subsection shall not reduce the amount in the State Pensions Fund below $5,000,000.

(d) The Governor's Office of Management and Budget shall determine the individual and total reserve deficiencies of the designated retirement systems. For this purpose, the Governor's Office of Management and Budget shall utilize the latest available audit and actuarial reports of each of the retirement systems and the relevant reports and statistics of the Public Employee Pension Fund Division of the Department of Insurance.

(d-1) As soon as practicable after March 5, 2004 (the effective date of Public Act 93-665), the Comptroller shall direct and the Treasurer shall transfer from the State Pensions Fund to the General Revenue Fund, as funds become available, a sum equal to the amounts that would have been paid from the State Pensions Fund to the Teachers' Retirement System of the State of Illinois, the State Universities Retirement System, the Judges

Section 5. The Illinois Insurance Code is amended by changing Section 356z.25 as follows:

(215 ILCS 5/356z.25)

Sec. 356z.25. Coverage for treatment of pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute onset neuropsychiatric syndrome. A group or individual policy of accident and health insurance or managed care plan that is amended, delivered, issued, or renewed after July 18, 2017 (the effective date of Public Act 100-24) shall provide coverage for treatment of pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute-onset neuropsychiatric syndrome, including, but not limited to, the use of intravenous immunoglobulin therapy.

New matter indicated by italics- deletions by strikeout
For billing and diagnosis purposes, pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute onset neuropsychiatric syndrome shall be coded as autoimmune encephalitis until the American Medical Association and the Centers for Medicare and Medicaid Services create and assign a specific code for pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute onset neuropsychiatric syndrome. Thereafter, pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute onset neuropsychiatric syndrome may be coded as autoimmune encephalitis, pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections, or pediatric acute onset neuropsychiatric syndrome.

If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage for pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute onset neuropsychiatric syndrome outlined in this Section, then the requirement that an insurer cover pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute onset neuropsychiatric syndrome is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of coverage for pediatric autoimmune neuropsychiatric disorders associated with streptococcal infections and pediatric acute onset neuropsychiatric syndrome.

AN ACT concerning local government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Sections 10-1-7.1 and 10-2.1-6.3 as follows:

(65 ILCS 5/10-1-7.1)
Sec. 10-1-7.1. Original appointments; full-time fire department.
(a) Applicability. Unless a commission elects to follow the provisions of Section 10-1-7.2, this Section shall apply to all original appointments to an affected full-time fire department. Existing registers of eligibles shall continue to be valid until their expiration dates, or up to a maximum of 2 years after the effective date of this amendatory Act of the 97th General Assembly.

Notwithstanding any statute, ordinance, rule, or other law to the contrary, all original appointments to an affected department to which this Section applies shall be administered in the manner provided for in this Section. Provisions of the Illinois Municipal Code, municipal ordinances, and rules adopted pursuant to such authority and other laws relating to initial hiring of firefighters in affected departments shall continue to apply to the extent they are compatible with this Section, but in the event of a conflict between this Section and any other law, this Section shall control.

A home rule or non-home rule municipality may not administer its fire department process for original appointments in a manner that is less stringent than this Section. This Section is a limitation under subsection (i) of Section 6 of Article VII of the Illinois Constitution on the concurrent exercise by home rule units of the powers and functions exercised by the State.

A municipality that is operating under a court order or consent decree regarding original appointments to a full-time fire department before the effective date of this amendatory Act of the 97th General Assembly is exempt from the requirements of this Section for the duration of the court order or consent decree.

Notwithstanding any other provision of this subsection (a), this Section does not apply to a municipality with more than 1,000,000 inhabitants.

New matter indicated by italics- deletions by strikeout
(b) Original appointments. All original appointments made to an affected fire department shall be made from a register of eligibles established in accordance with the processes established by this Section. Only persons who meet or exceed the performance standards required by this Section shall be placed on a register of eligibles for original appointment to an affected fire department.

Whenever an appointing authority authorizes action to hire a person to perform the duties of a firefighter or to hire a firefighter-paramedic to fill a position that is a new position or vacancy due to resignation, discharge, promotion, death, the granting of a disability or retirement pension, or any other cause, the appointing authority shall appoint to that position the person with the highest ranking on the final eligibility list. If the appointing authority has reason to conclude that the highest ranked person fails to meet the minimum standards for the position or if the appointing authority believes an alternate candidate would better serve the needs of the department, then the appointing authority has the right to pass over the highest ranked person and appoint either: (i) any person who has a ranking in the top 5% of the register of eligibles or (ii) any person who is among the top 5 highest ranked persons on the list of eligibles if the number of people who have a ranking in the top 5% of the register of eligibles is less than 5 people.

Any candidate may pass on an appointment once without losing his or her position on the register of eligibles. Any candidate who passes a second time may be removed from the list by the appointing authority provided that such action shall not prejudice a person's opportunities to participate in future examinations, including an examination held during the time a candidate is already on the municipality's register of eligibles.

The sole authority to issue certificates of appointment shall be vested in the Civil Service Commission. All certificates of appointment issued to any officer or member of an affected department shall be signed by the chairperson and secretary, respectively, of the commission upon appointment of such officer or member to the affected department by the commission. After being selected from the register of eligibles to fill a vacancy in the affected department, each appointee shall be presented with his or her certificate of appointment on the day on which he or she is sworn in as a classified member of the affected department. Firefighters who were not issued a certificate of appointment when originally appointed shall be provided with a certificate within 10 days after making a written request to the chairperson of the Civil Service Commission. Each
person who accepts a certificate of appointment and successfully completes his or her probationary period shall be enrolled as a firefighter and as a regular member of the fire department.

For the purposes of this Section, "firefighter" means any person who has been prior to, on, or after the effective date of this amendatory Act of the 97th General Assembly appointed to a fire department or fire protection district or employed by a State university and sworn or commissioned to perform firefighter duties or paramedic duties, or both, except that the following persons are not included: part-time firefighters; auxiliary, reserve, or voluntary firefighters, including paid-on-call firefighters; clerks and dispatchers or other civilian employees of a fire department or fire protection district who are not routinely expected to perform firefighter duties; and elected officials.

(c) Qualification for placement on register of eligibles. The purpose of establishing a register of eligibles is to identify applicants who possess and demonstrate the mental aptitude and physical ability to perform the duties required of members of the fire department in order to provide the highest quality of service to the public. To this end, all applicants for original appointment to an affected fire department shall be subject to examination and testing which shall be public, competitive, and open to all applicants unless the municipality shall by ordinance limit applicants to residents of the municipality, county or counties in which the municipality is located, State, or nation. Any examination and testing procedure utilized under subsection (e) of this Section shall be supported by appropriate validation evidence and shall comply with all applicable State and federal laws. Municipalities may establish educational, emergency medical service licensure, and other prerequisites for participation in an examination or for hire as a firefighter. Any municipality may charge a fee to cover the costs of the application process.

Residency requirements in effect at the time an individual enters the fire service of a municipality cannot be made more restrictive for that individual during his or her period of service for that municipality, or be made a condition of promotion, except for the rank or position of fire chief and for no more than 2 positions that rank immediately below that of the chief rank which are appointed positions pursuant to the Fire Department Promotion Act.

No person who is 35 years of age or older shall be eligible to take an examination for a position as a firefighter unless the person has had previous employment status as a firefighter in the regularly constituted fire
department of the municipality, except as provided in this Section. The age limitation does not apply to:

(1) any person previously employed as a full-time firefighter in a regularly constituted fire department of (i) any municipality or fire protection district located in Illinois, (ii) a fire protection district whose obligations were assumed by a municipality under Section 21 of the Fire Protection District Act, or (iii) a municipality whose obligations were taken over by a fire protection district,

(2) any person who has served a municipality as a regularly enrolled volunteer, paid-on-call, or part-time firefighter for the 5 years immediately preceding the time that the municipality begins to use full-time firefighters to provide all or part of its fire protection service, or

(3) any person who turned 35 while serving as a member of the active or reserve components of any of the branches of the Armed Forces of the United States or the National Guard of any state, whose service was characterized as honorable or under honorable, if separated from the military, and is currently under the age of 40.

No person who is under 21 years of age shall be eligible for employment as a firefighter.

No applicant shall be examined concerning his or her political or religious opinions or affiliations. The examinations shall be conducted by the commissioners of the municipality or their designees and agents.

No municipality shall require that any firefighter appointed to the lowest rank serve a probationary employment period of longer than one year of actual active employment, which may exclude periods of training, or injury or illness leaves, including duty related leave, in excess of 30 calendar days. Notwithstanding anything to the contrary in this Section, the probationary employment period limitation may be extended for a firefighter who is required, as a condition of employment, to be a licensed paramedic, during which time the sole reason that a firefighter may be discharged without a hearing is for failing to meet the requirements for paramedic licensure.

In the event that any applicant who has been found eligible for appointment and whose name has been placed upon the final eligibility register provided for in this Division 1 has not been appointed to a firefighter position within one year after the date of his or her physical

New matter indicated by italics- deletions by strikeout
ability examination, the commission may cause a second examination to be made of that applicant's physical ability prior to his or her appointment. If, after the second examination, the physical ability of the applicant shall be found to be less than the minimum standard fixed by the rules of the commission, the applicant shall not be appointed. The applicant's name may be retained upon the register of candidates eligible for appointment and when next reached for certification and appointment that applicant may be again examined as provided in this Section, and if the physical ability of that applicant is found to be less than the minimum standard fixed by the rules of the commission, the applicant shall not be appointed, and the name of the applicant shall be removed from the register.

(d) Notice, examination, and testing components. Notice of the time, place, general scope, merit criteria for any subjective component, and fee of every examination shall be given by the commission, by a publication at least 2 weeks preceding the examination: (i) in one or more newspapers published in the municipality, or if no newspaper is published therein, then in one or more newspapers with a general circulation within the municipality, or (ii) on the municipality's Internet website. Additional notice of the examination may be given as the commission shall prescribe.

The examination and qualifying standards for employment of firefighters shall be based on: mental aptitude, physical ability, preferences, moral character, and health. The mental aptitude, physical ability, and preference components shall determine an applicant's qualification for and placement on the final register of eligibles. The examination may also include a subjective component based on merit criteria as determined by the commission. Scores from the examination must be made available to the public.

(e) Mental aptitude. No person who does not possess at least a high school diploma or an equivalent high school education shall be placed on a register of eligibles. Examination of an applicant's mental aptitude shall be based upon a written examination. The examination shall be practical in character and relate to those matters that fairly test the capacity of the persons examined to discharge the duties performed by members of a fire department. Written examinations shall be administered in a manner that ensures the security and accuracy of the scores achieved.

(f) Physical ability. All candidates shall be required to undergo an examination of their physical ability to perform the essential functions included in the duties they may be called upon to perform as a member of a fire department. For the purposes of this Section, essential functions of

New matter indicated by italics- deletions by strikeout
the job are functions associated with duties that a firefighter may be called upon to perform in response to emergency calls. The frequency of the occurrence of those duties as part of the fire department's regular routine shall not be a controlling factor in the design of examination criteria or evolutions selected for testing. These physical examinations shall be open, competitive, and based on industry standards designed to test each applicant's physical abilities in the following dimensions:

(1) Muscular strength to perform tasks and evolutions that may be required in the performance of duties including grip strength, leg strength, and arm strength. Tests shall be conducted under anaerobic as well as aerobic conditions to test both the candidate's speed and endurance in performing tasks and evolutions. Tasks tested may be based on standards developed, or approved, by the local appointing authority.

(2) The ability to climb ladders, operate from heights, walk or crawl in the dark along narrow and uneven surfaces, and operate in proximity to hazardous environments.

(3) The ability to carry out critical, time-sensitive, and complex problem solving during physical exertion in stressful and hazardous environments. The testing environment may be hot and dark with tightly enclosed spaces, flashing lights, sirens, and other distractions.

The tests utilized to measure each applicant's capabilities in each of these dimensions may be tests based on industry standards currently in use or equivalent tests approved by the Joint Labor-Management Committee of the Office of the State Fire Marshal.

Physical ability examinations administered under this Section shall be conducted with a reasonable number of proctors and monitors, open to the public, and subject to reasonable regulations of the commission.

(g) Scoring of examination components. Appointing authorities may create a preliminary eligibility register. A person shall be placed on the list based upon his or her passage of the written examination or the passage of the written examination and the physical ability component. Passage of the written examination means attaining the minimum score set by the commission. Minimum scores should be set by the commission so as to demonstrate a candidate's ability to perform the essential functions of the job. The minimum score set by the commission shall be supported by appropriate validation evidence and shall comply with all applicable State and federal laws. The appointing authority may conduct the physical

ability component and any subjective components subsequent to the posting of the preliminary eligibility register.

The examination components for an initial eligibility register shall be graded on a 100-point scale. A person's position on the list shall be determined by the following: (i) the person's score on the written examination, (ii) the person successfully passing the physical ability component, and (iii) the person's results on any subjective component as described in subsection (d).

In order to qualify for placement on the final eligibility register, an applicant's score on the written examination, before any applicable preference points or subjective points are applied, shall be at or above the minimum score set by the commission. The local appointing authority may prescribe the score to qualify for placement on the final eligibility register, but the score shall not be less than the minimum score set by the commission.

The commission shall prepare and keep a register of persons whose total score is not less than the minimum score for passage and who have passed the physical ability examination. These persons shall take rank upon the register as candidates in the order of their relative excellence based on the highest to the lowest total points scored on the mental aptitude, subjective component, and preference components of the test administered in accordance with this Section. No more than 60 days after each examination, an initial eligibility list shall be posted by the commission. The list shall include the final grades of the candidates without reference to priority of the time of examination and subject to claim for preference credit.

Commissions may conduct additional examinations, including without limitation a polygraph test, after a final eligibility register is established and before it expires with the candidates ranked by total score without regard to date of examination. No more than 60 days after each examination, an initial eligibility list shall be posted by the commission showing the final grades of the candidates without reference to priority of time of examination and subject to claim for preference credit.

(h) Preferences. The following are preferences:

(1) Veteran preference. Persons who were engaged in the military service of the United States for a period of at least one year of active duty and who were honorably discharged therefrom, or who are now or have been members on inactive or reserve duty in such military or naval service, shall be preferred for appointment

to and employment with the fire department of an affected department.

(2) Fire cadet preference. Persons who have successfully completed 2 years of study in fire techniques or cadet training within a cadet program established under the rules of the Joint Labor and Management Committee (JLMC), as defined in Section 50 of the Fire Department Promotion Act, may be preferred for appointment to and employment with the fire department.

(3) Educational preference. Persons who have successfully obtained an associate's degree in the field of fire service or emergency medical services, or a bachelor's degree from an accredited college or university may be preferred for appointment to and employment with the fire department.

(4) Paramedic preference. Persons who have obtained a license as a paramedic may be preferred for appointment to and employment with the fire department of an affected department providing emergency medical services.

(5) Experience preference. All persons employed by a municipality who have been paid-on-call or part-time certified Firefighter II, certified Firefighter III, State of Illinois or nationally licensed EMT, EMT-I, A-EMT, or paramedic, or any combination of those capacities may be awarded up to a maximum of 5 points. However, the applicant may not be awarded more than 0.5 points for each complete year of paid-on-call or part-time service. Applicants from outside the municipality who were employed as full-time firefighters or firefighter-paramedics by a fire protection district or another municipality may be awarded up to 5 experience preference points. However, the applicant may not be awarded more than one point for each complete year of full-time service.

Upon request by the commission, the governing body of the municipality or in the case of applicants from outside the municipality the governing body of any fire protection district or any other municipality shall certify to the commission, within 10 days after the request, the number of years of successful paid-on-call, part-time, or full-time service of any person. A candidate may not receive the full amount of preference points under this subsection if the amount of points awarded would place the candidate before a veteran on the eligibility list. If more than one candidate receiving experience preference points is prevented from

receiving all of their points due to not being allowed to pass a veteran, the candidates shall be placed on the list below the veteran in rank order based on the totals received if all points under this subsection were to be awarded. Any remaining ties on the list shall be determined by lot.

(6) Residency preference. Applicants whose principal residence is located within the fire department's jurisdiction may be preferred for appointment to and employment with the fire department.

(7) Additional preferences. Up to 5 additional preference points may be awarded for unique categories based on an applicant's experience or background as identified by the commission.

(7.5) Apprentice preferences. A person who has performed fire suppression service for a department as a firefighter apprentice and otherwise meet the qualifications for original appointment as a firefighter specified in this Section may be awarded up to 20 preference points. To qualify for preference points, an applicant shall have completed a minimum of 600 hours of fire suppression work on a regular shift for the affected fire department over a 12-month period. The fire suppression work must be in accordance with Section 10-1-14 of this Division and the terms established by a Joint Apprenticeship Committee included in a collective bargaining agreement agreed between the employer and its certified bargaining agent. An eligible applicant must apply to the Joint Apprenticeship Committee for preference points under this item. The Joint Apprenticeship Committee shall evaluate the merit of the applicant's performance, determine the preference points to be awarded, and certify the amount of points awarded to the commissioners. The commissioners may add the certified preference points to the final grades achieved by the applicant on the other components of the examination.

(8) Scoring of preferences. The commission shall give preference for original appointment to persons designated in item (1) by adding to the final grade that they receive 5 points for the recognized preference achieved. The commission may give preference for original appointment to persons designated in item (7.5) by adding to the final grade the amount of points designated by the Joint Apprenticeship Committee as defined in item (7.5).

New matter indicated by italics- deletions by strikeout
The commission shall determine the number of preference points for each category, except (1) and (7.5). The number of preference points for each category shall range from 0 to 5, except item (7.5). In determining the number of preference points, the commission shall prescribe that if a candidate earns the maximum number of preference points in all categories except item (7.5), that number may not be less than 10 nor more than 30. The commission shall give preference for original appointment to persons designated in items (2) through (7) by adding the requisite number of points to the final grade for each recognized preference achieved. The numerical result thus attained shall be applied by the commission in determining the final eligibility list and appointment from the eligibility list. The local appointing authority may prescribe the total number of preference points awarded under this Section, but the total number of preference points, except item (7.5), shall not be less than 10 points or more than 30 points. Apprentice preference points may be added in addition to other preference points awarded by the commission.

No person entitled to any preference shall be required to claim the credit before any examination held under the provisions of this Section, but the preference shall be given after the posting or publication of the initial eligibility list or register at the request of a person entitled to a credit before any certification or appointments are made from the eligibility register, upon the furnishing of verifiable evidence and proof of qualifying preference credit. Candidates who are eligible for preference credit shall make a claim in writing within 10 days after the posting of the initial eligibility list, or the claim shall be deemed waived. Final eligibility registers shall be established after the awarding of verified preference points. However, apprentice preference credit earned subsequent to the establishment of the final eligibility register may be applied to the applicant's score upon certification by the Joint Apprenticeship Committee to the commission and the rank order of candidates on the final eligibility register shall be adjusted accordingly. All employment shall be subject to the commission's initial hire background review including, but not limited to, criminal history, employment history, moral character, oral examination, and medical and psychological examinations, all on a pass-fail basis. The medical and psychological examinations must be conducted last, and may only be performed after a conditional offer of employment has been extended.

New matter indicated by italics- deletions by strikeout
Any person placed on an eligibility list who exceeds the age requirement before being appointed to a fire department shall remain eligible for appointment until the list is abolished, or his or her name has been on the list for a period of 2 years. No person who has attained the age of 35 years shall be inducted into a fire department, except as otherwise provided in this Section.

The commission shall strike off the names of candidates for original appointment after the names have been on the list for more than 2 years.

(i) Moral character. No person shall be appointed to a fire department unless he or she is a person of good character; not a habitual drunkard, a gambler, or a person who has been convicted of a felony or a crime involving moral turpitude. However, no person shall be disqualified from appointment to the fire department because of the person's record of misdemeanor convictions except those under Sections 11-6, 11-7, 11-9, 11-14, 11-15, 11-17, 11-18, 11-19, 12-2, 12-6, 12-15, 14-4, 16-1, 21.1-3, 24-3.1, 24-5, 25-1, 28-3, 31-1, 31-4, 31-6, 31-7, 32-1, 32-2, 32-3, 32-4, 32-8, and subsections 1, 6, and 8 of Section 24-1 of the Criminal Code of 1961 or the Criminal Code of 2012, or arrest for any cause without conviction thereon. Any such person who is in the department may be removed on charges brought for violating this subsection and after a trial as hereinafter provided.

A classifiable set of the fingerprints of every person who is offered employment as a certificated member of an affected fire department whether with or without compensation, shall be furnished to the Illinois Department of State Police and to the Federal Bureau of Investigation by the commission.

Whenever a commission is authorized or required by law to consider some aspect of criminal history record information for the purpose of carrying out its statutory powers and responsibilities, then, upon request and payment of fees in conformance with the requirements of Section 2605-400 of the State Police Law of the Civil Administrative Code of Illinois, the Department of State Police is authorized to furnish, pursuant to positive identification, the information contained in State files as is necessary to fulfill the request.

(j) Temporary appointments. In order to prevent a stoppage of public business, to meet extraordinary exigencies, or to prevent material impairment of the fire department, the commission may make temporary appointments, to remain in force only until regular appointments are made

under the provisions of this Division, but never to exceed 60 days. No temporary appointment of any one person shall be made more than twice in any calendar year.

(k) A person who knowingly divulges or receives test questions or answers before a written examination, or otherwise knowingly violates or subverts any requirement of this Section, commits a violation of this Section and may be subject to charges for official misconduct.

A person who is the knowing recipient of test information in advance of the examination shall be disqualified from the examination or discharged from the position to which he or she was appointed, as applicable, and otherwise subjected to disciplinary actions.

(65 ILCS 5/10-2.1-6.3)

Sec. 10-2.1-6.3. Original appointments; full-time fire department.

(a) Applicability. Unless a commission elects to follow the provisions of Section 10-2.1-6.4, this Section shall apply to all original appointments to an affected full-time fire department. Existing registers of eligibles shall continue to be valid until their expiration dates, or up to a maximum of 2 years after the effective date of this amendatory Act of the 97th General Assembly.

Notwithstanding any statute, ordinance, rule, or other law to the contrary, all original appointments to an affected department to which this Section applies shall be administered in the manner provided for in this Section. Provisions of the Illinois Municipal Code, municipal ordinances, and rules adopted pursuant to such authority and other laws relating to initial hiring of firefighters in affected departments shall continue to apply to the extent they are compatible with this Section, but in the event of a conflict between this Section and any other law, this Section shall control.

A home rule or non-home rule municipality may not administer its fire department process for original appointments in a manner that is less stringent than this Section. This Section is a limitation under subsection (i) of Section 6 of Article VII of the Illinois Constitution on the concurrent exercise by home rule units of the powers and functions exercised by the State.

A municipality that is operating under a court order or consent decree regarding original appointments to a full-time fire department before the effective date of this amendatory Act of the 97th General

New matter indicated by italics- deletions by strikeout
Assembly is exempt from the requirements of this Section for the duration of the court order or consent decree.

Notwithstanding any other provision of this subsection (a), this Section does not apply to a municipality with more than 1,000,000 inhabitants.

(b) Original appointments. All original appointments made to an affected fire department shall be made from a register of eligibles established in accordance with the processes established by this Section. Only persons who meet or exceed the performance standards required by this Section shall be placed on a register of eligibles for original appointment to an affected fire department.

Whenever an appointing authority authorizes action to hire a person to perform the duties of a firefighter or to hire a firefighter-paramedic to fill a position that is a new position or vacancy due to resignation, discharge, promotion, death, the granting of a disability or retirement pension, or any other cause, the appointing authority shall appoint to that position the person with the highest ranking on the final eligibility list. If the appointing authority has reason to conclude that the highest ranked person fails to meet the minimum standards for the position or if the appointing authority believes an alternate candidate would better serve the needs of the department, then the appointing authority has the right to pass over the highest ranked person and appoint either: (i) any person who has a ranking in the top 5% of the register of eligibles or (ii) any person who is among the top 5 highest ranked persons on the list of eligibles if the number of people who have a ranking in the top 5% of the register of eligibles is less than 5 people.

Any candidate may pass on an appointment once without losing his or her position on the register of eligibles. Any candidate who passes a second time may be removed from the list by the appointing authority provided that such action shall not prejudice a person's opportunities to participate in future examinations, including an examination held during the time a candidate is already on the municipality's register of eligibles.

The sole authority to issue certificates of appointment shall be vested in the board of fire and police commissioners. All certificates of appointment issued to any officer or member of an affected department shall be signed by the chairperson and secretary, respectively, of the board upon appointment of such officer or member to the affected department by action of the board. After being selected from the register of eligibles to fill a vacancy in the affected department, each appointee shall be presented

New matter indicated by italics- deletions by strikeout
with his or her certificate of appointment on the day on which he or she is sworn in as a classified member of the affected department. Firefighters who were not issued a certificate of appointment when originally appointed shall be provided with a certificate within 10 days after making a written request to the chairperson of the board of fire and police commissioners. Each person who accepts a certificate of appointment and successfully completes his or her probationary period shall be enrolled as a firefighter and as a regular member of the fire department.

For the purposes of this Section, "firefighter" means any person who has been prior to, on, or after the effective date of this amendatory Act of the 97th General Assembly appointed to a fire department or fire protection district or employed by a State university and sworn or commissioned to perform firefighter duties or paramedic duties, or both, except that the following persons are not included: part-time firefighters; auxiliary, reserve, or voluntary firefighters, including paid-on-call firefighters; clerks and dispatchers or other civilian employees of a fire department or fire protection district who are not routinely expected to perform firefighter duties; and elected officials.

(c) Qualification for placement on register of eligibles. The purpose of establishing a register of eligibles is to identify applicants who possess and demonstrate the mental aptitude and physical ability to perform the duties required of members of the fire department in order to provide the highest quality of service to the public. To this end, all applicants for original appointment to an affected fire department shall be subject to examination and testing which shall be public, competitive, and open to all applicants unless the municipality shall by ordinance limit applicants to residents of the municipality, county or counties in which the municipality is located, State, or nation. Any examination and testing procedure utilized under subsection (e) of this Section shall be supported by appropriate validation evidence and shall comply with all applicable State and federal laws. Municipalities may establish educational, emergency medical service licensure, and other prerequisites for participation in an examination or for hire as a firefighter. Any municipality may charge a fee to cover the costs of the application process.

Residency requirements in effect at the time an individual enters the fire service of a municipality cannot be made more restrictive for that individual during his or her period of service for that municipality, or be made a condition of promotion, except for the rank or position of fire chief and for no more than 2 positions that rank immediately below that of the
chief rank which are appointed positions pursuant to the Fire Department Promotion Act.

No person who is 35 years of age or older shall be eligible to take an examination for a position as a firefighter unless the person has had previous employment status as a firefighter in the regularly constituted fire department of the municipality, except as provided in this Section. The age limitation does not apply to:

(1) any person previously employed as a full-time firefighter in a regularly constituted fire department of (i) any municipality or fire protection district located in Illinois, (ii) a fire protection district whose obligations were assumed by a municipality under Section 21 of the Fire Protection District Act, or (iii) a municipality whose obligations were taken over by a fire protection district,

(2) any person who has served a municipality as a regularly enrolled volunteer, paid-on-call, or part-time firefighter for the 5 years immediately preceding the time that the municipality begins to use full-time firefighters to provide all or part of its fire protection service, or

(3) any person who turned 35 while serving as a member of the active or reserve components of any of the branches of the Armed Forces of the United States or the National Guard of any state, whose service was characterized as honorable or under honorable, if separated from the military, and is currently under the age of 40.

No person who is under 21 years of age shall be eligible for employment as a firefighter.

No applicant shall be examined concerning his or her political or religious opinions or affiliations. The examinations shall be conducted by the commissioners of the municipality or their designees and agents.

No municipality shall require that any firefighter appointed to the lowest rank serve a probationary employment period of longer than one year of actual active employment, which may exclude periods of training, or injury or illness leaves, including duty related leave, in excess of 30 calendar days. Notwithstanding anything to the contrary in this Section, the probationary employment period limitation may be extended for a firefighter who is required, as a condition of employment, to be a licensed paramedic, during which time the sole reason that a firefighter may be

discharged without a hearing is for failing to meet the requirements for paramedic licensure.

In the event that any applicant who has been found eligible for appointment and whose name has been placed upon the final eligibility register provided for in this Section has not been appointed to a firefighter position within one year after the date of his or her physical ability examination, the commission may cause a second examination to be made of that applicant's physical ability prior to his or her appointment. If, after the second examination, the physical ability of the applicant shall be found to be less than the minimum standard fixed by the rules of the commission, the applicant shall not be appointed. The applicant's name may be retained upon the register of candidates eligible for appointment and when next reached for certification and appointment that applicant may be again examined as provided in this Section, and if the physical ability of that applicant is found to be less than the minimum standard fixed by the rules of the commission, the applicant shall not be appointed, and the name of the applicant shall be removed from the register.

(d) Notice, examination, and testing components. Notice of the time, place, general scope, merit criteria for any subjective component, and fee of every examination shall be given by the commission, by a publication at least 2 weeks preceding the examination: (i) in one or more newspapers published in the municipality, or if no newspaper is published therein, then in one or more newspapers with a general circulation within the municipality, or (ii) on the municipality's Internet website. Additional notice of the examination may be given as the commission shall prescribe.

The examination and qualifying standards for employment of firefighters shall be based on: mental aptitude, physical ability, preferences, moral character, and health. The mental aptitude, physical ability, and preference components shall determine an applicant's qualification for and placement on the final register of eligibles. The examination may also include a subjective component based on merit criteria as determined by the commission. Scores from the examination must be made available to the public.

(e) Mental aptitude. No person who does not possess at least a high school diploma or an equivalent high school education shall be placed on a register of eligibles. Examination of an applicant's mental aptitude shall be based upon a written examination. The examination shall be practical in character and relate to those matters that fairly test the capacity of the persons examined to discharge the duties performed by members of a fire
department. Written examinations shall be administered in a manner that ensures the security and accuracy of the scores achieved.

(f) Physical ability. All candidates shall be required to undergo an examination of their physical ability to perform the essential functions included in the duties they may be called upon to perform as a member of a fire department. For the purposes of this Section, essential functions of the job are functions associated with duties that a firefighter may be called upon to perform in response to emergency calls. The frequency of the occurrence of those duties as part of the fire department's regular routine shall not be a controlling factor in the design of examination criteria or evolutions selected for testing. These physical examinations shall be open, competitive, and based on industry standards designed to test each applicant's physical abilities in the following dimensions:

(1) Muscular strength to perform tasks and evolutions that may be required in the performance of duties including grip strength, leg strength, and arm strength. Tests shall be conducted under anaerobic as well as aerobic conditions to test both the candidate's speed and endurance in performing tasks and evolutions. Tasks tested may be based on standards developed, or approved, by the local appointing authority.

(2) The ability to climb ladders, operate from heights, walk or crawl in the dark along narrow and uneven surfaces, and operate in proximity to hazardous environments.

(3) The ability to carry out critical, time-sensitive, and complex problem solving during physical exertion in stressful and hazardous environments. The testing environment may be hot and dark with tightly enclosed spaces, flashing lights, sirens, and other distractions.

The tests utilized to measure each applicant's capabilities in each of these dimensions may be tests based on industry standards currently in use or equivalent tests approved by the Joint Labor-Management Committee of the Office of the State Fire Marshal.

Physical ability examinations administered under this Section shall be conducted with a reasonable number of proctors and monitors, open to the public, and subject to reasonable regulations of the commission.

(g) Scoring of examination components. Appointing authorities may create a preliminary eligibility register. A person shall be placed on the list based upon his or her passage of the written examination or the passage of the written examination and the physical ability component.

Passage of the written examination means attaining the minimum score set by the commission. Minimum scores should be set by the commission so as to demonstrate a candidate's ability to perform the essential functions of the job. The minimum score set by the commission shall be supported by appropriate validation evidence and shall comply with all applicable State and federal laws. The appointing authority may conduct the physical ability component and any subjective components subsequent to the posting of the preliminary eligibility register.

The examination components for an initial eligibility register shall be graded on a 100-point scale. A person's position on the list shall be determined by the following: (i) the person's score on the written examination, (ii) the person successfully passing the physical ability component, and (iii) the person's results on any subjective component as described in subsection (d).

In order to qualify for placement on the final eligibility register, an applicant's score on the written examination, before any applicable preference points or subjective points are applied, shall be at or above the minimum score as set by the commission. The local appointing authority may prescribe the score to qualify for placement on the final eligibility register, but the score shall not be less than the minimum score set by the commission.

The commission shall prepare and keep a register of persons whose total score is not less than the minimum score for passage and who have passed the physical ability examination. These persons shall take rank upon the register as candidates in the order of their relative excellence based on the highest to the lowest total points scored on the mental aptitude, subjective component, and preference components of the test administered in accordance with this Section. No more than 60 days after each examination, an initial eligibility list shall be posted by the commission. The list shall include the final grades of the candidates without reference to priority of the time of examination and subject to claim for preference credit.

Commissions may conduct additional examinations, including without limitation a polygraph test, after a final eligibility register is established and before it expires with the candidates ranked by total score without regard to date of examination. No more than 60 days after each examination, an initial eligibility list shall be posted by the commission showing the final grades of the candidates without reference to priority of time of examination and subject to claim for preference credit.

(h) Preferences. The following are preferences:

1. Veteran preference. Persons who were engaged in the military service of the United States for a period of at least one year of active duty and who were honorably discharged therefrom, or who are now or have been members on inactive or reserve duty in such military or naval service, shall be preferred for appointment to and employment with the fire department of an affected department.

2. Fire cadet preference. 3. Educational preference. Persons who have successfully obtained an associate's degree in the field of fire service or emergency medical services, or a bachelor's degree from an accredited college or university may be preferred for appointment to and employment with the fire department.

4. Paramedic preference. Persons who have obtained a license as a paramedic shall be preferred for appointment to and employment with the fire department of an affected department providing emergency medical services.

5. Experience preference. All persons employed by a municipality who have been paid-on-call or part-time certified Firefighter II, State of Illinois or nationally licensed EMT, EMT-I, A-EMT, or any combination of those capacities shall be awarded 0.5 point for each year of successful service in one or more of those capacities, up to a maximum of 5 points. Certified Firefighter III and State of Illinois or nationally licensed paramedics shall be awarded one point per year up to a maximum of 5 points. Applicants from outside the municipality who were employed as full-time firefighters or firefighter-paramedics by a fire protection district or another municipality for at least 2 years shall be awarded 5 experience preference points. These additional points presuppose a rating scale totaling 100 points available for the eligibility list. If more or fewer points are used in the rating scale for the eligibility list, the points awarded under this subsection shall be increased or decreased.
decreased by a factor equal to the total possible points available for the examination divided by 100.

Upon request by the commission, the governing body of the municipality or in the case of applicants from outside the municipality the governing body of any fire protection district or any other municipality shall certify to the commission, within 10 days after the request, the number of years of successful paid-on-call, part-time, or full-time service of any person. A candidate may not receive the full amount of preference points under this subsection if the amount of points awarded would place the candidate before a veteran on the eligibility list. If more than one candidate receiving experience preference points is prevented from receiving all of their points due to not being allowed to pass a veteran, the candidates shall be placed on the list below the veteran in rank order based on the totals received if all points under this subsection were to be awarded. Any remaining ties on the list shall be determined by lot.

(6) Residency preference. Applicants whose principal residence is located within the fire department's jurisdiction shall be preferred for appointment to and employment with the fire department.

(7) Additional preferences. Up to 5 additional preference points may be awarded for unique categories based on an applicant's experience or background as identified by the commission.

(7.5) Apprentice preferences. A person who has performed fire suppression service for a department as a firefighter apprentice and otherwise meet the qualifications for original appointment as a firefighter specified in this Section are eligible to be awarded up to 20 preference points. To qualify for preference points, an applicant shall have completed a minimum of 600 hours of fire suppression work on a regular shift for the affected fire department over a 12-month period. The fire suppression work must be in accordance with Section 10-2.1-4 of this Division and the terms established by a Joint Apprenticeship Committee included in a collective bargaining agreement agreed between the employer and its certified bargaining agent. An eligible applicant must apply to the Joint Apprenticeship Committee for preference points under this item. The Joint Apprenticeship Committee shall

evaluate the merit of the applicant’s performance, determine the preference points to be awarded, and certify the amount of points awarded to the commissioners. The commissioners may add the certified preference points to the final grades achieved by the applicant on the other components of the examination.

(8) Scoring of preferences. The commission may give preference for original appointment to persons designated in item (1) by adding to the final grade that they receive 5 points for the recognized preference achieved. The commission may give preference for original appointment to persons designated in item (7.5) by adding to the final grade the amount of points designated by the Joint Apprenticeship Committee as defined in item (7.5). The commission shall determine the number of preference points for each category, except (1) and (7.5). The number of preference points for each category shall range from 0 to 5, except item (7.5). In determining the number of preference points, the commission shall prescribe that if a candidate earns the maximum number of preference points in all categories except item (7.5), that number may not be less than 10 nor more than 30. The commission shall give preference for original appointment to persons designated in items (2) through (7) by adding the requisite number of points to the final grade for each recognized preference achieved. The numerical result thus attained shall be applied by the commission in determining the final eligibility list and appointment from the eligibility list. The local appointing authority may prescribe the total number of preference points awarded under this Section, but the total number of preference points, except item (7.5), shall not be less than 10 points or more than 30 points. Apprentice preference points may be added in addition to other preference points awarded by the commission.

No person entitled to any preference shall be required to claim the credit before any examination held under the provisions of this Section, but the preference may be given after the posting or publication of the initial eligibility list or register at the request of a person entitled to a credit before any certification or appointments are made from the eligibility register, upon the furnishing of verifiable evidence and proof of qualifying preference credit. Candidates who are eligible for preference credit may make a claim in writing within 10 days after the posting of the initial eligibility list, or the claim shall be deemed waived. Final eligibility

registers may shall be established after the awarding of verified preference points. However, apprentice preference credit earned subsequent to the establishment of the final eligibility register may be applied to the applicant's score upon certification by the Joint Apprenticeship Committee to the commission and the rank order of candidates on the final eligibility register shall be adjusted accordingly. All employment shall be subject to the commission's initial hire background review including, but not limited to, criminal history, employment history, moral character, oral examination, and medical and psychological examinations, all on a pass-fail basis. The medical and psychological examinations must be conducted last, and may only be performed after a conditional offer of employment has been extended.

Any person placed on an eligibility list who exceeds the age requirement before being appointed to a fire department shall remain eligible for appointment until the list is abolished, or his or her name has been on the list for a period of 2 years. No person who has attained the age of 35 years shall be inducted into a fire department, except as otherwise provided in this Section.

The commission shall strike off the names of candidates for original appointment after the names have been on the list for more than 2 years.

(i) Moral character. No person shall be appointed to a fire department unless he or she is a person of good character; not a habitual drunkard, a gambler, or a person who has been convicted of a felony or a crime involving moral turpitude. However, no person shall be disqualified from appointment to the fire department because of the person's record of misdemeanor convictions except those under Sections 11-6, 11-7, 11-9, 11-14, 11-15, 11-17, 11-18, 11-19, 12-2, 12-6, 12-15, 14-4, 16-1, 21.1-3, 24-3.1, 24-5, 25-1, 28-3, 31-1, 31-4, 31-6, 31-7, 32-1, 32-2, 32-3, 32-4, 32-8, and subsections 1, 6, and 8 of Section 24-1 of the Criminal Code of 1961 or the Criminal Code of 2012, or arrest for any cause without conviction thereon. Any such person who is in the department may be removed on charges brought for violating this subsection and after a trial as hereinafter provided.

A classifiable set of the fingerprints of every person who is offered employment as a certificated member of an affected fire department whether with or without compensation, shall be furnished to the Illinois Department of State Police and to the Federal Bureau of Investigation by the commission.

Whenever a commission is authorized or required by law to consider some aspect of criminal history record information for the purpose of carrying out its statutory powers and responsibilities, then, upon request and payment of fees in conformance with the requirements of Section 2605-400 of the State Police Law of the Civil Administrative Code of Illinois, the Department of State Police is authorized to furnish, pursuant to positive identification, the information contained in State files as is necessary to fulfill the request.

(j) Temporary appointments. In order to prevent a stoppage of public business, to meet extraordinary exigencies, or to prevent material impairment of the fire department, the commission may make temporary appointments, to remain in force only until regular appointments are made under the provisions of this Division, but never to exceed 60 days. No temporary appointment of any one person shall be made more than twice in any calendar year.

(k) A person who knowingly divulges or receives test questions or answers before a written examination, or otherwise knowingly violates or subverts any requirement of this Section, commits a violation of this Section and may be subject to charges for official misconduct.

A person who is the knowing recipient of test information in advance of the examination shall be disqualified from the examination or discharged from the position to which he or she was appointed, as applicable, and otherwise subjected to disciplinary actions.

Section 10. The Fire Protection District Act is amended by changing Section 16.06b as follows:

(70 ILCS 705/16.06b)
Sec. 16.06b. Original appointments; full-time fire department.

(a) Applicability. Unless a commission elects to follow the provisions of Section 16.06c, this Section shall apply to all original appointments to an affected full-time fire department. Existing registers of eligibles shall continue to be valid until their expiration dates, or up to a maximum of 2 years after the effective date of this amendatory Act of the 97th General Assembly.

Notwithstanding any statute, ordinance, rule, or other law to the contrary, all original appointments to an affected department to which this Section applies shall be administered in a no less stringent manner than the manner provided for in this Section. Provisions of the Illinois Municipal

New matter indicated by italics- deletions by strikeout
Code, Fire Protection District Act, fire district ordinances, and rules adopted pursuant to such authority and other laws relating to initial hiring of firefighters in affected departments shall continue to apply to the extent they are compatible with this Section, but in the event of a conflict between this Section and any other law, this Section shall control.

A fire protection district that is operating under a court order or consent decree regarding original appointments to a full-time fire department before the effective date of this amendatory Act of the 97th General Assembly is exempt from the requirements of this Section for the duration of the court order or consent decree.

(b) Original appointments. All original appointments made to an affected fire department shall be made from a register of eligibles established in accordance with the processes required by this Section. Only persons who meet or exceed the performance standards required by the Section shall be placed on a register of eligibles for original appointment to an affected fire department.

Whenever an appointing authority authorizes action to hire a person to perform the duties of a firefighter or to hire a firefighter-paramedic to fill a position that is a new position or vacancy due to resignation, discharge, promotion, death, the granting of a disability or retirement pension, or any other cause, the appointing authority shall appoint to that position the person with the highest ranking on the final eligibility list. If the appointing authority has reason to conclude that the highest ranked person fails to meet the minimum standards for the position or if the appointing authority believes an alternate candidate would better serve the needs of the department, then the appointing authority has the right to pass over the highest ranked person and appoint either: (i) any person who has a ranking in the top 5% of the register of eligibles or (ii) any person who is among the top 5 highest ranked persons on the list of eligibles if the number of people who have a ranking in the top 5% of the register of eligibles is less than 5 people.

Any candidate may pass on an appointment once without losing his or her position on the register of eligibles. Any candidate who passes a second time may be removed from the list by the appointing authority provided that such action shall not prejudice a person's opportunities to participate in future examinations, including an examination held during the time a candidate is already on the fire district's register of eligibles.

The sole authority to issue certificates of appointment shall be vested in the board of fire commissioners, or board of trustees serving in

New matter indicated by italics- deletions by strikeout
the capacity of a board of fire commissioners. All certificates of appointment issued to any officer or member of an affected department shall be signed by the chairperson and secretary, respectively, of the commission upon appointment of such officer or member to the affected department by action of the commission. After being selected from the register of eligibles to fill a vacancy in the affected department, each appointee shall be presented with his or her certificate of appointment on the day on which he or she is sworn in as a classified member of the affected department. Firefighters who were not issued a certificate of appointment when originally appointed shall be provided with a certificate within 10 days after making a written request to the chairperson of the board of fire commissioners, or board of trustees serving in the capacity of a board of fire commissioners. Each person who accepts a certificate of appointment and successfully completes his or her probationary period shall be enrolled as a firefighter and as a regular member of the fire department.

For the purposes of this Section, "firefighter" means any person who has been prior to, on, or after the effective date of this amendatory Act of the 97th General Assembly appointed to a fire department or fire protection district or employed by a State university and sworn or commissioned to perform firefighter duties or paramedic duties, or both, except that the following persons are not included: part-time firefighters; auxiliary, reserve, or voluntary firefighters, including paid-on-call firefighters; clerks and dispatchers or other civilian employees of a fire department or fire protection district who are not routinely expected to perform firefighter duties; and elected officials.

(c) Qualification for placement on register of eligibles. The purpose of establishing a register of eligibles is to identify applicants who possess and demonstrate the mental aptitude and physical ability to perform the duties required of members of the fire department in order to provide the highest quality of service to the public. To this end, all applicants for original appointment to an affected fire department shall be subject to examination and testing which shall be public, competitive, and open to all applicants unless the district shall by ordinance limit applicants to residents of the district, county or counties in which the district is located, State, or nation. Any examination and testing procedure utilized under subsection (e) of this Section shall be supported by appropriate validation evidence and shall comply with all applicable State and federal laws. Districts may establish educational, emergency medical service
licensure, and other prerequisites for participation in an examination or for hire as a firefighter. Any fire protection district may charge a fee to cover the costs of the application process.

Residency requirements in effect at the time an individual enters the fire service of a district cannot be made more restrictive for that individual during his or her period of service for that district, or be made a condition of promotion, except for the rank or position of fire chief and for no more than 2 positions that rank immediately below that of the chief rank which are appointed positions pursuant to the Fire Department Promotion Act.

No person who is 35 years of age or older shall be eligible to take an examination for a position as a firefighter unless the person has had previous employment status as a firefighter in the regularly constituted fire department of the district, except as provided in this Section. The age limitation does not apply to:

(1) any person previously employed as a full-time firefighter in a regularly constituted fire department of (i) any municipality or fire protection district located in Illinois, (ii) a fire protection district whose obligations were assumed by a municipality under Section 21 of the Fire Protection District Act, or (iii) a municipality whose obligations were taken over by a fire protection district;

(2) any person who has served a fire district as a regularly enrolled volunteer, paid-on-call, or part-time firefighter for the 5 years immediately preceding the time that the district begins to use full-time firefighters to provide all or part of its fire protection service; or

(3) any person who turned 35 while serving as a member of the active or reserve components of any of the branches of the Armed Forces of the United States or the National Guard of any state, whose service was characterized as honorable or under honorable, if separated from the military, and is currently under the age of 40.

No person who is under 21 years of age shall be eligible for employment as a firefighter.

No applicant shall be examined concerning his or her political or religious opinions or affiliations. The examinations shall be conducted by the commissioners of the district or their designees and agents.

New matter indicated by italics- deletions by strikeout
No district shall require that any firefighter appointed to the lowest rank serve a probationary employment period of longer than one year of actual active employment, which may exclude periods of training, or injury or illness leaves, including duty related leave, in excess of 30 calendar days. Notwithstanding anything to the contrary in this Section, the probationary employment period limitation may be extended for a firefighter who is required, as a condition of employment, to be a licensed paramedic, during which time the sole reason that a firefighter may be discharged without a hearing is for failing to meet the requirements for paramedic licensure.

In the event that any applicant who has been found eligible for appointment and whose name has been placed upon the final eligibility register provided for in this Section has not been appointed to a firefighter position within one year after the date of his or her physical ability examination, the commission may cause a second examination to be made of that applicant's physical ability prior to his or her appointment. If, after the second examination, the physical ability of the applicant shall be found to be less than the minimum standard fixed by the rules of the commission, the applicant shall not be appointed. The applicant's name may be retained upon the register of candidates eligible for appointment and when next reached for certification and appointment that applicant may be again examined as provided in this Section, and if the physical ability of that applicant is found to be less than the minimum standard fixed by the rules of the commission, the applicant shall not be appointed, and the name of the applicant shall be removed from the register.

(d) Notice, examination, and testing components. Notice of the time, place, general scope, merit criteria for any subjective component, and fee of every examination shall be given by the commission, by a publication at least 2 weeks preceding the examination: (i) in one or more newspapers published in the district, or if no newspaper is published therein, then in one or more newspapers with a general circulation within the district, or (ii) on the fire protection district's Internet website. Additional notice of the examination may be given as the commission shall prescribe.

The examination and qualifying standards for employment of firefighters shall be based on: mental aptitude, physical ability, preferences, moral character, and health. The mental aptitude, physical ability, and preference components shall determine an applicant's qualification for and placement on the final register of eligibles. The

New matter indicated by italics- deletions by strikeout
examination may also include a subjective component based on merit criteria as determined by the commission. Scores from the examination must be made available to the public.

(e) Mental aptitude. No person who does not possess at least a high school diploma or an equivalent high school education shall be placed on a register of eligibles. Examination of an applicant's mental aptitude shall be based upon a written examination. The examination shall be practical in character and relate to those matters that fairly test the capacity of the persons examined to discharge the duties performed by members of a fire department. Written examinations shall be administered in a manner that ensures the security and accuracy of the scores achieved.

(f) Physical ability. All candidates shall be required to undergo an examination of their physical ability to perform the essential functions included in the duties they may be called upon to perform as a member of a fire department. For the purposes of this Section, essential functions of the job are functions associated with duties that a firefighter may be called upon to perform in response to emergency calls. The frequency of the occurrence of those duties as part of the fire department's regular routine shall not be a controlling factor in the design of examination criteria or evolutions selected for testing. These physical examinations shall be open, competitive, and based on industry standards designed to test each applicant's physical abilities in the following dimensions:

(1) Muscular strength to perform tasks and evolutions that may be required in the performance of duties including grip strength, leg strength, and arm strength. Tests shall be conducted under anaerobic as well as aerobic conditions to test both the candidate's speed and endurance in performing tasks and evolutions. Tasks tested may be based on standards developed, or approved, by the local appointing authority.

(2) The ability to climb ladders, operate from heights, walk or crawl in the dark along narrow and uneven surfaces, and operate in proximity to hazardous environments.

(3) The ability to carry out critical, time-sensitive, and complex problem solving during physical exertion in stressful and hazardous environments. The testing environment may be hot and dark with tightly enclosed spaces, flashing lights, sirens, and other distractions.

The tests utilized to measure each applicant's capabilities in each of these dimensions may be tests based on industry standards currently in use.
or equivalent tests approved by the Joint Labor-Management Committee of the Office of the State Fire Marshal.

Physical ability examinations administered under this Section shall be conducted with a reasonable number of proctors and monitors, open to the public, and subject to reasonable regulations of the commission.

(g) Scoring of examination components. Appointing authorities may create a preliminary eligibility register. A person shall be placed on the list based upon his or her passage of the written examination or the passage of the written examination and the physical ability component. Passage of the written examination means attaining the minimum score set by the commission. Minimum scores should be set by the appointing authorities so as to demonstrate a candidate's ability to perform the essential functions of the job. The minimum score set by the commission shall be supported by appropriate validation evidence and shall comply with all applicable State and federal laws. The appointing authority may conduct the physical ability component and any subjective components subsequent to the posting of the preliminary eligibility register.

The examination components for an initial eligibility register shall be graded on a 100-point scale. A person's position on the list shall be determined by the following: (i) the person's score on the written examination, (ii) the person successfully passing the physical ability component, and (iii) the person's results on any subjective component as described in subsection (d).

In order to qualify for placement on the final eligibility register, an applicant's score on the written examination, before any applicable preference points or subjective points are applied, shall be at or above the minimum score set by the commission. The local appointing authority may prescribe the score to qualify for placement on the final eligibility register, but the score shall not be less than the minimum score set by the commission.

The commission shall prepare and keep a register of persons whose total score is not less than the minimum score for passage and who have passed the physical ability examination. These persons shall take rank upon the register as candidates in the order of their relative excellence based on the highest to the lowest total points scored on the mental aptitude, subjective component, and preference components of the test administered in accordance with this Section. No more than 60 days after each examination, an initial eligibility list shall be posted by the commission. The list shall include the final grades of the candidates.
Commissions may conduct additional examinations, including without limitation a polygraph test, after a final eligibility register is established and before it expires with the candidates ranked by total score without regard to date of examination. No more than 60 days after each examination, an initial eligibility list shall be posted by the commission showing the final grades of the candidates without reference to priority of time of examination and subject to claim for preference credit.

(h) Preferences. The following are preferences:

(1) Veteran preference. Persons who were engaged in the military service of the United States for a period of at least one year of active duty and who were honorably discharged therefrom, or who are now or have been members on inactive or reserve duty in such military or naval service, shall be preferred for appointment to and employment with the fire department of an affected department.

(2) Fire cadet preference. Persons who have successfully completed 2 years of study in fire techniques or cadet training within a cadet program established under the rules of the Joint Labor and Management Committee (JLMC), as defined in Section 50 of the Fire Department Promotion Act, may be preferred for appointment to and employment with the fire department.

(3) Educational preference. Persons who have successfully obtained an associate's degree in the field of fire service or emergency medical services, or a bachelor's degree from an accredited college or university may be preferred for appointment to and employment with the fire department.

(4) Paramedic preference. Persons who have obtained a license as a paramedic may be preferred for appointment to and employment with the fire department of an affected department providing emergency medical services.

(5) Experience preference. All persons employed by a district who have been paid-on-call or part-time certified Firefighter II, certified Firefighter III, State of Illinois or nationally licensed EMT, EMT-I, A-EMT, or paramedic, or any combination of those capacities may be awarded up to a maximum of 5 points. However, the applicant may not be awarded more than 0.5 points for each complete year of paid-on-call or part-time service.

New matter indicated by italics- deletions by strikeout
Applicants from outside the district who were employed as full-time firefighters or firefighter-paramedics by a fire protection district or municipality for at least 2 years may be awarded up to 5 experience preference points. However, the applicant may not be awarded more than one point for each complete year of full-time service.

Upon request by the commission, the governing body of the district or in the case of applicants from outside the district the governing body of any other fire protection district or any municipality shall certify to the commission, within 10 days after the request, the number of years of successful paid-on-call, part-time, or full-time service of any person. A candidate may not receive the full amount of preference points under this subsection if the amount of points awarded would place the candidate before a veteran on the eligibility list. If more than one candidate receiving experience preference points is prevented from receiving all of their points due to not being allowed to pass a veteran, the candidates shall be placed on the list below the veteran in rank order based on the totals received if all points under this subsection were to be awarded. Any remaining ties on the list shall be determined by lot.

(6) Residency preference. Applicants whose principal residence is located within the fire department's jurisdiction may be preferred for appointment to and employment with the fire department.

(7) Additional preferences. Up to 5 additional preference points may be awarded for unique categories based on an applicant's experience or background as identified by the commission.

(7.5) Apprentice preferences. A person who has performed fire suppression service for a department as a firefighter apprentice and otherwise meet the qualifications for original appointment as a firefighter specified in this Section are eligible to be awarded up to 20 preference points. To qualify for preference points, an applicant shall have completed a minimum of 600 hours of fire suppression work on a regular shift for the affected fire department over a 12-month period. The fire suppression work must be in accordance with Section 16.06 of this Act and the terms established by a Joint Apprenticeship Committee included in a
collective bargaining agreement agreed between the employer and its certified bargaining agent. An eligible applicant must apply to the Joint Apprenticeship Committee for preference points under this item. The Joint Apprenticeship Committee shall evaluate the merit of the applicant's performance, determine the preference points to be awarded, and certify the amount of points awarded to the commissioners. The commissioners may add the certified preference points to the final grades achieved by the applicant on the other components of the examination.

(8) Scoring of preferences. The commission shall give preference for original appointment to persons designated in item (1) by adding to the final grade that they receive 5 points for the recognized preference achieved. The commission may give preference for original appointment to persons designated in item (7.5) by adding to the final grade the amount of points designated by the Joint Apprenticeship Committee as defined in item (7.5). The commission shall determine the number of preference points for each category, except (1) and (7.5). The number of preference points for each category shall range from 0 to 5, except item (7.5). In determining the number of preference points, the commission shall prescribe that if a candidate earns the maximum number of preference points in all categories except item (7.5), that number may not be less than 10 nor more than 30. The commission shall give preference for original appointment to persons designated in items (2) through (7) by adding the requisite number of points to the final grade for each recognized preference achieved. The numerical result thus attained shall be applied by the commission in determining the final eligibility list and appointment from the eligibility list. The local appointing authority may prescribe the total number of preference points awarded under this Section, but the total number of preference points, except item (7.5), shall not be less than 10 points or more than 30 points. Apprentice preference points may be added in addition to other preference points awarded by the commission.

No person entitled to any preference shall be required to claim the credit before any examination held under the provisions of this Section, but the preference shall be given after the posting or publication of the initial eligibility list or register at the request of a person entitled to a credit before any certification or appointments are made from the eligibility list.

register, upon the furnishing of verifiable evidence and proof of qualifying preference credit. Candidates who are eligible for preference credit shall make a claim in writing within 10 days after the posting of the initial eligibility list, or the claim shall be deemed waived. Final eligibility registers shall be established after the awarding of verified preference points. However, apprentice preference credit earned subsequent to the establishment of the final eligibility register may be applied to the applicant's score upon certification by the Joint Apprenticeship Committee to the commission and the rank order of candidates on the final eligibility register shall be adjusted accordingly. All employment shall be subject to the commission's initial hire background review including, but not limited to, criminal history, employment history, moral character, oral examination, and medical and psychological examinations, all on a pass-fail basis. The medical and psychological examinations must be conducted last, and may only be performed after a conditional offer of employment has been extended.

Any person placed on an eligibility list who exceeds the age requirement before being appointed to a fire department shall remain eligible for appointment until the list is abolished, or his or her name has been on the list for a period of 2 years. No person who has attained the age of 35 years shall be inducted into a fire department, except as otherwise provided in this Section.

The commission shall strike off the names of candidates for original appointment after the names have been on the list for more than 2 years.

(i) Moral character. No person shall be appointed to a fire department unless he or she is a person of good character; not a habitual drunkard, a gambler, or a person who has been convicted of a felony or a crime involving moral turpitude. However, no person shall be disqualified from appointment to the fire department because of the person's record of misdemeanor convictions except those under Sections 11-6, 11-7, 11-9, 11-14, 11-15, 11-17, 11-18, 11-19, 12-2, 12-6, 12-15, 14-4, 16-1, 21.1-3, 24-3.1, 24-5, 25-1, 28-3, 31-1, 31-4, 31-6, 31-7, 32-1, 32-2, 32-3, 32-4, 32-8, and subsections 1, 6, and 8 of Section 24-1 of the Criminal Code of 1961 or the Criminal Code of 2012, or arrest for any cause without conviction thereon. Any such person who is in the department may be removed on charges brought for violating this subsection and after a trial as hereinafter provided.

PUBLIC ACT 101-0492
(House Bill No. 2884)

AN ACT concerning public employee benefits.
Be it enacted by the People of the State of Illinois, represented in
the General Assembly:
Section 5. The Illinois Pension Code is amended by changing
Section 7-139 as follows:
(40 ILCS 5/7-139) (from Ch. 108 1/2, par. 7-139)
Sec. 7-139. Credits and creditable service to employees.

New matter indicated by italics- deletions by strikeout
(a) Each participating employee shall be granted credits and
creditable service, for purposes of determining the amount of any annuity
or benefit to which he or a beneficiary is entitled, as follows:

1. For prior service: Each participating employee who is an
employee of a participating municipality or participating
instrumentality on the effective date shall be granted creditable
service, but no credits under paragraph 2 of this subsection (a), for
periods of prior service for which credit has not been received
under any other pension fund or retirement system established
under this Code, as follows:

If the effective date of participation for the participating
municipality or participating instrumentality is on or before
January 1, 1998, creditable service shall be granted for the entire
period of prior service with that employer without any employee
contribution.

