A caterer retailer license shall allow the holder, a distributor, or an importing distributor to transfer any inventory to and from the holder's retail premises and shall allow the holder to purchase alcoholic liquor from a distributor or importing distributor to be delivered directly to an off-site event.

Nothing in this Act prohibits a distributor or importing distributor from offering credit or a refund for unused, salable beer to a holder of a caterer retailer license or a caterer retailer licensee from accepting a credit or refund for unused, salable beer, in the event an act of God is the sole reason an off-site event is cancelled and if: (i) the holder of a caterer retailer license has not transferred alcoholic liquor from its caterer retailer premises to an off-site location; (ii) the distributor or importing distributor offers the credit or refund for the unused, salable beer that it delivered to the off-site premises and not for any unused, salable beer that the distributor or importing distributor delivered to the caterer retailer's premises; and (iii) the unused, salable beer would likely spoil if transferred to the caterer retailer's premises. A caterer retailer license shall allow the holder to transfer any inventory from any off-site location to its caterer retailer premises at the conclusion of an off-site event or engage a distributor or importing distributor to transfer any inventory from any off-site location to its caterer retailer premises at the conclusion of an off-site event, provided that the distributor or importing distributor issues bona fide charges to the caterer retailer licensee for fuel, labor, and delivery and

A special use permit license may be granted for the following time periods: one day or less; 2 or more days to a maximum of 15 days per location in any 12-month period. An applicant for the special use permit license must also submit with the application proof satisfactory to the State Commission that the applicant will provide dram shop liability insurance to the maximum limits and have local authority approval.

A special use permit license shall allow the holder to transfer any inventory from the holder's special use premises to its retail premises at the conclusion of the special use event or engage a distributor or importing distributor to transfer any inventory from the holder's special use premises to its retail premises at the conclusion of an off-site event, provided that the distributor or importing distributor issues bona fide charges to the special use permit licensee for fuel, labor, and delivery and the distributor or importing distributor collects payment from the retail licensee prior to the distributor or importing distributor transferring inventory to the retail premises.

(r) A winery shipper's license shall allow a person with a first-class or second-class wine manufacturer's license, a first-class or second-class wine-maker's license, or a limited wine manufacturer's license or who is licensed to make wine under the laws of another state to ship wine made by that licensee directly to a resident of this State who is 21 years of age or older for that resident's personal use and not for resale. Prior to receiving a winery shipper's license, an applicant for the license must provide the Commission with a true copy of its current license in any state in which it is licensed as a manufacturer of wine. An applicant for a winery shipper's license must also complete an application form that provides any other information the Commission deems necessary. The application form shall include all addresses from which the applicant for a winery shipper's license intends to ship wine, including the name and address of any third party, except for a common carrier, authorized to ship wine on behalf of the manufacturer. The application form shall include an acknowledgement consenting to the jurisdiction of the Commission, the Illinois Department of Revenue, and the courts of this State concerning the enforcement of this Act and any related laws, rules, and regulations, including authorizing the Department of Revenue and the Commission to conduct audits for the purpose of ensuring compliance with Public Act 95-634, and an acknowledgement that the wine manufacturer is in compliance with Section 6-2 of this Act. Any third party, except for a common carrier, authorized to ship wine on behalf of a first-class or second-class wine manufacturer's licensee, a first-class or second-class wine-maker's licensee, a limited wine manufacturer's licensee, or a person who is licensed to make wine under the laws of another state shall also be

disclosed by the winery shipper's licensee, and a copy of the written appointment of the third-party wine provider, except for a common carrier, to the wine manufacturer shall be filed with the State Commission as a supplement to the winery shipper's license application or any renewal thereof. The winery shipper's license holder shall affirm under penalty of perjury, as part of the winery shipper's license application or renewal, that he or she only ships wine, either directly or indirectly through a third-party provider, from the licensee's own production.

Except for a common carrier, a third-party provider shipping wine on behalf of a winery shipper's license holder is the agent of the winery shipper's license holder and, as such, a winery shipper's license holder is responsible for the acts and omissions of the third-party provider acting on behalf of the license holder. A third-party provider, except for a common carrier, that engages in shipping wine into Illinois on behalf of a winery shipper's license holder shall consent to the jurisdiction of the State Commission and the State. Any third-party, except for a common carrier, holding such an appointment shall, by February 1 of each calendar year and upon request by the State Commission or the Department of Revenue, file with the State Commission a statement detailing each shipment made to an Illinois resident. The statement shall include the name and address of the third-party provider filing the statement, the time period covered by the statement, and the following information:

If the Department of Revenue or the State Commission requests a statement under this paragraph, the third-party provider must provide that statement no later than 30 days after the request is made. Any books, records, supporting papers, and documents containing information and data relating to a statement under this paragraph shall be kept and preserved for a period of 3 years, unless their destruction sooner is authorized, in writing, by the Director of Revenue, and shall be open and available to inspection by the Director of Revenue or the State Commission or any duly authorized officer, agent, or employee of the State Commission or the Department of Revenue, at all times during business hours of the day. The State Commission shall adopt rules as soon as practicable to implement the requirements of Public Act 99-904 and shall adopt rules prohibiting any such third-party appointment of a third-party provider, except for a common carrier, that has been deemed by the State Commission to have violated the provisions of this Act with regard to any winery shipper licensee.

A winery shipper licensee must pay to the Department of Revenue the State liquor gallonage tax under Section 8-1 for all wine that is sold by the licensee and shipped to a person in this State. For the purposes of Section 8-1, a winery shipper licensee shall be taxed in the same manner as a manufacturer of wine. A licensee who is not otherwise required to register under the Retailers' Occupation Tax Act must register under the Use Tax Act to collect and remit use tax to the Department of Revenue for all gallons of wine that are sold by the licensee and shipped to persons in this State. If a licensee fails to remit the tax imposed under this Act in accordance with the provisions of Article VIII of this Act, the winery shipper's license shall be revoked in accordance with the provisions of Article VII of this Act. If a licensee fails to properly register and remit tax under the Use Tax Act or the Retailers' Occupation Tax Act for all wine that is sold by the winery shipper and shipped to persons in this State, the winery shipper's license shall be revoked in accordance with the provisions of Article VII of this Act.

A winery shipper licensed under this subsection (r) must comply with the requirements of Section 6-29 of this Act.

Pursuant to paragraph (5.1) or (5.3) of subsection (a) of Section 3-12, the State Commission may receive, respond to, and investigate any complaint and impose any of the remedies specified in paragraph (1) of subsection (a) of Section 3-12.

As used in this subsection, "third-party provider" means any entity that provides fulfillment house services, including warehousing, packaging, distribution, order processing, or shipment of wine, but not the sale of wine, on behalf of a licensed winery shipper.

A distilling pub licensee shall not under any circumstance sell or offer for sale spirits manufactured by the distilling pub licensee to retail licensees.

A person who holds a class 2 craft distiller license may simultaneously hold a distilling pub license if the class 2 craft distiller (i) does not, under any circumstance, sell or offer for sale spirits manufactured by the class 2 craft distiller to retail licensees; (ii) does not hold more than 3 distilling pub licenses in this State; (iii) does not manufacture more than a combined 100,000 gallons of spirits per year, including the spirits manufactured at the distilling pub; and (iv) is not a member of or affiliated with, directly or indirectly, a manufacturer that produces more than 100,000 gallons of spirits per year or any other alcoholic liquor.

upon the first of the month following his attainment of age 60 (age 55 if born before January 1, 1966) if that occurs after the first anniversary of his retirement date, have his then fixed and payable monthly annuity increased by 1 1/2%, and such first fixed annuity as granted at retirement increased by an additional 1 1/2% in January of each year thereafter up to a maximum increase of 30%. Beginning July 1, 1982 for firemen born before January 1, 1930, and beginning January 1, 1990 for firemen born after December 31, 1929 and before January 1, 1940, and beginning January 1, 1996 for firemen born after December 31, 1939 but before January 1, 1945, and beginning January 1, 2004, for firemen born after December 31, 1944 but before January 1, 1955, and beginning January 1, 2017, for firemen born after December 31, 1954 but before January 1, 1966, such increases shall be 3% and such firemen shall not be subject to the 30% maximum increase.

Any fireman born before January 1, 1945 who qualifies for a minimum annuity and retires after September 1, 1967 but has not received the initial increase under this subsection before January 1, 1996 is entitled to receive the initial increase under this subsection on (1) January 1, 1996, (2) the first anniversary of the date of retirement, or (3) attainment of age 55, whichever occurs last. The changes to this Section made by this amendatory Act of 1995 apply beginning January 1, 1996 and apply without regard to whether the fireman or annuitant terminated service before the effective date of this amendatory Act of 1995.

Any fireman born before January 1, 1955 who qualifies for a minimum annuity and retires after September 1, 1967 but has not received the initial increase under this subsection before January 1, 2004 is entitled to receive the initial increase under this subsection on (1) January 1, 2004, (2) the first anniversary of the date of retirement, or (3) attainment of age 55, whichever occurs last. The changes to this Section made by this amendatory Act of the 93rd General Assembly apply without regard to whether the fireman or annuitant terminated service before the effective date of this amendatory Act.

over on that anniversary date or upon the first of the month following his attainment of age 55 if that date occurs after the first anniversary of his retirement date and such first fixed annuity as granted at retirement shall be increased by an additional 3% in January of each year thereafter. In the case of a fireman born after December 31, 1954 but before January 1, 1966 who received an increase in any year of 1.5%, that fireman shall receive an increase for any such year so that the total increase is equal to 3% for each year the fireman would have been otherwise eligible had the fireman not received any increase. The changes to this subsection made by this amendatory Act of the 99th General Assembly apply without regard to whether the fireman or annuitant terminated service before the effective date of this amendatory Act. The changes to this subsection made by this amendatory Act of the 100th General Assembly are a declaration of existing law and shall not be construed as a new enactment.

Any fireman who qualifies for a minimum annuity and retires after September 1, 1967 is entitled to receive an increase under this subsection on (1) January 1, 2020, (2) the first anniversary of the date of retirement, or (3) attainment of age 55, whichever occurs last, in an amount equal to an increase of 3% of his or her then fixed and payable monthly annuity upon the first of the month following the first anniversary of his or her date of retirement if he or she is age 55 or over on that anniversary date or upon the first of the month following his or her attainment of age 55 if that date occurs after the first anniversary of his or her retirement date and such first fixed annuity as granted at retirement shall be increased by an additional 3% in January of each year thereafter. In the case of a fireman who received an increase in any year of 1.5%, that fireman shall receive an increase for any such year so that the total increase is equal to 3% for each year the fireman would have been otherwise eligible had the fireman not received any increase. The changes to this subsection made by this amendatory Act of the 101st General Assembly apply without regard to whether the fireman or annuitant terminated service before the effective date of this amendatory Act of the 101st General Assembly.

(b) Subsection (a) of this Section is not applicable to an employee receiving a term annuity.

(c) To help defray the cost of such increases in annuity, there shall be deducted, beginning September 1, 1959, from each payment of salary to a fireman, 1/8 of 1% of each such salary payment and an additional 1/8 of 1% beginning on September 1, 1961, and September 1, 1963, respectively,

concurrently with and in addition to the salary deductions otherwise made for annuity purposes.

Each such additional 1/8 of 1% deduction from salary which shall, on September 1, 1963, result in a total increase of 3/8 of 1% of salary, shall be credited to the Automatic Increase Reserve, to be used, together with city contributions as provided in this Article, to defray the cost of the annuity increments specified in this Section. Any balance in such reserve as of the beginning of each calendar year shall be credited with interest at the rate of 3% per annum.

The salary deductions provided in this Section are not subject to refund, except to the fireman himself in any case in which: (i) the fireman withdraws prior to qualification for minimum annuity or Tier 2 monthly retirement annuity and applies for refund, (ii) the fireman applies for an annuity of a type that is not subject to annual increases under this Section, or (iii) a term annuity becomes payable. In such cases, the total of such salary deductions shall be refunded to the fireman, without interest, and charged to the aforementioned reserve.

(d) Notwithstanding any other provision of this Article, the Tier 2 monthly retirement annuity of a person who first becomes a fireman under this Article on or after January 1, 2011 shall be increased on the January 1 occurring either on or after (i) the attainment of age 60 or (ii) the first anniversary of the annuity start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1, whichever is less, of the originally granted retirement annuity. If the annual unadjusted percentage change in the consumer price index-u for a 12-month period ending in September is zero or, when compared with the preceding period, decreases, then the annuity shall not be increased.

For the purposes of this subsection (d), "consumer price index-u" means the index published by the Bureau of Labor Statistics of the United States Department of Labor that measures the average change in prices of goods and services purchased by all urban consumers, United States city average, all items, 1982-84 = 100. The new amount resulting from each annual adjustment shall be determined by the Public Pension Division of the Department of Insurance and made available to the boards of the pension funds by November 1 of each year.

FORM OF BALLOT

To the Electors of the State of Illinois:

The Illinois Constitution establishes a structure for government and laws. There are three ways to initiate change to the Illinois Constitution: (1) a constitutional convention may propose changes to any part; (2) the General Assembly may propose changes to any part; or (3) a petition initiative may propose amendments limited to structural and procedural subjects contained in the Legislative Article. The people of Illinois must approve any changes to the Constitution before they become effective. The purpose of this document is to inform you of proposed changes to the Illinois Constitution and provide you with a brief explanation and a summary of the arguments in favor of and in opposition to the proposed amendment.

EXPLANATION

The proposed amendment grants the State authority to impose higher income tax rates on higher income levels, which is how the federal government and a majority of other states do it. The amendment would remove the portion of the Revenue Article of the Illinois Constitution that is sometimes referred to as the "flat tax," that requires all taxes on income to be at the same rate. The amendment does not itself change tax rates. It gives the State the ability to impose higher tax rates on those with higher income levels and lower tax rates on those with middle or lower income levels. You are asked to decide whether the proposed amendment should become a part of the Illinois Constitution.

Arguments in Favor of the Proposed Amendment

Illinois' current tax system unfairly benefits millionaires and billionaires and this amendment will set things right for middle-class and working people. Currently, it is unfair that billionaires pay the same tax rate as regular people.

Voting "yes" on the amendment means that the State will enact a new tax structure where only those making above $250,000 a year will see their taxes go up.

This amendment is simply upgrading Illinois' old tax system to a graduated system which is how the federal government and the majority of other states do it.

This Amendment Would Make Illinois' Tax System Fair

Approval of this amendment would enact a fair system that allows the state to tax wealthy people at higher rates and lower income people at lower rates, replacing Illinois' current unfair tax system, in which wealthy people pay the exact same tax rate as lower and middle income people.
Illinois' current tax system unfairly benefits millionaires and billionaires, and approval of this amendment will set things right for the middle class and working people.

This amendment will help small business owners by creating a stable economic environment for their businesses to thrive.

While others try to mislead you, under the current tax system in Illinois, policymakers already have the authority to set any tax rate and to change tax rates at their will. The current system forces policymakers to charge the same tax rate to everyone, regardless of how much money they make. If this amendment passes, the State will have the ability to tax higher income earners at a different rate. In fact, upon passage of this Amendment, a new tax structure will go into effect where 97% of taxpayers will pay the same or less, while only those making more than $250,000 a year will see a tax increase.

This amendment does not tax retirement income.

The Federal Government and Most States Use the Graduated Tax System Proposed in this Amendment, Not the Unfair System Currently Used in Illinois

Illinois is among a minority of states that do not utilize graduated tax rates because the Illinois Constitution requires a "flat tax" that penalizes middle-class and working people and benefits higher income individuals.

A majority of states and the federal government already use the kind of graduated income tax system proposed in this amendment to ensure that wealthy people pay their fair share of taxes.

Nearby states including Iowa, Minnesota, Missouri, Ohio, and Wisconsin are among the majority of states that have graduated tax systems.

Illinois' Current Income Tax System Relies on Taxes from Middle and Lower Income Earners, While a Graduated System Would Lower that Burden and Fund Critical Programs such as Education and Human Services

While some states have fair tax rates in which the highest income earners pay the highest tax rate, Illinois' "flat tax" rate continues to rely unfairly on taxes from middle and lower income earners.

Under Illinois' "flat tax" structure, a nurse making $50,000 per year pays the same tax rate as an executive making $4 million per year. A graduated tax rate would have the executive pay more.

Because of the way our current tax system is set up, the bottom fifth of Illinois taxpayers (those making below $21,800) contribute 14.4% of their income to state and local taxes, compared to 7.4% for the top 1 percent of Illinois taxpayers.

If this Amendment passes, the State has already enacted a new graduated tax structure where 97% of taxpayers will pay the same or less.
Under the new tax structure, only the top 3% of Illinois income earners would pay more in income taxes. Everyone who makes $250,000 or less a year would pay the same or less.

Over 95% of small businesses earn $250,000 or less a year in profits, and their owners will not see a tax increase under the new tax structure.

This change will generate additional revenue each year that can help address Illinois' budget deficit and fund critical programs, including the State's education system, public safety, and social services like mental health and substance abuse treatment and domestic violence shelters.

**After the COVID-19 Pandemic, We Need to Do All We Can to Help the Economy and Middle-Class and Working People**

Working people and essential workers like nurses, first responders, and grocery store clerks should not pay the same tax rate as the wealthy. Nurses making $50,000 a year should not pay the same tax rate as an executive making $4,000,000 a year.

Having wealthy people pay more would reduce the burden on working families. This is money that middle and lower income people need for housing, groceries, medicine, and essentials.

When the wealthiest people pay more, middle and lower income earners can pay less while the State funds critical services that our essential workers rely on.

**Arguments Against the Proposed Amendment**

1. The Amendment gives the Legislature power to increase taxes on any group of taxpayers with no limits and no accountability and without any requirement to use the additional revenue to fund essential needs such as healthcare, education, or public safety.

2. Taxes and spending are out of control. The Legislature should not be allowed to keep raising taxes until they get their spending under control.

3. In the wake of the COVID-19 pandemic, now is the worst possible time for a massive tax increase.

**The Amendment gives the Legislature power to increase taxes on any group of taxpayers with no limits and no accountability and without any requirement to use the additional revenue to fund essential needs such as healthcare, education, or public safety.**

The proposed amendment would give the Legislature unlimited new authority to increase income tax rates on any group of taxpayers at will, including low-income and middle-income families and small business owners. There would be no limit on the number of tax brackets that could be created and no limit on how high tax rates could be increased on individual taxpayers. In addition, this proposed change will pave the way for a tax on retirement income.

Nothing in the amendment requires the Legislature to do anything to
control spending. Nor does it require funds to be spent on essential needs such as healthcare, education, or public safety. It would simply give the Legislature a blank check to spend billions of dollars however they want, with no accountability.

**Taxes and spending are out of control. The Legislature should not be allowed to keep raising taxes until they get their spending under control.**

Illinois already has some of the highest property taxes and sales taxes in the nation. And the Legislature has increased Illinois income tax rates twice in the past decade to try to deal with the out-of-control spending in Springfield.

Even before the COVID-19 pandemic, our state had a huge and growing multi-billion-dollar budget deficit, and the unfunded pension liability skyrocketed to over $137 billion. That's because the Legislature has continued to increase state spending instead of eliminating government waste, corruption, and abuse.

Because they refuse to control spending or pass major reforms, the Legislature will just continue to raise taxes on everyone in Illinois, and middle-class families will be their next target.

**In the wake of the COVID-19 pandemic, now is the worst possible time for a massive tax increase.**

The COVID-19 pandemic caused layoffs, unemployment, bankruptcies, and closures. As small businesses and local employers struggle to rebuild, this is the worst possible time to impose huge new tax increases. Even before the COVID 19 crisis, many residents and businesses were leaving the state because of the high tax burden. If the Amendment passes, it would be the last straw for thousands of small businesses, causing more jobs to leave the state, and making Illinois lose out on investments to rebuild our economy. This would mean fewer jobs and less opportunity for Illinois families.

2020-2
EXECUTIVE ORDER STRENGTHENING THE STATE’S COMMITMENT TO ENDING THE OPIOID EPIDEMIC

WHEREAS, the State of Illinois must continue to act to reduce opioid overdose deaths, end the opioid epidemic, and recognize that substance use disorder is a chronic disease; and

WHEREAS, recovery belongs in our communities, recovery is possible, and we are all part of the solution to end the opioid epidemic; and

WHEREAS, to save lives, the State of Illinois needs to ensure that efforts are made to reach out to and engage individuals in all stages of recovery, including those who are at risk for both fatal and non-fatal overdoses, and thereby demonstrate that recovery belongs in Illinois; and

WHEREAS, 2018 data from the Illinois Department of Public Health (IDPH) shows a 21.6% reduction from the 2020 projected number of fatal opioid overdoses but also shows that non-fatal overdoses have increased, suggesting that this public health crisis has not subsided and that the State needs new efforts to address the changing nature of the crisis and to build on our progress in stopping overdoses and saving lives; and

WHEREAS, as IDPH’s Opioid Data Dashboard reveals growing social and racial disparities in the crisis and shows that certain communities in Illinois have been disproportionately impacted, the State finds and declares that programs and policies must be put into place to address these disparities and to promote equitable prevention and treatment access for these individuals and communities; and

WHEREAS, certain communities have disproportionately suffered the harms of enforcement of drug laws and their residents face greater difficulties accessing opioid use disorder (OUD) treatment and recovery support services; and

WHEREAS, individuals who have been arrested or incarcerated due to drug laws suffer long-lasting negative consequences, including greater risk of fatal and non-fatal overdoses and impacts to employment, housing, health, and recovery; and
WHEREAS, evidenced-based policies and programs need to be prioritized in order to increase access to treatment and to reduce risk of overdose for this high-risk population; and

WHEREAS, people who inject drugs are at a high risk for HIV, HCV, and Hepatitis A, and harm reduction strategies that promote safer use of opioids and other substances can save lives by reducing both the risks of these infectious diseases and fatal overdoses; and

WHEREAS, heavily-advertised services offering OUD treatment that do not provide evidence-based treatment, including residential programs that fail to provide access to medication assisted treatment (MAT), may increase the risk of a fatal overdose, policies are needed that ensure treatment and intervention programs, including residential programs and recovery homes, provide access to MAT and other evidence-based treatment; and

WHEREAS, executive actions completed by the Task Force established under Executive Order 2017-05 created several online resources across State agencies, there is no website that serves as a single repository for this information; and

WHEREAS, a comprehensive single State website that houses this information and that is routinely updated is needed to ensure that the public has accurate, real-time access to online OUD prevention, treatment, recovery, and response resources; and

WHEREAS, additional features need to be added to the Illinois Helpline for Opioids and Other Substances to provide equitable access and utilization among youth and communities disproportionately impacted by the crisis; and

WHEREAS, the State recognizes the important contributions of the Illinois Opioid Crisis Response Advisory Council (Council), which has been actively engaged in efforts that address the opioid crisis, including providing input on the Statewide Opioid Action Plan (SOAP) and developing implementation report goals and metrics;

THEREFORE, I, JB Pritzker, Governor of Illinois, by virtue of the executive authority vested in me by Article V of the Constitution of the State of Illinois, do hereby order as follows:

I. CREATION
There is hereby established the Governor’s Opioid Overdose Prevention and Recovery Steering Committee (Steering Committee).

II. PURPOSE
The purpose of the Steering Committee is to guide the work of the Council, serving as the liaison between its stakeholders and the

III. DUTIES
The Steering Committee shall work in conjunction with State agencies and other stakeholders through the Council to establish the following policies and programs:

3. Collaborate with law enforcement agencies and compile recommendations for curtailing illegal drug trafficking activities that are increasing fatal and non-fatal overdose risks;
4. Coordinate with the appropriate State agencies and work with the Council’s newly-created Opioid Social Equity Committee to address the social and racial disparities of the crisis. At the Council’s direction, the Opioid Social Equity Committee will develop a social equity statement that will guide its work and that of the Council, and make policy recommendations regarding how to begin to address how the opioid crisis has affected different communities in different ways;
5. Compile recommendations for policies to ensure that residential programs provide access to MAT and other evidence-based treatment. These should include recommendations on whether the Illinois Department of Human Services Division of Substance Use Prevention and Recovery should revoke the licenses of residential programs that do not provide access to MAT and other evidence-based treatment;
6. Create a comprehensive single, State website that includes links to all State agencies’ online OUD prevention, treatment, and recovery resources;
7. Add research-based information to the Helpline and the comprehensive single website to increase the use of evidence-based levels of care for OUD;
8. Add age-appropriate platforms, appeals, and public communication tools to the Helpline to expand access to youth and young adults seeking OUD treatment and communities disproportionately impacted by the crisis; and
9. Launch a public awareness campaign through social media and other channels that (a) increases the use of the Helpline by individuals seeking treatment or information about treatment and (b) increases the visibility of the Helpline across Illinois.

WHEREAS, the CDC, taking note of a need to reduce unnecessary healthcare visits and prevent transmission of respiratory viruses at healthcare facilities, currently recommends that healthcare providers increase the use of telehealth systems, formal or otherwise, to assess and care for patients to decrease the volume of persons seeking care in facilities; and

WHEREAS, the CDC currently recommends that health plans, healthcare systems, and insurers or other payors message beneficiaries to promote the availability of covered telehealth, telemedicine, or nurse advice line services; and

WHEREAS, in response to the COVID-19 outbreak, which also constitutes a nationwide public health emergency, covered health care providers and entities subject to the Illinois Mental Health and Developmental Disabilities Confidentiality Act, 740 ILCS 110, may seek to communicate with patients and provide telehealth services through remote communications technologies, and some of these technologies and the manner in which they are used by health care providers or covered entities may not fully comply with the statutory requirements; and

WHEREAS, the U.S. Department of Health and Human Services – Office of Civil Rights has issued a Notice of Enforcement Discretion for telehealth remote communications in response to the COVID-19 outbreak, which temporarily expands the non-public facing audio or video communication products that may be used for telehealth services without being subject to enforcement actions under the federal Health Insurance Portability and Accountability Act of 1996; and

WHEREAS, the current testing availability has identified further spread of confirmed cases throughout the State of Illinois, and it is
expected that increased testing capacity would demonstrate that COVID-19 is circulating in communities across Illinois that currently have not identified a confirmed case; and,

WHEREAS, the ongoing spread of COVID-19 and the danger the virus poses to the public's health and wellness requires an expansion of the healthcare workforce to ensure there are sufficient practitioners to help support the healthcare response to the COVID-19 pandemic in Illinois; and

WHEREAS, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area on March 9, 2020 (“Gubernatorial Disaster Proclamation”); and,

WHEREAS, on March 11, 2020, WHO characterized COVID-19 as a pandemic; and;

WHEREAS, it is necessary and appropriate for the State of Illinois to immediately take measures to promote and secure the safety and protection of the civilian population in response to this COVID-19 outbreak including measures to ensure the provision and coverage of health care services while the public and health care providers are subject to quarantine;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, and pursuant to Sections 7(1), 7(8), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, I hereby Order the following:

Section 1. “Telehealth Services” shall be defined to include the provision of health care, psychiatry, mental health treatment, substance use disorder treatment, and related services to a patient, regardless of their location, through electronic or telephonic methods, such as telephone (landline or cellular), video technology commonly available on smart phones and other devices such as FaceTime, Facebook Messenger video chat, Google Hangouts video, or Skype, and videoconferencing, as well as any method within the meaning of “telehealth services” under Section 356z.22 of the Illinois Insurance Code, 215 ILCS 5. “Health insurance coverage” and “health insurance issuer” shall have the meanings given in Section 5 of the Illinois Health Insurance Portability and Accountability Act, 215 ILCS 97.

Section 2. Beginning March 19, 2020 and continuing for the duration of the Gubernatorial Disaster Proclamation, in order to protect the public’s health, to permit expedited treatment of health conditions during the COVID-19 pandemic, and to mitigate its impact upon the residents of the State of Illinois, all health insurance issuers regulated by the Department of Insurance are
hereby required to cover the costs of all Telehealth Services rendered by in-network providers to deliver any clinically appropriate, medically necessary covered services and treatments to insureds, enrollees, and members under each policy, contract, or certificate of health insurance coverage. Issuers may establish reasonable requirements and parameters for Telehealth Services, including with respect to documentation and recordkeeping, to the extent consistent with this Executive Order or any company bulletin subsequently issued by the Department of Insurance under this Executive Order. An issuer’s requirements and parameters may not be more restrictive or less favorable toward providers, insureds, enrollees, or members than those contained in the emergency rulemaking undertaken by the Department of Healthcare and Family Services at 89 Ill. Adm. Code 140.403(e). Issuers shall notify providers of any instructions necessary to facilitate billing for Telehealth Services.

Section 3. In order to ensure that health care is quickly and efficiently provided to the public, health insurance issuers shall not impose upon Telehealth Services utilization review requirements that are unnecessary, duplicative, or unwarranted, nor impose any treatment limitations that are more stringent than the requirements applicable to the same health care service when rendered in-person. For Telehealth Services delivered by in-network providers that relate to COVID-19, health insurance issuers shall not impose any prior authorization requirements.

Section 4. Health insurance issuers shall not impose any cost-sharing (copayments, deductibles, or coinsurance) for Telehealth Services provided by in-network providers. However, in accordance with the standards and definitions in 26 U.S.C. 223, if an enrollee in a “high-deductible health plan” has not met the applicable deductible under the terms of their coverage, the requirements of this Section do not require an issuer to pay for a charge for Telehealth Services unless the associated health care service for that particular charge is deemed “preventive care” by the United States Treasury. The federal Internal Revenue Service recently has recognized that services for testing, treatment, and any potential vaccination for COVID-19 fall within the scope of “preventive care.”

Section 5. Telehealth Services subject to this Executive Order’s coverage requirements may be provided by any in-network physicians, physician assistants, optometrists, advanced practice
registered nurses, clinical psychologists, prescribing psychologists, dentists, occupational therapists, pharmacists, physical therapists, clinical social workers, speech-language pathologists, audiologists, hearing instrument dispensers, other mental health providers, and other substance use disorder treatment providers, as long as they are licensed, registered, certified, or authorized to practice in the State of Illinois, regardless of whether or not the in-network provider was originally established prior to the COVID-19 pandemic in any designated telehealth network for the policy, contract, or certificate of health insurance coverage. Existing insurance law requirements regarding coverage of treatments based on licensure apply, such as the coverage requirements for treatment of autism spectrum disorders contained in Section 356z.14 of the Illinois Insurance Code, 215 ILCS 5.

Section 6. This Executive Order does not apply to “excepted benefits” as defined by 45 C.F.R. 146.145(b) and 45 C.F.R. 148.220, but does apply to limited scope dental benefits, limited scope vision benefits, long-term care benefits, coverage only for accidents, or coverage only for specified disease or illness. This Executive Order applies to short-term, limited-duration health insurance coverage, fully insured student health insurance coverage, and fully insured association health plans except with respect to excepted benefits as provided above. Any policy, contract, or certificate of health insurance coverage that does not distinguish between in-network and out-of-network providers shall be subject to this Executive Order as though all providers were in-network.