If the effective date of participation for the participating
municipality or participating instrumentality is after January 1,
1998, creditable service shall be granted for the last 20% of the
period of prior service with that employer, but no more than 5
years, without any employee contribution. A participating
employee may establish creditable service for the remainder of the
period of prior service with that employer by making an application
in writing, accompanied by payment of an employee contribution
in an amount determined by the Fund, based on the employee
contribution rates in effect at the time of application for the
creditable service and the employee's salary rate on the effective
date of participation for that employer, plus interest at the effective
rate from the date of the prior service to the date of payment.
Application for this creditable service may be made at any time
while the employee is still in service.

A municipality that (i) has at least 35 employees; (ii) is
located in a county with at least 2,000,000 inhabitants; and (iii)
maintains an independent defined benefit pension plan for the
benefit of its eligible employees may restrict creditable service in
whole or in part for periods of prior service with the employer if
the governing body of the municipality adopts an irrevocable
resolution to restrict that creditable service and files the resolution
with the board before the municipality's effective date of
participation.

New matter indicated by italics- deletions by strikeout
Any person who has withdrawn from the service of a participating municipality or participating instrumentality prior to the effective date, who reenters the service of the same municipality or participating instrumentality after the effective date and becomes a participating employee is entitled to creditable service for prior service as otherwise provided in this subdivision (a)(1) only if he or she renders 2 years of service as a participating employee after the effective date. Application for such service must be made while in a participating status. The salary rate to be used in the calculation of the required employee contribution, if any, shall be the employee's salary rate at the time of first reentering service with the employer after the employer's effective date of participation.

2. For current service, each participating employee shall be credited with:

   a. Additional credits of amounts equal to each payment of additional contributions received from him under Section 7-173, as of the date the corresponding payment of earnings is payable to him.

   b. Normal credits of amounts equal to each payment of normal contributions received from him, as of the date the corresponding payment of earnings is payable to him, and normal contributions made for the purpose of establishing out-of-state service credits as permitted under the conditions set forth in paragraph 6 of this subsection (a).

   c. Municipality credits in an amount equal to 1.4 times the normal credits, except those established by out-of-state service credits, as of the date of computation of any benefit if these credits would increase the benefit.

   d. Survivor credits equal to each payment of survivor contributions received from the participating employee as of the date the corresponding payment of earnings is payable, and survivor contributions made for the purpose of establishing out-of-state service credits.

3. For periods of temporary and total and permanent disability benefits, each employee receiving disability benefits shall be granted creditable service for the period during which disability benefits are payable. Normal and survivor credits, based upon the

New matter indicated by italics- deletions by strikeout
rate of earnings applied for disability benefits, shall also be granted if such credits would result in a higher benefit to any such employee or his beneficiary.

4. For authorized leave of absence without pay: A participating employee shall be granted credits and creditable service for periods of authorized leave of absence without pay under the following conditions:

   a. An application for credits and creditable service is submitted to the board while the employee is in a status of active employment.

   b. Not more than 12 complete months of creditable service for authorized leave of absence without pay shall be counted for purposes of determining any benefits payable under this Article.

   c. Credits and creditable service shall be granted for leave of absence only if such leave is approved by the governing body of the municipality, including approval of the estimated cost thereof to the municipality as determined by the fund, and employee contributions, plus interest at the effective rate applicable for each year from the end of the period of leave to date of payment, have been paid to the fund in accordance with Section 7-173. The contributions shall be computed upon the assumption earnings continued during the period of leave at the rate in effect when the leave began.

   d. Benefits under the provisions of Sections 7-141, 7-146, 7-150 and 7-163 shall become payable to employees on authorized leave of absence, or their designated beneficiary, only if such leave of absence is creditable hereunder, and if the employee has at least one year of creditable service other than the service granted for leave of absence. Any employee contributions due may be deducted from any benefits payable.

   e. No credits or creditable service shall be allowed for leave of absence without pay during any period of prior service.

5. For military service: The governing body of a municipality or participating instrumentality may elect to allow creditable service to participating employees who leave their
employment to serve in the armed forces of the United States for all periods of such service, provided that the person returns to active employment within 90 days after completion of full time active duty, but no creditable service shall be allowed such person for any period that can be used in the computation of a pension or any other pay or benefit, other than pay for active duty, for service in any branch of the armed forces of the United States. If necessary to the computation of any benefit, the board shall establish municipality credits for participating employees under this paragraph on the assumption that the employee received earnings at the rate received at the time he left the employment to enter the armed forces. A participating employee in the armed forces shall not be considered an employee during such period of service and no additional death and no disability benefits are payable for death or disability during such period.

Any participating employee who left his employment with a municipality or participating instrumentality to serve in the armed forces of the United States and who again became a participating employee within 90 days after completion of full time active duty by entering the service of a different municipality or participating instrumentality, which has elected to allow creditable service for periods of military service under the preceding paragraph, shall also be allowed creditable service for his period of military service on the same terms that would apply if he had been employed, before entering military service, by the municipality or instrumentality which employed him after he left the military service and the employer costs arising in relation to such grant of creditable service shall be charged to and paid by that municipality or instrumentality.

Notwithstanding the foregoing, any participating employee shall be entitled to creditable service as required by any federal law relating to re-employment rights of persons who served in the United States Armed Services. Such creditable service shall be granted upon payment by the member of an amount equal to the employee contributions which would have been required had the employee continued in service at the same rate of earnings during the military leave period, plus interest at the effective rate.

5.1 In addition to any creditable service established under paragraph 5 of this subsection (a), creditable service may be

New matter indicated by italics- deletions by strikeout
granted for up to 48 months of service in the armed forces of the United States.

In order to receive creditable service for military service under this paragraph 5.1, a participating employee must (1) apply to the Fund in writing and provide evidence of the military service that is satisfactory to the Board; (2) obtain the written approval of the current employer; and (3) make contributions to the Fund equal to (i) the employee contributions that would have been required had the service been rendered as a member, plus (ii) an amount determined by the board to be equal to the employer's normal cost of the benefits accrued for that military service, plus (iii) interest on items (i) and (ii) from the date of first membership in the Fund to the date of payment. The required interest shall be calculated at the regular interest rate.

The changes made to this paragraph 5.1 by Public Acts 95-483 and 95-486 apply only to participating employees in service on or after August 28, 2007 (the effective date of those Public Acts).

6. For out-of-state service: Creditable service shall be granted for service rendered to an out-of-state local governmental body under the following conditions: The employee had participated and has irrevocably forfeited all rights to benefits in the out-of-state public employees pension system; the governing body of his participating municipality or instrumentality authorizes the employee to establish such service; the employee has 2 years current service with this municipality or participating instrumentality; the employee makes a payment of contributions, which shall be computed at 8% (normal) plus 2% (survivor) times length of service purchased times the average rate of earnings for the first 2 years of service with the municipality or participating instrumentality whose governing body authorizes the service established plus interest at the effective rate on the date such credits are established, payable from the date the employee completes the required 2 years of current service to date of payment. In no case shall more than 120 months of creditable service be granted under this provision.

7. For retroactive service: Any employee who could have but did not elect to become a participating employee, or who should have been a participant in the Municipal Public Utilities Annuity and Benefit Fund before that fund was superseded, may

receive creditable service for the period of service not to exceed 50 months; however, a current or former elected or appointed official of a participating municipality may establish credit under this paragraph 7 for more than 50 months of service as an official of that municipality, if the excess over 50 months is approved by resolution of the governing body of the affected municipality filed with the Fund before January 1, 2002.

Any employee who is a participating employee on or after September 24, 1981 and who was excluded from participation by the age restrictions removed by Public Act 82-596 may receive creditable service for the period, on or after January 1, 1979, excluded by the age restriction and, in addition, if the governing body of the participating municipality or participating instrumentality elects to allow creditable service for all employees excluded by the age restriction prior to January 1, 1979, for service during the period prior to that date excluded by the age restriction. Any employee who was excluded from participation by the age restriction removed by Public Act 82-596 and who is not a participating employee on or after September 24, 1981 may receive creditable service for service after January 1, 1979. Creditable service under this paragraph shall be granted upon payment of the employee contributions which would have been required had he participated, with interest at the effective rate for each year from the end of the period of service established to date of payment.

8. For accumulated unused sick leave: A participating employee who is applying for a retirement annuity shall be entitled to creditable service for that portion of the employee's accumulated unused sick leave for which payment is not received, as follows:

a. Sick leave days shall be limited to those accumulated under a sick leave plan established by a participating municipality or participating instrumentality which is available to all employees or a class of employees.

b. Except as provided in item b-1, only sick leave days accumulated with a participating municipality or participating instrumentality with which the employee was in service within 60 days of the effective date of his retirement annuity shall be credited; If the employee was in service with more than one employer during this period only the sick leave days with the employer with which the

employee has the greatest number of unpaid sick leave days shall be considered.

b-1. If the employee was in the service of more than one employer as defined in item (2) of paragraph (a) of subsection (A) of Section 7-132, then the sick leave days from all such employers shall be credited, as long as the creditable service attributed to those sick leave days does not exceed the limitation in item d f of this paragraph 8. *If the employee was in the service of more than one employer described in paragraph (c) of subsection (B) of Section 7-132 on or after the effective date of this amendatory Act of the 101st General Assembly, then the sick leave days from all such employers, except for employers from which the employee terminated service before the effective date of this amendatory Act of the 101st General Assembly, shall be credited, as long as the creditable service attributed to those sick leave days does not exceed the limitation in item d of this paragraph 8.* In calculating the creditable service under this item b-1, the sick leave days from the last employer shall be considered first, then the remaining sick leave days shall be considered until there are no more days or the maximum creditable sick leave threshold under item d f of this paragraph 8 has been reached.

c. The creditable service granted shall be considered solely for the purpose of computing the amount of the retirement annuity and shall not be used to establish any minimum service period required by any provision of the Illinois Pension Code, the effective date of the retirement annuity, or the final rate of earnings.

d. The creditable service shall be at the rate of 1/20 of a month for each full sick day, provided that no more than 12 months may be credited under this subdivision 8.

e. Employee contributions shall not be required for creditable service under this subdivision 8.

f. Each participating municipality and participating instrumentality with which an employee has service within 60 days of the effective date of his retirement annuity shall certify to the board the number of accumulated unpaid sick

leave days credited to the employee at the time of termination of service.

9. For service transferred from another system: Credits and creditable service shall be granted for service under Article 4, 5, 8, 14, or 16 of this Act, to any active member of this Fund, and to any inactive member who has been a county sheriff, upon transfer of such credits pursuant to Section 4-108.3, 5-235, 8-226.7, 14-105.6, or 16-131.4, and payment by the member of the amount by which (1) the employer and employee contributions that would have been required if he had participated in this Fund as a sheriff's law enforcement employee during the period for which credit is being transferred, plus interest thereon at the effective rate for each year, compounded annually, from the date of termination of the service for which credit is being transferred to the date of payment, exceeds (2) the amount actually transferred to the Fund. Such transferred service shall be deemed to be service as a sheriff's law enforcement employee for the purposes of Section 7-142.1.

10. (Blank).

11. For service transferred from an Article 3 system under Section 3-110.3: Credits and creditable service shall be granted for service under Article 3 of this Act as provided in Section 3-110.3, to any active member of this Fund, upon transfer of such credits pursuant to Section 3-110.3. If the board determines that the amount transferred is less than the true cost to the Fund of allowing that creditable service to be established, then in order to establish that creditable service, the member must pay to the Fund an additional contribution equal to the difference, as determined by the board in accordance with the rules and procedures adopted under this paragraph. If the member does not make the full additional payment as required by this paragraph prior to termination of his participation with that employer, then his or her creditable service shall be reduced by an amount equal to the difference between the amount transferred under Section 3-110.3, including any payments made by the member under this paragraph prior to termination, and the true cost to the Fund of allowing that creditable service to be established, as determined by the board in accordance with the rules and procedures adopted under this paragraph.

The board shall establish by rule the manner of making the calculation required under this paragraph 11, taking into account the appropriate actuarial assumptions; the member's service, age, and salary history, and any other factors that the board determines to be relevant.

12. For omitted service: Any employee who was employed by a participating employer in a position that required participation, but who was not enrolled in the Fund, may establish such credits under the following conditions:

   a. Application for such credits is received by the Board while the employee is an active participant of the Fund or a reciprocal retirement system.

   b. Eligibility for participation and earnings are verified by the Authorized Agent of the participating employer for which the service was rendered.

Creditable service under this paragraph shall be granted upon payment of the employee contributions that would have been required had he participated, which shall be calculated by the Fund using the member contribution rate in effect during the period that the service was rendered.

(b) Creditable service - amount:

1. One month of creditable service shall be allowed for each month for which a participating employee made contributions as required under Section 7-173, or for which creditable service is otherwise granted hereunder. Not more than 1 month of service shall be credited and counted for 1 calendar month, and not more than 1 year of service shall be credited and counted for any calendar year. A calendar month means a nominal month beginning on the first day thereof, and a calendar year means a year beginning January 1 and ending December 31.

2. A seasonal employee shall be given 12 months of creditable service if he renders the number of months of service normally required by the position in a 12-month period and he remains in service for the entire 12-month period. Otherwise a fractional year of service in the number of months of service rendered shall be credited.

3. An intermittent employee shall be given creditable service for only those months in which a contribution is made under Section 7-173.

New matter indicated by italics- deletions by strikeout
(c) No application for correction of credits or creditable service shall be considered unless the board receives an application for correction while (1) the applicant is a participating employee and in active employment with a participating municipality or instrumentality, or (2) while the applicant is actively participating in a pension fund or retirement system which is a participating system under the Retirement Systems Reciprocal Act. A participating employee or other applicant shall not be entitled to credits or creditable service unless the required employee contributions are made in a lump sum or in installments made in accordance with board rule. Payments made to establish service credit under paragraph 1, 4, 5, 5.1, 6, 7, or 12 of subsection (a) of this Section must be received by the Board while the applicant is an active participant in the Fund or a reciprocal retirement system, except that an applicant may make one payment after termination of active participation in the Fund or a reciprocal retirement system.

(d) Upon the granting of a retirement, surviving spouse or child annuity, a death benefit or a separation benefit, on account of any employee, all individual accumulated credits shall thereupon terminate. Upon the withdrawal of additional contributions, the credits applicable thereto shall thereupon terminate. Terminated credits shall not be applied to increase the benefits any remaining employee would otherwise receive under this Article.

AN ACT concerning revenue.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Motor Fuel Tax Law is amended by changing Section 8 as follows:

(35 ILCS 505/8) (from Ch. 120, par. 424)

Sec. 8. Except as provided in Section 8a, subdivision (h)(1) of Section 12a, Section 13a.6, and items 13, 14, 15, and 16 of Section 15, all money received by the Department under this Act, including payments made to the Department by member jurisdictions participating in the International Fuel Tax Agreement, shall be deposited in a special fund in the State treasury, to be known as the "Motor Fuel Tax Fund", and shall be used as follows:

(a) 2 1/2 cents per gallon of the tax collected on special fuel under paragraph (b) of Section 2 and Section 13a of this Act shall be transferred to the State Construction Account Fund in the State Treasury;

(b) $420,000 shall be transferred each month to the State Boating Act Fund to be used by the Department of Natural Resources for the purposes specified in Article X of the Boat Registration and Safety Act;

(c) $3,500,000 shall be transferred each month to the Grade Crossing Protection Fund to be used as follows: not less than $12,000,000 each fiscal year shall be used for the construction or reconstruction of rail highway grade separation structures; $2,250,000 in fiscal years 2004 through 2009 and $3,000,000 in fiscal year 2010 and each fiscal year thereafter shall be transferred to the Transportation Regulatory Fund and shall be accounted for as part of the rail carrier portion of such funds and shall be used to pay the cost of administration of the Illinois Commerce Commission's railroad safety program in connection with its duties under subsection (3) of Section 18c-7401 of the Illinois Vehicle Code, with the remainder to be used by the Department of Transportation upon order of the Illinois Commerce Commission, to pay that part of the cost apportioned by such Commission to the State to cover the interest of the public in the use of highways, roads, streets, or pedestrian walkways in the county highway system, township and district road system, or municipal street system as defined in the Illinois Highway Code, as the same may from time to time be amended, for separation of grades, for installation,
construction or reconstruction of crossing protection or reconstruction, alteration, relocation including construction or improvement of any existing highway necessary for access to property or improvement of any grade crossing and grade crossing surface including the necessary highway approaches thereto of any railroad across the highway or public road, or for the installation, construction, reconstruction, or maintenance of a pedestrian walkway over or under a railroad right-of-way, as provided for in and in accordance with Section 18c-7401 of the Illinois Vehicle Code. The Commission may order up to $2,000,000 per year in Grade Crossing Protection Fund moneys for the improvement of grade crossing surfaces and up to $300,000 per year for the maintenance and renewal of 4-quadrant gate vehicle detection systems located at non-high speed rail grade crossings. The Commission shall not order more than $2,000,000 per year in Grade Crossing Protection Fund moneys for pedestrian walkways. In entering orders for projects for which payments from the Grade Crossing Protection Fund will be made, the Commission shall account for expenditures authorized by the orders on a cash rather than an accrual basis. For purposes of this requirement an "accrual basis" assumes that the total cost of the project is expended in the fiscal year in which the order is entered, while a "cash basis" allocates the cost of the project among fiscal years as expenditures are actually made. To meet the requirements of this subsection, the Illinois Commerce Commission shall develop annual and 5-year project plans of rail crossing capital improvements that will be paid for with moneys from the Grade Crossing Protection Fund. The annual project plan shall identify projects for the succeeding fiscal year and the 5-year project plan shall identify projects for the 5 directly succeeding fiscal years. The Commission shall submit the annual and 5-year project plans for this Fund to the Governor, the President of the Senate, the Senate Minority Leader, the Speaker of the House of Representatives, and the Minority Leader of the House of Representatives on the first Wednesday in April of each year;

(d) of the amount remaining after allocations provided for in subsections (a), (b) and (c), a sufficient amount shall be reserved to pay all of the following:

(1) the costs of the Department of Revenue in administering this Act;

(2) the costs of the Department of Transportation in performing its duties imposed by the Illinois Highway Code for

supervising the use of motor fuel tax funds apportioned to municipalities, counties and road districts;

(3) refunds provided for in Section 13, refunds for overpayment of decal fees paid under Section 13a.4 of this Act, and refunds provided for under the terms of the International Fuel Tax Agreement referenced in Section 14a;

(4) from October 1, 1985 until June 30, 1994, the administration of the Vehicle Emissions Inspection Law, which amount shall be certified monthly by the Environmental Protection Agency to the State Comptroller and shall promptly be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund to the Vehicle Inspection Fund, and for the period July 1, 1994 through June 30, 2000, one-twelfth of $25,000,000 each month, for the period July 1, 2000 through June 30, 2003, one-twelfth of $30,000,000 each month, and $15,000,000 on July 1, 2003, and $15,000,000 on January 1, 2004, and $15,000,000 on each July 1 and October 1, or as soon thereafter as may be practical, during the period July 1, 2004 through June 30, 2012, and $30,000,000 on June 1, 2003, and $15,000,000 on July 1 and October 1, or as soon thereafter as may be practical, during the period of July 1, 2013 through June 30, 2015, for the administration of the Vehicle Emissions Inspection Law of 2005, to be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund into the Vehicle Inspection Fund;

(4.5) beginning on July 1, 2019, the costs of the Environmental Protection Agency for the administration of the Vehicle Emissions Inspection Law of 2005 shall be paid, subject to appropriation, from the Motor Fuel Tax Fund into the Vehicle Inspection Fund; beginning in 2019, no later than December 31 of each year, or as soon thereafter as practical, the State Comptroller shall direct and the State Treasurer shall transfer from the Vehicle Inspection Fund to the Motor Fuel Tax Fund any balance remaining in the Vehicle Inspection Fund in excess of $2,000,000;

(5) amounts ordered paid by the Court of Claims; and

(6) payment of motor fuel use taxes due to member jurisdictions under the terms of the International Fuel Tax Agreement. The Department shall certify these amounts to the Comptroller by the 15th day of each month; the Comptroller shall

cause orders to be drawn for such amounts, and the Treasurer shall administer those amounts on or before the last day of each month; (e) after allocations for the purposes set forth in subsections (a), (b), (c) and (d), the remaining amount shall be apportioned as follows:

(1) Until January 1, 2000, 58.4%, and beginning January 1, 2000, 45.6% shall be deposited as follows:
   (A) 37% into the State Construction Account Fund, and
   (B) 63% into the Road Fund, $1,250,000 of which shall be reserved each month for the Department of Transportation to be used in accordance with the provisions of Sections 6-901 through 6-906 of the Illinois Highway Code;

(2) Until January 1, 2000, 41.6%, and beginning January 1, 2000, 54.4% shall be transferred to the Department of Transportation to be distributed as follows:
   (A) 49.10% to the municipalities of the State,
   (B) 16.74% to the counties of the State having 1,000,000 or more inhabitants,
   (C) 18.27% to the counties of the State having less than 1,000,000 inhabitants,
   (D) 15.89% to the road districts of the State. As soon as may be after the first day of each month the Department of Transportation shall allot to each municipality its share of the amount apportioned to the several municipalities which shall be in proportion to the population of such municipalities as determined by the last preceding municipal census if conducted by the Federal Government or Federal census. If territory is annexed to any municipality subsequent to the time of the last preceding census the corporate authorities of such municipality may cause a census to be taken of such annexed territory and the population so ascertained for such territory shall be added to the population of the municipality as determined by the last preceding census for the purpose of determining the allotment for that municipality. If the population of any municipality was not determined by the last Federal census preceding any apportionment, the apportionment to such municipality

New matter indicated by italics- deletions by strikeout
shall be in accordance with any census taken by such municipality. Any municipal census used in accordance with this Section shall be certified to the Department of Transportation by the clerk of such municipality, and the accuracy thereof shall be subject to approval of the Department which may make such corrections as it ascertains to be necessary.

As soon as may be after the first day of each month the Department of Transportation shall allot to each county its share of the amount apportioned to the several counties of the State as herein provided. Each allotment to the several counties having less than 1,000,000 inhabitants shall be in proportion to the amount of motor vehicle license fees received from the residents of such counties, respectively, during the preceding calendar year. The Secretary of State shall, on or before April 15 of each year, transmit to the Department of Transportation a full and complete report showing the amount of motor vehicle license fees received from the residents of each county, respectively, during the preceding calendar year. The Department of Transportation shall, each month, use for allotment purposes the last such report received from the Secretary of State.

As soon as may be after the first day of each month, the Department of Transportation shall allot to the several counties their share of the amount apportioned for the use of road districts. The allotment shall be apportioned among the several counties in the State in the proportion which the total mileage of township or district roads in the respective counties bears to the total mileage of all township and district roads in the State. Funds allotted to the respective counties for the use of road districts therein shall be allocated to the several road districts in the county in the proportion which the total mileage of such township or district roads in the respective road districts bears to the total mileage of all such township or district roads in the county. After July 1 of any year prior to 2011, no allocation shall be made for any road district unless it levied a tax for road and bridge purposes in an amount which will require the extension of such tax against the taxable property in any such road district at a rate of not less than either .08% of the value thereof, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less. Beginning July 1, 2011 and each July 1 thereafter, an allocation shall be made for any road district if it levied a tax

New matter indicated by italics- deletions by strikeout
for road and bridge purposes. In counties other than DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than 0.08% of the value thereof, based upon the assessment for the year immediately prior to the year in which the tax was levied and as equalized by the Department of Revenue, then the amount of the allocation for that road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by 0.08%. In DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than the lesser of (i) 0.08% of the value of the taxable property in the road district, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue, or (ii) a rate that will yield an amount equal to $12,000 per mile of road under the jurisdiction of the road district, then the amount of the allocation for the road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by the lesser of (i) 0.08% or (ii) the rate that will yield an amount equal to $12,000 per mile of road under the jurisdiction of the road district.

Prior to 2011, if any road district has levied a special tax for road purposes pursuant to Sections 6-601, 6-602 and 6-603 of the Illinois Highway Code, and such tax was levied in an amount which would require extension at a rate of not less than .08% of the value of the taxable property thereof, as equalized or assessed by the Department of Revenue, or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, such levy shall, however, be deemed a proper compliance with this Section and shall qualify such road district for an allotment under this Section. Beginning in 2011 and thereafter, if any road district has levied a special tax for road purposes under Sections 6-601, 6-602, and 6-603 of the Illinois Highway Code, and the tax was levied in an amount that would require extension at a rate of not less than 0.08% of the value of the taxable property of that road district, as equalized or assessed by the Department of Revenue or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, that levy shall be deemed a proper compliance with this Section and shall qualify such road district for a full, rather than proportionate, allotment under this Section. If the levy for the special tax is less than 0.08% of the value of the taxable property, or, in DuPage County

New matter indicated by italics- deletions by strikeout
if the levy for the special tax is less than the lesser of (i) 0.08% or (ii) $12,000 per mile of road under the jurisdiction of the road district, and if the levy for the special tax is more than any other levy for road and bridge purposes, then the levy for the special tax qualifies the road district for a proportionate, rather than full, allotment under this Section. If the levy for the special tax is equal to or less than any other levy for road and bridge purposes, then any allotment under this Section shall be determined by the other levy for road and bridge purposes.

Prior to 2011, if a township has transferred to the road and bridge fund money which, when added to the amount of any tax levy of the road district would be the equivalent of a tax levy requiring extension at a rate of at least .08%, or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, such transfer, together with any such tax levy, shall be deemed a proper compliance with this Section and shall qualify the road district for an allotment under this Section.

In counties in which a property tax extension limitation is imposed under the Property Tax Extension Limitation Law, road districts may retain their entitlement to a motor fuel tax allotment or, beginning in 2011, their entitlement to a full allotment if, at the time the property tax extension limitation was imposed, the road district was levying a road and bridge tax at a rate sufficient to entitle it to a motor fuel tax allotment and continues to levy the maximum allowable amount after the imposition of the property tax extension limitation. Any road district may in all circumstances retain its entitlement to a motor fuel tax allotment or, beginning in 2011, its entitlement to a full allotment if it levied a road and bridge tax in an amount that will require the extension of the tax against the taxable property in the road district at a rate of not less than 0.08% of the assessed value of the property, based upon the assessment for the year immediately preceding the year in which the tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less.

As used in this Section the term "road district" means any road district, including a county unit road district, provided for by the Illinois Highway Code; and the term "township or district road" means any road in the township and district road system as defined in the Illinois Highway Code. For the purposes of this Section, "township or district road" also includes such roads as are maintained by park districts, forest preserve

districts and conservation districts. The Department of Transportation shall
determine the mileage of all township and district roads for the purposes of
making allotments and allocations of motor fuel tax funds for use in road
districts.

Payment of motor fuel tax moneys to municipalities and counties
shall be made as soon as possible after the allotment is made. The treasurer
of the municipality or county may invest these funds until their use is
required and the interest earned by these investments shall be limited to
the same uses as the principal funds.

Sec. 5-101. New vehicle dealers must be licensed.
(a) No person shall engage in this State in the business of selling or dealing in, on consignment or otherwise, new vehicles of any make, or act as an intermediary or agent or broker for any licensed dealer or vehicle purchaser other than as a salesperson, or represent or advertise that he is so engaged or intends to so engage in such business unless licensed to do so in writing by the Secretary of State under the provisions of this Section.
(b) An application for a new vehicle dealer's license shall be filed with the Secretary of State, duly verified by oath, on such form as the Secretary of State may by rule or regulation prescribe and shall contain:
1. The name and type of business organization of the applicant and his established and additional places of business, if any, in this State.
2. If the applicant is a corporation, a list of its officers, directors, and shareholders having a ten percent or greater ownership interest in the corporation, setting forth the residence address of each; if the applicant is a sole proprietorship, a partnership, an unincorporated association, a trust, or any similar form of business organization, the name and residence address of the proprietor or of each partner, member, officer, director, trustee, or manager.
3. The make or makes of new vehicles which the applicant will offer for sale at retail in this State.
4. The name of each manufacturer or franchised distributor, if any, of new vehicles with whom the applicant has contracted for the sale of such new vehicles. As evidence of this fact, the application shall be accompanied by a signed statement from each such manufacturer or franchised distributor. If the applicant is in the business of offering for sale new conversion vehicles, trucks or vans, except for trucks modified to serve a special purpose which includes but is not limited to the following vehicles: street sweepers, fertilizer spreaders, emergency vehicles, implements of husbandry or maintenance type vehicles, he must furnish evidence of a sales and service agreement from both the chassis manufacturer and second stage manufacturer.
5. A statement that the applicant has been approved for registration under the Retailers' Occupation Tax Act by the
Department of Revenue: Provided that this requirement does not apply to a dealer who is already licensed hereunder with the Secretary of State, and who is merely applying for a renewal of his license. As evidence of this fact, the application shall be accompanied by a certification from the Department of Revenue showing that that Department has approved the applicant for registration under the Retailers' Occupation Tax Act.

6. A statement that the applicant has complied with the appropriate liability insurance requirement. A Certificate of Insurance in a solvent company authorized to do business in the State of Illinois shall be included with each application covering each location at which he proposes to act as a new vehicle dealer. Such policy shall expire not sooner than December 31 of the year for which the license was issued or renewed. The expiration of the insurance policy shall not terminate the liability under the policy arising during the period for which the policy was filed. Trailer and mobile home dealers are exempt from this requirement.

If the permitted user has a liability insurance policy that provides automobile liability insurance coverage of at least $100,000 for bodily injury to or the death of any person, $300,000 for bodily injury to or the death of any 2 or more persons in any one accident, and $50,000 for damage to property, then the permitted user's insurer shall be the primary insurer and the dealer's insurer shall be the secondary insurer. Sec. 5-102.7. Dealer Recovery Trust Fund.

(a) The General Assembly finds that motor vehicle dealers that go out of business without fulfilling agreements to pay off the balance of their customers' liens on traded-in vehicles cause financial harm to those customers by leaving those customers liable for multiple vehicle loans and cause harm to the integrity of the motor vehicle retailing industry. It is the intent of the General Assembly to protect vehicle purchasers by creating a Dealer Recovery Trust Fund to reimburse these consumers.

(b) The Dealer Recovery Trust Fund shall be used solely for the limited purpose of helping victims of dealership closings. Any interest accrued by moneys in the Fund shall be deposited and become part of the Dealer Recovery Trust Fund and its purpose. The sole beneficiaries of the Dealer Recovery Trust Fund are victims of dealership closings.

(c) Except where the context otherwise requires, the following words and phrases, when used in this Section, have the meanings ascribed to them in this subsection (c):

"Applicant" means a person who applies for reimbursement from the Dealer Recovery Trust Fund Board.
"Board" means the Dealer Recovery Trust Fund Board created under this Section.

"Dealer" means a new vehicle dealer licensed under Section 5-101, or a used vehicle dealer licensed under Section 5-102, or a Buy Here, Pay Here used vehicle dealer licensed under 5-102.8, excepting a dealer who primarily sells mobile homes, recreational vehicles, or trailers.

"Fund" means the Dealer Recovery Trust Fund created under this Section.

"Fund Administrator" means the private entity, which shall be appointed by the Board, that administers the Dealer Recovery Trust Fund.

(d) Beginning October 1, 2011, each application or renewal for a new vehicle dealer's license and each application or renewal for a Buy Here, Pay Here used vehicle dealer licensed under 5-102.8 or a used vehicle dealer's license shall be accompanied by the applicable Annual Dealer Recovery Fund Fee under Section 5-101 or 5-102 of this Code. The fee shall be in addition to any other fees imposed under this Article, shall be submitted at the same time an application or renewal for a new vehicle dealer's license, or used vehicle dealer's license, or Buy Here, Pay Here used vehicle dealer is submitted, and shall be made payable to and remitted directly to the Dealer Recovery Trust Fund, a trust fund outside of the State Treasury which is hereby created. In addition, the Dealer Recovery Trust Fund may accept any federal, State, or private moneys for deposit into the Fund.

(e) The Fund Administrator shall maintain a list of all dealers who have paid the fee under subsection (d) of this Section for the current year, which shall be available to the Secretary of State and the Board. The Secretary of State shall revoke the dealer license of any dealer who does not pay the fee imposed under subsection (d) of this Section. The Secretary of State and the Fund Administrator may enter into information sharing agreements as needed to implement this Section.

(f) The Fund shall be audited annually by an independent auditor who is a certified public accountant and who has been selected by the Board. The independent auditor shall compile an annual report, which shall be filed with the Board and shall be a public record. The auditor shall be paid by the Fund, pursuant to an order of the Board.

(g) The Fund shall be maintained by the Fund Administrator, who shall keep current records of the amounts deposited into the Fund and the amounts paid out of the Fund pursuant to an order of the Board. These records shall be made available to all members of the Board upon request.

reasonable request during normal business hours. The Fund Administrator shall report the balance in the Fund to the Board monthly, by the 15th day of each month. For purposes of determining the amount available to pay claims under this Section at any meeting of the Board, the Board shall use the Fund Administrator's most recent monthly report. The Fund Administrator shall purchase liability insurance to cover management of the Fund at a cost not to exceed 2% of the balance in the Fund as of January 15th of that year.

(h) In any year for which the balance in the Fund as of August 31st is greater than $3,500,000, the Fund Administrator shall notify the Secretary of State and the Secretary of State shall suspend collection of the fee for the following year for any dealer who has not had a claim paid from the Fund, has not had his or her license suspended or revoked, and has not been assessed any civil penalties under this Code during the 3 previous years.

(i) Moneys in the Dealer Recovery Trust Fund may be paid from the Fund only as directed by a written order of the Board and used only for the following purposes:

   (i) to pay claims under a written order of the Board as provided in this Section; or

   (ii) to reimburse the Fund Administrator for its expenses related to the administration of the Fund, provided that the reimbursement to the Fund Administrator in any year shall not exceed 2% of the balance in the Fund as of January 15th of that year.

(j) The Dealer Recovery Trust Fund Board is hereby created. The Board shall consist of the Secretary of State, or his or her designee, who shall serve as chair, the Attorney General, or his or her designee, who shall serve as secretary, and one person alternatively representing new and independent Illinois automobile dealers, selected collectively by the Attorney General, or his or her designee, and the Secretary of State, or his or her designee. The Secretary of State may propose procedures and employ personnel as necessary to implement this Section. The Board shall meet quarterly, and as needed, as directed by the chair. The Board may not pay out any claims before the balance deposited into the Fund exceeds $500,000. Board meetings shall be open to the public. The Board has the authority to take any action by at least a two-thirds majority vote.

(k) The following persons may apply to the Board for reimbursement from the Dealer Recovery Trust Fund:

   New matter indicated by italics- deletions by strikeout
(i) A retail customer who, on or after October 1, 2011, purchases a vehicle from a dealer who subsequently files for bankruptcy or whose vehicle dealer's license is subsequently revoked by the Secretary of State or otherwise terminated and, as part of the purchase transaction, trades in a vehicle with an outstanding lien to the dealer if lien satisfaction was a condition of the purchase agreement and the retail customer determines that the lien has not been satisfied;

(ii) A retail customer who, on or after October 1, 2011, purchases a vehicle with an undisclosed lien from a dealer who subsequently files for bankruptcy or whose vehicle dealer's license is subsequently revoked by the Secretary of State or otherwise terminated;

(iii) A dealer who, on or after October 1, 2011, purchases a vehicle with an undisclosed lien from another dealer who subsequently files for bankruptcy or whose vehicle dealer's license is subsequently revoked by the Secretary of State or otherwise terminated.

(l) To be considered by the Board, an applicant must submit his or her claim to the Board within 2 years after the date of the transaction that gave rise to the claim.

(m) At each meeting of the Board, it shall consider all claims that are properly submitted to it on forms prescribed by the Secretary of State at least 30 days before the date of the Board's meeting. Before the Board may consider a claim against a dealer, it must make a written determination that the dealer has filed for bankruptcy under the provisions of 11 U.S.C. Chapter 7; that the Secretary of State has revoked his or her dealer's license; or that the license has been otherwise terminated. Once the Board has made this determination, it may consider the applicant's claim against the dealer. If a two-thirds majority of the Board determines that the dealer has committed a violation under subsection (k), it shall grant the applicant's claim. Except as otherwise provided in this Section, the maximum amount of any award for a claim under paragraph (i) of subsection (k) of this Section shall be equal to the amount of the unpaid balance of the lien that the dealer agreed to pay off on behalf of the applicant as shown on the bill of sale or the retail installment sales contract. The maximum amount of any claim under paragraph (ii) or (iii) of subsection (k) of this Section shall be equal to the amount of the
undisclosed lien. However, no award for a claim under subsection (k) of this Section shall exceed $35,000.

(n) If the balance in the Fund at the time of any Board meeting is less than the amount of the total amount of all claims awarded at that meeting, then all awards made at that meeting shall be reduced, pro rata, so that the amount of claims does not exceed the balance in the Fund. Before it reviews new claims, the Board shall issue written orders to pay the remaining portion of any claims that were so reduced, provided that the balance in the Fund is sufficient to pay those claims.

(o) Whenever the balance of the Fund falls below $500,000, the Board may charge dealers an additional assessment of up to $50 to bring the balance to at least $500,000. Not more than one additional assessment may be made against a dealer in any 12-month period.

(p) If the total amount of claims awarded against any dealer exceeds 33% of the balance in the Fund, the Board may permanently reduce the amount of those claims, pro rata, so that those claims do not exceed 33% of the balance in the Fund.

(q) The Board shall issue a written order directing the Fund Administrator to pay an applicant's claim to a secured party where the Board has received a signed agreement between the applicant and the secured party holding the lien. The agreement must (i) state that the applicant and the secured party agree to accept payment from the Fund to the secured party as settlement in full of all claims against the dealer; and (ii) release the lien and the title, if applicable, to the vehicle that was the subject of the claim. The written order shall state the amount of the claim and the name and address of the secured party to whom the claim shall be paid. The Fund Administrator shall pay the claim within 30 days after it receives the Board's order.

(r) No dealer or principal associated with a dealer's license is eligible for licensure, renewal or relicensure until the full amount of reimbursement for an unpaid claim, plus interest as determined by the Board, is paid to the Fund. Nothing in this Section shall limit the authority of the Secretary of State to suspend, revoke, or levy civil penalties against a dealer, nor shall full repayment of the amount owed to the Fund nullify or modify the effect of any action by the Secretary.

(s) Nothing in this Section shall limit the right of any person to seek relief through civil action against any other person as an alternative to seeking reimbursement from the Fund.

   (viii) the name and address of the person to whom such part was disposed of and, if that person is a dealer, the Illinois or out-of-state dealer license number of that person;
   (ix) the uniform invoice number reflecting the disposition of such part.

(B) Inspections of all essential parts shall be conducted in accordance with Section 5-402.1.

(C) A separate entry containing all of the information required to be recorded in subparagraph (A) of paragraph (2) of subsection (a) of this Section shall be made for each separate essential part. Separate entries shall be made regardless of whether the part was a large purchase acquisition. In addition, a separate entry shall be made for each part acquired for immediate sale or transfer, or for placement into the overall inventory or stock to be disposed of at a later time, or for use on a vehicle to be materially altered by the licensee, or acquired for any other purpose or reason. Failure to make a separate entry for each essential part acquired or disposed of, or a failure to record any of the specific information required to be recorded concerning the acquisition or disposition of each essential part as set forth in subparagraph (A) of paragraph (2) of subsection (a) shall constitute a failure to keep records.

(D) The vehicle's manufacturer's identification number or Secretary of State or Illinois Department of State Police identification number for the essential part shall be ascertained and recorded even if such part is acquired from a person or dealer
located in a State, territory, or country which does not require that such information be recorded. If the vehicle's manufacturer's identification number or Secretary of State or Illinois Department of State Police identification number for an essential part cannot be obtained, that part shall not be acquired by the licensee or any of his agents or employees. If such part or parts were physically acquired by the licensee or any of his agents or employees while the licensee or agent or employee was outside this State, that licensee or agent or employee was outside the State, that licensee, agent or employee shall not bring such essential part into this State or cause it to be brought into this State. The acquisition or disposition of an essential part by a licensee without the recording of the vehicle identification number or Secretary of State identification number for such part or the transportation into the State by the licensee or his agent or employee of such part or parts shall constitute a failure to keep records.

(E) The records of essential parts required to be kept by this Section shall apply to all hulks, chassis, frames or cowls, regardless of the age of those essential parts. The records required to be kept by this Section for essential parts other than hulks, chassis, frames or cowls, shall apply only to those essential parts which are 6 model years of age or newer. In determining the model year of such an essential part it may be presumed that the identification number of the vehicle from which the essential part came or the identification number affixed to the essential part itself acquired by the licensee denotes the model year of that essential part. This presumption, however, shall not apply if the gross appearance of the essential part does not correspond to the year, make or model of either the identification number of the vehicle from which the essential part is alleged to have come or the identification number which is affixed to the essential part itself. To determine whether an essential part is 6 years of age or newer within this paragraph, the model year of the essential part shall be subtracted from the calendar year in which the essential part is acquired or disposed of by the licensee. If the remainder is 6 or less, the record of the acquisition or disposition of that essential part shall be kept as required by this Section.

(F) The requirements of paragraph (2) of subsection (a) of this Section shall not apply to the disposition of an essential part.

(3) the following records for vehicles on which junking certificates are obtained shall be kept:

(A) the year, make, model, style and color of the vehicle;

(B) the vehicle's manufacturer's identification number or, if applicable, the Secretary of State or Illinois Department of State Police identification number;

(C) the date the vehicle was acquired;

(D) the name and address of the person from whom the vehicle was acquired and, if that person is a dealer, the Illinois or out-of-state dealer license number of that person;

(E) the certificate of title number or salvage certificate number for the vehicle, if applicable;

(F) the junking certificate number obtained by the licensee; this entry shall be recorded at the close of business of the fifth business day after receiving the junking certificate;

(G) the name and address of the person to whom the junking certificate has been assigned, if applicable, and if that person is a dealer, the Illinois or out-of-state dealer license number of that dealer;

(H) if the vehicle or any part of the vehicle is dismantled for its parts to be disposed of in any way, or if such parts are to be used by the licensee to materially alter a vehicle, those essential parts shall be recorded and the entries required by paragraph (2) of subsection (a) shall be made.

(4) The following records for rebuilt vehicles shall be kept:

(A) the year, make, model, style and color of the vehicle;

(B) the vehicle's manufacturer's identification number of the vehicle or, if applicable, the Secretary of State or Illinois Department of State Police identification number;

(C) the date the vehicle was acquired;

(D) the name and address of the person from whom the vehicle was acquired, and if that person is a dealer, the Illinois or out-of-state dealer license number of that person;

(E) the salvage certificate number for the vehicle;

(F) the newly issued certificate of title number for the vehicle;

(G) the date of disposition of the vehicle;

(H) the name and address of the person to whom the vehicle was disposed, and if a dealer, the Illinois or out-of-state dealer license number of that dealer;

(I) The sale price of the vehicle.

(a-1) A person licensed or required to be licensed under Section 5-101 or Section 5-102 of this Code who issues temporary registration permits as permitted by this Code and by rule must electronically file the registration with the Secretary and must maintain records of the registration in the manner prescribed by the Secretary.

(b) A failure to make separate entries for each vehicle acquired, disposed of, or assigned, or a failure to record any of the specific information required to be recorded concerning the acquisition or disposition of each vehicle as set forth in paragraphs (1), (3) and (4) of subsection (a) shall constitute a failure to keep records.

(c) All entries relating to the acquisition of a vehicle or essential part required by subsection (a) of this Section shall be recorded no later than the close of business on the seventh calendar day following such acquisition. All entries relating to the disposition of a vehicle or an essential part shall be made at the time of such disposition. If the vehicle or essential part was disposed of on the same day as its acquisition or the day thereafter, the entries relating to the acquisition of the vehicle or essential part shall be made at the time of the disposition of the vehicle or essential part. Failure to make the entries required in or at the times prescribed by this subsection following the acquisition or disposition of such vehicle or essential part shall constitute a failure to keep records.

(d) Every person licensed or required to be licensed shall, before accepting delivery of a used vehicle, inspect the vehicle to determine whether the manufacturer's public vehicle identification number has been defaced, destroyed, falsified, removed, altered, or tampered with in any way. If the person making the inspection determines that the manufacturer's public vehicle identification number has been altered, removed, defaced, destroyed, falsified or tampered with he shall not acquire that vehicle but instead shall promptly notify law enforcement authorities of his finding.

(e) The information required to be kept in subsection (a) of this Section shall be kept in a manner prescribed by rule or regulation of the Secretary of State.

(f) Every person licensed or required to be licensed shall have in his possession a separate certificate of title, salvage certificate, junking certificate, certificate of purchase, uniform invoice, out-of-state bill of sale or other acceptable documentary evidence of his right to the possession of every vehicle or essential part.

(g) Every person licensed or required to be licensed as a transporter under Section 5-201 shall maintain for 3 years, in such form as the Secretary of State may by rule or regulation prescribe, at his principal place of business a record of every vehicle transported by him, including numbers of or other marks of identification thereof, the names and addresses of persons from whom and to whom the vehicle was delivered and the dates of delivery.

(h) No later than 15 days prior to going out of business, selling the business, or transferring the ownership of the business, the licensee shall notify the Secretary of State that he is going out of business or that he is transferring the ownership of the business. Failure to notify under this paragraph shall constitute a failure to keep records.

(i) (Blank).

(j) A person who knowingly fails to comply with the provisions of this Section or knowingly fails to obey, observe, or comply with any order of the Secretary or any law enforcement agency issued in accordance with this Section is guilty of a Class B misdemeanor for the first violation and a Class A misdemeanor for the second and subsequent violations. Each violation constitutes a separate and distinct offense and a separate count may be brought in the same indictment or information for each vehicle or each essential part of a vehicle for which a record was not kept as required by this Section.

(k) Any person convicted of failing to keep the records required by this Section with intent to conceal the identity or origin of a vehicle or its essential parts or with intent to defraud the public in the transfer or sale of vehicles or their essential parts is guilty of a Class 2 felony. Each violation constitutes a separate and distinct offense and a separate count may be brought in the same indictment or information for each vehicle or essential part of a vehicle for which a record was not kept as required by this Section.

(l) A person may not be criminally charged with or convicted of both a knowing failure to comply with this Section and a knowing failure to comply with any order, if both offenses involve the same record keeping violation.

(m) The Secretary shall adopt rules necessary for implementation of this Section, which may include the imposition of administrative fines.

(625 ILCS 5/5-402.1) (from Ch. 95 1/2, par. 5-402.1)

Sec. 5-402.1. Use of Secretary of State Uniform Invoice for Essential Parts.

(a) Except for scrap processors, every person licensed or required to be licensed under Section 5-101, 5-101.1, 5-102, 5-102.8, or 5-301 of this Code shall issue, in a form the Secretary of State may by rule or regulation prescribe, a Uniform Invoice, which may also act as a bill of sale, made out in triplicate with respect to each transaction in which he disposes of an essential part other than quarter panels and transmissions of vehicles of the first division. Such Invoice shall be made out at the time of the disposition of the essential part. If the licensee disposes of several essential parts in the same transaction, the licensee may issue one Uniform Invoice covering all essential parts disposed of in that transaction.

(b) The following information shall be contained on the Uniform Invoice:

(1) the business name, address and dealer license number of the person disposing of the essential part;
(2) the name and address of the person acquiring the essential part, and if that person is a dealer, the Illinois or out-of-state dealer license number of that dealer;
(3) the date of the disposition of the essential part;
(4) the year, make, model, color and description of each essential part disposed of by the person;
(5) the manufacturer's vehicle identification number, Secretary of State identification number or Illinois Department of State Police identification number, for each essential part disposed of by the person;
(6) the printed name and legible signature of the person or agent disposing of the essential part; and
(7) if the person is a dealer the printed name and legible signature of the dealer or his agent or employee accepting delivery of the essential part.

New matter indicated by italics- deletions by strikeout
(c) Except for scrap processors, and except as set forth in subsection (d) of this Section, whenever a person licensed or required to be licensed by Section 5-101, 5-101.1, 5-102, or 5-301 accepts delivery of an essential part, other than quarter panels and transmissions of vehicles of the first division, that person shall, at the time of the acceptance or delivery, comply with the following procedures:

   (1) Before acquiring or accepting delivery of any essential part, the licensee or his authorized agent or employee shall inspect the part to determine whether the vehicle identification number, Secretary of State identification number, Illinois Department of State Police identification number, or identification plate or sticker attached to or stamped on any part being acquired or delivered has been removed, falsified, altered, defaced, destroyed, or tampered with. If the licensee or his agent or employee determines that the vehicle identification number, Secretary of State identification number, Illinois Department of State Police identification number, identification plate or identification sticker containing an identification number, or Federal Certificate label of an essential part has been removed, falsified, altered, defaced, destroyed or tampered with, the licensee or agent shall not accept or receive that part.

   If that part was physically acquired by or delivered to a licensee or his agent or employee while that licensee, agent or employee was outside this State, that licensee or agent or employee shall not bring that essential part into this State or cause it to be brought into this State.

   (2) If the person disposing of or delivering the essential part to the licensee is a licensed in-state or out-of-state dealer, the licensee or his agent or employee, after inspecting the essential part as required by paragraph (1) of this subsection (c), shall examine the Uniform Invoice, or bill of sale, as the case may be, to ensure that it contains all the information required to be provided by persons disposing of essential parts as set forth in subsection (b) of this Section. If the Uniform Invoice or bill of sale does not contain all the information required to be listed by subsection (b) of this Section, the dealer disposing of or delivering such part or his agent or employee shall record such additional information or other needed modifications on the Uniform Invoice or bill of sale or, if needed, an attachment thereto. The dealer or his agent or employee

New matter indicated by italics- deletions by strikeout
delivering the essential part shall initial all additions or
modifications to the Uniform Invoice or bill of sale and legibly
print his name at the bottom of each document containing his
initials. If the transaction involves a bill of sale rather than a
Uniform Invoice, the licensee or his agent or employee accepting
delivery of or acquiring the essential part shall affix his printed
name and legible signature on the space on the bill of sale provided
for his signature or, if no space is provided, on the back of the bill
of sale. If the dealer or his agent or employee disposing of or
delivering the essential part cannot or does not provide all the
information required by subsection (b) of this Section, the licensee
or his agent or employee shall not accept or receive any essential
part for which that required information is not provided. If such
essential part for which the information required is not fully
provided was physically acquired while the licensee or his agent or
employee was outside this State, the licensee or his agent or
employee shall not bring that essential part into this State or cause
it to be brought into this State.

(3) If the person disposing of the essential part is not a
licensed dealer, the licensee or his agent or employee shall, after
inspecting the essential part as required by paragraph (1) of
subsection (c) of this Section verify the identity of the person
disposing of the essential part by examining 2 sources of
identification, one of which shall be either a driver's license or state
identification card. The licensee or his agent or employee shall then
prepare a Uniform Invoice listing all the information required to be
provided by subsection (b) of this Section. In the space on the
Uniform Invoice provided for the dealer license number of the
person disposing of the part, the licensee or his agent or employee
shall list the numbers taken from the documents of identification
provided by the person disposing of the part. The person disposing
of the part shall affix his printed name and legible signature on the
space on the Uniform Invoice provided for the person disposing of
the essential part and the licensee or his agent or employee
acquiring the part shall affix his printed name and legible signature
on the space provided on the Uniform Invoice for the person
acquiring the essential part. If the person disposing of the essential
part cannot or does not provide all the information required to be
provided by this paragraph, or does not present 2 satisfactory forms

of identification, the licensee or his agent or employee shall not acquire that essential part.

(d) If an essential part other than quarter panels and transmissions of vehicles of the first division was delivered by a licensed commercial delivery service delivering such part on behalf of a licensed dealer, the person required to comply with subsection (c) of this Section may conduct the inspection of that part required by paragraph (1) of subsection (c) and examination of the Uniform Invoice or bill of sale required by paragraph (2) of subsection (c) of this Section immediately after the acceptance of the part.

(1) If the inspection of the essential part pursuant to paragraph (1) of subsection (c) reveals that the vehicle identification number, Secretary of State identification number, Illinois Department of State Police identification number, identification plate or sticker containing an identification number, or Federal Certificate label of an essential part has been removed, falsified, altered, defaced, destroyed or tampered with, the licensee or his agent shall immediately record such fact on the Uniform Invoice or bill of sale, assign the part an inventory or stock number, place such inventory or stock number on both the essential part and the Uniform Invoice or bill of sale, and record the date of the inspection of the part on the Uniform Invoice or bill of sale. The licensee shall, within 7 days of such inspection, return such part to the dealer from whom it was acquired.

(2) If the examination of the Uniform Invoice or bill of sale pursuant to paragraph (2) of subsection (c) reveals that any of the information required to be listed by subsection (b) of this Section is missing, the licensee or person required to be licensed shall immediately assign a stock or inventory number to such part, place such stock or inventory number on both the essential part and the Uniform Invoice or bill of sale, and record the date of examination on the Uniform Invoice or bill of sale. The licensee or person required to be licensed shall acquire the information missing from the Uniform Invoice or bill of sale within 7 days of the examination of such Uniform Invoice or bill of sale. Such information may be received by telephone conversation with the dealer from whom the part was acquired. If the dealer provides the missing information the licensee shall record such information on the Uniform Invoice or bill of sale along with the name of the

person providing the information. If the dealer does not provide the
required information within the aforementioned 7 day period, the
licensee shall return the part to that dealer.
(e) Except for scrap processors, all persons licensed or required to
be licensed who acquire or dispose of essential parts other than quarter
panels and transmissions of vehicles of the first division shall retain a copy
of the Uniform Invoice required to be made by subsections (a), (b) and (c)
of this Section for a period of 3 years.
(f) Except for scrap processors, any person licensed or required to
be licensed under Sections 5-101, 5-102 or 5-301 who knowingly fails to
record on a Uniform Invoice any of the information or entries required to
be recorded by subsections (a), (b) and (c) of this Section, or who
knowingly places false entries or other misleading information on such
Uniform Invoice, or who knowingly fails to retain for 3 years a copy of a
Uniform Invoice reflecting transactions required to be recorded by
subsections (a), (b) and (c) of this Section, or who knowingly acquires or
disposes of essential parts without receiving, issuing, or executing a
Uniform Invoice reflecting that transaction as required by subsections (a),
(b) and (c) of this Section, or who brings or causes to be brought into this
State essential parts for which the information required to be recorded on a
Uniform Invoice is not recorded as prohibited by subsection (c) of this
Section, or who knowingly fails to comply with the provisions of this
Section in any other manner shall be guilty of a Class 2 felony. Each
violation shall constitute a separate and distinct offense and a separate
count may be brought in the same indictment or information for each
essential part for which a record was not kept as required by this Section
or for which the person failed to comply with other provisions of this
Section.
(g) The records required to be kept by this Section may be
examined by a person or persons making a lawful inspection of the
licensee's premises pursuant to Section 5-403.
(h) The records required to be kept by this Section shall be retained
by the licensee at his principal place of business for a period of 7 years.
(i) The requirements of this Section shall not apply to the
disposition of an essential part other than a cowl which has been damaged
or altered to a state in which it can no longer be returned to a usable
condition and which is being sold or transferred to a scrap processor or for
delivery to a scrap processor.

(750 ILCS 60/210) (from Ch. 40, par. 2312-10)

(a) Summons. Any action for an order of protection, whether commenced alone or in conjunction with another proceeding, is a distinct cause of action and requires that a separate summons be issued and served, except that in pending cases the following methods may be used:

(1) By delivery of the summons to respondent personally in open court in pending civil or criminal cases.

(2) By notice in accordance with Section 210.1 in civil cases in which the defendant has filed a general appearance.

Attachments to the summons or notice shall include the petition for order of protection and supporting affidavits, if any, and any emergency order of protection that has been issued. (c) Expedited service. The summons shall be served by the sheriff or other law enforcement officer at the earliest time and shall take precedence over other summonses except those of a similar emergency nature. Special process servers may be appointed at any time, and their designation shall not affect the responsibilities and authority of the sheriff or other official process servers. In counties with a population over 3,000,000, a special process server may not be appointed if the order of
protection grants the surrender of a child, the surrender of a firearm or firearm owners identification card, or the exclusive possession of a shared residence.

(d) Remedies requiring actual notice. The counseling, payment of support, payment of shelter services, and payment of losses remedies provided by paragraphs 4, 12, 13, and 16 of subsection (b) of Section 214 may be granted only if respondent has been personally served with process, has answered or has made a general appearance.

(e) Remedies upon constructive notice. Service of process on a member of respondent's household or by publication shall be adequate for the remedies provided by paragraphs 1, 2, 3, 5, 6, 7, 8, 9, 10, 11, 14, 15, and 17 of subsection (b) of Section 214, but only if: (i) petitioner has made all reasonable efforts to accomplish actual service of process personally upon respondent, but respondent cannot be found to effect such service and (ii) petitioner files an affidavit or presents sworn testimony as to those efforts.

(f) Default. A plenary order of protection may be entered by default as follows:

1. For any of the remedies sought in the petition, if respondent has been served or given notice in accordance with subsection (a) and if respondent then fails to appear as directed or fails to appear on any subsequent appearance or hearing date agreed to by the parties or set by the court; or

2. For any of the remedies provided in accordance with subsection (e), if respondent fails to answer or appear in accordance with the date set in the publication notice or the return date indicated on the service of a household member.

(b) Filing with sheriff. The clerk of the issuing judge shall, or the petitioner may, on the same day that an order of protection is issued, file a certified copy of that order with the sheriff or other law enforcement officials charged with maintaining Department of State Police records or charged with serving the order upon respondent. If the order was issued in accordance with subsection (c) of Section 217, the clerk shall on the next court day, file a certified copy of the order with the Sheriff or other law enforcement officials charged with maintaining Department of State Police records. If the respondent, at the time of the issuance of the order, is committed to the custody of the Illinois Department of Corrections or Illinois Department of Juvenile Justice or is on parole, aftercare release, or mandatory supervised release, the sheriff or other law enforcement officials charged with maintaining Department of State Police records shall notify the Department of Corrections or Department of Juvenile Justice within 48 hours of receipt of a copy of the order of protection from the clerk of the issuing judge or the petitioner. Such notice shall include the name of the respondent, the respondent's IDOC inmate number or IDJJ youth identification number, the respondent's date of birth, and the LEADS Record Index Number.

(c) Service by sheriff. Unless respondent was present in court when the order was issued, the sheriff, other law enforcement official or special process server shall promptly serve that order upon respondent and file proof of such service, in the manner provided for service of process in civil proceedings. Instead of serving the order upon the respondent, however, the sheriff, other law enforcement official, special process server, or other persons defined in Section 222.10 may serve the respondent with a short form notification as provided in Section 222.10. If process has not yet been served upon the respondent, it shall be served with the order or short form notification if such service is made by the sheriff, other law enforcement official, or special process server. A single fee may be charged for service of an order obtained in civil court, or for service of such an order together with process, unless waived or deferred under Section 210.

law enforcement agent shall promptly serve the order upon the respondent or arrestee before the respondent or arrestee is released from custody. In no event shall detention of the respondent or arrestee be extended for hearing on the petition for order of protection or receipt of the order issued under Section 217 of this Act.

(d) Extensions, modifications and revocations. Any order extending, modifying or revoking any order of protection shall be promptly recorded, issued and served as provided in this Section.

(e) Notice to schools. Upon the request of the petitioner, within 24 hours of the issuance of an order of protection, the clerk of the issuing judge shall send a certified copy of the order of protection to the day-care facility, pre-school or pre-kindergarten, or private school or the principal office of the public school district or any college or university in which any child who is a protected person under the order of protection or any child of the petitioner is enrolled as requested by the petitioner at the mailing address provided by the petitioner. If the child transfers enrollment to another day-care facility, pre-school, pre-kindergarten, private school, public school, college, or university, the petitioner may, within 24 hours of the transfer, send to the clerk written notice of the transfer, including the name and address of the institution to which the child is transferring. Within 24 hours of receipt of notice from the petitioner that a child is transferring to another day-care facility, pre-school, pre-kindergarten, private school, public school, college, or university, the clerk shall send a certified copy of the order to the institution to which the child is transferring.

(f) Disclosure by schools. After receiving a certified copy of an order of protection that prohibits a respondent's access to records, neither a day-care facility, pre-school, pre-kindergarten, public or private school, college, or university nor its employees shall allow a respondent access to a protected child's records or release information in those records to the respondent. The school shall file the copy of the order of protection in the records of a child who is a protected person under the order of protection. When a child who is a protected person under the order of protection transfers to another day-care facility, pre-school, pre-kindergarten, public or private school, college, or university, the institution from which the child is transferring may, at the request of the petitioner, provide, within 24 hours of the transfer, written notice of the order of protection, along with a certified copy of the order, to the institution to which the child is transferring.

(g) Notice to health care facilities and health care practitioners. Upon the request of the petitioner, the clerk of the circuit court shall send a certified copy of the order of protection to any specified health care facility or health care practitioner requested by the petitioner at the mailing address provided by the petitioner.

(h) Disclosure by health care facilities and health care practitioners. After receiving a certified copy of an order of protection that prohibits a respondent's access to records, no health care facility or health care practitioner shall allow a respondent access to the records of any child who is a protected person under the order of protection, or release information in those records to the respondent, unless the order has expired or the respondent shows a certified copy of the court order vacating the corresponding order of protection that was sent to the health care facility or practitioner. Nothing in this Section shall be construed to require health care facilities or health care practitioners to alter procedures related to billing and payment. The health care facility or health care practitioner may file the copy of the order of protection in the records of a child who is a protected person under the order of protection, or may employ any other method to identify the records to which a respondent is prohibited access. No health care facility or health care practitioner shall be civilly or professionally liable for reliance on a copy of an order of protection, except for willful and wanton misconduct.

PUBLIC ACT 101-0509
(House Bill No. 3405)

AN ACT concerning employment.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Wage Payment and Collection Act is amended by changing Section 11 and by adding Section 4.1 as follows:

(820 ILCS 115/4.1 new)
Sec. 4.1. Gratuities.

New matter indicated by italics- deletions by strikeout
(a) Gratuities to employees are the property of the employees, and employers shall not keep gratuities. Failure to pay gratuities owed to an employee more than 13 days after the end of the pay period in which such gratuities were earned constitutes a violation of this Act.

(b) This Section does not prohibit an employer from withholding from gratuities paid by credit card a proportionate amount of any credit card processing fees that the employer must pay in connection with the transaction, provided that the amount withheld does not exceed the proportion of the amount of the tip to the amount of the overall bill, regardless of whether the overall bill was paid using a credit card. This Section does not prohibit tip pooling as permitted by law. This Section does not affect an employer's entitlement to an allowance for gratuities to the extent permitted under subsection (c) of Section 4 of the Minimum Wage Law.

(820 ILCS 115/11) (from Ch. 48, par. 39m-11)

Sec. 11. It shall be the duty of the Department of Labor to inquire diligently for any violations of this Act, and to institute the actions for penalties herein provided, and to enforce generally the provisions of this Act.

An employee may file a complaint with the Department alleging violations of the Act by submitting a signed, completed wage claim application on the form provided by the Department and by submitting copies of all supporting documentation. Complaints shall be filed within one year after the wages, final compensation, or wage supplements were due.

Applications shall be reviewed by the Department to determine whether there is cause for investigation.

The Department shall have the following powers:

(a) To investigate and attempt equitably to adjust controversies between employees and employers in respect of wage claims arising under this Act and to that end the Department through the Director of Labor or any other person in the Department of Labor designated by him or her, shall have the power to administer oaths, subpoena and examine witnesses, to issue subpoenas duces tecum requiring the production of such books, papers, records and documents as may be evidence of any matter under inquiry and to examine and inspect the same as may relate to the question in dispute. Service of such subpoenas shall be made by any sheriff or any person. Any court in this State, upon the

application of the Department may compel attendance of witnesses, the production of books and papers, and the giving of testimony before the Department by attachment for contempt or in any other way as the production of evidence may be compelled before such court.

(b) To take assignments of wage claims in the name of the Director of Labor and his or her successors in office and prosecute actions for the collection of wages for persons financially unable to prosecute such claims when in the judgment of the Department such claims are valid and enforceable in the courts. No court costs or any fees for necessary process and proceedings shall be payable in advance by the Department for prosecuting such actions. In the event there is a judgment rendered against the defendant, the court shall assess as part of such judgment the costs of such proceeding. Upon collection of such judgments the Department shall pay from the proceeds of such judgment such costs to such person who is by law entitled to same. The Department may join in a single proceeding any number of wage claims against the same employer but the court shall have discretionary power to order a severance or separate trial for hearings.

(c) To make complaint in any court of competent jurisdiction of violations of this Act.

(d) In addition to the aforementioned powers, subject to appropriation, the Department may establish an administrative procedure to adjudicate claims and to issue final and binding administrative decisions on such claims subject to the Administrative Review Law. To establish such a procedure, the Director of Labor or her or his authorized representative may promulgate rules and regulations. The adoption, amendment or rescission of rules and regulations for such a procedure shall be in conformity with the requirements of the Illinois Administrative Procedure Act. If a final and binding administrative decision issued by the Department requires an employer or other party to pay wages, penalties, or other amounts in connection with a wage claim, and the employer or other party has neither: (i) made the required payment within 35 days of the issuance of the final and binding administrative decision; nor (ii) timely filed a complaint seeking review of the final and binding administrative decision pursuant to the Administrative Review Law in a court of competent jurisdiction, the Department may take assignments of such wage claims in the name of the Director of Labor and his or her successors in office and prosecute actions for the collection of such claims.

New matter indicated by italics- deletions by strikeout
jurisdiction, the Department may file a verified petition against the employer or other party to enforce the final administrative decision and to collect any amounts due in connection therewith in the circuit court of any county where an official office of the Department is located.

Nothing herein shall be construed to prevent any employee from making complaint or prosecuting his or her own claim for wages. AN ACT concerning health.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Short title. This Act may be cited as the Maternal Mental Health Conditions Education, Early Diagnosis, and Treatment Act.

Section 5. Findings. The General Assembly finds the following:

(1) Maternal depression is a common complication of pregnancy. Maternal mental health disorders encompass a range of mental health conditions, such as depression, anxiety, and postpartum psychosis.

(2) Maternal mental health conditions affect one in five women during or after pregnancy, but all women are at risk of suffering from maternal mental health conditions.

(3) Untreated maternal mental health conditions significantly and negatively impact the short-term and long-term health and well-being of affected women and their children.

(4) Untreated maternal mental health conditions cause adverse birth outcomes, impaired maternal-infant bonding, poor infant growth, childhood emotional and behavioral problems, and significant medical and economic costs, estimated to be $22,500 per mother.

(5) Lack of understanding and social stigma of mental health conditions prevent women and families from understanding the signs, symptoms, and risks involved with maternal mental health conditions and disproportionately affect women who lack access to social support networks.

(6) It is the intent of the General Assembly to raise awareness of the risk factors, signs, symptoms, and treatment options for maternal mental health conditions among pregnant women and their families, the general public, primary health care
providers, and health care providers who care for pregnant women, postpartum women, and newborn infants.

Section 10. Definitions. In this Act:

"Birthing hospital" means a hospital that has an approved obstetric category of service and licensed beds by the Health Facilities and Services Review Board.

"Department" means the Department of Human Services.

"Maternal mental health condition" means a mental health condition that occurs during pregnancy or during the postpartum period and includes, but is not limited to, postpartum depression.

Section 15. Educational materials about maternal mental health conditions. The Department shall develop educational materials for health care professionals and patients about maternal mental health conditions. A birthing hospital shall, on or before January 1, 2021, distribute these materials to employees regularly assigned to work with pregnant or postpartum women and incorporate these materials in any employee training that is related to patient care of pregnant or postpartum women. A birthing hospital shall supplement the materials provided by the Department to include relevant resources to the region or community in which the birthing hospital is located. The educational materials developed under this Section shall include all of the following:

(1) Information for postpartum women and families about maternal mental health conditions, post-hospital treatment options, and community resources.

(2) Information for hospital employees regularly assigned to work in the perinatal unit, including, as appropriate, registered nurses and social workers, about maternal mental health conditions.

(3) Any other service the birthing hospital determines should be included in the program to provide optimal patient care.

Each original application shall be completed by the applicant in full and shall set forth the legal name, residence address and zip code, social security number, birth date, sex and a brief description of the applicant. "Smart contract" means a contract stored as an electronic record which is verified by the use of a blockchain.

(b) In a proceeding, evidence of a smart contract, record, or signature must not be excluded solely because a blockchain was used to create, store, or verify the smart contract, record, or signature.
(c) If a law requires a record to be in writing, submission of a blockchain which electronically contains the record satisfies the law.
(d) If a law requires a signature, submission of a blockchain which electronically contains the signature or verifies the intent of a person to provide the signature satisfies the law.

Section 15. Limitations to the use of blockchain.
(a) If parties have agreed to conduct a transaction by use of a blockchain and a law requires that a contract or other record relating to the transaction be in writing, the legal effect, validity, or enforceability of the contract or other record may be denied if the blockchain containing an electronic record of the transaction is not in a form that is capable of being retained and accurately reproduced for later reference by all parties or other persons who are entitled to retain the contract or other record.
(b) Except as otherwise provided in subsection (f), if a law other than this Act requires a record to be posted or displayed in a certain manner, to be sent, communicated, or transmitted by a specified method, or to contain information that is formatted in a certain manner, the use of a blockchain to post, display, send, communicate, transmit, or store such a record does not satisfy the requirement of the other law.
(c) If a person inhibits the ability of another person to store or retrieve information contained in a blockchain, such information is not enforceable by the person who inhibited the storage or retrieval.

(e) A requirement that a document be in writing is not satisfied by the use of a blockchain if the document is required to accompany any transportation or handling of hazardous materials, pesticides, or other toxic or dangerous materials.

(f) The requirements of this Section may not be varied by agreement, except that:

shall be provided only if required in the child's individualized educational program on the basis of the child's disabling condition or as the special education program location may require.

Beginning with the 2019-2020 school year, a school board shall post on its Internet website, if any, and incorporate into its student handbook or newsletter notice that students with disabilities who do not qualify for an individualized education program, as required by the federal Individuals with Disabilities Education Act and implementing provisions of this Code, may qualify for services under Section 504 of the federal Rehabilitation Act of 1973 if the child (i) has a physical or mental impairment that substantially limits one or more major life activities, (ii) has a record of a physical or mental impairment, or (iii) is regarded as having a physical or mental impairment. Such notice shall identify the location and phone number of the office or agent of the school district to whom inquiries should be directed regarding the identification, assessment and placement of such children.

For a school district organized under Article 34 only, beginning with the 2019-2020 school year, the school district shall, in collaboration with its primary office overseeing special education, publish on the school district's publicly available website any proposed changes to its special education policies, directives, guidelines, or procedures that impact the provision of educational or related services to students with disabilities or the procedural safeguards afforded to students with disabilities or their parents or guardians made by the school district or school board. Any policy, directive, guideline, or procedural change that impacts those provisions or safeguards that is authorized by the school district's primary office overseeing special education or any other administrative office of the school district must be published on the school district's publicly available website no later than 45 days before the adoption of that change. Any policy directive, guideline, or procedural change that impacts those provisions or safeguards that is authorized by the school board must be published on the school district's publicly available website no later than 30 days before the date of presentation to the school board for adoption. The school district's website must allow for virtual public comments on proposed special education policy, directive, guideline, or procedural changes that impact the provision of educational or related services to students with disabilities or the procedural safeguards afforded to students with disabilities or their parents or guardians from the date of the notification of the proposed change on the website until the date the

change is adopted by the school district or until the date the change is presented to the school board for adoption. After the period for public comment is closed, the school district must maintain all public comments for a period of not less than 2 years from the date the special education change is adopted. The public comments are subject to the Freedom of Information Act. The school board shall, at a minimum, advertise the notice of the change and availability for public comment on its website. The State Board of Education may add additional reporting requirements for the district beyond policy, directive, guideline, or procedural changes that impact the provision of educational or related services to students with disabilities or the procedural safeguards afforded to students with disabilities or their parents or guardians if the State Board determines it is in the best interest of the students enrolled in the district receiving special education services.

School boards shall immediately provide upon request by any person written materials and other information that indicates the specific policies, procedures, rules and regulations regarding the identification, evaluation or educational placement of children with disabilities under Section 14-8.02 of the School Code. Such information shall include information regarding all rights and entitlements of such children under this Code, and of the opportunity to present complaints with respect to any matter relating to educational placement of the student, or the provision of a free appropriate public education and to have an impartial due process hearing on the complaint. The notice shall inform the parents or guardian in the parents' or guardian's native language, unless it is clearly not feasible to do so, of their rights and all procedures available pursuant to this Act and federal Public Law 94-142; it shall be the responsibility of the State Superintendent to develop uniform notices setting forth the procedures available under this Act and federal Public Law 94-142, as amended, to be used by all school boards. The notice shall also inform the parents or guardian of the availability upon request of a list of free or low-cost legal and other relevant services available locally to assist parents or guardians in exercising rights or entitlements under this Code. For a school district organized under Article 34 only, the school district must make the entirety of its special education Procedural Manual and any other guidance documents pertaining to special education publicly available, in print and on the school district's website, in both English and Spanish. Upon request, the school district must make the Procedural Manual and other

guidance documents available in print in any other language and accessible for individuals with disabilities.

Any parent or guardian who is deaf, or does not normally communicate using spoken English, who participates in a meeting with a representative of a local educational agency for the purposes of developing an individualized educational program shall be entitled to the services of an interpreter.

No student with a disability or, in a school district organized under Article 34 of this Code, child with a learning disability may be denied promotion, graduation or a general diploma on the basis of failing a minimal competency test when such failure can be directly related to the disabling condition of the student. For the purpose of this Act, "minimal competency testing" is defined as tests which are constructed to measure the acquisition of skills to or beyond a certain defined standard.

Effective July 1, 1966, high school districts are financially responsible for the education of pupils with disabilities who are residents in their districts when such pupils have reached age 15 but may admit children with disabilities into special educational facilities without regard to graduation from the eighth grade after such pupils have reached the age of 14 1/2 years. Upon a pupil with a disability attaining the age of 14 1/2 years, it shall be the duty of the elementary school district in which the pupil resides to notify the high school district in which the pupil resides of the pupil's current eligibility for special education services, of the pupil's current program, and of all evaluation data upon which the current program is based. After an examination of that information the high school district may accept the current placement and all subsequent timelines shall be governed by the current individualized educational program program; or the high school district may elect to conduct its own evaluation and multidisciplinary staff conference and formulate its own individualized educational program, in which case the procedures and timelines contained in Section 14-8.02 shall apply.

Sec. 14-8.02f. Individualized education program meeting protections; municipality with 1,000,000 or more inhabitants.

(a) (Blank). This Section only applies to school districts organized under Article 34 of this Code.

New matter indicated by italics- deletions by strikeout
(b) This subsection (b) applies only to a school district organized under Article 34. No later than 10 calendar days prior to a child's individualized education program meeting or as soon as possible if a meeting is scheduled within 10 calendar days with written parental consent, the school board or school personnel must provide the child's parent or guardian with a written notification of the services that require a specific data collection procedure from the school district for services related to the child's individualized education program. The notification must indicate, with a checkbox, whether specific data has been collected for the child's individualized education program services. For purposes of this subsection (b), individualized education program services must include, but are not limited to, paraprofessional support, an extended school year, transportation, therapeutic day school, and services for specific learning disabilities.

(c) No later than 3 school days prior to a child's individualized education program eligibility meeting or meeting to review a child's individualized education program, or as soon as possible if an individualized education program meeting is scheduled within 3 school days with the written consent of the child's parent or guardian, the local education agency must provide the child's parent or guardian with copies of all written material that will be considered by the individualized education program team at the meeting so that the parent or guardian may participate in the meeting as a fully-informed team member. The written material must include, but is not limited to, all evaluations and collected data that will be considered at the meeting and, for a child who already has an individualized education program, a copy of all individualized education program components that will be discussed by the individualized education program team, other than the components related to the educational and related service minutes proposed for the child and the child's educational placement. As soon as possible if a meeting is scheduled within 5 school days with written parental consent, the school board or school personnel must provide the child's parent or guardian with a draft individualized education program. The draft must contain all relevant information collected about the child and must include, but is not limited to, the program's goals, draft accommodations and modifications, copies of all conducted evaluations, and any collected data.

(d) Local education agencies must make related service logs that record the type of related services administered under the child's individualized education program and the minutes of each type of related
service that has been administered available to the child's parent or
guardian at the annual review of the child's individualized education
program and must also provide a copy of the related service logs at any
time upon request of the child's parent or guardian. The local education
agency must inform the child's parent or guardian within 20 school days
from the beginning of the school year or upon establishment of an
individualized education program of his or her ability to request those
related service logs. If a child's individualized education program team
determines that certain services are required in order for the child to
receive a free, appropriate public education and those services are not
implemented within 10 school days after a date or frequency
set forth by the child's individualized education program the team's
determination, then the local education agency school board shall provide
the child's parent or guardian with written notification that those services
have not yet been administered to the child. The notification must be
provided to the child's parent or guardian within 3 school days of the
local education agency's non-compliance with the child's individualized
education program and must include information on the parent's or
guardian's ability to request compensatory services. In this subsection (d),
"school days" does not include days where a child is absent from school
for reasons unrelated to a lack of individualized education program
services.

(e) The State Board of Education may create a telephone hotline to
address complaints regarding the special education services or lack of
special education services of a school district subject to this Section. If a
hotline is created, it must be available to all students enrolled in the school
district, parents or guardians of those students, and school personnel. If a
hotline is created, any complaints received through the hotline must be
registered and recorded with the State Board's monitor of special education
policies. No student, parent or guardian, or member of school personnel
may be retaliated against for submitting a complaint through a telephone
hotline created by the State Board under this subsection (e).

(f) A school district subject to this Section may not use any
measure that would prevent or delay an individualized education program
team from adding a service to the program or create a time restriction in
which a service is prohibited from being added to the program. The school
district may not build functions into its computer software that would
remove any services from a student's individualized education program

without the approval of the program team and may not prohibit the program team from adding a service to the program.

Sec. 14-8.02g. Response to scientific, research-based intervention.
(a) In this Section, "response to scientific, research-based intervention" or "multi-tiered systems of support" means a tiered process of school support that utilizes differentiated instructional strategies for students, provides students with scientific, research-based interventions, continuously monitors student performance using scientifically, research-based progress monitoring instruments, and makes educational decisions based on a student's response to the interventions. Response to scientific, research-based intervention or multi-tiered systems of support use a problem-solving method to define the problem, analyze the problem using data to determine why there is a discrepancy between what is expected and what is occurring, establish one or more student performance goals, develop an intervention plan to address the performance goals, and delineate how the student's progress will be monitored and how implementation integrity will be ensured.

(b) A school district must utilize response to scientific, research-based intervention or multi-tiered systems of support as part of an evaluation procedure to determine if a child is eligible for special education services due to a specific learning disability. A school district may utilize the data generated during the response to scientific, research-based intervention or multi-tiered systems of support process in an evaluation to determine if a child is eligible for special education services due to any category of disability.

(c) The response to scientific, research-based intervention or multi-tiered systems of support process must involve a collaborative team approach, with the parent or guardian of a student being part of the collaborative team. The parent or guardian of a student must be involved in the data sharing and decision-making processes of support under this Section. The State Board of Education may provide guidance to a school district and identify available resources related to facilitating parental or guardian participation in the response to scientific, research-based intervention or multi-tiered systems of support process.

(d) Nothing in this Section affects the responsibility of a school district to identify, locate, and evaluate children with disabilities who are in need of special education services in accordance with the federal...
Individuals with Disabilities Education Improvement Act of 2004, this Code, or any applicable federal or State rules.

Such rights and privileges may also be exercised by the student at any time with respect to the student's permanent school record.

Sec. 27. School duties.
(a) Each school shall post and maintain on its website or, if the school does not maintain a website, make available for inspection by the general public at its administrative office all of the following information:

(1) An explanation, that is clear and understandable by a layperson, of the data elements of covered information that the school collects, maintains, or discloses to any person, entity, third party, or governmental agency. The information must explain how the school uses, to whom or what entities it discloses, and for what purpose it discloses the covered information.

(2) A list of operators that the school has written agreements with, a copy of each written agreement, and a business address for each operator. A copy of a written agreement posted or made available by a school under this paragraph may contain redactions, as provided under subparagraph (F) of paragraph (4) of Section 15.

(5) A list of any breaches of covered information maintained by the school or breaches under Section 15 that includes, but is not limited to, all of the following information:

(B) The date, estimated date, or estimated date range of the breach.

(C) For a breach under Section 15, the name of the operator.

The school may omit from the list required under this paragraph (5) (i) any breach in which, to the best of the school's knowledge at the time of updating the list, the number of students whose covered information is involved in the breach is less than

New matter indicated by italics- deletions by strikeout
10% of the school's enrollment, (ii) any breach in which, at the time of posting the list, the school is not required to notify the parent of a student under subsection (d), (iii) any breach in which the date, estimated date, or estimated date range in which it occurred is earlier than July 1, 2021, or (iv) any breach previously posted on a list under this paragraph (5) no more than 5 years prior to the school updating the current list.

The school must, at a minimum, update the items under paragraphs (1), (3), (4), and (5) no later than 30 calendar days following the start of a fiscal year and no later than 30 days following the beginning of a calendar year.

(b) Each school must adopt a policy for designating which school employees are authorized to enter into written agreements with operators. This subsection may not be construed to limit individual school employees outside of the scope of their employment from entering into agreements with operators on their own behalf and for non-K through 12 school purposes, provided that no covered information is provided to the operators. Any agreement or contract entered into in violation of this Act is void and unenforceable as against public policy.

(c) A school must post on its website or, if the school does not maintain a website, make available at its administrative office for inspection by the general public each written agreement entered into under this Act, along with any information required under subsection (a), no later than 10 business days after entering into the agreement.

The notification must include, but is not limited to, all of the following:

(1) The date, estimated date, or estimated date range of the breach.

(2) A description of the covered information that was compromised or reasonably believed to have been compromised in the breach.

(3) Information that the parent may use to contact the operator and school to inquire about the breach.

(4) The toll-free numbers, addresses, and websites for consumer reporting agencies.

New matter indicated by italics- deletions by strikeout
(5) The toll-free number, address, and website for the Federal Trade Commission.

(6) A statement that the parent may obtain information from the Federal Trade Commission and consumer reporting agencies about fraud alerts and security freezes.

A notice of breach required under this subsection may be delayed if an appropriate law enforcement agency determines that the notification will interfere with a criminal investigation and provides the school with a written request for a delay of notice. A school must comply with the notification requirements as soon as the notification will no longer interfere with the investigation.

(e) Each school must implement and maintain reasonable security procedures and practices that otherwise meet or exceed industry standards designed to protect covered information from unauthorized access, destruction, use, modification, or disclosure. A brew pub licensee shall not under any circumstance sell or offer for sale beer manufactured by the brew pub licensee to retail licensees.

A person who holds a class 2 brewer license may simultaneously hold a brew pub license if the class 2 brewer (i) does not, under any circumstance, sell or offer for sale beer manufactured by the class 2 brewer to retail licensees; (ii) does not hold more than 3 brew pub licenses in this State; (iii) does not manufacture more than a combined 3,720,000 gallons of beer per year, including the beer manufactured at the brew pub; and (iv) is not a member of or affiliated with, directly or indirectly, a manufacturer that produces more than 3,720,000 gallons of beer per year or any other alcoholic liquor.

(q) A special use permit license shall allow an Illinois licensed retailer to transfer a portion of its alcoholic liquor inventory from its retail licensed premises to the premises specified in the license hereby created, and to sell or offer for sale at retail, only in the premises specified in the license hereby created, the transferred alcoholic liquor for use or consumption, but not for resale in any form. A special use permit license may be granted for the following time periods: one day or less; 2 or more days to a maximum of 15 days per location in any 12-month period. An applicant for the special use permit license must also submit with the application proof satisfactory to the State Commission that the applicant will provide dram shop liability insurance to the maximum limits and have local authority approval.

Prior to receiving a winery shipper's license, an applicant for the license must provide the Commission with a true copy of its current license in any state in which it is licensed as a manufacturer of wine. An applicant for a winery shipper's license must also complete an application form that provides any other information the Commission deems necessary. The application form shall include all addresses from which the applicant for a winery shipper's license intends to ship wine, including the name and address of any third party, except for a common carrier, authorized to ship wine on behalf of the manufacturer. The application form shall include an acknowledgement consenting to the jurisdiction of the Commission, the Illinois Department of Revenue, and the courts of this State concerning the enforcement of this Act and any related laws, rules, and regulations, including authorizing the Department of Revenue and the Commission to conduct audits for the purpose of ensuring compliance with Public Act 95-634, and an acknowledgement that the wine manufacturer is in compliance with Section 6-2 of this Act. licensed to make wine under the laws of another state shall also be
disclosed by the winery shipper's licensee, and a copy of the written
appointment of the third-party wine provider, except for a common carrier,
to the wine manufacturer shall be filed with the State Commission as a
supplement to the winery shipper's license application or any renewal
thereof. The winery shipper's license holder shall affirm under penalty of
perjury, as part of the winery shipper's license application or renewal, that
he or she only ships wine, either directly or indirectly through a third-party
provider, from the licensee's own production.

Except for a common carrier, a third-party provider shipping wine
on behalf of a winery shipper's license holder is the agent of the winery
shipper's license holder and, as such, a winery shipper's license holder is
responsible for the acts and omissions of the third-party provider acting on
behalf of the license holder. A third-party provider, except for a common
carrier, that engages in shipping wine into Illinois on behalf of a winery
shipper's license holder shall consent to the jurisdiction of the State
Commission and the State. Any third-party, except for a common carrier,
holding such an appointment shall, by February 1 of each calendar year
and upon request by the State Commission or the Department of Revenue,
file with the State Commission a statement detailing each shipment made
to an Illinois resident. The statement shall include the name and address of
the third-party provider filing the statement, the time period covered by the
statement, and the following information:

(1) the name, address, and license number of the winery
shipper on whose behalf the shipment was made;
(2) the quantity of the products delivered; and
(3) the date and address of the shipment.

If the Department of Revenue or the State Commission requests a
statement under this paragraph, the third-party provider must provide that
statement no later than 30 days after the request is made. Any books,
records, supporting papers, and documents containing information and
data relating to a statement under this paragraph shall be kept and
preserved for a period of 3 years, unless their destruction sooner is
authorized, in writing, by the Director of Revenue, and shall be open and
available to inspection by the Director of Revenue or the State
Commission or any duly authorized officer, agent, or employee of the
State Commission or the Department of Revenue, at all times during
business hours of the day. Any person who violates any provision of this
paragraph or any rule of the State Commission for the administration and

enforcement of the provisions of this paragraph is guilty of a Class C misdemeanor. In case of a continuing violation, each day's continuance thereof shall be a separate and distinct offense.

The State Commission shall adopt rules as soon as practicable to implement the requirements of Public Act 99-904 and shall adopt rules prohibiting any such third-party appointment of a third-party provider, except for a common carrier, that has been deemed by the State Commission to have violated the provisions of this Act with regard to any winery shipper licensee.

A winery shipper licensee must pay to the Department of Revenue the State liquor gallonage tax under Section 8-1 for all wine that is sold by the licensee and shipped to a person in this State. For the purposes of Section 8-1, a winery shipper licensee shall be taxed in the same manner as a manufacturer of wine. A licensee who is not otherwise required to register under the Retailers' Occupation Tax Act must register under the Use Tax Act to collect and remit use tax to the Department of Revenue for all gallons of wine that are sold by the licensee and shipped to persons in this State. If a licensee fails to remit the tax imposed under this Act in accordance with the provisions of Article VIII of this Act, the winery shipper's license shall be revoked in accordance with the provisions of Article VII of this Act. If a licensee fails to properly register and remit tax under the Use Tax Act or the Retailers' Occupation Tax Act for all wine that is sold by the winery shipper and shipped to persons in this State, the winery shipper's license shall be revoked in accordance with the provisions of Article VII of this Act.

A winery shipper licensee must collect, maintain, and submit to the Commission on a semi-annual basis the total number of cases per resident of wine shipped to residents of this State. A winery shipper licensed under this subsection (r) must comply with the requirements of Section 6-29 of this Act.

Pursuant to paragraph (5.1) or (5.3) of subsection (a) of Section 3-12, the State Commission may receive, respond to, and investigate any complaint and impose any of the remedies specified in paragraph (1) of subsection (a) of Section 3-12.

As used in this subsection, "third-party provider" means any entity that provides fulfillment house services, including warehousing, packaging, distribution, order processing, or shipment of wine, but not the sale of wine, on behalf of a licensed winery shipper.

or importing distributor be interested directly or indirectly or as owner or part owner of said premises or as lessee or lessor thereof, in any premises upon which alcoholic liquor is sold at retail.

No manufacturer or distributor or importing distributor shall, directly or indirectly or through a subsidiary or affiliate, or by any officer, director or firm of such manufacturer, distributor or importing distributor, furnish, give, lend or rent, install, repair or maintain, to or for any retail licensee in this State, any signs or inside advertising materials except as provided in this Section and Section 6-5. With respect to retail licensees, other than any government owned or operated auditorium, exhibition hall, recreation facility or other similar facility holding a retailer's license as described in Section 6-5, a manufacturer, distributor, or importing distributor may furnish, give, lend or rent and erect, install, repair and maintain to or for any retail licensee, for use at any one time in or about or in connection with a retail establishment on which the products of the manufacturer, distributor or importing distributor are sold, the following signs and inside advertising materials as authorized in subparts (i), (ii), (iii), and (iv):

(i) Permanent outside signs shall cost not more than $3,000 per manufacturer, exclusive of erection, installation, repair and maintenance costs, and permit fees and shall bear only the manufacturer's name, brand name, trade name, slogans, markings, trademark, or other symbols commonly associated with and generally used in identifying the product including, but not limited to, "cold beer", "on tap", "carry out", and "packaged liquor".

(ii) Temporary outside signs shall include, but not be limited to, banners, flags, pennants, streamers, and other items of a temporary and non-permanent nature, and shall cost not more than $1,000 per manufacturer. Each temporary outside sign must include the manufacturer's name, brand name, trade name, slogans, markings, trademark, or other symbol commonly associated with and generally used in identifying the product. Temporary outside signs may also include, for example, the product, price, packaging, date or dates of a promotion and an announcement of a retail licensee's specific sponsored event, if the temporary outside sign is intended to promote a product, and provided that the announcement of the retail licensee's event and the product promotion are held simultaneously. However, temporary outside signs may not include names, slogans, markings, or logos that

Nothing in this subpart (ii) shall prohibit a distributor or importing distributor from bearing the cost of creating or printing a temporary outside sign for the retail licensee's specific sponsored event or from bearing the cost of creating or printing a temporary sign for a retail licensee containing, for example, community goodwill expressions, regional sporting event announcements, or seasonal messages, provided that the primary purpose of the temporary outside sign is to highlight, promote, or advertise the product. In addition, temporary outside signs provided by the manufacturer to the distributor or importing distributor may also include, for example, subject to the limitations of this Section, preprinted community goodwill expressions, sporting event announcements, seasonal messages, and manufacturer promotional announcements. However, a distributor or importing distributor shall not bear the cost of such manufacturer preprinted signs.

(iii) Permanent inside signs, whether visible from the outside or the inside of the premises, include, but are not limited to: alcohol lists and menus that may include names, slogans, markings, or logos that relate to the retailer; neons; illuminated signs; clocks; table lamps; mirrors; tap handles; decalcomanias; window painting; and window trim. All neons, illuminated signs, clocks, table lamps, mirrors, and tap handles are the property of the manufacturer and shall be returned to the manufacturer or its agent upon request. All permanent inside signs in place and in use at any one time shall cost in the aggregate not more than $6,000 per manufacturer. A permanent inside sign must include the manufacturer's name, brand name, trade name, slogans, markings, trademark, or other symbol commonly associated with and generally used in identifying the product. However, permanent inside signs may not include names, slogans, markings, or logos that relate to the retailer. For the purpose of this subpart (iii), all permanent inside signs may be displayed in an adjacent courtyard or patio commonly referred to as a "beer garden" that is a part of the retailer's licensed premises.

(iv) Temporary inside signs shall include, but are not limited to, lighted chalk boards, acrylic table tent beverage or hors d'oeuvre list holders, banners, flags, pennants, streamers, and inside advertising materials such as posters, placards, bowling

sheets, table tents, inserts for acrylic table tent beverage or hors d'oeuvre list holders, sports schedules, or similar printed or illustrated materials and product displays, such as display racks, bins, barrels, or similar items, the primary function of which is to temporarily hold and display alcoholic beverages; however, such items, for example, as coasters, trays, napkins, glassware, growlers, crowlers, and cups shall not be deemed to be inside signs or advertising materials and may only be sold to retailers at fair market value, which shall be no less than the cost of the item to the manufacturer, distributor, or importing distributor. All temporary inside signs and inside advertising materials in place and in use at any one time shall cost in the aggregate not more than $1,000 per manufacturer. Nothing in this subpart (iv) prohibits a distributor or importing distributor from paying the cost of printing or creating any temporary inside banner or inserts for acrylic table tent beverage or hors d'oeuvre list holders for a retail licensee, provided that the primary purpose for the banner or insert is to highlight, promote, or advertise the product. For the purpose of this subpart (iv), all temporary inside signs and inside advertising materials may be displayed in an adjacent courtyard or patio commonly referred to as a "beer garden" that is a part of the retailer's licensed premises.

The restrictions contained in this Section 6-6 do not apply to signs, or promotional or advertising materials furnished by manufacturers, distributors or importing distributors to a government owned or operated facility holding a retailer's license as described in Section 6-5.

No distributor or importing distributor shall directly or indirectly or through a subsidiary or affiliate, or by any officer, director or firm of such manufacturer, distributor or importing distributor, furnish, give, lend or rent, install, repair or maintain, to or for any retail licensee in this State, any signs or inside advertising materials described in subparts (i), (ii), (iii), or (iv) of this Section except as the agent for or on behalf of a manufacturer, provided that the total cost of any signs and inside advertising materials including but not limited to labor, erection, installation and permit fees shall be paid by the manufacturer whose product or products said signs and inside advertising materials advertise and except as follows:

maintaining such signs or advertising materials to or for any retail licensee
in this State. Any purchase by a distributor or importing distributor from a

manufacturer or the manufacturer's designated supplier.

A distributor or importing distributor shall be deemed the owner of

A manufacturer, distributor, or importing distributor may furnish
free social media advertising to a retail licensee if the social media

the United States Department of the Treasury. A manufacturer, distributor,
or importing distributor may list the names of one or more unaffiliated
retailers in the advertisement of alcoholic liquor through social media.
Nothing in this Section shall prohibit a retailer from communicating with a
manufacturer, distributor, or importing distributor on social media or
sharing media on the social media of a manufacturer, distributor, or

from a manufacturer, distributor, or importing distributor. Nothing in this
Section shall prohibit a manufacturer, distributor, or importing distributor
from sharing, reposting, or otherwise forwarding a social media post by a
retail licensee, so long as the sharing, reposting, or forwarding of the social
media post does not contain the retail price of any alcoholic liquor. No
manufacturer, distributor, or importing distributor shall pay or reimburse a
retailer, directly or indirectly, for any social media advertising services,
except as specifically permitted in this Act. No retailer shall accept any

No person engaged in the business of manufacturing, importing or distributing alcoholic liquors shall, directly or indirectly, pay for, or advance, furnish, or lend money for the payment of any license for another. Any licensee who shall permit or assent, or be a party in any way to any violation or infringement of the provisions of this Section shall be deemed guilty of a violation of this Act, and any money loaned contrary to a provision of this Act shall not be recovered back, or any note, mortgage or other evidence of indebtedness, or security, or any lease or contract obtained or made contrary to this Act shall be unenforceable and void.

"Housing provider" means any owner, housing provider, property management company, property manager, government entity, condominium board, condominium association, cooperative, or related entity, and any agent or employee thereof, engaged in the selling, leasing, management, control, or governance of residential housing.

"Reasonable accommodation" has the meaning provided under the federal Fair Housing Act or the Illinois Human Rights Act.

"Therapeutic relationship" means the provision of medical care, program care, or personal care services, in good faith, for and with actual knowledge of, an individual's disability and that individual's disability-related need for an assistance animal by: (1) a physician or other medical professional; (2) a mental health service provider; or (3) a non-medical

service agency or reliable third party who is in a position to know about the individual's disability. "Therapeutic relationship" does not include an entity that issues a certificate, license, or similar document that purports to confirm, without conducting a meaningful assessment of a person's disability or a person's disability-related need for an assistance animal, that a person: (a) has a disability; or (b) needs an assistance animal.

Section 10. Documentation of disability and disability-related need.

(a) A housing provider who receives a request from a person to make an exception to the housing provider's policy prohibiting or restricting animals on the housing provider's property because the person requires the use of an assistance animal may require the person to produce reliable documentation of the disability and disability-related need for the animal only if the disability or disability-related need is not readily apparent or known to the housing provider. A housing provider may ask a person to make the request on a standardized form, but cannot deny the request because the person did not use the form to submit documentation that meets the requirements of subsection (b). A housing provider receiving a request for more than one assistance animal may request documentation under subsection (b) that establishes the disability-related need for each animal, unless the need for an animal is apparent.

(b) Any documentation that a person has a disability and requires the use of an assistance animal as a reasonable accommodation in housing under the federal Fair Housing Act or the Illinois Human Rights Act shall:

(1) be in writing;
(2) be made by a person with whom the individual requesting an accommodation has a therapeutic relationship; and
(3) describe the individual's disability-related need for the assistance animal.

(c) A housing provider may deny a documented request for an accommodation or rescind a granted request under this Act if:

(1) the accommodation imposes either: (i) an undue financial and administrative burden; or (ii) a fundamental alteration to the nature of the operations of the housing provider; or
(2) after conducting an individualized assessment, there is reliable objective evidence that the specific assistance animal: (i) poses a direct threat to the health or safety of others that cannot be reduced or eliminated by another reasonable accommodation; (ii) causes substantial physical damage to the property of others that cannot be reduced or eliminated by another reasonable accommodation.
accommodation; or (iii) has engaged in a pattern of uncontrolled behavior that its handler has not taken effective action to correct.

(d) A housing provider may require additional supporting documentation of a person's disability or need for the assistance animal only if the initial documentation provided does not satisfy subsection (b). If the initial documentation is insufficient to show the existence of the therapeutic relationship required under subsection (b), a housing provider may request additional information describing the professional relationship between the person and the individual with a disability.

(e) A housing provider may consider the documented disability-related needs of other residents on the property when evaluating the reasonableness of the request for the assistance animal. However, a housing provider may not deny an assistance animal solely due to the disability-related needs of another resident; rather, a housing provider must attempt to balance the disability-related needs of all residents.

(f) A housing provider may require a resident to cover the costs of repairs for damage the animal causes to the resident's dwelling unit or the common areas, reasonable wear and tear excepted, in the same manner it would for damage caused by any other resident; however, a housing provider may not require a resident to pay a pet-related deposit, pet fee, or related pet assessment, even if the housing provider allows pets and requires pet owners to pay such costs. A housing provider also may not require a resident with an assistance animal to procure special liability insurance or coverage for the assistance animal.

(g) Nothing in this Act shall be construed as requiring documentation of a specific diagnosis regarding a disability or disability-related need.

(h) Nothing in this Act prohibits a housing provider from verifying the authenticity the documentation submitted under subsection (b).

Section 15. Immunity. Notwithstanding any other provision of law to the contrary, a housing provider shall not be liable for injuries caused by a person's assistance animal permitted on the housing provider's property as a reasonable accommodation to assist the person with a disability under the Fair Housing Act, Section 504 of the Rehabilitation Act of 1973, the Illinois Human Rights Act, or any other federal, State, or local law.

Section 20. Rights under other Acts. Nothing in this Act shall be construed to: (1) limit individuals' rights under the Fair Housing Act, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, the Illinois Human Rights Act, or any other federal, State,
or local civil rights law; or (2) limit the liability of housing providers under such laws.

Effective January 1, 2020.

(b) If a referendum passed under subsection (a) at the November 6, 2018 election and a road district has not been abolished as provided in subsection (a) by the effective date of this amendatory Act of the 101st General Assembly:

(1) the township board shall have the sole authority relating to the following duties and powers of the road district until the date of abolition:

The referendum shall be submitted to the electors of that township at the next general election or consolidated election in accordance with the general election law. The ballot shall be in substantially the following form:

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 2. Definitions. In this Act:
(1) "Ascendant" means an individual who precedes another individual in lineage, in the direct line of ascent from the other individual.
(2) "Collateral" means an individual who is related to another individual under the law of intestate succession of this State but who is not the other individual's ascendant or descendant.

(4) "Determination of value" means a court order determining the fair market value of heirs property under Section 6 or 10 or adopting the valuation of the property agreed to by all cotenants.
(5) "Heirs property" means real property held in tenancy in common which satisfies all of the following requirements as of the filing of a partition action:
   (A) there is no agreement in a record binding all the cotenants which governs the partition of the property;
   (B) one or more of the cotenants acquired title from a relative or, if a cotenant is an entity, from a relative of a beneficiary, shareholder, partner, or member of the entity, whether such relative is living or deceased; and
   (C) Any of the following applies:

New matter indicated by italics - deletions by strikeout
(i) 20 percent or more of the interests are held by cotenants who are relatives;
(ii) 20 percent or more of the interests are held by a cotenant who acquired title from a relative, whether living or deceased; or
(iii) 20 percent or more of the cotenants are relatives.

(6) "Fair market value" means the cash price at which the heirs property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of the relevant facts.

(7) "Partition by sale" means a court-ordered sale of all or a portion of the heirs property conducted under Section 10.

(8) "Partition in kind" means the division of heirs property into physically distinct and separately titled parcels.

(9) "Record" means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

Section 3. Applicability; relation to other law.

(a) This Act applies to partition actions filed on or after the effective date of this Act.

(b) In an action to partition real property under Article XVII of the Code of Civil Procedure the court shall determine whether the property is heirs property. If the court determines that the property is heirs property, the property must be partitioned under this Act unless all of the cotenants otherwise agree in a record.

(c) This Act supplements Article XVII of the Code of Civil Procedure and, if an action is governed by this Act, replaces provisions of Article XVII of the Code of Civil Procedure that are inconsistent with this Act.

Section 4. Service; notice by posting.

(a) This Act does not limit or affect the method by which service of a complaint in a partition action may be made.

(b) If the plaintiff in a partition action seeks an order of notice by publication and the court determines that the property may be heirs property, the plaintiff, not later than 10 days after the court's order, shall prepare and file a notice for publication.
determination, shall post and maintain while the action is pending a conspicuous sign on the property that is the subject of the action. The sign must state that the action has commenced and identify the name and address of the court and the common designation by which the property is known. The court may require the plaintiff to publish on the sign the name of the plaintiff and the known defendants.

Section 5. Commissioners. If the court appoints a commissioner pursuant to Article XVII of the Code of Civil Procedure, the commissioner, in addition to the requirements and disqualifications applicable to commissioners in Article XVII of the Code of Civil Procedure, must be disinterested and impartial and not a party to or a participant in the action.

Section 6. Determination of value.

(a) Except as otherwise provided in subsections (b) and (c), if the court determines that the property that is the subject of a partition action is heirs property, the court shall determine the fair market value of the property by ordering an appraisal pursuant to subsection (d).

(b) If all cotenants have agreed to the value of the property or to another method of valuation, the court shall adopt that value or the value produced by the agreed method of valuation.

(c) If the court determines that the evidentiary value of an appraisal is outweighed by the cost of the appraisal, the court, after an evidentiary hearing, shall determine the fair market value of the property and shall order the plaintiff to send notice to the parties of the value.

(d) If the court orders an appraisal, the court shall appoint a disinterested real estate appraiser licensed in this State to determine the fair market value of the property assuming sole ownership of the fee simple estate. On completion of the appraisal, the appraiser shall file a sworn or verified appraisal with the court.

(e) If an appraisal is conducted pursuant to subsection (d), not later than 10 days after the appraisal is filed, the court shall order the plaintiff to send notice to each party with a known address, stating:

(1) the appraised fair market value of the property;
(2) that the appraisal is available at the clerk's office; and
(3) that a party may file with the court an objection to the appraisal not later than 30 days after the notice is sent, stating the grounds for the objection.

(f) If an appraisal is filed with the court pursuant to subsection (d), the court shall conduct a hearing to determine the fair market value of the
property not sooner than 30 days after a copy of the notice of the appraisal is sent to each party under subsection (e), whether or not an objection to the appraisal is filed under subsection (e)(3). In addition to the court-ordered appraisal, the court may consider any other evidence of value offered by a party.

(g) After a hearing under subsection (f), but before considering the merits of the partition action, the court shall determine the fair market value of the property and order the plaintiff to send notice to all of the parties of the value and a cotenant's buyout rights as provided in Section 7.

Section 7. Cotenant buyout.

(a) If any cotenant requested partition by sale, after the determination of value under Section 6, the court shall order the plaintiff to send notice to the parties that any cotenant except a cotenant that requested partition by sale may buy all the interests of the cotenants that requested partition by sale.

(b) Not later than 45 days after the notice is sent under subsection (a), any cotenant except a cotenant that requested partition by sale may give notice to the court that it elects to buy all the interests of the cotenants that requested partition by sale.

(c) The purchase price for each of the interests of a cotenant that requested partition by sale is the value of the entire parcel determined under Section 6 multiplied by the cotenant's fractional ownership of the entire parcel.

(d) After expiration of the period in subsection (b), the following rules apply:

(1) If only one cotenant elects to buy all the interests of the cotenants that requested partition by sale, the court shall notify all the parties of that fact.

(2) If more than one cotenant elects to buy all the interests of the cotenants that requested partition by sale, the court shall allocate the right to buy those interests among the electing cotenants based on each electing cotenant's existing fractional ownership of the entire parcel divided by the total existing fractional ownership of all cotenants electing to buy and send notice to all the parties of that fact and of the price to be paid by each electing cotenant.

(3) If no cotenant elects to buy all the interests of the cotenants that requested partition by sale, the court shall order the
plaintiff to send notice to all the parties of that fact and resolve the partition action under Section 8(a) and (b).

(e) If the court sends notice to the parties under subsection (d)(1) or (2), the court shall set a date, not sooner than 60 days after the date the notice was sent, by which electing cotenants must pay their apportioned price to the clerk of court or as otherwise ordered by the court. After this date, the following rules apply:

(1) If all electing cotenants timely pay their apportioned price to the clerk of court or as otherwise ordered by the court, the court shall issue an order reallocating all the interests of the cotenants and disburse the amounts held to the persons entitled to them.

(2) If no electing cotenant timely pays its apportioned price, the court shall resolve the partition action under Section 8(a) and (b) as if the interests of the cotenants that requested partition by sale were not purchased.

(3) If one or more but not all of the electing cotenants fail to pay their apportioned price on time, the court, on motion, shall order the plaintiff to give notice to the electing cotenants that paid their apportioned price of the interest remaining and the price for all that interest.

(f) Not later than 20 days after the court gives notice pursuant to subsection (e)(3), any cotenant that paid may elect to purchase all of the remaining interest by paying the entire price into the court. After the 20-day period, the following rules apply:

(1) If only one cotenant pays the entire price for the remaining interest, the court shall issue an order reallocating the remaining interest to that cotenant. The court shall issue promptly an order reallocating the interests of all of the cotenants and disburse the amounts held to the persons entitled to them.

(2) If no cotenant pays the entire price for the remaining interest, the court shall resolve the partition action under Section 8(a) and (b) as if the interests of the cotenants that requested partition by sale were not purchased.

(3) If more than one cotenant pays the entire price for the remaining interest, the court shall reapportion the remaining interest among those paying cotenants, based on each paying cotenant's original fractional ownership of the entire parcel divided by the total original fractional ownership of all cotenants that paid.
the entire price for the remaining interest. The court shall issue promptly an order reallocating all of the cotenants' interests, disburse the amounts held to the persons entitled to them, and promptly refund any excess payment held by the clerk of court or as ordered by the court.

(g) Not later than 45 days after notice is sent to the parties pursuant to subsection (a), any cotenant entitled to buy an interest under this section may request the court to authorize the sale as part of the pending action of the interests of cotenants named as defendants and served with the complaint but that did not appear in the action.

(h) If the court receives a timely request under subsection (g), the court, after hearing, may deny the request or authorize the requested additional sale on such terms as the court determines are fair and reasonable, subject to the following limitations:

(1) a sale authorized under this subsection may occur only after the purchase prices for all interests subject to sale under subsections (a) through (f) have been paid into court and those interests have been reallocated among the cotenants as provided in those subsections; and

(2) the purchase price for the interest of a nonappearing cotenant is based on the court's determination of value under Section 6.

Section 8. Partition alternatives.

(a) If all the interests of all cotenants that requested partition by sale are not purchased by other cotenants pursuant to Section 7, or if after conclusion of the buyout under Section 7, a cotenant remains that has requested partition in kind, the court shall order partition in kind unless the court, after consideration of the factors listed in Section 9, finds that partition in kind will result in manifest prejudice to the cotenants as a group. In considering whether to order partition in kind, the court shall approve a request by two or more parties to have their individual interests aggregated.

(b) If the court does not order partition in kind under subsection (a), the court shall order partition by sale pursuant to Section 10 or, if no cotenant requested partition by sale, the court shall dismiss the action.

(c) If the court orders partition in kind pursuant to subsection (a), the court may require that one or more cotenants pay one or more other cotenants amounts so that the payments, taken together with the value of

New matter indicated by italics - deletions by strikeout
the in-kind distributions to the cotenants, will make the partition in kind just and proportionate in value to the fractional interests held.

(d) If the court orders partition in kind, the court shall allocate to the cotenants that are unknown, unlocatable, or the subject of a default judgment, if their interests were not bought out pursuant to Section 7, a part of the property representing the combined interests of those cotenants as determined by the court.

Section 9. Consideration for partition in kind.
(a) In determining under Section 8(a) whether partition in kind would result in manifest prejudice to the cotenants as a group, the court shall consider the following:

(1) whether the heirs property practicably can be divided among the cotenants;

(2) whether partition in kind would apportion the property in such a way that the aggregate fair market value of the parcels resulting from the division would be materially less than the value of the property if it were sold as a whole, taking into account the condition under which a court-ordered sale likely would occur;

(3) evidence of the collective duration of ownership or possession of the property by a cotenant and one or more predecessors in title or predecessors in possession to the cotenant who are or were relatives of the cotenant or each other;

(4) a cotenant's sentimental attachment to the property, including any attachment arising because the property has ancestral or other unique or special value to the cotenant;

(5) the lawful use being made of the property by a cotenant and the degree to which the cotenant would be harmed if the cotenant could not continue the same use of the property;

(6) the degree to which the cotenants have contributed their pro rata share of the property taxes, insurance, and other expenses associated with maintaining ownership of the property or have contributed to the physical improvement, maintenance, or upkeep of the property;

(7) the tax consequences; and

(8) any other relevant factor.

(b) The court may not consider any one factor in subsection (a) to be dispositive without weighing the totality of all relevant factors and circumstances.

Section 10. Open-market sale, sealed bids, or auction.

New matter indicated by italics - deletions by strikeout
(a) If the court orders a sale of heirs property, the sale must be an open-market sale unless the court finds that a sale by sealed bids or an auction would be more economically advantageous and in the best interest of the cotenants as a group.

(b) If the court orders an open-market sale and the parties, not later than 10 days after the entry of the order, agree on a real estate broker licensed in this State to offer the property for sale, the court shall appoint the broker and establish a reasonable commission. If the parties do not agree on a broker, the court shall appoint a disinterested real estate broker licensed in this State to offer the property for sale and shall establish a reasonable commission. The broker shall offer the property for sale in a commercially reasonable manner at a price no lower than the determination of value and on the terms and conditions established by the court.

(c) If the broker appointed under subsection (b) obtains within a reasonable time an offer to purchase the property for at least the determination of value:

(1) the broker shall comply with the reporting requirements in Section 11; and

(2) the sale may be completed in accordance with state law other than this Act.

(d) If the broker appointed under subsection (b) does not obtain within a reasonable time an offer to purchase the property for at least the determination of value, the court, after hearing, may:

(1) approve the highest outstanding offer, if any;

(2) redetermine the value of the property and order that the property continue to be offered for an additional time; or

(3) order that the property be sold by sealed bids or at an auction.

(e) If the court orders a sale by sealed bids or an auction, the court shall set terms and conditions of the sale. If the court orders an auction, the auction must be conducted under Article XVII of the Code of Civil Procedure.

(f) If a purchaser is entitled to a share of the proceeds of the sale, the purchaser is entitled to a credit against the price in an amount equal to the purchaser's share of the proceeds.

(a) Unless required to do so within a shorter time by Article XVII of the Code of Civil Procedure, a broker appointed under Section 10(b) to
offer heirs property for open-market sale shall file a report with the court not later than seven days after receiving an offer to purchase the property for at least the value determined under Section 6 or 10.

(b) The report required by subsection (a) must contain the following information:

(1) a description of the property to be sold to each buyer;
(2) the name of each buyer;
(3) the proposed purchase price;
(4) the terms and conditions of the proposed sale, including the terms of any owner financing;
(5) the amounts to be paid to lienholders;
(6) a statement of contractual or other arrangements or conditions of the broker's commission; and
(7) other material facts relevant to the sale.

Section 12. Costs. In all proceedings for the partition of heirs property, the court shall apportion the costs of the proceedings, including a reasonable fee for the plaintiff's attorney, among the parties in interest in the action, as the court deems just and equitable. In determining the just and equitable apportionment of the costs and attorney's fees, the court may consider, among other things, the good faith attempt of the parties to agree prior to the initiation of the complaint. If any defendant interposes a good and substantial defense to the complaint, the party or parties making such substantial defense shall recover their costs against the plaintiff according to justice and equity.

Section 60. The Code of Civil Procedure is amended by changing Sections 17-101, 17-102, 17-105, and 17-106 as follows:

Sec. 17-101. Compelling partition. When lands, tenements, or hereditaments are held in joint tenancy or tenancy in common, other than in accordance with the Uniform Partition of Heirs Property Act, or other form of co-ownership and regardless of whether any or all of the claimants are minors or adults, any one or more of the persons interested therein may compel a partition thereof by a verified complaint in the circuit court of the county where the premises or part of the premises are situated. If lands, tenements or hereditaments held in joint tenancy or tenancy in common are situated in 2 or more counties, the venue may be in any one of such counties, and the circuit court of any such county first acquiring jurisdiction shall retain sole and exclusive jurisdiction. Ownership of an interest in the surface of lands, tenements, or hereditaments by a co-owner

of an interest in minerals underlying the surface does not prevent partition of the mineral estate. This amendatory Act of the 92nd General Assembly is a declaration of existing law and is intended to remove any possible conflicts or ambiguities, thereby confirming existing law pertinent to the partition of interests in minerals and applies to all actions for the partition of minerals now pending or filed on or after the effective date of this amendatory Act of the 92nd General Assembly. Nothing in this amendatory Act of the 92nd General Assembly shall be construed as allowing an owner of a mineral interest in coal to mine and remove the coal by the surface method of mining without first obtaining the consent of all of the owners of the surface to the mining and removal of coal by the surface method of mining. Ownership of an interest in minerals by a co-owner of an interest in the surface does not prevent partition of the surface. The ownership of an interest in some, but not all, of the mineral estate by a co-owner of an interest in other minerals does not prevent the partition of the co-owned mineral estate.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Pension Code is amended by adding Section 4-110.2 and by changing Section 4-118 as follows:

(40 ILCS 5/4-110.2 new)

Sec. 4-110.2. Secondary employer injury and exposure reporting. The fire chief of a secondary employer, as described in Section 4-118, shall report any injury, illness, or exposure incurred by a secondary employee during his or her employment to the primary employer's pension fund within 96 hours from the time of the occurrence. The reporting requirements shall be consistent with the recommendations found in Chapters 4, 13, and 14 of the NFPA 1500 Standard on Fire Department Occupational Safety, Health, and Wellness Program.

(40 ILCS 5/4-118) (from Ch. 108 1/2, par. 4-118)

Sec. 4-118. Financing.

(a) The city council or the board of trustees of the municipality shall annually levy a tax upon all the taxable property of the municipality at the rate on the dollar which will produce an amount which, when added to the deductions from the salaries or wages of firefighters and revenues available from other sources, will equal a sum sufficient to meet the annual actuarial requirements of the pension fund, as determined by an enrolled actuary employed by the Illinois Department of Insurance or by an enrolled actuary retained by the pension fund or municipality. For the purposes of this Section, the annual actuarial requirements of the pension fund are equal to (1) the normal cost of the pension fund, or 17.5% of the

salaries and wages to be paid to firefighters for the year involved, whichever is greater, plus (2) an annual amount sufficient to bring the total assets of the pension fund up to 90% of the total actuarial liabilities of the pension fund by the end of municipal fiscal year 2040, as annually updated and determined by an enrolled actuary employed by the Illinois Department of Insurance or by an enrolled actuary retained by the pension fund or the municipality. In making these determinations, the required minimum employer contribution shall be calculated each year as a level percentage of payroll over the years remaining up to and including fiscal year 2040 and shall be determined under the projected unit credit actuarial cost method. The amount to be applied towards the amortization of the unfunded accrued liability in any year shall not be less than the annual amount required to amortize the unfunded accrued liability, including interest, as a level percentage of payroll over the number of years remaining in the 40 year amortization period.

(a-2) A municipality that has established a pension fund under this Article and who employs a full-time firefighter, as defined in Section 4-106, shall be deemed a primary employer with respect to that full-time firefighter. Any municipality of 5,000 or more inhabitants that employs or enrolls a firefighter while that firefighter continues to earn service credit as a participant in a primary employer's pension fund under this Article shall be deemed a secondary employer and such employees shall be deemed to be secondary employee firefighters. To ensure that the primary employer's pension fund under this Article is aware of additional liabilities and risks to which firefighters are exposed when performing work as firefighters for secondary employers, a secondary employer shall annually prepare a report accounting for all hours worked by and wages and salaries paid to the secondary employee firefighters it receives services from or employs for each fiscal year in which such firefighters are employed and transmit a certified copy of that report to the primary employer's pension fund and the secondary employee firefighter no later than 30 days after the end of any fiscal year in which wages were paid to the secondary employee firefighters.

Nothing in this Section shall be construed to allow a secondary employee to qualify for benefits or creditable service for employment as a firefighter for a secondary employer.

(a-5) For purposes of determining the required employer contribution to a pension fund, the value of the pension fund's assets shall

be equal to the actuarial value of the pension fund's assets, which shall be calculated as follows:

(1) On March 30, 2011, the actuarial value of a pension fund's assets shall be equal to the market value of the assets as of that date.

(2) In determining the actuarial value of the pension fund's assets for fiscal years after March 30, 2011, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(b) The tax shall be levied and collected in the same manner as the general taxes of the municipality, and shall be in addition to all other taxes now or hereafter authorized to be levied upon all property within the municipality, and in addition to the amount authorized to be levied for general purposes, under Section 8-3-1 of the Illinois Municipal Code or under Section 14 of the Fire Protection District Act. The tax shall be forwarded directly to the treasurer of the board within 30 business days of receipt by the county (or, in the case of amounts added to the tax levy under subsection (f), used by the municipality to pay the employer contributions required under subsection (b-1) of Section 15-155 of this Code).