Section 7. The Department of Insurance may provide additional guidance and implement rules consistent with the terms of this Executive Order.

Section 8. Beginning March 19, 2020 and continuing for the duration of the Gubernatorial Disaster Proclamation, the following statutory limitations pursuant to Section 5 of Illinois’ Mental Health and Developmental Disabilities Confidentiality Act, 740 ILCS 110/5, are suspended for the provision of Telehealth Services to mental health and developmental disability patients in Illinois:

1. The disclosure prohibitions as to records and communications pursuant to 740 ILCS 110/5(a).
2. The written consent provisions pursuant to 740 ILCS 110/5(b).
Section 9. A covered health care provider and/or covered entity subject to the requirements of the Mental Health and Developmental Disabilities Confidentiality Act, 740 ILCS 110, that uses audio or video communication technology to provide Telehealth Services to mental health and developmental disability patients may use any non-public facing remote communication product in accordance with Section 1 of this Executive Order for the duration of the Gubernatorial Disaster Proclamation. This exercise of discretion applies to Telehealth Service providers or covered entities for any reason, regardless of whether the Telehealth Service concerns the diagnosis and treatment of health conditions related to COVID-19. Providers and covered entities should, to the extent feasible, notify patients that third-party applications potentially introduce privacy risks. Providers should enable all available encryption and privacy modes when using such applications. Facebook Live, Twitch, TikTok, and similar video communication applications which are public facing should not be used in the provision of telehealth by covered health care providers or covered entities.

Section 10. During the duration of the Gubernatorial Disaster Proclamation, the following requirements of the Medical Practice Act of 1987, 225 ILCS 60/21, for reinstatement of a license are suspended for licensees whose licenses have been lapsed or inactive for less than three years: (1) proof of meeting continuing education requirements for one renewal period; and (2) payment of a reinstatement fee.

Issued by the Governor March 19, 2020.

WHEREAS, in a short period of time, COVID-19 has rapidly spread throughout Illinois, necessitating updated and more stringent guidance from federal, state, and local public health officials; and,
WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I find it necessary to take additional measures consistent with public health guidance to slow and stop the spread of COVID-19;

WHEREAS, COVID-19 has resulted in significant economic impact, including loss of income and wages, that threaten to undermine housing security and stability;

WHEREAS, the enforcement of eviction orders for residential premises is contrary to the interest of preserving public health and ensuring that individuals remain in their homes during this public health emergency;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, and pursuant to Sections 7(1), 7(2), 7(8), 7(10), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers in public health laws, I hereby order the following, effective March 21, 2020 at 5:00 pm and for the remainder of the duration of the Gubernatorial Disaster Proclamation, which currently extends through April 7, 2020:

Section 1. Stay at Home; Social Distancing Requirements; and Essential Businesses and Operations

1. Stay at home or place of residence. With exceptions as outlined below, all individuals currently living within the State of Illinois are ordered to stay at home or at their place of residence except as allowed in this Executive Order. To the extent individuals are using shared or outdoor spaces when outside their residence, they must at all times and as much as reasonably possible maintain social distancing of at least six feet from any other person, consistent with the Social Distancing Requirements set forth in this Executive Order. All persons may leave their homes or place of residence only for Essential Activities, Essential Governmental Functions, or to operate Essential Businesses and Operations, all as defined below.

Individuals experiencing homelessness are exempt from this directive, but are strongly urged to obtain shelter, and governmental and other entities are strongly urged to make such shelter available as soon as possible and to the maximum extent practicable (and to use in their operation COVID-19 risk mitigation practices recommended by the U.S. Centers for Disease Control and Prevention (CDC)
and the Illinois Department of Public Health (IDPH)). Individuals whose residences are unsafe or become unsafe, such as victims of domestic violence, are permitted and urged to leave their home and stay at a safe alternative location. For purposes of this Executive Order, homes or residences include hotels, motels, shared rental units, shelters, and similar facilities.

2. **Non-essential business and operations must cease.** All businesses and operations in the State, except Essential Businesses and Operations as defined below, are required to cease all activities within the State except Minimum Basic Operations, as defined below. 2020-11
EXECUTIVE ORDER IN RESPONSE TO COVID-19
(COVID-19 EXECUTIVE ORDER NO. 9)

WHEREAS, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area on March 9, 2020 (Gubernatorial Disaster Proclamation) in response to the outbreak of Coronavirus Disease 2019 (COVID-19); and,
WHEREAS, in a short period of time, COVID-19 has rapidly spread throughout Illinois, necessitating updated and more stringent guidance from federal, state, and local public health officials; and,
WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I find it necessary to take additional measures consistent with public health guidance to slow and stop the spread of COVID-19; and
WHEREAS, I have issued several Executive Orders to address the COVID-19 outbreak, some of which require minor amendments to provide clarification;
WHEREAS, the Illinois Department of Corrections (IDOC) currently has a population of more than 38,000 male and female inmates in 28 facilities, the vast majority of whom, because of their close proximity and contact with each other in housing units and other areas of the facilities, are especially vulnerable to contracting and spreading COVID-19; and

(COVID-19 EXECUTIVE ORDER NO. 22)

WHEREAS, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area on March 9, 2020 (First Gubernatorial Disaster Proclamation) in response to the outbreak of Coronavirus Disease 2019 (COVID-19); and,
WHEREAS, I again declared all counties in the State of Illinois as a disaster area on April 1, 2020 (Second Gubernatorial Disaster Proclamation, and, together with the First Gubernatorial Disaster Proclamation, the Gubernatorial Disaster Proclamations) in response to the exponential spread of COVID-19; and,
WHEREAS, in a short period of time, COVID-19 has spread rapidly throughout Illinois, necessitating updated and more stringent guidance from federal, state, and local public health officials; and,
WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I find it necessary to take additional, significant measures consistent with public health guidance to slow and stop the spread of COVID-19; and,
WHEREAS, social distancing, which consists of maintaining at least a six-foot distance between people, is the paramount strategy for minimizing the spread of COVID-19 in our communities; and,
WHEREAS, certain populations are at a higher risk of experiencing more severe illness as a result of COVID-19, including older adults and people who have serious chronic health conditions such as heart disease, diabetes, lung disease, or other mental or physical conditions; and,
WHEREAS, the Illinois Department of Human Services (“DHS”) currently houses defendants referred to its State-Operated Forensic Treatment Programs (DHS Forensic Treatment Programs) for mental health services, the vast majority of whom, because of their close proximity and contact with each other in housing units and dining halls, are especially vulnerable to contracting and spreading COVID-19; and,
WHEREAS, a number of courts continue to hear these matters and to order individuals adjudicated unfit to stand trial or not guilty by reason
of insanity to be transferred to DHS Forensic Treatment Programs and, conversely, in an effort to slow the spread of COVID-19, some county jails are closed to re-admissions from DHS Forensic Treatment Programs after completion of restoration services; and

WHEREAS, as a result, DHS currently has limited housing capacity to further house additional persons, as well as isolate and quarantine its mental health population, who may present as symptomatic of, or test positive for, COVID-19; and,

WHEREAS, because of their close proximity to and contact with numerous individuals, persons in county jails who have been adjudicated unfit to stand trial or not guilty by reason of insanity and are awaiting transfer to DHS Forensic Treatment Programs, may be or may become symptomatic of COVID-19; and,

WHEREAS, to ensure that the Secretary of DHS may take all necessary steps, consistent with public health guidance, to prevent the spread of COVID-19 in DHS Forensic Treatment Programs, it is critical to temporarily limit any increases in the number of persons admitted to such programs whenever possible and appropriate by allowing the Secretary to work closely with county Sheriffs and other partners to control the pace of transfers; and,

WHEREAS, DHS employees have already, and may in the future, become symptomatic of COVID-19 or test positive for COVID-19, thereby interrupting their ability to perform their essential functions; and,

WHEREAS, it is essential that DHS maintain an adequate workforce both in its State-Operated Developmental Centers and its State-Operated Psychiatric Hospitals both for the safety of the general public and to ensure that persons who are mental health patients or residents with intellectual or developmental disabilities are provided with necessary services throughout the COVID-19 crisis; and,

WHEREAS, the DHS Office of Inspector General investigates allegations of abuse, neglect, and financial exploitation in State-Operated Psychiatric Hospitals and Developmental Centers and during the course of its investigations may make preliminary findings as to whether the allegations are substantiated, unsubstantiated, or unfounded, prior to the issuance of its final investigative report; and,

WHEREAS, 405 ILCS 5/3-210 provides that “[w]hen an investigation of a report of suspected abuse of a recipient of services indicates, based upon credible evidence, that an employee of a mental health or developmental disability facility is the perpetrator of the abuse, that employee shall immediately be barred from any further from any further contact with recipients of services of the facility, pending the
outcome of any further investigation, prosecution or disciplinary action against the employee”; and,

WHEREAS, 20 ILCS 1305/1-17(s) provides that “[t]he Inspector General shall report to the Department of Public Health’s Health Care Worker Registry, a public registry, the identity and finding of each employee of a facility or agency against whom there is a final investigative report containing a substantiated allegation of physical or sexual abuse, financial exploitation, or egregious neglect of an individual”; and

WHEREAS, pursuant to 405 ILCS 5/3-210, after being barred from contact with recipients of services while the allegations are thoroughly and independently investigated, the law allows State employees to return to work in their direct care positions if the DHS Office of Inspector General has issued a final investigative report concluding that either: (i) the allegations are unsubstantiated or unfounded; or (ii) the allegations are substantiated but do not rise to the level of conduct that must be reported to the Illinois Department of Public Health’s Health Care Worker Registry (HCWR); and,

WHEREAS, in many instances, there is a delay between the DHS Office of Inspector General reaching a conclusion that an allegation is unsubstantiated, unfounded, or substantiated but not reportable to the HCWR, and the issuance of the final investigative report; and,

WHEREAS, suspending the statutory requirement that such a return to work must be delayed until the DHS Office of Inspector General has issued its final investigative report will allow for employees, who will be returning to a direct care position pursuant to the determination of the DHS Office of Inspector General, to return to that direct care position more quickly in order to be able to provide adequate staffing for and necessary services to mental health patients or residents with intellectual or developmental disabilities throughout the COVID-19 crisis;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, and pursuant to Sections 7(1), 7(2), 7(8), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers set forth in the State’s public health laws, I hereby order the following, effective April 10, 2020 and for the remainder of the duration of the Gubernatorial Disaster Proclamations:

Accordingly, all admissions to Illinois Department of Human Services Forensic Treatment Programs from all Illinois county jails are suspended, with exceptions at the sole discretion of the Secretary of the Illinois Department of Human Services for limited essential admissions. The Secretary is directed to work closely with county Sheriffs and other partners to ensure the safety of the persons who would be transferred to the DHS Forensic Treatment Programs, as well as the county jails and the DHS facilities.

Section 2. During the duration of and for no more than thirty days following the termination of the Gubernatorial Disaster Proclamations, certain provisions of 405 ILCS 5/3-210 are hereby suspended, as they apply to the Illinois Department of Human Services employees, as determined by the independent DHS Office of Inspector General, in any of the following categories: (1) employees that are being investigated for conduct that, if substantiated, would not result in their termination or placement on the HCWR (including allegations for which, if substantiated, the DHS Inspector General: (a) would not be statutorily required to report to the HCWR; or (b) would stipulate do not warrant the employee’s placement on the HCWR, based on the nature of the conduct alleged); or (2) employees who are the subject of an OIG investigation that is either complete or materially complete, and where the DHS Office of Inspector General has reached an independent conclusion that the allegations against the employee will be unsubstantiated or unfounded in the OIG Final Investigative Report.

Section 3. If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable.

Issued by the Governor April 24, 2020.

Filed by the Secretary of State April 24, 2020.
WHEREAS, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, it is critical that Illinoisans who become sick are able to be treated by medical professionals, including when a hospital bed, emergency room bed, or ventilator is needed; and,

WHEREAS, it is also critical that the State’s health care and first responder workforce has adequate personal protective equipment (PPE) to safely treat patients, respond to public health disasters, and prevent the spread of communicable diseases; and,

WHEREAS, Coronavirus Disease 2019 (COVID-19) is a novel severe acute respiratory illness that has spread among people through respiratory transmissions, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,

WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has reported more than 3 million confirmed cases of COVID-19 and 200,000 deaths attributable to COVID-19 globally as of April 30, 2020; and,

WHEREAS, a vaccine or treatment is not currently available for COVID-19 and, on April 24, 2020, the World Health Organization warned that there is currently no evidence that people who have recovered from COVID-19 and have antibodies are protected from a second infection; and,

WHEREAS, despite efforts to contain COVID-19, the World Health Organization and the federal Centers for Disease Control and Prevention (CDC) indicated that the virus was expected to continue spreading and it has, in fact, continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,

WHEREAS, the CDC currently recommends that all United States residents take precautions to contain the spread of COVID-19, including that they: (1) stay home as much as possible; (2) if they must leave their home, practice social distancing by maintaining 6 feet of distance from others and avoiding all gatherings; (3) wear cloth face coverings in public settings where other social distancing measures are difficult to maintain; (4) be alert for symptoms such as fever, cough, or shortness of breath, and
take their temperature if symptoms develop; and (5) exercise appropriate hygiene, including proper hand-washing; and,

WHEREAS, the CDC also recommends the following precautions for household members, caretakers and other persons having close contact with a person with symptomatic COVID-19, during the period from 48 hours before onset of symptoms until the symptomatic person meets the criteria for discontinuing home isolation: (1) stay home until 14 days after last exposure and maintain social distance (at least 6 feet) from others at all times; (2) self-monitor for symptoms, including checking their temperature twice a day and watching for fever, cough, or shortness of breath; and (3) avoid contact with people at higher risk for severe illness (unless they live in the same home and had the same exposure); and,

WHEREAS, as circumstances surrounding COVID-19 rapidly evolve, there have been frequent changes in information and guidance from public health officials as a result of emerging evidence; and,

WHEREAS, as of April 30, 2020, there have been nearly 53,000 confirmed cases of COVID-19 in 97 Illinois counties and 2,350 deaths from COVID-19; and,

WHEREAS, studies suggest that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals, meaning that individuals can pass the virus to others without knowing; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State has developed and now requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, Illinois is using a high percentage of hospital beds, ICU beds, and ventilators as a result of the number of COVID-19 patients that require hospitalization and, if cases were to surge higher, the State would face a shortage of these critical health care resources; and,

WHEREAS, Illinois currently has a total of 32,010 hospital beds with 3,631 ICU beds, of which, as of April 30, 2020, only 33% of hospital beds and 25% of ICU beds were available statewide, and only 17% of ICU beds were available in the Chicago region; and,

WHEREAS, the State worked with top researchers from the University of Illinois at Urbana-Champaign, the Northwestern School of Medicine, the University of Chicago, the Chicago and Illinois Departments of Public Health, along with McKinsey and Mier Consulting Group, and Civis Analytics, to analyze two months’ worth of daily data on COVID-19 deaths and ICU usage and model potential outcomes; and,
WHEREAS, the State’s modeling shows that its health care resource utilization will not peak until May, and that health care resources will continue to be limited after the peak; and,
WHEREAS, the State’s modeling shows that without extensive social distancing and other precautions, the State will not have sufficient hospital beds, ICU beds or ventilators; and,
WHEREAS, Illinois currently has a total of 32,010 hospital beds, and the State’s modeling shows that without a “stay at home” order, more than 100,000 hospital beds would be necessary; and,
WHEREAS, Illinois currently has a total of 3,631 ICU beds, and the State’s modeling shows that without a “stay at home” order, more than 25,000 ICU beds would be necessary; and,
WHEREAS, Illinois currently has a total of 3,378 ventilators, and the State’s modeling shows that without a “stay at home” order, upwards of 20,000 ventilators would be necessary; and,
WHEREAS, the State’s modeling shows that without a “stay at home” order, the number of deaths from COVID-19 would be between 10 to 20 times higher than with a “stay at home” order in place; and,
WHEREAS, I declared all counties in the State of Illinois as a disaster area on April 30, 2020 because the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,
WHEREAS, I declared all counties in the State of Illinois as a disaster area on April 30, 2020 because the current circumstances surrounding the threatened shortages of hospital beds, ICU beds, ventilators, and PPE, and critical need for increased COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,
WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people;” and,
WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I find it necessary to take measures consistent with public health guidance to slow and stop the spread of COVID-19 and to prevent shortages of hospital beds, ICU beds, ventilators, and PPE and to increase COVID-19 testing capacity;
THEREFORE, by the powers vested in me as the Governor of the State of Illinois, pursuant to the Illinois Constitution and Sections 7(1), 7(2), 7(3), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers in public health laws, I hereby order the following, effective May 1, 2020:

All persons may leave their homes or place of residence only for Essential Activities, Essential Governmental Functions, or to operate Essential Businesses and Operations, all as defined below. 3. Prohibited activities. All public and private gatherings of any number of people occurring outside a single household
or living unit are prohibited, except for the limited purposes permitted by this Executive Order. Pursuant to current guidance from the CDC, any gathering of more than ten people is prohibited unless exempted by this Executive Order. (a) Hospitals and Health Care Facilities.

i. For Hospitals and Health Care Facilities, “rendering assistance” in support of the State’s response must include measures such as increasing the number of beds, preserving and properly employing personal protective equipment, conducting widespread testing, and taking necessary steps to provide medical care to patients with COVID-19 and to prevent further transmission of COVID-19.

The receiving Hospital shall accept such transfer of a COVID-19 patient if it has sufficient capacity and capability necessary to provide treatment for the COVID-19 patient. In determining whether a Hospital has sufficient capacity and capability necessary to provide treatment for a COVID-19 patient, the Hospital shall consider, at a minimum, its ability to provide safe and effective treatment consistent with any current guidance from IDPH and available supplies, staffing, and ICU and medical/surgical bed capacity.

iv. For Health Care Facilities, “rendering assistance” must also include, consistent
with current guidance and recommendations from IDPH (1) conducting widespread testing of residents and widespread and regular testing of staff for COVID-19, and (2) accepting COVID-19 patients upon transfer or discharge from a Hospital or Health Care Facility.

This section is inapplicable if it is established that such injury or death was caused by gross negligence or willful misconduct of such Hospital or Health Care Professional, if 20 ILCS 3305/15 is applicable, or by willful misconduct, if 20 ILCS 3305/21 is applicable.

Section 4. Pursuant to Sections 15 and 21(b)-(c) of the IEMA Act, 20 ILCS 3305/15 and 21(b)-(c), I direct that during the pendency of the Gubernatorial Disaster Proclamations, Hospitals that conduct
elective surgeries or procedures beginning on or after May 11, 2020, or Health Care Professionals providing services in such a Hospital, shall be immune from civil liability for any injury or death relating to the diagnosis, transmission, or treatment of COVID-19 alleged to have been caused by any act or omission by the Hospital or the Health Care Professional, which injury or death occurred at a time when a Hospital or Health Care Professional was rendering assistance to the State in response to the COVID-19 outbreak by providing health care services consistent with current guidance issued by IDPH. This section is inapplicable if it is established that such injury or death was caused by gross negligence or willful misconduct of such Hospital or Health Care Professional, if 20 ILCS 3305/15 is applicable, or by willful misconduct, if 20 ILCS 3305/21 is applicable.

This section is inapplicable if it is established that such injury or death was caused by gross negligence or willful misconduct of such Health Care Facility or Health Care Professional, if 20 ILCS 3305/15 is applicable, or by willful misconduct, if 20 ILCS 3305/21 is applicable.

Section 6. Pursuant to Section 21(c) of the IEMA Act, 20 ILCS 3305/21(c), and the Good Samaritan Act, 745 ILCS 49, I direct that during the pendency of the Gubernatorial Disaster Proclamations, any Health Care Volunteer, as defined in Section 1 of this Executive Order, shall be immune from civil liability for any injury or death alleged to have been caused by any act or omission by such Health Care Volunteer, which injury or death occurred at a time when the Health Care Volunteer was rendering assistance to the State in response to the COVID-19 outbreak by providing services, assistance, or support consistent with current guidance

Section 8. If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable.

EXECUTIVE ORDER 2020-38
(COVID-19 EXECUTIVE ORDER NO. 36)
RESTORING ILLINOIS – PROTECTING OUR COMMUNITIES

WHEREAS, since early March 2020, Illinois has been faced with a disaster caused by a pandemic that has taken the lives of thousands of residents, infecting over 100,000 and growing, and resulting in extraordinary sickness and loss of life; and,

WHEREAS, at all times but especially during a public health crisis, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, as Illinois enters the fourth month of responding to the public health disaster caused by Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness that has spread and continues to spread rapidly among people through respiratory transmissions and continues to be without an effective treatment or vaccine, the burden on residents, healthcare providers, first responders and governments throughout the State is unprecedented; and,

WHEREAS, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,
WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has now reported more than 5.5 million confirmed cases of COVID-19 and 350,000 deaths attributable to COVID-19 globally; and,

WHEREAS, despite efforts to contain COVID-19, the World Health Organization and the federal Centers for Disease Control and Prevention (CDC) indicated that the virus was expected to continue spreading and it has, in fact, continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,

WHEREAS, on March 9, 2020, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area in response to the outbreak of COVID-19; and,

WHEREAS, on March 13, 2020, the President declared a nationwide emergency pursuant to Section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”), covering all states and territories, including Illinois; and,

WHEREAS, on March 26, 2020, the President declared a major disaster in Illinois pursuant to Section 401 of the Stafford Act; and,

WHEREAS, on April 1, 2020, due to the exponential spread of COVID-19 in Illinois, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on April 30, 2020, due to the continued spread of COVID-19 in Illinois, the threatened shortages of hospital beds, emergency room capacity, and ventilators, and the inadequate testing capacity, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on May 29, 2020, due to the thousands of lives lost to COVID-19 in Illinois, the continued increase of cases, the continued threat of shortages of hospital beds, emergency room capacity, and ventilators, the improved but still insufficient testing capacity, and the financial destruction caused by the virus, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, the CDC advises that limiting face-to-face contact with others is the best way to reduce the spread of COVID-19, and that social distancing – staying at least 6 feet away from other people, not gathering in groups, and staying out of crowded places – is among the best tools to slow the spread of the virus; and,

WHEREAS, the CDC recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,
WHEREAS, the CDC recommends other critical precautions to slow the spread of COVID-19, such as frequent hand washing, covering coughs and sneezes, and cleaning and disinfecting frequently touched surfaces; and,

WHEREAS, there have been over 117,000 confirmed cases of COVID-19 in 101 Illinois counties; and,

WHEREAS, Illinois has had more than 5,200 deaths resulting from COVID-19, and many days more than 100 Illinoisans lose their lives to the virus; and,

WHEREAS, although the number of new COVID-19 cases has stabilized and potentially begun to decrease in recent weeks, the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,

WHEREAS, COVID-19 has claimed the lives of and continues to impact the health of Black and Hispanic Illinoisans at a disproportionately high rate – magnifying significant health disparities and inequities; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State continues to develop and requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, while hospitalizations have very recently stabilized, Illinois is using a significant percentage of hospital beds, ICU beds, and ventilators to treat COVID-19 patients that require hospitalization and, if cases were to surge higher, the State could face a shortage of one or more of these critical health care resources; and,

WHEREAS, the State worked with top researchers from the University of Illinois at Urbana-Champaign, the Northwestern School of Medicine, the University of Chicago, the Chicago and Illinois Departments of Public Health, along with McKinsey and Mier Consulting Group, and Civis Analytics, to analyze data on COVID-19 deaths and ICU usage and model potential outcomes; and,

WHEREAS, the State’s modeling showed that its health care resource utilization would peak in May, and that health care resources would continue to be limited after the peak, updated modeling now shows that the peak may have been delayed, with the tail extending several more weeks; and,

WHEREAS, the State’s modeling continues to show that without extensive social distancing and other precautions, the State will face a shortage of hospital beds, ICU beds and/or ventilators; and,

WHEREAS, in addition to causing the tragic loss of more than
5,200 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,

WHEREAS, nationwide, 40 million people have filed unemployment claims since the start of the pandemic – representing one in four U.S. workers; and,

WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate rose to 16.4% in April, with 762,000 jobs lost during that month; and,

WHEREAS, over 180,000 small businesses in Illinois have received over $22 billion in COVID-19 related financial support through the federal Paycheck Protection Program in an effort to prevent these businesses from closing; and,

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that impact the health and safety of residents; and,

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, pursuant to the Illinois Constitution and Sections 7(1), 7(2), 7(3), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers in public health laws, I hereby order the following, effective immediately:

Restoring Illinois – Protecting Our Communities

1. **Intent of this Executive Order.** The intent of this Executive Order is to safely and conscientiously resume activities that were paused as COVID-19 cases rose exponentially and threatened to overwhelm our healthcare system. As Illinoisans resume these activities, we must not backslide on the progress we have made. We cannot risk overwhelming our healthcare system, and we must prioritize the health and lives of all Illinoisans, especially the most vulnerable among us. While protecting our communities, we will restore our economy and begin to repair the economic damage that the virus has caused. The intent of this Executive Order is to effectuate those goals.

This Executive Order supersedes Executive Order 2020-32 and Section 1 of Executive Order 2020-07.

2. **Public health requirements for individuals.** Individuals must take the following public health steps to protect their own and their neighbors’ health and lives:
   a. **Practice social distancing.** To the extent individuals are
using shared spaces when outside their residence, including when outdoors, they must at all times and as much as reasonably possible maintain social distancing of at least six feet from any other person who does not live with them.

b. Wear a face covering in public places or when working.  
Any individual who is over age two and able to medically tolerate a face covering (a mask or cloth face covering) shall be required to cover their nose and mouth with a face covering when in a public place and unable to maintain a six-foot social distance. This requirement applies whether in an indoor space, such as a store, or in a public outdoor space where maintaining a six-foot social distance is not always possible.

c. Elderly people and those who are vulnerable as a result of illness should take additional precautions. People at high risk of severe illness from COVID-19, including elderly people and those with a health condition that may make them vulnerable, are urged to stay in their residence and minimize in-person contact with others to the extent possible.

d. Limit gatherings. Any gathering of more than ten people is prohibited unless exempted by this Executive Order. Nothing in this Executive Order prohibits the gathering of members of a household or residence. Because in-person contact presents the greatest risk of transmission of COVID-19, Illinoians are encouraged to continue limiting in-person contact with others and to expand their social contact cautiously. Gathering remotely continues to be the safest way to interact with those outside a household or residence.

e. Go outdoors. Public health guidance suggests that the risks of transmission of COVID-19 are greatly reduced outdoors as opposed to indoors. Where possible, Illinoians are encouraged to conduct their activities outdoors.

3. Public health requirements for businesses, nonprofits, and other

---

1 Throughout this Executive Order, any reference to a face covering requirement excludes those two years old and younger and those for whom wearing a face covering is not medically advisable. Guidance on use of face coverings from the Illinois Department of Human Rights is available here: https://www2.illinois.gov/dhr/Documents/IDHR_FAQ_for_Businesses_Concerning_Use_of_Face-Coverings_During_COVID-19_Ver_2020511b%20copy.pdf
organizations. For the purposes of this Executive Order, covered businesses include any for-profit, non-profit, or educational entity, regardless of the nature of the service, the function it performs, or its corporate or entity structure. Those entities must take the following public health measures to protect their employees, their customers, and all others who come into physical contact with their operations:

a. Requirements for all businesses. All businesses must:
   • continue to evaluate which employees are able to work from home, and are encouraged to facilitate remote work from home when possible;
   • ensure that employees practice social distancing and wear face coverings when social distancing is not always possible;
   • ensure that all spaces where employees may gather, including locker rooms and lunchrooms, allow for social distancing; and
   • ensure that all visitors (customers, vendors, etc.) to the workplace can practice social distancing; but if maintaining a six-foot social distance will not be possible at all times, encourage visitors to wear face coverings; and
   • prominently post the guidance from the Illinois Department of Public Health (IDPH) and Office of the Illinois Attorney General regarding workplace safety during the COVID-19 emergency.  

The Department of Commerce and Economic Opportunity (DCEO), in partnership with IDPH, has developed industry-specific guidance and toolkits to help businesses operate safely and responsibly. These documents are available at: https://www2.illinois.gov/dceo/Pages/RestoreILP3.aspx.

b. Requirements for retail stores. Retail stores must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which include:
   • provide face coverings to all employees who are not able to maintain a minimum six-foot social distance from customers and other employees at all times;

---

2 This guidance is available at: https://www.dph.illinois.gov/sites/default/files/COVID-19_WorkplaceHealth_SafetyGuidance20200505.pdf
• cap occupancy at 50 percent of store capacity, or, alternatively, at the occupancy limits based on store square footage set by the Department of Commerce and Economic Opportunity;
• communicate with customers through in-store signage, and public service announcements and advertisements, about the social distancing and face covering requirements set forth in this Order; and
• discontinue use of reusable bags.

c. Requirements for manufacturers. Manufacturers must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which include:
• provide face coverings to all employees who are not able to maintain a minimum six-foot social distance at all times;
• ensure that all spaces where employees may gather, including locker rooms and lunchrooms, allow for social distancing; and
• modify and downsize operations (staggering shifts, reducing line speeds, operating only essential lines, while shutting down non-essential lines) to the extent necessary to allow for social distancing and to provide a safe workplace in response to the COVID-19 emergency.

d. Requirements for office buildings. Employers in office buildings must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which may include:
• provide face coverings to all employees who are not able to maintain a minimum six-foot social distance at all times;
• consider implementing capacity limits where the physical space does not allow for social distancing;
• allow telework where possible; and
• develop and prominently post plans and signage to ensure social distancing in shared spaces such as waiting rooms, service counters, and cafeterias.

e. Requirements for restaurants and bars. All businesses that offer food or beverages for on-premises
consumption—including restaurants, bars, grocery stores, and food halls—must suspend service for and may not permit on-premises consumption, except as permitted by DCEO guidance. Such businesses are permitted and encouraged to serve food and beverages so that they may be consumed off-premises, as permitted by law, through means such as in-house delivery, third-party delivery, drive-through, and curbside pick-up. In addition, customers may enter the premises to purchase food or beverages for carry-out. However, establishments offering food or beverages for carry-out, including food trucks, must ensure that they have an environment where patrons maintain adequate social distancing.

Bars and restaurants located in airports, hospitals, and dining halls in colleges and universities are exempt from the requirements of this Executive Order. Hotel restaurants may continue to provide room service and carry-out. Catering services may continue. Schools and other entities that typically provide food services to students or members of the public may continue to do so under this Executive Order on the condition that the food is provided to students or members of the public on a pick-up and takeaway basis only.