(b-5) If a participating municipality fails to transmit to the fund contributions required of it under this Article for more than 90 days after the payment of those contributions is due, the fund may, after giving notice to the municipality, certify to the State Comptroller the amounts of the delinquent payments in accordance with any applicable rules of the Comptroller, and the Comptroller must, beginning in fiscal year 2016, deduct and remit to the fund the certified amounts or a portion of those amounts from the following proportions of payments of State funds to the municipality:

(1) in fiscal year 2016, one-third of the total amount of any payments of State funds to the municipality;

(2) in fiscal year 2017, two-thirds of the total amount of any payments of State funds to the municipality; and

(3) in fiscal year 2018 and each fiscal year thereafter, the total amount of any payments of State funds to the municipality.

The State Comptroller may not deduct from any payments of State funds to the municipality more than the amount of delinquent payments certified to the State Comptroller by the fund.

(c) The board shall make available to the membership and the general public for inspection and copying at reasonable times the most recent Actuarial Valuation Balance Sheet and Tax Levy Requirement issued to the fund by the Department of Insurance.

(d) The firefighters' pension fund shall consist of the following moneys which shall be set apart by the treasurer of the municipality: (1) all moneys derived from the taxes levied hereunder; (2) contributions by firefighters as provided under Section 4-118.1; (3) all rewards in money, fees, gifts, and emoluments that may be paid or given for or on account of extraordinary service by the fire department or any member thereof, except when allowed to be retained by competitive awards; and (4) any money, real estate or personal property received by the board.

(e) For the purposes of this Section, "enrolled actuary" means an actuary: (1) who is a member of the Society of Actuaries or the American Academy of Actuaries; and (2) who is enrolled under Subtitle C of Title III of the Employee Retirement Income Security Act of 1974, or who has been engaged in providing actuarial services to one or more public retirement systems for a period of at least 3 years as of July 1, 1983.

(f) The corporate authorities of a municipality that employs a person who is described in subdivision (d) of Section 4-106 may add to the tax levy otherwise provided for in this Section an amount equal to the projected cost of the employer contributions required to be paid by the municipality to the State Universities Retirement System under subsection (b-1) of Section 15-155 of this Code.

(g) The Commission on Government Forecasting and Accountability shall conduct a study of all funds established under this Article and shall report its findings to the General Assembly on or before January 1, 2013. To the fullest extent possible, the study shall include, but not be limited to, the following:

3. the actuarial formulas used as a basis for employer contributions, including the actual assumed rate of return for each year, for each fund;
4. available contribution funding sources;
5. the impact of any revenue limitations caused by PTELL and employer home rule or non-home rule status; and
6. existing statutory funding compliance procedures and funding enforcement mechanisms for all municipal pension funds.

No names so withdrawn shall be certified or printed on the primary ballot. If petitions for nomination have been filed for the same person with respect to more than one political party, his name shall not be certified nor printed on the primary ballot of any party. If petitions for nomination have been filed for the same person for 2 or more offices which are incompatible so that the same person could not serve in more than one of such offices if elected, that person must withdraw as a candidate for all but one of such offices within the 5 business days following the last day for petition filing. A candidate in a judicial election may file petitions for nomination for only one vacancy in a subcircuit and only one vacancy in a circuit in any one filing period, and if petitions for nomination have been filed for the same person for 2 or more vacancies in the same circuit or subcircuit in the same filing period, his or her name shall be certified only for the first vacancy for which the petitions for nomination were filed. Whenever a political party's nomination of candidates is uncontested as to one or more, but not all, of the offices to be voted upon by the electors of a township, municipality, or ward thereof, then a primary shall be held for that party in such township, municipality, or ward thereof; provided that the primary ballot shall not include those offices within such township, municipality, or ward thereof, for which the nomination is uncontested. For purposes of this Article,
the nomination of an established political party of a candidate for election to an office shall be deemed to be uncontested where not more than the number of persons to be nominated have timely filed valid nomination papers seeking the nomination of such party for election to such office.

(b) Notwithstanding the provisions of any other statute, no primary election shall be held for an established political party for any special primary election called for the purpose of filling a vacancy in the office of representative in the United States Congress where the nomination of such political party for said office is uncontested. For the purposes of this Article, the nomination of an established political party of a candidate for election to said office shall be deemed to be uncontested where not more than the number of persons to be nominated have timely filed valid nomination papers seeking the nomination of such established party for election to said office. This subsection (b) shall not apply if such primary election is conducted on a regularly scheduled election day.

(c) Notwithstanding the provisions in subparagraph (a) and (b) of this paragraph (10), whenever a person who has not timely filed valid nomination papers and who intends to become a write-in candidate for a political party's nomination for any office for which the nomination is uncontested files a written statement or notice of that intent with the State Board of Elections or the local election official with whom nomination papers for such office are filed, a primary ballot shall be prepared and a primary shall be held for that office. Such statement or notice shall be filed on or before the date established in this Article for certifying candidates for the primary ballot. Such statement or notice shall contain (i) the name and address of the person intending to become a write-in candidate, (ii) a statement that the person is a qualified primary elector of the political party from whom the nomination is sought, (iii) a statement that the person intends to become a write-in candidate for the party's nomination, and (iv) the office the person is seeking as a write-in candidate. An election authority shall have no duty to conduct a primary and prepare a primary ballot for any office for which the nomination is uncontested unless a statement or notice meeting the requirements of this Section is filed in a timely manner.

If the candidate notifies the State Board of Elections, appropriate election authority or local election official, the last set of petitions filed shall be the only petitions to be considered valid by the State Board of Elections, election authority or local election official. The election of trustees shall be in accordance with Section 2A-1.1 of the Election Code. Any board member serving on the effective date of this amendatory Act of the 101st General Assembly whose term does not expire in 2021 shall serve until his or her successor is elected and qualified. The board of trustees of the Fox Metro Water Reclamation District shall: on or before January 1, 2020, divide the Fox Metro Water Reclamation District into 5 trustee districts and assign the trustee districts to reflect the results of the most recent federal decennial census; and thereafter, in the year following each decennial census, redistrict the trustee districts to reflect the results of the most recent census. The board of trustees shall consist of 1 elected trustee in each trustee district. A petition for nomination for election of a trustee of the Fox Metro Water Reclamation District shall contain at least 100 signatures of registered voters residing within the Fox Metro Water Reclamation District. The trustees shall be elected for staggered terms at the election as provided by the Election Code. Two trustees shall be elected at the 2021 election, and 3 trustees shall be elected at the following consolidated election. Elected trustees shall take office on the first Tuesday after the first Monday in the month following the month of their election and shall hold their offices for 4 years and until their successors are elected and qualified. District, publish notification of the vacancy on the District's website, and send notification of the vacancy to local newspapers, radio stations, and television stations; (ii) each notification published or sent shall contain instructions on how to apply to the District Manager for the vacant trustee position; (iii) applications for the vacancy shall be accepted for at least 30 days after the date the notification of the vacancy was published and sent; (iv) applications for the vacancy shall include a letter of interest and resume; (v) once the application period has closed, the District Manager shall forward all applications received to the State legislators notified of the vacancy in item (i); (vi) the President of the board of trustees and the District Manager shall hold a public meeting with the State legislators notified of the vacancy to review all applications and, by unanimous vote of all State legislators representing any portion of the District, select a candidate to fill the trustee vacancy; and (vii) the board of trustees shall appoint the selected candidate at the next board of trustees meeting. If a vacancy exists after the 2021 election on the board of trustees of the Fox Metro Water Reclamation District, the vacancy shall be filled by appointment by the president of the board of trustees, with the advice and consent of the members of the board of trustees, until the next regular election at which trustees of the district are elected, and shall be made a matter of record in the office of the county clerk in the county where the district is located; for a vacancy filled by appointment, the portion of the unexpired term remaining after the next regular election at which trustees of the district are elected shall be filled by election, as provided for in this paragraph.

Within 60 days after the release of Federal census statistics showing that a sanitary district having a 3 member board of trustees contains one or more municipalities with a population over 90,000 but less than 500,000, or, for the Northern Moraine Wastewater Reclamation District, within 60 days after the effective date of this amendatory Act of the 95th General Assembly, the appropriate appointing authority shall appoint 2 additional trustees to the board of trustees, one to hold office for 2 years and one to hold office for 3 years from the first Monday of May next after their appointment and until their successors are appointed and have qualified. The lengths of the terms of these two additional members shall be determined by lot at the first meeting of the board of trustees held after the additional members take office. The three trustees already holding office in the sanitary district shall continue to hold office for the remainders of their respective terms. Thereafter, on or before the second
Monday in April of each year the appropriate appointing authority shall appoint one trustee or 2 trustees, as shall be necessary to maintain a 5 member board of trustees, whose terms shall be for 3 years commencing the first Monday in May of the year in which they are respectively appointed.

If any sanitary district having a 5 member board of trustees shall cease to contain one or more municipalities with a population over 90,000 but less than 500,000 according to the most recent Federal census, then, for so long as that sanitary district does not contain one or more such municipalities, on or before the second Monday in April of each year the appropriate appointing authority shall appoint one trustee whose term shall be for 3 years commencing the first Monday in May of the year in which he is appointed. In districts which include 2 or more incorporated cities, towns, or villages, or parts of 2 or more incorporated cities, towns, or villages, all of the trustees shall not be from one incorporated city, town or village.

If a vacancy occurs on any board of trustees, the appropriate appointing authority shall within 60 days appoint a trustee who shall hold office for the remainder of the vacated term.

The appointing authority shall require each of the trustees to enter into bond, with security to be approved by the appointing authority, in such sum as the appointing authority may determine.

A majority of the board of trustees shall constitute a quorum but a smaller number may adjourn from day to day. No trustee or employee of such district shall be directly or indirectly interested in any contract, work or business of the district, or the sale of any article, the expense, price or consideration of which is paid by such district; nor in the purchase of any real estate or property belonging to the district, or which shall be sold for taxes or assessments, or by virtue of legal process at the suit of the district. Provided, that nothing herein shall be construed as prohibiting the appointment or selection of any person as trustee or employee whose only interest in the district is as owner of real estate in the district or of contributing to the payment of taxes levied by the district. The trustees shall have the power to provide and adopt a corporate seal for the district.

Notwithstanding any other provision in this Section, in any sanitary district created prior to the effective date of this amendatory Act of 1985, in which a five member board of trustees has been appointed and which currently includes one or more municipalities with a population of over

90,000 but less than 500,000, the board of trustees shall consist of five members.

Except as otherwise provided for vacancies, in the event that the appropriate appointing authority fails to appoint a trustee under this Section, the appropriate appointing authority shall reconvene and appoint a successor on or before July 1 of that year.

For the purposes of this Act, "appropriate State official or agency" is defined as the Director or Chief Executive or his designee of that State agency or department or facility of such agency or department. (30 ILCS 540/7) (from Ch. 127, par. 132.407)

Sec. 7. Payments to subcontractors and material suppliers.

(a) When a State official or agency responsible for administering a contract submits a voucher to the Comptroller for payment to a contractor, that State official or agency shall promptly make available electronically the voucher number, the date of the voucher, and the amount of the voucher. The State official or agency responsible for administering the contract shall provide subcontractors and material suppliers, known to the State official or agency, with instructions on how to access the electronic information.

(a-5) When a contractor receives any payment, the contractor shall pay each subcontractor and material supplier electronically within 10 business days or 15 calendar days, whichever occurs earlier, or, if paid by a printed check, the printed check must be postmarked within 10 business days or 15 calendar days, whichever occurs earlier, after receiving payment in proportion to the work completed by each subcontractor and

material supplier its application or pay estimate, plus interest received under this Act. When a contractor receives any payment, the contractor shall pay each lower-tiered subcontractor and material supplier and each subcontractor and material supplier shall make payment to its own respective subcontractors and material suppliers. If the contractor receives less than the full payment due under the public construction contract, the contractor shall be obligated to disburse on a pro rata basis those funds received, plus interest received under this Act, with the contractor, subcontractors and material suppliers each receiving a prorated portion based on the amount of payment each has earned. When, however, the State official or agency does not release the full payment due under the contract because there are specific areas of work or materials the State agency or official has determined are not suitable for payment, then those specific subcontractors or material suppliers involved shall not be paid for that portion of work rejected or deemed not suitable for payment and all other subcontractors and suppliers shall be paid based upon the amount of payment each has earned, plus interest received under this Act.

(a-10) For construction contracts with the Department of Transportation, the contractor, subcontractor, or material supplier, regardless of tier, shall not offset, decrease, or diminish payment or payments that are due to its subcontractors or material suppliers without reasonable cause.

A contractor, who refuses to make prompt payment within 10 business days or 15 calendar days, whichever occurs earlier, after receiving payment, in whole or in part, shall provide to the subcontractor or material supplier and the public owner or its agent, a written notice of that refusal. The written notice shall be made by a contractor no later than 5 calendar days after payment is received by the contractor. The written notice shall identify the Department of Transportation's contract, any subcontract or material purchase agreement, a detailed reason for refusal, the value of the payment to be withheld, and the specific remedial actions required of the subcontractor or material supplier so that payment may be made. Written notice of refusal may be given in a form and method which is acceptable to the parties and public owner.

(b) If the contractor, without reasonable cause, fails to make full payment of amounts due under subsection (a) to its subcontractors and material suppliers within 10 business days or 15 calendar days, whichever occurs earlier, after receipt of payment from the State official or agency, the contractor shall pay to its subcontractors and

material suppliers, in addition to the payment due them, interest in the amount of 2% per month, calculated from the expiration of the 10-business-day period or the 15-calendar-day period until fully paid. This subsection shall further apply to any payments made by subcontractors and material suppliers to their subcontractors and material suppliers and to all payments made to lower tier subcontractors and material suppliers throughout the contracting chain.

(1) If a contractor, without reasonable cause, fails to make payment in full as provided in subsection (a-5) within 10 business days or 15 calendar days, whichever occurs earlier, after receipt of payment under the public construction contract, any subcontractor or material supplier to whom payments are owed may file a written notice and request for administrative hearing with the State official or agency setting forth the amount owed by the contractor and the contractor's failure to timely pay the amount owed. The written notice and request for administrative hearing shall identify the public construction contract, the contractor, and the amount owed, and shall contain a sworn statement or attestation to verify the accuracy of the notice. The notice and request for administrative hearing shall be filed with the State official for the public construction contract, with a copy of the notice concurrently provided to the contractor. Notice to the State official may be made by certified or registered mail, messenger service, or personal service, and must include proof of delivery to the State official.

(2) The State official or agency, within 15 calendar days after receipt of a subcontractor's or material supplier's written notice and request for administrative hearing, shall hold a hearing convened by an administrative law judge to determine whether the contractor withheld payment, without reasonable cause, from the subcontractors or material suppliers and what amount, if any, is due to the subcontractors or material suppliers, and the reasonable cause or causes asserted by the contractor. The State official or agency shall provide appropriate notice to the parties of the date, time, and location of the hearing. Each contractor, subcontractor, or material supplier has the right to be represented by counsel at a hearing and to cross-examine witnesses and challenge documents. Upon the request of the subcontractor or material supplier and a

showing of good cause, reasonable continuances may be granted by the administrative law judge.

(3) Upon a finding by the administrative law judge that the contractor failed to make payment in full, without reasonable cause, as provided in subsection (a-10), then the administrative law judge shall, in writing, order the contractor to pay the amount owed to the subcontractors or material suppliers plus interest within 15 calendar days after the order.

(4) If a contractor fails to make full payment as ordered under paragraph (3) of this subsection (b) within 15 days after the administrative law judge's order, then the contractor shall be barred from entering into a State public construction contract for a period of one year beginning on the date of the administrative law judge's order.

(5) If, on 2 or more occasions within a 3-calendar-year period, there is a finding by an administrative law judge that the contractor failed to make payment in full, without reasonable cause, and a written order was issued to a contractor under paragraph (3) of this subsection (b), then the contractor shall be barred from entering into a State public construction contract for a period of 6 months beginning on the date of the administrative law judge's second written order, even if the payments required under the orders were made in full.

(6) If a contractor fails to make full payment as ordered under paragraph (4) of this subsection (b), the subcontractor or material supplier may, within 30 days of the date of that order, petition the State agency for an order for reasonable attorney's fees and costs incurred in the prosecution of the action under this subsection (b). Upon that petition and taking of additional evidence, as may be required, the administrative law judge may issue a supplemental order directing the contractor to pay those reasonable attorney's fees and costs.

(7) The written order of the administrative law judge shall be final and appealable under the Administrative Review Law.

(b-5) On or before July 2021, the Department of Transportation shall publish on its website a searchable database that allows for queries for each active construction contract by the name of a subcontractor or the pay item such that each pay item is associated with either the prime contractor or a subcontractor.

(c) This Section shall not be construed to in any manner diminish, negate, or interfere with the contractor-subcontractor or contractor-material supplier relationship or commercially useful function.

(d) This Section shall not preclude, bar, or stay the rights, remedies, and defenses available to the parties by way of the operation of their contract, purchase agreement, the Mechanics Lien Act, or the Public Construction Bond Act.

(e) State officials and agencies may adopt rules as may be deemed necessary in order to establish the formal procedures required under this Section.

(f) As used in this Section:

"Payment" means the discharge of an obligation in money or other valuable consideration or thing delivered in full or partial satisfaction of an obligation to pay. "Payment" shall include interest paid pursuant to this Act.

"Reasonable cause" may include, but is not limited to, unsatisfactory workmanship or materials; failure to provide documentation required by the contract, subcontract, or material purchase agreement; claims made against the Department of Transportation or the subcontractor pursuant to subsection (c) of Section 23 of the Mechanics Lien Act or the Public Construction Bond Act; judgments, levies, garnishments, or other court-ordered assessments or offsets in favor of the Department of Transportation or other State agency entered against a subcontractor or material supplier. "Reasonable cause" does not include payments issued to the contractor that create a negative or reduced valuation pay application or pay estimate due to a reduction of contract quantities or work not performed or provided by the subcontractor or material supplier; the interception or withholding of funds for reasons not related to the subcontractor's or material supplier's work on the contract; anticipated claims or assessments of third parties not a party related to the contract or subcontract; asserted claims or assessments of third parties that are not authorized by court order, administrative tribunal, or statute. "Reasonable cause" further does not include the withholding, offset, or reduction of payment, in whole or in part, due to the assessment of liquidated damages or penalties assessed by the Department of Transportation against the contractor, unless the subcontractor's performance or supplied materials were the sole and proximate cause of the liquidated damage or penalty.

AN ACT concerning employment.  
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Child Labor Law is amended by adding Section 12.5 as follows:

(820 ILCS 205/12.5 new)

Sec. 12.5. Child performers; trust fund.  
(a) In this Section:

"Artistic or creative services" includes, but is not limited to, services as: an actor, actress, dancer, musician, comedian, singer, stunt person, voice-over artist, runway or print model, other performer or entertainer, songwriter, musical producer, arranger, writer, director, producer, production executive, choreographer, composer, conductor, or designer.  

"Child performer" means an unemancipated person under the age of 16 who is employed in this State and who agrees to render artistic or creative services.  

(b) In addition to the requirements of Section 12, the person authorized to issue employment certificates must determine that a trust account, established by the child performer’s parent or guardian, that meets the requirements of subsection (c) has been established designating the minor as the beneficiary of the trust account before an employment certificate for work as a child performer may be issued for a minor under the age of 16 years. The person authorized to issue employment certificates shall issue a temporary employment certificate having a...

No more than one temporary employment certificate may be issued for each child performer. The Department of Labor shall prescribe the form in which temporary employment certificates shall be issued and shall make the forms available on its website.

(c) A trust account subject to this Section must provide, at a minimum, the following:

(1) that at least 15% of the gross earnings of the child performer shall be deposited into the account;
(2) that the funds in the account shall be available only to the child performer;

Section 5. The Attorney General Act is amended by adding Sections 6.3 and 6.4 as follows:

(15 ILCS 205/6.3 new)
Sec. 6.3. Worker Protection Unit.
(a) The General Assembly finds that the welfare and prosperity of all Illinois citizens and businesses requires the establishment of a Unit within the Attorney General's Office dedicated to combatting businesses that underpay their employees, force their employees to work in unsafe conditions, and gain an unfair economic advantage by avoiding their tax and labor responsibilities. The Worker Protection Unit shall be focused on protecting the State's workforce to ensure workers are paid properly, guarantee safe workplaces, and allow law-abiding business owners to thrive through healthy and fair competition. Businesses that violate the State's worker protection laws put a greater burden on taxpayers by hurting the State's ability to provide critical services; compliant businesses cannot compete against those who gain an unfair advantage by evading their responsibilities.

(b) There is created within the Office of the Attorney General a Worker Protection Unit, consisting of Assistant Attorneys General appointed by the Attorney General, who, together with other staff as deemed necessary by the Attorney General, shall have the power and duty on behalf of persons within this State, to intervene in, initiate, and enforce all legal proceedings on matters related to the payment of wages, the safety of the workplace, and fair employment practices, including, without limitation, the provisions of the Prevailing Wage Act, the Employee Classification Act, the Minimum Wage Law, the Day and Temporary Labor Services Act, or the Wage Payment and Collection Act, whenever the Attorney General determines that such action is necessary to protect the rights and interests of Illinois workers and Illinois businesses.

New matter indicated by italics - deletions by strikeout
Prior to initiating an action, the Attorney General shall conduct an investigation and may: (1) require an individual or entity to file a statement or report in writing under oath or otherwise, as to all information the Attorney General may consider necessary; (2) examine under oath any person alleged to have participated in or with knowledge of the alleged violation; or (3) issue subpoenas or conduct hearings in aid of any investigation.

In an action brought under this Section, the Attorney General may obtain, as a remedy, monetary damages to the State, restitution, and equitable relief, including any permanent or preliminary injunction, temporary restraining order, or other order, including an order enjoining the defendant from engaging in a violation, or order any action as may be appropriate. In addition, the Attorney General may request and the court may impose a civil penalty against any person or entity found by the court to have violated the Prevailing Wage Act, the Employee Classification Act, the Minimum Wage Law, the Day and Temporary Labor Services Act, the Wage Payment and Collection Act, or any other law related to the payment of wages, the safety of the workplace, or fair employment practices, in a sum not to exceed the maximum amount of any civil penalty prescribed by law. Neither the State nor an aggrieved individual may recover monetary relief, including civil penalties, in more than one proceeding related to the same violation.

Upon the Attorney General's request, the Illinois Department of Labor shall provide any materials or documents already in the Department’s possession pertaining to the enforcement of this Section. The Office of the Attorney General may use information obtained under this Section, including information that is designated as and that qualifies for confidential treatment, which information the Attorney General's Office shall maintain as confidential, for law enforcement purposes only, which information may be shared with other law enforcement officials. Nothing in this Section is intended to take away or limit any powers of the Attorney General under common law or other statutory law.

Sec. 6.4. Worker Protection Unit Task Force.

There is created a Worker Protection Task Force within the Office of the Illinois Attorney General. (b) The Task Force shall consist of:

(1) the Illinois Attorney General;
(2) Assistant Attorneys General, assigned at the discretion of the Illinois Attorney General;
(3) three elected State's Attorneys of Illinois, or their designees, selected by the Attorney General;
(4) the Director of Labor or his or her designee;
(5) the Director of Employment Security or his or her designee;
(6) the Director of Human Rights or his or her designee; and
(7) the chairperson of the Illinois Workers' Compensation Commission or his or her designee.

(c) The Task Force shall elect a chairperson from its membership and shall have the authority to determine its own meeting schedule, hearing schedule, and agendas. Members of the Task Force shall serve without compensation.

(d) The Task Force shall submit a report to the Governor and the General Assembly regarding its progress no later than December 1, 2020.

Prior to classifying the report, the Department shall determine whether the report is subject to Department review under Section 7.22a. If the report is subject to Department review, the report shall not be classified as unfounded until the review is completed. Prior to classifying the report, the person making the classification shall determine whether the child named in the report is the subject of an action under Article V of the Juvenile Court Act of 1987 who is in the custody or guardianship of the Department or who has an open intact family services case with the Department or is the subject of an action under Article II of the Juvenile Court Act of 1987. If the child either is the subject of an action under Article V of the Juvenile Court Act of 1987 and is in the custody or guardianship of the Department or has an open intact family services case with the Department or is the subject of an action under Article II of the Juvenile Court Act of 1987 and the Department intends to classify the report as indicated, the Department shall, within 45 days of classification of the report, transmit a copy of the report to the attorney or guardian ad litem appointed for the child under Section 2-17 of the Juvenile Court Act of 1987 or to a guardian ad litem appointed under Section 5-610 of the Juvenile Court Act of 1987. If the child either is the subject of an action under Article V of the Juvenile Court Act of 1987 and is in the custody or guardianship of the Department or has an open intact family services case with the Department or is the subject of an action under Article II of the Juvenile Court Act of 1987 and the Department intends to classify the report as unfounded, the Department shall, within 45 days of deciding its intent to classify the report as unfounded, transmit a copy of the report and written notice of the Department's intent to the attorney or guardian ad litem appointed for the child under Section 2-17 of...
the Juvenile Court Act of 1987, or to a guardian ad litem appointed under Section 5-610 of the Juvenile Court Act of 1987. The Department's obligation under this Section to provide reports to a guardian ad litem appointed under Section 5-610 of the Juvenile Court Act of 1987 for a minor with an open intact family services case applies only if the guardian ad litem notified the Department in writing of the representation. All information identifying the subjects of an unfounded report shall be expunged from the register forthwith, except as provided in Section 7.7. Unfounded reports may only be made available to the Child Protective Service Unit when investigating a subsequent report of suspected abuse or maltreatment involving a child named in the unfounded report; and to the subject of the report, provided the Department has not expunged the file in accordance with Section 7.7. The Child Protective Service Unit shall not indicate the subsequent report solely based upon the existence of the prior unfounded report or reports. Notwithstanding any other provision of law to the contrary, an unfounded report shall not be admissible in any judicial or administrative proceeding or action except for proceedings under Sections 2-10 and 2-21 of the Juvenile Court Act of 1987 involving a petition filed under Section 2-13 of the Juvenile Court Act of 1987 alleging abuse or neglect to the same child, a sibling of the child, or the same perpetrator. Identifying information on all other records shall be removed from the register no later than 5 years after the report is indicated. However, if another report is received involving the same child, his sibling or offspring, or a child in the care of the persons responsible for the child's welfare, or involving the same alleged offender, the identifying information may be maintained in the register until 5 years after the subsequent case or report is closed.

Notwithstanding any other provision of this Section, identifying information in indicated reports involving serious physical injury to a child as defined by the Department in rules, may be retained longer than 5 years after the report is indicated or after the subsequent case or report is closed, and may not be removed from the register except as provided by the Department in rules. Identifying information in indicated reports involving sexual penetration of a child, sexual molestation of a child, sexual exploitation of a child, torture of a child, or the death of a child, as defined by the Department in rules, shall be retained for a period of not less than 50 years after the report is indicated or after the subsequent case or report is closed.

Sec. 7.22a. Reports subject to review.
(a) Unfounded reports. Prior to classifying a report under Section 7.14, if the Department intends to classify the report as unfounded, the Department must first determine whether the report is subject to review in accordance with this Section. If the report is subject to review, the review process must be completed prior to classifying the report. The Deputy Director of Child Protection must oversee a review process that ensures the Department reviews a random sample of at least 5% of child abuse and neglect reports in which the Department intends to be unfounded and any subject child of the report is not of compulsory school age as provided under Section 26-1 of the School Code.

The review must be conducted by an area administrator outside the supervisory chain of the investigator and supervisor. The review shall ensure that the investigation was conducted in accordance with the Department's rules and procedures governing child abuse and neglect investigations and that the final intended finding is consistent with the goal of protecting the health, safety, and best interests of the child in all situations in which the child is vulnerable to child abuse or neglect. If the reviewer determines the investigation or final recommended unfounded finding is inconsistent with the Department's rules and procedures, the reviewer shall document the findings in an Unfounded Review Report and forward the Unfounded Review Report to the investigator, supervisor, area administrator assigned to the case, and Deputy Director of Child Protection to ensure appropriate corrective steps are taken in the case before the final finding is entered. The Unfounded Review Report shall be included in the investigative file.

(b) The Deputy Director of Child Protection must oversee a review process that ensures the Department reviews a random sample of at least 5% of indicated reports in which any subject child of the report is not of compulsory school age as provided under Section 26-1 of the School Code, the child is not a youth in care, and the Department is not opening a case for any type of services, including situations in which the family refuses services. The review must be conducted by an area administrator outside the supervisory chain of the assigned investigator within 15 days.
of the final finding being entered. The review shall ensure that the investigation was conducted in accordance with the Department's rules and procedures governing child abuse and neglect investigations and that the decision to not provide services is consistent with the goal of protecting the health, safety, and best interests of the child in all situations in which the child is vulnerable to child abuse or neglect. If the reviewer determines the investigation or final finding is inconsistent with the Department's rules and procedures, the reviewer shall document the findings in an Indicated Review Report and forward the Indicated Review Report to the investigator, supervisor, area administrator assigned to the case, and Deputy Director of Child Protection to ensure appropriate corrective steps are taken in the case. The Indicated Review Report shall be included in the investigative file.

(c) The Department shall document its findings in accordance with subsections (a) and (b), including the number of Unfounded Review Reports and Indicated Review Reports, and the findings and recommendations detailed in the Indicated Review Reports and Unfounded Review Reports in reports to the General Assembly. The reports shall describe recommendations for systemic reforms based on the findings of the reviews and the steps the Department will take to implement the recommendations. The initial report shall be filed 90 days after the effective date of this amendatory Act of the 101st General Assembly. Subsequent reports shall be filed on December 1 and June 1 of each year.

(325 ILCS 5/8.2) (from Ch. 23, par. 2058.2)

Sec. 8.2. If the Child Protective Service Unit determines, following an investigation made pursuant to Section 7.4 of this Act, that there is credible evidence that the child is abused or neglected, the Department shall assess the family's need for services, and, as necessary, develop, with the family, an appropriate service plan for the family's voluntary acceptance or refusal. In any case where there is evidence that the perpetrator of the abuse or neglect has a substance use disorder as defined in the Substance Use Disorder Act, the Department, when making referrals for drug or alcohol abuse services, shall make such referrals to facilities licensed by the Department of Human Services or the Department of Public Health. The Department shall comply with Section 8.1 by explaining its lack of legal authority to compel the acceptance of services and may explain its concomitant authority to petition the Circuit court

under the Juvenile Court Act of 1987 or refer the case to the local law enforcement authority or State's attorney for criminal prosecution.

For purposes of this Act, the term "family preservation services" refers to all services to help families, including adoptive and extended families. Family preservation services shall be offered, where safe and appropriate, to prevent the placement of children in substitute care when the children can be cared for at home or in the custody of the person responsible for the children's welfare without endangering the children's health or safety, to reunite them with their families if so placed when reunification is an appropriate goal, or to maintain an adoptive placement. The term "homemaker" includes emergency caretakers, homemakers, caretakers, housekeepers and chore services. The term "counseling" includes individual therapy, infant stimulation therapy, family therapy, group therapy, self-help groups, drug and alcohol abuse counseling, vocational counseling and post-adoptive services. The term "day care" includes protective day care and day care to meet educational, prevocational or vocational needs. The term "emergency assistance and advocacy" includes coordinated services to secure emergency cash, food, housing and medical assistance or advocacy for other subsistence and family protective needs.

Before July 1, 2000, appropriate family preservation services shall, subject to appropriation, be included in the service plan if the Department has determined that those services will ensure the child's health and safety, are in the child's best interests, and will not place the child in imminent risk of harm. Beginning July 1, 2000, appropriate family preservation services shall be uniformly available throughout the State. The Department shall promptly notify children and families of the Department's responsibility to offer and provide family preservation services as identified in the service plan. Such plans may include but are not limited to: case management services; homemakers; counseling; parent education; day care; emergency assistance and advocacy assessments; respite care; in-home health care; transportation to obtain any of the above services; and medical assistance. Nothing in this paragraph shall be construed to create a private right of action or claim on the part of any individual or child welfare agency, except that when a child is the subject of an action under Article II of the Juvenile Court Act of 1987 and the child's service plan calls for services to facilitate achievement of the permanency goal, the court hearing the action under Article II of the Juvenile Court Act of 1987 may order the Department to provide the services set out in the plan, if

those services are not provided with reasonable promptness and if those services are available.

Each Department field office shall maintain on a local basis directories of services available to children and families in the local area where the Department office is located.

The Department shall refer children and families served pursuant to this Section to private agencies and governmental agencies, where available.

Incentives that discourage or reward a decision to provide family preservation services after a report is indicated or a decision to refer a child for the filing of a petition under Article II of the Juvenile Court Act of 1987 are strictly prohibited and shall not be included in any contract, quality assurance, or performance review process. Incentives include, but are not limited to, monetary benefits, contingencies, and enhanced or diminished performance reviews for individuals or agencies.

Any decision regarding whether to provide family preservation services after an indicated report or to refer a child for the filing of a petition under Article II of the Juvenile Court Act of 1987 shall be based solely on the child's health, safety, and best interests and on any applicable law. If a difference of opinion exists between a private agency and the Department regarding whether to refer for the filing of a petition under Article II of the Juvenile Court Act of 1987, the case shall be referred to the Deputy Director of Child Protection for review and determination.

Any Department employee responsible for reviewing contracts or program plans who is aware of a violation of this Section shall immediately refer the matter to the Inspector General of the Department.

Where there are 2 equal proposals from both a not-for-profit and a for-profit agency to provide services, the Department shall give preference to the proposal from the not-for-profit agency.

No service plan shall compel any child or parent to engage in any activity or refrain from any activity which is not reasonably related to remedying a condition or conditions that gave rise or which could give rise to any finding of child abuse or neglect.

AN ACT concerning courts.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Juvenile Court Act of 1987 is amended by changing Section 2-13 as follows:

(705 ILCS 405/2-13) (from Ch. 37, par. 802-13)

Sec. 2-13. Petition.

(1) Any adult person, any agency or association by its representative may file, or the court on its own motion, consistent with the health, safety and best interests of the minor may direct the filing through the State's Attorney of a petition in respect of a minor under this Act. The petition and all subsequent court documents shall be entitled "In the interest of ...., a minor".

(2) The petition shall be verified but the statements may be made upon information and belief. It shall allege that the minor is abused, neglected, or dependent, with citations to the appropriate provisions of this Act, and set forth (a) facts sufficient to bring the minor under Section 2-3 or 2-4 and to inform respondents of the cause of action, including, but not limited to, a plain and concise statement of the factual allegations that form the basis for the filing of the petition; (b) the name, age and residence of the minor; (c) the names and residences of his parents; (d) the name and residence of his legal guardian or the person or persons having custody or control of the minor, or of the nearest known relative if no parent or guardian can be found; and (e) if the minor upon whose behalf the petition is brought is sheltered in custody, the date on which such temporary custody was ordered by the court or the date set for a temporary custody hearing. If any of the facts herein required are not known by the petitioner, the petition shall so state.

(3) The petition must allege that it is in the best interests of the minor and of the public that he be adjudged a ward of the court and may pray generally for relief available under this Act. The petition need not specify any proposed disposition following adjudication of wardship. The petition may request that the minor remain in the custody of the parent, guardian, or custodian under an Order of Protection.

(4) If termination of parental rights and appointment of a guardian of the person with power to consent to adoption of the minor under Section 2-29 is sought, the petition shall so state. If the petition includes this request, the prayer for relief shall clearly and obviously state that the parents could permanently lose their rights as a parent at this hearing.

In addition to the foregoing, the petitioner, by motion, may request the termination of parental rights and appointment of a guardian of the person with power to consent to adoption of the minor under Section 2-29 at any time after the entry of a dispositional order under Section 2-22.

(4.5) (a) Unless good cause exists that filing a petition to terminate parental rights is contrary to the child's best interests, with respect to any minors committed to its care pursuant to this Act, the Department of Children and Family Services shall request the State's Attorney to file a petition or motion for termination of parental rights and appointment of guardian of the person with power to consent to adoption of the minor under Section 2-29 if:

(i) a minor has been in foster care, as described in subsection (b), for 15 months of the most recent 22 months; or

(ii) a minor under the age of 2 years has been previously determined to be abandoned at an adjudicatory hearing; or

(iii) the parent is criminally convicted of:

(A) first degree murder or second degree murder of any child;

(B) attempt or conspiracy to commit first degree murder or second degree murder of any child;

(C) solicitation to commit murder of any child, solicitation to commit murder for hire of any child, or solicitation to commit second degree murder of any child;

(D) aggravated battery, aggravated battery of a child, or felony domestic battery, any of which has resulted in serious injury to the minor or a sibling of the minor;

(E) predatory criminal sexual assault of a child; aggravated criminal sexual assault in violation of subdivision (a)(1) of Section 11-1.40 or subdivision (a)(1) of Section 12-14.1 of the Criminal Code of 1961 or the Criminal Code of 2012, or

(E-5) aggravated criminal sexual assault;

New matter indicated by italics - deletions by strikeout
(E-10) criminal sexual abuse in violation of subsection (a) of Section 11-1.50 of the Criminal Code of 1961 or the Criminal Code of 2012;
(E-15) sexual exploitation of a child;
(E-20) permitting sexual abuse of a child;
(E-25) criminal sexual assault; or
(F) an offense in any other state the elements of which are similar and bear a substantial relationship to any of the foregoing offenses.

(a-1) For purposes of this subsection (4.5), good cause exists in the following circumstances:

(i) the child is being cared for by a relative,
(ii) the Department has documented in the case plan a compelling reason for determining that filing such petition would not be in the best interests of the child,
(iii) the court has found within the preceding 12 months that the Department has failed to make reasonable efforts to reunify the child and family, or
(iv) the parent is incarcerated, or the parent's prior incarceration is a significant factor in why the child has been in foster care for 15 months out of any 22-month period, the parent maintains a meaningful role in the child's life, and the Department has not documented another reason why it would otherwise be appropriate to file a petition to terminate parental rights pursuant to this Section and the Adoption Act. The assessment of whether an incarcerated parent maintains a meaningful role in the child's life may include consideration of the following:

(A) the child's best interest;

(B) the parent's expressions or acts of manifesting concern for the child, such as letters, telephone calls, visits, and other forms of communication with the child and the impact of the communication on the child;

(C) the parent's efforts to communicate with and work with the Department for the purpose of complying with the service plan and repairing, maintaining, or building the parent-child relationship; or

(D) limitations in the parent's access to family support programs, therapeutic services, visiting
opportunities, telephone and mail services, and meaningful participation in court proceedings.

(b) For purposes of this subsection, the date of entering foster care is defined as the earlier of:

(1) The date of a judicial finding at an adjudicatory hearing that the child is an abused, neglected, or dependent minor; or

(2) 60 days after the date on which the child is removed from his or her parent, guardian, or legal custodian.

c) (Blank).

d) (Blank).

(5) The court shall liberally allow the petitioner to amend the petition to set forth a cause of action or to add, amend, or supplement factual allegations that form the basis for a cause of action up until 14 days before the adjudicatory hearing. The petitioner may amend the petition after that date and prior to the adjudicatory hearing if the court grants leave to amend upon a showing of good cause. The court may allow amendment of the petition to conform with the evidence at any time prior to ruling. In all cases in which the court has granted leave to amend based on new evidence or new allegations, the court shall permit the respondent an adequate opportunity to prepare a defense to the amended petition.

(6) At any time before dismissal of the petition or before final closing and discharge under Section 2-31, one or more motions in the best interests of the minor may be filed. The motion shall specify sufficient facts in support of the relief requested.

(3) There is a finding of physical child abuse resulting from the death of any child under Section 2-21 of the Juvenile Court Act of 1987.

No conviction or finding of delinquency pursuant to Article V of the Juvenile Court Act of 1987 shall be considered a criminal conviction for the purpose of applying any presumption under this item (f).

(h) Other neglect of, or misconduct toward the child; provided that in making a finding of unfitness the court hearing the adoption proceeding shall not be bound by any previous finding, order or judgment affecting or determining the rights of the parents toward the child sought to be adopted in any other proceeding except such proceedings terminating parental rights as shall be had under either this Act, the Juvenile Court Act or the Juvenile Court Act of 1987.

(i) Depravity. There is a rebuttable presumption that a parent is depraved if the parent has been criminally convicted of at least 3 felonies under the laws of this State or any other state, or under federal law, or the criminal laws of any United States territory; and at least one of these convictions took place within 5 years of the filing of the petition or motion seeking termination of parental rights.

There is a rebuttable presumption that a parent is depraved if that parent has been criminally convicted of either first or second degree murder of any person as defined in the Criminal Code of 1961 or the Criminal Code of 2012 within 10 years of the filing date of the petition or motion to terminate parental rights.

No conviction or finding of delinquency pursuant to Article 5 of the Juvenile Court Act of 1987 shall be considered a criminal conviction for the purpose of applying any presumption under this item (i).

(j) Open and notorious adultery or fornication.

(k) Habitual drunkenness or addiction to drugs, other than those prescribed by a physician, for at least one year immediately prior to the commencement of the unfitness proceeding.

There is a rebuttable presumption that a parent is unfit under this subsection with respect to any child to which that parent gives birth where there is a confirmed test result that at birth the child's blood, urine, or meconium contained any amount of a

controlled substance as defined in subsection (f) of Section 102 of the Illinois Controlled Substances Act or metabolites of such substances, the presence of which in the newborn infant was not the result of medical treatment administered to the mother or the newborn infant; and the biological mother of this child is the biological mother of at least one other child who was adjudicated a neglected minor under subsection (c) of Section 2-3 of the Juvenile Court Act of 1987.

(l) Failure to demonstrate a reasonable degree of interest, concern or responsibility as to the welfare of a new born child during the first 30 days after its birth.

(m) Failure by a parent (i) to make reasonable efforts to correct the conditions that were the basis for the removal of the child from the parent during any 9-month period following the adjudication of neglected or abused minor under Section 2-3 of the Juvenile Court Act of 1987 or dependent minor under Section 2-4 of that Act, or (ii) to make reasonable progress toward the return of the child to the parent during any 9-month period following the adjudication of neglected or abused minor under Section 2-3 of the Juvenile Court Act of 1987 or dependent minor under Section 2-4 of that Act. If a service plan has been established as required under Section 8.2 of the Abused and Neglected Child Reporting Act to correct the conditions that were the basis for the removal of the child from the parent and if those services were available, then, for purposes of this Act, "failure to make reasonable progress toward the return of the child to the parent" includes the parent's failure to substantially fulfill his or her obligations under the service plan and correct the conditions that brought the child into care during any 9-month period following the adjudication under Section 2-3 or 2-4 of the Juvenile Court Act of 1987. Notwithstanding any other provision, when a petition or motion seeks to terminate parental rights on the basis of item (ii) of this subsection (m), the petitioner shall file with the court and serve on the parties a pleading that specifies the 9-month period or periods relied on. The pleading shall be filed and served on the parties no later than 3 weeks before the date set by the court for closure of discovery, and the allegations in the pleading shall be treated as incorporated into the petition or motion. Failure of a respondent to file a written denial
of the allegations in the pleading shall not be treated as an admission that the allegations are true.

(m-1) (Blank).

(n) Evidence of intent to forgo his or her parental rights, whether or not the child is a ward of the court, (1) as manifested by his or her failure for a period of 12 months: (i) to visit the child, (ii) to communicate with the child or agency, although able to do so and not prevented from doing so by an agency or by court order, or (iii) to maintain contact with or plan for the future of the child, although physically able to do so, or (2) as manifested by the father's failure, where he and the mother of the child were unmarried to each other at the time of the child's birth, (i) to commence legal proceedings to establish his paternity under the Illinois Parentage Act of 1984, the Illinois Parentage Act of 2015, or the law of the jurisdiction of the child's birth within 30 days of being informed, pursuant to Section 12a of this Act, that he is the father or the likely father of the child or, after being so informed where the child is not yet born, within 30 days of the child's birth, or (ii) to make a good faith effort to pay a reasonable amount of the expenses related to the birth of the child and to provide a reasonable amount for the financial support of the child, the court to consider in its determination all relevant circumstances, including the financial condition of both parents; provided that the ground for termination provided in this subparagraph (n)(2)(ii) shall only be available where the petition is brought by the mother or the husband of the mother.

Contact or communication by a parent with his or her child that does not demonstrate affection and concern does not constitute reasonable contact and planning under subdivision (n). In the absence of evidence to the contrary, the ability to visit, communicate, maintain contact, pay expenses and plan for the future shall be presumed. The subjective intent of the parent, whether expressed or otherwise, unsupported by evidence of the foregoing parental acts manifesting that intent, shall not preclude a determination that the parent has intended to forgo his or her parental rights. In making this determination, the court may consider but shall not require a showing of diligent efforts by an authorized agency to encourage the parent to perform the acts specified in subdivision (n).

New matter indicated by italics - deletions by strikeout
It shall be an affirmative defense to any allegation under paragraph (2) of this subsection that the father's failure was due to circumstances beyond his control or to impediments created by the mother or any other person having legal custody. Proof of that fact need only be by a preponderance of the evidence.

(o) Repeated or continuous failure by the parents, although physically and financially able, to provide the child with adequate food, clothing, or shelter.

(p) Inability to discharge parental responsibilities supported by competent evidence from a psychiatrist, licensed clinical social worker, or clinical psychologist of mental impairment, mental illness or an intellectual disability as defined in Section 1-116 of the Mental Health and Developmental Disabilities Code, or developmental disability as defined in Section 1-106 of that Code, and there is sufficient justification to believe that the inability to discharge parental responsibilities shall extend beyond a reasonable time period. However, this subdivision (p) shall not be construed so as to permit a licensed clinical social worker to conduct any medical diagnosis to determine mental illness or mental impairment.

PUBLIC ACT 101-0530
(Senate Bill No. 0220)

AN ACT concerning civil law.
Be it enacted by the People of the State of Illinois, represented in
the General Assembly:
Section 5. The Illinois Human Rights Act is amended by changing
Sections 7B-102, 8-101, and 10-103 as follows:
(775 ILCS 5/7B-102) (from Ch. 68, par. 7B-102)
Sec. 7B-102. Procedures.
(A) Charge.
(1) Within one year after the date that a civil rights
violation allegedly has been committed or terminated, a charge in
writing under oath or affirmation may be filed with the Department
by an aggrieved party or issued by the Department itself under the
signature of the Director.
(2) The charge shall be in such detail as to substantially
apprise any party properly concerned as to the time, place, and
facts surrounding the alleged civil rights violation.
(B) Notice and Response to Charge.
(1) The Department shall serve notice upon the aggrieved
party acknowledging such charge and advising the aggrieved party
of the time limits and choice of forums provided under this Act.
The Department shall, within 10 days of the date on which the
charge was filed or the identification of an additional respondent
under paragraph (2) of this subsection, serve on the respondent a
copy of the charge along with a notice identifying the alleged civil
rights violation and advising the respondent of the procedural
rights and obligations of respondents under this Act and may
require the respondent to file a response to the allegations
contained in the charge. Upon the Department's request, the
respondent shall file a response to the charge within 30 days and
shall serve a copy of its response on the complainant or his or her
representative. Notwithstanding any request from the Department,
the respondent may elect to file a response to the charge within 30
days of receipt of notice of the charge, provided the respondent
serves a copy of its response on the complainant or his or her

representative. All allegations contained in the charge not denied by the respondent within 30 days after the Department's request for a response may be deemed admitted, unless the respondent states that it is without sufficient information to form a belief with respect to such allegation. The Department may issue a notice of default directed to any respondent who fails to file a response to a charge within 30 days of the Department's request, unless the respondent can demonstrate good cause as to why such notice should not issue. The term "good cause" shall be defined by rule promulgated by the Department. Within 10 days of the date he or she receives the respondent's response, the complainant may file his or her reply to said response. If he or she chooses to file a reply, the complainant shall serve a copy of said reply on the respondent or his or her representative. A party may supplement his or her response or reply at any time that the investigation of the charge is pending.

(2) A person who is not named as a respondent in a charge, but who is identified as a respondent in the course of investigation, may be joined as an additional or substitute respondent upon written notice, under subsection (B), to such person, from the Department. Such notice, in addition to meeting the requirements of subsections (A) and (B), shall explain the basis for the Department's belief that a person to whom the notice is addressed is properly joined as a respondent.

(C) Investigation.

(1) The Department shall conduct a full investigation of the allegations set forth in the charge and complete such investigation within 100 days after the filing of the charge, unless it is impracticable to do so. The Department's failure to complete the investigation within 100 days after the proper filing of the charge does not deprive the Department of jurisdiction over the charge.

(2) If the Department is unable to complete the investigation within 100 days after the charge is filed, the Department shall notify the complainant and respondent in writing of the reasons for not doing so.

(3) The Director or his or her designated representative shall have authority to request any member of the Commission to issue subpoenas to compel the attendance of a witness or the

production for examination of any books, records or documents whatsoever.

(4) If any witness whose testimony is required for any investigation resides outside the State, or through illness or any other good cause as determined by the Director is unable to be interviewed by the investigator or appear at a fact finding conference, his or her testimony or deposition may be taken, within or without the State, in the same manner as provided for in the taking of depositions in civil cases in circuit courts.

(5) Upon reasonable notice to the complainant and the respondent, the Department may conduct a fact finding conference, unless prior to 100 days from the date on which the charge was filed, the Director has determined whether there is substantial evidence that the alleged civil rights violation has been committed or the parties voluntarily and in writing agree to waive the fact finding conference. When requested by the Department, a party's failure to attend the conference without good cause may result in dismissal or default. A notice of dismissal or default shall be issued by the Director and shall notify the relevant party that a request for review may be filed in writing with the Commission within 30 days of receipt of notice of dismissal or default.

(D) Report.

(1) Each charge investigated under subsection (C) shall be the subject of a report to the Director. The report shall be a confidential document subject to review by the Director, authorized Department employees, the parties, and, where indicated by this Act, members of the Commission or their designated hearing officers.

The report shall contain:
(a) the names and dates of contacts with witnesses;
(b) a summary and the date of correspondence and other contacts with the aggrieved party and the respondent;
(c) a summary description of other pertinent records;
(d) a summary of witness statements; and
(e) answers to questionnaires.

A final report under this paragraph may be amended if additional evidence is later discovered.

New matter indicated by italics - deletions by strikeout
(2) Upon review of the report and within 100 days of the filing of the charge, unless it is impracticable to do so, the Director shall determine whether there is substantial evidence that the alleged civil rights violation has been committed or is about to be committed. If the Director is unable to make the determination within 100 days after the filing of the charge, the Director shall notify the complainant and respondent in writing of the reasons for not doing so. The Director's failure to make the determination within 100 days after the proper filing of the charge does not deprive the Department of jurisdiction over the charge.

(a) If the Director determines that there is no substantial evidence, the charge shall be dismissed and the aggrieved party notified that he or she may seek review of the dismissal order before the Commission. The aggrieved party shall have 90 days from receipt of notice to file a request for review by the Commission. The Director shall make public disclosure of each such dismissal.

(b) If the Director determines that there is substantial evidence, he or she shall immediately issue a complaint on behalf of the aggrieved party pursuant to subsection (F).

(E) Conciliation.

(1) During the period beginning with the filing of charge and ending with the filing of a complaint or a dismissal by the Department, the Department shall, to the extent feasible, engage in conciliation with respect to such charge.

When the Department determines that a formal conciliation conference is feasible, the aggrieved party and respondent shall be notified of the time and place of the conference by registered or certified mail at least 7 days prior thereto and either or both parties shall appear at the conference in person or by attorney.

(2) The place fixed for the conference shall be within 35 miles of the place where the civil rights violation is alleged to have been committed.

(3) Nothing occurring at the conference shall be made public or used as evidence in a subsequent proceeding for the purpose of proving a violation under this Act unless the complainant and respondent agree in writing that such disclosure be made.

New matter indicated by italics - deletions by strikeout
(4) A conciliation agreement arising out of such conciliation shall be an agreement between the respondent and the complainant, and shall be subject to approval by the Department and Commission.

(5) A conciliation agreement may provide for binding arbitration of the dispute arising from the charge. Any such arbitration that results from a conciliation agreement may award appropriate relief, including monetary relief.

(6) Each conciliation agreement shall be made public unless the complainant and respondent otherwise agree and the Department determines that disclosure is not required to further the purpose of this Act.

(F) Complaint.

(1) When there is a failure to settle or adjust any charge through a conciliation conference and the charge is not dismissed, the Department shall prepare a written complaint, under oath or affirmation, stating the nature of the civil rights violation and the relief sought on behalf of the aggrieved party. Such complaint shall be based on the final investigation report and need not be limited to the facts or grounds alleged in the charge filed under subsection (A).

(2) The complaint shall be filed with the Commission.

(3) The Department may not issue a complaint under this Section regarding an alleged civil rights violation after the beginning of the trial of a civil action commenced by the aggrieved party under any State or federal law, seeking relief with respect to that alleged civil rights violation.

(G) Time Limit.

(1) When a charge of a civil rights violation has been properly filed, the Department, within 100 days thereof, unless it is impracticable to do so, shall either issue and file a complaint in the manner and form set forth in this Section or shall order that no complaint be issued. Any such order shall be duly served upon both the aggrieved party and the respondent. The Department's failure to either issue and file a complaint or order that no complaint be issued within 100 days after the proper filing of the charge does not deprive the Department of jurisdiction over the charge.
(2) The Director shall make available to the aggrieved party and the respondent, at any time, upon request following completion of the Department's investigation, information derived from an investigation and any final investigative report relating to that investigation.

(H) This amendatory Act of 1995 applies to causes of action filed on or after January 1, 1996.

(I) The changes made to this Section by Public Act 95-243 apply to charges filed on or after the effective date of those changes.

(J) The changes made to this Section by this amendatory Act of the 96th General Assembly apply to charges filed on or after the effective date of those changes.

On and after January 19, 2019, the Chairperson of the Commission shall be compensated at the rate of $125,000 per year, or as set by the Compensation Review Board, whichever is greater, during his or her service as Chairperson, and each other member shall be compensated at the rate of $119,000 per year, or as set by the Compensation Review Board, whichever is greater. The Department of State Police and the Federal Bureau of Investigation shall furnish, pursuant to a fingerprint-based criminal history records check, records of convictions, forever and hereinafter, until expunged, to the president of the school board for the school district that requested the check, or to the regional superintendent who requested the check. The Department shall charge the school district or the appropriate regional superintendent a fee for conducting such check, which fee shall be deposited in the State Police Services Fund and shall not exceed the cost of the inquiry; and the applicant shall not be charged a fee for such check by the school district or by the regional superintendent, except that those applicants seeking employment as a substitute teacher with a school district may be charged a fee not to exceed the cost of the inquiry. Subject to appropriations for these purposes, the State Superintendent of Education shall reimburse school districts and regional superintendents for fees paid to obtain criminal history records checks under this Section.

(a-5) The school district or regional superintendent shall further perform a check of the Statewide Sex Offender Database, as authorized by the Sex Offender Community Notification Law, for each applicant. (b) Any information concerning the record of convictions obtained by the president of the school board or the regional superintendent shall be confidential and may only be transmitted to the superintendent of the school district or his designee, the appropriate regional superintendent if the check was requested by the school district, the presidents of the appropriate school boards if the check was requested from the Department of State Police by the regional superintendent, the State Superintendent of Education, the State Educator Preparation and Licensure Certification Board, any other person necessary to the decision of hiring the applicant for employment, or for clarification purposes the Department of State Police or Statewide Sex Offender Database, or both. A copy of the record of convictions obtained from the Department of State Police shall be provided to the applicant for employment. Upon the check of the Statewide Sex Offender Database, the school district or regional superintendent shall notify an applicant as to whether or not the applicant has been identified in the Database as a sex offender. If a check of an applicant for employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee in more than one school district was requested by the regional superintendent, and the Department of State Police upon a check ascertains that the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) of this Section or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State and so notifies the regional superintendent and if the regional superintendent upon a check ascertains that the applicant has not been identified in the Sex Offender Database as a sex offender, then the regional superintendent shall issue to the applicant a certificate evidencing that as of the date specified by the Department of State Police the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) of this Section or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State and evidencing that as of the date that the regional superintendent conducted a check of the Statewide Sex

The school board of any school district may rely on the certificate issued by any regional superintendent to that substitute teacher, concurrent part-time teacher, or concurrent educational support personnel employee or may initiate its own criminal history records check of the applicant through the Department of State Police and its own check of the Statewide Sex Offender Database as provided in subsection (a). Any unauthorized release of confidential information may be a violation of Section 7 of the Criminal Identification Act.

(c) No school board shall knowingly employ a person who has been convicted of any offense that would subject him or her to license suspension or revocation pursuant to Section 21B-80 of this Code, except as provided under subsection (b) of Section 21B-80. Further, no school board shall knowingly employ a person who has been found to be the perpetrator of sexual or physical abuse of any minor under 18 years of age pursuant to proceedings under Article II of the Juvenile Court Act of 1987. As a condition of employment, each school board must consider the status of a person who has been issued an indicated finding of abuse or neglect of a child by the Department of Children and Family Services under the Abused and Neglected Child Reporting Act or by a child welfare agency of another jurisdiction.

(d) No school board shall knowingly employ a person for whom a criminal history records check and a Statewide Sex Offender Database check has not been initiated.

Upon receipt of the record of a conviction of or a finding of child abuse by a holder of any license certificate issued pursuant to Article 21B-2 or Section 34-8.1 or 34-83 of the School Code, the State Superintendent of Education may initiate licensure certificate suspension and revocation proceedings as authorized by law. If the receipt of the record of conviction or finding of child abuse is received within 6 months after the initial grant of or renewal of a license, the State Superintendent of Education may rescind the license holder's license.

(e-5) The superintendent of the employing school board shall, in writing, notify the State Superintendent of Education and the applicable regional superintendent of schools of any license certificate holder whom he or she has reasonable cause to believe has committed an intentional act of abuse or neglect with the result of making a child an abused child or a neglected child, as defined in Section 3 of the Abused and Neglected Child Reporting Act, and that act resulted in the license certificate holder's dismissal or resignation from the school district. This notification must be submitted within 30 days after the dismissal or resignation. The license certificate holder must also be contemporaneously sent a copy of the notice by the superintendent. All correspondence, documentation, and other information so received by the regional superintendent of schools, the State Superintendent of Education, the State Board of Education, or the State Educator Preparation and Licensure Board under this subsection (e-5) is confidential and must not be disclosed to third parties, except (i) as necessary for the State Superintendent of Education or his or her designee to investigate and prosecute pursuant to Article 21B of this Code, (ii) pursuant to a court order, (iii) for disclosure to the license certificate holder or his or her representative, or (iv) as otherwise provided in this Article and provided that any such information admitted into evidence in a hearing is exempt from this confidentiality and non-disclosure requirement. Except for an act of willful or wanton misconduct, any superintendent who provides notification as required in this subsection (e-5) shall have immunity from any liability, whether civil or criminal or that otherwise might result by reason of such action.

Sec. 21B-45. Professional Educator License renewal.

(a) Individuals holding a Professional Educator License are required to complete the licensure renewal requirements as specified in this Section, unless otherwise provided in this Code.

Individuals holding a Professional Educator License shall meet the renewal requirements set forth in this Section, unless otherwise provided in this Code. If an individual holds a license endorsed in more than one area that has different renewal requirements, that individual shall follow the renewal requirements for the position for which he or she spends the majority of his or her time working.