All businesses covered in this section may permit outdoor on-premises food and beverage consumption in accordance with DCEO guidance and when permitted by local ordinances and regulations.

f. Requirements for fitness and exercise gyms. Fitness and exercise gyms may be open for the following activities, but must conduct business in a manner consistent with DCEO guidance: Personal training sessions involving one trainer and one customer; outdoor training in groups no larger than 10 with social distancing; sale of retail merchandise; and onsite filming or streaming of remote classes conducted by a single trainer. Fitness and exercise gyms may not allow other activities, including member workouts, because of the heightened risk of transmission of COVID-19 when people exercise together and share equipment in an indoor space.

g. Requirements for personal services facilities. Personal services facilities such as spas, hair salons, barber shops, nail salons, waxing centers, tattoo parlors, and similar
facilities may be open but must ensure the use of face coverings, adherence to social distancing requirements, and use of capacity limits in accordance with DCEO guidance.

h. Requirements for outdoor recreation, youth day camps, and youth sports. Businesses offering outdoor recreation, youth day camps, and youth sports may be open but must ensure the use of face coverings, adherence to social distancing requirements, and must take other public health steps in accordance with DCEO guidance.

i. Places of public amusement. Except as permitted by this Executive Order or by DCEO guidance, places of public amusement must remain closed to the public. Places of public amusement include but are not limited to, locations with amusement rides, carnivals, amusement parks, water parks, aquariums, zoos, museums, arcades, fairs, children’s play centers, playgrounds, theme parks, bowling alleys, movie and other theaters, and concert and music halls. Places of public amusement, like other businesses, may continue to:

   i. Perform necessary activities to maintain the value of the business’s inventory, preserve the condition of the business’s physical plant and equipment, ensure security, process payroll and employee benefits, or for related functions.

   ii. Perform necessary activities to facilitate employees of the business being able to continue to work remotely.

   iii. Fulfill online and telephonic retail orders through pick-up or delivery.

4. Exemptions.
a. Free exercise of religion. This Executive Order does not limit the free exercise of religion. Religious organizations are encouraged to take steps to ensure social distancing, the use of face coverings, and implementation of other public health measures.

b. **Emergency functions.** All first responders, emergency management personnel, emergency dispatchers, court personnel, law enforcement and corrections personnel, hazardous materials responders, child protection and child welfare personnel, housing and shelter personnel, military, and other governmental employees working for or to support the emergency response are exempt from this Executive Order, but are encouraged to practice social distancing and take recommended public health measures.

c. **Governmental functions.** This Executive Order does not apply to the United States government and does not affect services provided by the State or any municipal, township, county, subdivision or agency of government and needed to ensure the continuing operation of the government agencies or to provide for or support the health, safety and welfare of the public.

i. **Designate six-foot distances.** Designating with signage, tape, or by other means six-foot spacing for employees and customers to maintain appropriate distance;

ii. **Hand sanitizer and sanitizing products.** Having hand sanitizer and sanitizing products readily available for employees and customers;

iii. **Separate operating hours for vulnerable populations.**

When the work circumstances require, providing employees with other PPE in addition to face coverings.

6. Enforcement. This Executive Order may be enforced by State and local law enforcement pursuant to, *inter alia*, Section 7, Section 15, Section 18, and Section 19 of the Illinois Emergency Management Agency Act, 20 ILCS 3305. Businesses must follow guidance provided or published by the Illinois Department of Commerce and Economic Opportunity regarding safety measures during Phase III, and the Illinois Department of Public Health, local public health departments, and the Workplace Rights Bureau of the Office of the Illinois Attorney General with respect to Social Distancing Requirements. Pursuant to Section 25(b) of the Whistleblower Act, 740 ILCS 174, businesses are prohibited from retaliating against an employee for disclosing information where the employee has reasonable cause to believe that the information discloses a violation of this Order.

7. No limitation on authority. Nothing in this Executive Order shall, in any way, alter or modify any existing legal authority allowing the State or any county, or local government body to order (1) any quarantine or isolation that may require an individual to remain inside a particular residential property or medical facility for a limited period of time, including the duration of this public health emergency, or (2) any closure of a specific location for a limited period of time, including the duration of this public health emergency. Nothing in this Executive Order shall be construed as an exercise of any authority to order any quarantine, isolation, or closure. Nothing in this Executive Order shall, in any way, alter or modify any existing legal authority allowing a county or local government body to enact provisions that are stricter than those in this Executive Order.

8. Savings clause. If any provision of this Executive Order or its
application to any person or circumstance is held invalid by any
court of competent jurisdiction, this invalidity does not affect any
other provision or application of this Executive Order, which can
be given effect without the invalid provision or application. To
achieve this purpose, the provisions of this Executive Order are
declared to be severable. This Executive Order is meant to be read
consistently with any Court order regarding this Executive Order.

WHEREAS, on April 1, 2020, I declared all counties in the State of Illinois as a disaster area due to the exponential spread of COVID-19; and,

WHEREAS, on April 30, 2020, due to the expected continuing spread of COVID-19 and the resulting health impacts across the State, as well as the need to prevent potential shortages of hospital beds, ICU beds, ventilators, personal protective equipment and materials for testing for the virus, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on May 29, 2020, due to the thousands of lives lost to COVID-19 in Illinois, the continued increase of cases, the continued threat of shortages of hospital beds, ER beds, and ventilators, the improved but still insufficient testing capacity, and the financial destruction caused by the virus, I again declared all counties in the State of Illinois as a disaster area (together with the previous proclamations identified in this Executive Order, the Gubernatorial Disaster Proclamations); and,

WHEREAS, it is necessary and appropriate for the State of Illinois to continue to take immediate and significant measures to prevent or slow the spread of COVID-19 and protect public health during the COVID-19 outbreak; and,

WHEREAS, the Centers for Disease Control and Prevention (CDC) advises that limiting face-to-face contact with others is the best way to reduce the spread of COVID-19, and that social distancing – staying at least 6 feet away from other people, not gathering in groups, and staying out of crowded places – is among the best tools to slow the spread of the virus; and,

WHEREAS, the CDC recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain and undertaking other critical precautions to slow the spread of COVID-19, such as frequent hand washing, covering coughs and sneezes, and cleaning and disinfecting frequently touched surfaces; and,

WHEREAS, in keeping with CDC guidance, Executive Order 2020-38 mandates the practice of social distancing, wearing face coverings in public spaces, and limited gatherings of ten people or less; and,

WHEREAS, there have been over 131,000 confirmed cases of COVID-19 in 101 Illinois counties, and,

WHEREAS, Illinois has had more than 6,260 deaths resulting from COVID-19; and,

WHEREAS, although the number of new COVID-19 cases have stabilized and potentially begun to decrease in recent weeks, the virus continues to infect thousands of individuals and claim the lives of too
many Illinoisans each day; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State continues to develop and requires an evolving response to ensure hospitals, health care professionals, and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with guidance from the Illinois Department of Public Health and the CDC, which continues to be updated; and,

WHEREAS, the State Fair Act, 20 ILCS 210/5, provides that the Illinois Department of Agriculture (IDOA) shall annually hold a State Fair in Springfield, Illinois (Illinois State Fair) and DuQuoin, Illinois (DuQuoin State Fair), collectively, the State Fairs, to promote agriculture, the agriculture industry, and provide for exhibits and activities in the fields of industry, education, the arts and crafts, labor, entertainment and other areas interest to the people of the State; and,

WHEREAS, the Illinois State Fair in Springfield is scheduled for August 13 – August 23, 2020, and the DuQuoin State Fair is scheduled for August 28 – September 7, 2020; and,

WHEREAS, the State Fairs traditionally host entertainment, competitions, exhibits, vendors, rides, and other activities that draw large crowds in close proximity – over 600,000 individuals attended the State Fairs in 2019; and,

WHEREAS, maintaining adequate social distancing and other adequate health precautions would be extremely difficult, if not impossible, at many of the activities at either State Fair; and,

WHEREAS, the health and safety of fairgoers, entertainers, competitors, vendors, employees, and those living in the surrounding areas of the State Fairs is of upmost importance;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, pursuant to Sections 7(1), 7(2), 7(8), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, I hereby order the following:

Section 1. During the duration of the Disaster Proclamations, the provision in the State Fair Act, 20 ILCS 210 ILCS/5, providing that the Department shall annually hold a State Fair at Springfield and DuQuoin is hereby suspended. The Department of Agriculture is directed to cancel the State Fairs scheduled for 2020 in accordance with this Executive Order.

Section 2. If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can
be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable.

2020-43
EXECUTIVE ORDER 2020-43
(COVID-19 EXECUTIVE ORDER NO. 41)
COMMUNITY REVITALIZATION ORDER

WHEREAS, since early March 2020, Illinois has faced a pandemic that has caused extraordinary sickness and loss of life, infecting over 140,000 and growing, and taking the lives of thousands of residents; and,

WHEREAS, at all times but especially during a public health crisis, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, as Illinois enters the fifth month of responding to the public health disaster caused by Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness that spreads rapidly through respiratory transmissions and that continues to be without an effective treatment or vaccine, the burden on residents, healthcare providers, first responders, and governments throughout the State is unprecedented; and,

WHEREAS, as circumstances surrounding COVID-19 rapidly evolve and new evidence emerges, there have been frequent changes in information and public health guidance; and,

WHEREAS, although the CDC initially recommended against wearing cloth face coverings or masks as protection, as a result of research on asymptomatic and pre-symptomatic transmission, the CDC revised its conclusions and recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, public health research and guidance increasingly supports wearing cloth face coverings in public settings where social distancing measures are difficult to maintain, and indicates that the risk of transmission outdoors is less than the risk of transmission indoors; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a disaster throughout the State have changed and continue to change, making definitive predictions of the course the virus will take over the coming months extremely difficult; and,

WHEREAS, as of today, June 26, 2020, there have been over
140,000 confirmed cases of COVID-19 in 101 Illinois counties; and,
WHEREAS, as of today, June 26, 2020, more than 6,800 residents of Illinois have died due to COVID-19; and,
WHEREAS, the CDC now estimates that for every reported case of COVID-19, there are 10 unreported infections, resulting in a number of total cases in the country that may be 10 times higher than currently reported; and,
WHEREAS, social distancing, face coverings, and other public health precautions have proven to be critical in slowing and stopping the spread of COVID-19; and,
WHEREAS, although the number of new COVID-19 cases has decreased in recent weeks, the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,
WHEREAS, while the precautions taken by Illinoisans have led to a steep decline in the number of COVID-19 cases and deaths in the State in recent weeks, other states that have resisted taking public health precautions or that lifted those precautions earlier are now experiencing exponential growth and record high numbers of cases; and,
WHEREAS, COVID-19 has claimed the lives of and continues to impact the health of Black and Hispanic Illinoisans at a disproportionately high rate – magnifying significant health disparities and inequities; and,
WHEREAS, while hospitalizations have declined, Illinois is using a significant percentage of hospital beds and ICU beds, and, if COVID-19 cases were to surge, the State could face a shortage of critical health care resources; and,
WHEREAS, in addition to causing the tragic loss of more than 6,800 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,
WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate rose to 16.4% in April, with 762,000 jobs lost during that month; and,
WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate was 15.2% in May, and that major Illinois industries such as leisure and hospitality, transportation and utilities, and educational and health services had been particularly hard-hit during the March to May period; and,
WHEREAS, the Illinois Department of Employment Security is responding to the economic crisis in a number of ways, including through the Pandemic Unemployment Assistance program; and,
WHEREAS, the Department of Commerce and Economic Opportunity is working to address the economic crisis, including through assistance programs such as the Business Interruption Grants Program for businesses that experienced a limited ability to operate due to COVID-19 related closures; and,

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that directly impact the health and safety of residents; and,

WHEREAS, based on the foregoing facts, and considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, I declared that the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, based on the foregoing, I declared that the continuing burden on hospital resources, the potential shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, pursuant to the Illinois Constitution and Sections 7(1), 7(2), 7(3), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers in public health laws, I hereby order the following, effective immediately:

Community Revitalization Order

1. **Intent of this Executive Order.** The intent of this Executive Order is to safely and conscientiously resume and expand activities that were paused or limited as COVID-19 cases rose exponentially and threatened to overwhelm our healthcare system. As Illinoisans safely resume and expand these activities, we must not backslide on the progress we have made. We cannot risk overwhelming our healthcare system, and we must prioritize the health and lives of all Illinoisans, especially the most vulnerable among us. While protecting our communities, we will restore our economy and begin to repair the economic damage that the virus has caused. The intent of this Executive Order is to effectuate those goals.

This Executive Order supersedes Executive Order 2020-38.

2. **Public health requirements for individuals.** Individuals must take
the following public health steps to protect their own and their neighbors’ health and lives:

a. **Practice social distancing.** To the extent individuals are using shared spaces when outside their residence, including when outdoors, they must at all times and as much as reasonably possible maintain social distancing of at least six feet from any other person who does not live with them.

b. **Wear a face covering in public places or when working.**

   Any individual who is over age two and able to medically tolerate a face covering (a mask or cloth face covering) shall be required to cover their nose and mouth with a face covering when in a public place and unable to maintain a six-foot social distance. This requirement applies whether in an indoor space, such as a store, or in a public outdoor space where maintaining a six-foot social distance is not always possible.

c. **Elderly people and those who are vulnerable as a result of illness should take additional precautions.** People at high risk of severe illness from COVID-19, including elderly people and those with a health condition that may make them vulnerable, are urged to stay in their residence and minimize in-person contact with others to the extent possible.

d. **Limit gatherings.** Any gathering of more than fifty people is prohibited unless exempted by this Executive Order. Nothing in this Executive Order prohibits the gathering of members of a household or residence. Because in-person contact presents the greatest risk of transmission of COVID-19, Illinoisans are encouraged to continue limiting in-person contact with others and to expand their social contact cautiously. Gathering remotely continues to be the safest way to interact with those outside a household or residence.

e. **Go outdoors.** Public health guidance suggests that the risks of transmission of COVID-19 are greatly reduced outdoors.

---

1 Throughout this Executive Order, any reference to a face covering requirement excludes those two years old and younger and those for whom wearing a face covering is not medically advisable. Guidance on use of face coverings from the Illinois Department of Human Rights is available here:

as opposed to indoors. Where possible, Illinoisans are encouraged to conduct their activities outdoors.

3. **Public health requirements for businesses, nonprofits, and other organizations.** For the purposes of this Executive Order, covered businesses include any for-profit, non-profit, or educational entity, regardless of the nature of the service, the function it performs, or its corporate or entity structure. Those entities must take the following public health measures to protect their employees, their customers, and all others who come into physical contact with their operations:

   a. **Requirements for all businesses.** All businesses must:

      - continue to evaluate which employees are able to work from home, and are encouraged to facilitate remote work from home when possible;
      - ensure that employees practice social distancing and wear face coverings when social distancing is not always possible;
      - ensure that all spaces where employees may gather, including locker rooms and lunchrooms, allow for social distancing; and
      - ensure that all visitors (customers, vendors, etc.) to the workplace can practice social distancing; but if maintaining a six-foot social distance will not be possible at all times, encourage visitors to wear face coverings; and
      - prominently post the guidance from the Illinois Department of Public Health (IDPH) and Office of the Illinois Attorney General regarding workplace safety during the COVID-19 emergency.2

   The Department of Commerce and Economic Opportunity (DCEO), in partnership with IDPH, has developed industry-specific guidance and toolkits to help businesses operate safely and responsibly. These documents are available at: [https://dceocovid19resources.com/restore-illinois/restore-illinois-phase-4/](https://dceocovid19resources.com/restore-illinois/restore-illinois-phase-4/).

   b. **Requirements for retail stores.** Retail stores must ensure all employees practice social distancing and must take appropriate additional public health precautions, in

accordance with DCEO guidance, which include:

- provide face coverings to all employees who are not able to maintain a minimum six-foot social distance from customers and other employees at all times;
- cap occupancy at 50 percent of store capacity, or, alternatively, at the occupancy limits based on store square footage set by the Department of Commerce and Economic Opportunity;
- communicate with customers through in-store signage, and public service announcements and advertisements, about the social distancing and face covering requirements set forth in this Order; and
- discontinue use of reusable bags.

c. Requirements for manufacturers. Manufacturers must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which include:

- provide face coverings to all employees who are not able to maintain a minimum six-foot social distance at all times;
- ensure that all spaces where employees may gather, including locker rooms and lunchrooms, allow for social distancing; and
- modify and downsize operations (staggering shifts, reducing line speeds, operating only essential lines, while shutting down non-essential lines) to the extent necessary to allow for social distancing and to provide a safe workplace in response to the COVID-19 emergency.

d. Requirements for office buildings. Employers in office buildings must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which may include:

- provide face coverings to all employees who are not able to maintain a minimum six-foot social distance at all times;
- consider implementing capacity limits where the physical space does not allow for social distancing;
- allow telework where possible; and
- develop and prominently post plans and signage to
ensure social distancing in shared spaces such as waiting rooms, service counters, and cafeterias.

e. Requirements for meetings and events. Indoor venues and meeting spaces can operate with the lesser of fifty attendees or fifty percent of room capacity, and in accordance with DCEO guidance.

f. Requirements for restaurants and bars. All businesses that offer food or beverages for on-premises consumption—including restaurants, bars, grocery stores, and food halls—may resume service for on-premises consumption, as permitted by DCEO guidance. Such businesses continue to be permitted and encouraged to serve food and beverages so that they may be consumed off-premises, as permitted by law, through means such as in-house delivery, third-party delivery, drive-through, and curbside pick-up. Establishments offering food or beverages for on-premises consumption or for carry-out must ensure that they have an environment where patrons maintain adequate social distancing. All businesses covered in this section may permit outdoor on-premises food and beverage consumption in accordance with DCEO guidance and when permitted by local ordinances and regulations.

g. Requirements for fitness and exercise gyms. Fitness and exercise gyms may be open in a manner consistent with DCEO guidance, which involves operating for member workouts at a maximum of 50 percent capacity and with social distancing and other precautions.

h. Requirements for personal services facilities. Personal services facilities such as spas, hair salons, barber shops, nail salons, waxing centers, tattoo parlors, and similar facilities may be open but must ensure the use of face coverings, adherence to social distancing requirements, and use of capacity limits in accordance with DCEO guidance.

i. Requirements for outdoor recreation, youth day camps, and youth sports. Businesses offering outdoor recreation, youth day camps, and youth sports may be open but must ensure the use of face coverings, adherence to social distancing requirements, and must take other public health steps in accordance with DCEO guidance.

j. Requirements for places of public amusement. Places of public amusement may resume services consistent with
DCEO guidance for indoor and outdoor recreation (including but not limited to arcades, bowling alleys, and driving ranges), museums and aquariums, zoos and botanical gardens, theaters and performing arts, and outdoor seated spectator events.

k. Requirements for film production. Film production may operate with restrictions contained in DCEO guidance.

l. Minimum basic operations. All businesses may continue to:
   i. Perform necessary activities to maintain the value of the business’s inventory, preserve the condition of the business’s physical plant and equipment, ensure security, process payroll and employee benefits, or for related functions.
   ii. Perform necessary activities to facilitate employees of the business being able to continue to work remotely.
   iii. Fulfill online and telephonic retail orders through pick-up or delivery.

4. Exemptions.

   a. Free exercise of religion. This Executive Order does not limit the free exercise of religion. To protect the health and safety of faith leaders, staff, congregants and visitors, religious organizations and houses of worship are encouraged to consult and follow the recommended practices and guidelines from the Illinois Department of Public Health. As set forth in the IDPH guidelines, the safest practices for religious organizations at this time are to provide services online, in a drive-in format, or outdoors (and consistent with social distancing requirements and guidance regarding wearing face coverings), and to limit indoor services to 10 people. Religious organizations are encouraged to take steps to ensure social distancing, the use of face coverings, and implementation of other public health measures.

   b. Emergency functions. All first responders, emergency management personnel, emergency dispatchers, court personnel, law enforcement and corrections personnel, hazardous materials responders, child protection and child

c. **Governmental functions.** This Executive Order does not apply to the United States government and does not affect services provided by the State or any municipal, township, county, subdivision or agency of government and needed to ensure the continuing operation of the government agencies or to provide for or support the health, safety and welfare of the public.

5. **Social Distancing, Face Covering, and PPE Requirements.** For purposes of this Executive Order, social distancing includes maintaining at least six-foot distance from other individuals, washing hands with soap and water for at least twenty seconds as frequently as possible or using hand sanitizer, covering coughs or sneezes (into the sleeve or elbow, not hands), regularly cleaning high-touch surfaces, and not shaking hands.

a. **Required measures.** Businesses must take proactive measures to ensure compliance with Social Distancing Requirements, including where possible:
   i. Designate six-foot distances. Designating with signage, tape, or by other means six-foot spacing for employees and customers to maintain appropriate distance;

6. **Enforcement.** This Executive Order may be enforced by State and local law enforcement pursuant to, *inter alia*, Section 7, Section 15, Section 18, and Section 19 of the Illinois Emergency Management Agency Act, 20 ILCS 3305. Businesses must follow guidance provided or published by the Illinois Department of Commerce and Economic Opportunity regarding safety measures during Phase IV, and the Illinois Department of Public Health, local public health departments, and the Workplace Rights Bureau of the Office of the Illinois Attorney General with respect to Social Distancing Requirements. Pursuant to Section 25(b) of the Whistleblower Act, 740 ILCS 174, businesses are prohibited from retaliating against an employee for disclosing information where the employee has reasonable cause to believe that the information discloses a violation of this Order.

7. **No limitation on authority.** Nothing in this Executive Order shall, in any way, alter or modify any existing legal authority allowing the State or any county, or local government body to order (1) any quarantine or isolation that may require an individual to remain inside a particular residential property or medical facility for a limited period of time, including the duration of this public health emergency, or (2) any closure of a specific location for a limited period of time, including the duration of this public health emergency. Nothing in this Executive Order shall be construed as an exercise of any authority to order any quarantine, isolation, or closure. Nothing in this Executive Order shall, in any way, alter or modify any existing legal authority allowing a county or local government body to enact provisions that are stricter than those in this Executive Order.

8. **Savings clause.** If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable. This Executive Order is meant to be read consistently with any Court order regarding this Executive Order. Issued by the Governor June 26, 2020. Filed by the Secretary of State June 26, 2020.

EXECUTIVE ORDER IN RESPONSE TO COVID-19
(COVID-19 EXECUTIVE ORDER NO. 46)

WHEREAS, Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness, has rapidly spread throughout Illinois in a short period of time, necessitating stringent guidance from federal, state, and local public health officials and significant measures to respond to the increasing public health disaster; and,

WHEREAS, COVID-19 can spread among people through respiratory transmissions, asymptomatic people can transmit the virus, and there is currently no effective treatment or vaccine; and,

WHEREAS, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area on March 9, 2020 (“Gubernatorial Disaster Proclamation”) in response to the outbreak of Coronavirus Disease 2019 (“COVID-19”); and,

WHEREAS, in a short period of time, COVID-19 has rapidly spread throughout Illinois, necessitating updated and more stringent guidance from federal, state, and local public health officials; and,

WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare
delivery system is capable of serving those who are sick, I have found it necessary to take additional measures consistent with public health guidance to slow and stop the spread of COVID-19; and,

WHEREAS, on April 1, 2020, I declared all counties in the State of Illinois as a disaster area due to the exponential spread of COVID-19; and,

WHEREAS, on April 30, 2020, due to the continuing spread of COVID-19, the resulting health impacts across the State, and the need to address the potential shortages of hospital beds, ICU beds, ventilators, personal protective equipment and materials for testing for the virus, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on May 29, 2020, due to the thousands of lives lost to COVID-19 in Illinois, the continued increase of cases, the continued threat of shortages of hospital beds, ER beds, and ventilators, the improved but still insufficient testing capacity, and the economic devastation caused by the virus, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on June 26, 2020, due to the ongoing burden on hospital resources, the expected continuing spread of COVID-19, and the ongoing health and economic impacts caused by COVID-19, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on July 24, 2020, considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, I again declared all counties in the State of Illinois as a disaster area (together with the previous proclamations identified in this Executive Order, the Gubernatorial Disaster Proclamations); and,

WHEREAS, numerous counties all around the State (Gallatin, Union, St. Clair, Cass, Hardin, Saline, Jackson, Randolph, Jo Daviess, Adams, Coles, Madison, Alexander, Lawrence, Kankakee, Rock Island, Logan, Scott, Champaign, White, Johnson, Peoria, Perry, Monroe, Whiteside, Washington, Mercer, Iroquois, DuPage, McHenry, Sangamon, Clinton and LaSalle) have reported more than 75 cases per 100,000 people over the past 10 days; and,

WHEREAS, social distancing, which consists of maintaining at least a six-foot distance between people, is the paramount strategy for minimizing the spread of COVID-19 in our communities; and,

WHEREAS, certain populations are at a higher risk of experiencing more severe illness as a result of COVID-19, including older adults and people who have serious chronic health conditions such as heart disease, diabetes, lung disease or other mental or physical conditions; and,
WHEREAS, the Illinois Department of Corrections (IDOC) currently has a population of more than 31,000 male and female individuals in 28 facilities, the vast majority of whom, because of their close proximity and contact with each other in housing units and dining halls, are especially vulnerable to contracting and spreading COVID-19; and,

WHEREAS, the Centers for Disease Control (CDC) have issued recommendations specific to correctional and detention settings in order to control the spread of COVID-19 in those uniquely situated environments, available at https://www.cdc.gov/coronavirus/2019-ncov/community/correction-detention/testing.html; and,

WHEREAS, the CDC recommends that in order to effectively isolate COVID-positive individuals and quarantine those who have come into contact with COVID-positive individuals, correctional facilities must consider a number of operational factors; and,

WHEREAS, although it has taken significant steps throughout the COVID-19 pandemic to reduce the number of individuals in each facility, IDOC continues to have limited housing capacity to isolate and quarantine individuals who present as symptomatic of, or test positive for, COVID-19; and,

WHEREAS, individuals in county jails awaiting transfer to IDOC facilities, because of their close proximity to and contact with each other, may have been infected with COVID-19; and,

WHEREAS, IDOC historically receives daily transfers of individuals from county jails who have been convicted of criminal offenses and sentenced by Illinois courts to the custody and control of IDOC; and,

WHEREAS, it remains critical that the Director of IDOC take all necessary steps, consistent with public health guidance, to prevent the spread of COVID-19 in the IDOC facilities and provide necessary healthcare to those impacted by COVID-19; and,

WHEREAS, on March 26, 2020, I issued Executive Order 2020-13, which suspended all admissions to the Illinois Department of Corrections from all Illinois county jails, with exceptions at the Director’s discretion; and,

WHEREAS, in Executive Order 2020-48, I re-issued Executive Order 2020-13 and extended it through August 22, 2020;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, and pursuant to Sections 7(1), 7(2), 7(8), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers set forth in the State’s public health laws, I
hereby order the following, effective July 27, 2020 at 5:00 pm and for the remainder of the duration of the Gubernatorial Disaster Proclamation, which currently extends through August 22, 2020:

Section 1. The Illinois Department of Corrections (IDOC) will resume accepting the transfer of individuals from Illinois county jails. The scheduling of the arrival of individuals from county jails and the intake process to ensure the health and safety of the transferring individuals, as well as all individuals and staff at IDOC, shall be within the sole discretion of the Director of IDOC. In determining the timing of the arrival of individuals from county jails and the specific process for transfers to IDOC, the Director shall take into account several health and safety factors including (a) the capacity and safety of IDOC reception centers, and (b) whether the individuals to be transferred have been quarantined for 14 days and, following that quarantine period, have tested negative for COVID-19 before their transfer to IDOC. All approved transfers to IDOC shall follow the protocol established by IDOC in conjunction with the Illinois Department of Public Health (IDPH), available at https://www2.illinois.gov/idoc/facilities/Pages/Covid19Response.aspx. The Director of IDOC will work closely with county sheriffs and other partners in the criminal justice system to determine whether transfer from specific county jails is feasible and to ensure that the guidelines will be implemented.

Section 2. Executive Order 2020-13 is hereby rescinded.

Section 3. If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable.

EXECUTIVE ORDER IN RESPONSE TO COVID-19
(COVID-19 EXECUTIVE ORDER NO. 47)

WHEREAS, Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness, has rapidly spread throughout Illinois and
continues to necessitate updated and more stringent guidance from federal, state, and local public health officials and significant measures to respond to the increasing public health disaster; and,

WHEREAS, COVID-19 can spread among people through respiratory transmissions, asymptomatic people can transmit the virus, and there is currently no effective treatment or vaccine; and,

WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I have found it necessary to take additional measures consistent with public health guidance to slow and stop the spread of COVID-19; and,

WHEREAS, on July 24, 2020, considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, working with experts in the Department of Public Health, I put forward a deliberate plan that utilizes several layers of mitigation steps to combat a resurgence of COVID-19 and prevent uncontrollable spread; and,

WHEREAS, that plan described two scenarios that would cause the State to institute more restrictive public health measures and impose additional mitigations in a region: first, a sustained increase in the 7-day rolling average (7 out of 10 days) in the positivity rate, coupled with either (a) a sustained 7-day increase in hospital admissions for a COVID-like illness, or (b) a reduction in hospital capacity threatening surge capabilities (ICU capacity or medical/surgical beds under 20%); or second, three consecutive days averaging greater than or equal to an 8% positivity rate (7 day rolling average); and,

WHEREAS, the current spread of COVID-19 in the Metro East region, comprised of Bond, Clinton, Madison, Monroe, Randolph, St. Clair, and Washington Counties, has triggered the second of these scenarios as the region has averaged greater than or equal to an 8% COVID-19 positivity rate (7 day rolling average) for three consecutive days; and,

WHEREAS, the Department of Public Health has consulted with local public health departments and leaders in the Metro East region to determine appropriate public health mitigation strategies for the specific challenges the region is facing in attempting to prevent the further spread of COVID-19;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, and pursuant to Sections 7(1), 7(8), 7(9), and 7(12) of the
Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers set forth in the State’s public health laws, I hereby order the following, effective August 18, 2020 at 5:00 pm:

Section 1. The following public health restrictions and mitigations are instituted for the Metro East region, comprised of Bond, Clinton, Madison, Monroe, Randolph, St. Clair, and Washington Counties:

a. Mitigation for restaurants and bars. Restaurants and bars in the region are subject to these restrictions and mitigation measures, which supplement the Phase 4 guidance from the Department of Commerce and Economic Opportunity for Indoor and Outdoor Dining:

   4. Each party must have a reservation, even if made on-site, so that the restaurant or bar has contact information to reach every party for contact tracing if needed.

b. Mitigation for meetings and social events. Meetings and social events in the region are subject to these restrictions and mitigation measures, which supplement the Phase 4 guidance from the Department of Commerce and Economic Opportunity for Meetings and Social Events:
   1. Meetings and social events are limited to the lesser of 25 people or 25% of overall room capacity.
   2. Attendance lists must be kept for contact

1. Gaming venues and casinos must close, and gaming terminals must stop operating, at 11:00 p.m.

2. Gaming venues and casinos are limited to 25% capacity.

d. Mitigation for all workplaces. Businesses and establishments shall institute remote work for high-risk individuals, and shall evaluate whether additional workers can telework. This Executive Order encourages remote work for as many workers as possible.

Section 2. This Executive Order supplements the Community Revitalization Order (Executive Order 2020-43), which remains in effect other than when its terms are inconsistent with those expressly set forth in Section 1 above. The additional requirements of the Community Revitalization Order, including the requirements relating to social distancing and wearing face coverings, remain in place. The exemptions set forth in Section 4 of the Community Revitalization Order apply to this Executive Order.

WHEREAS, for the preservation of public health and safety throughout the State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I have found it necessary to take additional measures consistent with public health guidance to slow and stop the spread of COVID-19; and,

WHEREAS, on August 21, 2020, considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, working with experts in the Department of Public Health, I put forward a deliberate plan that utilizes layers of mitigation steps to combat a resurgence of COVID-19 and prevent uncontrollable spread; and,

WHEREAS, that plan described two scenarios that would cause the State to institute more restrictive public health measures and impose additional mitigations in a region: first, a sustained increase in the 7-day rolling average (7 out of 10 days) in the positivity rate, coupled with either (a) a sustained 7-day increase in hospital admissions for a COVID-like illness, or (b) a reduction in hospital capacity threatening surge capabilities (ICU capacity or medical/surgical beds under 20%); or second, three consecutive days averaging greater than or equal to an 8% positivity rate
WHEREAS, the spread of COVID-19 in Region 4, comprised of Bond, Clinton, Madison, Monroe, Randolph, St. Clair, and Washington Counties, triggered the second of these scenarios as the region has averaged greater than or equal to an 8% COVID-19 positivity rate (7 day rolling average) for three consecutive days; and,

WHEREAS, despite mitigation steps put in place in Region 4 on August 18, 2020, through Executive Order 51, the region’s positivity rate has continued to increase and now is over 10%; and,

WHEREAS, the Department of Public Health has continued to consult with local public health departments and leaders in Region 4 to determine appropriate further public health mitigation strategies for the specific challenges the region is facing in attempting to prevent the further spread of COVID-19;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, and pursuant to Sections 7(1), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers set forth in the State’s public health laws, I hereby order the following, effective September 2, 2020 at 5:00 pm:

Section 1. The following public health restrictions and mitigations are instituted for Region 4, comprised of Bond, Clinton, Madison, Monroe, Randolph, St. Clair, and Washington Counties:

a. Mitigation for restaurants and bars. Restaurants and bars in the region are subject to these restrictions and mitigation measures, which supplement the Phase 4 guidance from the Department of Commerce and Economic Opportunity for Indoor and Outdoor Dining:

1. All restaurants and bars in the region must close at 11:00 p.m., and must remain closed until at least 6:00 a.m. the following day.
2. All restaurants and bars in the region must suspend indoor on-premises consumption.
3. All customers eating or drinking on premises must be seated at outdoor tables spaced at least six feet apart. Multiple parties may not be seated at a single table.
4. Customers who are not yet seated at a table must wait off premises and, when waiting, must not congregate in groups larger than the party with whom they are dining.
Standing, congregating, or dancing on premises is not permitted.
5. Each party must have a reservation, even if made on-site, so that the restaurant or bar has contact information to reach every party for contact tracing if needed.

b. Mitigation for meetings and social events. Meetings and social events in the region are subject to these restrictions and mitigation measures, which supplement the Phase 4 guidance from the Department of Commerce and Economic Opportunity for Meetings and Social Events:
1. Meetings and social events are limited to the lesser of 25 people or 25% of overall room capacity.
2. Attendance lists must be kept for contact tracing.
3. Party buses are not permitted.

C. Mitigation for gaming and casinos. Gaming and casinos in the region are subject to these restrictions and mitigation measures:
1. Gaming venues and casinos must close, and gaming terminals must stop operating, between 11:00 p.m. and 6:00 a.m. the following day.
2. Gaming venues and casinos are limited to 25% capacity.
3. Gaming venues and casinos must follow the mitigation strategies for restaurants and bars for those portions of their facilities.

d. Mitigation for all workplaces. Businesses and establishments shall institute remote work for high risk individuals, and shall evaluate whether additional workers can telework. This Executive Order encourages remote work for as many workers as possible.

Section 2. This Executive Order supplements the Community Revitalization Order (Executive Order 2020-43), which remains in effect other than when its terms are inconsistent with those expressly set forth in Section 1 above. The additional requirements of the Community Revitalization Order, including the requirements
relating to social distancing and wearing face coverings, remain in place. The exemptions set forth in Section 4 of the Community Revitalization Order apply to this Executive Order.

Section 3. If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable.

WHEREAS, since early March 2020, Illinois has faced a pandemic that has caused extraordinary sickness and loss of life, infecting over 335,000 and growing, and taking the lives of thousands of residents; and,

WHEREAS, as Illinois adapts and responds to the public health disaster caused by Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness that spreads rapidly through respiratory transmissions and that continues to be without an effective treatment or vaccine, the burden on residents, healthcare providers, first responders, and governments throughout the State is unprecedented; and,

WHEREAS, at all times but especially during a public health crisis, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, public health research and guidance indicates the necessity and efficacy of wearing cloth face coverings in public settings where social distancing measures are difficult to maintain, and indicates that the risk of transmission outdoors is less than the risk of transmission indoors; and,

WHEREAS, public health guidance advises that minimizing physical interactions between people who do not reside in the same household is critical to slowing the spread of COVID-19; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a disaster throughout the State have changed and continue to change, making definitive predictions of the course the virus will take over the coming months extremely difficult; and,

WHEREAS, access to housing helps prevent spread of COVID-19 because individuals with housing are able to minimize physical contact with those outside their households; and,

WHEREAS, temporarily halting eviction proceedings avoids numerous interactions associated with being evicted, including with law
enforcement officers, courtroom personnel, landlords, movers, and friends
and family who agree to provide temporary housing, as well as, for those
who are forced into homelessness, the interactions associated with taking
refuge in a shelter; and,

WHEREAS, preventing spread by temporarily halting eviction
proceedings thus also prevents spread of COVID-19 in the broader
community; and,

WHEREAS, in addition to causing the tragic loss of more than
9,150 Illinoisans and wreaking havoc on the physical health of tens of
thousands more, COVID-19 has caused extensive economic loss and
continues to threaten the financial welfare of a significant number of
individuals and businesses across the nation and the State; and,

WHEREAS, on October 16, 2020, considering the expected
continuing spread of COVID-19 and the ongoing health and economic
impacts that that will be felt over the coming month by people across the
State, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, in response to the epidemic emergency and public
health emergency described above, I find it necessary to re-issue Executive
Orders 2020-03, 2020-04, 2020-07, 2020-08, 2020-09, 2020-11, 2020-12,

EXECUTIVE ORDER IN RESPONSE TO COVID-19 (COVID-19 EXECUTIVE ORDER NO. 56)

WHEREAS, Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness, has rapidly spread throughout Illinois and continues to necessitate updated and more stringent guidance from federal, state, and local public health officials and significant measures to respond to the increasing public health disaster; and,

WHEREAS, COVID-19 can spread among people through respiratory transmissions, asymptomatic people can transmit the virus, and there is currently no effective treatment or vaccine; and,
WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I have found it necessary to take additional measures consistent with public health guidance to slow and stop the spread of COVID-19; and,

WHEREAS, on October 16, 2020, considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that that will be felt over the coming month by people across the State, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, working with experts in the Department of Public Health, I put forward a deliberate plan that utilizes several layers of mitigation steps to combat a resurgence of COVID-19 and prevent uncontrollable spread; and,

WHEREAS, that plan described two scenarios that would cause the State to institute more restrictive public health measures and impose additional mitigations in a region: first, a sustained increase in the 7-day rolling average (7 out of 10 days) in the positivity rate, coupled with either (a) a sustained 7-day increase in hospital admissions for a COVID-like illness, or (b) a reduction in hospital capacity threatening surge capabilities (ICU capacity or medical/surgical beds under 20%); or second, three consecutive days averaging greater than or equal to an 8% positivity rate (7 day rolling average); and,

WHEREAS, the current spread of COVID-19 in Region 5, comprised of Marion, Jefferson, Wayne, Edwards, Wabash, Perry, Jackson, Franklin, Williamson, Saline, Hamilton, White, Gallatin, Union, Johnson, Pope, Hardin, Alexander, Massac, and Pulaski counties, has triggered the second of these scenarios as the region has averaged greater than or equal to an 8% COVID-19 positivity rate (7 day rolling average) for three consecutive days; and,

WHEREAS, the Department of Public Health has consulted with local public health departments and leaders in Region 5 to determine appropriate public health mitigation strategies for the specific challenges the region is facing in attempting to prevent the further spread of COVID-19;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, and pursuant to Sections 7(1), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers set forth in the State’s public health laws, I hereby order the following, effective October 22, 2020 at 12:01 a.m.:

   3. Gaming venues and casinos must follow the mitigation strategies for restaurants and bars for those portions of their facilities.

d. Mitigation for all workplaces. Businesses and establishments shall institute remote work for high risk individuals, and shall evaluate whether additional workers can telework. This Executive Order encourages remote work for as many workers as possible.

This Executive Order supplements the Community Revitalization Order (Executive Order 2020-43), which remains in effect other than when its terms are inconsistent with those expressly set forth in Section 1 above. The additional requirements of the Community Revitalization Order, including the requirements relating to social distancing and wearing face coverings, remain in place. The exemptions set forth in Section 4 of the Community Revitalization Order apply to this Executive Order.

EXECUTIVE ORDER IN RESPONSE TO COVID-19
(COVID-19 EXECUTIVE ORDER NO. 65)

WHEREAS, Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness, has rapidly spread throughout Illinois and continues to necessitate updated and more stringent guidance from federal, state, and local public health officials and significant measures to respond to the increasing public health disaster; and,
WHEREAS, COVID-19 can spread among people through respiratory transmissions, asymptomatic people can transmit the virus, and there is currently no effective treatment or vaccine; and,
WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I have found it necessary to take additional measures consistent with public health guidance to slow and stop the spread of COVID-19; and,
WHEREAS, on October 16, 2020, considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that that will be felt over the coming month by people across the State, I again declared all counties in the State of Illinois as a disaster area; and,
WHEREAS, working with experts in the Department of Public Health, I put forward a deliberate plan that utilizes several layers of mitigation steps to combat a resurgence of COVID-19 and prevent uncontrollable spread; and,
WHEREAS, that plan described two scenarios that would cause the State to institute more restrictive public health measures and impose additional mitigations in a region: first, a sustained increase in the 7-day rolling average (7 out of 10 days) in the positivity rate, coupled with either (a) a sustained 7-day increase in hospital admissions for a COVID-like illness, or (b) a reduction in hospital capacity threatening surge capabilities (ICU capacity or medical/surgical beds under 20%); or second, three consecutive days averaging greater than or equal to an 8% positivity rate (7 day rolling average); and,
WHEREAS, the current spread of COVID-19 in Region 2, comprised of Rock Island, Henry, Bureau, Putnam, Kendall, Grundy, Mercer, Knox, Henderson, Warren, McDonough, Fulton, Stark, Marshall, Peoria, Tazwell, McLean, Woodford, Livingston, and Lasalle counties, has triggered the second of these scenarios as the region has averaged greater than or equal to an 8% COVID-19 positivity rate (7 day rolling average) for three consecutive days; and,

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, and pursuant to Sections 7(1), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers set forth in the State’s public health laws, I hereby order the following, effective November 4, 2020 at 12:01 a.m.:

2020-72
EXECUTIVE ORDER IN RESPONSE TO COVID-19
(COVID-19 EXECUTIVE ORDER NO. 68)

WHEREAS, Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness, has rapidly spread throughout Illinois and continues to necessitate updated and more stringent guidance from federal, state, and local public health officials and significant measures to respond to the increasing public health disaster; and,

WHEREAS, COVID-19 can spread among people through respiratory transmissions, asymptomatic people can transmit the virus, and there is currently no effective treatment or vaccine; and,

WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I have found it necessary to take additional measures consistent with public health guidance to slow and stop the spread of COVID-19; and,

WHEREAS, COVID-19 has resulted in significant economic impact, including loss of income and wages, that threatens to undermine the financial security of many Illinoisans; and,
WHEREAS, residential eviction actions are governed by Article IX of the Illinois Code of Civil Procedure, 735 ILCS 5/9-101 et seq.; and,
WHEREAS, in the midst of the ongoing public health crisis, residential evictions are contrary to the interest of preserving public health by ensuring that individuals remain in their homes as much as possible; and,
WHEREAS, public health guidance advises that minimizing physical interactions between people who do not reside in the same household is critical to slowing the spread of COVID-19; and,
WHEREAS, access to housing helps prevent spread of COVID-19 because individuals with housing are able to minimize physical contact with those outside their households; and,
WHEREAS, temporarily halting eviction proceedings avoids numerous interactions associated with being evicted, including with law enforcement officers, courtroom personnel, landlords, movers, and friends and family who must agree to provide temporary housing, as well as, for those who are forced into homelessness, the interactions associated with seeking and taking refuge in a shelter; and,
WHEREAS, preventing spread by temporarily halting eviction proceedings thus also prevents spread of COVID-19 in the broader community; and,
WHEREAS, on March 20, 2020, I issued Executive Order 2020-10, in which I ordered all state, county, and local law enforcement officers to cease from enforcing eviction orders for residential properties; and,
WHEREAS, on April 23, 2020, I issued Executive Order 2020-30, in part, because the ongoing public health emergency required further action to prevent the commencement of residential eviction proceedings; and,
WHEREAS, on April 30, 2020, I issued Executive Order 2020-33, which amended Executive Order 2020-30, to continue the prohibition on enforcement of residential eviction actions; and,
WHEREAS, the prohibitions on commencement of residential eviction actions and the enforcement of residential eviction orders in Executive Order 2020-33 have been extended by subsequent Executive Orders; and,
WHEREAS, on November 13, 2020, considering the continuing, and, in fact, increasing spread of COVID-19 and the ongoing health and economic impacts that that will be felt over the coming month by people across the State, I declared all counties in the State of Illinois as a disaster area; and,
WHEREAS, the number of new COVID-19 cases in the State has surged over the past several weeks, and the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,

WHEREAS, the State and the Illinois Department of Public Health have developed a mitigation plan to trigger additional precautions when regions meet certain risk levels; and,

WHEREAS, as of November 13, 2020, all regions of the State have triggered these additional mitigation strategies; and,

WHEREAS, while the precautions taken by Illinoisans previously slowed the growth of COVID-19 cases and deaths in the State, the number of cases in the State is now again growing exponentially; and,

WHEREAS, recognizing the continued need for action to prevent the spread of COVID-19, this Executive Order extends the prohibition on the commencement and enforcement of evictions with additional safeguards intended to balance the rights of tenants and landlords throughout the State;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, pursuant to the Illinois Constitution and Sections 7(1), 7(2), 7(8), 7(10), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers set forth in the State’s public health laws, I hereby order the following, effective November 13, 2020:

Section 1. For purposes of this Executive Order, the following terms are defined as set forth below:

(a) “Covered Person” means any tenant, lessee, sub-lessee, or resident of a residential property who provides to their landlord, the owner of the residential property, or other person or entity with a legal right to pursue an eviction or possessory action, a Declaration under penalty of perjury indicating that:

1. the individual either (i) expects to earn no more than $99,000 in annual income for Calendar Year 2020 (or no more than $198,000 if filing a joint tax return), (ii) was not required to report any income in 2019 to the U.S. Internal Revenue Service, or (iii) received an Economic Impact Payment pursuant to Section 2001 of the CARES Act;
2. the individual is unable to make a full rent or housing payment due to a COVID-19 related hardship including, but not limited to, substantial loss of income, loss of compensable hours of work or wages, or an increase in out-of-pocket expenses directly related to the COVID-19 pandemic;
3. the individual is using best efforts to make timely partial payments that are as close to the full payment as the individual’s circumstances may permit, taking into account other Non-Discretionary Expenses; and
4. eviction would likely render the individual homeless—or force the individual to move into and live in close quarters in a new congregate or shared living setting—because the individual has no other available housing options.

(b) “Declaration” means the form declaration made available by the Illinois Housing Development Authority (or a similar declaration under penalty of perjury) that tenants, lessees, sub-lessees, or residents of residential properties who are covered by this Executive Order may use to invoke the protections of this Executive Order. Each landlord, owner of a residential property, or other person or entity with a legal right to pursue an eviction or possessory action must provide each tenant, lessee, sub-lessee, and resident with a Declaration prior to commencement of any residential eviction proceeding including, but not limited to, prior to the issuance of a notice of termination of tenancy.

(c) “Non-Discretionary Expenses” include, but are not limited to, food, utilities, phone and internet access, school supplies, cold-weather clothing, medical expenses, child care, and transportation costs, including car payments and insurance.

Section 2. A person or entity may not commence a residential eviction action pursuant to or arising under 735 ILCS 5/9-101 et seq. against a Covered Person unless that person poses a direct
threat to the health and safety of other tenants or an immediate and severe risk to property.

Section 3. All state, county, and local law enforcement officers in the State of Illinois are instructed to cease enforcement of orders of eviction for residential premises, unless the tenant, lessee, sublessee, or resident of the residential property has been found to pose a direct threat to the health and safety of other tenants or an immediate and severe risk to property.

Section 4. Nothing in this Executive Order shall be construed as relieving any individual of the obligation to pay rent or comply with any other obligation that an individual may have pursuant to a lease or rental agreement.

Section 5. 2020-73
EXECUTIVE ORDER 2020-73
(COVID-19 EXECUTIVE ORDER NO. 69)
TIER 3 MITIGATION ORDER

WHEREAS, since early March 2020, Illinois has faced a pandemic that has caused extraordinary sickness and loss of life, infecting over 600,000, and taking the lives of more than 11,000 residents; and,

WHEREAS, at all times but especially during a public health crisis, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, it is critical that Illinoisans who become sick have access to necessary care from medical professionals, including hospital beds, emergency room beds, or ventilators if needed; and,

WHEREAS, it is also critical that the State’s health care and first responder workforce has adequate personal protective equipment (PPE) to safely treat patients, respond to public health disasters, and prevent the spread of communicable diseases; and,
WHEREAS, as Illinois responds to the public health disaster caused by Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness that spreads rapidly through respiratory transmissions and that continues to be without an effective treatment or vaccine, the burden on residents, healthcare providers, first responders, and governments throughout the State is unprecedented; and,

WHEREAS, despite efforts to contain COVID-19, the virus has continued to spread rapidly, resulting in the ongoing need for federal and State governments to take significant steps; and,

WHEREAS, the CDC now advises that cloth face coverings or masks protect both the wearer and those around them from COVID-19; and,

WHEREAS, as a result, the CDC recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, public health research and guidance indicates that the risk of transmission outdoors is less than the risk of transmission indoors; and,

WHEREAS, public health guidance advises that minimizing physical interactions between people who do not reside in the same household is critical to slowing the spread of COVID-19; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a disaster throughout the State have changed and continue to change, making definitive predictions of the course the virus will take over the coming months extremely difficult; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, there were 11 confirmed cases of COVID-19 in one Illinois county; and,

WHEREAS, as of today, there have been over 600,000 confirmed cases of COVID-19 in all 102 Illinois counties; and,

WHEREAS, the first death attributed to COVID-19 in Illinois was announced on March 17, 2020; and,

WHEREAS, as of today, November 18, 2020, more than 11,000 residents of Illinois have died due to COVID-19; and,

WHEREAS, from the outset, studies have suggested that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals who can pass the virus to others without knowing; and,

WHEREAS, the number of new COVID-19 cases in the State has surged over the past several weeks, and the virus continues to infect
WHEREAS, the COVID-19 pandemic is not limited to the most populous counties, and as of today, counties in all regions of the State are demonstrating significant increased COVID-19 risk; and,

WHEREAS, without precautions COVID-19 can spread exponentially, even in less populous areas; for example, in Jasper County, a single infected first responder visited a nursing home and instigated series of infections that resulted in one of highest infection rates in the State; and similarly, in Randolph County, a single infected person attended an event in mid-March that caused that county likewise to suffer one of the State’s highest infection rates; and,

WHEREAS, numerous counties all around the State have reported more than 75 cases per 100,000 people over the past 7 days; and,

WHEREAS, the State and the Illinois Department of Public Health have developed a mitigation plan to trigger additional precautions when regions meet certain risk levels; and,

WHEREAS, as of today, all regions of the State have triggered these additional mitigation strategies; and,

WHEREAS, while the precautions taken by Illinoisans previously slowed the growth of COVID-19 cases and deaths in the State, the number of cases in the State is now again growing exponentially; and,

WHEREAS, COVID-19 has claimed the lives of and continues to impact the health of Black and Hispanic Illinoisans at a disproportionately high rate – magnifying significant health disparities and inequities; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State continues to develop and requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, hospitalizations now are rapidly rising again; and Illinois is using a significant percentage of hospital beds and ICU beds; and, if COVID-19 cases continue to surge, the State could face a shortage of critical health care resources; and,

WHEREAS, in addition to causing the tragic loss of more than 11,000 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,

WHEREAS, COVID-19 also has been extraordinarily disruptive to schools, and it is among the highest priorities of the State to ensure that
students are able to obtain a quality education and that schools are able to provide an environment that is safe for students, teachers, and the community; and,

WHEREAS, considering the rapid spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, on November 13, 2020, I declared that the circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, pursuant to the Illinois Constitution and Sections 7(1), 7(2), 7(3), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers in public health laws, I hereby order the following, effective at 12:01 a.m. on Friday, November 20:

Tier 3 Mitigation Order

1. **Intent of this Executive Order.** The intent of this Executive Order is to institute strict public health measures that are known to slow the spread of COVID-19 in order to stop the exponential growth of the virus throughout the State. We cannot risk overwhelming our healthcare system, and we must prioritize the health and lives of all Illinoisans, especially the most vulnerable among us. For that reason, this Executive Order aims to limit gatherings and encourages people to stay home to the greatest extent possible. At the same time, this Executive Order allows most industries to continue operating, although at significantly reduced levels, in order to minimize the disruption to our economy and to allow people to perform necessary tasks. The intent of this Executive Order is to effectuate those goals.

   This Executive Order supersedes Executive Order 2020-43. The Executive Orders imposing regional mitigation measures remain in place. Where prior guidance and these Tier 3 Mitigations imply different standards, the more restrictive standards apply.

2. **Public health requirements for individuals.** Individuals must take the following public health steps to protect their own and their neighbors’ health and lives:
   a. **Practice social distancing.** To the extent individuals are using shared spaces when outside their...
residence, including when outdoors, they must at all
times and as much as reasonably possible maintain
social distancing of at least six feet from any other
person who does not live with them.

b. Wear a face covering in public places or when
working.1 Any individual who is over age two and
able to medically tolerate a face covering (a mask or
cloth face covering) shall be required to cover their
nose and mouth with a face covering when in a
public place and unable to maintain a six-foot social
distance. This requirement applies whether in an
indoor space, such as a store, or in a public outdoor
space where maintaining a six-foot social distance is
not always possible.

c. Elderly people and those who are vulnerable as a
result of illness should take additional precautions.
People at high risk of severe illness from COVID-
19, including elderly people and those with a health
condition that may make them vulnerable, are urged
to stay in their residence and minimize in-person
contact with others to the extent possible.

d. Limit gatherings. Indoor gatherings of more than
one household are prohibited by this Executive
Order, unless exempted by this Executive Order.
Outdoor gatherings are limited to no more than ten
people. Nothing in this Executive Order prohibits
the gathering of members of a household or
residence. Because in-person contact presents the
greatest risk of transmission of COVID-19,
Illinoisans are encouraged to strictly limit in-person
contact with others. Gathering remotely continues to
be the safe way to interact with those outside a
household or residence.

e. Where possible, conduct activities outdoors. Public
health guidance suggests that the risks of

1 Throughout this Executive Order, any reference to a face covering requirement excludes
those two years old and younger and those for whom wearing a face covering is not medically
advisable. Guidance on use of face coverings from the Illinois Department of Human Rights
is available here:

transmission of COVID-19 are greatly reduced outdoors as opposed to indoors. Where possible, Illinoisans are encouraged to conduct their activities outdoors.

3. Public health requirements for businesses, nonprofits, and other organizations. For the purposes of this Executive Order, covered businesses include any for-profit, non-profit, or educational entity, regardless of the nature of the service (excluding instructional activities at K-12 institutions, colleges, or universities), the function it performs, or its corporate or entity structure. Those entities must take the following public health measures to protect their employees, their customers, and all others who come into physical contact with their operations:

a. Requirements for all businesses. All businesses must:
   • continue to evaluate which employees are able to work from home, and facilitate remote work from home when possible;
   • ensure that employees practice social distancing and wear face coverings when social distancing is not always possible;
   • ensure that all spaces where employees may gather, including locker rooms and lunchrooms, allow for social distancing; and
   • ensure that all visitors (customers, vendors, etc.) to the workplace can practice social distancing; but if maintaining a six-foot social distance will not be possible at all times, encourage visitors to wear face coverings;
   • cap occupancy at 25 percent capacity for customer-facing activity; and
   • prominently post the guidance from the Illinois Department of Public Health (IDPH) and Office of the Illinois Attorney General regarding workplace safety during the COVID-19 emergency.²

² This guidance is available at: https://www.dph.illinois.gov/sites/default/files/COVID-19_WorkplaceHealth_SafetyGuidance20200505.pdf
The Department of Commerce and Economic Opportunity (DCEO), in partnership with IDPH, has developed industry-specific guidance and toolkits to help businesses operate safely and responsibly. These documents are available at: https://dceocovid19resources.com/restore-illinois/restore-illinois-phase-4/. This Executive Order places additional restrictions on DCEO’s industry-specific guidance, and supersedes the DCEO guidance where there is a conflict.

b. Requirements for retail stores. Retail stores must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which include:
   • cap occupancy at 50 percent of store capacity for grocery stores and pharmacies;
   • cap occupancy at 25 percent of store capacity for other retail stores, including general merchandise stores, “big box” stores that sell groceries and/or include a pharmacy, and convenience stores;
   • provide face coverings to all employees; and
   • communicate with customers through in-store signage, and public service announcements and advertisements, about the social distancing and face covering requirements set forth in this Order.

c. Requirements for manufacturers. Manufacturers must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which include:
   • provide additional COVID-19 training for employees, even if previous training was provided;
   • coordinate with IDPH to implement testing protocols and contact tracing;
   • provide face coverings to all employees who are not able to maintain a minimum six-foot social distance at all times;
• ensure that all spaces where employees may gather, including locker rooms and lunchrooms, allow for social distancing;
• allow only manufacturing staff and key personnel in facilities, with non-production employees working remotely whenever possible;
• modify and downsize operations (staggering shifts, reducing line speeds, operating only essential lines, while shutting down non-essential lines) to the extent necessary to allow for social distancing and to provide a safe workplace in response to the COVID-19 emergency;
• review policies to ensure that workers are not encouraged or incentivized to report to work while sick or potentially contagious (this may include suspending attendance-based incentive pay and implementing temporary sick leave policies); and
• develop and implement safety protocols for employee travel vans to ensure appropriate spacing, require face coverings, temperature checks, air circulation, and vehicle sanitation.

d. Requirements for office buildings. Employers in office buildings must ensure all employees practice social distancing and must take appropriate additional public health precautions, in accordance with DCEO guidance, which may include:
• provide face coverings to all employees;
• cap occupancy at 50 percent of office capacity, and consider implementing stricter capacity limits where the physical space does not clearly allow for social distancing;
• allow telework where possible; and
• develop and prominently post plans and signage to ensure social distancing in shared spaces such as waiting rooms, service counters, and cafeterias.
e. Requirements for meetings and events. Indoor venues and meeting spaces such as meeting rooms, banquet centers, private party rooms, private clubs, country clubs, and party buses are prohibited from hosting gatherings of any size. Venues hosting funeral or visitation services are subject to IDPH guidance available at http://www.dph.illinois.gov/covid19/community-guidance/funeral-homes.

f. Requirements for restaurants and bars. All businesses that offer food or beverages for on-premises consumption—including restaurants, bars, grocery stores, and food halls—may not allow in-person indoor consumption. Such businesses continue to be permitted and encouraged to serve food and beverages so that they may be consumed off-premises, as permitted by law, through means such as in-house delivery, third-party delivery, drive-through, and curbside pick-up. Establishments offering food or beverages must ensure that they have an environment where patrons maintain adequate social distancing. All businesses covered in this section may permit outdoor on-premises food and beverage consumption in accordance with DCEO guidance and when permitted by local ordinances and regulations.

g. Requirements for hotels. Hotel room occupancy must be limited to registered guests only. Fitness centers must be closed unless operated only on a reservation model and with a 25 percent occupancy cap. Hotels may not host gatherings in their meeting and event spaces, per the requirements for meetings and events listed above. Hotel restaurants and bars are subject to the requirements for restaurants and bars described above, and may not allow consumption in the restaurant or bar area, but may offer food for take-out and room service.

h. Requirements for fitness and exercise gyms. Fitness and exercise gyms must cap occupancy at 25 percent, must require reservations (which may include walk-up reservations) to ensure capacity is
strictly limited, and may not conduct indoor group classes. Face coverings must be worn at all times within the fitness and exercise gym. Locker room areas must be closed except as permitted by DCEO guidance.

i. Requirements for personal services facilities. Personal services facilities such as spas, hair salons, barber shops, nail salons, waxing centers, tattoo parlors, and similar facilities may be open but must cap occupancy at no more than 25 percent. Personal services facilities must ensure the use of face coverings at all times, and must suspend services for which a face covering cannot be worn. Massage therapy and body treatments are allowed as deemed necessary by a medical provider, but appointments must be separated by a minimum of 15 minutes and facilities must take steps to sanitize and circulate clean air through service rooms before and after each service.

j. Requirements for recreation, youth day camps, and youth sports. This Executive Order prohibits indoor group sporting and recreational activities including youth and recreational sports (such as park district and travel leagues) and bowling. Outdoor sports and recreation are allowed in groups no larger than ten, but must ensure the use of face coverings, adherence to social distancing requirements, and must take other public health steps in accordance with DCEO guidance.

k. Requirements for places of public amusement. Places of indoor public amusement and indoor recreation (including but not limited to arcades, indoor driving ranges, museums and aquariums, theaters and performing arts, spectator events, and casinos and gaming), are prohibited from operating by this Executive Order. Outdoor recreational activities are capped at 25 percent occupancy, with adherence to face covering and social distancing requirements. Reservations are required for outdoor activities, and any groups for outdoor activities should be limited to no more than ten people.
l. Requirements for film production. Film production may operate with restrictions contained in DCEO guidance.

m. Minimum basic operations. All businesses may continue to:
   i. Perform necessary activities to maintain the value of the business’s inventory, preserve the condition of the business’s physical plant and equipment, ensure security, process payroll and employee benefits, or for related functions.
   ii. Perform necessary activities to facilitate employees of the business being able to continue to work remotely.
   iii. Fulfill online and telephonic retail orders through pick-up or delivery.