(b) All Professional Educator Licenses not renewed as provided in this Section shall lapse on September 1 of that year. Notwithstanding any other provisions of this Section, if a license holder's electronic mail address is available, the State Board of Education shall send him or her notification electronically that his or her license will lapse if not renewed, to be sent no more than 6 months prior to the license lapsing. Lapsed licenses may be immediately reinstated upon (i) payment by the applicant of a $500 penalty to the State Board of Education or (ii) the demonstration of proficiency by completing 9 semester hours of coursework from a regionally accredited institution of higher education in the content area that most aligns with one or more of the educator's endorsement areas. Any and all back fees, including without limitation registration fees owed from the time of expiration of the license until the date of reinstatement, shall be paid and kept in accordance with the provisions in Article 3 of this Code concerning an institute fund and the provisions in Article 21B of this Code concerning fees and requirements for registration. Licenses not registered in accordance with Section 21B-40 of this Code shall lapse after a period of 6 months from the expiration of the last year of registration or

on January 1 of the fiscal year following initial issuance of the license. An unregistered license is invalid after September 1 for employment and performance of services in an Illinois public or State-operated school or cooperative and in a charter school. Any license or endorsement may be voluntarily surrendered by the license holder. A voluntarily surrendered license; except a substitute teaching license issued under Section 21B-20 of this Code; shall be treated as a revoked license. An Educator License with Stipulations with only a paraprofessional endorsement does not lapse.

(c) From July 1, 2013 through June 30, 2014, in order to satisfy the requirements for licensure renewal provided for in this Section, each professional educator licensee with an administrative endorsement who is working in a position requiring such endorsement shall complete one Illinois Administrators' Academy course, as described in Article 2 of this Code, per fiscal year.

(d) Beginning July 1, 2014, in order to satisfy the requirements for licensure renewal provided for in this Section, each professional educator licensee may create a professional development plan each year. The plan shall address one or more of the endorsements that are required of his or her educator position if the licensee is employed and performing services in an Illinois public or State-operated school or cooperative. If the licensee is employed in a charter school, the plan shall address that endorsement or those endorsements most closely related to his or her educator position. Licensees employed and performing services in any other Illinois schools may participate in the renewal requirements by adhering to the same process.

Except as otherwise provided in this Section, the licensee's professional development activities shall align with one or more of the following criteria:

(1) activities are of a type that engage participants over a sustained period of time allowing for analysis, discovery, and application as they relate to student learning, social or emotional achievement, or well-being;

(2) professional development aligns to the licensee's performance;

(3) outcomes for the activities must relate to student growth or district improvement;

(4) activities align to State-approved standards; and

(5) higher education coursework.

(e) For each renewal cycle, each professional educator licensee shall engage in professional development activities. Prior to renewal, the licensee shall enter electronically into the Educator Licensure Information System (ELIS) the name, date, and location of the activity, the number of professional development hours, and the provider's name. The following provisions shall apply concerning professional development activities:

1. Each licensee shall complete a total of 120 hours of professional development per 5-year renewal cycle in order to renew the license, except as otherwise provided in this Section.

2. Beginning with his or her first full 5-year cycle, any licensee with an administrative endorsement who is not working in a position requiring such endorsement is not required to complete Illinois Administrators' Academy courses, as described in Article 2 of this Code. Such licensees must complete one Illinois Administrators' Academy course within one year after returning to a position that requires the administrative endorsement.

3. Any licensee with an administrative endorsement who is working in a position requiring such endorsement or an individual with a Teacher Leader endorsement serving in an administrative capacity at least 50% of the day shall complete one Illinois Administrators' Academy course, as described in Article 2 of this Code, each fiscal year in addition to 100 hours of professional development per 5-year renewal cycle in accordance with this Code.

4. Any licensee holding a current National Board for Professional Teaching Standards (NBPTS) master teacher designation shall complete a total of 60 hours of professional development per 5-year renewal cycle in order to renew the license.

5. Licensees working in a position that does not require educator licensure or working in a position for less than 50% for any particular year are considered to be exempt and shall be required to pay only the registration fee in order to renew and maintain the validity of the license.

6. Licensees who are retired and qualify for benefits from a State of Illinois retirement system shall notify the State Board of Education using ELIS, and the license shall be maintained in retired status. For any renewal cycle in which a licensee retires during the renewal cycle, the licensee must complete professional development activities on a prorated basis depending on the
number of years during the renewal cycle the educator held an active license. If a licensee retires during a renewal cycle, the licensee must notify the State Board of Education using ELIS that the licensee wishes to maintain the license in retired status and must show proof of completion of professional development activities on a prorated basis for all years of that renewal cycle for which the license was active. An individual with a license in retired status shall not be required to complete professional development activities or pay registration fees until returning to a position that requires educator licensure. Upon returning to work in a position that requires the Professional Educator License, the licensee shall immediately pay a registration fee and complete renewal requirements for that year. A license in retired status cannot lapse. Beginning on January 6, 2017 (the effective date of Public Act 99-920) through December 31, 2017, any licensee who has retired and whose license has lapsed for failure to renew as provided in this Section may reinstate that license and maintain it in retired status upon providing proof to the State Board of Education using ELIS that the licensee is retired and is not working in a position that requires a Professional Educator License.

(7) For any renewal cycle in which professional development hours were required, but not fulfilled, the licensee shall complete any missed hours to total the minimum professional development hours required in this Section prior to September 1 of that year. Professional development hours used to fulfill the minimum required hours for a renewal cycle may be used for only one renewal cycle. For any fiscal year or renewal cycle in which an Illinois Administrators' Academy course was required but not completed, the licensee shall complete any missed Illinois Administrators' Academy courses prior to September 1 of that year. The licensee may complete all deficient hours and Illinois Administrators' Academy courses while continuing to work in a position that requires that license until September 1 of that year.

(8) Any licensee who has not fulfilled the professional development renewal requirements set forth in this Section at the end of any 5-year renewal cycle is ineligible to register his or her license and may submit an appeal to the State Superintendent of Education for reinstatement of the license.

(9) If professional development opportunities were unavailable to a licensee, proof that opportunities were unavailable and request for an extension of time beyond August 31 to complete the renewal requirements may be submitted from April 1 through June 30 of that year to the State Educator Preparation and Licensure Board. If an extension is approved, the license shall remain valid during the extension period.

(10) Individuals who hold exempt licenses prior to December 27, 2013 (the effective date of Public Act 98-610) shall commence the annual renewal process with the first scheduled registration due after December 27, 2013 (the effective date of Public Act 98-610).

(11) Notwithstanding any other provision of this subsection (e), if a licensee earns more than the required number of professional development hours during a renewal cycle, then the licensee may carry over any hours earned from April 1 through June 30 of the last year of the renewal cycle. Any hours carried over in this manner must be applied to the next renewal cycle. Illinois Administrators' Academy courses or hours earned in those courses may not be carried over.

(f) At the time of renewal, each licensee shall respond to the required questions under penalty of perjury.

(f-5) The State Board of Education shall conduct random audits of licensees to verify a licensee's fulfillment of the professional development hours required under this Section. Upon completion of a random audit, if it is determined by the State Board of Education that the licensee did not complete the required number of professional development hours or did not provide sufficient proof of completion, the licensee shall be notified that his or her license has lapsed. A license that has lapsed under this subsection may be reinstated as provided in subsection (b).

(g) The following entities shall be designated as approved to provide professional development activities for the renewal of Professional Educator Licenses:

(1) The State Board of Education.

Such individuals shall be required to pay only registration fees to renew the Professional Educator License. An individual who does not hold a license issued by the Department of Financial and Professional Regulation shall complete professional development requirements for the renewal of a Professional Educator License provided for in this Section.

(5) The quality of the remediation plans associated with the unsatisfactory evaluation ratings and whether the license holder successfully completed the remediation plans.

(6) Whether the unsatisfactory evaluation ratings were related to the same or different assignments performed by the license holder.

(7) Whether one or more of the unsatisfactory evaluation ratings occurred in the first year of a teaching or administrative assignment.

When initiating an action against one or more licenses, the State Superintendent may seek required professional development as a sanction in lieu of or in addition to suspension or revocation. Any such required professional development must be at the expense of the license holder, who may use, if available and applicable to the requirements established by administrative or court order, training, coursework, or other professional development funds in accordance with the terms of an applicable collective bargaining agreement entered into after June 13, 2011 (the effective date of Public Act 97-8), unless that agreement specifically precludes use of funds for such purpose.

(c) The State Superintendent of Education shall, upon receipt of evidence of abuse or neglect of a child, immorality, a condition of health detrimental to the welfare of pupils, incompetency (subject to subsection (b) of this Section), unprofessional conduct, the neglect of any professional duty, or other just cause, further investigate and, if and as appropriate, serve written notice to the individual and afford the individual opportunity for a hearing prior to suspension, revocation, or other sanction; provided that the State Superintendent is under no obligation to initiate such an investigation if the Department of Children and Family Services is investigating the same or substantially similar allegations and its child protective service unit has not made its determination, as required under Section 7.12 of the Abused and Neglected Child Reporting Act. If

the State Superintendent of Education does not receive from an individual a request for a hearing within 10 days after the individual receives notice, the suspension, revocation, or other sanction shall immediately take effect in accordance with the notice. If a hearing is requested within 10 days after notice of an opportunity for hearing, it shall act as a stay of proceedings until the State Educator Preparation and Licensure Board issues a decision. Any hearing shall take place in the educational service region where the educator is or was last employed and in accordance with rules adopted by the State Board of Education, in consultation with the State Educator Preparation and Licensure Board, and such rules shall include without limitation provisions for discovery and the sharing of information between parties prior to the hearing. The standard of proof for any administrative hearing held pursuant to this Section shall be by the preponderance of the evidence. The decision of the State Educator Preparation and Licensure Board is a final administrative decision and is subject to judicial review by appeal of either party.

The State Board of Education may refuse to issue or may suspend the license of any person who fails to file a return or to pay the tax, penalty, or interest shown in a filed return or to pay any final assessment of tax, penalty, or interest, as required by any tax Act administered by the Department of Revenue, until such time as the requirements of any such tax Act are satisfied.

The exclusive authority of the State Superintendent of Education to initiate suspension or revocation of a license pursuant to this Section does not preclude a regional superintendent of schools from cooperating with the State Superintendent or a State's Attorney with respect to an investigation of alleged misconduct.

(d) The State Superintendent of Education or his or her designee may initiate and conduct such investigations as may be reasonably necessary to establish the existence of any alleged misconduct. At any stage of the investigation, the State Superintendent may issue a subpoena requiring the attendance and testimony of a witness, including the license holder, and the production of any evidence, including files, records, correspondence, or documents, relating to any matter in question in the investigation. The subpoena shall require a witness to appear at the State Board of Education at a specified date and time and shall specify any evidence to be produced. The license holder is not entitled to be present, but the State Superintendent shall provide the license holder with a copy of any recorded testimony prior to a hearing under this Section. Such

New matter indicated by italics - deletions by strikeout
recorded testimony must not be used as evidence at a hearing, unless the license holder has adequate notice of the testimony and the opportunity to cross-examine the witness. Failure of a license holder to comply with a duly issued, investigatory subpoena may be grounds for revocation, suspension, or denial of a license.

(e) All correspondence, documentation, and other information so received by the regional superintendent of schools, the State Superintendent of Education, the State Board of Education, or the State Educator Preparation and Licensure Board under this Section is confidential and must not be disclosed to third parties, except (i) as necessary for the State Superintendent of Education or his or her designee to investigate and prosecute pursuant to this Article, (ii) pursuant to a court order, (iii) for disclosure to the license holder or his or her representative, or (iv) as otherwise required in this Article and provided that any such information admitted into evidence in a hearing is exempt from this confidentiality and non-disclosure requirement.

(f) The State Superintendent of Education or a person designated by him or her shall have the power to administer oaths to witnesses at any hearing conducted before the State Educator Preparation and Licensure Board pursuant to this Section. The State Superintendent of Education or a person designated by him or her is authorized to subpoena and bring before the State Educator Preparation and Licensure Board any person in this State and to take testimony either orally or by deposition or by exhibit, with the same fees and mileage and in the same manner as prescribed by law in judicial proceedings in civil cases in circuit courts of this State.

(g) Any circuit court, upon the application of the State Superintendent of Education or the license holder, may, by order duly entered, require the attendance of witnesses and the production of relevant books and papers as part of any investigation or at any hearing the State Educator Preparation and Licensure Board is authorized to conduct pursuant to this Section, and the court may compel obedience to its orders by proceedings for contempt.

(h) The State Board of Education shall receive an annual line item appropriation to cover fees associated with the investigation and prosecution of alleged educator misconduct and hearings related thereto. (Source: P.A. 100-872, eff. 8-14-18.)

Sec. 22-85. Sexual abuse at schools.
(a) The General Assembly finds that:
   (1) investigation of a child regarding an incident of sexual abuse can induce significant trauma for the child;
   (2) it is desirable to prevent multiple interviews of a child at a school; and
   (3) it is important to recognize the role of Children's Advocacy Centers in conducting developmentally appropriate investigations.

(b) In this Section:
"Alleged incident of sexual abuse" is limited to an incident of sexual abuse of a child that is alleged to have been perpetrated by school personnel, including a school vendor or volunteer, that occurred (i) on school grounds or during a school activity or (ii) outside of school grounds or not during a school activity.

"Appropriate law enforcement agency" means a law enforcement agency whose employees have been involved, in some capacity, with an investigation of a particular alleged incident of sexual abuse.

(c) If a mandated reporter within a school has knowledge of an alleged incident of sexual abuse, the reporter must call the Department of Children and Family Services' hotline established under Section 7.6 of the Abused and Neglected Child Reporting Act immediately after obtaining

New matter indicated by italics - deletions by strikeout
the minimal information necessary to make a report, including the names of the affected parties and the allegations. The State Board of Education must make available materials detailing the information that is necessary to enable notification to the Department of Children and Family Services of an alleged incident of sexual abuse. Each school must ensure that mandated reporters review the State Board of Education's materials and materials developed by the Department of Children and Family Services and distributed in the school building under Section 7 of the Abused and Neglected Child Reporting Act at least once annually.

(d) For schools in a county with an accredited Children's Advocacy Center, every alleged incident of sexual abuse that is reported to the Department of Children and Family Services' hotline or a law enforcement agency and is subsequently accepted for investigation must be referred by the entity that received the report to the local Children's Advocacy Center pursuant to that county's multidisciplinary team's protocol under the Children's Advocacy Center Act for investigating child sexual abuse allegations.

(e) A county's local Children's Advocacy Center must, at a minimum, do both of the following regarding a referred case of an alleged incident of sexual abuse:

(1) Coordinate the investigation of the alleged incident, as governed by the local Children's Advocacy Center's existing multidisciplinary team protocol and according to National Children's Alliance accreditation standards.

(2) Facilitate communication between the multidisciplinary team investigating the alleged incident of sexual abuse and, if applicable, the referring school's (i) Title IX officer, or his or her designee, (ii) school resource officer, or (iii) personnel leading the school's investigation into the alleged incident of sexual abuse. If a school uses a designated entity to investigate a sexual abuse allegation, the multidisciplinary team may correspond only with that entity and any reference in this Section to "school" refers to that designated entity. This facilitation of communication must, at a minimum, ensure that all applicable parties have each other's contact information and must share the county's local Children's Advocacy Center's protocol regarding the process of approving the viewing of a forensic interview, as defined under Section 2.5 of the Children's Advocacy Center Act, by school personnel and a contact person for questions relating to the protocol.

New matter indicated by italics - deletions by strikeout
(f) After an alleged incident of sexual abuse is accepted for investigation by the Department of Children and Family Services or a law enforcement agency and while the criminal and child abuse investigations related to that alleged incident are being conducted by the local multidisciplinary team, the school relevant to the alleged incident of sexual abuse must comply with both of the following:

(1) It may not interview the alleged victim regarding details of the alleged incident of sexual abuse until after the completion of the forensic interview of that victim is conducted at a Children’s Advocacy Center. This paragraph does not prohibit a school from requesting information from the alleged victim or his or her parent or guardian to ensure the safety and well-being of the alleged victim at school during an investigation.

(2) If asked by a law enforcement agency or an investigator of the Department of Children and Family Services who is conducting the investigation, it must inform those individuals of any evidence the school has gathered pertaining to an alleged incident of sexual abuse, as permissible by federal or State law.

(g) After completion of a forensic interview, the multidisciplinary team must notify the school relevant to the alleged incident of sexual abuse of its completion. If, for any reason, a multidisciplinary team determines it will not conduct a forensic interview in a specific investigation, the multidisciplinary team must notify the school as soon as the determination is made. If a forensic interview has not been conducted within 15 calendar days after opening an investigation, the school may notify the multidisciplinary team that it intends to interview the alleged victim. No later than 10 calendar days after this notification, the multidisciplinary team may conduct the forensic interview and, if the multidisciplinary team does not conduct the interview, the school may proceed with its interview.

(h) To the greatest extent possible considering student safety and Title IX compliance, school personnel may view the electronic recordings of a forensic interview of an alleged victim of an incident of sexual abuse. As a means to avoid additional interviews of an alleged victim, school personnel must be granted viewing access to the electronic recording of a forensic interview conducted at an accredited Children’s Advocacy Center for an alleged incident of sexual abuse only if the school receives (i) approval from the multidisciplinary team investigating the case and (ii) informed consent by a child over the age of 13 or the child's parent or
guardian. Each county's local Children's Advocacy Center and multidisciplinary team must establish an internal protocol regarding the process of approving the viewing of the forensic interview, and this process and the contact person must be shared with the school contact at the time of the initial facilitation. Whenever possible, the school's viewing of the electronic recording of a forensic interview should be conducted in lieu of the need for additional interviews.

(i) For an alleged incident of sexual abuse that has been accepted for investigation by a multidisciplinary team, if, during the course of its internal investigation and at any point during or after the multidisciplinary team's investigation, the school determines that it needs to interview the alleged victim to successfully complete its investigation and the victim is under 18 years of age, a child advocate must be made available to the student and may be present during the school's interview. A child advocate may be a school social worker, a school or equally qualified psychologist, or a person in a position the State Board of Education has identified as an appropriate advocate for the student during a school's investigation into an alleged incident of sexual abuse.

(j) The Department of Children and Family Services must notify the relevant school when an agency investigation of an alleged incident of sexual abuse is complete. The notification must include information on the outcome of that investigation.

(k) The appropriate law enforcement agency must notify the relevant school when an agency investigation of an alleged incident of sexual abuse is complete or has been suspended. The notification must include information on the outcome of that investigation.

(l) This Section applies to all schools operating under this Code, including, but not limited to, public schools located in cities having a population of more than 500,000, a school operated pursuant to an agreement with a public school district, alternative schools operated by third parties, an alternative learning opportunities program, a public school administered by a local public agency or the Department of Human Services, charter schools operating under the authority of Article 27A, and non-public schools recognized by the State Board of Education.

(105 ILCS 5/24-12) (from Ch. 122, par. 24-12)

Sec. 24-12. Removal or dismissal of teachers in contractual continued service.

(a) This subsection (a) applies only to honorable dismissals and recalls in which the notice of dismissal is provided on or before the end of the 2010-2011 school term. If a teacher in contractual continued service is removed or dismissed as a result of a decision of the board to decrease the number of teachers employed by the board or to discontinue some particular type of teaching service, written notice shall be mailed to the teacher and also given the teacher either by certified mail, return receipt requested or personal delivery with receipt at least 60 days before the end of the school term, together with a statement of honorable dismissal and the reason therefor, and in all such cases the board shall first remove or dismiss all teachers who have not entered upon contractual continued service before removing or dismissing any teacher who has entered upon contractual continued service and who is legally qualified to hold a position currently held by a teacher who has not entered upon contractual continued service.

As between teachers who have entered upon contractual continued service, the teacher or teachers with the shorter length of continuing service with the district shall be dismissed first unless an alternative method of determining the sequence of dismissal is established in a collective bargaining agreement or contract between the board and a professional faculty members' organization and except that this provision shall not impair the operation of any affirmative action program in the district, regardless of whether it exists by operation of law or is conducted on a voluntary basis by the board. Any teacher dismissed as a result of such decrease or discontinuance shall be paid all earned compensation on or before the third business day following the last day of pupil attendance in the regular school term.

If the board has any vacancies for the following school term or within one calendar year from the beginning of the following school term, the positions thereby becoming available shall be tendered to the teachers so removed or dismissed so far as they are legally qualified to hold such positions; provided, however, that if the number of honorable dismissal notices based on economic necessity exceeds 15% of the number of full-
time full time equivalent positions filled by certified employees (excluding principals and administrative personnel) during the preceding school year, then if the board has any vacancies for the following school term or within 2 calendar years from the beginning of the following school term, the positions so becoming available shall be tendered to the teachers who were so notified and removed or dismissed whenever they are legally qualified to hold such positions. Each board shall, in consultation with any exclusive employee representatives, each year establish a list, categorized by positions, showing the length of continuing service of each teacher who is qualified to hold any such positions, unless an alternative method of determining a sequence of dismissal is established as provided for in this Section, in which case a list shall be made in accordance with the alternative method. Copies of the list shall be distributed to the exclusive employee representative on or before February 1 of each year. Whenever the number of honorable dismissal notices based upon economic necessity exceeds 5, or 150% of the average number of teachers honorably dismissed in the preceding 3 years, whichever is more, then the board also shall hold a public hearing on the question of the dismissals. Following the hearing and board review, the action to approve any such reduction shall require a majority vote of the board members.

(b) This subsection (b) applies only to honorable dismissals and recalls in which the notice of dismissal is provided during the 2011-2012 school term or a subsequent school term. If any teacher, whether or not in contractual continued service, is removed or dismissed as a result of a decision of a school board to decrease the number of teachers employed by the board, a decision of a school board to discontinue some particular type of teaching service, or a reduction in the number of programs or positions in a special education joint agreement, then written notice must be mailed to the teacher and also given to the teacher either by certified mail, return receipt requested, or personal delivery with receipt at least 45 days before the end of the school term, together with a statement of honorable dismissal and the reason therefor, and in all such cases the sequence of dismissal shall occur in accordance with this subsection (b); except that this subsection (b) shall not impair the operation of any affirmative action program in the school district, regardless of whether it exists by operation of law or is conducted on a voluntary basis by the board.

Each teacher must be categorized into one or more positions for which the teacher is qualified to hold, based upon legal qualifications and any other qualifications established in a district or joint agreement job.
description, on or before the May 10 prior to the school year during which the sequence of dismissal is determined. Within each position and subject to agreements made by the joint committee on honorable dismissals that are authorized by subsection (c) of this Section, the school district or joint agreement must establish 4 groupings of teachers qualified to hold the position as follows:

(1) Grouping one shall consist of each teacher who is not in contractual continued service and who (i) has not received a performance evaluation rating, (ii) is employed for one school term or less to replace a teacher on leave, or (iii) is employed on a part-time basis. "Part-time basis" for the purposes of this subsection (b) means a teacher who is employed to teach less than a full-day, teacher workload or less than 5 days of the normal student attendance week, unless otherwise provided for in a collective bargaining agreement between the district and the exclusive representative of the district's teachers. For the purposes of this Section, a teacher (A) who is employed as a full-time teacher but who actually teaches or is otherwise present and participating in the district's educational program for less than a school term or (B) who, in the immediately previous school term, was employed on a full-time basis and actually taught or was otherwise present and participated in the district's educational program for 120 days or more is not considered employed on a part-time basis.

(2) Grouping 2 shall consist of each teacher with a Needs Improvement or Unsatisfactory performance evaluation rating on either of the teacher's last 2 performance evaluation ratings.

(3) Grouping 3 shall consist of each teacher with a performance evaluation rating of at least Satisfactory or Proficient on both of the teacher's last 2 performance evaluation ratings, if 2 ratings are available, or on the teacher's last performance evaluation rating, if only one rating is available, unless the teacher qualifies for placement into grouping 4.

(4) Grouping 4 shall consist of each teacher whose last 2 performance evaluation ratings are Excellent and each teacher with 2 Excellent performance evaluation ratings out of the teacher's last 3 performance evaluation ratings with a third rating of Satisfactory or Proficient.

New matter indicated by italics - deletions by strikeout
Among teachers qualified to hold a position, teachers must be dismissed in the order of their groupings, with teachers in grouping one dismissed first and teachers in grouping 4 dismissed last.

Within grouping one, the sequence of dismissal must be at the discretion of the school district or joint agreement. Within grouping 2, the sequence of dismissal must be based upon average performance evaluation ratings, with the teacher or teachers with the lowest average performance evaluation rating dismissed first. A teacher's average performance evaluation rating must be calculated using the average of the teacher's last 2 performance evaluation ratings, if 2 ratings are available, or the teacher's last performance evaluation rating, if only one rating is available, using the following numerical values: 4 for Excellent; 3 for Proficient or Satisfactory; 2 for Needs Improvement; and 1 for Unsatisfactory. As between or among teachers in grouping 2 with the same average performance evaluation rating and within each of groupings 3 and 4, the teacher or teachers with the shorter length of continuing service with the school district or joint agreement must be dismissed first unless an alternative method of determining the sequence of dismissal is established in a collective bargaining agreement or contract between the board and a professional faculty members' organization.

Each board, including the governing board of a joint agreement, shall, in consultation with any exclusive employee representatives, each year establish a sequence of honorable dismissal list categorized by positions and the groupings defined in this subsection (b). Copies of the list showing each teacher by name and categorized by positions and the groupings defined in this subsection (b) must be distributed to the exclusive bargaining representative at least 75 days before the end of the school term, provided that the school district or joint agreement may, with notice to any exclusive employee representatives, move teachers from grouping one into another grouping during the period of time from 75 days until 45 days before the end of the school term. Each year, each board shall also establish, in consultation with any exclusive employee representatives, a list showing the length of continuing service of each teacher who is qualified to hold any such positions, unless an alternative method of determining a sequence of dismissal is established as provided for in this Section, in which case a list must be made in accordance with the alternative method. Copies of the list must be distributed to the exclusive employee representative at least 75 days before the end of the school term.

Any teacher dismissed as a result of such decrease or discontinuance must be paid all earned compensation on or before the third business day following the last day of pupil attendance in the regular school term.

If the board or joint agreement has any vacancies for the following school term or within one calendar year from the beginning of the following school term, the positions thereby becoming available must be tendered to the teachers so removed or dismissed who were in groupings 3 or 4 of the sequence of dismissal and are qualified to hold the positions, based upon legal qualifications and any other qualifications established in a district or joint agreement job description, on or before the May 10 prior to the date of the positions becoming available, provided that if the number of honorable dismissal notices based on economic necessity exceeds 15% of the number of full-time equivalent positions filled by certified employees (excluding principals and administrative personnel) during the preceding school year, then the recall period is for the following school term or within 2 calendar years from the beginning of the following school term. If the board or joint agreement has any vacancies within the period from the beginning of the following school term through February 1 of the following school term (unless a date later than February 1, but no later than 6 months from the beginning of the following school term, is established in a collective bargaining agreement), the positions thereby becoming available must be tendered to the teachers so removed or dismissed who were in grouping 2 of the sequence of dismissal due to one "needs improvement" rating on either of the teacher's last 2 performance evaluation ratings, provided that, if 2 ratings are available, the other performance evaluation rating used for grouping purposes is "satisfactory", "proficient", or "excellent", and are qualified to hold the positions, based upon legal qualifications and any other qualifications established in a district or joint agreement job description, on or before the May 10 prior to the date of the positions becoming available. On and after July 1, 2014 (the effective date of Public Act 98-648) this amendatory Act of the 98th General Assembly, the preceding sentence shall apply to teachers removed or dismissed by honorable dismissal, even if notice of honorable dismissal occurred during the 2013-2014 school year. Among teachers eligible for recall pursuant to the preceding sentence, the order of recall must be in inverse order of dismissal, unless an alternative order of recall is established in a collective bargaining agreement or contract between the board and a professional faculty members' organization. Whenever the
number of honorable dismissal notices based upon economic necessity exceeds 5 notices or 150% of the average number of teachers honorably dismissed in the preceding 3 years, whichever is more, then the school board or governing board of a joint agreement, as applicable, shall also hold a public hearing on the question of the dismissals. Following the hearing and board review, the action to approve any such reduction shall require a majority vote of the board members.

For purposes of this subsection (b), subject to agreement on an alternative definition reached by the joint committee described in subsection (c) of this Section, a teacher's performance evaluation rating means the overall performance evaluation rating resulting from an annual or biennial performance evaluation conducted pursuant to Article 24A of this Code by the school district or joint agreement determining the sequence of dismissal, not including any performance evaluation conducted during or at the end of a remediation period. No more than one evaluation rating each school term shall be one of the evaluation ratings used for the purpose of determining the sequence of dismissal. Except as otherwise provided in this subsection for any performance evaluations conducted during or at the end of a remediation period, if multiple performance evaluations are conducted in a school term, only the rating from the last evaluation conducted prior to establishing the sequence of honorable dismissal list in such school term shall be the one evaluation rating from that school term used for the purpose of determining the sequence of dismissal. Averaging ratings from multiple evaluations is not permitted unless otherwise agreed to in a collective bargaining agreement or contract between the board and a professional faculty members' organization. The preceding 3 sentences are not a legislative declaration that existing law does or does not already require that only one performance evaluation each school term shall be used for the purpose of determining the sequence of dismissal. For performance evaluation ratings determined prior to September 1, 2012, any school district or joint agreement with a performance evaluation rating system that does not use either of the rating category systems specified in subsection (d) of Section 24A-5 of this Code for all teachers must establish a basis for assigning each teacher a rating that complies with subsection (d) of Section 24A-5 of this Code for all of the performance evaluation ratings that are to be used to determine the sequence of dismissal. A teacher's grouping and ranking on a sequence of honorable dismissal shall be deemed a part of the teacher's performance evaluation, and that information shall be disclosed.

to the exclusive bargaining representative as part of a sequence of honorable dismissal list, notwithstanding any laws prohibiting disclosure of such information. A performance evaluation rating may be used to determine the sequence of dismissal, notwithstanding the pendency of any grievance resolution or arbitration procedures relating to the performance evaluation. If a teacher has received at least one performance evaluation rating conducted by the school district or joint agreement determining the sequence of dismissal and a subsequent performance evaluation is not conducted in any school year in which such evaluation is required to be conducted under Section 24A-5 of this Code, the teacher's performance evaluation rating for that school year for purposes of determining the sequence of dismissal is deemed Proficient. If a performance evaluation rating is nullified as the result of an arbitration, administrative agency, or court determination, then the school district or joint agreement is deemed to have conducted a performance evaluation for that school year, but the performance evaluation rating may not be used in determining the sequence of dismissal.

Nothing in this subsection (b) shall be construed as limiting the right of a school board or governing board of a joint agreement to dismiss a teacher not in contractual continued service in accordance with Section 24-11 of this Code.

Any provisions regarding the sequence of honorable dismissals and recall of honorably dismissed teachers in a collective bargaining agreement entered into on or before January 1, 2011 and in effect on June 13, 2011 (the effective date of Public Act 97-8) this amendatory Act of the 97th General Assembly that may conflict with Public Act 97-8 this amendatory Act of the 97th General Assembly shall remain in effect through the expiration of such agreement or June 30, 2013, whichever is earlier.

(c) Each school district and special education joint agreement must use a joint committee composed of equal representation selected by the school board and its teachers or, if applicable, the exclusive bargaining representative of its teachers, to address the matters described in paragraphs (1) through (5) of this subsection (c) pertaining to honorable dismissals under subsection (b) of this Section.

(1) The joint committee must consider and may agree to criteria for excluding from grouping 2 and placing into grouping 3 a teacher whose last 2 performance evaluations include a Needs Improvement and either a Proficient or Excellent.

New matter indicated by italics - deletions by strikeout
(2) The joint committee must consider and may agree to an alternative definition for grouping 4, which definition must take into account prior performance evaluation ratings and may take into account other factors that relate to the school district's or program's educational objectives. An alternative definition for grouping 4 may not permit the inclusion of a teacher in the grouping with a Needs Improvement or Unsatisfactory performance evaluation rating on either of the teacher's last 2 performance evaluation ratings.

(3) The joint committee may agree to including within the definition of a performance evaluation rating a performance evaluation rating administered by a school district or joint agreement other than the school district or joint agreement determining the sequence of dismissal.

(4) For each school district or joint agreement that administers performance evaluation ratings that are inconsistent with either of the rating category systems specified in subsection (d) of Section 24A-5 of this Code, the school district or joint agreement must consult with the joint committee on the basis for assigning a rating that complies with subsection (d) of Section 24A-5 of this Code to each performance evaluation rating that will be used in a sequence of dismissal.

(5) Upon request by a joint committee member submitted to the employing board by no later than 10 days after the distribution of the sequence of honorable dismissal list, a representative of the employing board shall, within 5 days after the request, provide to members of the joint committee a list showing the most recent and prior performance evaluation ratings of each teacher identified only by length of continuing service in the district or joint agreement and not by name. If, after review of this list, a member of the joint committee has a good faith belief that a disproportionate number of teachers with greater length of continuing service with the district or joint agreement have received a recent performance evaluation rating lower than the prior rating, the member may request that the joint committee review the list to assess whether such a trend may exist. Following the joint committee's review, but by no later than the end of the applicable school term, the joint committee or any member or members of the joint committee may submit a report of the review to the employing board and exclusive bargaining.

representative, if any. Nothing in this paragraph (5) shall impact the order of honorable dismissal or a school district's or joint agreement's authority to carry out a dismissal in accordance with subsection (b) of this Section.

Agreement by the joint committee as to a matter requires the majority vote of all committee members, and if the joint committee does not reach agreement on a matter, then the otherwise applicable requirements of subsection (b) of this Section shall apply. Except as explicitly set forth in this subsection (c), a joint committee has no authority to agree to any further modifications to the requirements for honorable dismissals set forth in subsection (b) of this Section. The joint committee must be established, and the first meeting of the joint committee each school year must occur on or before December 1.

The joint committee must reach agreement on a matter on or before February 1 of a school year in order for the agreement of the joint committee to apply to the sequence of dismissal determined during that school year. Subject to the February 1 deadline for agreements, the agreement of a joint committee on a matter shall apply to the sequence of dismissal until the agreement is amended or terminated by the joint committee.

The provisions of the Open Meetings Act shall not apply to meetings of a joint committee created under this subsection (c).

(d) Notwithstanding anything to the contrary in this subsection (d), the requirements and dismissal procedures of Section 24-16.5 of this Code shall apply to any dismissal sought under Section 24-16.5 of this Code.

(1) If a dismissal of a teacher in contractual continued service is sought for any reason or cause other than an honorable dismissal under subsections (a) or (b) of this Section or a dismissal sought under Section 24-16.5 of this Code, including those under Section 10-22.4, the board must first approve a motion containing specific charges by a majority vote of all its members. Written notice of such charges, including a bill of particulars and the teacher's right to request a hearing, must be mailed to the teacher and also given to the teacher either by certified mail, return receipt requested, or personal delivery with receipt within 5 days of the adoption of the motion. Any written notice sent on or after July 1, 2012 shall inform the teacher of the right to request a hearing before a mutually selected hearing officer, with the cost of the hearing officer split equally between the teacher and the board, or a

hearing before a board-selected hearing officer, with the cost of the hearing officer paid by the board.

Before setting a hearing on charges stemming from causes that are considered remediable, a board must give the teacher reasonable warning in writing, stating specifically the causes that, if not removed, may result in charges; however, no such written warning is required if the causes have been the subject of a remediation plan pursuant to Article 24A of this Code.

If, in the opinion of the board, the interests of the school require it, the board may suspend the teacher without pay, pending the hearing, but if the board's dismissal or removal is not sustained, the teacher shall not suffer the loss of any salary or benefits by reason of the suspension.

(2) No hearing upon the charges is required unless the teacher within 17 days after receiving notice requests in writing of the board that a hearing be scheduled before a mutually selected hearing officer or a hearing officer selected by the board. The secretary of the school board shall forward a copy of the notice to the State Board of Education.

(3) Within 5 business days after receiving a notice of hearing in which either notice to the teacher was sent before July 1, 2012 or, if the notice was sent on or after July 1, 2012, the teacher has requested a hearing before a mutually selected hearing officer, the State Board of Education shall provide a list of 5 prospective, impartial hearing officers from the master list of qualified, impartial hearing officers maintained by the State Board of Education. Each person on the master list must (i) be accredited by a national arbitration organization and have had a minimum of 5 years of experience directly related to labor and employment relations matters between employers and employees or their exclusive bargaining representatives and (ii) beginning September 1, 2012, have participated in training provided or approved by the State Board of Education for teacher dismissal hearing officers so that he or she is familiar with issues generally involved in evalutative and non-evaluative dismissals.

If notice to the teacher was sent before July 1, 2012 or, if the notice was sent on or after July 1, 2012, the teacher has requested a hearing before a mutually selected hearing officer, the board and the teacher or their legal representatives within 3

New matter indicated by italics - deletions by strikeout
business days shall alternately strike one name from the list
provided by the State Board of Education until only one name
remains. Unless waived by the teacher, the teacher shall have the
right to proceed first with the striking. Within 3 business days of
receipt of the list provided by the State Board of Education, the
board and the teacher or their legal representatives shall each have
the right to reject all prospective hearing officers named on the list
and notify the State Board of Education of such rejection. Within 3
business days after receiving this notification, the State Board of
Education shall appoint a qualified person from the master list who
did not appear on the list sent to the parties to serve as the hearing
officer, unless the parties notify it that they have chosen to
alternatively select a hearing officer under paragraph (4) of this
subsection (d).

If the teacher has requested a hearing before a hearing
officer selected by the board, the board shall select one name from
the master list of qualified impartial hearing officers maintained by
the State Board of Education within 3 business days after receipt
and shall notify the State Board of Education of its selection.

A hearing officer mutually selected by the parties, selected
by the board, or selected through an alternative selection process
under paragraph (4) of this subsection (d) (A) must not be a
resident of the school district, (B) must be available to commence
the hearing within 75 days and conclude the hearing within 120
days after being selected as the hearing officer, and (C) must issue
a decision as to whether the teacher must be dismissed and give a
copy of that decision to both the teacher and the board within 30
days from the conclusion of the hearing or closure of the record,
whichever is later.

(4) In the alternative to selecting a hearing officer from the
list received from the State Board of Education or accepting the
appointment of a hearing officer by the State Board of Education or
if the State Board of Education cannot provide a list or appoint a
hearing officer that meets the foregoing requirements, the board
and the teacher or their legal representatives may mutually agree to
select an impartial hearing officer who is not on the master list
either by direct appointment by the parties or by using procedures
for the appointment of an arbitrator established by the Federal
Mediation and Conciliation Service or the American Arbitration

Association. The parties shall notify the State Board of Education of their intent to select a hearing officer using an alternative procedure within 3 business days of receipt of a list of prospective hearing officers provided by the State Board of Education, notice of appointment of a hearing officer by the State Board of Education, or receipt of notice from the State Board of Education that it cannot provide a list that meets the foregoing requirements, whichever is later.

(5) If the notice of dismissal was sent to the teacher before July 1, 2012, the fees and costs for the hearing officer must be paid by the State Board of Education. If the notice of dismissal was sent to the teacher on or after July 1, 2012, the hearing officer's fees and costs must be paid as follows in this paragraph (5). The fees and permissible costs for the hearing officer must be determined by the State Board of Education. If the board and the teacher or their legal representatives mutually agree to select an impartial hearing officer who is not on a list received from the State Board of Education, they may agree to supplement the fees determined by the State Board to the hearing officer, at a rate consistent with the hearing officer's published professional fees. If the hearing officer is mutually selected by the parties, then the board and the teacher or their legal representatives shall each pay 50% of the fees and costs and any supplemental allowance to which they agree. If the hearing officer is selected by the board, then the board shall pay 100% of the hearing officer's fees and costs. The fees and costs must be paid to the hearing officer within 14 days after the board and the teacher or their legal representatives receive the hearing officer's decision set forth in paragraph (7) of this subsection (d).

(6) The teacher is required to answer the bill of particulars and aver affirmative matters in his or her defense, and the time for initially doing so and the time for updating such answer and defenses after pre-hearing discovery must be set by the hearing officer. The State Board of Education shall promulgate rules so that each party has a fair opportunity to present its case and to ensure that the dismissal process proceeds in a fair and expeditious manner. These rules shall address, without limitation, discovery and hearing scheduling conferences; the teacher's initial answer and affirmative defenses to the bill of particulars and the updating of that information after pre-hearing discovery; provision for

New matter indicated by italics - deletions by strikeout
written interrogatories and requests for production of documents; the requirement that each party initially disclose to the other party and then update the disclosure no later than 10 calendar days prior to the commencement of the hearing, the names and addresses of persons who may be called as witnesses at the hearing, a summary of the facts or opinions each witness will testify to, and all other documents and materials, including information maintained electronically, relevant to its own as well as the other party's case (the hearing officer may exclude witnesses and exhibits not identified and shared, except those offered in rebuttal for which the party could not reasonably have anticipated prior to the hearing); pre-hearing discovery and preparation, including provision for written interrogatories and requests for production of documents, provided that discovery depositions are prohibited; the conduct of the hearing; the right of each party to be represented by counsel, the offer of evidence and witnesses and the cross-examination of witnesses; the authority of the hearing officer to issue subpoenas and subpoenas duces tecum, provided that the hearing officer may limit the number of witnesses to be subpoenaed on behalf of each party to no more than 7; the length of post-hearing briefs; and the form, length, and content of hearing officers' decisions. The hearing officer shall hold a hearing and render a final decision for dismissal pursuant to Article 24A of this Code or shall report to the school board findings of fact and a recommendation as to whether or not the teacher must be dismissed for conduct. The hearing officer shall commence the hearing within 75 days and conclude the hearing within 120 days after being selected as the hearing officer, provided that the hearing officer may modify these timelines upon the showing of good cause or mutual agreement of the parties. Good cause for the purpose of this subsection (d) shall mean the illness or otherwise unavoidable emergency of the teacher, district representative, their legal representatives, the hearing officer, or an essential witness as indicated in each party's pre-hearing submission. In a dismissal hearing pursuant to Article 24A of this Code in which a witness is a student or is under the age of 18, the hearing officer must make accommodations for the witness, as provided under paragraph (6.5) of this subsection. The hearing officer shall consider and give weight to all of the
teacher's evaluations written pursuant to Article 24A that are relevant to the issues in the hearing.

Each party shall have no more than 3 days to present its case, unless extended by the hearing officer to enable a party to present adequate evidence and testimony, including due to the other party's cross-examination of the party's witnesses, for good cause or by mutual agreement of the parties. The State Board of Education shall define in rules the meaning of "day" for such purposes. All testimony at the hearing shall be taken under oath administered by the hearing officer. The hearing officer shall cause a record of the proceedings to be kept and shall employ a competent reporter to take stenographic or stenotype notes of all the testimony. The costs of the reporter's attendance and services at the hearing shall be paid by the party or parties who are responsible for paying the fees and costs of the hearing officer. Either party desiring a transcript of the hearing shall pay for the cost thereof. Any post-hearing briefs must be submitted by the parties by no later than 21 days after a party's receipt of the transcript of the hearing, unless extended by the hearing officer for good cause or by mutual agreement of the parties.

(6.5) In the case of charges involving sexual abuse or severe physical abuse of a student or a person under the age of 18, the hearing officer shall make alternative hearing procedures to protect a witness who is a student or who is under the age of 18 from being intimidated or traumatized. Alternative hearing procedures may include, but are not limited to: (i) testimony made via a telecommunication device in a location other than the hearing room and outside the physical presence of the teacher and other hearing participants, (ii) testimony outside the physical presence of the teacher, or (iii) non-public testimony. During a testimony described under this subsection, each party must be permitted to ask a witness who is a student or who is under 18 years of age all relevant questions and follow-up questions. All questions must exclude evidence of the witness' sexual behavior or predisposition, unless the evidence is offered to prove that someone other than the teacher subject to the dismissal hearing engaged in the charge at issue.

(7) The hearing officer shall, within 30 days from the conclusion of the hearing or closure of the record, whichever is

later, make a decision as to whether or not the teacher shall be dismissed pursuant to Article 24A of this Code or report to the school board findings of fact and a recommendation as to whether or not the teacher shall be dismissed for cause and shall give a copy of the decision or findings of fact and recommendation to both the teacher and the school board. If a hearing officer fails without good cause, specifically provided in writing to both parties and the State Board of Education, to render a decision or findings of fact and recommendation within 30 days after the hearing is concluded or the record is closed, whichever is later, the parties may mutually agree to select a hearing officer pursuant to the alternative procedure, as provided in this Section, to rehear the charges heard by the hearing officer who failed to render a decision or findings of fact and recommendation or to review the record and render a decision. If any hearing officer fails without good cause, specifically provided in writing to both parties and the State Board of Education, to render a decision or findings of fact and recommendation within 30 days after the hearing is concluded or the record is closed, whichever is later, the hearing officer shall be removed from the master list of hearing officers maintained by the State Board of Education for not more than 24 months. The parties and the State Board of Education may also take such other actions as it deems appropriate, including recovering, reducing, or withholding any fees paid or to be paid to the hearing officer. If any hearing officer repeats such failure, he or she must be permanently removed from the master list maintained by the State Board of Education and may not be selected by parties through the alternative selection process under this paragraph (7) or paragraph (4) of this subsection (d). The board shall not lose jurisdiction to discharge a teacher if the hearing officer fails to render a decision or findings of fact and recommendation within the time specified in this Section. If the decision of the hearing officer for dismissal pursuant to Article 24A of this Code or of the school board for dismissal for cause is in favor of the teacher, then the hearing officer or school board shall order reinstatement to the same or substantially equivalent position and shall determine the amount for which the school board is liable, including, but not limited to, loss of income and benefits.

New matter indicated by italics - deletions by strikeout
(8) The school board, within 45 days after receipt of the hearing officer's findings of fact and recommendation as to whether (i) the conduct at issue occurred, (ii) the conduct that did occur was remediable, and (iii) the proposed dismissal should be sustained, shall issue a written order as to whether the teacher must be retained or dismissed for cause from its employ. The school board's written order shall incorporate the hearing officer's findings of fact, except that the school board may modify or supplement the findings of fact if, in its opinion, the findings of fact are against the manifest weight of the evidence.

If the school board dismisses the teacher notwithstanding the hearing officer's findings of fact and recommendation, the school board shall make a conclusion in its written order, giving its reasons therefor, and such conclusion and reasons must be included in its written order. The failure of the school board to strictly adhere to the timelines contained in this Section shall not render it without jurisdiction to dismiss the teacher. The school board shall not lose jurisdiction to discharge the teacher for cause if the hearing officer fails to render a recommendation within the time specified in this Section. The decision of the school board is final, unless reviewed as provided in paragraph (9) of this subsection (d).

If the school board retains the teacher, the school board shall enter a written order stating the amount of back pay and lost benefits, less mitigation, to be paid to the teacher, within 45 days after its retention order. Should the teacher object to the amount of the back pay and lost benefits or amount mitigated, the teacher shall give written objections to the amount within 21 days. If the parties fail to reach resolution within 7 days, the dispute shall be referred to the hearing officer, who shall consider the school board's written order and teacher's written objection and determine the amount to which the school board is liable. The costs of the hearing officer's review and determination must be paid by the board.

(9) The decision of the hearing officer pursuant to Article 24A of this Code or of the school board's decision to dismiss for cause is final unless reviewed as provided in Section 24-16 of this Code. If the school board's decision to dismiss for cause is contrary to the hearing officer's recommendation, the court on review shall give consideration to the school board's decision and
its supplemental findings of fact, if applicable, and the hearing officer's findings of fact and recommendation in making its decision. In the event such review is instituted, the school board shall be responsible for preparing and filing the record of proceedings, and such costs associated therewith must be divided equally between the parties.

(10) If a decision of the hearing officer for dismissal pursuant to Article 24A of this Code or of the school board for dismissal for cause is adjudicated upon review or appeal in favor of the teacher, then the trial court shall order reinstatement and shall remand the matter to the school board with direction for entry of an order setting the amount of back pay, lost benefits, and costs, less mitigation. The teacher may challenge the school board's order setting the amount of back pay, lost benefits, and costs, less mitigation, through an expedited arbitration procedure, with the costs of the arbitrator borne by the school board.

Any teacher who is reinstated by any hearing or adjudication brought under this Section shall be assigned by the board to a position substantially similar to the one which that teacher held prior to that teacher's suspension or dismissal.

(11) Subject to any later effective date referenced in this Section for a specific aspect of the dismissal process, the changes made by Public Act 97-8 shall apply to dismissals instituted on or after September 1, 2011. Any dismissal instituted prior to September 1, 2011 must be carried out in accordance with the requirements of this Section prior to amendment by Public Act 97-8.

(e) Nothing contained in Public Act 98-648 this amendatory Act of the 98th General Assembly repeals, supersedes, invalidates, or nullifies final decisions in lawsuits pending on July 1, 2014 (the effective date of Public Act 98-648) this amendatory Act of the 98th General Assembly in Illinois courts involving the interpretation of Public Act 97-8.

Sec. 24-14. Termination of contractual continued service by teacher. board, in order to accept another teaching assignment. Any teacher terminating said service not in accordance with this Section may be referred by the board to the State Superintendent of Education. The teacher is guilty of unprofessional conduct and liable to suspension of licensure for a period not to exceed 1 year, as provided in Section 21B-75 of this Code. The State Superintendent or his or her designee shall convene an informal evidentiary hearing no later than 90 days after receipt of a resolution by the board. If the State Superintendent or his or her designee finds that the teacher resigned during the school term without the concurrence of the board to accept another teaching assignment, the State Superintendent must suspend the teacher's license for one calendar year. In lieu of a hearing and finding, the teacher may agree to a lesser licensure sanction at the discretion of the State Superintendent.

Sec. 27A-5. Charter school; legal entity; requirements.
(a) A charter school shall be a public, nonsectarian, nonreligious, non-home based, and non-profit school. A charter school shall be organized and operated as a nonprofit corporation or other discrete, legal, nonprofit entity authorized under the laws of the State of Illinois.

(b) A charter school may be established under this Article by creating a new school or by converting an existing public school or attendance center to charter school status. Beginning on April 16, 2003 (the effective date of Public Act 93-3), in all new applications to establish a charter school in a city having a population exceeding 500,000, operation of the charter school shall be limited to one campus. The changes made to this Section by Public Act 93-3 do not apply to charter schools existing or approved on or before April 16, 2003 (the effective date of Public Act 93-3).

(b-5) In this subsection (b-5), "virtual-schooling" means a cyber school where students engage in online curriculum and instruction via the Internet and electronic communication with their teachers at remote locations and with students participating at different times.

From April 1, 2013 through December 31, 2016, there is a moratorium on the establishment of charter schools with virtual-schooling components in school districts other than a school district organized under Article 34 of this Code. This moratorium does not apply to a charter school with virtual-schooling components existing or approved prior to

New matter indicated by italics - deletions by strikeout
April 1, 2013 or to the renewal of the charter of a charter school with virtual-schooling components already approved prior to April 1, 2013.

On or before March 1, 2014, the Commission shall submit to the General Assembly a report on the effect of virtual-schooling, including without limitation the effect on student performance, the costs associated with virtual-schooling, and issues with oversight. The report shall include policy recommendations for virtual-schooling.

(c) A charter school shall be administered and governed by its board of directors or other governing body in the manner provided in its charter. The governing body of a charter school shall be subject to the Freedom of Information Act and the Open Meetings Act.

(d) For purposes of this subsection (d), "non-curricular health and safety requirement" means any health and safety requirement created by statute or rule to provide, maintain, preserve, or safeguard safe or healthful conditions for students and school personnel or to eliminate, reduce, or prevent threats to the health and safety of students and school personnel. "Non-curricular health and safety requirement" does not include any course of study or specialized instructional requirement for which the State Board has established goals and learning standards or which is designed primarily to impart knowledge and skills for students to master and apply as an outcome of their education.

A charter school shall comply with all non-curricular health and safety requirements applicable to public schools under the laws of the State of Illinois. On or before September 1, 2015, the State Board shall promulgate and post on its Internet website a list of non-curricular health and safety requirements that a charter school must meet. The list shall be updated annually no later than September 1. Any charter contract between a charter school and its authorizer must contain a provision that requires the charter school to follow the list of all non-curricular health and safety requirements promulgated by the State Board and any non-curricular health and safety requirements added by the State Board to such list during the term of the charter. Nothing in this subsection (d) precludes an authorizer from including non-curricular health and safety requirements in a charter school contract that are not contained in the list promulgated by the State Board, including non-curricular health and safety requirements of the authorizing local school board.

(e) Except as otherwise provided in the School Code, a charter school shall not charge tuition; provided that a charter school may charge
reasonable fees for textbooks, instructional materials, and student activities.

(f) A charter school shall be responsible for the management and operation of its fiscal affairs including, but not limited to, the preparation of its budget. An audit of each charter school's finances shall be conducted annually by an outside, independent contractor retained by the charter school. To ensure financial accountability for the use of public funds, on or before December 1 of every year of operation, each charter school shall submit to its authorizer and the State Board a copy of its audit and a copy of the Form 990 the charter school filed that year with the federal Internal Revenue Service. In addition, if deemed necessary for proper financial oversight of the charter school, an authorizer may require quarterly financial statements from each charter school.

(g) A charter school shall comply with all provisions of this Article, the Illinois Educational Labor Relations Act, all federal and State laws and rules applicable to public schools that pertain to special education and the instruction of English learners, and its charter. The change made by Public Act 96-104 to this subsection (g) is declaratory of existing law.

(h) A charter school may negotiate and contract with a school district, the governing body of a State college or university or public community college, or any other public or for-profit or nonprofit private entity for: (i) the use of a school building and grounds or any other real property or facilities that the charter school desires to use or convert for use as a charter school site, (ii) the operation and maintenance thereof, and (iii) the provision of any service, activity, or undertaking that the charter school is required to perform in order to carry out the terms of its charter. However, a charter school that is established on or after April 16, 2003 (the effective date of Public Act 93-3) and that operates in a city having a population exceeding 500,000 may not contract with a for-profit entity to manage or operate the school during the period that commences on April 16, 2003 (the effective date of Public Act 93-3) and concludes at the end of the 2004-2005 school year. Except as provided in subsection (i) of this Section, a school district may charge a charter school reasonable rent for the use of the district's buildings, grounds, and facilities. Any services for which a charter school contracts with a school district shall be provided by the district at cost. Any services for which a charter school contracts with a local school board or with the governing body of a State college or university or public community college shall be provided by the public entity at cost.

(i) In no event shall a charter school that is established by converting an existing school or attendance center to charter school status be required to pay rent for space that is deemed available, as negotiated and provided in the charter agreement, in school district facilities. However, all other costs for the operation and maintenance of school district facilities that are used by the charter school shall be subject to
negotiation between the charter school and the local school board and shall be set forth in the charter.

(j) A charter school may limit student enrollment by age or grade level.

(k) If the charter school is approved by the Commission, then the Commission charter school is its own local education agency.

Sec. 34-18.5. Criminal history records checks and checks of the Statewide Sex Offender Database and Statewide Murderer and Violent Offender Against Youth Database.

(a) Licensed and nonlicensed Certified and noncertified applicants for employment with the school district are required as a condition of employment to authorize a fingerprint-based criminal history records check to determine if such applicants have been convicted of any disqualifying, of the enumerated criminal or drug offenses in subsection (c) of this Section or have been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State. Authorization for the check shall be furnished by the applicant to the school district, except that if the applicant is a substitute teacher seeking employment in more than one school district, or a teacher seeking concurrent part-time employment positions with more than one school district (as a reading specialist, special education teacher or otherwise), or an educational support personnel employee seeking employment positions with more than one district, any such district may require the applicant to furnish authorization for the check to the regional superintendent of the educational service region in which are located the school districts in which the applicant is seeking employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee. Upon receipt of this authorization, the school district or the appropriate regional superintendent, as the case may be, shall submit the applicant's name, sex, race, date of birth, social security number, fingerprint images,
and other identifiers, as prescribed by the Department of State Police, to the Department. The regional superintendent submitting the requisite information to the Department of State Police shall promptly notify the school districts in which the applicant is seeking employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee that the check of the applicant has been requested. The Department of State Police and the Federal Bureau of Investigation shall furnish, pursuant to a fingerprint-based criminal history records check, records of convictions, forever and hereinafter, until expunged, to the president of the school board for the school district that requested the check, or to the regional superintendent who requested the check. The Department shall charge the school district or the appropriate regional superintendent a fee for conducting such check, which fee shall be deposited in the State Police Services Fund and shall not exceed the cost of the inquiry; and the applicant shall not be charged a fee for such check by the school district or by the regional superintendent. Subject to appropriations for these purposes, the State Superintendent of Education shall reimburse the school district and regional superintendent for fees paid to obtain criminal history records checks under this Section.

(a-5) The school district or regional superintendent shall further perform a check of the Statewide Sex Offender Database, as authorized by the Sex Offender Community Notification Law, for each applicant. The check of the Statewide Sex Offender Database must be conducted by the school district or regional superintendent once for every 5 years that an applicant remains employed by the school district.

(a-6) The school district or regional superintendent shall further perform a check of the Statewide Murderer and Violent Offender Against Youth Database, as authorized by the Murderer and Violent Offender Against Youth Community Notification Law, for each applicant. The check of the Murderer and Violent Offender Against Youth Database must be conducted by the school district or regional superintendent once for every 5 years that an applicant remains employed by the school district.

(b) Any information concerning the record of convictions obtained by the president of the board of education or the regional superintendent shall be confidential and may only be transmitted to the general superintendent of the school district or his designee, the appropriate regional superintendent if the check was requested by the board of education for the school district, the presidents of the appropriate board of education or school boards if the check was requested from the

Department of State Police by the regional superintendent, the State Superintendent of Education, the State Educator Preparation and Licensure Board or any other person necessary to the decision of hiring the applicant for employment. A copy of the record of convictions obtained from the Department of State Police shall be provided to the applicant for employment. Upon the check of the Statewide Sex Offender Database, the school district or regional superintendent shall notify an applicant as to whether or not the applicant has been identified in the Database as a sex offender. If a check of an applicant for employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee in more than one school district was requested by the regional superintendent, and the Department of State Police upon a check ascertains that the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) of this Section or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed in this State, would have been punishable as a felony under the laws of this State and so notifies the regional superintendent and if the regional superintendent upon a check ascertains that the applicant has not been identified in the Sex Offender Database as a sex offender, then the regional superintendent shall issue to the applicant a certificate evidencing that as of the date specified by the Department of State Police the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) of this Section or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed in this State, would have been punishable as a felony under the laws of this State and evidencing that as of the date that the regional superintendent conducted a check of the Statewide Sex Offender Database, the applicant has not been identified in the Database as a sex offender. The school board of any school district may rely on the certificate issued by any regional superintendent to that substitute teacher, concurrent part-time teacher, or concurrent educational support personnel employee or may initiate its own criminal history records check of the applicant through the Department of State Police and its own check of the Statewide Sex Offender Database as provided in subsection (a). Any

unauthorized release of confidential information may be a violation of Section 7 of the Criminal Identification Act.

(c) The board of education shall not knowingly employ a person who has been convicted of any offense that would subject him or her to license suspension or revocation pursuant to Section 21B-80 of this Code, except as provided under subsection (b) of 21B-80. Further, the board of education shall not knowingly employ a person who has been found to be the perpetrator of sexual or physical abuse of any minor under 18 years of age pursuant to proceedings under Article II of the Juvenile Court Act of 1987. As a condition of employment, the board of education must consider the status of a person who has been issued an indicated finding of abuse or neglect of a child by the Department of Children and Family Services under the Abused and Neglected Child Reporting Act or by a child welfare agency of another jurisdiction.

(d) The board of education shall not knowingly employ a person for whom a criminal history records check and a Statewide Sex Offender Database check has not been initiated.

(e) No later than 15 business days after receipt of a record of conviction or of checking the Statewide Murderer and Violent Offender Against Youth Database or the Statewide Sex Offender Database and finding a registration, the general superintendent of schools or the applicable regional superintendent shall, in writing, notify the State Superintendent of Education of any license holder who has been convicted of a crime set forth in Section 21B-80 of this Code. Upon receipt of the record of conviction of or a finding of child abuse by a holder of any license certificate issued pursuant to Article 21B or Section 34-8.1 or 34-83 of the School Code, the State Superintendent of Education may initiate licensure certificate suspension and revocation proceedings as authorized by law. If the receipt of the record of conviction or finding of child abuse is received within 6 months after the initial grant of or renewal of a license, the State Superintendent of Education may rescind the license holder's license.