4. Exemptions.
   a. Free exercise of religion. This Executive Order does not limit the free exercise of religion. To protect the health and safety of faith leaders, staff, congregants and visitors, religious organizations and houses of worship are strongly encouraged to consult and follow the recommended practices and guidelines from the Illinois Department of Public Health. As set forth in the IDPH guidelines, the safest practices for religious organizations at this time are to provide services online, in a drive-in format, or outdoors (and consistent with social distancing requirements and guidance regarding wearing face coverings), and to limit services to 10 people. Religious organizations are strongly encouraged to take steps to ensure social distancing, the use of face coverings, and implementation of other public health measures.

   b. Emergency functions. All first responders, emergency management personnel, emergency dispatchers, court personnel, law enforcement and corrections personnel, hazardous materials

3 This guidance is available at: https://www.dph.illinois.gov/covid19/community-guidance/places-worship-guidance
responders, child protection and child welfare personnel, housing and shelter personnel, military, and other governmental employees working for or to support the emergency response are exempt from this Executive Order, but are encouraged to practice social distancing and take recommended public health measures.

c. Governmental functions. This Executive Order does not apply to the United States government and does not affect services provided by the State or any municipal, township, county, subdivision or agency of government and needed to ensure the continuing operation of the government agencies or to provide for or support the health, safety and welfare of the public.

d. Election-related functions. This Executive Order does not apply to activities related to the November 2020 General Election, including the December 14, 2020 meeting of Illinois Presidential Electors as part of the Electoral College. This Executive Order also does not apply to the December 2020 township caucuses and multi-township district caucus, see 60 ILCS 1/45, and municipal caucus, see 10 ILCS 5/10. Statewide public health-related procedures for the 2020 General Election should be followed for these caucuses as applicable. See Illinois Department of Public Health’s Guidance for Preventing the Spread of COVID-19 in Election Polling Locations, available at https://www.dph.illinois.gov/2020election. Nothing in this Executive Order prohibits caucuses from being held virtually, and caucus organizers are encouraged to facilitate virtual attendance, to convene outdoors, and must adhere to all Social Distancing Requirements.

5. Social Distancing, Face Covering, and PPE Requirements. For purposes of this Executive Order, social distancing includes maintaining at least six-foot distance from other individuals, washing hands with soap and water for at least twenty seconds as frequently as possible or using hand sanitizer, covering coughs or sneezes (into the sleeve or
elbow, not hands), regularly cleaning high-touch surfaces, and not shaking hands.

a. **Required measures.** Businesses must take proactive measures to ensure compliance with Social Distancing Requirements, including where possible:
   i. **Designate six-foot distances.** Designating with signage, tape, or by other means six-foot spacing for employees and customers to maintain appropriate distance;
   ii. **Hand sanitizer and sanitizing products.** Having hand sanitizer and sanitizing products readily available for employees and customers;
   iii. **Separate operating hours for vulnerable populations.** Implementing separate operating hours for elderly and vulnerable customers;
   iv. **Online and remote access.** Posting online whether a facility is open and how best to reach the facility and continue services by phone or remotely; and,
   v. **Face Coverings and PPE.** Providing employees with appropriate face coverings and requiring that employees wear face coverings where maintaining a six-foot social distance is not possible at all times. When the work circumstances require, providing employees with other PPE in addition to face coverings.

6. **Enforcement.** This Executive Order may be enforced by State and local law enforcement pursuant to, *inter alia*, Section 7, Section 15, Section 18, and Section 19 of the Illinois Emergency Management Agency Act, 20 ILCS 3305.

   Businesses must follow guidance provided or published by the Illinois Department of Commerce and Economic Opportunity regarding safety measures during Phase IV, and the Illinois Department of Public Health, local public health departments, and the Workplace Rights Bureau of the Office of the Illinois Attorney General with respect to Social Distancing Requirements. Pursuant to Section 25(b)
of the Whistleblower Act, 740 ILCS 174, businesses are prohibited from retaliating against an employee for disclosing information where the employee has reasonable cause to believe that the information discloses a violation of this Order.

7. No limitation on authority. Nothing in this Executive Order shall, in any way, alter or modify any existing legal authority allowing the State or any county, or local government body to order (1) any quarantine or isolation that may require an individual to remain inside a particular residential property or medical facility for a limited period of time, including the duration of this public health emergency, or (2) any closure of a specific location for a limited period of time, including the duration of this public health emergency. Nothing in this Executive Order shall be construed as an exercise of any authority to order any quarantine, isolation, or closure. Nothing in this Executive Order shall, in any way, alter or modify any existing legal authority allowing a county or local government body to enact provisions that are stricter than those in this Executive Order.

8. Savings clause. If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable. This Executive Order is meant to be read consistently with any Court order regarding this Executive Order.

Section 1. For purposes of this Executive Order, the following terms are defined as set forth below:

(a) “Covered Person” means any tenant, lessee, sublessee, or resident of a residential property who provides to their landlord, the owner of the residential property, or other person or entity with a legal right to pursue an eviction or possessory action, a Declaration under penalty of perjury indicating that:

1. the individual either (i) expects to earn no more than $99,000 in annual income for Calendar Year 2020 (or no more than $198,000 if filing a joint tax return), (ii) was not required to report any income in 2019 to the U.S. Internal Revenue Service, or (iii) received an Economic Impact Payment pursuant to Section 2001 of the CARES Act;

2. the individual is unable to make a full rent or housing payment due to a COVID-19 related hardship including, but not limited to, substantial loss of income, loss of compensable hours of work or wages, or an increase in out-of-pocket expenses directly related to the COVID-19 pandemic;

3. the individual is using best efforts to make timely partial payments that are as close to the full payment as the individual’s circumstances may permit, taking into account other Non-Discretionary Expenses; and

4. eviction would likely render the individual homeless—or force the individual to move into and live in close quarters in a new
congregate or shared living setting—because the individual has no other available housing options.

(b) “Declaration” means the form declaration made available by the Illinois Housing Development Authority (or a similar declaration under penalty of perjury) that tenants, lessees, sub-lessees, or residents of residential properties who are covered by this Executive Order may use to invoke the protections of this Executive Order. Each landlord, owner of a residential property, or other person or entity with a legal right to pursue an eviction or possessory action must provide each tenant, lessee, sub-lessee, and resident with a Declaration at least 5 days prior to commencement of any residential eviction proceeding including, but not limited to, at least 5 days prior to the issuance of a notice of termination of tenancy. Service of the Declaration must conform with the requirements of 735 ILCS 5/9-211.

(c) “Non-Discretionary Expenses” include, but are not limited to, food, utilities, phone and internet access, school supplies, cold-weather clothing, medical expenses, child care, and transportation costs, including car payments and insurance.

Section 7. A person or entity may not commence a residential eviction action pursuant to or arising under 735 ILCS 5/9-101 et seq. against a tenant who does not owe rent unless the tenant poses a direct threat to the health and safety of other tenants or an immediate and severe risk to property. A tenant shall not be required to provide a Declaration if they are covered by this section.

Executive Order 2020-73 (Tier 3 mitigations):
Executive Order 2020-73 is re-issued in its entirety and extended through January 9, 2021.

Part 2: Savings Clause. If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order, which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable.
2020-75
EXECUTIVE ORDER TO FACILITATE THE RETURN OF TRADES EMPLOYEES FROM EMPLOYMENT BY THE ILLINOIS DEPARTMENT OF CENTRAL MANAGEMENT SERVICES TO EMPLOYMENT BY THE ILLINOIS DEPARTMENT OF HUMAN SERVICES

WHEREAS, both the Illinois Department of Central Management Services ("CMS") and the Illinois Department of Human Services ("IDHS") believe that it is in the best interest of both departments and of the State to return the trades employees who work at IDHS facilities (State-Operated Psychiatric Hospitals and State-Operated Development Centers), but who function as CMS employees ("Trades Employees"), to IDHS as IDHS employees; and,

WHEREAS, both CMS and IDHS believe that it would be operationally and logistically beneficial, because these Trades Employees are currently the only non-IDHS employees on-site at IDHS, often creating unnecessary challenges and discrepancies between IDHS and CMS employees who are on-site at IDHS facilities; and,

WHEREAS, the Office of the Governor supports and agrees with CMS’s and IDHS’s assessment; and,

WHEREAS, Executive Orders 2003-10 and 2010-10 provided the basis for the original transfer of these employees to CMS, pursuant to an April 2011 Intergovernmental Agreement ("IGA"); and,

WHEREAS, Executive Order 2003-10 provided that, “The function of facilities management... for each agency, office, division, department, bureau, board and commission directly responsible to the Governor shall be consolidated under the jurisdiction of the Department of Central Management Services.” § I.A; and,

WHEREAS, Executive Order 2003-10 went on to state that, “In consultation with the appropriate staff in the Governor’s office and in the executive agencies, the Director of Central Management Services shall determine which facilities management... shall be transferred to the Department of Central Management Services.” § II.A; and,

WHEREAS, Executive Order 2003-10 was ultimately memorialized in statute, with a provision permitting, but not requiring, the Director of CMS to direct the transfer of these employees to CMS. This statute, 20 ILCS 405/405-415, states, in part:
Notwithstanding any other law to the contrary, the Director of Central Management Services may direct the transfer, to the Department of Central Management Services, of those facilities and facility management functions authorized to be transferred under Executive Order 10 (2003).

20 ILCS 405/405-415(a) (emphasis added); and,

WHEREAS, however, neither CMS nor IDHS acted upon either Executive Order 2003-10 or 20 ILCS 405/405-415 until after Executive Order 2010-10 was issued in July 2010; and,

WHEREAS, the applicable portions of Executive Order 2010-10 state, “All agencies shall consolidate their facilities management activities and staffs through intergovernmental agreements with CMS, or through other mechanisms as directed by the Director of GOMB, to provide centralized management and cost-saving.” Enforcement, § II; and,

WHEREAS, CMS and IDHS followed Executive Order 2010-10 by entering into the April 2011 IGA, transferring the employment of the Trades Employees located at IDHS facilities from IDHS to CMS; and,

WHEREAS, if Executive Orders 2003-10 and 2010-10 were rescinded, CMS and IDHS could terminate or supersede the April 2011 IGA with a succeeding IGA and return the Trades Employees to IDHS as IDHS employees; and,

WHEREAS, all other provisions of Executive Orders 2003-10 and 2010-10 have either been memorialized in statute or are now moot (e.g., the Fiscal Year 2011 requirements in Executive Order 2010-10), such that both Executive Orders can either be rescinded or superseded, in their entirety;

THEREFORE, I, JB Pritzker, Governor of Illinois, by virtue of the executive authority vested in me by Article V of the Constitution of the State of Illinois, hereby order the following:

I. Rescission of Executive Orders 2003-10 and 2010-10 in Order to Allow Return of Trades Employees from CMS to IDHS

The only provisions of Executive Orders 2003-10 and 2010-10 that are not either moot or memorialized in statute are the provisions relating to the transfer of the Trades Employees from IDHS to CMS. In order to return the Trades Employees from CMS to IDHS, Executive Orders 2003-10 and 2010-10 are rescinded in their entirety.

II. Savings Clause

This Executive Order does not contravene, and shall not be construed to contravene, any federal law or regulation, State statute
or regulation, or collective bargaining agreement. Nothing in this Executive Order shall affect or alter the existing statutory powers of any State agency or be construed as a reassignment or reorganization of any State agency.

III. Prior Executive Orders
This Executive Order supersedes any contrary provisions of any other prior Executive Order.

IV. Severability Clause
If any part of this Executive Order is found to be invalid by a court of competent jurisdiction the remaining provisions shall remain in full force and effect. The provisions of this Executive Order are severable.

V. Effective Date
The Executive Order shall take effect immediately upon its filing with the Secretary of State.
Issued by the Governor December 21, 2020.
Filed by the Secretary of State December 21, 2020.

DISASTER AREA - STATE OF ILLINOIS

WHEREAS, protecting the health and safety of Illinoisans is among the most important functions of State government; and,
WHEREAS, it is critical that Illinoisans who become sick are able to be treated by medical professionals, including when a hospital bed, emergency room bed, or ventilator is needed; and,
WHEREAS, it is also critical that the State’s health care and first responder workforce has adequate personal protective equipment (PPE) to safely treat patients, respond to public health disasters, and prevent the spread of communicable diseases; and,
WHEREAS, Coronavirus Disease 2019 (COVID-19) is a novel severe acute respiratory illness that has spread among people through respiratory transmissions, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,
WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has reported more than 3 million confirmed cases of COVID-19 and 200,000 deaths attributable to COVID-19 globally as of April 30, 2020; and,
WHEREAS, a vaccine or treatment is not currently available for COVID-19 and, on April 24, 2020, the World Health Organization warned that there is currently no evidence that people who have recovered from COVID-19 and have antibodies are protected from a second infection; and,
WHEREAS, despite efforts to contain COVID-19, the World Health Organization and the federal Centers for Disease Control and Prevention (CDC) indicated that the virus was expected to continue spreading and it has, in fact, continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,
WHEREAS, on March 9, 2020, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area in response to the outbreak of COVID-19 (First Gubernatorial Disaster Proclamation); and,
WHEREAS, on March 13, 2020, the President declared a nationwide emergency pursuant to Section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”), covering all states and territories, including Illinois; and,
WHEREAS, on March 26, 2020, the President declared a major
disaster in Illinois pursuant to Section 401 of the Stafford Act; and,
WHEREAS, on April 1, 2020, due to the exponential spread of
COVID-19 in Illinois, I again declared all counties in the State of Illinois as
a disaster area (Second Gubernatorial Disaster Proclamation); and,
WHEREAS, as circumstances surrounding COVID-19 rapidly
evolve, there have been frequent changes in information and guidance from
public health officials as a result of emerging evidence; and,
WHEREAS, from the outset, data suggested that older adults and
those with serious underlying health conditions are more likely to experience
severe and sometimes fatal complications from COVID-19; and,
WHEREAS, emerging evidence has shown that young people,
including infants and toddlers, are also at risk for such complications; and,
WHEREAS, as of March 16, 2020, an analysis by the CDC showed
that 38 percent of hospitalized COVID-19 patients were between the ages of
20 and 54, and there is evidence that COVID-19 causes blood clots and
strokes, and has caused deadly strokes in young and middle-aged patients
who exhibited few symptoms; and,
WHEREAS, the understanding on spread from infected individuals
who have not shown symptoms has changed and, on April 12, 2020, the CDC
changed the period of exposure risk from “onset of symptoms” to “48 hours
before symptom onset”; and,
WHEREAS, previously, the CDC recommended against wearing
cloth face coverings or masks as protection and, now, in light of new
research on asymptomatic and pre-symptomatic transmission, the CDC now
recommends wearing cloth face coverings in public settings where social
distancing measures are difficult to maintain; and,
WHEREAS, as COVID-19 has spread in Illinois over the course of
the Gubernatorial Disaster Proclamations, the circumstances causing a
disaster throughout the State have changed; and,
WHEREAS, at the time I issued the First Gubernatorial Disaster
Proclamation, there were 11 confirmed cases of COVID-19 in one Illinois
county; and,
WHEREAS, as of today, April 30, 2020, there have been nearly
53,000 confirmed cases of COVID-19 in 97 Illinois counties; and,
WHEREAS, the first death attributed to COVID-19 in Illinois was
announced on March 17, 2020; and,
WHEREAS, as of April 30, 2020, Illinois has had more than 2,350
deaths resulting from COVID-19, including 141 deaths reported over a 24-
hour period on April 30; and,
WHEREAS, studies suggest that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals, meaning that individuals can pass the virus to others without knowing; and,

WHEREAS, the Illinois Department of Public Health activated its Illinois Emergency Operations Plan and its Emergency Support Function 8 Plan to coordinate emergency response efforts by hospitals, local health departments, and emergency management systems in order to avoid a surge in hospital resources and capacity; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State has developed and now requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, in order to ensure that health care professionals, first responders, hospitals and other facilities are able to meet the health care needs of all residents of Illinois, the State must have critical supplies, including PPE, such as masks, face shields, gowns, and gloves; and,

WHEREAS, the State of Illinois maintains a stockpile that supports the existing PPE supply chains and stocks at various healthcare facilities; and, WHEREAS, across the State, hospitals and long-term care facilities use approximately 1.5 million N95 masks, 25 million gloves, 4.4 million gowns, and 700,000 surgical masks during a 10-day period; and,

WHEREAS, the State had distributed among all 102 Illinois counties millions of surgical masks and N95 masks, tens of thousands of gowns, millions of pairs of gloves, and hundreds of thousands of face shields from the State stockpile; and,

WHEREAS, the Illinois Department of Public Health has provided guidance to all hospitals and EMS providers recommending the immediate elevation of their conservation and contingency strategies as it relates to PPE; and,

WHEREAS, while the State is making every effort to procure additional PPE, if those procurement efforts are disrupted or Illinois experiences a surge in COVID-19 cases, the State faces a life-threatening shortage of respirators, masks, protective eyewear, face shields, gloves, gowns, and other protective equipment for health care workers and first responders; and,

WHEREAS, Illinois is using a high percentage of hospital beds, ICU beds, and ventilators as a result of the number of COVID-19 patients that require hospitalization and, if cases were to surge higher, the State would face a shortage of these critical health care resources; and,

WHEREAS, Illinois currently has a total of 32,010 hospital beds with 3,631 ICU beds, of which, as of April 30, 2020, only 33% of hospital beds
and 25% of ICU beds were available statewide, and only 17% of ICU beds were available in the Chicago region; and,

WHEREAS, the State worked with top researchers from the University of Illinois at Urbana-Champaign, the Northwestern School of Medicine, the University of Chicago, the Chicago and Illinois Departments of Public Health, along with McKinsey and Mier Consulting Group, and Civis Analytics, to analyze two months’ worth of daily data on COVID-19 deaths and ICU usage and model potential outcomes; and,

WHEREAS, the State’s modeling shows that its health care resource utilization will not peak until May, and that health care resources will continue to be limited after the peak; and,

WHEREAS, the State’s modeling shows that without extensive social distancing and other precautions, the State will not have sufficient hospital beds, ICU beds or ventilators; and,

WHEREAS, Illinois currently has a total of 32,010 hospital beds, and the State’s modeling shows that without a “stay at home” order, more than 100,000 hospital beds would be necessary; and,

WHEREAS, Illinois currently has a total of 3,631 ICU beds, and the State’s modeling shows that without a “stay at home” order, more than 25,000 ICU beds would be necessary; and,

WHEREAS, Illinois currently has a total of 3,378 ventilators, and the State’s modeling shows that without a “stay at home” order, upwards of 20,000 ventilators would be necessary; and,

WHEREAS, the State’s modeling shows that without a “stay at home” order, the number of deaths from COVID-19 would be between 10 to 20 times higher than with a “stay at home” order in place; and,

WHEREAS, the epidemiology concept of $R_0$ (R-naught) – which represents the number of cases, on average, an infected person will cause during their infectious period – is an important measure of progress in combatting a virus like COVID-19, and that an Ro of below 1 is a critical milestone because it suggests that the disease is declining rather than spreading; and,

WHEREAS, the State’s estimated effective $R_0$ was approximately 3.5 at the beginning of the outbreak, but the number has improved to approximately 1.25 based on the State’s emergency measures, including the “stay at home” order; and,

WHEREAS, hospital beds, ICU beds, and ventilators are needed not for just patients with COVID-19, but also for any number of additional illnesses and injuries; and,

WHEREAS, fewer Illinoisans have sought non-COVID-19 related medical care and emergency care in recent weeks and it is critical that
Illinoisans are able to and willing to seek non-COVID-19 related medical care and emergency care; and,  
WHEREAS, Illinoisans will be able to and willing to seek non-COVID-19 related medical care and emergency care if there are sufficient hospital beds, ventilators, and if medical personnel are able to protect themselves with PPE; and,  
WHEREAS, the State has been limited in the number of COVID-19 tests that can be taken and processed due to a limited number of testing sites and labs, as well as a shortage of necessary supplies, including the swabs needed to take samples; and,  
WHEREAS, at the time I issued the First Gubernatorial Disaster Proclamation, Illinois had capacity to test no more than a few hundred people per day for COVID-19 at a small number of testing sites; and,  
WHEREAS, the State has developed testing sites throughout the State and now has increased the COVID-19 tests per day to more than 10,000; and,  
WHEREAS, as of April 30, 2020, Illinois has tested nearly 270,000 total specimens for COVID-19; and,  
WHEREAS, national projections adjusted for Illinois’ population suggest the state may need to process several thousand more tests per day as part of the effort to permanently slow and reduce the spread of COVID-19; and,  
WHEREAS, the World Health Organization has identified a positive test rate of 10% as a benchmark for adequate testing but currently over 20% of the COVID-19 tests administered in Illinois have positive results, suggesting that Illinois must continue increasing testing; and,  
WHEREAS, based on the foregoing facts, and considering the expected continuing spread of COVID-19 and the resulting health impacts that will be felt over the coming month by people across the State, the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,  
WHEREAS, based on the foregoing, the new circumstances surrounding the threatened shortages of hospital beds, ICU beds, ventilators, and PPE, and critical need for increased COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,  
WHEREAS, it is the policy of the State of Illinois that the State will be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional State resources available to ensure that that our healthcare delivery system is capable of serving those who are sick and that Illinoisans remain safe and secure and able to obtain medical care; and,
WHEREAS, this proclamation will assist Illinois agencies in coordinating State and Federal resources, including materials needed to test for COVID-19, personal protective equipment, and medicines, in an effort to support the State responses as well as the responses of local governments to the present public health emergency; and,

WHEREAS, these conditions provide legal justification under Section 7 of the Illinois Emergency Management Agency Act for the new issuance of a proclamation of disaster; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people”;

WHEREAS, on April 1, 2020, due to the exponential spread of COVID-19 in Illinois, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on April 30, 2020, due to the continued spread of COVID-19 in Illinois, the threatened shortages of hospital beds, ER beds, and ventilators, and the inadequate testing capacity, I again declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, as circumstances surrounding COVID-19 rapidly evolve and new evidence emerges, there have been frequent changes in information and public health guidance; and,

WHEREAS, the unprecedented nature of COVID-19, including the variety of health effects it has on not just the respiratory system but the heart, brain, kidneys, and the body’s immune response, has made the virus’s effects and its path difficult to predict; and,

WHEREAS, from the outset, data suggested that older adults and those with serious underlying health conditions are more likely to experience severe and sometimes fatal complications from COVID-19; and,

WHEREAS, emerging evidence has shown that young people, including infants and toddlers, are also at risk of such complications; and,

WHEREAS, young and middle-aged people have comprised a significant proportion of hospitalized COVID-19 patients, and there is evidence that COVID-19 causes blood clots and strokes, and has caused deadly strokes in young and middle-aged people who exhibited few symptoms; and,

WHEREAS, the understanding of spread from infected individuals who have not shown symptoms has changed and, on April 12, 2020, the CDC changed the period of exposure risk from “onset of symptoms” to “48 hours before symptom onset”; and,

WHEREAS, some people infected by the virus remain asymptomatic but nonetheless may spread it to others; and,

WHEREAS, although the CDC initially recommended against wearing cloth face coverings or masks as protection, as a result of emerging research on asymptomatic and pre-symptomatic transmission, the CDC has revised its conclusions and recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a
disaster throughout the State have changed and continue to change, making
definitive predictions of the course the virus will take over the coming
months extremely difficult; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster
Proclamation, there were 11 confirmed cases of COVID-19 in one Illinois
county; and,

WHEREAS, as of today, May 29, 2020, there have been over 115,000
confirmed cases of COVID-19 in 100 Illinois counties; and,

WHEREAS, the first death attributed to COVID-19 in Illinois was
announced on March 17, 2020; and,

WHEREAS, as of today, May 29, 2020, Illinois has had more than
5,180 deaths resulting from COVID-19, and many days, more than 100
Illinoisans lose their lives to the virus; and,

WHEREAS, studies suggest that for every confirmed case there are
many more unknown cases, some of which are asymptomatic individuals
who can pass the virus to others without knowing; and,

WHEREAS, although the number of new COVID-19 cases has
stabilized and potentially begun to decrease in recent weeks, the virus
continues to infect thousands of individuals and claim the lives of too many
Illinoisans each day; and,

WHEREAS, COVID-19 has claimed the lives of and continues to
impact the health of Black and Hispanic Illinoisans at a disproportionately
high rate – magnifying significant health disparities and inequities; and,

WHEREAS, the Illinois Department of Public Health activated its
Illinois Emergency Operations Plan and its Emergency Support Function 8
Plan to coordinate emergency response efforts by hospitals, local health
departments, and emergency management systems in order to avoid a surge
in the use of hospital resources and capacity; and,

WHEREAS, as the virus has progressed through Illinois, the crisis
facing the State continues to develop and requires an evolving response to
ensure hospitals, health care professionals and first responders are able to
meet the health care needs of all Illinoisans and in a manner consistent with
CDC guidance that continues to be updated; and,

WHEREAS, in order to ensure that health care professionals, first
responders, hospitals and other facilities are able to meet the health care
needs of all residents of Illinois, the State must have critical supplies,
including PPE, such as masks, face shields, gowns, and gloves; and,

WHEREAS, the State of Illinois maintains a stockpile that supports
the existing PPE supply chains and stocks at various healthcare facilities;
and,

WHEREAS, while the State is making every effort to procure
additional PPE, if those procurement efforts are disrupted or Illinois
experiences a surge in COVID-19 cases, the State faces a life-threatening shortage of respirators, masks, protective eyewear, face shields, gloves, gowns, and other protective equipment for health care workers and first responders; and,

WHEREAS, while hospitalizations have very recently stabilized, Illinois is using a significant percentage of hospital beds, ICU beds, and ventilators to treat COVID-19 patients that require hospitalization and, if cases were to surge higher, the State could face a shortage of one or more of these critical health care resources; and,

WHEREAS, Illinois currently has a total of 33,662 hospital beds with 3,749 ICU beds, of which, only 34% of hospital beds and 34% of ICU beds currently are available statewide; and,

WHEREAS, the State worked with top researchers from the University of Illinois at Urbana-Champaign, the Northwestern School of Medicine, the University of Chicago, the Chicago and Illinois Departments of Public Health, along with McKinsey and Mier Consulting Group, and Civis Analytics, to analyze daily data on COVID-19 deaths and ICU usage and model potential outcomes; and,

WHEREAS, the State’s modeling showed that its health care resource utilization would peak in May, and that health care resources would continue to be limited after the peak; and updated modeling now shows that the peak may have been delayed, with the tail extending several more weeks; and,

WHEREAS, the State’s modeling continues to show that without extensive social distancing and other precautions, the State will face a shortage of hospital beds, ICU beds and/or ventilators; and,

WHEREAS, the epidemiology concept of $R_0$ (R-naught) – which represents the number of cases, on average, an infected person will cause during their infectious period – is an important measure of progress in combating a virus like COVID-19, and that an $R_0$ of below 1 is a critical milestone because it suggests that the disease is declining rather than spreading; and,

WHEREAS, the State’s estimated effective $R_0$ was approximately 3.5 at the beginning of the outbreak, but the number has improved to approximately 1.13 based on the State’s emergency measures, including, most importantly, the “stay at home” order; and,

WHEREAS, hospital beds, ICU beds, and ventilators are needed not for just patients with COVID-19, but also for any number of additional illnesses and injuries; and,

WHEREAS, fewer Illinoisans have sought non-COVID-19 related medical care and emergency care in recent weeks and it is critical for public health that Illinoisans are able to and willing to seek non-COVID-19 related medical care and emergency care; and,
WHEREAS, Illinoisans will be able to and willing to seek non-
COVID-19 related medical care and emergency care if there are sufficient
hospital beds, ventilators, and if medical personnel are able to protect
themselves with PPE; and,

WHEREAS, over the course of the COVID-19 crisis, the State has
been constrained in the number of COVID-19 tests that can be taken and
processed due to a limited number of testing sites and labs, as well as a
shortage of necessary supplies, including the swabs needed to take samples;
and,

WHEREAS, at the time I issued the first Gubernatorial Disaster
Proclamation, Illinois had capacity to test no more than a few hundred people
per day for COVID-19 at a small number of testing sites; and,

WHEREAS, the State has developed testing sites throughout Illinois
and now routinely exceeds 20,000 COVID-19 tests per day, and testing
capacity continues to increase; and,

WHEREAS, Illinois now has tested over 829,000 total specimens for
COVID-19; and,

WHEREAS, national projections adjusted for Illinois’ population
suggest the State must continue to increase the number of tests processed per
day as part of an effective effort to permanently slow and reduce the spread
of COVID-19; and,

WHEREAS, in addition to causing the tragic loss of 5,186 Illinoisans
and wreaking havoc on the physical health of tens of thousands more,
COVID-19 has caused extensive economic loss and continues to threaten the
financial welfare of a significant number of individuals and businesses across
the nation and the State; and,

WHEREAS, nationwide, 40 million people have filed unemployment
claims since the start of the pandemic – representing one in four U.S.
workers; and,

WHEREAS, the Illinois Department of Employment Security
announced that the State’s unemployment rate rose to 16.4% in April, with
762,000 jobs lost during that month; and,

WHEREAS, over 180,000 small businesses in Illinois have received
over $22 billion in COVID-19 related financial support through the federal
Paycheck Protection Program in an effort to prevent these businesses from
closing; and,

WHEREAS, the economic loss and insecurity caused by COVID-19
threatens the viability of business and the access to housing, medical care,
food, and other critical resources that impact the health and safety of
residents; and,

WHEREAS, based on the foregoing facts, and considering the
expected continuing spread of COVID-19 and the resulting health and
economic impacts that will be felt over the coming month by people across the State, the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, based on the foregoing, the continuing burden on hospital resources, the potential shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, it is the policy of the State of Illinois that the State will be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional State resources available to ensure that that our healthcare delivery system is capable of serving those who are sick and that Illinoisans remain safe and secure and able to obtain medical care; and,

WHEREAS, this proclamation will assist the State in facilitating economic recovery for individuals and businesses in an effort to prevent further devastating consequences from economic instability; and,

WHEREAS, this proclamation will assist Illinois agencies in coordinating State and Federal resources, including materials needed to test for COVID-19, personal protective equipment, and medicines, in an effort to support the State responses as well as the responses of local governments to the present public health emergency; and,

WHEREAS, these conditions provide legal justification under Section 7 of the Illinois Emergency Management Agency Act for the new issuance of a proclamation of disaster; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people”;

NOW, THEREFORE, in the interest of aiding the people of Illinois and the local governments responsible for ensuring public health and safety, I, JB Pritzker, Governor of the State of Illinois, hereby proclaim as follows:

Section 1. Pursuant to the provisions of Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, I find that a disaster exists within the State of Illinois and specifically declare all counties in the State of Illinois as a disaster area. The proclamation authorizes the exercise of all of the emergency powers provided in Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, including but not limited to those specific emergency powers set forth below.
Section 2. The Illinois Department of Public Health and the Illinois Emergency Management Agency are directed to coordinate with each other with respect to planning for and responding to the present public health emergency.

Section 3. The Illinois Department of Public Health is further directed to cooperate with the Governor, other State agencies and local authorities, including local public health authorities, in the development and implementation of strategies and plans to protect the public health in connection with the present public health emergency.

Section 4. The Illinois Emergency Management Agency is directed to implement the State Emergency Operations Plan to coordinate State resources to support local governments in disaster response and recovery operations.

Section 5. To aid with emergency purchases necessary for response and other emergency powers as authorized by the Illinois Emergency Management Agency Act, the provisions of the Illinois Procurement Code that would in any way prevent, hinder or delay necessary action in coping with the disaster are suspended to the extent they are not required by federal law. If necessary, and in accordance with Section 7(1) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1), the Governor may take appropriate executive action to suspend additional statutes, orders, rules, and regulations.

Section 6. Pursuant to Section 7(3) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(3), this proclamation activates the Governor’s authority, as necessary, to transfer the direction, personnel or functions of State departments and agencies or units thereof for the purpose of performing or facilitating emergency response programs.

Section 7. The Illinois Department of Public Health, Illinois Department of Insurance and the Illinois Department of Healthcare and Family Services are directed to recommend, and, as appropriate, take necessary actions to ensure expanded access to testing for COVID-19 and that consumers do not face financial barriers in accessing diagnostic testing and treatment services for COVID-19.

Section 8. The Illinois State Board of Education is directed to recommend, and, as appropriate, take necessary actions to address any impact to learning associated with the present public health emergency and to alleviate any barriers to the use of remote learning during the effect of this proclamation that exist in the Illinois School Code, 105 ILCS 5/1-1 et. seq.

Section 9. All State agencies are directed to cooperate with the Governor, other State agencies and local authorities in the development and implementation of strategies and plans to cope with and recover from the economic impact of the present public health emergency.
Section 10. Pursuant to Section 7(14) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(14), increases in the selling price of goods or services, including medical supplies, protective equipment, medications and other commodities intended to assist in the prevention of or treatment and recovery of COVID-19, shall be prohibited in the State of Illinois while this proclamation is in effect.

Section 11. This proclamation can facilitate requests for federal emergency and/or disaster assistance if a complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and affected local governments.

Section 12. For purposes of Senate Bill 2135 (101st General Assembly), Article 15, section 15-5, amending the Open Meetings Act, new section 5 ILCS 120/7(e)(4), I find that the public health concerns at issue in this proclamation render in-person attendance of more than ten people at the regular meeting location not feasible.

Section 13. This proclamation shall be effective immediately and remain in effect for 30 days.

A DAY TO HONOR GEORGE FLOYD

WHEREAS, today George Floyd – a beloved father, son, friend, and Black man – who deserved to breathe and to live, but was denied those rights in a horrifying act of police brutality, will be laid to rest in his hometown of Houston; and,

WHEREAS, for too long and too often, being Black in America has been a death sentence – Floyd’s murder, along with those of Breonna Taylor, Ahmaud Arbery, and countless others whose memories we cannot allow time to erase, are a part of a violent history of police brutality and white supremacy; and,

WHEREAS, over the past week, tens of thousands of Black Americans – joined by allies of every race – have come together to express their grief, pain and rage at the lack of accountability and action despite centuries of injustice; and,

WHEREAS, these tragedies come before we have had the chance to grieve the loss of over 100,000 Americans from COVID-19, a disease that has caused yet another disproportionate burden on Black Americans due to longstanding health inequities borne on racial lines; and,

WHEREAS, to grieve and heal, we must acknowledge Illinois’ own troubled history of race relations, including but not limited to the 1908 Springfield Race Riot that would prove a seminal event in the founding of the NAACP, the East St. Louis Race Riot of 1917, Emmett Till’s 1955 open casket funeral in his home state of Illinois after his lynching in Mississippi, the Cairo Race Riot of 1967, and Laquan McDonald’s and Rekia Boyd’s 21st century deaths at the hands of Chicago police officers; and,

WHEREAS, we – as a state and as a country – must contend with the systemic racism that has been woven into the fabric of our nation since the first ship of enslaved Africans crossed the Atlantic; and,

WHEREAS, my administration is committed to rooting out the racism that permeates our society; this structural change requires consistent action, and it is the only way we will achieve true accountability for the stains of this nation’s past and create a just society where Black lives matter and are celebrated;

THEREFORE, we, JB PRITZKER, Governor of the State of Illinois, and JULIANA STRATTON, Lieutenant Governor of the State of Illinois, do hereby proclaim, Tuesday, June 9, 2020 as a day to honor George Floyd and the many like him who’ve suffered these vile, horrid acts, and to ask all Illinois residents to stand up and demand change and equality for our brothers and sisters.

JUNETEENTH IN ILLINOIS

WHEREAS, United States President Abraham Lincoln signed the Emancipation Proclamation on January 1st, 1863, ordering the freedom of all enslaved African Americans in territory held by the Confederacy; and,

WHEREAS, over 250,000 enslaved Black Americans remained in bondage in the State of Texas, as the war raged on and over 150,000 enslaved African Americans were forced into Texas as slave owners attempted to hide them from the Union; and,

WHEREAS, on June 19th, 1865, in Galveston, Texas, Union Major General Gordon Granger announced to Texans the end of the Civil War and the signing of the Emancipation Proclamation, legally freeing the last of the Confederacy’s enslaved people; and,

WHEREAS, June 19th, or Juneteenth, also known as Emancipation Day or Freedom Day, commemorates the Galveston announcement and has become a celebration of the freedom of our Black brothers and sisters and the social, economic, and cultural contributions they have made to these United States of America and Illinois; and,

WHEREAS, Juneteenth takes on an even greater significance as the United States contends with immense pain and grief over the murders of George Floyd, Breonna Taylor, Ahmaud Arbery, Dominique “Rem’mie” Fells, Trayvon Martin, Laquan McDonald, Rekia Boyd, and too many others who have been tragically killed, whether at the hands of police or private citizens acting as vigilantes, in a nation that for too long has refused to contend with its racist origins or modern iterations, leading hundreds of thousands of peaceful protestors across the country to take to the streets to call for justice and change; and,

WHEREAS, in the year 2020, white supremacist and white nationalist hate groups are on the rise around the world, and this very month a sitting United States Senator blocked the renewed Emmett Till Anti-Lynching Act from passage; and,

WHEREAS, the ongoing COVID-19 pandemic has disproportionately taken Black lives and caused economic disruption disproportionately in the Black community; and,

WHEREAS, the decades and centuries of systemic racism that have permeated every aspect of our national history must be actively dismantled – pairing protest and policy – through sustained economic investment in Black communities, genuine criminal justice reform, and a fundamentally reimagined vision of policing;
THEREFORE, I, Governor JB Pritzker, Governor of the State of Illinois, do hereby proclaim June 19th, 2020, as Juneteenth in Illinois, this date joining the ongoing COVID-19 disaster proclamation in being honored by all flags covered by the Illinois Flag Display Act flying at half-staff, and urge all Illinois residents to reflect on our history, our future, and the actions we can take, individually and collectively, to truly build ourselves into the equitable nation of our ideals – a land of freedom and opportunity for all.

PRIDE MONTH

WHEREAS, on June 28, 1969, the police raided the Stonewall Inn, a gay bar in Greenwich Village, New York City, spurring six days of protests, led by transgender women of color like Marsha P. Johnson and Sylvia Rivera, against police brutality and government-sanctioned discrimination of lesbian, gay, bisexual, transgender, and queer individuals; and,

WHEREAS, June is annually celebrated as Pride Month to commemorate the Stonewall Uprising, considered the catalyst of the modern LGBTQ+ rights movement, and to recognize the contributions that LGBTQ+ individuals have made to our society; and,

WHEREAS, this year’s Pride Month comes at a particularly complex moment in the LGBTQ+ rights movement – at the same time as we celebrate the United States Supreme Court’s historic ruling that helps protect LGBTQ+ workers across the nation from discrimination, hundreds of thousands of Americans, including many Black and LGBTQ+ people of color, are taking to the street to renew the struggle against police brutality, white supremacist vigilantism, and transphobia following the murders of Selena Reyes-Hernandez, Riah Milton, Dominique “Rem’mie” Fells, George Floyd, Breonna Taylor, Ahmaud Arbery, and too many others who have violently had their lives cut short; and,

WHEREAS, from day one, my administration has sought to protect LGBTQ+ individuals, including expanding HIV preventative care and treatment, funding gender-affirming surgeries, ensuring inclusive classrooms in which LGBTQ+ students are able to thrive and to see themselves reflected in the curriculum; and,

WHEREAS, Illinois is committed to becoming a national leader in equality and inclusion where people are not just tolerated but empowered to thrive, regardless of their sexual orientation or gender identity;
THEREFORE, I, JB Pritzker, Governor of the State of Illinois, do hereby proclaim June 2020 as Pride Month and urge all Illinoisans to reflect upon our history and envision our future and reaffirm our commitment to building a just and equitable society.

DISASTER AREA - STATE OF ILLINOIS

    WHEREAS, since early March 2020, Illinois has faced a pandemic that has caused extraordinary sickness and loss of life, infecting over 140,000 and growing, and taking the lives of thousands of residents; and,

    WHEREAS, at all times but especially during a public health crisis, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

    WHEREAS, it is critical that Illinoisans who become sick are able to be treated by medical professionals, including when a hospital bed, emergency room bed, or ventilator is needed; and,

    WHEREAS, it is also critical that the State’s health care and first responder workforce has adequate personal protective equipment (PPE) to safely treat patients, respond to public health disasters, and prevent the spread of communicable diseases; and,

    WHEREAS, as Illinois enters the fifth month of responding to the public health disaster caused by Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness that spreads rapidly through respiratory transmissions and that continues to be without an effective treatment or vaccine, the burden on residents, healthcare providers, first responders, and governments throughout the State is unprecedented; and,

    WHEREAS, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,

    WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has now reported more than 9 million confirmed cases of COVID-19 and 475,000 deaths attributable to COVID-19 globally; and,
WHEREAS, despite efforts to contain COVID-19, the World Health Organization and the federal Centers for Disease Control and Prevention (CDC) indicated that the virus was expected to continue spreading and it has, in fact, continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,

WHEREAS, on March 9, 2020, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area in response to the outbreak of COVID-19; and,

WHEREAS, on March 13, 2020, the President declared a nationwide emergency pursuant to Section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”), covering all states and territories, including Illinois; and,

WHEREAS, on March 26, 2020, the President declared a major disaster in Illinois pursuant to Section 401 of the Stafford Act; and,

WHEREAS, on April 1, 2020, due to the exponential spread of COVID-19 in Illinois, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on April 30, 2020, due to the continued spread of COVID-19 in Illinois, the threatened shortages of hospital beds, ER beds, and ventilators, and the inadequate testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on May 29, 2020, due to the continued spread of COVID-19 in Illinois, and the resulting health and economic impacts of the virus, and the need to increase testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, as circumstances surrounding COVID-19 rapidly evolve and new evidence emerges, there have been frequent changes in information and public health guidance; and,

WHEREAS, the unprecedented nature of COVID-19, including the health consequences it has on not just the respiratory system but the heart, brain, kidneys, and the body’s immune response, has made the virus’s effects and its path difficult to predict; and,

WHEREAS, from the outset, data suggested that older adults and those with serious underlying health conditions are more likely to experience severe and sometimes fatal complications from COVID-19; and,

WHEREAS, emerging evidence has shown that young people, including infants and toddlers, are also at risk of such complications; and,

WHEREAS, young and middle-aged people have comprised a significant proportion of hospitalized COVID-19 patients, and there is evidence that COVID-19 causes blood clots and strokes, and has caused deadly strokes in young and middle-aged people who exhibited few symptoms; and,
WHEREAS, the understanding of spread from infected individuals who have not shown symptoms has changed and, on April 12, 2020, the CDC changed the period of exposure risk from “onset of symptoms” to “48 hours before symptom onset”; and,

WHEREAS, some people infected by the virus remain asymptomatic but nonetheless may spread it to others; and,

WHEREAS, although the CDC initially recommended against wearing cloth face coverings or masks as protection, as a result of research on asymptomatic and pre-symptomatic transmission, the CDC revised its conclusions and recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, public health research and guidance increasingly supports wearing cloth face coverings in public settings where social distancing measures are difficult to maintain, and indicates that the risk of transmission outdoors is less than the risk of transmission indoors; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a disaster throughout the State have changed and continue to change, making definitive predictions of the course the virus will take over the coming months extremely difficult; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, there were 11 confirmed cases of COVID-19 in one Illinois county; and,

WHEREAS, as of today, June 26, 2020, there have been over 140,000 confirmed cases of COVID-19 in 101 Illinois counties; and,

WHEREAS, the first death attributed to COVID-19 in Illinois was announced on March 17, 2020; and,

WHEREAS, as of today, June 26, 2020, more than 6,800 residents of Illinois have died due to COVID-19; and,

WHEREAS, from the outset, studies have suggested that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals who can pass the virus to others without knowing; and,

WHEREAS, the CDC now estimates that for every reported case of COVID-19, there are 10 unreported infections, resulting in a number of total cases in the country that may be 10 times higher than currently reported; and,

WHEREAS, although the number of new COVID-19 cases has decreased in recent weeks, the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,

WHEREAS, while the precautions taken by Illinoisans have led to a steep decline in the number of COVID-19 cases and deaths in the State in recent weeks, other states that have resisted taking public health precautions
or that lifted those precautions earlier are now experiencing exponential
growth and record high numbers of cases; and,
WHEREAS, on June 25, 2020, the U.S. reported more than 40,000
new COVID-19 cases, a record number; and,
WHEREAS, public health experts have warned of a “second wave”
of COVID-19 cases; and,
WHEREAS, COVID-19 has claimed the lives of and continues to
impact the health of Black and Hispanic Illinoisans at a disproportionately
high rate – magnifying significant health disparities and inequities; and,
WHEREAS, the Illinois Department of Public Health activated its
Illinois Emergency Operations Plan and its Emergency Support Function 8
Plan to coordinate emergency response efforts by hospitals, local health
departments, and emergency management systems in order to avoid a surge
in the use of hospital resources and capacity; and,
WHEREAS, as the virus has progressed through Illinois, the crisis
facing the State continues to develop and requires an evolving response to
ensure hospitals, health care professionals and first responders are able to
meet the health care needs of all Illinoisans and in a manner consistent with
CDC guidance that continues to be updated; and,
WHEREAS, in order to ensure that health care professionals, first
responders, hospitals and other facilities are able to meet the health care
needs of all residents of Illinois, the State must have critical supplies,
including PPE, such as masks, face shields, gowns, and gloves; and,
WHEREAS, the State of Illinois maintains a stockpile that supports
the existing PPE supply chains and stocks at various healthcare facilities;
and, WHEREAS, while the State continues to make every effort to procure
PPE, if those procurement efforts are disrupted or Illinois experiences a surge
in COVID-19 cases, the State faces a life-threatening shortage of respirators,
face shields, gloves, gowns, and other protective equipment for health care workers and first responders; and,
WHEREAS, while hospitalizations have declined, Illinois is using a
significant percentage of hospital beds and ICU beds, and, if COVID-19
cases were to surge, the State could face a shortage of critical health care
resources; and,
WHEREAS, the State worked with top researchers from the
University of Illinois at Urbana-Champaign, the Northwestern School of
Medicine, the University of Chicago, the Chicago and Illinois Departments
of Public Health, along with McKinsey and Mier Consulting Group, and
Civis Analytics, to analyze daily data on COVID-19 deaths and ICU usage
and model potential outcomes; and,
WHEREAS, the State’s modeling shows the tail of the COVID-19 epi
curve extending several more weeks; and,
WHEREAS, the State’s modeling continues to show that without extensive social distancing and other precautions, the State will face a shortage of hospital beds, ICU beds and/or ventilators; and,

WHEREAS, over the course of the COVID-19 crisis, the State has been constrained in the number of COVID-19 tests that can be taken and processed due to a limited number of testing sites and labs, as well as a shortage of necessary supplies, including the swabs needed to take samples; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, Illinois had capacity to test no more than a few hundred people per day for COVID-19 at a small number of testing sites; and,

WHEREAS, the State has developed testing sites throughout Illinois and yesterday exceeded 30,000 tests in a single day, and testing capacity continues to increase; and,

WHEREAS, Illinois now has tested nearly 1.5 million total specimens for COVID-19; and,

WHEREAS, national projections adjusted for Illinois’ population suggest the State must continue to increase the number of tests processed per day as part of an effective effort to permanently slow and reduce the spread of COVID-19; and,

WHEREAS, in addition to causing the tragic loss of more than 6,800 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,

WHEREAS, nationwide, more than 47 million people have filed unemployment claims since the start of the pandemic – representing more than one in four U.S. workers; and,

WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate rose to 16.4% in April, with 762,000 jobs lost during that month; and,

WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate was 15.2% in May, and that major Illinois industries such as leisure and hospitality, transportation and utilities, and educational and health services had been particularly hard-hit during the March to May period; and,

WHEREAS, the Illinois Department of Employment Security is responding to the economic crisis in a number of ways, including through the Pandemic Unemployment Assistance program; and,

WHEREAS, over 180,000 small businesses in Illinois received over $22 billion in COVID-19 related financial support through the federal
Paycheck Protection Program in an effort to prevent these businesses from closing; and,

WHEREAS, the Department of Commerce and Economic Opportunity is working to address the economic crisis, including through assistance programs such as the Business Interruption Grants Program for businesses that experienced a limited ability to operate due to COVID-19 related closures; and,

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that directly impact the health and safety of residents; and,

WHEREAS, based on the foregoing facts, and considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, based on the foregoing, the continuing burden on hospital resources, the potential shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, it is the policy of the State of Illinois to be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional State resources available to ensure that our healthcare delivery system is capable of serving those who are sick and that Illinoisans remain safe and secure and able to obtain medical care; and,

WHEREAS, this proclamation will assist the State in facilitating economic recovery for individuals and businesses in an effort to prevent further devastating consequences from the economic instability COVID-19 has caused; and,

WHEREAS, this proclamation will assist Illinois agencies in coordinating State and Federal resources, including materials needed to test for COVID-19, personal protective equipment, and medicines, in an effort to support the State responses as well as the responses of local governments to the present public health emergency; and,

WHEREAS, these conditions provide legal justification under Section 7 of the Illinois Emergency Management Agency Act for the new issuance of a proclamation of disaster; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and
shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people”;

NOW, THEREFORE, in the interest of aiding the people of Illinois and the local governments responsible for ensuring public health and safety, I, JB Pritzker, Governor of the State of Illinois, hereby proclaim as follows:

Section 1. Pursuant to the provisions of Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, I find that a disaster exists within the State of Illinois and specifically declare all counties in the State of Illinois as a disaster area. The proclamation authorizes the exercise of all of the emergency powers provided in Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, including but not limited to those specific emergency powers set forth below.

Section 2. The Illinois Department of Public Health and the Illinois Emergency Management Agency are directed to coordinate with each other with respect to planning for and responding to the present public health emergency.

Section 3. The Illinois Department of Public Health is further directed to cooperate with the Governor, other State agencies and local authorities, including local public health authorities, in the development and implementation of strategies and plans to protect the public health in connection with the present public health emergency.

Section 4. The Illinois Emergency Management Agency is directed to implement the State Emergency Operations Plan to coordinate State resources to support local governments in disaster response and recovery operations.

Section 5. To aid with emergency purchases necessary for response and other emergency powers as authorized by the Illinois Emergency Management Agency Act, the provisions of the Illinois Procurement Code that would in any way prevent, hinder or delay necessary action in coping with the disaster are suspended to the extent they are not required by federal law. If necessary, and in accordance with Section 7(1) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1), the Governor may take appropriate executive action to suspend additional statutes, orders, rules, and regulations.

Section 6. Pursuant to Section 7(3) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(3), this proclamation activates the Governor’s authority, as necessary, to transfer the direction, personnel or functions of State departments and agencies or units thereof for the purpose of performing or facilitating emergency response programs.

Section 7. The Illinois Department of Public Health, Illinois Department of Insurance and the Illinois Department of Healthcare and
Family Services are directed to recommend, and, as appropriate, take necessary actions to ensure expanded access to testing for COVID-19 and that consumers do not face financial barriers in accessing diagnostic testing and treatment services for COVID-19.

Section 8. The Illinois State Board of Education is directed to recommend, and, as appropriate, take necessary actions to address any impact to learning associated with the present public health emergency and to alleviate any barriers to the use of remote learning during the effect of this proclamation that exist in the Illinois School Code, 105 ILCS 5/1-1 et. seq.

Section 9. All State agencies are directed to cooperate with the Governor, other State agencies and local authorities in the development and implementation of strategies and plans to cope with and recover from the economic impact of the present public health emergency.

Section 10. Pursuant to Section 7(14) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(14), increases in the selling price of goods or services, including medical supplies, protective equipment, medications and other commodities intended to assist in the prevention of or treatment and recovery of COVID-19, shall be prohibited in the State of Illinois while this proclamation is in effect.

Section 11. This proclamation can facilitate requests for federal emergency and/or disaster assistance if a complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and affected local governments.

Section 12. For purposes of Senate Bill 2135 (101st General Assembly), Article 15, section 15-5, amending the Open Meetings Act, new section 5 ILCS 120/7(e)(4), I find that the public health concerns at issue in this proclamation render in-person attendance of more than fifty people at the regular meeting location not feasible.

Section 13. This proclamation shall be effective immediately and remain in effect for 30 days.

WHEREAS, the State of Illinois maintains a stockpile that supports the existing PPE supply chains and stocks at various healthcare facilities; and, WHEREAS, while the State continues to make every effort to procure PPE, if those procurement efforts are disrupted or Illinois experiences a surge in COVID-19 cases, the State faces a life-threatening shortage of respirators, masks, protective eyewear, face shields, gloves, gowns, and other protective equipment for health care workers and first responders; and,

WHEREAS, while hospitalizations have declined, Illinois is using a significant percentage of hospital beds and ICU beds, and, if COVID-19 cases were to surge, the State could face a shortage of critical health care resources; and,

WHEREAS, over the course of the COVID-19 crisis, the State has been constrained in the number of COVID-19 tests that can be taken and processed due to a limited number of testing sites and labs, as well as a
shortage of necessary supplies, including the swabs needed to take samples; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, Illinois had capacity to test no more than a few hundred people per day for COVID-19 at a small number of testing sites; and,

WHEREAS, the State has developed testing sites throughout Illinois and now often exceeds 40,000 tests per day, and the State continues to focus efforts on increasing testing capacity; and,

WHEREAS, Illinois now has tested nearly 2.5 million total specimens for COVID-19; and,

WHEREAS, national projections adjusted for Illinois’ population suggest the State must continue to increase the number of tests processed per day as part of an effective effort to permanently slow and reduce the spread of COVID-19; and,

WHEREAS, in addition to causing the tragic loss of more than 7,300 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,

WHEREAS, nationwide, more than 50 million people have filed unemployment claims since the start of the pandemic – representing more than one in four U.S. workers; and,

WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate continues to be extremely high at 14.6% in July; and,

WHEREAS, the Illinois Department of Employment Security is responding to the economic crisis in a number of ways, including through the Pandemic Unemployment Assistance program; and,

WHEREAS, the Department of Commerce and Economic Opportunity is working to address the economic crisis, including through assistance programs such as the Business Interruption Grants Program for businesses that experienced a limited ability to operate due to COVID-19 related closures; and,

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that directly impact the health and safety of residents; and,

WHEREAS, COVID-19 also has been extraordinarily disruptive to schools, and it is among the highest priorities of the State to ensure as the new school year approaches that students are able to obtain a quality education and that schools are able to provide an environment that is safe for students, teachers, and the community; and,
WHEREAS, based on the foregoing facts, and considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, based on the foregoing, the continuing burden on hospital resources, the potential shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, it is the policy of the State of Illinois to be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional State resources available to ensure that that our healthcare delivery system is capable of serving those who are sick and that Illinoisans remain safe and secure and able to obtain medical care; and,

WHEREAS, this proclamation will assist the State in facilitating economic recovery for individuals and businesses in an effort to prevent further devastating consequences from the economic instability COVID-19 has caused; and,

WHEREAS, this proclamation will assist Illinois agencies in coordinating State and Federal resources, including materials needed to test for COVID-19, personal protective equipment, and medicines, in an effort to support the State responses as well as the responses of local governments to the present public health emergency; and,

WHEREAS, these conditions provide legal justification under Section 7 of the Illinois Emergency Management Agency Act for the new issuance of a proclamation of disaster; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people”;

NOW, THEREFORE, in the interest of aiding the people of Illinois and the local governments responsible for ensuring public health and safety, I, JB Pritzker, Governor of the State of Illinois, hereby proclaim as follows:

Section 1. Pursuant to the provisions of Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, I find that a disaster exists within the State of Illinois and specifically declare all counties in the State of Illinois as a disaster area. The proclamation authorizes the exercise of all of the emergency powers provided in Section 7 of the Illinois
Emergency Management Agency Act, 20 ILCS 3305/7, including but not limited to those specific emergency powers set forth below.

Section 2. The Illinois Department of Public Health and the Illinois Emergency Management Agency are directed to coordinate with each other with respect to planning for and responding to the present public health emergency.

Section 3. The Illinois Department of Public Health is further directed to cooperate with the Governor, other State agencies and local authorities, including local public health authorities, in the development and implementation of strategies and plans to protect the public health in connection with the present public health emergency.

Section 4. The Illinois Emergency Management Agency is directed to implement the State Emergency Operations Plan to coordinate State resources to support local governments in disaster response and recovery operations.

Section 5. To aid with emergency purchases necessary for response and other emergency powers as authorized by the Illinois Emergency Management Agency Act, the provisions of the Illinois Procurement Code that would in any way prevent, hinder or delay necessary action in coping with the disaster are suspended to the extent they are not required by federal law. If necessary, and in accordance with Section 7(1) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1), the Governor may take appropriate executive action to suspend additional statutes, orders, rules, and regulations.

Section 6. Pursuant to Section 7(3) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(3), this proclamation activates the Governor’s authority, as necessary, to transfer the direction, personnel or functions of State departments and agencies or units thereof for the purpose of performing or facilitating emergency response programs.

Section 7. The Illinois Department of Public Health, Illinois Department of Insurance and the Illinois Department of Healthcare and Family Services are directed to recommend, and, as appropriate, take necessary actions to ensure expanded access to testing for COVID-19 and that consumers do not face financial barriers in accessing diagnostic testing and treatment services for COVID-19.

Section 8. The Illinois State Board of Education is directed to recommend, and, as appropriate, take necessary actions to address any impact to learning associated with the present public health emergency and to alleviate any barriers to the use of remote learning during the effect of this proclamation that exist in the Illinois School Code, 105 ILCS 5/1-1 et. seq.

Section 9. All State agencies are directed to cooperate with the Governor, other State agencies and local authorities in the development and
implementation of strategies and plans to cope with and recover from the economic impact of the present public health emergency.

Section 10. Pursuant to Section 7(14) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(14), increases in the selling price of goods or services, including medical supplies, protective equipment, medications and other commodities intended to assist in the prevention of or treatment and recovery of COVID-19, shall be prohibited in the State of Illinois while this proclamation is in effect.

Section 11. This proclamation can facilitate requests for federal emergency and/or disaster assistance if a complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and affected local governments.

Section 12. For purposes of Senate Bill 2135 (101st General Assembly), Article 15, section 15-5, amending the Open Meetings Act, new section 5 ILCS 120/7(e)(4), I find that the public health concerns at issue in this proclamation render in-person attendance of more than fifty people at the regular meeting location not feasible.

Section 13. This proclamation shall be effective immediately and remain in effect for 30 days.