(e-5) The general superintendent of schools shall, in writing, notify the State Superintendent of Education of any license certificate holder whom he or she has reasonable cause to believe has committed an intentional act of abuse or neglect with the result of making a child an abused child or a neglected child, as defined in Section 3 of the Abused and Neglected Child Reporting Act, and that act resulted in the license certificate holder's dismissal or resignation from the school district. This
notification must be submitted within 30 days after the dismissal or resignation. The license certificate holder must also be contemporaneously sent a copy of the notice by the superintendent. All correspondence, documentation, and other information so received by the State Superintendent of Education, the State Board of Education, or the State Educator Preparation and Licensure State Teacher Certification Board under this subsection (e-5) is confidential and must not be disclosed to third parties, except (i) as necessary for the State Superintendent of Education or his or her designee to investigate and prosecute pursuant to Article 21B of this Code, (ii) pursuant to a court order, (iii) for disclosure to the license certificate holder or his or her representative, or (iv) as otherwise provided in this Article and provided that any such information admitted into evidence in a hearing is exempt from this confidentiality and non-disclosure requirement. Except for an act of willful or wanton misconduct, any superintendent who provides notification as required in this subsection (e-5) shall have immunity from any liability, whether civil or criminal or that otherwise might result by reason of such action.

(f) After March 19, 1990, the provisions of this Section shall apply to all employees of persons or firms holding contracts with any school district including, but not limited to, food service workers, school bus drivers and other transportation employees, who have direct, daily contact with the pupils of any school in such district. For purposes of criminal history records checks and checks of the Statewide Sex Offender Database on employees of person or firms holding contracts with more than one school district and assigned to more than one school district, the regional superintendent of the educational service region in which the contracting school districts are located may, at the request of any such school district, be responsible for receiving the authorization for a criminal history records check prepared by each such employee and submitting the same to the Department of State Police and for conducting a check of the Statewide Sex Offender Database for each employee. Any information concerning the record of conviction and identification as a sex offender of any such employee obtained by the regional superintendent shall be promptly reported to the president of the appropriate school board or school boards.

(f-5) Upon request of a school or school district, any information obtained by the school district pursuant to subsection (f) of this Section within the last year must be made available to the requesting school or school district.

(g) Prior to the commencement of any student teaching experience or required internship (which is referred to as student teaching in this Section) in the public schools, a student teacher is required to authorize a fingerprint-based criminal history records check. Authorization for and payment of the costs of the check must be furnished by the student teacher to the school district. Upon receipt of this authorization and payment, the school district shall submit the student teacher's name, sex, race, date of birth, social security number, fingerprint images, and other identifiers, as prescribed by the Department of State Police, to the Department of State Police. The Department of State Police and the Federal Bureau of Investigation shall furnish, pursuant to a fingerprint-based criminal history records check, records of convictions, forever and hereinafter, until expunged, to the president of the board. The Department shall charge the school district a fee for conducting the check, which fee must not exceed the cost of the inquiry and must be deposited into the State Police Services Fund. The school district shall further perform a check of the Statewide Sex Offender Database, as authorized by the Sex Offender Community Notification Law, and of the Statewide Murderer and Violent Offender Against Youth Database, as authorized by the Murderer and Violent Offender Against Youth Registration Act, for each student teacher. The board may not knowingly allow a person to student teach for whom a criminal history records check, a Statewide Sex Offender Database check, and a Statewide Murderer and Violent Offender Against Youth Database check have not been completed and reviewed by the district.

A copy of the record of convictions obtained from the Department of State Police must be provided to the student teacher. Any information concerning the record of convictions obtained by the president of the board is confidential and may only be transmitted to the general superintendent of schools or his or her designee, the State Superintendent of Education, the State Educator Preparation and Licensure Board, or, for clarification purposes, the Department of State Police or the Statewide Sex Offender Database or Statewide Murderer and Violent Offender Against Youth Database. Any unauthorized release of confidential information may be a violation of Section 7 of the Criminal Identification Act.

The board may not knowingly allow a person to student teach who has been convicted of any offense that would subject him or her to license suspension or revocation pursuant to subsection (c) of Section 21B-80 of this Code, except as provided under subsection (b) of Section 21B-80. Further, the board may not allow a person to student teach if he or she ☞

who has been found to be the perpetrator of sexual or physical abuse of a minor under 18 years of age pursuant to proceedings under Article II of the Juvenile Court Act of 1987. Sec. 34-18.6. Child abuse and neglect; detection, reporting, and prevention; willful or negligent failure to report.

(a) The Board of Education may provide staff development for local school site personnel who work with pupils in grades kindergarten through 8 in the detection, reporting, and prevention of child abuse and neglect.

(b) The Department of Children and Family Services may, in cooperation with school officials, distribute appropriate materials in school buildings listing the toll-free telephone number established in Section 7.6 of the Abused and Neglected Child Reporting Act, including methods of making a report under Section 7 of the Abused and Neglected Child Reporting Act, to be displayed in a clearly visible location in each school building.

(c) Except for an employee licensed under Article 21B of this Code, if the board determines that any school district employee has willfully or negligently failed to report an instance of suspected child abuse or neglect, as required by the Abused and Neglected Child Reporting Act, then the board may dismiss that employee immediately upon that determination. For purposes of this subsection (c), negligent failure to report an instance of suspected child abuse or neglect occurs when a school district employee personally observes an instance of suspected child abuse or neglect and reasonably believes, in his or her professional or official capacity, that the instance constitutes an act of child abuse or neglect under the Abused and Neglected Child Reporting Act, and he or she, without willful intent, fails to immediately report or cause a report to be made of the suspected abuse or neglect to the Department of Children and Family Services, as required by the Abused and Neglected Child Reporting Act.

Sec. 34-18.61. Sexual abuse investigations at schools. Every 2 years, the school district must review all existing policies and procedures concerning sexual abuse investigations at schools to ensure consistency with Section 22-85.

Sec. 34-85. Removal for cause; notice and hearing; suspension.

(a) No teacher employed by the board of education shall (after serving the probationary period specified in Section 34-84) be removed except for cause. Teachers (who have completed the probationary period specified in Section 34-84 of this Code) shall be removed for cause in accordance with the procedures set forth in this Section or, at the board's option, the procedures set forth in Section 24-16.5 of this Code or such other procedures established in an agreement entered into between the board and the exclusive representative of the district's teachers under Section 34-85c of this Code for teachers (who have completed the probationary period specified in Section 34-84 of this Code) assigned to schools identified in that agreement. No principal employed by the board of education shall be removed during the term of his or her performance contract except for cause, which may include but is not limited to the principal's repeated failure to implement the school improvement plan or to comply with the provisions of the Uniform Performance Contract, including additional criteria established by the Council for inclusion in the performance contract pursuant to Section 34-2.3. Before service of notice of charges on account of causes that may be deemed to be remediable, the teacher or principal must be given reasonable warning in writing, stating specifically the causes that, if not removed, may result in charges; however, no such written warning is required if the causes have been the subject of a remediation plan pursuant to Article 24A of this Code or if the board and the exclusive representative of the district's teachers have entered into an agreement pursuant to Section 34-85c of this Code, pursuant to an alternative system of remediation. No written warning shall be required for conduct on the part of a teacher or principal that is cruel, immoral, negligent, or criminal or that in any way causes psychological or physical harm or injury to a student, as that conduct is deemed to be irremediable. No written warning shall be required for a material breach of the uniform principal performance contract, as that conduct is deemed to be irremediable; provided that not less than 30 days before the vote of the local school council to seek the dismissal of a principal for a material

breach of a uniform principal performance contract, the local school
council shall specify the nature of the alleged breach in writing and
provide a copy of it to the principal.

(1) To initiate dismissal proceedings against a teacher or
principal, the general superintendent must first approve written
charges and specifications against the teacher or principal. A local
school council may direct the general superintendent to approve
written charges against its principal on behalf of the Council upon
the vote of 7 members of the Council. The general superintendent
must approve those charges within 45 calendar days or provide a
written reason for not approving those charges. A written notice of
those charges, including specifications, shall be served upon the
teacher or principal within 10 business days of the approval of the
charges. Any written notice sent on or after July 1, 2012 shall also
inform the teacher or principal of the right to request a hearing
before a mutually selected hearing officer, with the cost of the
hearing officer split equally between the teacher or principal and
the board, or a hearing before a qualified hearing officer chosen by
the general superintendent, with the cost of the hearing officer paid
by the board. If the teacher or principal cannot be found upon
diligent inquiry, such charges may be served upon him by mailing
a copy thereof in a sealed envelope by prepaid certified mail, return
receipt requested, to the teacher's or principal's last known address.
A return receipt showing delivery to such address within 20
calendar days after the date of the approval of the charges shall
constitute proof of service.

(2) No hearing upon the charges is required unless the
teacher or principal within 17 calendar days after receiving notice
requests in writing of the general superintendent that a hearing be
scheduled. Pending the hearing of the charges, the general
superintendent or his or her designee may suspend the teacher or
principal charged without pay in accordance with rules prescribed
by the board, provided that if the teacher or principal charged is not
dismissed based on the charges, he or she must be made whole for
lost earnings, less setoffs for mitigation.

(3) The board shall maintain a list of at least 9 qualified
hearing officers who will conduct hearings on charges and
specifications. The list must be developed in good faith
consultation with the exclusive representative of the board's

New matter indicated by italics - deletions by strikeout
teachers and professional associations that represent the board's principals. The list may be revised on July 1st of each year or earlier as needed. To be a qualified hearing officer, the person must (i) be accredited by a national arbitration organization and have had a minimum of 5 years of experience as an arbitrator in cases involving labor and employment relations matters between employers and employees or their exclusive bargaining representatives and (ii) beginning September 1, 2012, have participated in training provided or approved by the State Board of Education for teacher dismissal hearing officers so that he or she is familiar with issues generally involved in evaluative and non-evaluative dismissals.

Within 5 business days after receiving the notice of request for a hearing, the general superintendent and the teacher or principal or their legal representatives shall alternately strike one name from the list until only one name remains. Unless waived by the teacher, the teacher or principal shall have the right to proceed first with the striking. If the teacher or principal fails to participate in the striking process, the general superintendent shall either select the hearing officer from the list developed pursuant to this paragraph (3) or select another qualified hearing officer from the master list maintained by the State Board of Education pursuant to subsection (c) of Section 24-12 of this Code.

(4) If the notice of dismissal was sent to the teacher or principal before July 1, 2012, the fees and costs for the hearing officer shall be paid by the State Board of Education. If the notice of dismissal was sent to the teacher or principal on or after July 1, 2012, the hearing officer's fees and costs must be paid as follows in this paragraph (4). The fees and permissible costs for the hearing officer shall be determined by the State Board of Education. If the hearing officer is mutually selected by the parties through alternate striking in accordance with paragraph (3) of this subsection (a), then the board and the teacher or their legal representative shall each pay 50% of the fees and costs and any supplemental allowance to which they agree. If the hearing officer is selected by the general superintendent without the participation of the teacher or principal, then the board shall pay 100% of the hearing officer fees and costs. The hearing officer shall submit for payment a
billing statement to the parties that itemizes the charges and expenses and divides them in accordance with this Section.

(5) The teacher or the principal charged is required to answer the charges and specifications and aver affirmative matters in his or her defense, and the time for doing so must be set by the hearing officer. The State Board of Education shall adopt rules so that each party has a fair opportunity to present its case and to ensure that the dismissal proceeding is concluded in an expeditious manner. The rules shall address, without limitation, the teacher or principal's answer and affirmative defenses to the charges and specifications; a requirement that each party make mandatory disclosures without request to the other party and then update the disclosure no later than 10 calendar days prior to the commencement of the hearing, including a list of the names and addresses of persons who may be called as witnesses at the hearing, a summary of the facts or opinions each witness will testify to, and all other documents and materials, including information maintained electronically, relevant to its own as well as the other party's case (the hearing officer may exclude witnesses and exhibits not identified and shared, except those offered in rebuttal for which the party could not reasonably have anticipated prior to the hearing); pre-hearing discovery and preparation, including provision for written interrogatories and requests for production of documents, provided that discovery depositions are prohibited; the conduct of the hearing; the right of each party to be represented by counsel, the offer of evidence and witnesses and the cross-examination of witnesses; the authority of the hearing officer to issue subpoenas and subpoenas duces tecum, provided that the hearing officer may limit the number of witnesses to be subpoenaed in behalf of each party to no more than 7; the length of post-hearing briefs; and the form, length, and content of hearing officers’ reports and recommendations to the general superintendent.

The hearing officer shall commence the hearing within 75 calendar days and conclude the hearing within 120 calendar days after being selected by the parties as the hearing officer, provided that these timelines may be modified upon the showing of good cause or mutual agreement of the parties. Good cause for the purposes of this paragraph (5) shall mean the illness or otherwise.

unavoidable emergency of the teacher, district representative, their legal representatives, the hearing officer, or an essential witness as indicated in each party's pre-hearing submission. In a dismissal hearing in which a witness is a student or is under the age of 18, the hearing officer must make accommodations for the witness, as provided under paragraph (5.5) of this subsection. The hearing officer shall consider and give weight to all of the teacher's evaluations written pursuant to Article 24A that are relevant to the issues in the hearing. Except as otherwise provided under paragraph (5.5) of this subsection, the teacher or principal has the privilege of being present at the hearing with counsel and of cross-examining witnesses and may offer evidence and witnesses and present defenses to the charges. Each party shall have no more than 3 days to present its case, unless extended by the hearing officer to enable a party to present adequate evidence and testimony, including due to the other party's cross-examination of the party's witnesses, for good cause or by mutual agreement of the parties. The State Board of Education shall define in rules the meaning of "day" for such purposes. All testimony at the hearing shall be taken under oath administered by the hearing officer. The hearing officer shall cause a record of the proceedings to be kept and shall employ a competent reporter to take stenographic or stenotype notes of all the testimony. The costs of the reporter's attendance and services at the hearing shall be paid by the party or parties who are paying the fees and costs of the hearing officer. Either party desiring a transcript of the hearing shall pay for the cost thereof. At the close of the hearing, the hearing officer shall direct the parties to submit post-hearing briefs no later than 21 calendar days after receipt of the transcript. Either or both parties may waive submission of briefs.

(5.5) In the case of charges involving sexual abuse or severe physical abuse of a student or a person under the age of 18, the hearing officer shall make alternative hearing procedures to protect a witness who is a student or who is under the age of 18 from being intimidated or traumatized. Alternative hearing procedures may include, but are not limited to: (i) testimony made via a telecommunication device in a location other than the hearing room and outside the physical presence of the teacher or principal and other hearing participants, (ii) testimony outside the...
physical presence of the teacher or principal, or (iii) non-public testimony. During a testimony described under this subsection, each party must be permitted to ask a witness who is a student or who is under 18 years of age all relevant questions and follow-up questions. All questions must exclude evidence of the witness' sexual behavior or predisposition, unless the evidence is offered to prove that someone other than the teacher subject to the dismissal hearing engaged in the charge at issue.

(6) The hearing officer shall within 30 calendar days from the conclusion of the hearing report to the general superintendent findings of fact and a recommendation as to whether or not the teacher or principal shall be dismissed and shall give a copy of the report to both the teacher or principal and the general superintendent. The State Board of Education shall provide by rule the form of the hearing officer's report and recommendation.

(7) The board, within 45 days of receipt of the hearing officer's findings of fact and recommendation, shall make a decision as to whether the teacher or principal shall be dismissed from its employ. The failure of the board to strictly adhere to the timeliness contained herein shall not render it without jurisdiction to dismiss the teacher or principal. In the event that the board declines to dismiss the teacher or principal after review of a hearing officer's recommendation, the board shall set the amount of back pay and benefits to award the teacher or principal, which shall include offsets for interim earnings and failure to mitigate losses. The board shall establish procedures for the teacher's or principal's submission of evidence to it regarding lost earnings, lost benefits, mitigation, and offsets. The decision of the board is final unless reviewed in accordance with paragraph (8) of this subsection (a).

(8) The teacher may seek judicial review of the board's decision in accordance with the Administrative Review Law, which is specifically incorporated in this Section, except that the review must be initiated in the Illinois Appellate Court for the First District. In the event judicial review is instituted, any costs of preparing and filing the record of proceedings shall be paid by the party instituting the review. In the event the appellate court reverses a board decision to dismiss a teacher or principal and directs the board to pay the teacher or the principal back pay and benefits, the appellate court shall remand the matter to the board to

PUBLIC ACT 101-0538
(Senate Bill No. 1127)

AN ACT concerning transportation.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Aeronautics Act is amended by changing Section 42 as follows:

(620 ILCS 5/42) (from Ch. 15 1/2, par. 22.42)
Sec. 42. Regulation of aircraft, airmen, and airports.

New matter indicated by italics - deletions by strikeout
(a) The general public interest and safety, the safety of persons operating, using, or traveling in, aircraft, and of persons and property on the ground, and the interest of aeronautical progress require that aircraft operated within this State should be airworthy, that airmen should be properly qualified, and that air navigation facilities should be suitable for the purposes for which they are designed. The purposes of this Act require that the Department should be enabled to exercise the powers of regulation and supervision herein granted. The advantage of uniform regulation makes it desirable that aircraft operated within this State should conform with respect to design, construction, and airworthiness to the standards prescribed by the United States Government with respect to civil aircraft subject to its jurisdiction and that persons engaging in aeronautics within this State should have the qualifications necessary for obtaining and holding appropriate airman certificates of the United States. It is desirable and right that all applicable fees and taxes shall be paid with respect to aircraft operated within this State.

(b) In light of the findings in subsection (a), the Department is authorized:

(1) To require the registration, every 2 years, of federal licenses, certificates or permits of civil aircraft engaged in air navigation within this State, and a one-time registration of airmen engaged in aeronautics within this State, and to issue certificates of such registration. These certificates of registration constitute the authorization of such aircraft and airmen for operations within this State to the extent permitted by the federal licenses, certificates or permits so registered. It shall charge a fee, payable every 2 years, for the registration of each federal license, certificate or permit of $20 for each aircraft certificate and a one-time fee of $20, payable at registration, for each airman's certificate. It may accept as evidence of the holding of a federal license, certificate or permit the verified application of the airman or the owner of the aircraft, which application shall contain such information as the Department may by rule, ruling, regulation, order or decision prescribe. The Department's authority to register aircraft or to issue certificates of registration is limited as follows:

(i) Except as to any aircraft vehicle purchased before March 8, 1963, the Department, in the case of the first registration of any aircraft vehicle for any given owner on or after March 8, 1963, may not issue a certificate of

registration with respect to any aircraft vehicle until after the Department has been satisfied that no tax under the Use Tax Act, the Aircraft Use Tax Law, the Municipal Use Tax Act, or the Home Rule County Use Tax Law is owing by reason of the use of the vehicle in Illinois or that any tax so imposed has been paid. A receipt issued under those Acts by the Department of Revenue constitutes proof of payment of the tax. For the purpose of this paragraph, "aircraft vehicle" means a single aircraft.

(ii) If the proof of payment of the tax or of nonliability therefor is, after the issuance of the certificate of registration, found to be invalid, the Department shall revoke the certificate and require that the certificate be returned to the Department.

(2) To classify and approve airports and restricted landing areas and any alterations or extensions thereof. Certificates of approval issued pursuant to this paragraph, or pursuant to any prior law, shall be issued in the name of the applicant and shall be transferable upon a change of ownership or control of the airport or restricted landing area only after approval of the Department. No charge or fee shall be made or imposed for any kind of certificate of approval or a transfer thereof.

(3) To revoke, temporarily or permanently, any certificate of registration of an aircraft or airman issued by it, or to refuse to issue any such certificate of registration, when it shall reasonably determine that any aircraft is not airworthy, or that any airman:

(i) is not qualified;
(ii) has willfully violated the laws of this State pertaining to aeronautics or any rules, rulings, regulations, orders, or decisions issued pursuant thereto, or any Federal law or any rule or regulation issued pursuant thereto;
(iii) is addicted to the use of narcotics or other habit forming drug, or to the excessive use of intoxicating liquor;
(iv) has made any false statement in any application for registration of a federal license, certificate or permit; or
(v) has been guilty of other conduct, acts, or practices dangerous to the public safety or the safety of those engaged in aeronautics.

New matter indicated by italics - deletions by strikeout
(c) The Department may refuse to issue or may suspend the certificate of any person who fails to file a return, or to pay the tax, penalty or interest shown in a filed return, or to pay any final assessment of tax, penalty or interest, as required by any tax Act administered by the Illinois Department of Revenue, until such time as the requirements of any such tax Act are satisfied.

(d) The Department shall require the display of an POW/MIA flag at any airport in its jurisdiction, either upon the same flagstaff as the United States national flag or otherwise.

If the POW/MIA flag is displayed on the same flagstaff as the United States flag, the POW/MIA flag shall fly immediately below the United States flag. If the United States flag and a State flag or other flag or pennant is flown along with the POW/MIA flag on the same flagstaff, the order from top to bottom shall be: the United States flag, the POW/MIA flag, then the State flag or other flags, unless otherwise stipulated by the Flag Display Act.

affidavit. The certificate of the clerk of the court that he or she has sent the copy in pursuance of this Section is evidence that he or she has done so.

(b) In any action brought by a unit of local government to cause the demolition, repair, or enclosure of a dangerous and unsafe or uncompleted or abandoned building, notice by publication under this Section may be commenced during the time during which attempts are made to locate the defendant for personal service. Sec. 27A-8. Evaluation of charter proposals.

(a) This Section does not apply to a charter school established by referendum under Section 27A-6.5. In evaluating any charter school proposal submitted to it, the local school board and the Commission shall give preference to proposals that:

(1) demonstrate a high level of local pupil, parental, community, business, and school personnel support;
(2) set rigorous levels of expected pupil achievement and demonstrate feasible plans for attaining those levels of achievement; and
(3) are designed to enroll and serve a substantial proportion of at-risk children; provided that nothing in the Charter Schools Law shall be construed as intended to limit the establishment of charter schools to those that serve a substantial portion of at-risk children or to in any manner restrict, limit, or discourage the establishment of charter schools that enroll and serve other pupil populations under a nonexclusive, nondiscriminatory admissions policy.

(b) In the case of a proposal to establish a charter school by converting an existing public school or attendance center to charter school status, evidence that the proposed formation of the charter school has received majority support from certified teachers and from parents and guardians in the school or attendance center affected by the proposed

charter, and, if applicable, from a local school council, shall be demonstrated by a petition in support of the charter school signed by certified teachers and a petition in support of the charter school signed by parents and guardians and, if applicable, by a vote of the local school council held at a public meeting. In the case of all other proposals to establish a charter school, evidence of sufficient support to fill the number of pupil seats set forth in the proposal may be demonstrated by a petition in support of the charter school signed by parents and guardians of students eligible to attend the charter school. In all cases, the individuals, organizations, or entities who initiate the proposal to establish a charter school may elect, in lieu of including any petition referred to in this subsection as a part of the proposal submitted to the local school board, to demonstrate that the charter school has received the support referred to in this subsection by other evidence and information presented at the public meeting that the local school board is required to convene under this Section.

(c) Within 45 days of receipt of a charter school proposal, the local school board shall convene a public meeting to obtain information to assist the board in its decision to grant or deny the charter school proposal. A local school board may develop its own process for receiving charter school proposals on an annual basis that follows the same timeframes as set forth in this Article. Final decisions of a local school board are subject to judicial review under the Administrative Review Law. Only after the local school board process is followed may a charter school applicant appeal to the Commission.

(d) Notice of the public meeting required by this Section shall be published in a community newspaper published in the school district in which the proposed charter is located and, if there is no such newspaper, then in a newspaper published in the county and having circulation in the school district. The notices shall be published not more than 10 days nor less than 5 days before the meeting and shall state that information regarding a charter school proposal will be heard at the meeting. Copies of the notice shall also be posted at appropriate locations in the school or attendance center proposed to be established as a charter school, the public schools in the school district, and the local school board office. If 45 days pass without the local school board holding a public meeting, then the charter applicant may submit the proposal to the Commission, where it must be addressed in accordance with the provisions set forth in subsection (g) of this Section.

New matter indicated by italics - deletions by strikeout
(e) Within 30 days of the public meeting, the local school board shall vote, in a public meeting, to either grant or deny the charter school proposal. If the local school board has not voted in a public meeting within 30 days after the public meeting, then the charter applicant may submit the proposal to the Commission, where it must be addressed in accordance with the provisions set forth in subsection (g) of this Section.

(f) Within 7 days of the public meeting required under subsection (e) of this Section, the local school board shall file a report with the State Board granting or denying the proposal. If the local school board has approved the proposal, within 30 days of receipt of the local school board's report, the State Board shall determine whether the approved charter proposal is consistent with the provisions of this Article and, if the approved proposal complies, certify the proposal pursuant to Section 27A-6.

(g) (Blank). If the local school board votes to deny the proposal, then the charter school applicant has 30 days from the date of that vote to submit an appeal to the Commission. In such instances or in those instances referenced in subsections (d) and (e) of this Section, the Commission shall follow the same process and be subject to the same timelines for review as the local school board:

(h) (Blank). The Commission may reverse a local school board's decision to deny a charter school proposal if the Commission finds that the proposal (i) is in compliance with this Article and (ii) is in the best interests of the students the charter school is designed to serve. Final decisions of the Commission are subject to judicial review under the Administrative Review Law.

(i) (Blank). In the case of a charter school proposed to be jointly authorized by 2 or more school districts, the local school boards may unanimously deny the charter school proposal with a statement that the local school boards are not opposed to the charter school, but that they yield to the Commission in light of the complexities of joint administration.

(105 ILCS 5/27A-9)
Sec. 27A-9. Term of charter; renewal.
(a) For charters granted before January 1, 2017 (the effective date of Public Act 99-840), a charter may be granted for a period not less than 5 and not more than 10 school years. For charters granted on or after January
1, 2017 (the effective date of Public Act 99-840), a charter shall be granted for a period of 5 school years. For charters renewed before January 1, 2017 (the effective date of Public Act 99-840), a charter may be renewed in incremental periods not to exceed 5 school years. For charters renewed on or after January 1, 2017 (the effective date of Public Act 99-840), a charter may be renewed in incremental periods not to exceed 10 school years; however, the State Board or Commission may renew a charter only in incremental periods not to exceed 5 years. Authorizers shall ensure that every charter granted on or after January 1, 2017 (the effective date of Public Act 99-840) includes standards and goals for academic, organizational, and financial performance. A charter must meet all standards and goals for academic, organizational, and financial performance set forth by the authorizer in order to be renewed for a term in excess of 5 years but not more than 10 years. If an authorizer fails to establish standards and goals, a charter shall not be renewed for a term in excess of 5 years. Nothing contained in this Section shall require an authorizer to grant a full 10-year renewal term to any particular charter school, but an authorizer may award a full 10-year renewal term to charter schools that have a demonstrated track record of improving student performance.

(b) A charter school renewal proposal submitted to the local school board or the State Board or Commission, as the chartering entity, shall contain:

(1) A report on the progress of the charter school in achieving the goals, objectives, pupil performance standards, content standards, and other terms of the initial approved charter proposal; and

(2) A financial statement that discloses the costs of administration, instruction, and other spending categories for the charter school that is understandable to the general public and that will allow comparison of those costs to other schools or other comparable organizations, in a format required by the State Board.

(c) A charter may be revoked or not renewed if the local school board or the State Board or Commission, as the chartering entity, clearly demonstrates that the charter school did any of the following, or otherwise failed to comply with the requirements of this law:

(1) Committed a material violation of any of the conditions, standards, or procedures set forth in the charter.
(2) Failed to meet or make reasonable progress toward achievement of the content standards or pupil performance standards identified in the charter.

(3) Failed to meet generally accepted standards of fiscal management.

(4) Violated any provision of law from which the charter school was not exempted.

In the case of revocation, the local school board or the State Board or Commission, as the chartering entity, shall notify the charter school in writing of the reason why the charter is subject to revocation. The charter school shall submit a written plan to the local school board, the State Board, or the Commission, whichever is applicable, to rectify the problem. The plan shall include a timeline for implementation, which shall not exceed 2 years or the date of the charter's expiration, whichever is earlier. If the local school board or the State Board or Commission, as the chartering entity, finds that the charter school has failed to implement the plan of remediation and adhere to the timeline, then the chartering entity shall revoke the charter. Except in situations of an emergency where the health, safety, or education of the charter school's students is at risk, the revocation shall take place at the end of a school year. Nothing in Public Act 96-105 shall be construed to prohibit an implementation timetable that is less than 2 years in duration. No local school board may arbitrarily or capriciously revoke or not renew a charter. Except for extenuating circumstances outlined in this Section, if a local school board revokes or does not renew a charter, it must ensure that all students currently enrolled in the charter school are placed in schools that are higher performing than that charter school, as defined in the State's federal Every Student Succeeds Act accountability plan. In determining whether extenuating circumstances exist, a local school board must detail, by clear and convincing evidence, that factors unrelated to the charter school's accountability designation outweigh the charter school's academic performance.

(d) (Blank).

(e) Notice of a local school board's decision to deny, revoke, or not renew a charter shall be provided to the Commission and the State Board. Until July 1, 2020, the Commission may reverse a local board's decision to not renew a charter if the Commission finds that the charter school or charter school proposal (i) is in compliance with this Article, and (ii) is in the best interests of the students it is designed to serve. _The State Board may reverse a local board's decision to revoke or, beginning on July 1, 2020, not renew a charter if the State Board finds that the charter school or charter school proposal (i) is in compliance with this Article and (ii) is in the best interests of the students it is designed to serve. The State Board may condition the granting of an appeal on the acceptance by the charter school of funding in an amount less than that requested in the proposal submitted to the local school board. The State Board must appoint and utilize a hearing officer for any appeals conducted under this subsection. Final decisions of the State Board are subject to judicial review under the Administrative Review Law._

(f) Notwithstanding other provisions of this Article, if the Commission on appeal reverses a local board's decision or if a charter school is approved by referendum, the Commission shall act as the authorized chartering entity for the charter school. The Commission shall approve the charter and shall perform all functions under this Article otherwise performed by the local school board. The State Board shall determine whether the charter proposal approved by the Commission is consistent with the provisions of this Article and, if the approved proposal complies, certify the proposal pursuant to this Article. The State Board shall report the aggregate number of charter school pupils resident in a school district to that district and shall notify the district of the amount of funding to be paid by the State Board to the charter school enrolling such students. The Commission shall require the charter school to maintain accurate records of daily attendance that shall be deemed sufficient to file claims under Section 18-8.05 or 18-8.15 notwithstanding any other requirements of that Section regarding hours of instruction and teacher certification. The State Board shall withhold from funds otherwise due the district the funds authorized by this Article to be paid to the charter school and shall pay such amounts to the charter school.

(g) For charter schools authorized by the Commission, the Commission shall quarterly certify to the State Board the student enrollment for each of its charter schools.
(h) For charter schools authorized by the Commission, the State Board shall pay directly to a charter school any federal or State aid attributable to a student with a disability attending the school.

Sec. 27A-11.5. State financing. The State Board of Education shall make the following funds available to school districts and charter schools:

(1) From a separate appropriation made to the State Board for purposes of this subdivision (1), the State Board shall make transition impact aid available to school districts that approve a new charter school or that have funds withheld by the State Board to fund a new charter school that is chartered by the Commission. The amount of the aid shall equal 90% of the per capita funding paid to the charter school during the first year of its initial charter term, 65% of the per capita funding paid to the charter school during the second year of its initial term, and 35% of the per capita funding paid to the charter school during the third year of its initial term. This transition impact aid shall be paid to the local school board in equal quarterly installments, with the payment of the installment for the first quarter being made by August 1st immediately preceding the first, second, and third years of the initial term. The district shall file an application for this aid with the State Board in a format designated by the State Board. If the appropriation is insufficient in any year to pay all approved claims, the impact aid shall be prorated. However, for fiscal year 2004, the State Board of Education shall pay approved claims only for charter schools with a valid charter granted prior to June 1, 2003. If any funds remain after these claims have been paid, then the State Board of Education may pay all other approved claims on a pro rata basis. Transition impact aid shall be paid beginning in the 1999-2000 school year for charter schools that are in the first, second, or third year of their initial term. Transition impact aid shall not be paid for any charter school that is proposed and created by one or more boards of education, as authorized under the provisions of Public Act 91-405.

(2) From a separate appropriation made for the purpose of this subdivision (2), the State Board shall make grants to charter schools to pay their start-up costs of acquiring educational
materials and supplies, textbooks, electronic textbooks and the technological equipment necessary to gain access to and use electronic textbooks, furniture, and other equipment or materials needed during their initial term. The State Board shall annually establish the time and manner of application for these grants, which shall not exceed $250 per student enrolled in the charter school.

(3) The Charter Schools Revolving Loan Fund is created as a special fund in the State treasury. Federal funds, such other funds as may be made available for costs associated with the establishment of charter schools in Illinois, and amounts repaid by charter schools that have received a loan from the Charter Schools Revolving Loan Fund shall be deposited into the Charter Schools Revolving Loan Fund, and the moneys in the Charter Schools Revolving Loan Fund shall be appropriated to the State Board and used to provide interest-free loans to charter schools. These funds shall be used to pay start-up costs of acquiring educational materials and supplies, textbooks, electronic textbooks and the technological equipment necessary to gain access to and use electronic textbooks, furniture, and other equipment or materials needed in the initial term of the charter school and for acquiring and remodeling a suitable physical plant, within the initial term of the charter school. Loans shall be limited to one loan per charter school and shall not exceed $750 per student enrolled in the charter school. A loan shall be repaid by the end of the initial term of the charter school. The State Board may deduct amounts necessary to repay the loan from funds due to the charter school or may require that the local school board that authorized the charter school deduct such amounts from funds due the charter school and remit these amounts to the State Board, provided that the local school board shall not be responsible for repayment of the loan. The State Board may use up to 3% of the appropriation to contract with a non-profit entity to administer the loan program.

(4) A charter school may apply for and receive, subject to the same restrictions applicable to school districts, any grant administered by the State Board that is available for school districts.
If a charter school fails to make payments toward administrative costs, the State Board may withhold State funds from that school until it has made all payments for those costs.

Section 15. The Downstate Forest Preserve District Act is amended by changing Section 8 as follows:

(70 ILCS 805/8) (from Ch. 96 1/2, par. 6315)

Sec. 8. Powers and duties of corporate authority and officers; contracts; salaries.

(a) The board shall be the corporate authority of such forest preserve district and shall have power to pass and enforce all necessary ordinances, rules and regulations for the management of the property and conduct of the business of such district. The president of such board shall have power to appoint such employees as may be necessary. In counties with population of less than 3,000,000, within 60 days after their selection the commissioners appointed under the provisions of Section 3a of this Act shall organize by selecting from their members a president, vice president, secretary, treasurer and such other officers as are deemed necessary who shall hold office for the fiscal year in which elected and until their successors are selected and qualify. In the one district in existence on July 1, 1977, that is managed by an appointed board of commissioners, the incumbent president and the other officers appointed in the manner as originally prescribed in this Act shall hold such offices until the completion of their respective terms or in the case of the officers other than president until their successors are appointed by said president, but in all cases not to extend beyond January 1, 1980 and until their successors are selected and qualify. Thereafter, the officers shall be selected in the manner as prescribed in this Section except that their first term of office shall not expire until June 30, 1981 and until their successors are selected and qualify.

(a-5) An officer selected pursuant to subsection (a) may be removed, with or without cause, upon a motion adopted by an affirmative vote of four-fifths of the board of the forest preserve district. Upon adoption of a motion to remove an officer: (i) the office becomes vacant and the former officer's compensation shall be prorated to the date the motion was approved; (ii) if the officer removed is the president then the
vice president immediately assumes the duties of the president without president compensation and, if the officer removed is the vice president, treasurer, or secretary, then the president shall select an interim appointee who shall serve until the next regularly scheduled forest preserve district board meeting; and (iii) a new officer shall be selected at the next regularly scheduled forest preserve district board meeting. An officer removed under this Section maintains his or her status as a member of the forest preserve district board.

(b) In any county, city, village, incorporated town or sanitary district where the corporate authorities act as the governing body of a forest preserve district, the person exercising the powers of the president of the board shall have power to appoint a secretary and an assistant secretary and treasurer and an assistant treasurer and such other officers and such employees as may be necessary. The assistant secretary and assistant treasurer shall perform the duties of the secretary and treasurer, respectively in case of death of such officers or when such officers are unable to perform the duties of their respective offices. All contracts for supplies, material or work involving an expenditure in excess of $25,000, or a lower amount if required by board policy, shall be let to the lowest responsible bidder, after advertising at least once in one or more newspapers of general circulation within the district, excepting work requiring personal confidence or necessary supplies under the control of monopolies, where competitive bidding is impossible. Contracts for supplies, material or work involving an expenditure of $25,000, or a lower amount if required by board policy, or less may be let without advertising for bids, but whenever practicable, at least 3 competitive bids shall be obtained before letting such contract. All contracts for supplies, material or work shall be signed by the president of the board of commissioners or by any such other officer as the board in its discretion may designate.

(c) The president of any board of commissioners appointed under the provisions of Section 3a of this Act shall receive a salary not to exceed the sum of $2500 per annum and the salary of other members of the board so appointed shall not exceed $1500 per annum. Salaries of the commissioners, officers and employees shall be fixed by ordinance.

(d) Whenever a forest preserve district owns any personal property that, in the opinion of three-fifths of the members of the board of commissioners, is no longer necessary, useful to, or for the best interests of the forest preserve district, then three-fifths of the members of the board, at any regular meeting or any special meeting called for that purpose by an
ordinance or resolution that includes a general description of the personal property, may authorize the conveyance or sale of that personal property in any manner that they may designate, with or without advertising the sale.

(d) Notwithstanding any provision of law to the contrary, no retirement system, pension fund, or investment board created pursuant to any Article of the Illinois Pension Code shall pay or deliver any annuity, pension, or benefit fund held in a fiduciary capacity to the administrator.

(e) For the purposes of this Section and Section 15-1506, property is presumed abandoned in accordance with Article 2 of this Act.

(f) Except for subsections (b) and (c), this Section is operative retroactively to January 1, 2018.

Sec. 15-1506. Compliance provisions.
(a) This Section applies only to a retirement system, pension fund, or investment board created pursuant to Article 3, 4, or 22 of the Illinois Pension Code.

(b) Each retirement system, pension fund, or investment board shall meet or exceed the minimum standards for due diligence specified in this Section. If an annuity, pension, or benefit fund held in a fiduciary capacity by the retirement system, pension fund, or investment board would otherwise be presumed abandoned in accordance with Section 15-202, then the retirement system, pension fund, or investment board shall engage in the following due diligence:

(1) Use mail, telephone, and electronic mail. The retirement system, pension fund, or investment board shall attempt, not less than 90 days before filing the report under subsection (b) of Section 15-1505, to contact the apparent owner using, in any order, first-class United States mail, telephone, and electronic mail. The retirement system, pension fund, or investment board shall use the most current contact information available for the apparent owner. The retirement system, pension fund, or investment board shall use these routine methods in its initial attempts to contact the apparent owner. If the apparent owner does not respond or otherwise indicate interest in the property in response to these routine methods, then the retirement system, pension fund, or investment board shall take the additional due diligence steps outlined in this Section to locate the apparent owner or a beneficiary.

New matter indicated by italics - deletions by strikeout
(2) Use certified mail. The retirement system, pension fund, or investment board shall send to the apparent owner a notice using certified United States mail not less than 60 days before filing the report under subsection (b) of Section 15-1505.

(3) Check related plan and employer records. The retirement system, pension fund, or investment board shall ask any employer, and any former employer, of the apparent owner and any other retirement system, pension fund, or investment board to search its records for more current contact information for the apparent owner as well as for more current contact information for any beneficiaries. Unless prohibited by law of this State other than this Act, on request of a retirement system, pension fund, or investment board pursuant to this Section, each officer, agency, board, commission, division, and department of this State, body politic and corporate created by this State for a public purpose, and political subdivision of this State shall make its books and records available to the retirement system, pension fund, or investment board and cooperate with such retirement system, pension fund, or investment board to determine the current address of an apparent owner of property covered by Section 15-1505.

(4) Attempt to contact designated beneficiaries. The retirement system, pension fund, or investment board shall try to identify and contact any individual that the apparent owner has designated as a beneficiary to find updated contact information for the apparent owner. The retirement system, pension fund, or investment board shall attempt to contact beneficiaries, if any, using, in any order, first-class United States mail, telephone calls, and electronic mail if the retirement system, pension fund, or investment board has the relevant contact information for such beneficiaries.

(5) Use electronic search tools. The retirement system, pension fund, or investment board shall make reasonable use of Internet search tools that do not charge a fee to search for an apparent owner, including Internet search engines, public record databases, obituaries, and social media.

(6) Use additional steps if the property is over $1,000. The retirement system, pension fund, or investment board shall take additional due diligence steps if the apparent owner's property is valued at more than $1,000. Such additional due diligence
includes the use of Internet search tools, commercial locator services, credit reporting agencies, information brokers, investigation databases, and analogous services that may involve charges.

(c) If the property is no longer presumptively abandoned because an apparent owner responds or otherwise indicates interest in the property in response to the due diligence efforts of the retirement system, pension fund, or investment board, then the retirement system, pension fund, or investment board does not need to engage in further due diligence.

(d) Notwithstanding any provision of this Section to the contrary, a retirement system, pension fund, or investment board does not need to engage in due diligence for property with a value of less than $50, and a retirement system, pension fund, or investment board does not need to send due diligence mail or electronic mail to an address that it knows to be invalid.

(e) The administrator and each retirement system, pension fund, and investment board to which this Section applies shall enter into an interagency agreement concerning the implementation of this Section. The interagency agreement shall specify that the retirement system, pension fund, or investment board shall certify at least annually that it meets or exceeds the minimum standards for due diligence required by this Section.

(f) If the United States Department of Labor issues guidance or regulations that conflict with this Section, then the retirement system, pension fund, or investment board shall comply with that guidance or those regulations.

AN ACT concerning transportation.

Section 5. The Illinois Vehicle Code is amended by changing Section 15-301 as follows:

(625 ILCS 5/15-301) (from Ch. 95 1/2, par. 15-301)

New matter indicated by italics - deletions by strikeout
Sec. 15-301. Permits for excess size and weight.

(a) The Department with respect to highways under its jurisdiction and local authorities with respect to highways under their jurisdiction may, in their discretion, upon application and good cause being shown therefor, issue a special permit authorizing the applicant to operate or move a vehicle or combination of vehicles of a size or weight of vehicle or load exceeding the maximum specified in this Code Act or otherwise not in conformity with this Code Act upon any highway under the jurisdiction of the party granting such permit and for the maintenance of which the party is responsible. Applications and permits other than those in written or printed form may only be accepted from and issued to the company or individual making the movement. Except for an application to move directly across a highway, it shall be the duty of the applicant to establish in the application that the load to be moved by such vehicle or combination cannot reasonably be dismantled or disassembled, the reasonableness of which shall be determined by the Secretary of the Department. For the purpose of over length movements, more than one object may be carried side by side as long as the height, width, and weight laws are not exceeded and the cause for the over length is not due to multiple objects. For the purpose of over height movements, more than one object may be carried as long as the cause for the over height is not due to multiple objects and the length, width, and weight laws are not exceeded. For the purpose of an over width movement, more than one object may be carried as long as the cause for the over width is not due to multiple objects and length, height, and weight laws are not exceeded. Except for transporting fluid milk products, no State or local agency shall authorize the issuance of excess size or weight permits for vehicles and loads that are divisible and that can be carried, when divided, within the existing size or weight maximums specified in this Chapter. Any excess size or weight permit issued in violation of the provisions of this Section shall be void at issue and any movement made thereunder shall not be authorized under the terms of the void permit. In any prosecution for a violation of this Chapter when the authorization of an excess size or weight permit is at issue, it is the burden of the defendant to establish that the permit was valid because the load to be moved could not reasonably be dismantled or disassembled, or was otherwise nondivisible.

(a-1) As used in this Section, "extreme heavy duty tow and recovery vehicle" means a tow truck manufactured as a unit having a lifting capacity of not less than 50 tons, and having either 4 axles and an

New matter indicated by italics - deletions by strikeout
unladen weight of not more than 80,000 pounds or 5 axles and an unladen weight not more than 90,000 pounds. Notwithstanding otherwise applicable gross and axle weight limits, an extreme heavy duty tow and recovery vehicle may lawfully travel to and from the scene of a disablement and clear a disabled vehicle if the towing service has obtained an extreme heavy duty tow and recovery permit for the vehicle. The form and content of the permit shall be determined by the Department with respect to highways under its jurisdiction and by local authorities with respect to highways under their jurisdiction.

(b) The application for any such permit shall: (1) state whether such permit is requested for a single trip or for limited continuous operation; (2) state if the applicant is an authorized carrier under the Illinois Motor Carrier of Property Law, if so, his certificate, registration, or permit number issued by the Illinois Commerce Commission; (3) specifically describe and identify the vehicle or vehicles and load to be operated or moved; (4) state the routing requested, including the points of origin and destination, and may identify and include a request for routing to the nearest certified scale in accordance with the Department's rules and regulations, provided the applicant has approval to travel on local roads; and (5) state if the vehicles or loads are being transported for hire. No permits for the movement of a vehicle or load for hire shall be issued to any applicant who is required under the Illinois Motor Carrier of Property Law to have a certificate, registration, or permit and does not have such certificate, registration, or permit.

(c) The Department or local authority when not inconsistent with traffic safety is authorized to issue or withhold such permit at its discretion; or, if such permit is issued at its discretion to prescribe the route or routes to be traveled, to limit the number of trips, to establish seasonal or other time limitations within which the vehicles described may be operated on the highways indicated, or otherwise to limit or prescribe conditions of operations of such vehicle or vehicles, when necessary to assure against undue damage to the road foundations, surfaces or structures, and may require such undertaking or other security as may be deemed necessary to compensate for any injury to any roadway or road structure. The Department shall maintain a daily record of each permit issued along with the fee and the stipulated dimensions, weights, conditions, and restrictions authorized and this record shall be presumed correct in any case of questions or dispute. The Department shall install an automatic device for recording applications received and permits issued by
telephone. In making application by telephone, the Department and applicant waive all objections to the recording of the conversation.

(d) The Department shall, upon application in writing from any local authority, issue an annual permit authorizing the local authority to move oversize highway construction, transportation, utility, and maintenance equipment over roads under the jurisdiction of the Department. The permit shall be applicable only to equipment and vehicles owned by or registered in the name of the local authority, and no fee shall be charged for the issuance of such permits.

(e) As an exception to subsection (a) of this Section, the Department and local authorities, with respect to highways under their respective jurisdictions, in their discretion and upon application in writing, may issue a special permit for limited continuous operation, authorizing the applicant to move loads of agricultural commodities on a 2-axle single vehicle registered by the Secretary of State with axle loads not to exceed 35%, on a 3-axle or 4-axle vehicle registered by the Secretary of State with axle loads not to exceed 20%, and on a 5-axle vehicle registered by the Secretary of State not to exceed 10% above those provided in Section 15-111. The total gross weight of the vehicle, however, may not exceed the maximum gross weight of the registration class of the vehicle allowed under Section 3-815 or 3-818 of this Code.

As used in this Section, "agricultural commodities" means:

(1) cultivated plants or agricultural produce grown, including, but not limited to, corn, soybeans, wheat, oats, grain sorghum, canola, and rice;
(2) livestock, including, but not limited to, hogs, equine, sheep, and poultry;
(3) ensilage; and
(4) fruits and vegetables.

Permits may be issued for a period not to exceed 40 days and moves may be made of a distance not to exceed 50 miles from a field, an on-farm grain storage facility, a warehouse as defined in the Grain Code, or a livestock management facility as defined in the Livestock Management Facilities Act over any highway except the National System of Interstate and Defense Highways. The operator of the vehicle, however, must abide by posted bridge and posted highway weight limits. All implements of husbandry operating under this Section between sunset and sunrise shall be equipped as prescribed in Section 12-205.1.

(e-1) A special permit shall be issued by the Department under this Section and shall be required from September 1 through December 31 for a vehicle that exceeds the maximum axle weight and gross weight limits under Section 15-111 of this Code or exceeds the vehicle's registered gross weight, provided that the vehicle's axle weight and gross weight do not exceed 10% above the maximum limits under Section 15-111 of this Code and does not exceed the vehicle's registered gross weight by 10%. All other restrictions that apply to permits issued under this Section shall apply during the declared time period and no fee shall be charged for the issuance of those permits. Permits issued by the Department under this subsection (e-1) are only valid on federal and State highways under the jurisdiction of the Department, except interstate highways. With respect to highways under the jurisdiction of local authorities, the local authorities may, at their discretion, waive special permit requirements; and set a divisible load weight limit not to exceed 10% above a vehicle's registered gross weight, provided that the vehicle's axle weight and gross weight do not exceed 10% above the maximum limits specified in Section 15-111. Permits issued under this subsection (e-1) shall apply to all registered vehicles eligible to obtain permits under this Section, including vehicles used in private or for-hire movement of divisible load agricultural commodities during the declared time period.

(f) The form and content of the permit shall be determined by the Department with respect to highways under its jurisdiction and by local authorities with respect to highways under their jurisdiction. Every permit shall be in written form and carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer or authorized agent of any authority granting the permit and no person shall violate any of the terms or conditions of such special permit. Violation of the terms and conditions of the permit shall not be deemed a revocation of the permit; however, any vehicle and load found to be off the route prescribed in the permit shall be held to be operating without a permit. Any off-route vehicle and load shall be required to obtain a new permit or permits, as necessary, to authorize the movement back onto the original permit routing. No rule or regulation, nor anything herein, shall be construed to authorize any police officer, court, or authorized agent of any authority granting the permit to remove the permit from the possession of the permittee unless the permittee is charged with a fraudulent permit violation as provided in subsection (i). However, upon arrest for an offense of violation of permit, operating without a permit

when the vehicle is off route, or any size or weight offense under this
Chapter when the permittee plans to raise the issuance of the permit as a
defense, the permittee, or his agent, must produce the permit at any court
hearing concerning the alleged offense.

If the permit designates and includes a routing to a certified scale,
the permittee, while \textit{en route} to the designated scale, shall be
deemed in compliance with the weight provisions of the permit provided
the axle or gross weights do not exceed any of the permitted limits by
more than the following amounts:

- Single axle 2000 pounds
- Tandem axle 3000 pounds
- Gross 5000 pounds

(g) The Department is authorized to adopt, amend, and to make
available to interested persons a policy concerning reasonable rules,
limitations and conditions or provisions of operation upon highways under
its jurisdiction in addition to those contained in this Section for the
movement by special permit of vehicles, combinations, or loads which
cannot reasonably be dismantled or disassembled, including manufactured
and modular home sections and portions thereof. All rules, limitations and
conditions or provisions adopted in the policy shall have due regard for the
safety of the traveling public and the protection of the highway system and
shall have been promulgated in conformity with the provisions of the
Illinois Administrative Procedure Act. The requirements of the policy for
flagmen and escort vehicles shall be the same for all moves of comparable
size and weight. When escort vehicles are required, they shall meet the
following requirements:

1. All operators shall be 18 years of age or over and
   properly licensed to operate the vehicle.
2. Vehicles escorting oversized loads more than 12 feet
   wide must be equipped with a rotating or flashing amber
   light mounted on top as specified under Section 12-215.

The Department shall establish reasonable rules and regulations
regarding liability insurance or self insurance for vehicles with oversized
loads promulgated under the Illinois Administrative Procedure Act. Police
vehicles may be required for escort under circumstances as required by
rules and regulations of the Department.

(h) Violation of any rule, limitation or condition or provision of
any permit issued in accordance with the provisions of this Section shall
not render the entire permit null and void but the violator shall be deemed

New matter indicated by italics - deletions by strikeout
guilty of violation of permit and guilty of exceeding any size, weight, or load limitations in excess of those authorized by the permit. The prescribed route or routes on the permit are not mere rules, limitations, conditions, or provisions of the permit, but are also the sole extent of the authorization granted by the permit. If a vehicle and load are found to be off the route or routes prescribed by any permit authorizing movement, the vehicle and load are operating without a permit. Any off-route movement shall be subject to the size and weight maximums, under the applicable provisions of this Chapter, as determined by the type or class highway upon which the vehicle and load are being operated.

(i) Whenever any vehicle is operated or movement made under a fraudulent permit, the permit shall be void, and the person, firm, or corporation to whom such permit was granted, the driver of such vehicle in addition to the person who issued such permit and any accessory, shall be guilty of fraud and either one or all persons may be prosecuted for such violation. Any person, firm, or corporation committing such violation shall be guilty of a Class 4 felony and the Department shall not issue permits to the person, firm, or corporation convicted of such violation for a period of one year after the date of conviction. Penalties for violations of this Section shall be in addition to any penalties imposed for violation of other Sections of this Code.

(j) Whenever any vehicle is operated or movement made in violation of a permit issued in accordance with this Section, the person to whom such permit was granted, or the driver of such vehicle, is guilty of such violation and either, but not both, persons may be prosecuted for such violation as stated in this subsection (j). Any person, firm, or corporation convicted of such violation shall be guilty of a petty offense and shall be fined, for the first offense, not less than $50 nor more than $200 and, for the second offense by the same person, firm, or corporation within a period of one year, not less than $200 nor more than $300 and, for the third offense by the same person, firm, or corporation within a period of one year after the date of the first offense, not less than $300 nor more than $500 and the Department may, in its discretion, not issue permits to the person, firm, or corporation convicted of a third offense during a period of one year after the date of conviction or supervision for such third offense. If any violation is the cause or contributing cause in a motor vehicle accident causing damage to property, injury, or death to a person, the Department may, in its discretion, not issue a permit to the
person, firm, or corporation for a period of one year after the date of conviction or supervision for the offense.

(k) Whenever any vehicle is operated on local roads under permits for excess width or length issued by local authorities, such vehicle may be moved upon a State highway for a distance not to exceed one-half mile without a permit for the purpose of crossing the State highway.

(l) Notwithstanding any other provision of this Section, the Department, with respect to highways under its jurisdiction, and local authorities, with respect to highways under their jurisdiction, may at their discretion authorize the movement of a vehicle in violation of any size or weight requirement, or both, that would not ordinarily be eligible for a permit, when there is a showing of extreme necessity that the vehicle and load should be moved without unnecessary delay. For the purpose of this subsection, showing of extreme necessity shall be limited to the following: shipments of livestock, hazardous materials, liquid concrete being hauled in a mobile cement mixer, or hot asphalt.

(m) Penalties for violations of this Section shall be in addition to any penalties imposed for violating any other Section of this Code.

(n) The Department with respect to highways under its jurisdiction and local authorities with respect to highways under their jurisdiction, in their discretion and upon application in writing, may issue a special permit for continuous limited operation, authorizing the applicant to operate a tow truck that exceeds the weight limits provided for in subsection (a) of Section 15-111, provided:

(1) no rear single axle of the tow truck exceeds 26,000 pounds;
(2) no rear tandem axle of the tow truck exceeds 50,000 pounds;
(2.1) no triple rear axle on a manufactured recovery unit exceeds 60,000 pounds;
(3) neither the disabled vehicle nor the disabled combination of vehicles exceed the weight restrictions imposed by this Chapter 15, or the weight limits imposed under a permit issued by the Department prior to hookup;
(4) the tow truck prior to hookup does not exceed the weight restrictions imposed by this Chapter 15;
(5) during the tow operation the tow truck does not violate any weight restriction sign;

New matter indicated by italics - deletions by strikeout
(6) the tow truck is equipped with flashing, rotating, or oscillating amber lights, visible for at least 500 feet in all directions;

(7) the tow truck is specifically designed and licensed as a tow truck;

(8) the tow truck has a gross vehicle weight rating of sufficient capacity to safely handle the load;

(9) the tow truck is equipped with air brakes;

(10) the tow truck is capable of utilizing the lighting and braking systems of the disabled vehicle or combination of vehicles;

(11) the tow commences at the initial point of wreck or disablement and terminates at a point where the repairs are actually to occur;

(12) the permit issued to the tow truck is carried in the tow truck and exhibited on demand by a police officer; and

(13) the movement shall be valid only on State routes approved by the Department.

(o) (Blank).

(p) In determining whether a load may be reasonably dismantled or disassembled for the purpose of subsection (a), the Department shall consider whether there is a significant negative impact on the condition of the pavement and structures along the proposed route, whether the load or vehicle as proposed causes a safety hazard to the traveling public, whether dismantling or disassembling the load promotes or stifles economic development, and whether the proposed route travels less than 5 miles. A load is not required to be dismantled or disassembled for the purposes of subsection (a) if the Secretary of the Department determines there will be no significant negative impact to pavement or structures along the proposed route, the proposed load or vehicle causes no safety hazard to the traveling public, dismantling or disassembling the load does not promote economic development, and the proposed route travels less than 5 miles. The Department may promulgate rules for the purpose of establishing the divisibility of a load pursuant to subsection (a). Any load determined by the Secretary to be nondivisible shall otherwise comply with the existing size or weight maximums specified in this Chapter.

Section 15. The Illinois Pre-Need Cemetery Sales Act is amended by changing Section 16 and by adding Section 18.5 as follows:

(815 ILCS 390/16) (from Ch. 21, par. 216)

Sec. 16. Trust funds; disbursements.

(a) A trustee shall make no disbursements from the trust fund except as provided in this Act.

(b) A trustee has a duty to invest and manage the trust assets pursuant to the Prudent Investor Rule under the Trusts and Trustees Act. Whenever the seller changes trustees pursuant to this Act, the trustee must provide written notice of the change in trustees to the Comptroller no less than 28 days prior to the effective date of such a change in trustee. The trustee has an ongoing duty to provide the Comptroller with a current and true copy of the trust agreement under which the trust funds are held pursuant to this Act.

(c) The trustee may rely upon certifications and affidavits made to it under the provisions of this Act, and shall not be liable to any person for such reliance.

(d) A trustee shall be allowed to withdraw from the trust funds maintained pursuant to this Act a reasonable fee pursuant to the Trusts and Trustees Act.

(e) The trust shall be a single-purpose trust fund. In the event of the seller's bankruptcy, insolvency or assignment for the benefit of creditors, or an adverse judgment, the trust funds shall not be available to any creditor as assets of the seller or to pay any expenses of any bankruptcy or similar proceeding, but shall be distributed to the purchasers or managed for their benefit by the trustee holding the funds. Except in an action by the Comptroller to revoke a license issued pursuant to this Act and for creation of a receivership as provided in this Act, the trust shall not be

subject to judgment, execution, garnishment, attachment, or other seizure by process in bankruptcy or otherwise, nor to sale, pledge, mortgage, or other alienation, and shall not be assignable except as approved by the Comptroller. The changes made by this amendatory Act of the 91st General Assembly are intended to clarify existing law regarding the inability of licensees to pledge the trust.

(f) Because it is not known at the time of deposit or at the time that income is earned on the trust account to whom the principal and the accumulated earnings will be distributed, for purposes of determining the Illinois Income Tax due on these trust funds, the principal and any accrued earnings or losses relating to each individual account shall be held in suspense until the final determination is made as to whom the account shall be paid.

(g) A trustee shall at least annually furnish to each purchaser a statement identifying: (1) the receipts, disbursements, and inventory of the trust, including an explanation of any fees or expenses charged by the trustee under paragraph (d) of this Section or otherwise, (2) an explanation of the purchaser's right to a refund, if any, under this Act, and (3) the primary regulator of the trust as a corporate fiduciary under state or federal law.