WHEREAS, since early March 2020, Illinois has faced a pandemic that has caused extraordinary sickness and loss of life, infecting over 215,000 and growing, and taking the lives of thousands of residents; and,

WHEREAS, at all times but especially during a public health crisis, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, it is critical that Illinoisans who become sick are able to be treated by medical professionals, including when a hospital bed, emergency room bed, or ventilator is needed; and,

WHEREAS, it is also critical that the State’s health care and first responder workforce has adequate personal protective equipment (PPE) to safely treat patients, respond to public health disasters, and prevent the spread of communicable diseases; and,

WHEREAS, as Illinois adapts and responds to the public health disaster caused by Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness that spreads rapidly through respiratory transmissions and that continues to be without an effective treatment or vaccine, the burden on residents, healthcare providers, first responders, and governments throughout the State is unprecedented; and,

WHEREAS, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,

WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has now reported more than 22.5 million confirmed cases of COVID-19 and 785,000 deaths attributable to COVID-19 globally; and,

WHEREAS, despite efforts to contain COVID-19, the World Health Organization and the federal Centers for Disease Control and Prevention (CDC) indicated that the virus was expected to continue spreading and it has, in fact, continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,

WHEREAS, on March 9, 2020, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area in response to the outbreak of COVID-19; and,

WHEREAS, on March 13, 2020, the President declared a nationwide emergency pursuant to Section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”), covering all states and territories, including Illinois; and,
WHEREAS, on March 26, 2020, the President declared a major disaster in Illinois pursuant to Section 401 of the Stafford Act; and,
WHEREAS, on April 1, 2020, due to the exponential spread of COVID-19 in Illinois, I declared all counties in the State of Illinois as a disaster area; and,
WHEREAS, on April 30, 2020, due to the continued spread of COVID-19 in Illinois, the threatened shortages of hospital beds, ER beds, and ventilators, and the inadequate testing capacity, I declared all counties in the State of Illinois as a disaster area; and,
WHEREAS, on May 29, 2020, due to the continued spread of COVID-19 in Illinois, and the resulting health and economic impacts of the virus, and the need to increase testing capacity, I declared all counties in the State of Illinois as a disaster area; and,
WHEREAS, on June 26, 2020, due to the further spread of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,
WHEREAS, on July 24, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,
WHEREAS, as circumstances surrounding COVID-19 rapidly evolve and new evidence emerges, there have been frequent changes in information and public health guidance; and,
WHEREAS, the unprecedented nature of COVID-19, including the health consequences it has on not just the respiratory system but the heart, brain, kidneys, and the body’s immune response, has made the virus’s effects and its path difficult to predict; and,
WHEREAS, from the outset, data suggested that older adults and those with serious underlying health conditions are more likely to experience severe and sometimes fatal complications from COVID-19; and,
WHEREAS, emerging evidence has shown that young people, including infants and toddlers, are also at risk of such complications; and,
WHEREAS, young and middle-aged people have comprised a significant proportion of new COVID-19 cases and hospitalized COVID-19 patients, and there is evidence that COVID-19 causes blood clots and strokes, and has caused deadly strokes in young and middle-aged people who exhibited few symptoms; and,
WHEREAS, the understanding of spread from infected individuals who have not shown symptoms has changed and, on April 12, 2020, the CDC
changed the period of exposure risk from “onset of symptoms” to “48 hours before symptom onset”; and,

WHEREAS, some people infected by the virus remain asymptomatic but nonetheless may spread it to others; and,

WHEREAS, although the CDC initially recommended against wearing cloth face coverings or masks as protection, as a result of research on asymptomatic and pre-symptomatic transmission, the CDC revised its conclusions and recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, public health research and guidance now indicates the necessity and efficacy of wearing cloth face coverings in public settings where social distancing measures are difficult to maintain, and indicates that the risk of transmission outdoors is less than the risk of transmission indoors; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a disaster throughout the State have changed and continue to change, making definitive predictions of the course the virus will take over the coming months extremely difficult; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, there were 11 confirmed cases of COVID-19 in one Illinois county; and,

WHEREAS, as of today, August 21, 2020, there have been over 215,000 confirmed cases of COVID-19 in all 102 Illinois counties; and,

WHEREAS, the first death attributed to COVID-19 in Illinois was announced on March 17, 2020; and,

WHEREAS, as of today, July 24, 2020, more than 7,850 residents of Illinois have died due to COVID-19; and,

WHEREAS, from the outset, studies have suggested that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals who can pass the virus to others without knowing; and,

WHEREAS, the CDC estimates that total cases of COVID-19 may be up to 13 times higher than currently reported for certain regions; and,

WHEREAS, while the number of new COVID-19 cases in the State is below its earlier peak, the number has been gradually rising over the past several weeks, and the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,

WHEREAS, the COVID-19 pandemic is not limited to the most populous counties, and as of today the twenty counties that the Illinois Department of Public Health has identified as exhibiting warning signs of increased COVID-19 risk (Bureau, Cass, Clay, Clinton, Franklin, Greene,
Grundy, Hancock, Henderson, Jefferson, Logan, Madison, Monroe, Moultrie, Randolph, St. Clair, Union, Whiteside, Will, and Williamson) are located in all parts of the State; and,

WHEREAS, without precautions COVID-19 can spread exponentially, even in less populous areas; for example, in Jasper County, a single infected first responder visited a nursing home and instigated series of infections that resulted in one of highest infection rates in the State; and similarly, in Randolph County, a single infected person attended an event in mid-March that caused that county likewise to suffer one of the State’s highest infection rates; and,

WHEREAS, numerous counties all around the State have reported more than 75 cases per 100,000 people over the past 7 days; and,

WHEREAS, the State and the Illinois Department of Public Health have developed a mitigation plan to trigger additional precautions when regions meet certain risk levels; and,

WHEREAS, while the precautions taken by Illinoisans led to a decline in the number of COVID-19 cases and deaths in the State, other states that have resisted taking public health precautions or that lifted those precautions earlier experienced exponential growth and record high numbers of cases; and,

WHEREAS, the U.S. has surpassed 5.5 million total cases and nearly 175,000 deaths; and,

WHEREAS, public health experts have warned of a “second wave” of COVID-19 cases; and,

WHEREAS, COVID-19 has claimed the lives of and continues to impact the health of Black and Hispanic Illinoisans at a disproportionately high rate – magnifying significant health disparities and inequities; and,

WHEREAS, the Illinois Department of Public Health activated its Illinois Emergency Operations Plan and its Emergency Support Function 8 Plan to coordinate emergency response efforts by hospitals, local health departments, and emergency management systems in order to avoid a surge in the use of hospital resources and capacity; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State continues to develop and requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, in order to ensure that health care professionals, first responders, hospitals and other facilities are able to meet the health care needs of all residents of Illinois, the State must have critical supplies, including PPE, such as masks, face shields, gowns, and gloves; and,
WHEREAS, the State of Illinois maintains a stockpile that supports the existing PPE supply chains and stocks at various healthcare facilities; and, WHEREAS, while the State continues to make every effort to procure PPE, if those procurement efforts are disrupted or Illinois experiences a surge in COVID-19 cases, the State faces a life-threatening shortage of respirators, masks, protective eyewear, face shields, gloves, gowns, and other protective equipment for health care workers and first responders; and,

WHEREAS, while hospitalizations declined from the peak and have stabilized, Illinois is using a significant percentage of hospital beds and ICU beds, and, if COVID-19 cases were to surge, the State could face a shortage of critical health care resources; and,

WHEREAS, over the course of the COVID-19 crisis, the State has been constrained in the number of COVID-19 tests that can be taken and processed due to a limited number of testing sites and labs, as well as a shortage of necessary supplies, including the swabs needed to take samples; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, Illinois had capacity to test no more than a few hundred people per day for COVID-19 at a small number of testing sites; and,

WHEREAS, the State has developed testing sites throughout Illinois and has exceeded 50,000 tests per day for the past three days, and the State continues to focus efforts on increasing testing capacity; and,

WHEREAS, Illinois now has tested nearly 3.6 million total specimens for COVID-19; and,

WHEREAS, national projections adjusted for Illinois’ population suggest the State must continue to increase the number of tests processed per day as part of an effective effort to permanently slow and reduce the spread of COVID-19; and,

WHEREAS, nationwide, more than 55 million people have filed unemployment claims since the start of the pandemic – representing more than one in four U.S. workers; and,

WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate continues to be extremely high at 11.3% in August; and,

WHEREAS, the Illinois Department of Employment Security is responding to the economic crisis in a number of ways, including through the Pandemic Unemployment Assistance program; and,
WHEREAS, the Department of Commerce and Economic Opportunity is working to address the economic crisis, including through assistance programs such as the Business Interruption Grants Program for businesses that experienced a limited ability to operate due to COVID-19 related closures; and,

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that directly impact the health and safety of residents; and,

WHEREAS, COVID-19 also has been extraordinarily disruptive to schools, and it is among the highest priorities of the State to ensure as the new school year approaches that students are able to obtain a quality education and that schools are able to provide an environment that is safe for students, teachers, and the community; and,

WHEREAS, based on the foregoing, the continuing burden on hospital resources, the potential shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, on April 1, 2020, due to the exponential spread of COVID-19 in Illinois, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on April 30, 2020, due to the continued spread of COVID-19 in Illinois, the threatened shortages of hospital beds, ER beds, and ventilators, and the inadequate testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on May 29, 2020, due to the continued spread of COVID-19 in Illinois, and the resulting health and economic impacts of the virus, and the need to increase testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on June 26, 2020, due to the further spread of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on July 24, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on August 21, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, as circumstances surrounding COVID-19 rapidly evolve and new evidence emerges, there have been frequent changes in information and public health guidance; and,

WHEREAS, the unprecedented nature of COVID-19, including the health consequences it has on not just the respiratory system but the heart, brain, kidneys, and the body’s immune response, has made the virus’s effects and its path difficult to predict; and,

WHEREAS, from the outset, data suggested that older adults and those with serious underlying health conditions are more likely to experience severe and sometimes fatal complications from COVID-19; and,

WHEREAS, emerging evidence has shown that young people, including infants and toddlers, are also at risk of such complications; and,

WHEREAS, young and middle-aged people have comprised a significant proportion of new COVID-19 cases and hospitalized COVID-19
patients, and there is evidence that COVID-19 causes blood clots and strokes, and has caused deadly strokes in young and middle-aged people who exhibited few symptoms; and,

WHEREAS, the understanding of spread from infected individuals who have not shown symptoms has changed and, on April 12, 2020, the CDC changed the period of exposure risk from “onset of symptoms” to “48 hours before symptom onset”; and,

WHEREAS, some people infected by the virus remain asymptomatic but nonetheless may spread it to others; and,

WHEREAS, although the CDC initially recommended against wearing cloth face coverings or masks as protection, as a result of research on asymptomatic and pre-symptomatic transmission, the CDC revised its conclusions and recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, public health research and guidance now indicates the necessity and efficacy of wearing cloth face coverings in public settings where social distancing measures are difficult to maintain, and indicates that the risk of transmission outdoors is less than the risk of transmission indoors; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a disaster throughout the State have changed and continue to change, making definitive predictions of the course the virus will take over the coming months extremely difficult; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, there were 11 confirmed cases of COVID-19 in one Illinois county; and,

WHEREAS, as of today, September 18, 2020, there have been over 270,000 confirmed cases of COVID-19 in all 102 Illinois counties; and,

WHEREAS, the first death attributed to COVID-19 in Illinois was announced on March 17, 2020; and,

WHEREAS, as of today, September 18, 2020, more than 8,400 residents of Illinois have died due to COVID-19; and,

WHEREAS, from the outset, studies have suggested that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals who can pass the virus to others without knowing; and,

WHEREAS, the CDC estimates that total cases of COVID-19 may be up to 13 times higher than currently reported for certain regions; and,

WHEREAS, while the number of new COVID-19 cases in the State is below its earlier peak, the number has remained too high over the past
several weeks, and the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,

WHEREAS, the COVID-19 pandemic is not limited to the most populous counties, and as of today the twenty-four counties that the Illinois Department of Public Health has identified as exhibiting warning signs of increased COVID-19 risk (Bond, Bureau, Cass, Clinton, Coles, Crawford, Cumberland, DeWitt, Edwards, Effingham, Greene, Jasper, Jo Daviess, Lawrence, Madison, Marion, Rock Island, St. Clair, Shelby, Washington, Wayne, Williamson, Wabash, and Union) are located in all parts of the State; and,

WHEREAS, without precautions COVID-19 can spread exponentially, even in less populous areas; for example, in Jasper County, a single infected first responder visited a nursing home and instigated series of infections that resulted in one of highest infection rates in the State; and similarly, in Randolph County, a single infected person attended an event in mid-March that caused that county likewise to suffer one of the State’s highest infection rates; and,

WHEREAS, numerous counties all around the State have reported more than 75 cases per 100,000 people over the past 7 days; and,

WHEREAS, the State and the Illinois Department of Public Health have developed a mitigation plan to trigger additional precautions when regions meet certain risk levels; and,

WHEREAS, while the precautions taken by Illinoisans led to a decline in the number of COVID-19 cases and deaths in the State, other states that have resisted taking public health precautions or that lifted those precautions earlier experienced exponential growth and record high numbers of cases; and,

WHEREAS, the U.S. has surpassed 6.6 million total cases and nearly 200,000 deaths; and,

WHEREAS, public health experts have warned of a “second wave” of COVID-19 cases; and,

WHEREAS, COVID-19 has claimed the lives of and continues to impact the health of Black and Hispanic Illinoisans at a disproportionately high rate – magnifying significant health disparities and inequities; and,

WHEREAS, the Illinois Department of Public Health activated its Illinois Emergency Operations Plan and its Emergency Support Function 8 Plan to coordinate emergency response efforts by hospitals, local health departments, and emergency management systems in order to avoid a surge in the use of hospital resources and capacity; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State continues to develop and requires an evolving response to ensure hospitals, health care professionals and first responders are able to
meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, in order to ensure that health care professionals, first responders, hospitals and other facilities are able to meet the health care needs of all residents of Illinois, the State must have critical supplies, including PPE, such as masks, face shields, gowns, and gloves; and,

WHEREAS, the State of Illinois maintains a stockpile that supports the existing PPE supply chains and stocks at various healthcare facilities; and,

WHEREAS, while the State continues to make every effort to procure PPE, if those procurement efforts are disrupted or Illinois experiences a surge in COVID-19 cases, the State faces a life-threatening shortage of respirators, masks, protective eyewear, face shields, gloves, gowns, and other protective equipment for health care workers and first responders; and,

WHEREAS, while hospitalizations declined from the peak and have stabilized, Illinois is using a significant percentage of hospital beds and ICU beds, and, if COVID-19 cases were to surge, the State could face a shortage of critical health care resources; and,

WHEREAS, over the course of the COVID-19 crisis, the State has been constrained in the number of COVID-19 tests that can be taken and processed due to a limited number of testing sites and labs, as well as a shortage of necessary supplies, including the swabs needed to take samples; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, Illinois had capacity to test no more than a few hundred people per day for COVID-19 at a small number of testing sites; and,

WHEREAS, the State has developed testing sites throughout Illinois and now routinely exceeds 50,000 tests per day, and the State continues to focus efforts on increasing testing capacity; and,

WHEREAS, Illinois now has tested nearly 5 million total specimens for COVID-19; and,

WHEREAS, national projections adjusted for Illinois’ population suggest the State must continue to increase the number of tests processed per day as part of an effective effort to permanently slow and reduce the spread of COVID-19; and,

WHEREAS, in addition to causing the tragic loss of more than 8,400 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,
WHEREAS, nationwide, more than 60 million people have filed unemployment claims since the start of the pandemic – representing more than one in four U.S. workers; and,

WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate continues to be extremely high at approximately 11 percent; and,

WHEREAS, the Illinois Department of Employment Security is responding to the economic crisis in a number of ways, including through the Pandemic Unemployment Assistance program; and,

WHEREAS, the Department of Commerce and Economic Opportunity is working to address the economic crisis, including through assistance programs such as the Business Interruption Grants Program for businesses that experienced a limited ability to operate due to COVID-19 related closures; and,

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that directly impact the health and safety of residents; and,

WHEREAS, COVID-19 also has been extraordinarily disruptive to schools, and it is among the highest priorities of the State to ensure as the new school year approaches that students are able to obtain a quality education and that schools are able to provide an environment that is safe for students, teachers, and the community; and,

WHEREAS, based on the foregoing facts, and considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, based on the foregoing, the continuing burden on hospital resources, the potential shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, it is the policy of the State of Illinois to be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional State resources available to ensure that our healthcare delivery system is capable of serving those who are sick and that Illinoisans remain safe and secure and able to obtain medical care; and,

WHEREAS, this proclamation will assist the State in facilitating economic recovery for individuals and businesses in an effort to prevent
further devastating consequences from the economic instability COVID-19 has caused; and,

WHEREAS, this proclamation will assist Illinois agencies in coordinating State and Federal resources, including materials needed to test for COVID-19, personal protective equipment, and medicines, in an effort to support the State responses as well as the responses of local governments to the present public health emergency; and,

WHEREAS, these conditions provide legal justification under Section 7 of the Illinois Emergency Management Agency Act for the new issuance of a proclamation of disaster; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people”;

NOW, THEREFORE, in the interest of aiding the people of Illinois and the local governments responsible for ensuring public health and safety, I, JB Pritzker, Governor of the State of Illinois, hereby proclaim as follows:

Section 1. Pursuant to the provisions of Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, I find that a disaster exists within the State of Illinois and specifically declare all counties in the State of Illinois as a disaster area. The proclamation authorizes the exercise of all of the emergency powers provided in Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, including but not limited to those specific emergency powers set forth below.

Section 2. The Illinois Department of Public Health and the Illinois Emergency Management Agency are directed to coordinate with each other with respect to planning for and responding to the present public health emergency.

Section 3. The Illinois Department of Public Health is further directed to cooperate with the Governor, other State agencies and local authorities, including local public health authorities, in the development and implementation of strategies and plans to protect the public health in connection with the present public health emergency.

Section 4. The Illinois Emergency Management Agency is directed to implement the State Emergency Operations Plan to coordinate State resources to support local governments in disaster response and recovery operations.

Section 5. To aid with emergency purchases necessary for response and other emergency powers as authorized by the Illinois Emergency Management Agency Act, the provisions of the Illinois Procurement Code that would in any way prevent, hinder or delay necessary action in coping
with the disaster are suspended to the extent they are not required by federal law. If necessary, and in accordance with Section 7(1) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1), the Governor may take appropriate executive action to suspend additional statutes, orders, rules, and regulations.

Section 6. Pursuant to Section 7(3) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(3), this proclamation activates the Governor’s authority, as necessary, to transfer the direction, personnel or functions of State departments and agencies or units thereof for the purpose of performing or facilitating emergency response programs.

Section 7. The Illinois Department of Public Health, Illinois Department of Insurance and the Illinois Department of Healthcare and Family Services are directed to recommend, and, as appropriate, take necessary actions to ensure expanded access to testing for COVID-19 and that consumers do not face financial barriers in accessing diagnostic testing and treatment services for COVID-19.

Section 8. The Illinois State Board of Education is directed to recommend, and, as appropriate, take necessary actions to address any impact to learning associated with the present public health emergency and to alleviate any barriers to the use of remote learning during the effect of this proclamation that exist in the Illinois School Code, 105 ILCS 5/1-1 et. seq.

Section 9. All State agencies are directed to cooperate with the Governor, other State agencies and local authorities in the development and implementation of strategies and plans to cope with and recover from the economic impact of the present public health emergency.

Section 10. Pursuant to Section 7(14) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(14), increases in the selling price of goods or services, including medical supplies, protective equipment, medications and other commodities intended to assist in the prevention of or treatment and recovery of COVID-19, shall be prohibited in the State of Illinois while this proclamation is in effect.

Section 11. This proclamation can facilitate requests for federal emergency and/or disaster assistance if a complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and affected local governments.

Section 12. For purposes of Senate Bill 2135 (101st General Assembly), Article 15, section 15-5, amending the Open Meetings Act, new section 5 ILCS 120/7(e)(4), I find that the public health concerns at issue in this proclamation render in-person attendance of more than fifty people at the regular meeting location not feasible.

Section 13. This proclamation shall be effective immediately and remain in effect for 30 days.

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that directly impact the health and safety of residents; and,

WHEREAS, access to housing helps prevent spread of COVID-19 because individuals with housing are able to minimize physical contact with those outside their households; and,

WHEREAS, temporarily halting eviction proceedings avoids numerous interactions associated with being evicted, including with law enforcement officers, courtroom personnel, landlords, movers, and friends and family who agree to provide temporary housing, as well as, for those
who are forced into homelessness, the interactions associated with taking refuge in a shelter; and,

WHEREAS, preventing spread by temporarily halting eviction proceedings thus also prevents spread of COVID-19 in the broader community; and,

WHEREAS, COVID-19 also has been extraordinarily disruptive to schools, and it is among the highest priorities of the State to ensure as the new school year approaches that students are able to obtain a quality education and that schools are able to provide an environment that is safe for students, teachers, and the community; and,

WHEREAS, based on the foregoing facts, and considering the expected continuing spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, based on the foregoing, the continuing burden on hospital resources, the ongoing potential that the State could face shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, it is the policy of the State of Illinois to be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional State resources available to ensure that that our healthcare delivery system is capable of serving those who are sick and that Illinoisans remain safe and secure and able to obtain medical care; and,

WHEREAS, this proclamation will assist the State in facilitating economic recovery for individuals and businesses in an effort to prevent further devastating consequences from the economic instability COVID-19 has caused; and,

WHEREAS, this proclamation will assist Illinois agencies in coordinating State and Federal resources, including materials needed to test for COVID-19, personal protective equipment, and medicines, in an effort to support the State responses as well as the responses of local governments to the present public health emergency; and,

WHEREAS, these conditions provide legal justification under Section 7 of the Illinois Emergency Management Agency Act for the new issuance of a proclamation of disaster; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the
Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people”;

NOW, THEREFORE, in the interest of aiding the people of Illinois and the local governments responsible for ensuring public health and safety, I, JB Pritzker, Governor of the State of Illinois, hereby proclaim as follows:

Section 1. Pursuant to the provisions of Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, I find that a disaster exists within the State of Illinois and specifically declare all counties in the State of Illinois as a disaster area. The proclamation authorizes the exercise of all of the emergency powers provided in Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, including but not limited to those specific emergency powers set forth below.

Section 2. The Illinois Department of Public Health and the Illinois Emergency Management Agency are directed to coordinate with each other with respect to planning for and responding to the present public health emergency.

Section 3. The Illinois Department of Public Health is further directed to cooperate with the Governor, other State agencies and local authorities, including local public health authorities, in the development and implementation of strategies and plans to protect the public health in connection with the present public health emergency.

Section 4. The Illinois Emergency Management Agency is directed to implement the State Emergency Operations Plan to coordinate State resources to support local governments in disaster response and recovery operations.

Section 5. To aid with emergency purchases necessary for response and other emergency powers as authorized by the Illinois Emergency Management Agency Act, the provisions of the Illinois Procurement Code that would in any way prevent, hinder or delay necessary action in coping with the disaster are suspended to the extent they are not required by federal law. If necessary, and in accordance with Section 7(1) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1), the Governor may take appropriate executive action to suspend additional statutes, orders, rules, and regulations.

Section 6. Pursuant to Section 7(3) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(3), this proclamation activates the Governor’s authority, as necessary, to transfer the direction, personnel or functions of State departments and agencies or units thereof for the purpose of performing or facilitating emergency response programs.

Section 7. The Illinois Department of Public Health, Illinois Department of Insurance and the Illinois Department of Healthcare and Family Services are directed to recommend, and, as appropriate, take
necessary actions to ensure expanded access to testing for COVID-19 and that consumers do not face financial barriers in accessing diagnostic testing and treatment services for COVID-19.

Section 8. The Illinois State Board of Education is directed to recommend, and, as appropriate, take necessary actions to address any impact to learning associated with the present public health emergency and to continue to alleviate any barriers to the use of remote learning during the effect of this proclamation that exist in the Illinois School Code, 105 ILCS 5/1-1 et. seq.

Section 9. All State agencies are directed to cooperate with the Governor, other State agencies and local authorities in the development and implementation of strategies and plans to cope with and recover from the economic impact of the present public health emergency.

Section 10. Pursuant to Section 7(14) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(14), increases in the selling price of goods or services, including medical supplies, protective equipment, medications and other commodities intended to assist in the prevention of or treatment and recovery of COVID-19, shall be prohibited in the State of Illinois while this proclamation is in effect.

Section 11. This proclamation can facilitate requests for federal emergency and/or disaster assistance if a complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and affected local governments.

Section 12. For purposes of Senate Bill 2135 (101st General Assembly), Article 15, section 15-5, amending the Open Meetings Act, new section 5 ILCS 120/7(e)(4), I find that the public health concerns at issue in this proclamation render in-person attendance of more than fifty people at the regular meeting location not feasible.

Section 13. This proclamation shall be effective immediately and remain in effect for 30 days.

Issued by the Governor October 16, 2020.

Filed by the Secretary of State October 16, 2020.

2020-64
DISASTER AREA - STATE OF ILLINOIS

WHEREAS, since early March 2020, Illinois has faced a pandemic that has caused extraordinary sickness and loss of life, infecting over 550,000, and taking the lives of more than 10,500 residents; and,

WHEREAS, at all times but especially during a public health crisis, protecting the health and safety of Illinoisans is among the most important functions of State government; and,
WHEREAS, it is critical that Illinoisans who become sick have access to necessary care from medical professionals, including hospital beds, emergency room beds, or ventilators if needed; and,

WHEREAS, it is also critical that the State’s health care and first responder workforce has adequate personal protective equipment (PPE) to safely treat patients, respond to public health disasters, and prevent the spread of communicable diseases; and,

WHEREAS, as Illinois adapts and responds to the public health disaster caused by Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness that spreads rapidly through respiratory transmissions and that continues to be without an effective treatment or vaccine, the burden on residents, healthcare providers, first responders, and governments throughout the State is unprecedented; and,

WHEREAS, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,

WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has now reported more than 52 million confirmed cases of COVID-19 and nearly 1.3 million deaths attributable to COVID-19 globally; and,

WHEREAS, despite efforts to contain COVID-19, the virus has continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,

WHEREAS, on March 9, 2020, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area in response to the outbreak of COVID-19; and,

WHEREAS, on March 13, 2020, the President declared a nationwide emergency pursuant to Section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”), covering all states and territories, including Illinois; and,

WHEREAS, on March 26, 2020, the President declared a major disaster in Illinois pursuant to Section 401 of the Stafford Act; and,

WHEREAS, on April 1, 2020, due to the exponential spread of COVID-19 in Illinois, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on April 30, 2020, due to the continued spread of COVID-19 in Illinois, the threatened shortages of hospital beds, ER beds, and ventilators, and the inadequate testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on May 29, 2020, due to the continued spread of COVID-19 in Illinois, and the resulting health and economic impacts of the
virus, and the need to increase testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on June 26, 2020, due to the further spread of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on July 24, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on August 21, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on September 18, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on October 16, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, as circumstances surrounding COVID-19 have evolved and new evidence emerges, there have been frequent changes in information and public health guidance; and,

WHEREAS, the unprecedented nature of COVID-19, including the health consequences it has on not just the respiratory system but the heart, brain, kidneys, and the body’s immune response, has made the virus’s effects and its path difficult to predict; and,

WHEREAS, from the outset, data suggested that older adults and those with serious underlying health conditions are more likely to experience severe and sometimes fatal complications from COVID-19; and,

WHEREAS, evidence has shown that young people, including infants and toddlers, are also at risk of such complications; and,

WHEREAS, young and middle-aged people have comprised a significant proportion of new COVID-19 cases and hospitalized COVID-19 patients, and there is evidence that COVID-19 causes blood clots and strokes,
and has caused deadly strokes in young and middle-aged people who exhibited few symptoms; and,

WHEREAS, the understanding of spread from infected individuals who have not shown symptoms has changed and, on April 12, 2020, the federal Centers for Disease Control and Prevention (CDC) changed the period of exposure risk from “onset of symptoms” to “48 hours before symptom onset”; and,

WHEREAS, some people infected by the virus remain asymptomatic but nonetheless may spread it to others; and,

WHEREAS, although the CDC initially recommended against wearing cloth face coverings or masks as protection, as a result of research on asymptomatic and pre-symptomatic transmission, the CDC revised its conclusions and recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, the CDC now advises that cloth face coverings or masks protect both the wearer and those around them from COVID-19; and,

WHEREAS, public health research and guidance now indicates the necessity and efficacy of wearing cloth face coverings in public settings where social distancing measures are difficult to maintain, and indicates that the risk of transmission outdoors is less than the risk of transmission indoors; and,

WHEREAS, public health guidance advises that minimizing physical interactions between people who do not reside in the same household is critical to slowing the spread of COVID-19; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a disaster throughout the State have changed and continue to change, making definitive predictions of the course the virus will take over the coming months extremely difficult; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, there were 11 confirmed cases of COVID-19 in one Illinois county; and,

WHEREAS, as of today, there have been over 550,000 confirmed cases of COVID-19 in all 102 Illinois counties; and,

WHEREAS, the first death attributed to COVID-19 in Illinois was announced on March 17, 2020; and,

WHEREAS, as of today, November 13, 2020, more than 10,500 residents of Illinois have died due to COVID-19; and,

WHEREAS, from the outset, studies have suggested that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals who can pass the virus to others without knowing; and,
WHEREAS, the CDC estimates that total cases of COVID-19 may be up to 13 times higher than currently reported for certain regions; and,

WHEREAS, the number of new COVID-19 cases in the State has surged over the past several weeks, and the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,

WHEREAS, the COVID-19 pandemic is not limited to the most populous counties, and as of today, counties in all regions of the State are demonstrating significant increased COVID-19 risk; and,

WHEREAS, without precautions COVID-19 can spread exponentially, even in less populous areas; for example, in Jasper County, a single infected first responder visited a nursing home and instigated series of infections that resulted in one of highest infection rates in the State; and similarly, in Randolph County, a single infected person attended an event in mid-March that caused that county likewise to suffer one of the State’s highest infection rates; and,

WHEREAS, numerous counties all around the State have reported more than 75 cases per 100,000 people over the past 7 days; and,

WHEREAS, the State and the Illinois Department of Public Health have developed a mitigation plan to trigger additional precautions when regions meet certain risk levels; and,

WHEREAS, as of today, all regions of the State have triggered these additional mitigation strategies; and,

WHEREAS, while the precautions taken by Illinoisans previously slowed the growth of COVID-19 cases and deaths in the State, the number of cases in the State is now again growing exponentially; and,

WHEREAS, the U.S. has surpassed 10.5 million total cases and more than 240,000 deaths; and,

WHEREAS, COVID-19 has claimed the lives of and continues to impact the health of Black and Hispanic Illinoisans at a disproportionately high rate – magnifying significant health disparities and inequities; and,

WHEREAS, the Illinois Department of Public Health activated its Illinois Emergency Operations Plan and its Emergency Support Function 8 Plan to coordinate emergency response efforts by hospitals, local health departments, and emergency management systems in order to avoid a surge in the use of hospital resources and capacity; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State continues to develop and requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,
WHEREAS, in order to ensure that health care professionals, first responders, hospitals and other facilities are able to meet the health care needs of all residents of Illinois, the State must have critical supplies, including PPE, such as masks, face shields, gowns, and gloves; and,

WHEREAS, the State of Illinois maintains a stockpile that supports the existing PPE supply chains and stocks at various healthcare facilities; and,

WHEREAS, while the State continues to make every effort to procure PPE, if those procurement efforts are disrupted or Illinois experiences a surge in COVID-19 cases, the State faces a life-threatening shortage of respirators, masks, protective eyewear, face shields, gloves, gowns, and other protective equipment for health care workers and first responders; and,

WHEREAS, hospitalizations now are rapidly rising again; and Illinois is using a significant percentage of hospital beds and ICU beds; and, if COVID-19 cases continue to surge, the State could face a shortage of critical health care resources; and,

WHEREAS, over the course of the COVID-19 crisis, the State has been constrained in the number of COVID-19 tests that can be taken and processed due to a limited number of testing sites and labs, as well as a shortage of necessary supplies, including the swabs needed to take samples; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, Illinois had capacity to test no more than a few hundred people per day for COVID-19 at a small number of testing sites; and,

WHEREAS, the State has developed testing sites throughout Illinois and recently has exceeded 100,000 tests per day, and the State continues to focus efforts on increasing testing capacity; and,

WHEREAS, Illinois now has tested more than 8.8 million total specimens for COVID-19; and,

WHEREAS, national projections adjusted for Illinois’ population suggest the State must continue to increase the number of tests processed per day as part of an effective effort to permanently slow and reduce the spread of COVID-19; and,

WHEREAS, in addition to causing the tragic loss of more than 10,500 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,

WHEREAS, nationwide, more than 60 million people have filed unemployment claims since the start of the pandemic – representing more than one in four U.S. workers; and,
WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate continues to be extremely high at above 10 percent; and,

WHEREAS, the Illinois Department of Employment Security is responding to the economic crisis in a number of ways, including through the Pandemic Unemployment Assistance program; and,

WHEREAS, the Department of Commerce and Economic Opportunity is working to address the economic crisis, including through assistance programs such as the Business Interruption Grants Program for businesses that experienced a limited ability to operate due to COVID-19 related closures; and,

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that directly impact the health and safety of residents; and,

WHEREAS, access to housing helps prevent spread of COVID-19 because individuals with housing are able to minimize physical contact with those outside their households; and,

WHEREAS, temporarily halting eviction proceedings avoids numerous interactions associated with being evicted, including with law enforcement officers, courtroom personnel, landlords, movers, and friends and family who agree to provide temporary housing, as well as, for those who are forced into homelessness, the interactions associated with taking refuge in a shelter; and,

WHEREAS, preventing spread by temporarily halting eviction proceedings thus also prevents spread of COVID-19 in the broader community; and,

WHEREAS, COVID-19 also has been extraordinarily disruptive to schools, and it is among the highest priorities of the State to ensure that students are able to obtain a quality education and that schools are able to provide an environment that is safe for students, teachers, and the community; and,

WHEREAS, based on the foregoing facts, and considering the rapid spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, based on the foregoing, the continuing burden on hospital resources, the ongoing potential that the State could face shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to continue to
expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, it is the policy of the State of Illinois to be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional State resources available to ensure that our healthcare delivery system is capable of serving those who are sick and that Illinoisans remain safe and secure and able to obtain medical care; and,

WHEREAS, this proclamation will assist the State in facilitating economic recovery for individuals and businesses in an effort to prevent further devastating consequences from the economic instability COVID-19 has caused; and,

WHEREAS, this proclamation will assist Illinois agencies in coordinating State and Federal resources, including materials needed to test for COVID-19, personal protective equipment, and medicines, in an effort to support the State responses as well as the responses of local governments to the present public health emergency; and,

WHEREAS, this conditions provide legal justification under Section 7 of the Illinois Emergency Management Agency Act for the new issuance of a proclamation of disaster; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people”;

implementation of strategies and plans to protect the public health in connection with the present public health emergency.

Section 4. The Illinois Emergency Management Agency is directed to implement the State Emergency Operations Plan to coordinate State resources to support local governments in disaster response and recovery operations.

Section 5. To aid with emergency purchases necessary for response and other emergency powers as authorized by the Illinois Emergency Management Agency Act, the provisions of the Illinois Procurement Code that would in any way prevent, hinder or delay necessary action in coping with the disaster are suspended to the extent they are not required by federal law. If necessary, and in accordance with Section 7(1) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1), the Governor may take appropriate executive action to suspend additional statutes, orders, rules, and regulations.

Pursuant to Section 7(14) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(14), increases in the selling price of goods or services, including medical supplies, protective equipment, medications and other commodities intended to assist in the prevention of or treatment and recovery of COVID-19, shall be prohibited in the State of Illinois while this proclamation is in effect.
Section 11. This proclamation can facilitate requests for federal emergency and/or disaster assistance if a complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and affected local governments.

Section 12. For purposes of Public Act 101-0640, Article 15, section 15-5, amending the Open Meetings Act, new section 5 ILCS 120/7(e)(4), I find that the public health concerns at issue in this proclamation render in-person attendance of more than ten people at the regular meeting location not feasible.

Section 13. This proclamation shall be effective immediately and remain in effect for 30 days.

2020-74
DISASTER AREA - STATE OF ILLINOIS

WHEREAS, since early March 2020, Illinois has faced a pandemic that has caused extraordinary sickness and loss of life, infecting over 830,000, and taking the lives of more than 14,000 residents; and,

WHEREAS, at all times but especially during a public health crisis, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, it is critical that Illinoisans who become sick have access to necessary care from medical professionals, including hospital beds, emergency room beds, or ventilators if needed; and,

WHEREAS, it is also critical that the State’s health care and first responder workforce has adequate personal protective equipment (PPE) to safely treat patients, respond to public health disasters, and prevent the spread of communicable diseases; and,

WHEREAS, as Illinois adapts and responds to the public health disaster caused by Coronavirus Disease 2019 (COVID-19), a novel severe acute respiratory illness that spreads rapidly through respiratory transmissions and that continues to be without an effective treatment or vaccine, the burden on residents, healthcare providers, first responders, and governments throughout the State is unprecedented; and,
WHEREAS, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,

WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has now reported more than 69 million confirmed cases of COVID-19 and nearly 1.6 million deaths attributable to COVID-19 globally; and,

WHEREAS, despite efforts to contain COVID-19, the virus has continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,

WHEREAS, on March 9, 2020, I, JB Pritzker, Governor of Illinois, declared all counties in the State of Illinois as a disaster area in response to the outbreak of COVID-19; and,

WHEREAS, on March 13, 2020, the President declared a nationwide emergency pursuant to Section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”), covering all states and territories, including Illinois; and,

WHEREAS, on March 26, 2020, the President declared a major disaster in Illinois pursuant to Section 401 of the Stafford Act; and,

WHEREAS, on April 1, 2020, due to the exponential spread of COVID-19 in Illinois, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on April 30, 2020, due to the continued spread of COVID-19 in Illinois, the threatened shortages of hospital beds, ER beds, and ventilators, and the inadequate testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on May 29, 2020, due to the continued spread of COVID-19 in Illinois, and the resulting health and economic impacts of the virus, and the need to increase testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on June 26, 2020, due to the further spread of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on July 24, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress
against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on August 21, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on September 18, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on October 16, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on November 13, 2020, due to the increased spread of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, as circumstances surrounding COVID-19 have evolved and new evidence emerges, there have been frequent changes in information and public health guidance; and,

WHEREAS, the unprecedented nature of COVID-19, including the health consequences it has on not just the respiratory system but the heart, brain, kidneys, and the body’s immune response, has made the virus’s effects and its path difficult to predict; and,

WHEREAS, from the outset, data suggested that older adults and those with serious underlying health conditions are more likely to experience severe and sometimes fatal complications from COVID-19; and,

WHEREAS, evidence has shown that young people, including infants and toddlers, are also at risk of such complications; and,

WHEREAS, young and middle-aged people have comprised a significant proportion of new COVID-19 cases and hospitalized COVID-19 patients, and there is evidence that COVID-19 causes blood clots and strokes, and has caused deadly strokes in young and middle-aged people who exhibited few symptoms; and,

WHEREAS, the understanding of spread from infected individuals who have not shown symptoms has changed and, on April 12, 2020, the
federal Centers for Disease Control and Prevention (CDC) changed the period of exposure risk from “onset of symptoms” to “48 hours before symptom onset”; and,

WHEREAS, some people infected by the virus remain asymptomatic but nonetheless may spread it to others; and,

WHEREAS, although the CDC initially recommended against wearing cloth face coverings or masks as protection, as a result of research on asymptomatic and pre-symptomatic transmission, the CDC revised its conclusions and recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, the CDC now advises that cloth face coverings or masks protect both the wearer and those around them from COVID-19; and,

WHEREAS, public health research and guidance now indicates the necessity and efficacy of wearing cloth face coverings in public settings where social distancing measures are difficult to maintain, and indicates that the risk of transmission outdoors is less than the risk of transmission indoors; and,

WHEREAS, public health guidance advises that minimizing physical interactions between people who do not reside in the same household is critical to slowing the spread of COVID-19; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a disaster throughout the State have changed and continue to change, making definitive predictions of the course the virus will take over the coming months extremely difficult; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, there were 11 confirmed cases of COVID-19 in one Illinois county; and,

WHEREAS, as of today, there have been over 830,000 confirmed cases of COVID-19 in all 102 Illinois counties; and,

WHEREAS, the first death attributed to COVID-19 in Illinois was announced on March 17, 2020; and,

WHEREAS, as of today, November 13, 2020, more than 14,000 residents of Illinois have died due to COVID-19; and,

WHEREAS, from the outset, studies have suggested that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals who can pass the virus to others without knowing; and,

WHEREAS, the CDC estimates that total cases of COVID-19 may be up to 13 times higher than currently reported for certain regions; and,
WHEREAS, the number of new COVID-19 cases in the State has remained high over the past several weeks, and the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,

WHEREAS, the COVID-19 pandemic is not limited to the most populous counties, and as of today, counties in all regions of the State are demonstrating significant increased COVID-19 risk; and,

WHEREAS, without precautions COVID-19 can spread exponentially, even in less populous areas; for example, in Jasper County, a single infected first responder visited a nursing home and instigated series of infections that resulted in one of highest infection rates in the State; and similarly, in Randolph County, a single infected person attended an event in mid-March that caused that county likewise to suffer one of the State’s highest infection rates; and,

WHEREAS, numerous counties all around the State have reported more than 75 cases per 100,000 people over the past 7 days; and,

WHEREAS, the State and the Illinois Department of Public Health have developed a mitigation plan to trigger additional precautions when regions meet certain risk levels; and,

WHEREAS, as of today, all regions of the State have triggered these additional mitigation strategies; and,

WHEREAS, due to the significant spread of the virus and a surge in COVID-19 patients admitted to hospital beds and ICU beds, on November 20, 2020, I imposed a Tier 3 mitigation plan statewide; and,

WHEREAS, while the precautions taken by Illinoisans previously slowed the growth of COVID-19 cases and deaths in the State, the number of cases in the State remains high after a period of exponential growth; and,

WHEREAS, the U.S. has surpassed 15 million total cases and more than 290,000 deaths; and,

WHEREAS, COVID-19 has claimed the lives of and continues to impact the health of Black and Hispanic Illinoisans at a disproportionately high rate – magnifying significant health disparities and inequities; and,

WHEREAS, the Illinois Department of Public Health activated its Illinois Emergency Operations Plan and its Emergency Support Function 8 Plan to coordinate emergency response efforts by hospitals, local health departments, and emergency management systems in order to avoid a surge in the use of hospital resources and capacity; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State continues to develop and requires an evolving response to ensure hospitals, health care professionals and first responders are able to
meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, in order to ensure that health care professionals, first responders, hospitals and other facilities are able to meet the health care needs of all residents of Illinois, the State must have critical supplies, including PPE, such as masks, face shields, gowns, and gloves; and,

WHEREAS, the State of Illinois maintains a stockpile that supports the existing PPE supply chains and stocks at various healthcare facilities; and,

WHEREAS, while the State continues to make every effort to procure PPE, if those procurement efforts are disrupted or Illinois experiences a surge in COVID-19 cases, the State faces a life-threatening shortage of respirators, masks, protective eyewear, face shields, gloves, gowns, and other protective equipment for health care workers and first responders; and,

WHEREAS, hospitalizations now are rapidly rising again; and Illinois is using a significant percentage of hospital beds and ICU beds; and, if COVID-19 cases continue to surge, the State could face a shortage of critical health care resources; and,

WHEREAS, over the course of the COVID-19 crisis, the State has been constrained in the number of COVID-19 tests that can be taken and processed due to a limited number of testing sites and labs, as well as a shortage of necessary supplies, including the swabs needed to take samples; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, Illinois had capacity to test no more than a few hundred people per day for COVID-19 at a small number of testing sites; and,

WHEREAS, the State has developed testing sites throughout Illinois and recently has exceeded 100,000 tests per day, and the State continues to focus efforts on increasing testing capacity; and,

WHEREAS, Illinois now has tested more than 11.5 million total specimens for COVID-19; and,

WHEREAS, national projections adjusted for Illinois’ population suggest the State must continue to increase the number of tests processed per day as part of an effective effort to permanently slow and reduce the spread of COVID-19; and,

WHEREAS, in addition to causing the tragic loss of more than 14,000 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,
WHEREAS, nationwide, more than 65 million people have filed unemployment claims since the start of the pandemic – representing more than one in four U.S. workers; and,

WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate continues to be extremely high; and,

WHEREAS, the Illinois Department of Employment Security is responding to the economic crisis in a number of ways, including through the Pandemic Unemployment Assistance program; and,

WHEREAS, the Department of Commerce and Economic Opportunity is working to address the economic crisis, including through assistance programs such as the Business Interruption Grants Program for businesses that experienced a limited ability to operate due to COVID-19 related closures; and,

WHEREAS, many executive agencies in the State have focused their limited resources on the ongoing response to the COVID-19 pandemic; and,

WHEREAS, the COVID-19 pandemic has required the Illinois Department of Agriculture (IDOA) to address the outbreak’s impact on the State’s food supply chain through regulation and oversight of meat and poultry facilities and livestock management facilities; and

WHEREAS, the COVID-19 pandemic’s disruption to the livestock market has required IDOA to concentrate its resources on working with livestock owners and producers in addressing safe and environmental animal disposal concerns through its oversight and regulation of the Dead Animal Disposal Act; and

WHEREAS, IDOA regulates and investigates many other industries that have been directly impacted by the COVID-19 pandemic including, but not limited to, pesticide applicators, animal shelters, pet shops, and gas stations, and the continued, proper regulation of these industries requires IDOA to commit additional time and resources into creating new procedures for conducting remote investigations and trainings; and

WHEREAS, the COVID-19 pandemic’s detrimental impact to IDOA’s regulated industries has required IDOA to place additional time and resources into organizing and managing the timely implementation of the Business Interruption Grant Program; and

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that directly impact the health and safety of residents; and,
proclamations

WHEREAS, access to housing helps prevent spread of COVID-19 because individuals with housing are able to minimize physical contact with those outside their households; and,

WHEREAS, temporarily halting eviction proceedings avoids numerous interactions associated with being evicted, including with law enforcement officers, courtroom personnel, landlords, movers, and friends and family who agree to provide temporary housing, as well as, for those who are forced into homelessness, the interactions associated with taking refuge in a shelter; and,

WHEREAS, preventing spread by temporarily halting eviction proceedings thus also prevents spread of COVID-19 in the broader community; and,

WHEREAS, COVID-19 also has been extraordinarily disruptive to schools, and it is among the highest priorities of the State to ensure that students are able to obtain a quality education and that schools are able to provide an environment that is safe for students, teachers, and the community; and,

WHEREAS, based on the foregoing facts, and considering the rapid spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, based on the foregoing, the continuing burden on hospital resources, the ongoing potential that the State could face shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to continue to expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, it is the policy of the State of Illinois to be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional State resources available to ensure that our healthcare delivery system is capable of serving those who are sick and that Illinoisans remain safe and secure and able to obtain medical care; and,

WHEREAS, this proclamation will assist the State in facilitating economic recovery for individuals and businesses in an effort to prevent further devastating consequences from the economic instability COVID-19 has caused; and,

WHEREAS, this proclamation will assist Illinois agencies in coordinating State and Federal resources, including materials needed to test for COVID-19, personal protective equipment, and medicines, in an
effort to support the State responses as well as the responses of local governments to the present public health emergency; and,

WHEREAS, these conditions provide legal justification under Section 7 of the Illinois Emergency Management Agency Act for the new issuance of a proclamation of disaster; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people”;

NOW, THEREFORE, in the interest of aiding the people of Illinois and the local governments responsible for ensuring public health and safety, I, JB Pritzker, Governor of the State of Illinois, hereby proclaim as follows:

Section 1. Pursuant to the provisions of Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, I find that a disaster exists within the State of Illinois and specifically declare all counties in the State of Illinois as a disaster area. The proclamation authorizes the exercise of all of the emergency powers provided in Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, including but not limited to those specific emergency powers set forth below.

Section 2. The Illinois Department of Public Health and the Illinois Emergency Management Agency are directed to coordinate with each other with respect to planning for and responding to the present public health emergency.

Section 3. The Illinois Department of Public Health is further directed to cooperate with the Governor, other State agencies and local authorities, including local public health authorities, in the development and implementation of strategies and plans to protect the public health in connection with the present public health emergency.

Section 4. The Illinois Emergency Management Agency is directed to implement the State Emergency Operations Plan to coordinate State resources to support local governments in disaster response and recovery operations.

Section 5. To aid with emergency purchases necessary for response and other emergency powers as authorized by the Illinois Emergency Management Agency Act, the provisions of the Illinois Procurement Code that would in any way prevent, hinder or delay necessary action in coping with the disaster are suspended to the extent they are not required by federal law. If necessary, and in accordance with Section 7(1) of the Illinois Emergency Management Agency Act, 20 ILCS
3305/7(1), the Governor may take appropriate executive action to suspend additional statutes, orders, rules, and regulations.

Section 6. Pursuant to Section 7(3) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(3), this proclamation activates the Governor’s authority, as necessary, to transfer the direction, personnel or functions of State departments and agencies or units thereof for the purpose of performing or facilitating emergency response programs.

Section 7. The Illinois Department of Public Health, Illinois Department of Insurance and the Illinois Department of Healthcare and Family Services are directed to recommend, and, as appropriate, take necessary actions to ensure expanded access to testing for COVID-19 and that consumers do not face financial barriers in accessing diagnostic testing and treatment services for COVID-19.

Section 8. The Illinois State Board of Education is directed to recommend, and, as appropriate, take necessary actions to address any impact to learning associated with the present public health emergency and to continue to alleviate any barriers to the use of remote learning during the effect of this proclamation that exist in the Illinois School Code, 105 ILCS 5/1-1 et. seq.

Section 9. All State agencies are directed to cooperate with the Governor, other State agencies and local authorities in the development and implementation of strategies and plans to cope with and recover from the economic impact of the present public health emergency.

Section 10. Pursuant to Section 7(14) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(14), increases in the selling price of goods or services, including medical supplies, protective equipment, medications and other commodities intended to assist in the prevention of or treatment and recovery of COVID-19, shall be prohibited in the State of Illinois while this proclamation is in effect.

Section 11. This proclamation can facilitate requests for federal emergency and/or disaster assistance if a complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and affected local governments.

Section 12. For purposes of Public Act 101-0640, Article 15, section 15-5, amending the Open Meetings Act, new section 5 ILCS 120/7(e)(4), I find that the public health concerns at issue in this proclamation render in-person attendance of more than ten people at the regular meeting location not feasible.

Section 13. This proclamation shall be effective immediately and remain in effect for 30 days.

Issued by the Governor December 11, 2020.

WHEREAS, on April 1, 2020, due to the exponential spread of COVID-19 in Illinois, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on April 30, 2020, due to the continued spread of COVID-19 in Illinois, the threatened shortages of hospital beds, ER beds, and ventilators, and the inadequate testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on May 29, 2020, due to the continued spread of COVID-19 in Illinois, and the resulting health and economic impacts of the virus, and the need to increase testing capacity, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on June 26, 2020, due to the further spread of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on July 24, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on August 21, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on September 18, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on October 16, 2020, due to the resurgence of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, on November 13, 2020, due to the increased spread of COVID-19 in Illinois, the continuing health and economic impacts of the virus, and the need to continue to increase testing capacity and preserve
our progress against the disease, I declared all counties in the State of Illinois as a disaster area; and,

WHEREAS, as circumstances surrounding COVID-19 have evolved and new evidence emerges, there have been frequent changes in information and public health guidance; and,

WHEREAS, the unprecedented nature of COVID-19, including the health consequences it has on not just the respiratory system but the heart, brain, kidneys, and the body’s immune response, has made the virus’s effects and its path difficult to predict; and,

WHEREAS, from the outset, data suggested that older adults and those with serious underlying health conditions are more likely to experience severe and sometimes fatal complications from COVID-19; and,

WHEREAS, evidence has shown that young people, including infants and toddlers, are also at risk of such complications; and,

WHEREAS, young and middle-aged people have comprised a significant proportion of new COVID-19 cases and hospitalized COVID-19 patients, and there is evidence that COVID-19 causes blood clots and strokes, and has caused deadly strokes in young and middle-aged people who exhibited few symptoms; and,

WHEREAS, the understanding of spread from infected individuals who have not shown symptoms has changed and, on April 12, 2020, the federal Centers for Disease Control and Prevention (CDC) changed the period of exposure risk from “onset of symptoms” to “48 hours before symptom onset”; and,

WHEREAS, some people infected by the virus remain asymptomatic but nonetheless may spread it to others; and,

WHEREAS, although the CDC initially recommended against wearing cloth face coverings or masks as protection, as a result of research on asymptomatic and pre-symptomatic transmission, the CDC revised its conclusions and recommends wearing cloth face coverings in public settings where social distancing measures are difficult to maintain; and,

WHEREAS, the CDC now advises that cloth face coverings or masks protect both the wearer and those around them from COVID-19; and,

WHEREAS, public health research and guidance now indicates the necessity and efficacy of wearing cloth face coverings in public settings where social distancing measures are difficult to maintain, and indicates that the risk of transmission outdoors is less than the risk of transmission indoors; and,
WHEREAS, public health guidance advises that minimizing physical interactions between people who do not reside in the same household is critical to slowing the spread of COVID-19; and,

WHEREAS, as COVID-19 has spread in Illinois over the course of the Gubernatorial Disaster Proclamations, the circumstances causing a disaster throughout the State have changed and continue to change, making definitive predictions of the course the virus will take over the coming months extremely difficult; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, there were 11 confirmed cases of COVID-19 in one Illinois county; and,

WHEREAS, as of today, there have been over 830,000 confirmed cases of COVID-19 in all 102 Illinois counties; and,

WHEREAS, the first death attributed to COVID-19 in Illinois was announced on March 17, 2020; and,

WHEREAS, more than 14,000 residents of Illinois have died due to COVID-19; and,

WHEREAS, from the outset, studies have suggested that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals who can pass the virus to others without knowing; and,

WHEREAS, the CDC estimates that total cases of COVID-19 may be up to 13 times higher than currently reported for certain regions; and,

WHEREAS, the number of new COVID-19 cases in the State has remained high over the past several weeks, and the virus continues to infect thousands of individuals and claim the lives of too many Illinoisans each day; and,

WHEREAS, the COVID-19 pandemic is not limited to the most populous counties, and as of today, counties in all regions of the State are demonstrating significant increased COVID-19 risk; and,

WHEREAS, without precautions COVID-19 can spread exponentially, even in less populous areas; for example, in Jasper County, a single infected first responder visited a nursing home and instigated series of infections that resulted in one of highest infection rates in the State; and similarly, in Randolph County, a single infected person attended an event in mid-March that caused that county likewise to suffer one of the State’s highest infection rates; and,

WHEREAS, numerous counties all around the State have reported more than 75 cases per 100,000 people over the past 7 days; and,

WHEREAS, the State and the Illinois Department of Public Health have developed a mitigation plan to trigger additional precautions when regions meet certain risk levels; and,
WHEREAS, as of today, all regions of the State have triggered these additional mitigation strategies; and,

WHEREAS, due to the significant spread of the virus and a surge in COVID-19 patients admitted to hospital beds and ICU beds, on November 20, 2020, I imposed a Tier 3 mitigation plan statewide; and,

WHEREAS, while the precautions taken by Illinoisans previously slowed the growth of COVID-19 cases and deaths in the State, the number of cases in the State remains high after a period of exponential growth; and,

WHEREAS, the U.S. has surpassed 15 million total cases and more than 290,000 deaths; and,

WHEREAS, COVID-19 has claimed the lives of and continues to impact the health of Black and Hispanic Illinoisans at a disproportionately high rate – magnifying significant health disparities and inequities; and,

WHEREAS, the Illinois Department of Public Health activated its Illinois Emergency Operations Plan and its Emergency Support Function 8 Plan to coordinate emergency response efforts by hospitals, local health departments, and emergency management systems in order to avoid a surge in the use of hospital resources and capacity; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State continues to develop and requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, in order to ensure that health care professionals, first responders, hospitals and other facilities are able to meet the health care needs of all residents of Illinois, the State must have critical supplies, including PPE, such as masks, face shields, gowns, and gloves; and,

WHEREAS, the State of Illinois maintains a stockpile that supports the existing PPE supply chains and stocks at various healthcare facilities; and,

WHEREAS, while the State continues to make every effort to procure PPE, if those procurement efforts are disrupted or Illinois experiences a surge in COVID-19 cases, the State faces a life-threatening shortage of respirators, masks, protective eyewear, face shields, gloves, gowns, and other protective equipment for health care workers and first responders; and,

WHEREAS, hospitalizations now are rapidly rising again; and Illinois is using a significant percentage of hospital beds and ICU beds; and, if COVID-19 cases continue to surge, the State could face a shortage of critical health care resources; and,
WHEREAS, over the course of the COVID-19 crisis, the State has been constrained in the number of COVID-19 tests that can be taken and processed due to a limited number of testing sites and labs, as well as a shortage of necessary supplies, including the swabs needed to take samples; and,

WHEREAS, at the time I issued the first Gubernatorial Disaster Proclamation, Illinois had capacity to test no more than a few hundred people per day for COVID-19 at a small number of testing sites; and,

WHEREAS, the State has developed testing sites throughout Illinois and recently has exceeded 100,000 tests per day, and the State continues to focus efforts on increasing testing capacity; and,

WHEREAS, Illinois now has tested more than 11.5 million total specimens for COVID-19; and,

WHEREAS, national projections adjusted for Illinois’ population suggest the State must continue to increase the number of tests processed per day as part of an effective effort to permanently slow and reduce the spread of COVID-19; and,

WHEREAS, in addition to causing the tragic loss of more than 14,000 Illinoisans and wreaking havoc on the physical health of tens of thousands more, COVID-19 has caused extensive economic loss and continues to threaten the financial welfare of a significant number of individuals and businesses across the nation and the State; and,

WHEREAS, nationwide, more than 65 million people have filed unemployment claims since the start of the pandemic – representing more than one in four U.S. workers; and,

WHEREAS, the Illinois Department of Employment Security announced that the State’s unemployment rate continues to be extremely high; and,

WHEREAS, the Illinois Department of Employment Security is responding to the economic crisis in a number of ways, including through the Pandemic Unemployment Assistance program; and,

WHEREAS, the Department of Commerce and Economic Opportunity is working to address the economic crisis, including through assistance programs such as the Business Interruption Grants Program for businesses that experienced a limited ability to operate due to COVID-19 related closures; and,

WHEREAS, many executive agencies in the State have focused their limited resources on the ongoing response to the COVID-19 pandemic; and,

WHEREAS, the COVID-19 pandemic has required the Illinois Department of Agriculture (IDOA) to address the outbreak’s impact on
the State’s food supply chain through regulation and oversight of meat and poultry facilities and livestock management facilities; and

WHEREAS, the COVID-19 pandemic’s disruption to the livestock market has required IDOA to concentrate its resources on working with livestock owners and producers in addressing safe and environmental animal disposal concerns through its oversight and regulation of the Dead Animal Disposal Act; and

WHEREAS, IDOA regulates and investigates many other industries that have been directly impacted by the COVID-19 pandemic including, but not limited to, pesticide applicators, animal shelters, pet shops, and gas stations, and the continued, proper regulation of these industries requires IDOA to commit additional time and resources into creating new procedures for conducting remote investigations and trainings; and

WHEREAS, the COVID-19 pandemic’s detrimental impact to IDOA’s regulated industries has required IDOA to place additional time and resources into organizing and managing the timely implementation of the Business Interruption Grant Program; and

WHEREAS, the economic loss and insecurity caused by COVID-19 threatens the viability of business and the access to housing, medical care, food, and other critical resources that directly impact the health and safety of residents; and,

WHEREAS, access to housing helps prevent spread of COVID-19 because individuals with housing are able to minimize physical contact with those outside their households; and,

WHEREAS, temporarily halting eviction proceedings avoids numerous interactions associated with being evicted, including with law enforcement officers, courtroom personnel, landlords, movers, and friends and family who agree to provide temporary housing, as well as, for those who are forced into homelessness, the interactions associated with taking refuge in a shelter; and,

WHEREAS, preventing spread by temporarily halting eviction proceedings thus also prevents spread of COVID-19 in the broader community; and,

WHEREAS, COVID-19 also has been extraordinarily disruptive to schools, and it is among the highest priorities of the State to ensure that students are able to obtain a quality education and that schools are able to provide an environment that is safe for students, teachers, and the community; and,

WHEREAS, based on the foregoing facts, and considering the rapid spread of COVID-19 and the ongoing health and economic impacts that will be felt over the coming month by people across the State, the
current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic emergency and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, based on the foregoing, the continuing burden on hospital resources, the ongoing potential that the State could face shortages of these resources in the event of a surge in infections, and the critical need to increase the purchase and distribution of PPE as well as to continue to expand COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, it is the policy of the State of Illinois to be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional State resources available to ensure that that our healthcare delivery system is capable of serving those who are sick and that Illinoisans remain safe and secure and able to obtain medical care; and,

WHEREAS, this proclamation will assist the State in facilitating economic recovery for individuals and businesses in an effort to prevent further devastating consequences from the economic instability COVID-19 has caused; and,

WHEREAS, this proclamation will assist Illinois agencies in coordinating State and Federal resources, including materials needed to test for COVID-19, personal protective equipment, and medicines, in an effort to support the State responses as well as the responses of local governments to the present public health emergency; and,

WHEREAS, these conditions provide legal justification under Section 7 of the Illinois Emergency Management Agency Act for the new issuance of a proclamation of disaster; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that “the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws,” and states, in the Preamble, that a central purpose of the Illinois Constitution is “provide for the health, safety, and welfare of the people”;

NOW, THEREFORE, in the interest of aiding the people of Illinois and the local governments responsible for ensuring public health and safety, I, JB Pritzker, Governor of the State of Illinois, hereby proclaim as follows:

Section 1. Pursuant to the provisions of Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, I find that a disaster exists within the State of Illinois and specifically declare all counties in the State of Illinois as a disaster area. The Illinois Department of Public Health is further directed to cooperate with the Governor, other State agencies and local authorities, including local public health authorities, in the development and implementation of strategies and plans to protect the public health in connection with the present public health emergency.

Section 4. The Illinois Emergency Management Agency is directed to implement the State Emergency Operations Plan to coordinate State resources to support local governments in disaster response and recovery operations.

Section 5. To aid with emergency purchases necessary for response and other emergency powers as authorized by the Illinois Emergency Management Agency Act, the provisions of the Illinois Procurement Code that would in any way prevent, hinder or delay necessary action in coping with the disaster are suspended to the extent they are not required by federal law. If necessary, and in accordance with Section 7(1) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1), the Governor may take appropriate executive action to suspend additional statutes, orders, rules, and regulations.

Section 6. Pursuant to Section 7(3) of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(3), this proclamation activates the Governor’s authority, as necessary, to transfer the direction, personnel or functions of State departments and agencies or units thereof for the purpose of performing or facilitating emergency response programs.

Section 7. The Illinois Department of Public Health, Illinois Department of Insurance and the Illinois Department of Healthcare and Family Services are directed to recommend, and, as appropriate, take necessary actions to ensure expanded access to testing for COVID-19 and that consumers do not face financial barriers in accessing diagnostic testing and treatment services for COVID-19.

Section 8. The Illinois State Board of Education is directed to recommend, and, as appropriate, take necessary actions to address any impact to learning associated with the present public health emergency and to continue to alleviate any barriers to the use of remote learning during the effect of this proclamation that exist in the Illinois School Code, 105 ILCS 5/1-1 et. seq.
Section 9. All State agencies are directed to cooperate with the Governor, other State agencies and local authorities in the development and implementation of strategies and plans to cope with and recover from the economic impact of the present public health emergency.

Section 11. This proclamation can facilitate requests for federal emergency and/or disaster assistance if a complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and affected local governments.

Section 12. For purposes of Public Act 101-0640, Article 15, section 15-5, amending the Open Meetings Act, new section 5 ILCS 120/7(e)(4), I find that the public health concerns at issue in this proclamation render in-person attendance of more than ten people at the regular meeting location not feasible.