(h) If the trustee has reason to believe that the contact information for a purchaser is no longer valid, then the trustee shall promptly notify the seller. If the trustee has reason to believe that the purchaser is deceased, then the trustee shall promptly notify the seller. A trustee shall remit as provided in Section 18.5 of this Act any pre-need trust funds, including both the principal and any accrued earnings or losses, relating to an individual account that is presumed abandoned under Section 18.5.

Sec. 18.5. Presumptively abandoned trust funds.

(a) After final payment on a pre-need contract, the entire amount held in trust attributable to undelivered cemetery merchandise and unperformed cemetery services, including undistributed interest earned thereon, is presumptively abandoned 2 years after the earlier of:

(A) the later of:

New matter indicated by italics - deletions by strikeout
(ii) 10 years after the death of a beneficiary if a beneficiary is cremated and the purchaser or the heir or assign, or other beneficiaries if any, or a duly authorized representative of the purchaser or a beneficiary, has not indicated an interest in the trust funds;
(B) the date a beneficiary has attained, or would have attained if living, the age of 105 where both the trustee and the seller do not know whether a beneficiary is deceased; or
(C) 50 years after the pre-need contract was executed, unless the purchaser or the heir or assign, or a duly authorized representative of the purchaser or a beneficiary, has indicated an interest in the property more than 50 years after the pre-need contract was executed, in which case, 3 years after the last indication of interest by the purchaser or the heir or assign, or a beneficiary, or a duly authorized representative of a purchaser or a beneficiary.

(b) The period after which trust funds are presumed abandoned is measured from the later of: (1) the date the trust funds are presumed abandoned under this Section; or (2) the latest indication of interest by the apparent owner in the trust funds. If more than one beneficiary is included in a pre-need contract, an indication of interest by any one or more of the beneficiaries requires that the presumption of abandonment under paragraphs (A) and (B) of subsection (a) be evaluated based on the beneficiary's information. An indication of interest in the trust funds includes any one or more of the actions listed in subsection (b) of Section 15-210 of the Revised Uniform Unclaimed Property Act.

(c) The seller shall notify the trustee of the pre-need trust funds in writing when any trust funds are presumed abandoned under this Section.

(d) If the seller is licensed to hold care funds under the Cemetery Care Act, then within 30 days of receiving notice that pre-need trust funds are presumed abandoned under this Section, the trustee of the pre-need trust funds shall remit the presumptively abandoned pre-need trust funds to the trustee for the care fund held pursuant to the Cemetery Care Act for deposit into such care fund. If the seller has retained an independent trustee pursuant to the Cemetery Care Act, then any funds remitted pursuant to this Section shall be remitted to the independent trustee. If the purchaser or beneficiary of pre-need trust funds presumed abandoned under this Section and deposited into a care fund makes a claim, then the seller shall direct the trustee of the care funds held pursuant to the

Cemetery Care Act to refund the purchaser or beneficiary the amount that was deposited into the care fund.

(e) If the seller is not licensed to hold care funds under the Cemetery Care Act, the trustee of pre-need trust funds shall remit presumptively abandoned trust funds to the Comptroller semi-annually within 30 days after the end of June and December for deposit into the Cemetery Consumer Protection Fund. If the purchaser or beneficiary of pre-need trust funds that were presumed abandoned under this Section and deposited into the Cemetery Consumer Protection Fund makes a claim, then either the seller shall request restitution or reimbursement from the Cemetery Consumer Protection Fund as provided in Section 22 and provide the cemetery merchandise or cemetery services pursuant to the pre-need contract, or the purchaser or beneficiary shall request restitution or reimbursement from the Cemetery Consumer Protection Fund as provided in Section 22.

(f) Notwithstanding any provision of this Act, the only penalties that may be imposed in connection with the administration of this Section are those provided in the Revised Uniform Unclaimed Property Act.

Sec. 10-10. Liability of members and managers.

(a) Except as otherwise provided in subsection (d) of this Section, the debts, obligations, and liabilities of a limited liability company, whether arising in contract, tort, or otherwise, are solely the debts, obligations, and liabilities of the company. A member or manager is not personally liable for a debt, obligation, or liability of the company solely by reason of being or acting as a member or manager.

(a-5) Nothing in subsection (a) or subsection (d) limits the personal liability of a member or manager imposed under law other than this Act, including, but not limited to, agency, contract, and tort law. The purpose of this subsection (a-5) is to overrule the interpretation of subsections (a) and (d) set forth in Dass v. Yale, 2013 IL App (1st) 122520, and Carollo v. Irwin, 2011 IL App (1st) 102765, and clarify that under existing law a member or manager of a limited liability company may be liable under law other than this Act for its own wrongful acts or omissions, even when acting or purporting to act on behalf of a limited liability company. This subsection is therefore intended to be applicable to actions with respect to which all timely appeals have not exhausted before the effective date of this amendatory Act of the 101st General Assembly as well as to all actions commenced on or after the effective date of this amendatory Act of the 101st General Assembly.

(b) (Blank).

(d) All or specified members of a limited liability company are liable in their capacity as members for all or specified debts, obligations, or liabilities of the company if:

(1) a provision to that effect is contained in the articles of organization; and

(2) a member so liable has consented in writing to the adoption of the provision or to be bound by the provision.

Sec. 10-15. Right of members and dissociated members to information.

(a) A company shall furnish information when any member demands it in a record concerning the company's activities, financial condition, and other circumstances of the company's business necessary to the proper exercise of a member's rights and duties under the operating agreement or this Act or that is otherwise material to the member's membership interest in the company of a member, unless the company knows that the member already knows that information.

(b) The following rules apply when a member makes a demand for information under this Section:

(1) During regular business hours and at a reasonable location and time specified by the company, a member may obtain from the company, inspect, and copy information for a purpose consistent with subsection (a).

(2) Within 10 days after receiving a demand pursuant to subsection (a):

(A) the company shall provide the information demanded or, in a record, a description of the information the company will provide, stating a reasonable time within which it will be provided and the place where it will be provided; and

(B) if the company declines to provide any demanded information, the company shall state its reasons for declining to the member in a record.

(c) Whenever this Act or an operating agreement provides for a member to give or withhold consent to a matter, before the consent is given or withheld, the company shall, without demand, provide the member with all information that is known to the company that is material to the member's decision.

(d) Within 10 days after a demand made in a record received by the limited liability company, a dissociated member may have access to information to which the person was entitled while a member if the information pertains to the period during which the person was a member, and the person seeks the information in good faith for a purpose consistent with subsection (a). The company shall respond to a demand made
pursuant to this subsection in the manner provided in subdivisions (A) and (B) of paragraph (2) of subsection (b).

(e) A limited liability company may charge a person that makes a demand under this Section the reasonable costs of copying, limited to the costs of labor and material.

(f) A member or dissociated member may exercise rights under this Section through an agent or, in the case of an individual under legal disability, a legal representative. Any restriction or condition imposed by the operating agreement or under subsection (h) applies both to the agent or legal representative and the member or dissociated member.

(g) The rights under this Section do not extend to a person as transferee.

(h) In addition to any restriction or condition stated in its operating agreement, the limited liability company, as a matter within the ordinary course of its activities, may impose reasonable restrictions and conditions on access to and use of information to be furnished under this Section including, but not limited to, the designation of information such as trade secrets or information subject to confidentiality agreements with third parties as confidential with appropriate nondisclosure and safeguarding obligations. In a dispute concerning the reasonableness of a restriction or designation under this subsection, the company has the burden of proving reasonableness.

(i) This Section does not limit or restrict the right to inspect and copy records as provided in subsection (b) of Section 1-40.

(j) If the company fails to provide any information required to be provided by this Section, the person entitled to the information may file an action to compel the company to provide the information and to obtain such other legal or equitable relief as may be proper. If the court finds that the company failed to comply with the requirements of this Section, the court may award the plaintiff its reasonable costs and attorney's fees incurred in bringing and prosecuting the action. The court may, in connection with any information described in subsection (h), impose such restrictions and conditions on access to and use of such information as it deems appropriate based on the reasonable needs of the company and the member in question.

If the authority stated or limited in the articles of organization conflicts with authority stated or limited in a statement of authority filed with the Secretary of State under this Section on behalf of the company, the statement of authority is the effective statement and a person who is not a member or manager may rely upon the terms of the filed statement of authority notwithstanding conflicting terms in the articles of organization.

   Act.
   (b) References to Act. This Act may be referred to as the Patti
   Beyer Act of Illinois.
   Section 5. Applicability. This Act applies to a facility that provides
mammography services in the State of Illinois.
   Section 10. Breast cancer; duty of providers of mammography
services to notify and inform.
   (a) As used in this Section, "dense breast tissue" means
heterogeneously dense or extremely dense tissue as defined in nationally
recognized guidelines or systems for breast imaging reporting of
mammography screening, including, but not limited to, the Breast Imaging
Reporting and Data System of the American College of Radiology, and

   (b) If a patient's mammogram demonstrates dense breast tissue, the
provider of mammography services shall provide in a summary of the
mammography report sent to the patient in accordance with the federal
Mammography Quality Standards Act a notice substantially similar to the
following:

   "Your mammogram indicates you have dense breast tissue. Dense
breast tissue is normal and identified on mammograms in about 50% of
women. Dense breast tissue can make it more difficult to detect cancer on
a mammogram and may be associated with an increased risk for breast cancer.
Despite these limitations, screening mammograms have been proven to save lives. Continue
to have routine screening mammography whether or not additional exams are suggested for you.
This information is provided to raise your awareness of the impact of breast density on cancer
detection. For further information about dense breast tissue, as well as other breast cancer risk factors, contact your breast imaging health care
provider."

(20 ILCS 505/8) (from Ch. 23, par. 5008)
Sec. 8. Scholarships and fee waivers; tuition waiver.

New matter indicated by italics - deletions by strikeout
(a) Each year the Department shall select a minimum of 53 students (at least 4 of whom shall be children of veterans) to receive scholarships and fee waivers which will enable them to attend and complete their post-secondary education at a community college, university, or college. Youth shall be selected from among the youth for whom the Department has court-ordered legal responsibility, youth who aged out of care at age 18 or older, or youth formerly under care who have been adopted or who have been placed in private guardianship. Recipients must have earned a high school diploma from an accredited institution or a high school equivalency certificate or diploma or have met the State criteria for high school graduation before the start of the school year for which they are applying for the scholarship and waiver. Scholarships and fee waivers shall be available to students for at least 5 years, provided they are continuing to work toward graduation. Unused scholarship dollars and fee waivers shall be reallocated to new recipients. No later than January 1, 2015, the Department shall promulgate rules identifying the criteria for "continuing to work toward graduation" and for reallocating unused scholarships and fee waivers. Selection shall be made on the basis of several factors, including, but not limited to, scholastic record, aptitude, and general interest in higher education. The selection committee shall include at least 2 individuals formerly under the care of the Department who have completed their post-secondary education. In accordance with this Act, tuition scholarships and fee waivers shall be available to such students at any university or college maintained by the State of Illinois. The Department shall provide maintenance and school expenses, except tuition and fees, during the academic years to supplement the students' earnings or other resources so long as they consistently maintain scholastic records which are acceptable to their schools and to the Department. Students may attend other colleges and universities, if scholarships are awarded them, and receive the same benefits for maintenance and other expenses as those students attending any Illinois State community college, university, or college under this Section. Beginning with recipients receiving scholarships and waivers in August 2014, the Department shall collect data and report annually to the General Assembly on measures of success, including (i) the number of youth applying for and receiving scholarships or waivers, (ii) the percentage of scholarship or waiver recipients who complete their college or university degree within 5 years, (iii) the average length of time it takes for scholarship or waiver recipients to complete their college or university degree, (iv) the reasons that
scholarship or waiver recipients are discharged or fail to complete their college or university degree, (v) when available, youths' outcomes 5 years and 10 years after being awarded the scholarships or waivers, and (vi) budget allocations for maintenance and school expenses incurred by the Department.

(b) Youth who are not selected to receive a scholarship or fee waiver under subsection (a) shall receive a tuition and fee waiver to assist them in attending and completing their post-secondary education at any community college, university, or college maintained by the State of Illinois if they are youth for whom the Department has court-ordered legal responsibility, youth who aged out of care at age 18 or older, or youth formerly under care who have been adopted and were the subject of an adoption assistance agreement or who have been placed in private guardianship and were the subject of a subsidized guardianship agreement.

To receive a waiver under this subsection, an applicant must:

(1) have earned a high school diploma from an accredited institution or a high school equivalency certificate or have met the State criteria for high school graduation before the start of the school year for which the applicant is applying for the waiver;

(2) enroll in a qualifying post-secondary education before the applicant reaches the age of 26; and

(3) apply for federal and State grant assistance by completing the Free Application for Federal Student Aid.

The community college or public university that an applicant attends must waive any tuition and fee amounts that exceed the amounts paid to the applicant under the federal Pell Grant Program or the State's Monetary Award Program.

Tuition and fee waivers shall be available to a student for at least the first 5 years the student is enrolled in a community college, university, or college maintained by the State of Illinois so long as the student makes satisfactory progress toward completing his or her degree. The age requirement and 5-year cap on tuition and fee waivers under this subsection shall be waived and eligibility for tuition and fee waivers shall be extended for any applicant or student who the Department determines was unable to enroll in a qualifying post-secondary school or complete an academic term because the applicant or student: (i) was called into active duty with the United States Armed Forces; (ii) was deployed for service in the United States Public Health Service Commissioned Corps; or (iii) volunteered in the Peace Corps or the AmeriCorps. The number of months an applicant or student served on active duty with the United States Armed Forces shall be rounded up to the next higher year to determine the maximum length of time to extend eligibility for the applicant or student.

The Department may provide the student with a stipend to cover maintenance and school expenses, except tuition and fees, during the academic years to supplement the student's earnings or other resources so long as the student consistently maintains scholastic records which are acceptable to the student's school and to the Department.

The Department shall develop outreach programs to ensure that youths who qualify for the tuition and fee waivers under this subsection who are high school students in grades 9 through 12 or who are enrolled in a high school equivalency testing program are aware of the availability of the tuition and fee waivers.

(c) Subject to appropriation, the Department shall provide eligible youth an apprenticeship stipend to cover those costs associated with entering and sustaining through completion an apprenticeship, including, but not limited to fees, tuition for classes, work clothes, rain gear, boots, and occupation-specific tools. As part of its obligation to terminate these contracts and select the private manager, the Department shall establish a mutually agreeable timetable to transfer the functions of existing contractors to the private manager so that existing Lottery operations are not materially diminished or impaired during the transition. If the contracts to support the current operation of the Lottery in effect on the effective date of this amendatory Act of the 96th General Assembly are not subject to termination as provided for in this subsection (c), then the Department may include a provision in the contract with the private manager specifying a mutually agreeable methodology for incorporation.

After reviewing the Department's recommendation, the Governor may accept or reject the Department's recommendation, and shall select a final offeror as the private manager by publication of a notice in the Illinois Procurement Bulletin on or before September 15, 2010. The Governor shall include in the notice a detailed explanation and the reasons why the final offeror is superior to other offerors and will provide management services in a manner that best achieves the objectives of this Section. The Governor shall also sign the management agreement with the private manager.

(j) The Lottery shall remain, for so long as a private manager manages the Lottery in accordance with provisions of this Act, a Lottery conducted by the State, and the State shall not be authorized to sell or transfer the Lottery to a third party.

(k) Any tangible personal property used exclusively in connection with the lottery that is owned by the Department and leased to the private manager shall be owned by the Department in the name of the State and shall be considered to be public property devoted to an essential public and governmental function.

(l) The Department may exercise any of its powers under this Section or any other law as necessary or desirable for the execution of the Department's powers under this Section.

(m) Neither this Section nor any management agreement entered into under this Section prohibits the General Assembly from authorizing forms of gambling that are not in direct competition with the Lottery.

(n) The private manager shall be subject to a complete investigation in the third, seventh, and tenth years of the agreement (if the agreement is for a 10-year term) by the Department in cooperation with the Auditor General to determine whether the private manager has complied with this Section and the management agreement. The private manager
shall bear the cost of an investigation or reinvestigation of the private manager under this subsection.

(o) The powers conferred by this Section are in addition and supplemental to the powers conferred by any other law. If any other law or rule is inconsistent with this Section, including, but not limited to, provisions of the Illinois Procurement Code, then this Section controls as to any management agreement entered into under this Section. This Section and any rules adopted under this Section contain full and complete authority for a management agreement between the Department and a private manager. No law, procedure, proceeding, publication, notice, consent, approval, order, or act by the Department or any other officer, Department, agency, or instrumentality of the State or any political subdivision is required for the Department to enter into a management agreement under this Section. This Section contains full and complete authority for the Department to approve any contracts entered into by a private manager with a vendor providing goods, services, or both goods and services to the private manager under the terms of the management agreement, including subcontractors of such vendors.

Upon receipt of a written request from the Chief Procurement Officer, the Department shall provide to the Chief Procurement Officer a complete and un-redacted copy of the management agreement or any contract that is subject to the Department's approval authority under this subsection (o). The Department shall provide a copy of the agreement or contract to the Chief Procurement Officer in the time specified by the Chief Procurement Officer in his or her written request, but no later than 5 business days after the request is received by the Department. AN ACT concerning regulation.

Section 5. The Consumer Installment Loan Act is amended by changing Section 15 as follows:

(205 ILCS 670/15) (from Ch. 17, par. 5415)
Sec. 15. Charges permitted.

New matter indicated by italics - deletions by strikeout
(a) Every licensee may lend a principal amount not exceeding $40,000 and, except as to small consumer loans as defined in this Section, may charge, contract for and receive thereon interest at an annual percentage rate of no more than 36%, subject to the provisions of this Act; provided, however, that the limitation on the annual percentage rate contained in this subsection (a) does not apply to title-secured loans, which are loans upon which interest is charged at an annual percentage rate exceeding 36%, in which, at commencement, an obligor provides to the licensee, as security for the loan, physical possession of the obligor's title to a motor vehicle, and upon which a licensee may charge, contract for, and receive thereon interest at the rate agreed upon by the licensee and borrower. For purposes of this Section, the annual percentage rate shall be calculated in accordance with the federal Truth in Lending Act.

(b) For purpose of this Section, the following terms shall have the meanings ascribed herein.

"Applicable interest" for a precomputed loan contract means the amount of interest attributable to each monthly installment period. It is computed as if each installment period were one month and any interest charged for extending the first installment period beyond one month is ignored. The applicable interest for any monthly installment period is, for loans other than small consumer loans as defined in this Section, that portion of the precomputed interest that bears the same ratio to the total precomputed interest as the balances scheduled to be outstanding during that month bear to the sum of all scheduled monthly outstanding balances in the original contract. With respect to a small consumer loan, the applicable interest for any installment period is that portion of the precomputed monthly installment account handling charge attributable to the installment period calculated based on a method at least as favorable to the consumer as the actuarial method, as defined by the federal Truth in Lending Act.

"Interest-bearing loan" means a loan in which the debt is expressed as a principal amount plus interest charged on actual unpaid principal balances for the time actually outstanding.

"Precomputed loan" means a loan in which the debt is expressed as the sum of the original principal amount plus interest computed actuarially in advance, assuming all payments will be made when scheduled.

"Small consumer loan" means a loan upon which interest is charged at an annual percentage rate exceeding 36% and with an amount financed of $4,000 or less. "Small consumer loan" does not include a title-
secured loan as defined by subsection (a) of this Section or a payday loan as defined by the Payday Loan Reform Act.

"Substantially equal installment" includes a last regularly scheduled payment that may be less than, but not more than 5% larger than, the previous scheduled payment according to a disclosed payment schedule agreed to by the parties.

(c) Loans may be interest-bearing or precomputed.

(d) To compute time for either interest-bearing or precomputed loans for the calculation of interest and other purposes, a month shall be a calendar month and a day shall be considered 1/30th of a month when calculation is made for a fraction of a month. A month shall be 1/12th of a year. A calendar month is that period from a given date in one month to the same numbered date in the following month, and if there is no same numbered date, to the last day of the following month. When a period of time includes a month and a fraction of a month, the fraction of the month is considered to follow the whole month. In the alternative, for interest-bearing loans, the licensee may charge interest at the rate of 1/365th of the agreed annual rate for each day actually elapsed.

(d-5) No licensee or other person may condition an extension of credit to a consumer on the consumer's repayment by preauthorized electronic fund transfers. Payment options, including, but not limited to, electronic fund transfers and Automatic Clearing House (ACH) transactions may be offered to consumers as a choice and method of payment chosen by the consumer.

(e) With respect to interest-bearing loans:

1. Interest shall be computed on unpaid principal balances outstanding from time to time, for the time outstanding, until fully paid. Each payment shall be applied first to the accumulated interest and the remainder of the payment applied to the unpaid principal balance; provided however, that if the amount of the payment is insufficient to pay the accumulated interest, the unpaid interest continues to accumulate to be paid from the proceeds of subsequent payments and is not added to the principal balance.

2. Interest shall not be payable in advance or compounded. However, if part or all of the consideration for a new loan contract is the unpaid principal balance of a prior loan, then the principal amount payable under the new loan contract may include any unpaid interest which has accrued. The unpaid principal balance of a precomputed loan is the balance due after refund or credit of

New matter indicated by italics - deletions by strikeout
uneearned interest as provided in paragraph (f), clause (3). The resulting loan contract shall be deemed a new and separate loan transaction for all purposes.

(3) Loans must be fully amortizing and be repayable in substantially equal and consecutive weekly, biweekly, semimonthly, or monthly installments. Notwithstanding this requirement, rates may vary according to an index that is independently verifiable and beyond the control of the licensee.

(4) The lender or creditor may, if the contract provides, collect a delinquency or collection charge on each installment in default for a period of not less than 10 days in an amount not exceeding 5% of the installment on installments in excess of $200, or $10 on installments of $200 or less, but only one delinquency and collection charge may be collected on any installment regardless of the period during which it remains in default.

(f) With respect to precomputed loans:

(1) Loans shall be repayable in substantially equal and consecutive weekly, biweekly, semimonthly, or monthly installments of principal and interest combined, except that the first installment period may be longer than one month by not more than 15 days, and the first installment payment amount may be larger than the remaining payments by the amount of interest charged for the extra days; and provided further that monthly installment payment dates may be omitted to accommodate borrowers with seasonal income.

(2) Payments may be applied to the combined total of principal and precomputed interest until the loan is fully paid. Payments shall be applied in the order in which they become due, except that any insurance proceeds received as a result of any claim made on any insurance, unless sufficient to prepay the contract in full, may be applied to the unpaid installments of the total of payments in inverse order.

(3) When any loan contract is paid in full by cash, renewal or refinancing, or a new loan, one month or more before the final installment due date, a licensee shall refund or credit the obligor with the total of the applicable interest for all fully unexpired installment periods, as originally scheduled or as deferred, which follow the day of prepayment; provided, if the prepayment occurs prior to the first installment due date, the licensee may retain 1/30
of the applicable interest for a first installment period of one month for each day from the date of the loan to the date of prepayment, and shall refund or credit the obligor with the balance of the total interest contracted for. If the maturity of the loan is accelerated for any reason and judgment is entered, the licensee shall credit the borrower with the same refund as if prepayment in full had been made on the date the judgement is entered.

(4) The lender or creditor may, if the contract provides, collect a delinquency or collection charge on each installment in default for a period of not less than 10 days in an amount not exceeding 5% of the installment on installments in excess of $200, or $10 on installments of $200 or less, but only one delinquency or collection charge may be collected on any installment regardless of the period during which it remains in default.

(5) If the parties agree in writing, either in the loan contract or in a subsequent agreement, to a deferment of wholly unpaid installments, a licensee may grant a deferment and may collect a deferment charge as provided in this Section. A deferment postpones the scheduled due date of the earliest unpaid installment and all subsequent installments as originally scheduled, or as previously deferred, for a period equal to the deferment period. The deferment period is that period during which no installment is scheduled to be paid by reason of the deferment. The deferment charge for a one month period may not exceed the applicable interest for the installment period immediately following the due date of the last undeferred payment. A proportionate charge may be made for deferment for periods of more or less than one month. A deferment charge is earned pro rata during the deferment period and is fully earned on the last day of the deferment period. Should a loan be prepaid in full during a deferment period, the licensee shall credit to the obligor a refund of the unearned deferment charge in addition to any other refund or credit made for prepayment of the loan in full.

(6) If two or more installments are delinquent one full month or more on any due date, and if the contract so provides, the licensee may reduce the unpaid balance by the refund credit which would be required for prepayment in full on the due date of the most recent maturing installment in default. Thereafter, and in lieu of any other default or deferment charges, the agreed rate of

New matter indicated by italics - deletions by strikeout
interest or, in the case of small consumer loans, interest at the rate of 18% per annum, may be charged on the unpaid balance until fully paid.

(7) Fifteen days after the final installment as originally scheduled or deferred, the licensee, for any loan contract which has not previously been converted to interest-bearing under paragraph (f), clause (6), may compute and charge interest on any balance remaining unpaid, including unpaid default or deferment charges, at the agreed rate of interest or, in the case of small consumer loans, interest at the rate of 18% per annum, until fully paid. At the time of payment of said final installment, the licensee shall give notice to the obligor stating any amounts unpaid.

Section 15. The Payday Loan Reform Act is amended by changing Section 2-5 as follows:

(815 ILCS 122/2-5)

Sec. 2-5. Loan terms.

(a) Without affecting the right of a consumer to prepay at any time without cost or penalty, no payday loan may have a minimum term of less than 13 days.

(b) Except for an installment payday loan as defined in this Section, no payday loan may be made to a consumer if the loan would result in the consumer being indebted to one or more payday lenders for a period in excess of 45 consecutive days. Except as provided under subsection (c) of this Section and Section 2-40, if a consumer has or has had loans outstanding for a period in excess of 45 consecutive days, no payday lender may offer or make a loan to the consumer for at least 7 calendar days after the date on which the outstanding balance of all payday loans made during the 45 consecutive day period is paid in full. For purposes of this subsection, the term "consecutive days" means a series of continuous calendar days in which the consumer has an outstanding balance on one or more payday loans; however, if a payday loan is made to a consumer within 6 days or less after the outstanding balance of all loans is paid in full, those days are counted as "consecutive days" for purposes of this subsection.

(c) Notwithstanding anything in this Act to the contrary, a payday loan shall also include any installment loan otherwise meeting the definition of payday loan contained in Section 1-10, but that has a term agreed by the parties of not less than 112 days and not exceeding 180 days; hereinafter an "installment payday loan". The following provisions shall apply:

(i) Any installment payday loan must be fully amortizing, with a finance charge calculated on the principal balances scheduled to be outstanding and be repayable in substantially equal and consecutive installments, according to a payment schedule agreed by the parties with not less than 13 days and not more than
one month between payments; except that the first installment period may be longer than the remaining installment periods by not more than 15 days, and the first installment payment may be larger than the remaining installment payments by the amount of finance charges applicable to the extra days. In calculating finance charges under this subsection, when the first installment period is longer than the remaining installment periods, the amount of the finance charges applicable to the extra days shall not be greater than $15.50 per $100 of the original principal balance divided by the number of days in a regularly scheduled installment period and multiplied by the number of extra days determined by subtracting the number of days in a regularly scheduled installment period from the number of days in the first installment period.

(ii) An installment payday loan may be refinanced by a new installment payday loan one time during the term of the initial loan; provided that the total duration of indebtedness on the initial installment payday loan combined with the total term of indebtedness of the new loan refinancing that initial loan, shall not exceed 180 days. For purposes of this Act, a refinancing occurs when an existing installment payday loan is paid from the proceeds of a new installment payday loan.

(iii) In the event an installment payday loan is paid in full prior to the date on which the last scheduled installment payment before maturity is due, other than through a refinancing, no licensee may offer or make a payday loan to the consumer for at least 2 calendar days thereafter.

(iv) No installment payday loan may be made to a consumer if the loan would result in the consumer being indebted to one or more payday lenders for a period in excess of 180 consecutive days. The term "consecutive days" does not include the date on which a consumer makes the final installment payment.

(d) (Blank).
(e) No lender may make a payday loan to a consumer if the total of all payday loan payments coming due within the first calendar month of the loan, when combined with the payment amount of all of the consumer's other outstanding payday loans coming due within the same month, exceeds the lesser of:

(1) $1,000; or

(2) in the case of one or more payday loans, 25% of the consumer's gross monthly income; or
(3) in the case of one or more installment payday loans, 22.5% of the consumer's gross monthly income; or
(4) in the case of a payday loan and an installment payday loan, 22.5% of the consumer's gross monthly income.

No loan shall be made to a consumer who has an outstanding balance on 2 payday loans, except that, for a period of 12 months after March 21, 2011 (the effective date of Public Act 96-936), consumers with an existing CILA loan may be issued an installment loan issued under this Act from the company from which their CILA loan was issued.

(e-5) Except as provided in subsection (c)(i), no lender may charge more than $15.50 per $100 loaned on any payday loan, or more than $15.50 per $100 on the initial principal balance and on the principal balances scheduled to be outstanding during any installment period on any installment payday loan. Except for installment payday loans and except as provided in Section 2-25, this charge is considered fully earned as of the date on which the loan is made. For purposes of determining the finance charge earned on an installment payday loan, the disclosed annual percentage rate shall be applied to the principal balances outstanding from time to time until the loan is paid in full, or until the maturity date, whichever occurs first. No finance charge may be imposed after the final scheduled maturity date.

When any loan contract is paid in full, the licensee shall refund any unearned finance charge. The unearned finance charge that is refunded shall be calculated based on a method that is at least as favorable to the consumer as the actuarial method, as defined by the federal Truth in Lending Act. The sum of the digits or rule of 78ths method of calculating prepaid interest refunds is prohibited.

(f) A lender may not take or attempt to take an interest in any of the consumer's personal property to secure a payday loan.

(g) A consumer has the right to redeem a check or any other item described in the definition of payday loan under Section 1-10 issued in connection with a payday loan from the lender holding the check or other item at any time before the payday loan becomes payable by paying the full amount of the check or other item.

(h) For the purpose of this Section, "substantially equal installment" includes a last regularly scheduled payment that may be less

than, but no more than 5% larger than, the previous scheduled payment according to a disclosed payment schedule agreed to by the parties.

The report shall include the names and contact information for the other mandated reporters sharing the reasonable cause to believe that a child may be an abused or neglected child. The designated reporter must provide written confirmation of the report to those mandated reporters within 48 hours. If confirmation is not provided, those mandated reporters are individually responsible for immediately ensuring a report is made. capacity may be an abused child as defined in item (e) of the definition of "abused child" in Section 3 of this Act shall immediately report or cause a report to be made to the Department:

Any physician, physician's assistant, registered nurse; licensed practical nurse, medical technician, certified nursing assistant, social worker, or licensed professional counselor of any office, clinic, or any other physical location that provides abortions, abortion referrals, or contraceptives having reasonable cause to believe a child known to him or her in his or her professional or official capacity may be an abused child or a neglected child shall immediately report or cause a report to be made to the Department.

(d) If an allegation is raised to a school board member during the course of an open or closed school board meeting that a child who is enrolled in the school district of which he or she is a board member is an abused child as defined in Section 3 of this Act, the member shall direct or cause the school board to direct the superintendent of the school district or other equivalent school administrator to comply with the requirements of this Act concerning the reporting of child abuse. For purposes of this paragraph, a school board member is granted the authority in his or her individual capacity to direct the superintendent of the school district or other equivalent school administrator to comply with the requirements of this Act concerning the reporting of child abuse.

Notwithstanding any other provision of this Act, if an employee of a school district has made a report or caused a report to be made to the Department under this Act involving the conduct of a current or former employee of the school district and a request is made by another school district for the provision of information concerning the job performance or qualifications of the current or former employee because he or she is an applicant for employment with the requesting school district, the general superintendent of the school district to which the request is being made must disclose to the requesting school district the fact that an employee of the school district has made a report involving the conduct of the applicant or caused a report to be made to the Department, as required under this Act. Only the fact that an employee of the school district has made a report involving the conduct of the applicant or caused a report to be made to the Department may be disclosed by the general superintendent of the school district to which the request for information concerning the applicant is made, and this fact may be disclosed only in cases where the employee and the general superintendent have not been informed by the Department that

the allegations were unfounded. An employee of a school district who is or has been the subject of a report made pursuant to this Act during his or her employment with the school district must be informed by that school district that if he or she applies for employment with another school district, the general superintendent of the former school district, upon the request of the school district to which the employee applies, shall notify that requesting school district that the employee is or was the subject of such a report.

(e) Whenever such person is required to report under this Act in his capacity as a member of the staff of a medical or other public or private institution, school, facility or agency, or as a member of the clergy, he shall make report immediately to the Department in accordance with the provisions of this Act and may also notify the person in charge of such institution, school, facility or agency, or church, synagogue, temple, mosque, or other religious institution, or his designated agent that such report has been made. Under no circumstances shall any person in charge of such institution, school, facility or agency, or church, synagogue, temple, mosque, or other religious institution, or his designated agent to whom such notification has been made, exercise any control, restraint, modification or other change in the report or the forwarding of such report to the Department.

(f) In addition to the persons required to report suspected cases of child abuse or child neglect under this Section, any other person may make a report if such person has reasonable cause to believe a child may be an abused child or a neglected child.

(g) The privileged quality of communication between any professional person required to report and his patient or client shall not apply to situations involving abused or neglected children and shall not constitute grounds for failure to report as required by this Act or constitute grounds for failure to share information or documents with the Department during the course of a child abuse or neglect investigation. If requested by the professional, the Department shall confirm in writing that the information or documents disclosed by the professional were gathered in the course of a child abuse or neglect investigation.

The reporting requirements of this Act shall not apply to the contents of a privileged communication between an attorney and his or her client or to confidential information within the meaning of Rule 1.6 of the Illinois Rules of Professional Conduct relating to the legal representation of an individual client.
A member of the clergy may claim the privilege under Section 8-803 of the Code of Civil Procedure.

(h) Any office, clinic, or any other physical location that provides abortions, abortion referrals, or contraceptives shall provide to all office personnel copies of written information and training materials about abuse and neglect and the requirements of this Act that are provided to employees of the office, clinic, or physical location who are required to make reports to the Department under this Act, and instruct such office personnel to bring to the attention of an employee of the office, clinic, or physical location who is required to make reports to the Department under this Act any reasonable suspicion that a child known to him or her in his or her professional or official capacity may be an abused child or a neglected child. In addition to the above persons required to report suspected cases of abused or neglected children, any other person may make a report if such person has reasonable cause to believe a child may be an abused child or a neglected child.

(i) Any person who enters into employment on and after July 1, 1986 and is mandated by virtue of that employment to report under this Act, shall sign a statement on a form prescribed by the Department, to the effect that the employee has knowledge and understanding of the reporting requirements of this Act. On and after January 1, 2019, the statement shall also include information about available mandated reporter training provided by the Department. The statement shall be signed prior to commencement of the employment. The signed statement shall be retained by the employer. The cost of printing, distribution, and filing of the statement shall be borne by the employer.

(j) Persons within one year of initial employment and at least every 5 years thereafter, school personnel required to report child abuse or child neglect as provided under this Section must complete an initial mandated reporter training within 3 months of their date of engagement in a professional or official capacity as a mandated reporter, or within the time frame of any other applicable State law that governs training requirements for a specific profession, and at least every 3 years thereafter. The initial requirement only applies to the first time they engage in their professional or official capacity. In lieu of training every 3 years, medical personnel, as listed in paragraph (1) of subsection (a), must meet the requirements described in subsection (k).

The trainings shall be in-person or web-based, and shall include, at a minimum, information on the following topics: (i) indicators for

New matter indicated by italics - deletions by strikeout
recognizing child abuse and child neglect, as defined under this Act; (ii) the process for reporting suspected child abuse and child neglect in Illinois as required by this Act and the required documentation; (iii) responding to a child in a trauma-informed manner; and (iv) understanding the response of child protective services and the role of the reporter after a call has been made. Child-serving organizations are encouraged to provide in-person annual trainings.

The mandated reporter training shall be provided through the Department, through an entity authorized to provide continuing education for professionals licensed through the Department of Financial and Professional Regulation, the State Board of Education, the Illinois Law Enforcement Training Standards Board, or the Department of State Police, or through an organization approved by the Department to provide mandated reporter training. The Department must make available a free web-based training for reporters.

Each mandated reporter shall report to his or her employer and, when applicable, to his or her licensing or certification board that he or she received the mandated reporter training. The mandated reporter shall maintain records of completion.

Beginning January 1, 2021, if a mandated reporter receives licensure from the Department of Financial and Professional Regulation or the State Board of Education, and his or her profession has continuing education requirements, the training mandated under this Section shall count toward meeting the licensee's required continuing education hours.

(k)(1) Medical personnel, as listed in paragraph (1) of subsection (a), who work with children in their professional or official capacity, must complete mandated reporter training at least every 6 years. Such medical personnel, if licensed, must attest at each time of licensure renewal on their renewal form that they understand they are a mandated reporter of child abuse and neglect, that they are aware of the process for making a report, that they know how to respond to a child in a trauma-informed manner, and that they are aware of the role of child protective services and the role of a reporter after a call has been made.

(2) In lieu of repeated training, medical personnel, as listed in paragraph (1) of subsection (a), who do not work with children in their professional or official capacity, may instead attest each time at licensure renewal on their renewal form that they understand they are a mandated reporter of child abuse and neglect.
reporter of child abuse and neglect, that they are aware of the process for making a report, that they know how to respond to a child in a trauma-informed manner, and that they are aware of the role of child protective services and the role of a reporter after a call has been made. Nothing in this paragraph precludes medical personnel from completing mandated reporter training and receiving continuing education credits for that training.

(l) The Department shall provide copies of this Act, upon request, to all employers employing persons who shall be required under the provisions of this Section to report under this Act.

(m) Any person who knowingly transmits a false report to the Department commits the offense of disorderly conduct under subsection (a)(7) of Section 26-1 of the Criminal Code of 2012. A violation of this provision is a Class 4 felony.

Any person who knowingly and willfully violates any provision of this Section other than a second or subsequent violation of transmitting a false report as described in the preceding paragraph, is guilty of a Class A misdemeanor for a first violation and a Class 4 felony for a second or subsequent violation; except that if the person acted as part of a plan or scheme having as its object the prevention of discovery of an abused or neglected child by lawful authorities for the purpose of protecting or insulating any person or entity from arrest or prosecution, the person is guilty of a Class 4 felony for a first offense and a Class 3 felony for a second or subsequent offense (regardless of whether the second or subsequent offense involves any of the same facts or persons as the first or other prior offense).

(n) A child whose parent, guardian or custodian in good faith selects and depends upon spiritual means through prayer alone for the treatment or cure of disease or remedial care may be considered neglected or abused, but not for the sole reason that his parent, guardian or custodian accepts and practices such beliefs.

(o) A child shall not be considered neglected or abused solely because the child is not attending school in accordance with the requirements of Article 26 of the School Code, as amended.

(p) Nothing in this Act prohibits a mandated reporter who reasonably believes that an animal is being abused or neglected in violation of the Humane Care for Animals Act from reporting animal abuse or neglect to the Department of Agriculture's Bureau of Animal Health and Welfare.

(q) A home rule unit may not regulate the reporting of child abuse or neglect in a manner inconsistent with the provisions of this Section. This Section is a limitation under subsection (i) of Section 6 of Article VII of the Illinois Constitution on the concurrent exercise by home rule units of powers and functions exercised by the State.

(r) For purposes of this Section "child abuse or neglect" includes abuse or neglect of an adult resident as defined in this Act.

staff, persons and officials required to report, the general public, and other persons engaged in or intending to engage in the prevention, identification, and treatment of child abuse and neglect. The program shall be designed to encourage the fullest degree of reporting of known and suspected child abuse and neglect, and to improve communication, cooperation, and coordination among all agencies in the identification, prevention, and treatment of child abuse and neglect. The program shall inform the general public and professionals of the nature and extent of child abuse and neglect and their responsibilities, obligations, powers and immunity from liability under this Act. It may include information on the diagnosis of child abuse and neglect and the roles and procedures of the Child Protective Service Unit, the Department and central register, the courts and of the protective, treatment, and ameliorative services available to children and their families. Such information may also include special needs of mothers at risk of delivering a child whose life or development may be threatened by a disabling condition, to ensure informed consent to treatment of the condition and understanding of the unique child care responsibilities required for such a child. The program may also encourage parents and other persons having responsibility for the welfare of children to seek assistance on their own in meeting their child care responsibilities and encourage the voluntary acceptance of available services when they are needed. It may also include publicity and dissemination of information on the existence and number of the 24 hour, State-wide, toll-free telephone service to assist persons seeking assistance and to receive reports of known and suspected abuse and neglect.

(c) Within the appropriation available, the Department also shall conduct a continuing education and training program for State and local staff involved in investigating reports of child abuse or neglect made under this Act. The program shall be designed to train such staff in the necessary and appropriate procedures to be followed in investigating cases which it appears may result in civil or criminal charges being filed against a person. Program subjects shall include but not be limited to the gathering of evidence with a view toward presenting such evidence in court and the involvement of State or local law enforcement agencies in the investigation. The program shall be conducted in cooperation with State or local law enforcement agencies, State's Attorneys and other components of the criminal justice system as the Department deems appropriate. Approved August 23, 2019.
Effective January 1, 2020.
AN ACT concerning public aid.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Public Aid Code is amended by changing Section 12-4.4 as follows:
(305 ILCS 5/12-4.4) (from Ch. 23, par. 12-4.4)
Sec. 12-4.4. Administration of federally-aided programs. Direct
County Departments of Public Aid in the administration of the federally
funded Supplemental Nutrition Assistance (SNAP) Program food stamp
program, programs to aid refugees and Articles III, IV, and V of this Code.

The Illinois Department of Human Services shall operate a SNAP
Employment and Training (SNAP E&T) program Food Stamp
Employment and Training (FSE&T) program in compliance with federal
law. The SNAP E&T program may only be mandatory in counties
where the Department can show that there are sufficient program slots for
at least the majority of the county's current non-exempt work registrants
as described in Section 11-20 of this Code. Nothing in this Section shall
prevent the Department from operating a fully voluntary SNAP E&T
program. The SNAP E&T program will have an Earnfare component. The
Earnfare component shall be available in selected geographic areas based
on criteria established by the Illinois Department of Human Services by
rule. Participants in Earnfare will, to the extent resources allow, earn their
assistance. Participation in the Earnfare program is voluntary, except when
ordered by a court of competent jurisdiction. Eligibility for Earnfare may
be limited to only 6 months out of any 12 consecutive month period.
Clients are not entitled to be placed in an Earnfare slot. Earnfare slots shall
be made available only as resources permit. Earnfare shall be available to
persons receiving SNAP benefits food stamps who meet eligibility criteria
established by the Illinois Department of Human Services by rule. The
Illinois Department may, by rule, extend the Earnfare Program to clients
who do not receive SNAP benefits food stamps. Receipt of SNAP benefits
food stamps is not an eligibility requirement of Earnfare when a court of
competent jurisdiction orders an individual to participate in the Earnfare
Program. To the extent resources permit, the Earnfare program will allow
participants to engage in work-related activities to earn monthly financial
assistance payments and to improve participants' employability in order for

them to succeed in obtaining employment. The Illinois Department of Human Services may enter into contracts with other public agencies including State agencies, with local governmental units, and with not-for-profit community based organizations to carry out the elements of the Program that the Department of Human Services deems appropriate.

The Earnfare Program shall contain the following elements:

(1) To the extent resources allow and slots exist, the Illinois Department of Human Services shall refer recipients of SNAP benefits who meet eligibility criteria, as established by rule. Receipt of SNAP benefits is not an eligibility requirement of Earnfare when a court of competent jurisdiction orders an individual to participate in the Earnfare Program.

(2) Persons participating in Earnfare shall engage in employment assigned activities equal to the amount of the SNAP benefits divided by the State or federal minimum wage, whichever is higher, and subsequently shall earn minimum wage assistance for each additional hour of performance in Earnfare activity. Earnfare participants shall be offered the opportunity to earn up to $154. The Department of Human Services may establish a higher amount by rule provided resources permit. If a court of competent jurisdiction orders an individual to participate in the Earnfare program, hours engaged in employment assigned activities shall first be applied for a $50 payment made to the custodial parent as a support obligation. If the individual receives SNAP benefits, the individual shall engage in employment assigned activities equal to the amount of the SNAP benefits divided by the State or federal minimum wage, whichever is higher, and subsequently shall earn State or federal minimum wage assistance, whichever is higher, for each additional hour of performance in Earnfare activity.

(3) To the extent appropriate slots are available, the Illinois Department of Human Services shall assign Earnfare participants to Earnfare activities based on an assessment of the person's age, literacy, education, educational achievement, job training, work experience, and recent institutionalization, whenever these factors are known to the Department of Human Services or to the contractor and are relevant to the individual's success in carrying out the assigned activities and in ultimately obtaining employment.

New matter indicated by italics - deletions by strikeout
(4) The Department of Human Services shall consider the participant's preferences and personal employment goals in making assignments to the extent administratively possible and to the extent that resources allow.

(5) The Department of Human Services may enter into cooperative agreements with local governmental units (which may, in turn, enter into agreements with not-for-profit community based organizations): with other public, including State, agencies; directly with not-for-profit community based organizations, and with private employers to create Earnfare activities for program participants.

(6) To the extent resources permit, the Department of Human Services shall provide the Earnfare participants with the costs of transportation in looking for work and in getting to and from the assigned Earnfare job site and initial expenses of employment.

(7) All income and asset limitations of the Federal SNAP Food Stamp Program will govern continued Earnfare participation, except that court ordered participants shall participate for 6 months unless the court orders otherwise.

(8) Earnfare participants shall not displace or substitute for regular, full time or part time employees, regardless of whether or not the employee is currently working, on a leave of absence or in a position or similar position where a layoff has taken place or the employer has terminated the employment of any regular employee or otherwise reduced its workforce with the effect of filling the vacancy so created with a participant subsidized under this program, or is or has been involved in a labor dispute between a labor organization and the sponsor.

(9) Persons who fail to cooperate with the SNAP E&T FSE&T program in counties where available program slots exist for at least the majority of that county's current work registrants shall become ineligible for SNAP benefits food stamp assistance according to SNAP Food Stamp regulations, and for Earnfare participation. Failure to participate in Earnfare for all of the hours assigned is not a failure to cooperate unless so established by the employer pursuant to Department of Human Services rules. If a person who is ordered by a court of competent jurisdiction to participate in the Earnfare Program fails to cooperate with the

Program, the person shall be referred to the court for failure to comply with the court order.

PUBLIC ACT 101-0567
(Senate Bill No. 1813)

AN ACT concerning regulation.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Credit Union Act is amended by changing Sections 15, 23, 57.1, 59, and 63 and by adding Sections 10.2 and 44.1 as follows:

(205 ILCS 305/10.2 new)
Sec. 10.2. Electronic records.
(a) As used in this Section, "electronic" and "electronic record" have the meanings given to those terms in the Electronic Commerce Security Act.
(b) If a provision of this Act requires information to be written or delivered in writing, or provides for certain consequences if it is not, an electronic record or electronic delivery satisfies that rule of law.
(c) If a provision of this Act requires a policy, record, notice or other document or information to be mailed or otherwise furnished, posted, or disclosed by a credit union, electronic delivery or distribution satisfies that rule of law. Policies and notifications of general interest to or impact on the membership may be posted on a credit union’s website or disclosed in membership newsletters or account statements, in addition to, or in lieu of, any other methods of notification or distribution specified in this Act.

(205 ILCS 305/15) (from Ch. 17, par. 4416)
Sec. 15. Membership defined.
(1) The membership of a credit union shall be limited to and consist of the subscribers to the articles of incorporation and such other persons within the common bond, as defined in this Act and as set forth in...
the credit union's articles of incorporation, as have been duly admitted
members, have paid the required entrance fee or membership fee, or both,
if any, have subscribed for one or more shares, and have paid the initial
installment thereon, and have complied with such other requirements as
the articles of incorporation or bylaws specify. Two or more persons
within the common bond who have jointly subscribed for one or more
shares under a joint account and have complied with all membership
requirements may each be admitted to membership. The surviving spouse
of a credit union member may, within 6 months of the member's death,
become a member of the credit union by paying the required entrance fee
or membership fee or both, if any, by subscribing for one or more shares
and paying the initial installment thereon, and by complying with such
other requirements as the articles of incorporation or bylaws specify.

(2) Any member may withdraw from a credit union at any time
upon giving notice of withdrawal as required by the bylaws.

(3) Any member may be expelled by a 2/3 vote of the members
present at any regular or special meeting called to consider the matter, but
only after an opportunity has been given to the member to be heard.

(4) A member who has caused a loss to the credit union, failed to
maintain one or more shares at the credit union, or violated board policy
applicable to members may be expelled by a majority vote of a quorum of
directors if the board has adopted a policy providing for expulsion for any
of the following acts committed by the member: under—those
circumstances:

   (i) causing a loss to the credit union;
   (ii) failing to maintain one or more shares at the credit union;
   (iii) committing fraud or any similar misdeed against the credit union;
   (iv) engaging in inappropriate behavior involving another person, such as physical or verbal abuse of another member or an employee of the credit union, while transacting business with the credit union; or
   (v) otherwise violating board policy applicable to members.

In maintaining and enforcing a policy based on loss, the board may
consider, without limitation, a member's failure to pay amounts due under
a loan, failure to provide collected funds to cover withdrawals or personal
share drafts or credit union drafts where the member is a remitter, or
failure to pay fees or charges due the credit union.

New matter indicated by italics - deletions by strikeout
The policy may delegate the expulsion authority to the senior management officials of the credit union. If a member is expelled by a senior management official of the credit union, the member may, within 30 days after the expulsion, seek reinstatement by appealing the action in writing to the board of directors of the credit union. The board may affirm, disaffirm, or modify the action, and the board's decision is final. As used in this subsection (4), "senior management official" includes the chief management officer of the credit union (including the person holding the title of President or Chief Executive Officer, or both, or Treasurer/Manager) and other management officers of the credit union (including the persons holding the title of Chief Operating Officer, Chief Financial Officer, Chief Administrative Officer, Chief Information Officer, Chief Security Officer, Executive Vice President, Senior Vice President, or Vice President).

If a policy is adopted by the board pursuant to this subsection (4), written notice of the policy shall be distributed not fewer than 30 days before the effective date of the policy by: (i) mailing it; and the effective date of the policy shall be mailed to each member of the credit union at the member's current address appearing on the records of the credit union; (ii) electronically delivering it to all members by posting it on the credit union's website; or (iii) disclosing it to all members in membership newsletters or account statements. The policy shall be mailed to members not fewer than 30 days prior to the effective date of the policy. In addition, new members shall be provided written notice of the policy prior to or upon applying for membership by using one of the distribution methods described in this subsection (4).

(5) All or any part of the amount paid on shares of a withdrawing member or expelled member with any declared dividends or interest on the date of withdrawal or expulsion must, after deducting all amounts due from the member to the credit union, be paid to him. The credit union may require not more than 60 days' written notice of intention to withdraw shares, but a notice of withdrawal does not entitle the member to any preferred or prior claim in the event of liquidation. Withdrawing or expelled members have no further rights in the credit union, but are not, by withdrawal or expulsion, released from any obligation they owe to the credit union.

(6) A member who has caused a loss to the credit union or has violated board policy applicable to members may be denied any or all credit union services in accordance with board policy, however, members

New matter indicated by italics - deletions by strikeout
who are denied services shall be allowed to maintain a share account and
to vote on all issues put to a vote of the membership.

(7) If a member fails to maintain one fully paid share, the credit
union, at its option, may permit the member to re-subscribe and pay for

New matter indicated by italics - deletions by strikeout
(1) The Department of Children and Family Services collaborated with the University of Illinois at Springfield to develop the Child Protection Training Academy in 2015.

(2) The Child Protection Training Academy represents an innovative approach to training frontline child protection investigators using experiential learning through simulations. Simulations provide a safe learning environment that bridges the gap between policy and practice, increases worker engagement, and accelerates learning.

(3) Research indicates that traditional classroom training results in less than a 15% transfer of knowledge once in the field.

(b) Subject to appropriation, the training efforts of the Child Protection Training Academy shall include, but not be limited to, the following:

(1) The continued development of simulation training for all child protection investigators, including those newly hired and seasoned investigators.

(2) The continued development and implementation of simulation training for investigation, intact, and permanency supervisors.

(3) The development of simulation training for intact and permanency workers both in the Department and at private agencies.

(4) The development of simulation-based training curricula on recognizing and responding to cases of child abuse or neglect for mandated reporters.

(5) The development of simulation-based training for multidisciplinary teams in partnership with the Department, including, but not limited to, the use of mock medical and mock forensic facilities.

(6) Cultural competency training for investigative staff that provides tools and other supports to ensure that a child welfare provider’s response to and engagement with families and children of color are: (i) conducted or provided in a manner that is responsive to the beliefs, interpersonal styles, attitudes, language, and behaviors of the individuals who are receiving services; and (ii) conducted or provided in a manner that has the greatest likelihood of ensuring maximum success of or participation in the child welfare program or services being provided.

(7) Laboratory training facilities that may include, but not be limited to, mock houses, mock courtrooms, mock medical facilities, and mock forensic interview rooms that allow for simulated, interactive, and intensive training.

(8) Minimum standards of competence that staff shall be required to demonstrate prior to receiving Child Welfare Employee Licensure certification from the Department.

(c) By July 1, 2020, the Department of Children and Family Services may adopt procedures for the administration of the Child Protection Training Academy that not only establish statewide competence, assessment, and training standards for persons providing child welfare services, but that also ensure that persons who provide child welfare services have the knowledge, skills, professionalism, and abilities to make decisions that keep children safe and secure. The Department shall continue to arrange for an independent evaluation of the Child Protection Training Academy through June 2021, inclusive of the first 5 years of operation. Nothing in this Section prohibits the Department from administering simulation training with other entities outside of the University of Illinois at Springfield. The Department may contract with any entity to provide all aspects of child welfare training.

conformity with specifications, terms of delivery, quality and serviceability, after due advertisement, except the following: (i) contracts for the services of individuals possessing a high degree of professional skill where the ability or fitness of the individual plays an important part; (ii) contracts for the printing of finance committee reports and departmental reports; (iii) contracts for the printing or engraving of bonds, tax warrants and other evidences of indebtedness; (iv) contracts for the purchase of perishable foods and perishable beverages; (v) contracts for materials and work which have been awarded to the lowest responsible bidder after due advertisement, but due to unforeseen revisions, not the fault of the contractor for materials and work, must be revised causing expenditures not in excess of 10% of the contract price; (vi) contracts for the maintenance or servicing of, or provision of repair parts for, equipment which are made with the manufacturer or authorized service agent of that equipment where the provision of parts, maintenance, or servicing can best be performed by the manufacturer or authorized service agent; (vii) purchases and contracts for the use, purchase, delivery, movement, or installation of data processing equipment, software, or services and telecommunications and interconnect equipment, software, and services; (viii) contracts for duplicating machines and supplies; (ix) contracts for the purchase of fuel, including diesel, gasoline, oil, aviation, natural gas, or propane, lubricants, or other petroleum products when the cost is less than that offered by a public utility; (x) purchases of equipment previously owned by some entity other than the district itself; (xi) contracts for repair, maintenance, remodeling, renovation, or construction, or a single project involving an expenditure not to exceed $50,000 and not involving a change or increase in the size, type, or extent of an existing facility; (xii) contracts for goods or services procured from another governmental agency; (xiii) contracts for goods or services which are economically procurable from only one source, such as for the purchase of magazines, books, periodicals, pamphlets and reports, and for utility services such as water, light, heat, telephone or telegraph; (xiv) where funds are expended in an emergency and such emergency expenditure is approved by 3/4 of the members of the board; (xv) State master contracts authorized under Article 28A of this Code; and (xvi) contracts providing for the transportation of pupils, which contracts must be advertised in the same manner as competitive bids and awarded by first considering the bidder or bidders most able to provide safety and comfort for the pupils, stability of service, and any other factors set forth in the request for

proposal regarding quality of service, and then price. However, at no time shall a cause of action lie against a school board for awarding a pupil transportation contract per the standards set forth in this subsection (a) unless the cause of action is based on fraudulent conduct.

All competitive bids for contracts involving an expenditure in excess of $25,000 or a lower amount as required by board policy must be sealed by the bidder and must be opened by a member or employee of the school board at a public bid opening at which the contents of the bids must be announced. Each bidder must receive at least 3 days' notice of the time and place of the bid opening. For purposes of this Section due advertisement includes, but is not limited to, at least one public notice at least 10 days before the bid date in a newspaper published in the district, or if no newspaper is published in the district, in a newspaper of general circulation in the area of the district. State master contracts and certified education purchasing contracts, as defined in Article 28A of this Code, are not subject to the requirements of this paragraph.

Under this Section, the acceptance of bids sealed by a bidder and the opening of these bids at a public bid opening may be permitted by an electronic process for communicating, accepting, and opening competitive bids. However, bids for construction purposes are prohibited from being communicated, accepted, or opened electronically. An electronic bidding process must provide for, but is not limited to, the following safeguards:

(1) On the date and time certain of a bid opening, the primary person conducting the competitive, sealed, electronic bid process shall log onto a specified database using a unique username and password previously assigned to the bidder to allow access to the bidder's specific bid project number.

(2) The specified electronic database must be on a network that (i) is in a secure environment behind a firewall; (ii) has specific encryption tools; (iii) maintains specific intrusion detection systems; (iv) has redundant systems architecture with data storage back-up, whether by compact disc or tape; and (v) maintains a disaster recovery plan.

It is the legislative intent of Public Act 96-841 to maintain the integrity of the sealed bidding process provided for in this Section, to further limit any possibility of bid-rigging, to reduce administrative costs to school districts, and to effect efficiencies in communications with bidders.

of the person collect and remit Illinois Use Tax on all sales of tangible personal property into the State of Illinois in accordance with the provisions of the Illinois Use Tax Act regardless of whether the person or affiliate is a "retailer maintaining a place of business within this State" as defined in Section 2 of the Use Tax Act. For purposes of this Section, the term "affiliate" means any entity that (1) directly, indirectly, or constructively controls another entity, (2) is directly, indirectly, or constructively controlled by another entity, or (3) is subject to the control of a common entity. For purposes of this subsection (b), an entity controls another entity if it owns, directly or individually, more than 10% of the voting securities of that entity. As used in this subsection (b), the term "voting security" means a security that (1) confers upon the holder the right to vote for the election of members of the board of directors or similar governing body of the business or (2) is convertible into, or entitles the holder to receive upon its exercise, a security that confers such a right to vote. A general partnership interest is a voting security.

To require that bids and contracts include a certification by the bidder or contractor that the bidder or contractor is not barred from bidding for or entering into a contract under this Section and that the bidder or contractor acknowledges that the school board may declare the contract void if the certification completed pursuant to this subsection (b) is false.

(b-5) To require all contracts and agreements that pertain to goods and services and that are intended to generate additional revenue and other remunerations for the school district in excess of $1,000, including without limitation vending machine contracts, sports and other attire, class rings, and photographic services, to be approved by the school board. The school board shall file as an attachment to its annual budget a report, in a form as determined by the State Board of Education, indicating for the prior year the name of the vendor, the product or service provided, and the actual net revenue and non-monetary remuneration from each of the contracts or agreements. In addition, the report shall indicate for what purpose the revenue was used and how and to whom the non-monetary remuneration was distributed.

(b-10) To prohibit any contract to purchase food with a bidder or offeror if the bidder's or offeror's contract terms prohibit the school from donating food to food banks, including, but not limited to, homeless shelters, food pantries, and soup kitchens.

New matter indicated by italics - deletions by strikeout
(c) If the State education purchasing entity creates a master contract as defined in Article 28A of this Code, then the State education purchasing entity shall notify school districts of the existence of the master contract.

(d) In purchasing supplies, materials, equipment, or services that are not subject to subsection (c) of this Section, before a school district solicits bids or awards a contract, the district may review and consider as a bid under subsection (a) of this Section certified education purchasing contracts that are already available through the State education purchasing entity.

(4) A $10 per year registration fee for the course of the validity cycle to register the license, which shall be paid to the regional office of education having supervision and control over the school in which the individual holding the license is to be employed. Funds available from the Teacher Certificate Fee Revolving Fund may also be used by the State Board of Education to support the recruitment and retention of educators, to support educator preparation programs as they seek national accreditation, and to provide professional development aligned with the requirements set forth
in Section 21B-45 of this Code. A majority of the funds in the Teacher Certificate Fee Revolving Fund must be dedicated to the timely and efficient processing of applications and for the renewal of licenses. The Teacher Certificate Fee Revolving Fund is not subject to administrative charge transfers, authorized under Section 8h of the State Finance Act, from the Teacher Certificate Fee Revolving Fund into any other fund of this State, and moneys in the Teacher Certificate Fee Revolving Fund shall not revert back to the General Revenue Fund at any time.

(d) If, at the time a certificate issued under Article 21 of this Code is exchanged for a license issued under this Article, a person has paid registration fees for any years of the validity period of the certificate and these years have not expired when the certificate is exchanged, then those fees must be applied to the registration of the new license.

An individual must hold an Educator License with Stipulations with an alternative provisional educator endorsement in order to enter the residency and must complete additional program requirements that address required State and national standards, pass the State Board's teacher performance assessment of professional teaching before entering the second residency year, as required under phase (3) of this subsection (b), and be recommended by the principal or qualified equivalent of a principal, as required under subsection (d) of this Section, and the program coordinator to continue with the second year of the residency.

(3) A second year of residency, which shall include the candidate's assignment to a full-time teaching position for one school year. The candidate must be assigned an experienced teacher to act as a mentor and coach the candidate through the second year of residency.

(4) A comprehensive assessment of the candidate's teaching effectiveness, as evaluated by the principal or qualified equivalent of a principal, as required under subsection (d) of this Section, and the program coordinator, at the end of the second year of residency. If there is disagreement between the 2 evaluators about the candidate's teaching effectiveness, the candidate may complete one additional year of residency teaching under a professional development plan developed by the principal or qualified equivalent and the preparation program. At the completion of the third year, a candidate must have positive evaluations and a recommendation for full licensure from both the principal or qualified equivalent and the program coordinator or no Professional Educator License shall be issued.

Successful completion of the program shall be deemed to satisfy any other practice or student teaching and content matter requirements established by law.

(c) An alternative provisional educator endorsement on an Educator License with Stipulations is valid for 2 years of teaching in the public schools, including without limitation a preschool educational
program under Section 2-3.71 of this Code or charter school, or in a State-recognized nonpublic school in which the chief administrator is required to have the licensure necessary to be a principal in a public school in this State and in which a majority of the teachers are required to have the licensure necessary to be instructors in a public school in this State, but may be renewed for a third year if needed to complete the Alternative Educator Licensure Program for Teachers. The endorsement shall be issued only once to an individual who meets all of the following requirements:

(2) Has a cumulative grade point average of 3.0 or greater on a 4.0 scale or its equivalent on another scale.

(3) Has completed a major in the content area if seeking a middle or secondary level endorsement or, if seeking an early childhood, elementary, or special education endorsement, has completed a major in the content area of reading, English/language arts, mathematics, or one of the sciences. If the individual does not have a major in a content area for any level of teaching, he or she must submit transcripts to the State Board of Education to be reviewed for equivalency.

(4) Has successfully completed phase (1) of subsection (b) of this Section.

(5) Has passed a test of basic skills and content area test required for the specific endorsement for admission into the program, as required under Section 21B-30 of this Code.

A candidate possessing the alternative provisional educator endorsement may receive a salary, benefits, and any other terms of employment offered to teachers in the school who are members of an exclusive bargaining representative, if any, but a school is not required to provide these benefits during the years of residency if the candidate is serving only as a co-teacher. If the candidate is serving as the teacher of record, the candidate must receive a salary, benefits, and any other terms of employment. Residency experiences must not be counted towards tenure.

(d) The recognized institution offering the Alternative Educator Licensure Program for Teachers must partner with a school district, including without limitation a preschool educational program under Section 2-3.71 of this Code or charter school, or a State-recognized,
nonpublic school in this State in which the chief administrator is required to have the licensure necessary to be a principal in a public school in this State and in which a majority of the teachers are required to have the licensure necessary to be instructors in a public school in this State. A recognized institution that partners with a public school district administering a preschool educational program under Section 2-3.71 of this Code must require a principal to recommend or evaluate candidates in the program. A recognized institution that partners with an eligible entity administering a preschool educational program under Section 2-3.71 of this Code and that is not a public school district must require a principal or qualified equivalent of a principal to recommend or evaluate candidates in the program. The program presented for approval by the State Board of Education must demonstrate the supports that are to be provided to assist the provisional teacher during the 2-year residency period. These supports must provide additional contact hours with mentors during the first year of residency.

(e) Upon completion of the 4 phases outlined in subsection (b) of this Section and all assessments required under Section 21B-30 of this Code, an individual shall receive a Professional Educator License.

(f) The State Board of Education, in consultation with the State Educator Preparation and Licensure Board, may adopt such rules as may be necessary to establish and implement the Alternative Educator Licensure Program for Teachers.

Sec. 13.9. Mahomet Aquifer natural gas storage study.
(a) Subject to appropriation, the Prairie Research Institute shall:

prepare three-dimensional models of the unconsolidated geologic materials overlying any underground natural gas storage facility located within the boundaries of the Mahomet Aquifer; and

(2) to the extent possible, identify within those unconsolidated geologic materials potential structures and migration pathways for natural gas that may be released from the underground natural gas storage facility.

(b) For purposes of this Section, "underground natural gas storage facility" has the meaning provided in Section 5 of the Illinois Underground Natural Gas Storage Safety Act.

(415 ILCS 5/21.7 new)
Sec. 21.7. Landfills.
(a) The purpose of this Section is to enact legislative recommendations provided by the Mahomet Aquifer Task Force, established under Public Act 100-403. The Task Force identified capped but unregulated or underregulated landfills that overlie the Mahomet Aquifer as potentially hazardous to valuable groundwater resources. These unregulated or underregulated landfills generally began accepting waste for disposal sometime prior to 1973.

(b) The Agency shall prioritize unregulated or underregulated landfills that overlie the Mahomet Aquifer for inspection. The following factors shall be considered:

(1) the presence of, and depth to, any aquifer with potential potable use;

(2) whether the landfill has an engineered liner system;

(3) whether the landfill has an active groundwater monitoring system;

(4) whether waste disposal occurred within the 100-year floodplain; and

(5) landfills within the setback zone of any potable water supply well.

(c) Subject to appropriation, the Agency shall use existing information available from State and federal agencies, such as the Prairie Research Institute, the Department of Natural Resources, the Illinois Emergency Management Agency, the Federal Emergency Management Agency, and the Natural Resources Conservation Service, to identify unknown, unregulated, or underregulated waste disposal sites that overlie the Mahomet Aquifer that may pose a threat to surface water or groundwater resources.

New matter indicated by italics - deletions by strikeout
(d) Subject to appropriation, for those landfills prioritized for response action following inspection and investigation, the Agency shall use its own data, along with data from municipalities, counties, solid waste management associations, companies, corporations, and individuals, to archive information about the landfills, including their ownership, operational details, and waste disposal history.

Section 10. The Illinois Groundwater Protection Act is amended by adding Section 10 as follows:

(415 ILCS 55/10 new)
Sec. 10. Pekin Metro Landfill; pilot projects.
(a) Subject to appropriation, the Agency shall design and implement up to 2 pilot studies of landfills that overlie the Mahomet Aquifer to identify threats to surface and groundwater resources that are posed by the landfills. One of the pilot projects shall be conducted at the Pekin Metro Landfill in Tazewell County. In conducting the pilot projects, the Agency shall:

(1) inspect and identify potential and current contamination threats to the water quality of aquifers in the same watershed as the landfill (for the Pekin Metro Landfill, the Mahomet Aquifer);
(2) use geographic information systems and remote sensing technology to track defects, structures, appliances, and wells for routine inspection and sustainable management;
(3) install or repair groundwater monitoring mechanisms necessary to identify whether contaminants from the landfill are affecting water quality in the Mahomet Aquifer; and
(4) identify and provide cost estimates for any additional response actions necessary or appropriate to reduce or minimize potential threats to human health and the environment resulting from current landfill conditions.

(b) Following the completion of the pilot project response actions, the Agency shall:

(1) evaluate, in consultation with the Prairie Research Institute, the use of aerial photography and other remote sensing technologies, such as Light Detection and Ranging (LiDAR), to identify land erosion, landslides, barren areas, leachate seeps, vegetation, and other relevant surface and subsurface features of landfills to aid in the inspection and investigation of landfills; and
(2) identify additional procedures, requirements, or authorities that may be appropriate or necessary to address

Section 5. The North Shore Water Reclamation District Act is amended by changing Sections 4, 7.6, 11, and 16 and by adding Section 7.8 as follows:

(70 ILCS 2305/4) (from Ch. 42, par. 280)

Sec. 4. Board of trustees; powers; compensation. The trustees shall constitute a board of trustees for the district. The board of trustees is the corporate authority of the district, and shall exercise all the powers and manage and control all the affairs and property of the district. The board shall elect a president and vice-president from among their own number. In case of the death, resignation, absence from the state, or other disability of the president, the powers, duties and emoluments of the office of the president shall devolve upon the vice-president, until the disability is removed or until a successor to the president is appointed and chosen in the manner provided in this Act. The board may select a secretary, treasurer, executive director, and attorney, and may provide by ordinance for the employment of other employees as the board may deem necessary for the municipality. The board may appoint such other officers and hire such employees to manage and control the operations of the district as it deems necessary; provided, however, that the board shall not employ an individual as a wastewater operator whose Certificate of Technical Competency is suspended or revoked under rules adopted by the Pollution Control Board under item (4) of subsection (a) of Section 13 of the Environmental Protection Act. All employees selected by the board shall hold their respective offices during the pleasure of the board, and give such bond as may be required by the board. The board may prescribe the duties and fix the compensation of all the officers and employees of the sanitary district. However, the president of the board of trustees shall not receive more than $10,000 per year and the other members of the board shall not receive more than $7,000 per year. However, beginning with the commencement of the new term of each board member in 1993, the president shall not receive more than $11,000 per year and each other member of the board shall not receive more than $8,000 per year. Beginning with the commencement of the first new term after the effective

date of this amendatory Act of the 95th General Assembly, the president of
the board shall not receive more than $18,000 per year, and each
other member of the board shall not receive more than $15,000 per year. The board of trustees has full power to pass all necessary
ordinances, rules and regulations for the proper management and conduct
of the business of the board and of the corporation, and for carrying into
effect the objects for which the sanitary district was formed. The
ordinances may provide for a fine for each offense of not less than $100 or
more than $1,000. Each day's continuance of a violation shall be a separate
offense. Fines under this Section are recoverable by the sanitary district in
a civil action. The sanitary district is authorized to apply to the circuit
court for injunctive relief or mandamus when, in the opinion of the chief
administrative officer, the relief is necessary to protect the sewerage
system of the sanitary district.

The board of trustees shall have the authority to change the name
of the District, by ordinance, to the North Shore Water Reclamation
District. Any such name change shall not impair the legal status of any act
by the sanitary district. If an ordinance is passed pursuant to this
paragraph, all provisions of this Act shall apply to the newly renamed
district. No rights, duties, or privilege of such sanitary district or of any
person existing before the change of name shall be affected by the change
in the name of the sanitary district. All proceedings pending in any court
relating to such sanitary district may continue to final consummation under
the name in which they were commenced.

industrial waste surcharge, connection fee or connection-related fee,
or industrial cost recovery charge imposed by the sanitary district, together
with all penalties, interest, and costs imposed in connection therewith,
shall be liens against the real estate which receives the service or benefit
for which the charges are being imposed; provided, however, such liens

judgment creditor, or other lien holder arising prior to the filing in the office of the recorder of the county in which real estate is located of notice of the lien, which notice shall consist of a sworn statement setting out (1) a description of the real estate for which the service or the benefit was rendered sufficient to identify the real estate, (2) the amount or amounts of money due for such service or benefit, and (3) the date or dates when such amount or amounts became delinquent. The sanitary district shall have the power to foreclose such lien in the same manner and with the same effect as in the foreclosure of mortgages on real estate. The payment of connection fees or connection-related fees by the user or any other interested party is a condition for the continued connection of the real property or any structure thereon. The sanitary district shall have the authority to terminate all connections and service to any real property or structure thereon if any connection fee or connection-related fee is not paid within 60 days from the date such payment is due by the user or any other party that has an interest or subsequently acquires an interest in the property.

The assertion of liens against real estate by the sanitary district to secure payment of user charges, industrial waste surcharges, connection fee or connection-related fee, or industrial cost recovery charges imposed by the sanitary district as indicated in the previous paragraph shall be in addition to any other remedy or right of recovery which the sanitary district may have with respect to the collection or recovery of such charges imposed by the sanitary district. Judgment in a civil action brought by the sanitary district to recover or collect such charges shall not operate as a release and waiver of the lien upon the real estate for the amount of the judgment. Only satisfaction of the judgment or the filing of a release or satisfaction of lien shall release said lien. The lien for charges on account of services or benefits provided for in this Section and the rights created hereunder shall be in addition to the lien upon real estate created by and imposed for general real estate taxes.

Sec. 11. Except as otherwise provided in this Section, all contracts for purchases or sales by the municipality, the expense of which will exceed the mandatory competitive bid threshold, shall be let to the lowest responsible bidder therefor upon not less than 14 days' public notice of the terms and conditions upon which the contract is to be let, having been given by publication in a newspaper of general circulation published in the district, and the board may reject any and all bids and readvertise. In determining the lowest responsible bidder, the board shall take into consideration the qualities and serviceability of the articles supplied, their conformity with specifications, their suitability to the requirements of the district, the availability of support services, the uniqueness of the service, materials, equipment, or supplies as it applies to network integrated computer systems, the compatibility of the service, materials, equipment or supplies with existing equipment, and the delivery terms. Contracts for services in excess of the mandatory competitive bid threshold may, subject to the provisions of this Section, be let by competitive bidding at the discretion of the district board of trustees. All contracts for purchases or sales that will not exceed the mandatory competitive bid threshold may be made in the open market without publication in a newspaper as above provided, but whenever practical shall be based on at least 3 competitive bids. For purposes of this Section, the "mandatory competitive bid threshold" is a dollar amount equal to 0.1% of the total general fixed assets of the district as reported in the most recent required audit report. In no event, however, shall the mandatory competitive bid threshold dollar amount be less than $10,000, nor more than $40,000.

Cash, a cashier's check, a certified check, or a bid bond with adequate surety approved by the board of trustees as a deposit of good faith, in a reasonable amount, but not in excess of 10% of the contract amount, may be required of each bidder by the district on all bids involving amounts in excess of the mandatory competitive bid threshold and, if so required, the advertisement for bids shall so specify.
Contracts which by their nature are not adapted to award by competitive bidding, including, without limitation, contracts for the services of individuals, groups or firms possessing a high degree of professional skill where the ability or fitness of the individual or organization plays an important part, contracts for financial management services undertaken pursuant to "An Act relating to certain investments of public funds by public agencies", approved July 23, 1943, as now or hereafter amended, contracts for the purchase or sale of utilities, contracts for commodities including supply contracts for natural gas and electricity, contracts for materials economically procurable only from a single source of supply, contracts for services, supplies, materials, parts, or equipment which are available only from a single source or contracts for maintenance, repairs, OEM supplies, or OEM parts from the manufacturer or from a source authorized by the manufacturer, contracts for the use, purchase, delivery, movement, or installation of data processing equipment, software, or services and telecommunications and interconnect equipment, software, or services, contracts for duplicating machines and supplies, contracts for goods or services procured from another governmental agency, purchases of equipment previously owned by an entity other than the district itself, purchases of used equipment, purchases at auction or similar transactions which by their very nature are not suitable to competitive bids, and leases of real property where the sanitary district is the lessee shall not be subject to the competitive bidding requirements of this Section.

The District may use a design-build procurement method for any public project which shall not be subject to the competitive bidding requirements of this Section provided the Board of Trustees approves the contract for the public project by a vote of 4 of the 5 trustees. For the purposes of this Section, "design-build" means a delivery system that provides responsibility within a single contract for the furnishing of architecture, engineering, land surveying and related services as required, and the labor, materials, equipment, and other construction services for the project.

In the case of an emergency affecting the public health or safety so declared by the Board of Trustees of the municipality at a meeting thereof duly convened, which declaration shall require the affirmative vote of four of the five Trustees, and shall set forth the nature of the danger to the public health or safety, contracts totaling not more than the emergency contract cap may be let to the extent necessary to resolve such emergency...
without public advertisement or competitive bidding. For purposes of this Section, the dollar amount of an emergency contract shall not be less than $40,000, nor more than $500,000. The Resolution or Ordinance in which such declaration is embodied shall fix the date upon which such emergency shall terminate which date may be extended or abridged by the Board of Trustees as in their judgment the circumstances require. A full written account of any such emergency, together with a requisition for the materials, supplies, labor or equipment required therefor shall be submitted immediately upon completion and shall be open to public inspection for a period of at least one year subsequent to the date of such emergency purchase.

To address operating emergencies not affecting the public health or safety, the Board of Trustees shall authorize, in writing, officials or employees of the sanitary district to purchase in the open market and without advertisement any supplies, materials, equipment, or services for immediate delivery to meet the bona fide operating emergency, without filing a requisition or estimate therefor, in an amount not in excess of $100,000; provided that the Board of Trustees must be notified of the operating emergency. A full, written account of each operating emergency and a requisition for the materials, supplies, equipment, and services required to meet the operating emergency must be immediately submitted by the officials or employees authorized to make purchases to the Board of Trustees. The account must be available for public inspection for a period of at least one year after the date of the operating emergency purchase. The exercise of authority with respect to purchases for a bona fide operating emergency is not dependent on a declaration of an operating emergency by the Board of Trustees.

The competitive bidding requirements of this Section do not apply to contracts, including contracts for both materials and services incidental thereto, for the repair or replacement of a sanitary district's treatment plant, sewers, equipment, or facilities damaged or destroyed as the result of a sudden or unexpected occurrence, including, but not limited to, a flood, fire, tornado, earthquake, storm, or other natural or man-made disaster, if the board of trustees determines in writing that the awarding of those contracts without competitive bidding is reasonably necessary for the sanitary district to maintain compliance with a permit issued under the National Pollution Discharge Elimination System (NPDES) or any successor system or with any outstanding order relating to that compliance issued by the United States Environmental Protection Agency, the Illinois

Environmental Protection Agency, or the Illinois Pollution Control Board. The authority to issue contracts without competitive bidding pursuant to this paragraph expires 6 months after the date of the writing determining that the awarding of contracts without competitive bidding is reasonably necessary.

No Trustee shall be interested, directly or indirectly, in any contract, work or business of the municipality, or in the sale of any article, whenever the expense, price or consideration of the contract work, business or sale is paid either from the treasury or by any assessment levied by any Statute or Ordinance. No Trustee shall be interested, directly or indirectly, in the purchase of any property which (1) belongs to the municipality, or (2) is sold for taxes or assessments of the municipality, or (3) is sold by virtue of legal process in the suit of the municipality.

A contract for any work or other public improvement, to be paid for in whole or in part by special assessment or special taxation, shall be entered into and the performance thereof controlled by the provisions of Division 2 of Article 9 of the "Illinois Municipal Code", approved May 29, 1961, as heretofore or hereafter amended, as near as may be. However, contracts may be let for making proper and suitable connections between the mains and outlets of the respective sanitary sewers in the district with any conduit, conduits, main pipe or pipes that may be constructed by such sanitary district.

AN ACT concerning State government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois is amended by adding Section 913 as follows:

(20 ILCS 605/913 new)

New matter indicated by italics - deletions by strikeout
Sec. 913. Clean Water Workforce Pipeline Program.
(a) The General Assembly finds the following:

(1) The fresh surface water and groundwater supply in Illinois and Lake Michigan constitute vital natural resources that require careful stewardship and protection for future generations. Access to safe and clean drinking water is the right of all Illinois residents.

(2) To adequately protect these resources and provide safe and clean drinking water, substantial investment is needed to replace lead components in drinking water infrastructure, improve wastewater treatment, flood control, and stormwater management, control aquatic invasive species, implement green infrastructure solutions, and implement other infrastructure solutions to protect water quality.

(3) Implementing these clean water solutions will require a skilled and trained workforce, and new investments will demand additional workers with specialized skills.

(4) Water infrastructure jobs have been shown to provide living wages and contribute to Illinois' economy.

(5) Significant populations of Illinois residents, including, but not limited to, residents of environmental justice communities, economically and socially disadvantaged communities, those returning from the criminal justice system, foster care alumni, and in particular women and transgender persons, are in need of access to skilled living wage jobs like those in the water infrastructure sector.

(6) Many of these residents are more likely to live in communities with aging and inadequate clean water infrastructure and suffer from threats to surface and drinking water quality.

(7) The State can provide significant economic opportunities to these residents and achieve greater environmental and public health by investing in clean water infrastructure.

(8) New training, recruitment, support, and placement efforts are needed to connect these residents with career opportunities in water infrastructure.

(9) The State must invest in both clean water infrastructure and workforce development efforts in order to achieve these goals.

(b) From appropriations made from the Build Illinois Bond Fund, Capital Development Fund, or General Revenue Fund or other funds as

identified by the Department, the Department shall create a Clean Water Workforce Pipeline Program to provide grants and other financial assistance to prepare and support individuals for careers in water infrastructure. All funding provided by the Program under this Section shall be designed to encourage and facilitate employment in projects funded through State capital investment and provide participants a skill set to allow them to work professionally in fields related to water infrastructure.

Grants and other financial assistance may be made available on a competitive annual basis to organizations that demonstrate a capacity to recruit, support, train, and place individuals in water infrastructure careers, including, but not limited to, community organizations, educational institutions, workforce investment boards, community action agencies, and multi-craft labor organizations for new efforts specifically focused on engaging residents of environmental justice communities, economically and socially disadvantaged communities, those returning from the criminal justice system, foster care alumni, and in particular women and transgender persons in these populations.

Grants and other financial assistance shall be awarded on a competitive and annual basis for the following activities:

1. identification of individuals for job training in the water sector;
2. counseling, preparation, skills training, and other support to increase a candidate's likelihood of success in a job training program and career;
3. financial support for individuals in a water sector job skills training program, support services, and transportation assistance tied to training under this Section;
4. job placement services for individuals during and after completion of water sector job skills training programs; and
5. financial, administrative, and management assistance for organizations engaged in these activities.

(c) It shall be an annual goal of the Program to train and place at least 300, or 25% of the number of annual jobs created by State financed water infrastructure projects, whichever is greater, of the following persons in water sector-related apprenticeships annually: residents of environmental justice communities; residents of economically and socially disadvantaged communities; those returning from the criminal justice system; foster care alumni; and, in particular, women and transgender persons.

persons. In awarding and administering grants under this Program, the Department shall strive to provide assistance equitably throughout the State.

In order to encourage the employment of individuals trained through the Program onto projects receiving State financial assistance, the Department shall coordinate with the Illinois Environmental Protection Agency, the Illinois Finance Authority, and other State agencies that provide financial support for water infrastructure projects. These agencies shall take steps to support attaining the training and placement goals set forth in this subsection, using a list of projects that receive State financial support. These agencies may propose and adopt rules to facilitate the attainment of this goal.

Using funds appropriated for the purposes of this Section, the Department may select through a competitive bidding process a Program Administrator to oversee the allocation of funds and select organizations that receive funding.

Recipients of grants under the Program shall report annually to the Department on the success of their efforts and their contribution to reaching the goals of the Program provided in this subsection. The Department shall compile this information and annually report to the General Assembly on the Program, including, but not limited to, the following information:

1. progress toward the goals stated in this subsection;
2. any increase in the percentage of water industry jobs in targeted populations;
3. any increase in the rate of acceptance, completion, or retention of water training programs among targeted populations;
4. any increase in the rate of employment, including hours and annual income, measured against pre-Program participant income; and
5. any recommendations for future changes to optimize the success of the Program.

(d) Within 90 days after the effective date of this amendatory Act of the 101st General Assembly, the Department shall propose a draft plan to implement this Section for public comment. The Department shall allow a minimum of 60 days for public comment on the plan, including one or more public hearings, if requested. The Department shall finalize the plan within 180 days of the effective date of this amendatory Act of the 101st General Assembly.
The Department may propose and adopt any rules necessary for the implementation of the Program and to ensure compliance with this Section.

(e) The Water Workforce Development Fund is created as a special fund in the State treasury. The Fund shall receive moneys appropriated for the purpose of this Section from the Build Illinois Bond Fund, the Capital Development Fund, the General Revenue Fund and any other funds. Moneys in the Fund shall only be used to fund the Program and to assist and enable implementation of clean water infrastructure capital investments. Notwithstanding any other law to the contrary, the Water Workforce Development Fund is not subject to sweeps, administrative charge-backs, or any other fiscal or budgetary maneuver that would in any way transfer any amounts from the Water Workforce Development Fund into any other fund of the State.

(f) For purpose of this Section:
"Environmental justice community" has the meaning provided in subsection (b) of Section 1-50 of the Illinois Power Agency Act.
"Multi-craft labor organization" means a joint labor-management apprenticeship program registered with and approved by the United States Department of Labor's Office of Apprenticeship or a labor organization that has an accredited training program through the Higher Learning Commission or the Illinois Community College Board.

AN ACT concerning regulation.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Counties Code is amended by changing Section 5-1069 as follows:

(a) The county board of any county may arrange to provide, for the benefit of employees of the county, group life, health, accident, hospital, and medical insurance, or any one or any combination of those types of insurance, or the county board may self-insure, for the benefit of its employees, all or a portion of the employees' group life, health, accident, hospital, and medical insurance, or any one or any combination of those types of insurance, including a combination of self-insurance and other types of insurance authorized by this Section, provided that the county board complies with all other requirements of this Section. The insurance may include provision for employees who rely on treatment by prayer or spiritual means alone for healing in accordance with the tenets and practice of a well recognized religious denomination. The county board may provide for payment by the county of a portion or all of the premium or charge for the insurance with the employee paying the balance of the premium or charge, if any. If the county board undertakes a plan under which the county pays only a portion of the premium or charge, the county board shall provide for withholding and deducting from the compensation of those employees who consent to join the plan the balance of the premium or charge for the insurance.

(b) If the county board does not provide for self-insurance or for a plan under which the county pays a portion or all of the premium or charge for a group insurance plan, the county board may provide for withholding and deducting from the compensation of those employees who consent...
thereto the total premium or charge for any group life, health, accident, hospital, and medical insurance.

(c) The county board may exercise the powers granted in this Section only if it provides for self-insurance or, where it makes arrangements to provide group insurance through an insurance carrier, if the kinds of group insurance are obtained from an insurance company authorized to do business in the State of Illinois. The county board may enact an ordinance prescribing the method of operation of the insurance program.

(d) If a county, including a home rule county, is a self-insurer for purposes of providing health insurance coverage for its employees, the insurance coverage shall include screening by low-dose mammography for all women 35 years of age or older for the presence of occult breast cancer unless the county elects to provide mammograms itself under Section 5-1069.1. The coverage shall be as follows:

1. A baseline mammogram for women 35 to 39 years of age.
2. An annual mammogram for women 40 years of age or older.
3. A mammogram at the age and intervals considered medically necessary by the woman's health care provider for women under 40 years of age and having a family history of breast cancer, prior personal history of breast cancer, positive genetic testing, or other risk factors.
4. For a group policy of accident and health insurance that is amended, delivered, issued, or renewed on or after the effective date of this amendatory Act of the 101st General Assembly, a comprehensive ultrasound screening of an entire breast or breasts if a mammogram demonstrates heterogeneous or dense breast tissue or, when medically necessary as determined by a physician licensed to practice medicine in all of its branches, advanced practice registered nurse, or physician assistant.
5. For a group policy of accident and health insurance that is amended, delivered, issued, or renewed on or after the effective date of this amendatory Act of the 101st General Assembly, a diagnostic mammogram when medically necessary, as determined by a physician licensed to practice medicine in all its branches, advanced practice registered nurse, or physician assistant.

A policy subject to this subsection shall not impose a deductible, coinsurance, copayment, or any other cost-sharing requirement on the coverage provided; except that this sentence does not apply to coverage of diagnostic mammograms to the extent such coverage would disqualify a high-deductible health plan from eligibility for a health savings account pursuant to Section 223 of the Internal Revenue Code (26 U.S.C. 223).

For purposes of this subsection:

"Diagnostic mammogram" means a mammogram obtained using diagnostic mammography.

"Diagnostic mammography" means a method of screening that is designed to evaluate an abnormality in a breast, including an abnormality seen or suspected on a screening mammogram or a subjective or objective abnormality otherwise detected in the breast.

"Low-dose mammography" means the x-ray examination of the breast using equipment dedicated specifically for mammography, including the x-ray tube, filter, compression device, and image receptor, with an average radiation exposure delivery of less than one rad per breast for 2 views of an average size breast. The term also includes digital mammography.

(d-5) Coverage as described by subsection (d) shall be provided at no cost to the insured and shall not be applied to an annual or lifetime maximum benefit.

(d-10) When health care services are available through contracted providers and a person does not comply with plan provisions specific to the use of contracted providers, the requirements of subsection (d-5) are not applicable. When a person does not comply with plan provisions specific to the use of contracted providers, plan provisions specific to the use of non-contracted providers must be applied without distinction for coverage required by this Section and shall be at least as favorable as for other radiological examinations covered by the policy or contract.

(d-15) If a county, including a home rule county, is a self-insurer for purposes of providing health insurance coverage for its employees, the insurance coverage shall include mastectomy coverage, which includes coverage for prosthetic devices or reconstructive surgery incident to the mastectomy. Coverage for breast reconstruction in connection with a mastectomy shall include:

(1) reconstruction of the breast upon which the mastectomy has been performed;

New matter indicated by italics - deletions by strikeout
(2) surgery and reconstruction of the other breast to produce a symmetrical appearance; and
(3) prostheses and treatment for physical complications at all stages of mastectomy, including lymphedemas.

Care shall be determined in consultation with the attending physician and the patient. The offered coverage for prosthetic devices and reconstructive surgery shall be subject to the deductible and coinsurance conditions applied to the mastectomy, and all other terms and conditions applicable to other benefits. When a mastectomy is performed and there is no evidence of malignancy then the offered coverage may be limited to the provision of prosthetic devices and reconstructive surgery to within 2 years after the date of the mastectomy. As used in this Section, "mastectomy" means the removal of all or part of the breast for medically necessary reasons, as determined by a licensed physician.

A county, including a home rule county, that is a self-insurer for purposes of providing health insurance coverage for its employees, may not penalize or reduce or limit the reimbursement of an attending provider or provide incentives (monetary or otherwise) to an attending provider to induce the provider to provide care to an insured in a manner inconsistent with this Section.

(d-20) The requirement that mammograms be included in health insurance coverage as provided in subsections (d) through (d-15) is an exclusive power and function of the State and is a denial and limitation under Article VII, Section 6, subsection (h) of the Illinois Constitution of home rule county powers. A home rule county to which subsections (d) through (d-15) apply must comply with every provision of those subsections.

(e) The term "employees" as used in this Section includes elected or appointed officials but does not include temporary employees.

(f) The county board may, by ordinance, arrange to provide group life, health, accident, hospital, and medical insurance, or any one or a combination of those types of insurance, under this Section to retired former employees and retired former elected or appointed officials of the county.

(g) Rulemaking authority to implement this amendatory Act of the 95th General Assembly, if any, is conditioned on the rules being adopted in accordance with all provisions of the Illinois Administrative Procedure Act and all rules and procedures of the Joint Committee on Administrative

The insurance may include provision for employees or other insured persons who rely on treatment by prayer or spiritual means alone for healing in accordance with the tenets and practice of a well recognized religious denomination. The corporate authorities may provide for payment by the municipality of a portion of the premium or charge for the insurance with the employee paying the balance of the premium or charge. If the corporate authorities undertake a plan under which the municipality pays a portion of the premium or charge, the corporate authorities shall provide for withholding and deducting from the compensation of those municipal employees who consent to join the plan the balance of the premium or charge for the insurance.

cancer, prior personal history of breast cancer, positive genetic testing, or other risk factors.

(4) For an individual or group policy of accident and health insurance or a managed care plan that is amended, delivered, issued, or renewed on or after the effective date of this amendatory Act of the 101st General Assembly, a comprehensive ultrasound screening and MRI of an entire breast or breasts if a mammogram demonstrates heterogeneous or dense breast tissue or when medically necessary as determined by a physician licensed to practice medicine in all of its branches.

(5) A screening MRI when medically necessary, as determined by a physician licensed to practice medicine in all of its branches.

(6) For an individual or group policy of accident and health insurance or a managed care plan that is amended, delivered, issued, or renewed on or after the effective date of this amendatory Act of the 101st General Assembly, a diagnostic mammogram when medically necessary, as determined by a physician licensed to practice medicine in all its branches, advanced practice registered nurse, or physician assistant.

A policy subject to this subsection shall not impose a deductible, coinsurance, copayment, or any other cost-sharing requirement on the coverage provided; except that this sentence does not apply to coverage of diagnostic mammograms to the extent such coverage would disqualify a high-deductible health plan from eligibility for a health savings account pursuant to Section 223 of the Internal Revenue Code (26 U.S.C. 223).

For purposes of this Section:

"Diagnostic mammogram" means a mammogram obtained using diagnostic mammography.

"Diagnostic mammography" means a method of screening that is designed to evaluate an abnormality in a breast, including an abnormality seen or suspected on a screening mammogram or a subjective or objective abnormality otherwise detected in the breast.

"Low-dose mammography" means the x-ray examination of the breast using equipment dedicated specifically for mammography, including the x-ray tube, filter, compression device, and image receptor, with radiation exposure delivery of less than 1 rad per breast for 2 views of an average size breast. The term also includes digital mammography and includes breast tomosynthesis. As used in this Section, the term "breast
tomosynthesis" means a radiologic procedure that involves the acquisition of projection images over the stationary breast to produce cross-sectional digital three-dimensional images of the breast.

If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage for breast tomosynthesis outlined in this subsection, then the requirement that an insurer cover breast tomosynthesis is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of coverage for breast tomosynthesis set forth in this subsection.

(a-5) Coverage as described by subsection (a) shall be provided at no cost to the insured and shall not be applied to an annual or lifetime maximum benefit.

(a-10) When health care services are available through contracted providers and a person does not comply with plan provisions specific to the use of contracted providers, the requirements of subsection (a-5) are not applicable. When a person does not comply with plan provisions specific to the use of contracted providers, plan provisions specific to the use of non-contracted providers must be applied without distinction for coverage required by this Section and shall be at least as favorable as for other radiological examinations covered by the policy or contract.

(b) No policy of accident or health insurance that provides for the surgical procedure known as a mastectomy shall be issued, amended, delivered, or renewed in this State unless that coverage also provides for prosthetic devices or reconstructive surgery incident to the mastectomy. Coverage for breast reconstruction in connection with a mastectomy shall include:

(1) reconstruction of the breast upon which the mastectomy has been performed;
(2) surgery and reconstruction of the other breast to produce a symmetrical appearance; and
(3) prostheses and treatment for physical complications at all stages of mastectomy, including lymphedemas.

As used in this Section, "mastectomy" means the removal of all or part of the breast for medically necessary reasons, as determined by a licensed physician.

Written notice of the availability of coverage under this Section shall be delivered to the insured upon enrollment and annually thereafter. An insurer may not deny to an insured eligibility, or continued eligibility, to enroll or to renew coverage under the terms of the plan solely for the purpose of avoiding the requirements of this Section. An insurer may not penalize or reduce or limit the reimbursement of an attending provider or provide incentives (monetary or otherwise) to an attending provider to induce the provider to provide care to an insured in a manner inconsistent with this Section.

(4) For an individual or group policy of accident and health insurance or a managed care plan that is amended, delivered, issued, or renewed on or after the effective date of this amendatory Act of the 101st General Assembly, a comprehensive ultrasound screening and MRI of an entire breast or breasts if a mammogram demonstrates heterogeneous or dense breast tissue or when medically necessary as determined by a physician licensed to practice medicine in all of its branches.

A policy subject to this subsection shall not impose a deductible, coinsurance, copayment, or any other cost-sharing requirement on the coverage provided; except that this sentence does not apply to coverage of diagnostic mammograms to the extent such coverage would disqualify a high-deductible health plan from eligibility for a health savings account pursuant to Section 223 of the Internal Revenue Code (26 U.S.C. 223).

"Breast tomosynthesis" means a radiologic procedure that involves the acquisition of projection images over the stationary breast to produce cross-sectional digital three-dimensional images of the breast.

If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage for breast tomosynthesis outlined in this subsection, then the requirement that an insurer cover breast tomosynthesis is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of coverage for breast tomosynthesis set forth in this subsection.

(a-5) Coverage as described in subsection (a) shall be provided at no cost to the enrollee and shall not be applied to an annual or lifetime maximum benefit.

(b) No contract or evidence of coverage issued by a health maintenance organization that provides for the surgical procedure known as a mastectomy shall be issued, amended, delivered, or renewed in this State on or after the effective date of this amendatory Act of the 92nd General Assembly unless that coverage also provides for prosthetic devices or reconstructive surgery incident to the mastectomy, providing that the mastectomy is performed after the effective date of this amendatory Act. Coverage for breast reconstruction in connection with a mastectomy shall include:

(1) reconstruction of the breast upon which the mastectomy has been performed;

(2) surgery and reconstruction of the other breast to produce a symmetrical appearance; and

(3) prostheses and treatment for physical complications at all stages of mastectomy, including lymphedemas.

As used in this Section, "mastectomy" means the removal of all or part of the breast for medically necessary reasons, as determined by a licensed physician.

Written notice of the availability of coverage under this Section shall be delivered to the enrollee upon enrollment and annually thereafter. A health maintenance organization may not deny to an enrollee eligibility, or continued eligibility, to enroll or to renew coverage under the terms of the plan solely for the purpose of avoiding the requirements of this Section. A health maintenance organization may not penalize or reduce or limit the reimbursement of an attending provider or provide incentives (monetary or otherwise) to an attending provider to induce the provider to provide care to an insured in a manner inconsistent with this Section.

(c) Rulemaking authority to implement this amendatory Act of the 95th General Assembly, if any, is conditioned on the rules being adopted in accordance with all provisions of the Illinois Administrative Procedure Act and all rules and procedures of the Joint Committee on Administrative Rules; any purported rule not so adopted, for whatever reason, is unauthorized.

The Department shall work with experts in breast cancer outreach and patient navigation to optimize these reminders and shall establish a methodology for evaluating their effectiveness and modifying the methodology based on the evaluation.

The Department shall establish a performance goal for primary care providers with respect to their female patients over age 40 receiving an annual mammogram. This performance goal shall be used to provide additional reimbursement in the form of a quality performance bonus to primary care providers who meet that goal.

The rules and regulations shall require that proof of the receipt of prescription drugs, dentures, prosthetic devices and eyeglasses by eligible persons under this Section accompany each claim for reimbursement submitted by the dispenser of such medical services. No such claims for reimbursement shall be approved for payment by the Illinois Department without such proof of receipt, unless the Illinois Department shall have put into effect and shall be operating a system of post-payment audit and review which shall, on a sampling basis, be deemed adequate by the Illinois Department to assure that such drugs, dentures, prosthetic devices and eyeglasses for which payment is being made are actually being received by eligible recipients. Within 90 days after September 16, 1984 (the effective date of Public Act 83-1439), the Illinois Department shall establish a current list of acquisition costs for all prosthetic devices and any other items recognized as medical equipment and supplies reimbursable under this Article and shall update such list on a quarterly basis, except that the acquisition costs of all prescription drugs shall be updated no less frequently than every 30 days as required by Section 5-5.12.

to its information technology platforms in order to allow for the direct
acceptance and payment of nursing home claims.

Notwithstanding any other law to the contrary, the Illinois
Department shall, within 365 days after August 15, 2014 (the effective
date of Public Act 98-963), establish procedures to permit ID/DD facilities

services desiring to participate in the medical assistance program

3. In the case of a provider for whom the Illinois Department initiates the monthly billing process.

4. In the case of a provider operated by a unit of local government with a population exceeding 3,000,000 when local government funds finance federal participation for claims payments.

For claims for services rendered during a period for which a recipient received retroactive eligibility, claims must be filed within 180
days after the Department determines the applicant is eligible. For claims for which the Illinois Department is not the primary payer, claims must be submitted to the Illinois Department within 180 days after the final adjudication by the primary payer.

In the case of long term care facilities, within 45 calendar days of receipt by the facility of required prescreening information, new admissions with associated admission documents shall be submitted through the Medical Electronic Data Interchange (MEDI) or the Recipient Eligibility Verification (REV) System or shall be submitted directly to the Department of Human Services using required admission forms. Effective September 1, 2014, admission documents, including all prescreening information, must be submitted through MEDI or REV. Confirmation numbers assigned to an accepted transaction shall be retained by a facility to verify timely submittal. Once an admission transaction has been completed, all resubmitted claims following prior rejection are subject to receipt no later than 180 days after the admission transaction has been completed.

Claims that are not submitted and received in compliance with the foregoing requirements shall not be eligible for payment under the medical assistance program, and the State shall have no liability for payment of those claims.

Beginning in fiscal year 2013, the Illinois Department shall set forth a request for information to identify the benefits of a pre-payment, post-adjudication, and post-edit claims system with the goals of streamlining claims processing and provider reimbursement, reducing the number of pending or rejected claims, and helping to ensure a more transparent adjudication process through the utilization of: (i) provider data verification and provider screening technology; and (ii) clinical code editing; and (iii) pre-pay, pre- or post-adjudicated predictive modeling with an integrated case management system with link analysis. Such a request for information shall not be considered as a request for proposal or as an obligation on the part of the Illinois Department to take any action or acquire any products or services.

The Illinois Department shall establish policies, procedures, standards and criteria by rule for the acquisition, repair and replacement of orthotic and prosthetic devices and durable medical equipment. Such rules shall provide, but not be limited to, the following services: (1) immediate repair or replacement of such devices by recipients; and (2) rental, lease, purchase or lease-purchase of durable medical equipment in a cost-effective manner, taking into consideration the recipient's medical prognosis, the extent of the recipient's needs, and the requirements and costs for maintaining such equipment. Subject to prior approval, such rules shall enable a recipient to temporarily acquire and use alternative or substitute devices or equipment pending repairs or replacements of any device or equipment previously authorized for such recipient by the Department. Notwithstanding any provision of Section 5-5f to the contrary, the Department may, by rule, exempt certain replacement wheelchair parts from prior approval and, for wheelchairs, wheelchair parts, wheelchair accessories, and related seating and positioning items, determine the wholesale price by methods other than actual acquisition costs.

The Department shall require, by rule, all providers of durable medical equipment to be accredited by an accreditation organization approved by the federal Centers for Medicare and Medicaid Services and recognized by the Department in order to bill the Department for providing durable medical equipment to recipients. No later than 15 months after the effective date of the rule adopted pursuant to this paragraph, all providers must meet the accreditation requirement.

In order to promote environmental responsibility, meet the needs of recipients and enrollees, and achieve significant cost savings, the Department, or a managed care organization under contract with the Department, may provide recipients or managed care enrollees who have a prescription or Certificate of Medical Necessity access to refurbished durable medical equipment under this Section (excluding prosthetic and orthotic devices as defined in the Orthotics, Prosthetics, and Pedorthics Practice Act and complex rehabilitation technology products and associated services) through the State's assistive technology program's reutilization program, using staff with the Assistive Technology Professional (ATP) Certification if the refurbished durable medical equipment: (i) is available; (ii) is less expensive, including shipping costs, than new durable medical equipment of the same type; (iii) is able to withstand at least 3 years of use; (iv) is cleaned, disinfected, sterilized, and safe in accordance with federal Food and Drug Administration regulations and guidance governing the reprocessing of medical devices in health care settings; and (v) equally meets the needs of the recipient or enrollee. The reutilization program shall confirm that the recipient or enrollee is not already in receipt of same or similar equipment from another service provider, and that the refurbished durable medical equipment equally meets the needs of the recipient or enrollee. Nothing in this paragraph shall be construed to limit recipient or enrollee choice to obtain new durable medical equipment or place any additional prior authorization conditions on enrollees of managed care organizations.

The Department shall execute, relative to the nursing home prescreening project, written inter-agency agreements with the Department of Human Services and the Department on Aging, to effect the following: (i) intake procedures and common eligibility criteria for those persons who are receiving non-institutional services; and (ii) the establishment and development of non-institutional services in areas of the State where they are not currently available or are undeveloped; and (iii) notwithstanding any other provision of law, subject to federal approval, on and after July 1,

In order to select the minimum level of care eligibility criteria, the Governor shall establish a workgroup that includes affected agency representatives and stakeholders representing the institutional and home and community-based long term care interests. This Section shall not restrict the Department from implementing lower level of care eligibility criteria for community-based services in circumstances where federal approval has been granted.

The Illinois Department shall develop and operate, in cooperation with other State Departments and agencies and in compliance with applicable federal laws and regulations, appropriate and effective systems of health care evaluation and programs for monitoring of utilization of health care services and facilities, as it affects persons eligible for medical assistance under this Code.

Organization Act, and filing such additional copies with the State Government Report Distribution Center for the General Assembly as is required under paragraph (t) of Section 7 of the State Library Act.

Rulemaking authority to implement Public Act 95-1045, if any, is conditioned on the rules being adopted in accordance with all provisions of the Illinois Administrative Procedure Act and all rules and procedures of the Joint Committee on Administrative Rules; any purported rule not so adopted, for whatever reason, is unauthorized.

On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

To qualify for coverage of kidney transplantation, such person must be receiving emergency renal dialysis services covered by the Department. Providers under this Section shall be prior approved and certified by the Department to perform kidney transplantation and the services under this Section shall be limited to services associated with kidney transplantation.

Section 5. The Court Reporters Act is amended by changing Sections 1, 3, 4, 4.1, 5, 6, 7, 8, 8.1, 8.2, and 8.5 as follows:

(705 ILCS 70/1) (from Ch. 37, par. 651)
Sec. 1. Definitions. In this Act:
"Court reporter" means any person appointed by the chief judge of any circuit to perform the duties prescribed in Section 5 of this Act.

"Employer representative" means, with respect to wages, fringe benefits, hours, holidays, vacation, proficiency examinations, sick leave, and other conditions of employment:

(1) For court reporters employed by the Cook County Judicial Circuit Court of Cook County, the chief judge of the Cook County Circuit Court of Cook County.

(2) For court reporters employed by the 12th, 18th, 19th, and, on and after December 4, 2006, the 22nd judicial circuits, a group consisting of the chief judges of those circuits, acting jointly by majority vote.

(3) For court reporters employed by all other judicial circuits, the chief judges of those circuits, acting jointly by majority vote.

The chief judge of the judicial circuit that employs a public employee who is a court reporter, as defined in this Court Reporters Act, has the authority to hire, appoint, promote, evaluate, discipline, and discharge court reporters within that judicial circuit.

Sec. 3. Number; determination and certification. The number of full-time and part-time court reporters that may be appointed in each

circuit shall be determined by the employer representative. In determining how many court reporters are needed in each circuit the employer representative shall consider the following factors: (1) case loads in the circuit; (2) the number of associate judges and circuit judges in the circuit; (3) the number and location in the circuit of major federal and state highways; (4) the location in the circuit of state police highway truck weighing stations; (5) the relationship of urban population to large metropolitan centers in the various counties of the circuit; (6) the location in the circuit of state institutions including, but not limited to, universities, colleges, mental health facilities, penitentiaries; (7) the number of cities and towns within each circuit in which regular court sessions are held and the distance in road miles between each; and (8) any other factor deemed relevant by the employer representative.

The employer representative may, as the need arises, increase or lower the number of such court reporters so authorized.

The Chief Judge of each circuit may designate any number of approved full-time court reporter positions as time share positions. For the purposes of this Act, "time share position" means a full-time court reporter position that is divided among 2 or more court reporters with the full-time salary and benefits being apportioned among the court reporters in the same percentage as the duties of the full-time position are apportioned.

Sec. 4. Appointment; oath. The chief judge may appoint all or any of the number of court reporters authorized by Section 3 of this Act. The court reporters so appointed shall serve at the direction of the chief judge and may be removed by the chief judge.

Each court reporter appointed shall, before entering upon the duties of his or her office, take the official oath to faithfully discharge the duties of his or her office to the best of his or her knowledge and ability.

The appointments shall be in writing and shall be filed with the Clerk of the Circuit Court of the circuit in which the court reporters are employed and shall continue in force until revoked by the chief judge of the circuit in which the court reporter is appointed.

Sec. 4.1. Appointment and salary of administrative personnel.

(a) The employer representative may authorize the chief judge of any single county circuit to appoint administrative, supervisory, and
clerical staff when a need for such positions has been substantiated, except that in Cook County, supervisory and administrative personnel shall be appointed from among the court reporting services' pool of employees when such a need has been substantiated in which official court reporting services are centrally administered, (1) to appoint from among the court reporters appointed in the circuit an Administrator of Court Reporters, a Deputy Administrator of Court Reporters and 2 Assistant Administrators of Court Reporters, (2) to designate from among the court reporters appointed in the circuit one Reporter Supervisor and one Assistant Reporter Supervisor for each Department and Division of the circuit court, and (3) to appoint secretarial and other support staff to assist the Administrator. Each Administrator, Deputy Administrator, Assistant Administrator, Reporter Supervisor, and Assistant Reporter Supervisor shall have an "A" proficiency rating, by examination, as provided in Section 7.

(b) Administrative personnel appointed under this Section shall be paid by the State.

(1) In addition to their regular salary as official court reporters, the administrative personnel appointed under this Section shall be paid such additional sums as the employer representative specifies. Such sums shall be included in the pay schedule adopted pursuant to Section 8. The additional amounts paid shall reflect the burden of administrative responsibility borne by the administrative personnel and the consequent lack of opportunity to produce transcripts of testimony. The additional amounts paid to such personnel shall be determined by the employer representative. The additional amounts paid to such personnel shall not exceed the following:

(A) Administrator of Court Reporters: $20,000 per year;
(B) Deputy Administrator of Court Reporters: $15,000 per year;
(C) Assistant Administrators of Court Reporters: $13,000 per year;
(D) Reporter Supervisors: $10,000 per year;

Sec. 5. Means of reporting; transcripts. The court reporter shall make a full reporting by means of stenographic hand or machine notes, or a combination thereof, of the evidence and such other proceedings in trials and judicial proceedings to which he or she is assigned by the chief judge, and the court reporter may use an electronic instrument as a supplementary device. In the event that the court utilizes an audio or video recording system approved by the Supreme Court to record the proceedings, a court reporting services employee reporter shall be in charge of such system; however, the appointment of a court reporter to be in charge of an audio or video recording system shall not be required where such system is the judge's personal property or has been supplied by a party or such party's attorney. To the extent that it does not substantially interfere with the court reporter's other official duties, the judge to whom, or a judge of the division to which, a reporter may be assigned may assign a reporter to secretarial or clerical duties arising out of official court operations.

A court reporting services employee may charge a page rate for the preparation of transcripts of court proceedings not to exceed the rate set by the employer representative in the Uniform Schedule of Charges for Transcripts.

Unless and until otherwise provided in a Uniform Schedule of Charges which may hereafter be provided by rule or order of the employer representative, a court reporter may charge not to exceed 25¢ per 100 words for making transcripts of his notes. The fees for making transcripts shall be paid in the first instance by the party in whose behalf such transcript is ordered and shall be taxed in the suit.

The transcripts shall be filed and remain with the papers of the case. When the judge trying the case shall, of his own motion, order a transcript of the court reporter's notes, the judge may direct the payment of the charges therefor, and the taxation of the charges as costs in such manner as to him may seem just. Provided, that the charges for making but one transcript shall be taxed as costs and the party first ordering the transcript shall have preference unless it shall be otherwise ordered by the court.

The change made to this Section by this amendatory Act of 1987 is intended to apply retroactively from and after January 1, 1987.

Sec. 6. Assignment to serve outside of county of appointment; Travel expenses.

The chief judge may assign a court reporter to serve anywhere within the circuit in which the court reporter is appointed. A court reporter shall be paid travel expenses incurred in connection with his or her official duties in his or her circuit of appointment outside the county wherein he or she resides. Subject to regulations which may be adopted by the employer representative of the Supreme Court, court reporters shall be allowed travel expenses when traveling within their county of residence in connection with their official duties.

The employer representative may assign a court reporter to temporary service outside his or her own circuit, but within the jurisdiction of the employer representative, with the consent of the chief judge of his circuit. A court reporter shall be paid travel expenses incurred in connection with his or her official duties during such periods of temporary assignment.

Expense vouchers shall be submitted to the employer representative for approval. The expense vouchers or claims submitted to the Office of the Comptroller for payment by the employer representative shall have endorsed thereon the signed approval of the chief judge of the circuit in which the court reporter is appointed incurred the expense for which claim is made.

Sec. 7. Proficiency tests. Each court reporter in office on January 1, 1966 or appointed on or after that date shall have taken or shall thereafter take a test to verify his or her proficiency within one year of employment. The test shall be prepared and administered by the employer representative in consultation with each of the other employer representatives pursuant to standards set by rules. A proficiency test passed prior to employment may be accepted by the chief judge as proof of proficiency. The test shall consist of three parts designated Part A, Part B and Part C. If the court reporter in office on January 1, 1966, or appointed on or after that date, successfully passes any Part he shall be given a certificate designating him as an official court reporter. If such court reporter fails to pass any part, the employer representative shall so inform the chief judge of the circuit in which the court reporter serves. Upon receipt of note that a court reporter has failed to pass any part of the test, the chief judge may discharge the court reporter.

the test is next administered, the court reporter fails to pass any part of the
test, he shall be discharged by the chief judge:

The test shall be administered at least every six months if there are
candidates or applicants for the test. Any court reporter who has passed
Part C of the test may apply to take the Part B or the Part A section of the
test at the regular time such tests are given. If the court reporter
successfully completes Part B or Part A of the test, his proficiency rating
shall be adjusted to reflect passage of the more difficult Part:

Any court reporter who served as a court reporter in a circuit court
for 5 years immediately preceding January 1, 1966 shall be certified as an
official court reporter without examination, and shall be credited with an

(2) experience; (3) population of the area to which a reporter is normally
assigned; (3-1) court reporters shall receive the same annual percentage
salary increase as provided to other State-paid non-judicial employees of

AN ACT concerning revenue.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Income Tax Act is amended by changing Sections 304, 601, and 701 as follows:

(35 ILCS 5/304) (from Ch. 120, par. 3-304)

Sec. 304. Business income of persons other than residents.

(a) In general. The business income of a person other than a resident shall be allocated to this State if such person's business income is derived solely from this State. If a person other than a resident derives business income from this State and one or more other states, then, for tax years ending on or before December 30, 1998, and except as otherwise provided by this Section, such person's business income shall be apportioned to this State by multiplying the income by a fraction, the numerator of which is the sum of the property factor (if any), the payroll factor (if any) and 200% of the sales factor (if any), and the denominator of which is 4 reduced by the number of factors other than the sales factor which have a denominator of zero and by an additional 2 if the sales factor has a denominator of zero. For tax years ending on or after December 31, 1998, and except as otherwise provided by this Section, persons other than residents who derive business income from this State and one or more other states shall compute their apportionment factor by weighting their property, payroll, and sales factors as provided in subsection (h) of this Section.

(1) Property factor.

(A) The property factor is a fraction, the numerator of which is the average value of the person's real and tangible personal property owned or rented and used in the trade or business in this State during the taxable year and the denominator of which is the average value of all the person's real and tangible personal property owned or rented and used in the trade or business during the taxable year.

(B) Property owned by the person is valued at its original cost. Property rented by the person is valued at 8 times the net annual rental rate. Net annual rental rate is the annual rental rate

paid by the person less any annual rental rate received by the person from sub-rentals.

(C) The average value of property shall be determined by averaging the values at the beginning and ending of the taxable year but the Director may require the averaging of monthly values during the taxable year if reasonably required to reflect properly the average value of the person's property.

(2) Payroll factor.

(A) The payroll factor is a fraction, the numerator of which is the total amount paid in this State during the taxable year by the person for compensation, and the denominator of which is the total compensation paid everywhere during the taxable year.

(B) Compensation is paid in this State if:

   (i) The individual's service is performed entirely within this State;

   (ii) The individual's service is performed both within and without this State, but the service performed without this State is incidental to the individual's service performed within this State; or

   (iii) For tax years ending prior to December 31, 2020, some of the service is performed within this State and either the base of operations, or if there is no base of operations, the place from which the service is directed or controlled is within this State, or the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this State. For tax years ending on or after December 31, 2020, compensation is paid in this State if some of the individual's service is performed within this State, the individual's service performed within this State is nonincidental to the individual's service performed without this State, and the individual's service is performed within this State for more than 30 working days during the tax year. The amount of compensation paid in this State shall include the portion of the individual's total compensation for services performed on behalf of his or her employer during the tax year which the number of working days spent within this State during the tax year bears to the total...
number of working days spent both within and without this State during the tax year. For purposes of this paragraph:

(a) The term "working day" means all days during the tax year in which the individual performs duties on behalf of his or her employer. All days in which the individual performs no duties on behalf of his or her employer (e.g., weekends, vacation days, sick days, and holidays) are not working days.

(b) A working day is spent within this State if:

(1) the individual performs service on behalf of the employer and a greater amount of time on that day is spent by the individual performing duties on behalf of the employer within this State, without regard to time spent traveling, than is spent performing duties on behalf of the employer without this State; or

(2) the only service the individual performs on behalf of the employer on that day is traveling to a destination within this State, and the individual arrives on that day.

(c) Working days spent within this State do not include any day in which the employee is performing services in this State during a disaster period solely in response to a request made to his or her employer by the government of this State, by any political subdivision of this State, or by a person conducting business in this State to perform disaster or emergency-related services in this State. For purposes of this item (c):

"Declared State disaster or emergency" means a disaster or emergency event (i) for which a Governor’s proclamation of a state of emergency has been issued or (ii) for which a Presidential declaration of a federal major disaster or emergency has been issued.
"Disaster period" means a period that begins 10 days prior to the date of the Governor's proclamation or the President's declaration (whichever is earlier) and extends for a period of 60 calendar days after the end of the declared disaster or emergency period.

"Disaster or emergency-related services" means repairing, renovating, installing, building, or rendering services or conducting other business activities that relate to infrastructure that has been damaged, impaired, or destroyed by the declared State disaster or emergency.

"Infrastructure" means property and equipment owned or used by a public utility, communications network, broadband and internet service provider, cable and video service provider, electric or gas distribution system, or water pipeline that provides service to more than one customer or person, including related support facilities. "Infrastructure" includes, but is not limited to, real and personal property such as buildings, offices, power lines, cable lines, poles, communications lines, pipes, structures, and equipment.

(iv) Compensation paid to nonresident professional athletes.

(a) General. The Illinois source income of a nonresident individual who is a member of a professional athletic team includes the portion of the individual's total compensation for services performed as a member of a professional athletic team during the taxable year which the number of duty days spent within this State performing services for the team in any manner during the taxable year bears to the total number of duty days spent both within and without this State during the taxable year.
(b) Travel days. Travel days that do not involve either a game, practice, team meeting, or other similar team event are not considered duty days spent in this State. However, such travel days are considered in the total duty days spent both within and without this State.

(c) Definitions. For purposes of this subpart (iv):

(1) The term "professional athletic team" includes, but is not limited to, any professional baseball, basketball, football, soccer, or hockey team.
